Sure Start Programme: Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how many *(a)* children and *(b)* families in Hemsworth constituency have received support from his Department's Sure Start programme since the programme's inception. [288808]

Dawn Primarolo: The Department does not collect information centrally about the numbers of children and families accessing individual Sure Start Children's Centres. We expect local authorities and children's centres to collect data on the take up of services as part of their local performance management arrangements. Hemsworth currently has four Sure Start Children's Centres offering access to services to around 3,070 children under five and their families.

Teachers

Annette Brooke: To ask the Secretary of State for Children, Schools and Families (1) what support his Department provides to teachers to assist them in educating students in issues related to *(a)* international poverty, *(b)* sustainable development and *(c)* cultural diversity; [286155]

(2) if he will take steps to ensure that schools educate pupils on *(a)* global learning, *(b)* community cohesion and *(c)* international development; and if he will make a statement. [286297]

Ms Diana R. Johnson: The Geography, Science, Citizenship and History programmes of study within the new secondary curriculum provide opportunities for teachers to educate their pupils in issues related to international poverty, sustainable development, and cultural diversity. The secondary curriculum allows teachers the flexibility to personalise their offer to meet individual needs and engage all of their learners.

Support for implementing the new curriculum is provided through the Qualifications and Curriculum Development Agency's secondary curriculum website. This website offers guidance, resources and case studies to support teachers planning cross-curriculum dimensions, including "Global dimension and sustainable development" and "Identity and cultural diversity".

Environmental education is one of the key concepts for the study of geography in the new secondary curriculum and the Action Plan for Geography supports this by providing professional development opportunities for teachers in the regions to help them embed sustainable development and environmental education in their classroom practice.

The Citizenship programmes of study ensure young people develop a historical understanding of issues that have shaped contemporary life in the UK and the values we share, and allow for joint working on issues such as diversity and ethnicity. There are strong links between Citizenship Education and the teaching of history with guidance available to teachers showing how cultural and ethnic diversity can be taught through history.

The Department has also produced a Community Cohesion Resource Pack on TeacherNet to help schools and head teachers meet their duty to promote community cohesion. It has also developed the School Linking Network which helps schools establish links with other schools so that pupils from different backgrounds can mix and interact.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of teachers did not satisfactorily complete their induction year in the latest period for which figures are available. [287226]

Mr. Coaker: The General Teaching Council for England (GTCE) received notification of 24 newly qualified teachers (0.1 per cent.) who failed their induction in 2008 calendar year.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many teachers have been suspended for each reason in each of the last 10 years; [287230]

(2) how many teachers have been dismissed in each of the last 10 years. [287231]

Mr. Coaker: The operation of disciplinary procedures in schools, including those that result in suspension, is a matter for local determination. Accordingly the information requested about the suspension and any subsequent dismissals of teachers is not held centrally.

Teachers: Pay

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) what the average salary of *(a)* primary and *(b)* secondary school classroom teachers was in the last year for which figures are available; [288356]

(2) what the average salary of *(a)* primary and *(b)* secondary school headteachers was in the last year for which figures are available. [288357]

Mr. Coaker: The following table shows the average salary of classroom grade and head teachers in service in local authority maintained nursery/primary and secondary schools in England, March 2008.

Average salary of classroom grade and head teachers in local authority maintained nursery/primary and secondary schools. Year: March 2008.
Coverage: England

	Classroom grade[1]	Head teacher
Nursery/primary	31,000	52,300
Secondary	34,300	73,000

[1] Includes main classroom, upper and advanced skills teachers.

Note:
Figures are rounded to the nearest £100.

Source:
Database of Teacher Records

Teachers: Pensions

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families how many teachers have had their annual pension payments reduced as a result of over-estimates of the guaranteed minimum pension in *(a)* Test Valley borough and *(b)* Southampton; and by how much the total paid out in pension payments to such teachers will be reduced. [288396]

Mr. Coaker: The detailed information is not readily available within a geographic split. Specific details regarding the Guaranteed Minimum Pension overpayment are quoted within the National Audit Office Report "Review of Errors in Guaranteed Minimum Pension Payments" published on 16 July and available in the House Libraries.

Teachers: Recruitment

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much was paid in golden hellos by the Training and Development Agency for Schools in the last year for which figures are available. [288342]

Mr. Coaker: In 2008-09 the Training and Development Agency for Schools paid £28 million in respect of reimbursements for golden hello payments made to teachers by schools or local authorities.

Teachers: Training

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families what the amount of the tax-free training bursary for people training to be teachers of mathematics will be in *(a)* 2009-10 and *(b)* 2010-11. [286992]

Mr. Coaker: The information is as follows.

(a) New entrants to secondary mathematics Post Graduate Certificate in Education (PGCE) initial teacher training (ITT) courses commencing on or after 1 August 2009 and on or before 31 July 2010 will receive a training bursary of up to £9,000 payable by monthly instalments over the period of their initial teacher training course.

(b) The applicable training bursary rate for new entrants to secondary mathematics PGCE courses starting during the academic year 2010/11 will be announced during September 2009 at the start of the 2010/11 ITT recruitment cycle.

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the average annual salary for people begining the Graduate Teacher Programme was in the latest year for which figures are available. [288344]

Mr. Coaker: In the interests of reducing burdens on schools, information on graduate teacher pay is not collected centrally.

It is a condition of the Graduate Teacher Programme that trainees must be paid at least the minimum of the unqualified teacher pay scale. This equates to £15,113 (excluding the London area) and £19,007 in inner London (2008/09).

Once the trainees obtain qualified teacher status they are paid on the main scale for classroom teachers, starting from a minimum of £20,627 (excluding the London area) and £25,000 in inner London (2008/09).

Michael Gove: To ask the Secretary of State for Children, Schools and Families what steps have been taken by the Government with the objective of improving the quality of teaching training since 1997. [288346]

Mr. Coaker: For more than a decade we have worked with the Teacher Training Agency, now the Training and Development Agency for Schools (TDA), and training providers to secure the continuous quality improvement of Initial Teacher Training (ITT).

The standards for Qualified Teacher Status (QTS) were revised in 1998, 2002 and 2007 setting out progressively more demanding expectations of beginner teachers. Statutory requirements apply to all accredited providers of ITT to ensure training is designed to make sure new teachers have met all of the standards. The TDA uses quality categories derived from Ofsted inspections when allocating ITT places and funding to higher education institutions and school-based providers.

In the 10 years that this allocation approach has been used in full, the percentage of undergraduate and Postgraduate Certificate in Education (PGCE) ITT places allocated to high quality ITT providers has increased from 68 to 96 per cent. This approach has helped secure positive results from the TDA's annual survey of newly qualified teachers. Currently 85 per cent. of primary newly qualified teachers and 86 per cent. of secondary newly qualified teachers rate their training as good or very good.

The outcomes of the first full inspections by Ofsted of the Graduate Teacher Programme will be available in the autumn of 2009 which will assess quality of training through that route. Since 2003 Teach First has brought into teaching many high quality graduates who would otherwise not have considered the profession. Ofsted said that some of their trainees were the best it had ever seen. Currently around half of teachers trained on this route remain in the profession at the end of their induction year.

The agency's special educational needs (SEN) and disability programme of work has been developed within the context of the Government's long-term strategy: "Removing Barriers to Achievement" (2004), the "Children's Plan" (December 2007) and other evidence. Resources have been put in place to ensure that all trainees are well-prepared to teach children and young people with SEN and disabilities.

Since 2000 the agency has invested nearly £20 million of its funding from the Department to support Information and Communication Technologies (ICT) in initial teacher training alongside the Government's investment in ICT in schools. The aim is to ensure that all NQTs have strong skills in using ICT to support teaching and learning.

TDA have worked with schools and ITT providers to ensure that ITT is up-to-date, responds rapidly to changes in the schools' curriculum, that ITT partnerships are secure and that every trainee has effective school based training.

The SEN modules on dyslexia, autism and other frequently encountered special needs that were developed for primary ITT, were launched in June 2008 and have been well-received. Similar modules for secondary training were launched on 25 June 2009. PGCE materials are due to be launched later in 2009.

Evaluation shows that the great majority of trainee teachers have access to a personal laptop and have opportunities to use ICT to support teaching and learning while on school experience. Research indicates that trainees and ITT providers have integrated the effective use of ICT in practice.

"The Teacher Training Resource Bank" (www.ttrb.ac.uk) provides access to up-to-date materials and relevant research to support ITT. Over 5,000 articles are viewed daily and the site has 18,000 registered users. Evaluation shows that the resources support quality improvement by giving trainers access to key materials cost-effectively.

In 1997 there were approximately 27,000 trainees requiring schools experience as part of their ITT programme. Currently the figure is approximately 38,000. Ofsted indicates that this expansion has been achieved effectively.

DCSF and TDA monitor and support training providers to implement the approach to the teaching of early reading recommended by Sir Jim Rose based on the teaching of phonics.

TDA has a range of programmes t o improve the recruitment of mathematics and science teachers by means of a targeted campaign. The target for the training of primary teachers of modern languages with 900 new teachers having an enhanced experience in teaching French, German or Spanish in 2008/09 has been met.

The TDA have boosted the numbers of trainees who report having had a 'very good' or 'good' grounding in phonics from 35 per cent. in 2006 to 49 per cent. in the 2008 cohort. TDA have ambitious targets for further progress.

The diversity of routes to teaching and programmes such as Transition to Teaching has boosted the supply of new science and maths teachers. The agency works to help provide additional training both pre-service and in-service to develop the subject knowledge of specialist teachers in science and mathematics.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many teachers entered the profession via the Graduate Teacher Programme in the latest year for which figures are available; [288347]

(2) how many new primary school teachers had B.Ed degrees in the latest year for which figures are available. [288348]

Mr. Coaker: In 2006/07, 5,140 trainees gained qualified teacher status (QTS) through the graduate teacher programme. There were 5,090 trainees who gained BA or BSc with QTS or BEd via a primary initial teacher training course.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much money has been spent on developing the Masters course in teaching and learning. [288349]

Mr. Coaker: Since the Masters in Teaching and Learning was announced by the Secretary of State for Children, Schools and Families in March 2008, £1,482,070 has been spent on developing the programme. A further £3,250,123, split between the Training and Development Agency for Schools and MTL providers (schools and higher education institutions), is budgeted for the development of the programme between now and its launch in April 2010.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many students are registered to begin the Masters course in teaching and learning in the next academic year. [288350]

Mr. Coaker: The latest figures available show that as of 17 July 2009, 2,893 trainee teachers had expressed an interest in the Masters in Teaching and Learning (MTL) via the TDA's website, of which 1,871 intend to teach in an eligible school and enrol for MTL in 2009/10. Eligible newly qualified teachers will be able to enrol with their MTL provider in January 2010, to commence MTL from the summer term 2010.

Teaching Methods

Michael Gove: To ask the Secretary of State for Children, Schools and Families what percentage of classes in *(a)* primary and *(b)* secondary schools were set by ability at the most recent date for which figures are available. [286403]

Mr. Coaker: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the House Libraries.

Letter from Christine Gilbert, dated 16 July 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Table A shows the data Ofsted holds on the use of setting, streaming or banding in lessons observed during inspections carried out in the academic year 2007/08. Inspectors record whether classes are in sets, streamed or banded (as one category), mixed ability or grouped by criteria other than ability.

Table A: All lessons observed during Ofsted inspections 2007/08, by lesson grouping

	Percentage of lessons observed		
School phase	*Mixed ability*	*Setted, streamed or banded*	*Other*
Primary schools (including middle deemed primary)	85	14	2
Secondary schools (including middle deemed secondary, academies and city technology colleges)	54	45	1

Note:
These figures include all lessons, not just national curriculum subjects, in years 1 to 6 (primary) and 7 to 11 (secondary).

Please note that these data do not enable us to estimate how many classes in England are set by ability. Since the introduction of the current school inspection framework in September 2005 (commonly known as section 5), the recording of how lessons are organised has been based on discussions with the headteacher or teacher during the inspection, or by reference to the lesson plan at the time of observation. A much smaller number of lessons are observed than would have been seen under the previous inspection framework. Lessons seen may not, therefore, represent the way pupils are grouped in the school as a whole.

For clarity, setting is the term used to describe the organisation of pupils in classes on the basis of their prior attainment in the particular subject being taught. The term banding, which is similar to streaming, is used when the decision as to which pupils are included in a class is based on the prior attainment in a range of subjects. Ofsted does not currently differentiate between setting, streaming and banding in the data collected during lesson observations.

It is of some concern to me that we do not have ready access to a comprehensive data set about pupil groupings. As a consequence, from September, headteachers have been asked to record the detail of the pupil groupings in use in their schools in their Self-Evaluation Forms.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Young People: Connexions Service

Michael Gove: To ask the Secretary of State for Children, Schools and Families what percentage of 13 to 19 year olds received one-to-one careers guidance from a Connexions adviser in each local authority in each of the last five years. [287244]

Mr. Iain Wright: The information is not available in the form requested.

Young people: Unemployment

Mr. Clappison: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 9 July 2009, *Official Report*, column 1018W, on young people: unemployed, how many and what proportion of people aged 16 to 24 years old were not in education, employment or training in each region in the second quarter of 2009. [288021]

Mr. Iain Wright: Quarterly estimates of the number of people aged 16-24 who were not in education, employment or training are produced from the labour force survey (LFS). The LFS data relating to the second quarter of 2009 are not available until 12 August 2009.

Youth Services: Greater London

Ms Buck: To ask the Secretary of State for Children, Schools and Families what *(a)* capital and *(b)* other expenditure from the public purse per 1,000 of the population between 11 and 18 years old was in respect of youth services in real terms in each London local authority in (i) 1997 and (ii) 2008. [288336]

Dawn Primarolo: The Government do not set a budget for spending on youth services. Local authorities receive funding from Government through the revenue support grant for youth services and it is for them to decide how much funding should be spent based on Government priorities and local needs. Information on local authority capital expenditure on youth facilities is not collected by the Department.

Since 2006, the Department has provided capital funding to local areas through the Youth Capital Fund and from 2008, the 'myplace' initiative.

The following table sets out expenditure in respect of youth services for each London local authority from 2001-09 and funds allocated in respect of the Youth Capital Fund and 'myplace' initiative for 2008-09. The Department does not hold information as far back as 1997.

The Education (Budget Statements) (England) Regulations, budgeted net expenditure by local authorities in England on youth services[1]: 2000-01 to 2008-09[2, 3], real terms figures[3] as reported by local authorities as at 16 July 2009

Notes:
1. Youth service includes the following items of planned expenditure on the Youth Service and youth work:
Employees
Staff Training
Premises-related expenditure
Transport-related expenditure
Supplies and services
Third-party payments
Support services
Youth work costs at residential and non-residential youth centres
Youth work costs at activity at outdoor and urban studies centres
Grant funding to the voluntary sector for youth work.
2. The 2001-02 and 2002-03 figures also include any local authority youth service provision that contributed to the delivery of the Connexions Service plus any Connexions Service specific funding.
3. Cash figures are converted to 2008-09 prices using the 30 June 2009 gross domestic product (GDP) deflators.
Source:
Figures are drawn from local authorities Section 52 Budget Statement (Table 1) submitted to the DCSF (formally DfES).

Youth capital fund and youth capital fund plus, 2008-09

Written Answers to Questions

Tuesday 21 July 2009

HOME DEPARTMENT

Health and Safety Executive: Publications

Robert Neill: To ask the Secretary of State for the Home Department if he will place in the Library a copy of the last inspection report of the Health and Safety Executive by *(a)* the Office of the Surveillance Commissioner and *(b)* the Interception of Communications Commissioner. [288289]

Mr. Hanson: The oversight commissioners are independent of Government and it is a matter for them and the individual public authority concerned to decide whether it is appropriate for inspection reports to be made more widely available.

Identity and Passport Service

Lynne Jones: To ask the Secretary of State for the Home Department how much the Identity and Passport Service and its predecessors have cost the public purse in each of the last 12 years; and how many passports were issued in each such year. [286157]

Mr. Woolas: In delivery of passport services to the public, passport fees are set to recover the costs of the service provided as agreed with HM Treasury. In recent years there has been public funding required to set up the national identity service which is not recovered by fee income.

The number of passports issued in the last 12 years is as below:

Financial year	*Passports issued*
1997-98	4,527,865
1998-99	4,681,885
1999-2000	5,393,403
2000-01	5,509,704
2001-02	5,588,550
2002-03	5,354,348
2003-04	5,723,473
2004-05	6,031,325
2005-06	6,453,095
2006-07	6,212,339
2007-08	5,683,445
2008-09	5,225,115

Alcoholic Drinks: Misuse

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females in each court service area aged (i) between 10 and 12 years, (ii) between 13 and 16 years, (iii) between 17 to 18 years, (iv) between 19 and 24 years and (v) over 24 years old were (A) proceeded against, (B) found guilty and (C) sentenced to immediate custody for alcohol-related offences in each year since 1997. [285785]

Alan Johnson: Data showing the number of persons proceeded against at the magistrates courts, found guilty at all courts and sentenced to immediate custody for alcohol related offences, England and Wales 1997 to 2007 (latest available) are shown in the following table.

Data for 2008 will be available in autumn 2009.

The number of males and females proceeded against at magistrates courts, found guilty at all courts and sentenced to immediate custody for alcohol related offences[1], by age group England and Wales[2,3]

[1] Includes offences of:
(a) Drunkenness simple.
(b) Drunkenness with aggravation.
(c) Offences by licensed person.
(d) Other offences against intoxicating liquor laws.
(e) Driving after consuming alcohol or taking drugs.

[2] The number proceeded against and number found guilty statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces and the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

[Ref: IOS 364-09]

Chris Huhne: To ask the Secretary of State for the Home Department (1) how many *(a)* men and *(b)* women aged (i) under 31, (ii) 31 to 40, (iii) 41 to 50, (iv) 51 to 60, (v) 61 to 70 and (vi) over 70 years have been issued with penalty notices for disorder for being drunk and disorderly in each of the last five years; [285781]

(2) how many *(a)* men and *(b)* women aged (i) 10 to 12, (ii) 13 to 16, (iii) 17 to 18 and (iv) 19 to 30 years old have been issued with penalty notices for disorder for being drunk and disorderly in each of the last five years. [285784]

Alan Johnson: Information showing the number of males and females issued with a penalty notice for disorder for being drunk and disorderly in England and Wales, broken down by sex and age group from 2004 to 2007 can be viewed in the following table.

2008 data will be available in the autumn of 2009.

Number of penalty notices for disorder issued for being drunk and disorderly[1], by sex and age group, 2004 to 2007[2,3]

71 and over	2	3	2	7
Total	4,330	6,098	7,181	7,930

[1] Data includes the following offence descriptions and corresponding statutes:
Being found drunk in a highway or other public place, whether a building or not, or on licensed premises—Licensing Act 1872, section 12;
Being guilty while drunk of disorderly behaviour—Criminal Justice Act 1967, section 91.
[2] The penalty notice for disorder (PND) scheme was implemented in all 43 police forces in England and Wales in 2004 under the provisions of the Criminal Justice and Police Act 2001. Under the scheme, the police are able to issue penalty notices (£50 or £80) to those aged 18 and over for a range of minor alcohol-related offences including being drunk in a highway which attracts the lower tariff. The scheme was extended to 16 and 17-year-olds under the Anti-social Behaviour Act 2003; the tariffs for young people are £40 and £30.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.
[4] Figures for 2004 exclude 16 PNDs issued where the gender of the offender was not recorded.

Office for Criminal Justice Reform—Evidence and Analysis Unit

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females aged (i) 10 to 12, (ii) 12 to 16, (iii) 16 to 18, (iv) 18 to 24 and (v) over 24 years have been issued with (A) a penalty notice for disorder and (B) a caution for alcohol-related offences in each police force area in each year since 1997. [286042]

Alan Johnson: Information showing the number of males and females issued with a caution from 1998 to 2007, and the number of males and females issued with a penalty notice for disorder 2004 to 2007 for alcohol related offences can be viewed in the tables placed in the House Library.

2008 data will be available in the autumn of 2009.

Alcoholic Drinks: Young People

Andrew Stunell: To ask the Secretary of State for the Home Department how many successful prosecutions there were for selling alcohol to people under the age of 18 years from *(a)* on-licence and *(b)* off-licence premises in each police force in the North West in each of the last five years. [285374]

Mr. Alan Campbell: Data showing the number of defendants found guilty at all courts for selling alcohol to persons aged under 18, in each police force area in the north-west region from 2003-07 (latest available) are shown in the following table.

It is not possible to differentiate between sales on premises and off premises in the court proceedings database.

Data for 2008 will be available in autumn 2009.

Number of defendants found guilty at all courts for selling alcohol to persons aged under 18[1], by police force area in the North West region, 2003-07[2, 3]

Force	2003	2004	2005	2006	2007
Cheshire	5	15	5	6	5
Cumbria	—	1	6	1	1
Greater Manchester	87	135	92	112	30
Lancashire	13	15	65	22	21
Merseyside	27	9	11	16	20
Total	132	175	179	157	77

[1] Includes the following offences:
(a) Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18.
Selling etc. intoxicating liquor to person under 18 for consumption on the premises.
(b) Wholesaler selling intoxicating liquor to a person under 18.
(c) Sale of alcohol to person under 18.
(d) Allowing sale of alcohol to person under 18.
(e) Persistently selling alcohol to children.
[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Animal Experiments

Mr. Drew: To ask the Secretary of State for the Home Department when he last reviewed his Department's performance in applying its policy of refinement, replacement and reductions in respect of animal experimentation. [287982]

Mr. Alan Campbell: The Government strongly support and continue to promote the development of refinement, replacement and reduction methods, commonly known as the 3Rs, wherever possible. Indeed the use of animals in scientific procedures will not be licensed if alternative non-animal techniques are available. Application of the 3Rs is kept under continuous review, and progress is

reported in a variety of ways, including the Animals Scientific Procedures Inspectorate and Division Annual Report for 2008, published on 21 July 2009, other departmental publications, and presentations to scientific and other meetings.

Antisocial Behaviour: Alcoholic Drinks

James Brokenshire: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females aged (i) under 16, (ii) between 16 and 19, (iii) between 20 and 25, (iv) between 26 and 30, (v) between 31 and 40, (vii) between 51 and 60 and (viii) 61 and over have been cautioned, proceeded against or received a penalty notice for disorder for being drunk and disorderly in each police force area in the last 12 months. [284833]

Mr. Alan Campbell: Information showing the number of males and females cautioned, proceeded against and issued with a penalty notice for disorder for being drunk and disorderly in England and Wales 2007, broken down by age group and police force area, can be viewed in tables 1, 2 and 3.

2008 data will be available in the autumn of 2009.

[1] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.
[2] These data are on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used

Table 2: Number of defendants proceeded against at magistrates courts for drunk and disorderly offences, broken down by age, sex and police force area, England and Wales 2007[1, 2]

[1] Data include the following offence descriptions and corresponding statutes:
Being found drunk in a highway or other public place, whether a building or not, or on licensed premises—Licensing Act 1872, section 12;
Being guilty while drunk of disorderly behaviour—Criminal Justice Act 1967, section 91.
[2] Every effort is made to ensure that the figures presented are accurate and complete However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department which benefits in *(a)* cash and *(b)* kind his Department provides for asylum seekers awaiting a decision on their case who are (i) single, (ii) accompanied by their spouse or partner, (iii) have a partner and one child, (iv) have a partner and two children and (v) have a partner and three children. [283597]

Mr. Woolas: Under the Immigration and Asylum Act 1999 asylum seekers and their dependants are not permitted to access the mainstream system of welfare benefits.

Asylum seekers and their dependants who need support to avoid destitution are given it by the UK Border Agency from the time they arrive in the UK until their claim is fully determined. Support takes the form of subsistence, accommodation or both.

Accommodation is fully furnished and includes all utilities and council tax payment. It is provided through a series of target contracts which the UK Border Agency has entered into with both public and private sector accommodation providers.

From 6 July 2009, levels of subsistence support will be per week £35.13 for a single asylum seeker aged 18 to 24 or £42.16 for a single asylum seeker aged over 25; £69.57 for an asylum seeker accompanied by a spouse or partner; £120.38 for an asylum seeker with a partner and one child under 16; £171.19 for an asylum seeker with a partner and two children under 16; £222.00 for an asylum seeker with a partner and three children under 16.

From 5 October 2009, all new single applicants without children will receive £35.13 a week regardless of age.

The regulations updating asylum support rates were laid before Parliament on 11 June 2009.

Stephen Williams: To ask the Secretary of State for the Home Department what estimate he has made of the number of legacy asylum applications which will be decided by the 2011 target date. [287778]

Mr. Woolas: The previous Home Secretary informed Parliament in July 2006 of

"the Immigration and Nationality Directorate's case load of around 400,000 to 450,000 electronic and paper records, which as hon. Members also know, are riddled with duplication and errors, and include cases of individuals who have since died or left the country, or are now EU citizens."

She committed to tackling this case load in five years or less. The Case Resolution Directorate as made good progress and remain committed and on track to conclude these cases by summer 2011.

Asylum Seekers: Detention of Children

Chris Grayling: To ask the Secretary of State for the Home Department what the average length of stay of a child aged 16 years or under in an immigration removal centre was in each of the last four years. [288513]

Alan Johnson: The information is not held centrally and could be provided only by checking individual records over the period requested at a disproportionate cost.

Chris Grayling: To ask the Secretary of State for the Home Department how many children aged 16 years and under were detained in each asylum and immigration centre in each month in each of the last two years. [288555]

Alan Johnson: Statistics on persons (including children) entering detention held solely under Immigration Act powers in the first two quarters of 2009 will be published for the first time in August 2009 in the Control of Immigration: Quarterly Statistical Summary, United Kingdom—Q2 2009 and on a quarterly basis thereafter. Copies of this bulletin will be available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Information outside this time period is not available.

Asylum: Bahrain

Mr. Purchase: To ask the Secretary of State for the Home Department how many Bahrain nationals have been granted asylum in the UK. [267846]

Mr. Woolas: It is not possible to provide information on people currently receiving asylum in the UK. People who have previously applied for or been granted asylum may not now currently reside in the UK. The number of Bahrain nationals who have applied for asylum in the UK between 2001 and 2008 was 10 principal applicants. The number who have been granted asylum at initial decision between 2001 and 2008 was five. Initial decisions do not necessarily relate to applications made in the same period.

Information on main asylum nationalities is published annually and quarterly. The latest quarterly statistics were published on 24 February 2009 and are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Asylum: Families

Ms Abbott: To ask the Secretary of State for the Home Department if he will make an assessment of the merits of granting children who have remained in their country of origin while their parents have claimed asylum in the UK the right to join their parents in circumstances in which their parents are unable to return to their country of origin; and if he will make a statement. [286938]

Mr. Woolas: There are no provisions under the immigrations rules which allow the family members of an asylum seeker to apply for entry clearance to join an individual here in the United Kingdom (UK) while an asylum claim is pending.

The United Kingdom Border Agency (UKBA) recognises that families become fragmented because of the speed and manner in which a person seeking asylum has fled to the UK, therefore we allow dependants arriving at a later date to be added to a main applicants asylum claim, providing an initial decision has not yet been made on the asylum claim.

Where an individual's claim for asylum has been successful, their minor children may apply for immediate family reunion under paragraph 352D of the immigration rules.

Ms Abbott: To ask the Secretary of State for the Home Department if he will make an assessment of the merits of extending the right to automatic family reunion to people claiming asylum from persecution who are granted the right to live in the UK under the Legacy programme; and if he will make a statement. [286939]

Mr. Woolas: From 30 August 2005 individuals qualifying for asylum, including those qualifying under the Legacy programme, are normally granted five years limited leave to remain (LTR). Individuals who qualified for asylum prior to this date were granted indefinite leave to remain (ILR).

The family reunion provisions contained in paragraph 352A-FI of the immigration rules, allows individuals granted asylum (either five years LTR or ILR) and those benefiting from a grant of five years humanitarian protection (HP) to sponsor an application for family reunion immediately, upon their grant of leave.

The right to sponsor an application under family reunion provisions will fall away once the sponsor has obtained their British citizenship and family members will be expected to apply under the general settlement rules, laid out in part 8 of the immigration rules.

Ms Abbott: To ask the Secretary of State for the Home Department if he will make an assessment of the merits of granting children who have remained in their country of origin and who have reached the age of 18 years in the period during which their parents have been seeking asylum in the UK, the right to join their parents in the UK on the settlement of their parents' asylum claim if they turn 18 during the period in which the claim is being settled; and if he will make a statement. [286940]

Mr. Woolas: Family reunion is intended to allow family members (that is, those who formed the part of the family unit prior to the time that the sponsor fled to seek protection) to reunite with their sponsors who are recognised refugees or are benefiting from humanitarian protection (post 30 August 2005) in the UK.

Only pre-existing families are eligible for family reunion under the provisions of the immigration rules, paragraph 352A-FI, that is the spouse, civil partner, unmarried/same sex partner and minor children who formed part of the family unit at the time the sponsor fled to seek asylum.

Family members who do not meet the requirements of the family reunion provisions may still be considered for family reunion if compassionate and compelling circumstances exist. Each case is considered on its individual merits.

British Nationality

Mr. Clappison: To ask the Secretary of State for the Home Department how many people were granted UK citizenship in each of the last four quarters for which figures are available. [288009]

Mr. Woolas: The latest quarterly figures were published in Table 4b in the 'Control of Immigration: Quarterly Statistical Summary, United Kingdom—First Quarter 2009' available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/pdfs09/immiq109.pdf

A copy of the table follows:

Table 4b: Grants of British citizenship in the United Kingdom by basis of grant and refusal, Q4 2006 to Q1 2009

	Grants by basis of grant					
	Total grants	Residence	Marriage	Minor Children	Other	Total refusals
2006 Q4	36,465	19,675	5,360	10,200	1,235	3,295
2007 Q1	44,610	24,230	6,620	11,970	1,790	4,185
2007 Q2	40,370	21,250	7,250	10,265	1,610	3,155
2007 Q3	43,770	23,590	8,955	9,730	1,485	4,170
2007 Q4	35,890	18,715	7,600	8,565	1,010	4,115
2008 Q1	34,875	18,220	7,685	8,115	855	2,575
2008 Q2	23,325	10,575	4,460	7,230	1,060	1,860
2008 Q3	32,220	16,185	8,005	7,040	995	2,310
2008 Q4	38,955	20,735	8,925	8,450	845	2,340
2009 Q1	54,615	27,720	13,455	12,545	890	2,715

Data for quarter two are scheduled for publication on 27th August 2009 and will be available from the Library of the House and from the Home Office Research, Development and Statistics website

http://www.homeoffice.gov.uk/rds/immigration1.html

British Nationality

Patrick Mercer: To ask the Secretary of State for the Home Department how many individuals have had their British citizenship revoked by his Department since 19 February 2001; and how many such individuals have been *(a)* removed, *(b)* deported and *(c)* excluded from the UK. [283819]

Mr. Woolas: Three individuals have been deprived of their British citizen status since 2001. A fourth has had a deprivation order served but the deprivation has not yet come into effect. None of these four have been removed or deported because two, who are overseas, have been excluded following deprivation. One of these has appealed against the deprivation decision. There is no right of appeal against exclusion.

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for the Home Department pursuant to the answer of 21 January 2009, *Official Report*, column 1482W, on community relations: finance, what the title is of each of the 33 projects aimed at disrupting violent extremism. [271522]

Mr. Hanson *[holding answer 28 April 2009]:* I refer the hon. Member to the answer given on 20 July 2009, *Official Report*, columns 906-07W.

Crime: West Yorkshire Police Force

Jon Trickett: To ask the Secretary of State for the Home Department what the crime detection rate for West Yorkshire police force was in each year since 1996-97. [288659]

Mr. Alan Campbell: The information requested is given in the tables.

It should be noted that non-sanction detections that contribute to the percentage change in total detection rates have fallen in recent years reflecting a significant shift by many police forces away from recording detections of crime where no further action is taken. For this reason overall detection rates over time are not fully comparable. From 1 April 2007 the rules governing recording of non-sanction detections were revised to reduce the scope within which they can be claimed to a very limited set of circumstance.

There are other changes affecting trends in detection rates that are discussed in section 3.5 of Volume 2 of 'Crime in England Wales 2008/09' which has been deposited in the Library of the House.

Table 1: Detection rates in West Yorkshire

	Detection rate (percentage)
1996	24
1997	27

Table 2: Detection rates in West Yorkshire 1998-99 to 2001-02[1,2]

	Detection rate (percentage)
1998-99	27
1999-2000	25
2000-01	23
2001-02	19

[1] The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
[2] The data in this table are prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 3: Detection rates in West Yorkshire 2002-03 to 2008-09[1]

	Detection rate (percentage)
2002-03	20
2003-04	20
2004-05	25
2005-06	28
2006-07	29
2007-08	24
2008-09	26

[1] The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Crimes of Violence: Yorkshire

Jon Trickett: To ask the Secretary of State for the Home Department how many *(a)* crimes of violence against the person and *(b)* crimes were recorded in (i) West Yorkshire and (ii) Hemsworth constituency in each year since 1996-97. [289059]

Mr. Alan Campbell: The available information is given in the following tables.

Statistics for Hemsworth are not collected centrally. Figures have been provided for the Wakefield local authority area which includes Hemsworth.

Table 1: Offences recorded by the police in West Yorkshire and Wakefield, 1996 and 1997

		Number of offences
Area and offence	1996	1997
West Yorkshire		
Violence against the person	8,376	8,183
Total recorded crime	268,716	244,142

Table 1: Offences recorded by the police in West Yorkshire and Wakefield, 1996 and 1997

Number of offences

Area and offence	*1996*	*1997*
Wakefield		
Violence against the person	n/a	n/a
Total recorded crime	n/a	n/a

Table 2: Offences recorded by the police in West Yorkshire and Wakefield, 1998-99 to 2001-02[1, 2]

Number of offences

Area and offence	*1998-99*	*1999-2000*	*2000-01*	*2001-02*
West Yorkshire				
Violence against the person	16,683	17,738	17,091	19,104
Total recorded crime	273,809	260,237	258,908	298,845
Wakefield				
Violence against the person	n/a	2,630	2,412	2,632
Total recorded crime	n/a	n/a	n/a	35,053

[1] The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
[2] The data in this table are prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 3: Offences recorded by the police in West Yorkshire and Wakefield, 2002-03 to 2008-09[1]

Number of offences

Area and offence	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
West Yorkshire							
Violence against the person	30,850	45,864	44,609	48,879	43,267	39,027	34,573
Total recorded crime	322,794	325,556	263,534	258,887	249,670	228,195	217,223
Wakefield							
Violence against the person	4,208	7,225	6,715	7,924	7,330	6,250	5,381
Total recorded crime	42,220	48,302	37,573	37,847	35,407	31,161	29,732

[1] The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Criminal Records Bureau

Mr. Burstow: To ask the Secretary of State for the Home Department when he expects to end the system of enhanced Criminal Records Bureau disclosures; and if he will make a statement. [288636]

Mr. Hanson: Part V of the Police Act 1997 which underpins the disclosure service makes provision for the issue of three levels of disclosure: basic, standard and enhanced. The disclosure service plays a vital role in the enabling organisations to make better informed and safer recruitment decisions. There are no plans to end this system or indeed cease the issuing of enhanced criminal records checks (enhanced disclosures).

Criminal Records Bureau: Vetting

Jenny Willott: To ask the Secretary of State for the Home Department how many individuals in each region have undergone *(a)* two, *(b)* three, *(c)* four and *(d)* five or more standard or enhanced Criminal Records Bureau checks in respect of posts which would require their names to be added to the list maintained under the (i) Protection of Children Act 1999 and (ii) Protection of Vulnerable Adults Act 2003 in each of the last 12 months; and if he will make a statement. [288172]

Mr. Hanson: I refer the hon. Member to the written answer of 13 July 2009, *Official Report*, columns 138-39W.

Jenny Willott: To ask the Secretary of State for the Home Department what the average time taken by the Criminal Records Bureau was to undertake checks in respect of individuals applying for posts which would require their names to be added to the list maintained under the *(a)* Protection of Children Act 1999 and *(b)* Protection of Vulnerable Adults Act 2003 in each police force area in each of the last (i) five years and (ii) 12 months; and if he will make a statement. [288173]

Mr. Hanson: I refer the hon. Member to the written answer of 29 June 2009, *Official Report*, columns 79-80W.

Cyber Security

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what mechanisms are in place to ensure that measures adopted to protect cyber security respect human rights. [286999]

Mr. Hanson: As with all national security activity, it is vital that Government powers are used proportionately and in a way that is consistent with individual liberty. The UK's Cyber Security Strategy sets out in unambiguous terms the need to preserve and protect the rights to which we are accustomed, and to build a strong ethical foundation for activity to provide security in and through cyber space. As part of the cross-Government programme of cyber security work announced on 25 June 2009, the Government will establish an Ethics Advisory Committee to advise on this issue and the House will be updated on its membership.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the Cyber Security Operations Centre will work in co-operation with the Cooperative Cyber Defence Centre of Excellence. [287002]

Mr. Hanson: The Cyber Security Operations Centre (CSOC) will be established to bring together existing multi-agency efforts to provide situational awareness, analysis and incident response co-ordination in the cyber security field. It will co-ordinate its activities internationally with appropriate allied organisations and, where appropriate, enable the enhancement of existing departmental linkages.

The United Kingdom is fully supportive of this Estonian-hosted Cyber Defence initiative and their endeavours in this important area. As a NATO accredited entity, the MOD has acted as the UK's interface to the NATO Cooperative Cyber Defence Centre of Excellence, providing participation in events sponsored by the Centre and specific mutually beneficial workstreams.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) how he plans to improve knowledge of cyber security among *(a)* citizens, *(b)* businesses and *(c)* other Government Departments; [287003]

(2) how he plans to reduce the impact of cyber operations on UK interests; [287004]

(3) how he plans to reduce the vulnerability of UK interests to cyber warfare operations; [287005]

(4) how he plans to reduce the likelihood of potential adversaries launching a cyber attack against the UK; [287006]

(5) what steps he plans to take to involve *(a)* members of the public, *(b)* business and *(c)* international partners in the cyber security strategy; [287007]

(6) what recent discussions he had with cyber security experts from higher education institutions on implementing the cyber security strategy. [287008]

Mr. Hanson: The Government's Cyber Security Strategy, published last month, announced new governance structures and a cross-Government programme of work in pursuit of the UK's strategic cyber security objectives. These objectives include reducing the risks and exploiting the opportunities from our use of cyber space through improving knowledge, capabilities and decision-making.

These objectives will be delivered through eight new workstreams, overseen by the Office of Cyber Security and supported by the Cyber Security Operations Centre:

Workstream 1: Safe, secure and Resilient Systems

Workstream 2: Policy, Doctrine, Legal and Regulatory Issues

Workstream 3: Awareness and Culture Change

Workstream 4: Skills and Education

Workstream 5: Technical Capabilities and Research and Development

Workstream 6: Exploitation

Workstream 7: International Engagement

Workstream 8: Governance, Roles and Responsibilities

These workstreams will build on existing work to take forward the Government's plans for reducing the impact on and vulnerability of the UK's interests from cyber attacks. They also describe how the Government would improve knowledge and awareness of the issues and the range of stakeholders who will be involved in the process, including the public.

As the Strategy makes clear, this programme will be delivered through a partnership approach comprising Government, organisations across all sectors, and the public.

Cybercrime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what definition his Department uses of *(a)* cyber terrorism and *(b)* cyber warfare. [286945]

Mr. Hanson: Broadly, an act of 'cyber terrorism' refers to a non-physical attack by terrorists on our information and communications infrastructure. As the UK's Cyber Security Strategy makes clear, terrorists and violent extremists also make use of cyberspace for purposes such as communication, co-ordination, propaganda, fundraising, radicalisation and recruitment. However, due to the inherent challenges associated with attributing responsibility for actions in cyberspace, our security approach aims to address the range of threats which may manifest in the cyber domain rather than seeking to categorise specific actions as cyber terrorism.

There is an ongoing and broad debate regarding what 'cyber warfare' might entail. However, it is clear that the defence and exploitation of information systems are increasingly important for national security and we recognise the need to develop military and civil capabilities to ensure that we can defend against attack and take steps against adversaries where necessary.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what recent steps his Department has taken to reduce levels of *(a)* cyber attacks and *(b)* other cross-jurisdictional crimes affecting the UK. [286947]

Mr. Hanson: The Government's Cyber Security Strategy, published last month, announced new governance structures and programmes of work in pursuit of the UK's strategic cyber security objectives.

The Office of Cyber Security (OCS), based in the Cabinet Office, will be established in September 2009 to provide strategic leadership for and coherence across Government on all cyber security issues. These include measures to improve the security and resilience of critical systems in the public and private sector, enhance our ability to detect cyber attacks and work to develop international law and doctrines of national defence in cyberspace.

The Government have also recently published "Extending Our Reach: A Comprehensive Approach to Tackling Serious Organised Crime". Organised crime is an international business, for example, trafficking in drugs or illegal immigrants. In addition, much e-crime is committed by individuals outside the UK's borders.

We need to act wherever we can have the greatest impact on reducing the harms to the UK and its citizens. That is why we have operational footprint across the world, including in South America, Africa and Afghanistan. SOCA work with Spanish authorities, for example, has led to the arrest of 101 subjects who had fled from UK justice to Spain. Among these there have been 25 drug traffickers, 12 individuals wanted for murder and eight money launderers.

International work can be the most effective way to cut organised crime profits, bring criminals to justice and reduce the harms caused in the UK.

Chris Grayling: To ask the Secretary of State for the Home Department how many cyber attacks have been detected against *(a)* his Department and *(b)* the UK Border Agency in the last five years. [288552]

Alan Johnson: The Government consider a range of information on such issues and take appropriate steps where necessary. It would not be in the interests of national security to provide information about specific threats and attacks, either in terms of the type of threat, the method or the target, as this could aid potential adversaries.

Cyberspace

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what recent discussions he has held with his US and European counterparts on a multilateral approach to securing cyberspace. [287001]

Mr. Hanson: The Cabinet Office currently provides the lead for policy on cyber security and has, supported by representatives from across Government, continued to engage closely with international partners during the development of the UK's recently published Cyber Security Strategy.

As the strategy explains, the security of cyberspace is a transnational issue and, as such, working with international partners and organisations, including those in the US and Europe, is essential to achieving the UK's strategic cyber security objectives.

Departmental Accountancy

Steve Webb: To ask the Secretary of State for the Home Department when he expects to publish his Department's resource accounts for 2008-09. [287332]

Mr. Woolas: The Department has published the 2008-09 resource accounts in the Journal Office. Copies are available in the Vote Office, shortly after they are laid. The Department expects to publish the 2008-09 resource accounts within one month of laying the typescript accounts.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for the Home Department how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287802]

Mr. Woolas: The Home Department is committed to implementing the recommendations of the Glover report and is working to achieve these. It has the ability to identify small and medium-enterprises (SMEs) on its system and currently has 1,883 registered.

The Department does not capture company size information in relation to number of employees below that of the definition of SMEs, which are enterprises that employ fewer than 250 employees.

Mr. Garnier: To ask the Secretary of State for the Home Department how many facilities management contracts have been let by his Department in each of the last 12 years. [288375]

Mr. Woolas *[holding answer 20 July 2009]:* This information is not held and could be provided only at disproportionate cost.

Departmental Disciplinary Proceedings

Chris Huhne: To ask the Secretary of State for the Home Department how many members of staff at each pay band in his Department and its agencies had been *(a)* suspended on full pay and *(b)* on sick pay for (i) over 12 months, (ii) six to 12 months and (iii) three to six months at the latest date for which figures are available. [285787]

Alan Johnson: There are currently 26,099 staff in the Home Office and its agencies. Of those 26,000:

(a) 93 are suspended on full pay

(b) (i) None have been on paid sickness absence for more that 12 months. Home Office policy is to cease paying staff whose sickness absence exceeds 12 months. (ii) Fewer than 178 have been on paid sickness absence for between six and 12 months. (iii) Fewer than 651 have been on paid sickness absence for between three and six months.

Detailed breakdowns of suspensions and sickness absences by pay band are attached. It is not possible to provide precise answers to *(b)* (ii) and (iii) as the detailed breakdown by pay band includes groups of fewer than five. In those cases further information is withheld on grounds of confidentiality.

Table (a): questions (i) over 12 months (ii) six to 12 months and (iii) three to six months

	Home Office (including all agencies)		
Grade	*Over 12 months*	*6 to 12 months*	*3 to 6 months*

Home Office Data view May 2009

Departmental Manpower

Chris Grayling: To ask the Secretary of State for the Home Department what the nationalities are of employees based in his Department's Abu Dhabi hub. [272747]

Alan Johnson: For staff security reasons, My hon. Friend the Minister of State for Borders and Immigration will write to the hon. Gentleman in confidence with the information he has requested.

Jo Swinson: To ask the Secretary of State for the Home Department what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of the (i) male and (ii) female employees in his Department was in the latest period for which figures are available. [287557]

Mr. Woolas *[holding answer 20 July 2009]:* Civil service statistics are collected by the Office for National Statistics (ONS) from annual civil service employment surveys (ACSES). The latest published statistics are for 31 March 2008 and can be found at:

http://www.statistics.gov.uk/pdfdir/ce0109.pdf

ONS collects the annual gross salary of civil servants and does not produce hourly rates of pay.

Departmental Nurseries

Mr. Ellwood: To ask the Secretary of State for the Home Department what crèche facilities his Department provides for its employees working in Whitehall. [282232]

Mr. Woolas *[holding answer 25 June 2009]:* The Home Office does not provide crèche (nursery) facilities for its staff. The Department does however operate a Childcare Voucher Salary Sacrifice Scheme which is open to all staff at all locations. In addition Home Office staff are able to use the Westminster holiday playscheme at subsidised rates. This scheme is run during the school holidays for children aged between four-12 and provision is shared by a number of Government Departments.

In addition to childcare support the Home Office also has in place a range of policies to help staff who are working parents balance work and home. These include enhanced maternity, adoption and paternity pay, flexible working patterns, for example, part time working and job sharing as well as special paid and unpaid leave provision.

Departmental Official Cars

Bob Spink: To ask the Secretary of State for the Home Department pursuant to the answer of 4 March 2009, *Official Report*, columns 1639-40W, on official cars, how many of the cars *(a)* owned and *(b)* leased by (i) his Department and (ii) its agencies are over six years old. [276777]

Mr. Woolas: The four cars are owned by the UK Border Agency.

Cars leased by the Home Department and its executive agencies are usually returned to the lease company at or shortly after three years.

Departmental Pay

John McDonnell: To ask the Secretary of State for the Home Department which *(a)* sections of his Department and *(b)* non-departmental public bodies for which he is responsible have requested money saved from efficiency savings to be used for increased pay in their 2009 pay offers to staff. [282894]

Mr. Woolas: No section of the Home Office, nor any of the non-departmental public bodies for which the Home Office is responsible, has requested money saved from efficiency savings to be used for increased pay in its 2009 pay offer to staff.

Departmental Procurement

Lovely Burt: To ask the Secretary of State for the Home Department what progress his Department has made in implementing the recommendations of the Glover report in its procurement processes. [287141]

Mr. Woolas: The Home Department is fully participating in the work and has representation on the boards of the cross-departmental projects set up by the Department for Business, Innovation and Skills and the Office of Government Commerce for the implementation of the Glover Report recommendations.

The Home Department's progress on the implementation of the report's recommendations includes:

(a) investment in a Procurement and Commercial Toolset which enables the electronic advertisement of contract opportunities through a free online portal;

(b) migration of tender documentation to a system to issue all tender documentation electronically by 2010;

(c) work is on target for the online publication in standard format of details of contract awardees by 2010;

(d) completion of work so that the Department can clearly identify its SME suppliers and report monthly on its prompt payment performance for these suppliers. SME prompt payment

performance for June 2009 is 99 per cent. of all payments made being within agreed terms;

(e) completion of work so that the Department is able to identify its SME community. Currently there are 1,883 SME suppliers who supply 25 per cent. of total invoices received each month.

In addition to implementation of the recommendations, the Department has recognised SMEs for the second year running in its annual Supplier Value Awards Programme. Work is proceeding with several SMEs on a number of strategically important tasks such as the approach to corporate social responsibility.

Departmental Responsibilities

Mr. Gummer: To ask the Secretary of State for the Home Department how many hours the Minister of State, Borders and Immigration, spent on his Ministerial duties in the week beginning 7 June 2009. [282129]

Mr. Woolas: I had a full diary of official duties.

Deportation: Finance

Pete Wishart: To ask the Secretary of State for the Home Department pursuant to the answer of 29 June 2009, *Official Report*, column 729W, on immigration: deportation, what the cost to the public purse was of engaging contractors to facilitate the removal of individuals deported by the UK Border Agency in each of the last five years. [287392]

Mr. Woolas: The value of contracts between the UK Border Agency and its escorting suppliers is commercially sensitive and cannot therefore be disclosed.

Deportation: Prisoners

Chris Huhne: To ask the Secretary of State for the Home Department how much compensation has been awarded to foreign national prisoners held in custody beyond the expiry of their sentence while awaiting deportation in each month in each of the last five years. [286689]

Alan Johnson *[holding answer 14 July 2009]:* A breakdown of compensation paid by the UK Border Agency to foreign national prisoners held in custody beyond the expiry of their sentence made from April 2008 to June 2009 is outlined in the following table:

Month/year	£
April 2008	36,590.00
May 2008	36,590.00
June 2008	7,500.00
July 2008	78,500.00
August 2008	23,000.00
September 2008	24,000.00
October 2008	19,000.00
November 2008	41,329.29
December 2008	15,000.00
January 2009	750.00
February 2009	34,500.00
March 2009	67,727.92
April 2009	54,500.00
May 2009	20,000.00
June 2009	18,000.00
Total	498,897.21

A breakdown of the monthly compensation figures of foreign national prisoners before April 2008 is unavailable.

Deportation: Zimbabwe

Chris Huhne: To ask the Secretary of State for the Home Department what his Department's policy is on deporting people to Zimbabwe. [278556]

Alan Johnson *[holding answer 10 June 2009]:* We keep our policy on enforced returns to Zimbabwe under constant review. Since the Asylum and Immigration Tribunal RN-returnees-country guidance judgment last November, all cases are being reviewed on a case-by-case basis. Those asylum seekers deemed to need protection will be granted it. Where the independent courts have confirmed that it is safe for an individual to return home, we do not consider that it is right to ask the UK taxpayer to support them. Instead we expect those not at risk to return home and hundreds of Zimbabweans have done so since we halted the enforced return of failed asylum seekers in September 2006. Any failed asylum seeker who is unable to return home through no fault of their own can apply for support.

Detainees

Daniel Kawczynski: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for North Norfolk of 2 July 2009, *Official Report*, column 404W, on detainees, if he will make it his policy to collect information on the number of people detained on the basis of evidence which had not been disclosed to the detainee. [286241]

Mr. Hanson: The Home Office does not intend to introduce a system to collect statistics on the number of persons detained without charge on the basis of evidence which had not been disclosed to the detainee.

Driving Offences: Insurance

Mrs. Villiers: To ask the Secretary of State for the Home Department how many people in each police authority area were found to be driving *(a)* without a licence, *(b)* without insurance, *(c)* under the influence of drink and *(d)* under the influence of drugs in each of the last 10 years. [279596]

Mr. Alan Campbell: Data on the number of defendants found guilty for the offences requested, covering 1998 to 2007 (latest available), are provided in tables 1 to 3 below:

Table 1: Findings of guilt at all courts for the offence Driving, or causing or permitting another person to drive other than in accordance with licence, in England and Wales, by police force area, 1998-2007[1,2]

Number of offences

Police force area	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007

[1] It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

[1] It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, It is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[1] Data provided cover summary offences of driving etc. after consuming alcohol or taking drugs (which cannot be reliably distinguished separately).

[2] It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

The Office for Criminal Justice Reform—Evidence and Analysis Unit

Drugs

Chris Grayling: To ask the Secretary of State for the Home Department what estimate his Department has made of the volume of *(a)* heroin, *(b)* cocaine and *(c)* cannabis to have entered the UK without detection at the point of entry in each of the last five years. [285948]

Alan Johnson: Estimates published in 2003 placed imports of cocaine powder to supply the UK cocaine markets at 35-45 tonnes and heroin at 25-35 tonnes.

There are no agreed estimates of cannabis imported into the UK.

Chris Grayling: To ask the Secretary of State for the Home Department what recent estimate his Department has made of the volume of *(a)* heroin and *(b)* cocaine to have been smuggled into the UK by each method of importation in the most recent period for which figures are available. [285949]

Alan Johnson: The most recent estimates of illicit drugs smuggled into the United Kingdom are contained within the 2008-09 UK Threat Assessment published by the Serious Organised Crime Agency. There are no precise estimates of the methods of importation.

The following table shows the proportion of heroin and cocaine seized by HM Revenue and Customs and UK Border Agency officers during the financial year 2007-08, broken down by mode of transport.

	Percentage	
	Heroin	*Cocaine*
Freight	69	53
Passenger traffic	20	43
Post	4	2
Other	7	2

Emergency Services: Standards

Mr. Horam: To ask the Secretary of State for the Home Department what the name is of each Category 1 Responder under the Civil Contingencies Act 2004 whose emergency procedures the Department has checked since January 2008; what the nature of the checks made was; and if he will make a statement. [287236]

Mr. Hanson: The Audit Commission works with partner inspectorates (i.e. HM Inspectorate for Constabularies, the Care Quality Inspectorate, HM Inspectorate of Prisons; HM Inspectorate of Probation and Ofsted) to assess the performance of local services in England through the comprehensive area assessment. HMIC carried out an inspection of 21 (of 43 English and Welsh) police forces between September 2008 and April 2009, examining three subjects: civil contingency planning; critical incident handling; and public order response. A consolidated report with the thematic findings of these inspections will be published in three to four weeks time.

Entry Clearance Officers

Chris Grayling: To ask the Secretary of State for the Home Department how many entry clearance officers based in *(a)* Pakistan and *(b)* the Abu Dhabi visa hub are fluent in the (i) Punjabi and (ii) Pashto language. [285951]

Alan Johnson: In Pakistan, one entry clearance officer is fluent in Punjabi and none are fluent in Pashto.

Twenty-four locally engaged staff members are fluent in Punjabi and two are fluent in Pashto.

Eighty-two members of Gerry's staff are fluent in Punjabi and seven are fluent in Pashto.

In Abu Dhabi, four entry clearance officers are fluent in Punjabi and none are fluent in Pashto.

Two locally engaged staff members are fluent in Punjabi and none are fluent in Pashto.

One VFS staff member is fluent in Punjabi and none are fluent in Pashto.

Applicants are required to provide certified translations of any documents that are not in English. Visa application forms have to be submitted in English. As a result, there is only a limited requirement for interpretation into local languages which can be satisfied through our locally-engaged staff.

Chris Grayling: To ask the Secretary of State for the Home Department how many translators work in support of entry clearance officers in *(a)* Pakistan and *(b)* Abu Dhabi. [285952]

Alan Johnson: We do not require translators as all local documents are accompanied by a certified English translation. Our administrative support staff across the two locations speak Urdu, Punjabi, Pushto, Potohari, Saraiki, Sindi, Arabic, Persian, French, German, Swahili, Luganda, Lunyankole, Kinyarwanda, Pahari, Hindko and Dari, Arabic, Hindi, Malayalam, Tamil, Mandarin, French Nepali, Filipino, Amharic, Russian and Polish. They assist with any translation needs.

Entry Clearances

Mr. Randall: To ask the Secretary of State for the Home Department how many people in *(a)* the London Borough of Hillingdon, *(b)* Greater London and *(c)* England applied for leave to remain in the UK outside of immigration rules in each of the last five years; and how many did not have valid leave to remain at the time of their application. [250774]

Mr. Woolas: The UK Border Agency is only able to provide the total number of applications received outside of the immigration rules over the past five years.

To further breakdown the information as requested UKBA would have to:

(a) accurately determine the applicant's geographical location. This would involve trawling each application, validating the applicant's postcode, and cross-matching this with a list of postcodes for the London borough of Hillingdon.

(b) review the applicant's previous immigration history, including determining if the individual had valid leave to remain at the time of application(s). This would involve trawling each application,

reviewing any previous applications made to the Home Office to determine if the applicant's leave to remain was valid at the time of application(s).

The reasons above demonstrate why the further breakdown of information could be obtained only at disproportionate cost.

Leave to remain (LTR): Number of applications received in the UK by UKBA outside of the immigration rules

	Number
2004-05	3,206
2005-06	4,179
2006-07	5,760
2007-08	6,196
2008-09	2,047

Chris Grayling: To ask the Secretary of State for the Home Department how many face-to-face interviews with visa applicants from *(a)* Afghanistan and *(b)* Pakistan have been conducted by entry clearance officers based in Islamabad since 27 October 2008. [280126]

Alan Johnson: All applicants must submit their applications in person to our commercial partner Gerry's, where they are also required to give biometrics (electronic fingerprints), which are checked against immigration and criminal databases.

Supporting documents are checked by the visa section at the high commission in Islamabad for fraud and forgery. Approximately 29 visa applicants have been called in on the basis of risk assessment for face-to-face interviews in Islamabad since 27 October 2008.

Damian Green: To ask the Secretary of State for the Home Department how many UK Border Agency visa risk assessment officers in Abu Dhabi are working in *(a)* Canada, *(b)* Nigeria, *(c)* Kazakhstan and *(d)* New Zealand. [282945]

Mr. Woolas: Risk assessment officers based in Abu Dhabi are responsible for assessing applications from Pakistan, UAE and other Gulf posts.

Mr. Oaten: To ask the Secretary of State for the Home Department whether an academic institution is required to register as a sponsor under the new tier 4 immigration rules if all the courses they offer for overseas students are for a period of less than six months. [285105]

Mr. Woolas *[holding answer 8 July 2009]:* Students who enter the UK for a period of less than six months can choose whether to apply to enter under Tier 4 of the points based system or under the student visitor category.

For students entering the UK under Tier 4, the education provider must be on the register of Tier 4 sponsors.

The student visitor category is a distinct category separate from the points based system. In addition to meeting the requirements of the visitor rules the student visitor must be able to demonstrate that he has been accepted on a course of study at an institution which is:

the holder of a Sponsor Licence for Tier 4 of the Points Based System, or

accredited by a UKBA approved accreditation body, or

an overseas higher education institution offering only part of their programmes in the United Kingdom , holding their own national accreditation and offering programmes that are of an equivalent level to a United Kingdom degree.

Further information on the student visitor route is available at:

http://www.ukba.homeoffice.gov.uk/studyingintheuk/student-visitors/

Keith Vaz: To ask the Secretary of State for the Home Department how many decisions by entry clearance officers have been overturned by a Minister in each year since 1997. [285932]

Mr. Woolas: I refer to the answer my hon. Friend gave to the hon. Member for Bury St. Edmunds (Mr. Ruffley) on 22 March 2001, *Official Report*, column 317W, and to the answer given to my hon. Friend on 2 November 2001, *Official Report*, column 910W.

We have no records from this date until December 2008. Since December 2008, four decisions to refuse entry clearance to the United Kingdom have been overturned following the exercise of ministerial discretion.

Entry Clearances: Complaints

Chris Grayling: To ask the Secretary of State for the Home Department how many complaints each visa hub has received on the issue of visas to applicants in each of the last three years. [272749]

Alan Johnson: The UK Border Agency and its predecessor UKvisas received and recorded 1,623 complaints globally relating to visa matters in 2008. UK visas did not centrally collate this information before 2008.

To obtain further information would be at disproportionate cost. Due to the reduction of visa issuing posts during this time, it is not possible to break figures down by post.

Entry Clearances: Kosovo

Jo Swinson: To ask the Secretary of State for the Home Department what consideration he has given to the merits of allowing visa applications to be made at the British Embassy in Pristina. [281217]

Mr. Woolas *[holding answer 19 June 2009]:* Nationals of Kosovo who wish to apply for UK visas are currently required to lodge their applications at our visa section in Skopje. We are, however, looking into the feasibility of opening a visa office in Pristina but have not yet reached a conclusion.

Entry Clearances: Overseas Students

Damian Green: To ask the Secretary of State for the Home Department what recent estimate he has made of the number of foreign students enrolled at colleges not listed on the UK Border Agency's accreditation list; and what assessment he has made of how this affects their immigration status. [269747]

Mr. Woolas: Information on the number of foreign students currently enrolled at colleges which have not been granted a sponsorship licence is not held centrally and could be obtained only by investigating individual case files.

Students may continue to study at colleges which have not been granted a sponsorship licence until their current period of leave lapses. Their immigration status will be affected if they wish to seek further leave as a student. To qualify they will be required to meet the full requirements of the new rules including providing evidence that they are sponsored by a college which has been granted a licence by the UK Border Agency. Details of the new rules can be found at:

http://www.ukba.homeoffice.gov.uk/sitecontent/applicationforms/pbs/Tier4migrantguidance.pdf

http://www.ukba.homeoffice.gov.uk/studyingintheuk/quickguideforstudent

Chris Grayling: To ask the Secretary of State for the Home Department how many overseas students of each *(a)* age, *(b)* sex and *(c)* nationality have been granted visas to study in the UK in each of the last five years. [279317]

Alan Johnson: Please see the following table in relation to how many overseas students of each *(a)* age, *(b)* sex and *(c)* nationality have been granted visas to study in the United Kingdom in each of the last five years.

	Sum of student visas issued

This information will be published in the statistical bulletin in August 2009.

Mr. Oaten: To ask the Secretary of State for the Home Department whether regulations under Tier 4 of the points-based immigration system apply in the case of students who enter the UK for a study period of less than six months. [284583]

Mr. Woolas *[holding answer 6 July 2009]:* Those wishing to come to the UK to study for a period of less than six months can choose whether to apply to enter under Tier 4 of the points-based system or under the student visitor category. If they choose to apply under Tier 4 of the points-based system they must be intending to study at an institution which is registered with the UKBA as a licensed Tier 4 sponsor. In addition they must be enrolled on a course which leads at least to an approved qualification at level 3 or above of the National Qualifications Framework.

Those wishing to come to study for a period of less than six months on a course which is below level 3 NVQ, can apply under the student visitor category. Short-term students (i.e. those studying on courses of six months duration or less) who do not intend to take part-time employment or undertake a paid or unpaid work placement as part of their course can also benefit from these provisions. The college at which the student intends to study must either be accredited by a UKBA approved accreditation body, or be an overseas higher education institution offering only part of their programmes in the United Kingdom, holding its own national accreditation and offering programmes that are of an equivalent level to a United Kingdom degree. These requirements prove the necessary assurance that the prospective student is coming to study at a bona fide educational establishment.

Further information on the student visitor route is available at:

http://www.ukba.homeoffice.gov.uk/studyingintheuk/student-visitors/

Extra-curricular Activities

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps his Department has taken to provide after-school activities for young people. [287549]

Mr. Hanson *[holding answer 20 July 2009]:* £1 million funding was provided to the Tackling Knives Action Programme areas to deliver extra positive activities on Friday and Saturday nights in areas where crime, criminal gangs and antisocial behaviour are a concern. Monitoring information from these local areas shows that to the end of March more than 14,000 young people had benefited.

Through the Open drive, Government are challenging local areas to provide activities when young people and the community want them, particularly on a Friday and Saturday night. In 2009-10 an additional £28 million has been provided to all local authorities through the Positive Activities for Young People programme with an emphasis on providing activities at these times.

Foreign Workers

Mr. Clappison: To ask the Secretary of State for the Home Department (1) how many *(a)* highly-skilled migrants and *(b)* dependants of highly-skilled migrants of each nationality were given leave to enter the UK under (i) the highly-skilled migrants programme and (ii) Tier 1 of the points-based immigration system in each of the last eight quarters for which figures are available; [286457]

(2) how many *(a)* migrants and *(b)* dependants of migrants were given leave to enter the UK under Tier 1 of the points-based immigration system in the second quarter of 2009. [286462]

Mr. Woolas: The information requested by the hon. Member is summarised in the following table:

	HSMP			Tier 1		
Calendar year	*Main applicant*	*Dependant*	*All*	*Main applicant*	*Dependant*	*All*
2007 Q2	2,411	1,161	3,572	0	0	0
2007 Q3	2,637	1,611	4,248	0	0	0
2007 Q4	2,938	1,742	4,680	0	0	0
2008 Q1	3,615	1,883	5,498	0	0	0
2008 Q2	2,659	1,430	4,089	265	163	428
2008 Q3	470	722	1,192	2,630	1,020	3,650
2008 Q4	155	738	893	5,720	2,254	7,974
2009 Q1	98	503	601	7,801	3,468	11,269
2009 Q2	142	578	720	4,812	3,532	8,344

Note:

CRS 14.7.09

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department how many historic crimes were solved at each Forensic Science Service site in each of the last 10 years. [288242]

Mr. Alan Campbell: It is not the role of the Forensic Science Service to solve crime. Its job is to assist the police in providing intelligence that will assist with the investigation. It is a matter for police and the Crown Prosecution Service to decide the value of the intelligence, and for the courts to determine its weight as evidence.

The FSS does not maintain records of the results of cases in which they have been involved.

Forensic Science: Police

John McDonnell: To ask the Secretary of State for the Home Department if he will place in the Library a copy of his Department's paper on the risk modelling of in-house forensic services provided by police forces. [283869]

Mr. Alan Campbell *[holding answer 3 July 2009]:* The Forensic Science Regulator has published for consultation a set of quality standards that should equally apply to any police in-house forensic work. He has also commissioned a survey to assess the nature and extent of police in-house forensic provision and is currently assessing the outcome of that.

Freedom of Information

Dan Rogerson: To ask the Secretary of State for the Home Department in respect of which requests for information received by his Department in 2008 under the provisions of the Freedom of Information Act 2000

it has received permission to extend the deadline for a response by more than 40 days; and what the reason for the request for an extension was in each case. [286158]

Mr. Woolas: The Freedom of Information Act 2000 obliges public authorities to respond to requests for information within 20 working days. The exception is where an exemption is being considered that engages the public interest test. In these cases the period for response can be extended. In a small number of instances responses have taken longer. There were 50 such cases in 2008.

Explanations for the delay in each case could be provided only at disproportionate cost.

Glasgow

John Mason: To ask the Secretary of State for the Home Department whether he plans to visit Glasgow on official business during the summer adjournment. [288914]

Mr. Woolas: My right hon. Friend the Home Secretary has no plans at this time to visit Glasgow on official business during the summer adjournment.

Government Departments: Cybercrime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what recent reports he has received on cyber attacks on Government websites in *(a)* South Korea and *(b)* the US; [286949]

(2) what estimate he has made of the number of cyber attacks against Government IT systems in each of the last three years; and how many such attacks originated outside the UK; [286937]

(3) what his most recent assessment is of the likelihood of cyber-attack on the UK by another state; and if he will make a statement. [287000]

Mr. Hanson: The Government consider a range of information on such issues and takes appropriate steps where necessary. It would not be in the interests of national security to provide information about specified threats an attacks, either n terms of the type of threat, the method or the target, as this could aid potential adversaries.

Home Office Property Group: Manpower

Mr. Garnier: To ask the Secretary of State for the Home Department how many people are employed in the Home Office Property Group; and what the staffing costs of the group were in the last 12 months. [288376]

Mr. Woolas *[holding answer 20 July 2009]:* In October 2006 the Home Office restructured its estates management functions and created two internal shared service organisations which by October 2007 had reduced estates staff by just over 45 per cent. with a £5 million per year saving on staff costs. At the end of last financial year in March 2009 HO General Property in the Department's shared services directorate had 136 staff including 18 direct delivery staff, with a net cost to the Department of pay/non-pay expenditure of £4.4 million. Services to the Departments custodial estate are delivered by the Ministry of Justice.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department when the Inter Departmental Ministerial Group last met to discuss human trafficking; and how many times the group has met to discuss human trafficking in the last two years. [287930]

Mr. Alan Campbell *[holding answer 20 July 2009]:* The Inter Departmental Ministerial Group (IDMG) last met in March and will meet again in the near future.

The IDMG meets on a quarterly basis and has done so over the past two years.

ICT

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many of his Department's computers were compromised by malicious software in each of the last three years; and if he will make a statement. [286996]

Mr. Woolas: It is not in the interests of the UK's national security for Departments to confirm information on the number of malicious attacks against their IT systems.

The Home Office complies with mandatory requirement 39 of the Security Policy Framework which requires a policy on managing risks posed by all forms of malicious software ('malware').

Chris Grayling: To ask the Secretary of State for the Home Department (1) how many trojan computer programmes have been detected on *(a)* Home Office, *(b)* UK Border Agency and *(c)* Immigration and Passport Service computers in each of the last five years; [288553]

(2) how many *(a)* alien key logging devices and *(b)* items of alien key logging software have been detected on (i) Home Office, (ii) UK Border Agency and (iii) Immigration and Passport Service computers in each of the last five years. [288554]

Alan Johnson: It is not in the interests of the UK's national security for Departments to confirm information on the number of malicious attacks against their IT systems.

The Home Office complies with mandatory requirement 39 of the Security Policy Framework which requires a policy on managing risks posed by all forms of malicious software ('malware').

Immigration

Mrs. Gillan: To ask the Secretary of State for the Home Department what the average waiting time for processing *(a)* immigration and *(b)* citizenship applications was in the latest period for which figures are available. [264628]

Mr. Woolas *[holding answer 19 March 2009]:* Information showing turnaround performance on immigration applications for the period April 2006-March 2007 is published on the UKBA website.

The average process time for citizenship applications at the end of June 2009 was under three months compared to a published service standard of six months. Process times are driven by the volume of applications received.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many individuals are awaiting decisions on their immigration status while present in the UK from each country of origin. [264629]

Mr. Woolas *[holding answer 19 June 2009]:* The requested information is not collated in this way across the range of workstreams and could be produced only at disproportionate cost.

The chief executive of the UK Border Agency, Lin Homer, updates the Home Affairs Select Committee twice a year on work to clear the historic backlog of unresolved asylum cases by summer 2011. A copy of Ms Homer's letter of 7 July 2009 is in the Library.

Keith Vaz: To ask the Secretary of State for the Home Department what recent discussions he has had with his French counterpart on immigration matters; and if he will make a statement. [285931]

Mr. Woolas: The Secretary of State for the Home Department has not yet had any discussions with his French counterpart on immigration matters. I have met with Eric Besson the French Minister for Immigration, Integration, National Identity and Co-Development on four occasions:

11 February 2009—Bilateral meeting, London, UK

23 June 2009—Bilateral meeting, Paris, France

6 July 2009—Meeting at the Anglo-French summit, Evian, France

16 July 2009—Meeting at the Informal meeting of European Union Justice and Home Affairs Ministers in Stockholm, Sweden.

Immigration Controls

Patrick Mercer: To ask the Secretary of State for the Home Department with reference to paragraph 8.19 of the United Kingdom's Strategy for Countering International Terrorism, published in March 2009, what recent progress his Department has made on the formation of powers to exclude European Economic Area nationals from entering the UK on grounds of national security, unacceptable behaviour, public order or serious criminality. [284052]

Mr. Woolas: Amendments to the Immigration (European Economic Area) Regulations 2006 were laid on 5 May and came into effect on 1 June. Among other changes, the Home Secretary now has the personal power to exclude EEA individuals, and members of their families, if he considers that their exclusion from the UK is justified on the grounds of public policy, public security or public health.

Depending upon the exact circumstances, EEA nationals, and members of their family, who are considered to pose a threat to national security, who have engaged in unacceptable behaviour or who have committed public order or serious criminal offences may fall to be excluded on the grounds of public policy or public security.

Internet: Terrorism

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what his most recent assessment is of the extent of use of cyberspace by terrorist and violent extremists in the UK. [286997]

Mr. Hanson: A number of Government Departments and Agencies are involved in assessing terrorist use of cyber-space, in particular terrorist use of the internet. By their nature such assessments are classified. The recently published Cyber Security Strategy provides an unclassified summary of Government's collective assessment of such activities and of the current threat:

"Terrorists and violent extremists use cyber space for communication, co-ordination, propaganda, fundraising, radicalisation, and recruitment, providing them with an unprecedented opportunity to access a wider global community. While we expect terrorist groups to continue to favour high-profile conventional operations over cyber attacks, we must be vigilant against any future increase in capability that might be directed against UK interests at home and overseas."

The UK's revised strategy for countering international terrorism - CONTEST -published in March this year provides further analysis of the impact which the advancements in technology have had on terrorist activities alongside our understanding of the current use of the internet by terrorist groups, including the increases in the number of websites related to terrorist groups or supporting violent extremism.

Mass Media

Harry Cohen: To ask the Secretary of State for the Home Department what reports he has received from the police on the extent to which telephone taps undertaken on behalf of media organisations are made in accordance with legislation; who is responsible for investigating allegations of illegal telephone tapping on behalf of media organisations; what discussions he has had with media organisations on the appropriate use of surveillance techniques in the public interest; and if he will make a statement. [288169]

Mr. Hanson: We have received no reports from the police on the extent of the interception of telephone communication on behalf of media organisations. The police are responsible for investigating allegations of unlawful interception under section 1 of the Regulation of Investigatory Powers Act 2000. The Home Office has not had any discussions with media organisations on the appropriate use of surveillance techniques in the public interest. However, following the convictions of Mr. Clive Goodman and Mr. Glen Mulcaire in 2007 for unlawfully intercepting communications, the Press Complaints Commission carried out a review of events and issued new guidelines in May 2007 on subterfuge and news-gathering.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter of 7 April 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. S. Rasoul. [276507]

Alan Johnson: I replied to my right hon. Friend on 20 July.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter to his predecessor of 9 May 2009 from the right hon. Member for Manchester, Gorton with regard to Ms R Hughes. [284728]

Alan Johnson: My hon. Friend the Member for Hackney, South and Shoreditch (Meg Hillier) replied on 17 March.

John Barrett: To ask the Secretary of State for the Home Department (1) when the visa enquiry office of the Islamabad consulate plans to reply to the hon. Member for Edinburgh West's correspondence of 17 April, 7 May and 20 May 2009, on Mr Abdul Rehman; [286381]

(2) when the visa enquiry office of the Islamabad consulate plans to reply to the hon. Member for Edinburgh West's correspondence of 17 April, 7 May and 20 May 2009, on Mr Abdul Rehman. [279824]

Mr. Woolas: Our visa Section in Islamabad has no record of the correspondence in question from the hon. Member about Mr. Abdul Rehman. An Entry Clearance Manager has written separately to the hon. Member to explain the position regarding Mr. Rehman's visa application.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he plans to reply to the letter to the Minister of State of 19 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. R. Cawley; [288629]

(2) when he plans to reply to the letter to his Department of 19 May 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. R. Crawley. [287817]

Alan Johnson: I wrote to my right hon. Friend on 20 July 2009.

Metal: Theft

Mr. Watson: To ask the Secretary of State for the Home Department what steps he is taking to reduce levels of theft of metal in England and Wales; and if he will make a statement. [288247]

Mr. Alan Campbell *[holding answer 20 July 2009]:* The Government take the issue of metal theft seriously, and recognise that it has a detrimental effect on the national infrastructure, affecting service providers, and both individuals and whole communities. It can also pose a serious health risk to offenders.

Local agencies are well placed with the necessary tools and powers to tackle metal theft where this is a issue locally. For example, in Avon and Somerset, police and partners initiated Operation Fragment when metal theft was discovered to be a problem. This successful operation tackled metal theft through crime prevention measures, increased publicity, a focus on suspicious vehicles and offenders and working with the scrap metal dealers in the area.

The Home Office part funded a dedicated unit to tackle metal theft, headed by British Transport police. This ran from January to June 2009 and we are assessing the impact of this unit and considering how to apply this learning more widely.

Government officials, including from the Home Office, are also on the Association of Chief Police Officers-led steering group tackling metal theft, which meets regularly to discuss the strategies to tackle metal theft and any emerging issues. This includes representatives from police as well as from industries most affected by metal theft.

Minister for Identity

Keith Vaz: To ask the Secretary of State for the Home Department what temporary arrangements have been made to cover the responsibilities of the Minister for Identity. [285926]

Alan Johnson: I refer my right hon. Friend to the evidence I gave before the Home Affairs Select Committee, of which he chairs, on Tuesday 14 July. The specific answer is in relation to question number 35.

National Police Improvement Agency: Pay

Bob Spink: To ask the Secretary of State for the Home Department how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the National Policing Improvement Agency in each of the last five years. [280610]

Mr. Hanson: The national policing improvement agency was established by statute on 1 April 2007. Data in respect of bonuses paid since that date to the categories of staff listed are given in the following table.

Bonuses paid within NPIA

	2007-08	*2008-09*	*2009-10*[1]	*Total*
Directors—NPIA CEO and chief officers	79,000	82,000	Pending	161,000
Senior managers—NPIA grade 4A to 4B	5,000	605	1,500	7,105
Specialist and delivery managers—NPIA grades 2B to 3B	8,104	14,104	4,000	26,208
Executive support and administration staff—all other grades	13,003	7,291	7,250	27,544
Total	105,107	104,000	12,750	221,857

[1] As at 22 June 2009

National Treatment Agency for Substance Misuse

James Brokenshire: To ask the Secretary of State for the Home Department how much his Department has provided to the National Treatment Agency for Substance Misuse in each of the last five years. [284830]

Mr. Alan Campbell: The Home Office has provided funding to the National Treatment Agency for Substance Misuse (NTA) for the period 2004-05 to 2008-09 as shown in the table:

	£
2004-05	1,082,000
2005-06	142,000

Home Office Accounting System

In addition, in 2005-06 a budget transfer of £1,333,000 was made to the Department of Health through the Supplementary Estimates to meet Drug Interventions Programme related costs that fell to the NTA.

Offences Against Children

Margaret Moran: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* his EU counterparts and *(b)* other overseas counterparts on the establishment of a single list of websites found to be displaying images of child abuse. [288877]

Mr. Alan Campbell: The Government fully support work funded by the EU to develop and refine the data on websites collected by reporting hotlines. This will develop a more accurate list of websites containing illegal images of child sexual abuse. The Government fully support this and other work being taken forward by the EU to protect children online. The Government and law enforcement agencies work closely with their counterparts outside the EU to tackle such websites.

Offenders: Deportation

Mr. Grieve: To ask the Secretary of State for the Home Department (1) what the maximum sum payable in support under the Facilitated Returns Scheme is; [276850]

(2) how much has been spent in support under the Facilitated Returns Scheme in each year since its inception; [276876]

(3) how many people removed from the UK under the Early Removal Scheme have been returned to prison in England and Wales in each of the last three years; [276877]

(4) how many people have been returned under the Facilitated Returns Scheme in each of the last three years. [276878]

Mr. Woolas: The Facilitated Returns Scheme was launched in October 2006 as an incentive to persuade foreign prisoners to return voluntarily to their own country. The scheme offers a package of reintegration assistance to the individual; however, no financial incentives are offered. The only cash the individual receives is the standard £46 discharge grant provided to all prisoners, including British nationals. The level of assistance offered is variable and is dependant upon the individual circumstances of each case. Assistance is provided up to a maximum of £5,000 for serving foreign criminals and £3,000 for those who have completed their sentence. Only half of those who are removed under the provisions of the scheme receive reintegration assistance once they return to their country. Once removed from the UK under the scheme's provisions, they are excluded from the UK. As such it is only possible to benefit from the scheme once.

The chief executive of the UK Border Agency has written to the Home Affairs Select Committee on a regular basis in order to provide all of the most robust and accurate information on foreign national prisoners and deportation, including the successes seen through the use of the Facilitated Returns Scheme. In her letter of 23 July 2008 she advised that the scheme, accounted for around 25 per cent. of all foreign prisoner removals in 2007. This has generated significant savings and has resulted in nearly 1,800 foreign prisoners being removed from the UK. In the first year of the scheme (October 2006 to October 2007) the agency spent around £350,000, inclusive of administrative costs. For the same period around 880 removals were made under the scheme which generated considerable savings in detention costs alone.

Since April 2008, the Early Removals Scheme was extended to enable eligible prisoners to be removed up to 270 days before their normal release date. It was previously 135 days. The information relating to those removed from the UK and who have been returned to prison is not held centrally. In order to obtain the information it would be necessary to examine individual case files at a disproportionate cost.

Copies of her letters are available in the Library of the House. The chief executive will continue to write to the Committee with further updates on the scheme and other data on the deportation of foreign national prisoners.

Patrick Mercer: To ask the Secretary of State for the Home Department how many foreign nationals who *(a)* were suspected of being involved in terrorist-related activity and *(b)* have completed terrorist-related prison sentences have been deported to their country of origin by the UK Border Agency since the Agency commenced operations. [283820]

Mr. Woolas: Details of the numbers of people who have completed prison sentences for a terrorist-related offence, or who have been suspected of being involved in terrorist-related activity, and who have subsequently been deported are not available.

Official Residences

Robert Neill: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Brentwood and Ongar of 9 March 2009, *Official Report*, column 78W, on official residences, how much the right hon. Member for Sheffield, Brightside paid to cover rent at South Eaton Place; what period the payment covered; and what the estimated market rental value of the property was for that period. [264949]

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Brentwood and Ongar of 9 March 2009, *Official Report*, column 78W, on official residences, how much the right hon. Member for Sheffield, Brightside paid to cover rent at South Eaton Place; what period the payment covered; and what the estimated market rental value of the property was for the period. [273391]

Mr. Woolas: South Eaton Place has been made available to all Home Secretaries since the Department procured its use. No rent has ever been charged. The payment referred to in the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 9 March 2009, *Official Report*, column 78W, related to council tax and utility bills.

Passports: Forgery

Chris Grayling: To ask the Secretary of State for the Home Department how many fake British passports *(a)* containing and *(b)* not containing biometric information have been recovered by (i) the police, (ii) the UK Border Agency and (iii) HM Revenue and Customs in each of the last five years. [276829]

Alan Johnson: The lead role in protecting the United Kingdom from the use of false travel documentation is taken by the UK Border Agency Intelligence Directorate's National Document Fraud Unit (NDFU). As part of this role, the NDFU compiles statistics on all false identity documents used for international travel and detected by the UK Border Agency (and its predecessors). Current statistical collection methods do not allow for a distinction between biometric passports and non-biometric passports.

On this basis, the following table details the detections of false UK passports encountered by the UK Border Agency (and its predecessors). These figures do not constitute part of National Statistics as they are based on internal management information. The information has not been quality assured under National Statistics protocols, should be treated as provisional and is subject to change.

	Detections
2004	985
2005	641
2006	409
2007	398
2008	312
Total	2,705

Police National Intelligence and Co-ordination Centre

David Howarth: To ask the Secretary of State for the Home Department how much his Department has allocated to the Police National Intelligence and Co-ordination Centre in each year since its establishment; and how many staff the centre has employed in each such year. [284133]

Mr. Hanson: The Police National Information and Co-ordination Centre (PNICC) was set up in 2003 by the Association of Chief Police Officers in order to coordinate the national mobilisation of police resources. Funding for PNICC is provided via contributions from police authorities rather than directly from the Home Office. This funding provides for three permanent PNICC staff and associated costs. Additional staff are seconded to PNICC to meet specific operational requirements, as required.

Police Pledge Publicity Campaign: Finance

Mr. Hurd: To ask the Secretary of State for the Home Department what the total budget for marketing, public relations, communications and advertising is for the 2009 police pledge publicity campaign. [288847]

Mr. Hanson: The Home Office ran a campaign in the spring of 2009 to raise awareness and understanding of the policing pledge, a set of promises to residents about the service they can expect from their local police.

The media spend on the advertising and marketing of the policing pledge in England and Wales in the 2008-09 financial year was £3,427,521.00.

Police: Gwent

Mr. Paul Murphy: To ask the Secretary of State for the Home Department how many police officers were employed in Gwent in *(a)* 1997-98 and *(b)* 2008-09. [288799]

Mr. Hanson: There were 1,233 police officers in Gwent constabulary as at 31 March 1998.

The latest available information is at 30 September 2008, when there were 1,470 police officers in Gwent constabulary.

These figures are calculated on a full-time equivalent basis.

These and other related data are published annually as part of the annual Police Service Strength Home Office Statistical Bulletin. The latest bulletin can be found at:

http://www.homeoffice.gov.uk/rds/policeorg1.html

and bulletins for this and previous years are deposited in the Library of the House.

31 March 2009 figures are due to be published on 23 July 2009 on the same webpage.

Police: Journalists

Harry Cohen: To ask the Secretary of State for the Home Department how many reports of incidents of police officers selling to journalists information obtained through their official duties his Department has received in each of the last five years; and if he will make a statement. [288170]

Mr. Hanson *[holding answer 20 July 2009]:* The Home Office does not hold records of any such reports. Any allegation of the selling of information is likely to be investigated and dealt with under the police discipline procedures and/or the criminal law depending on the circumstances of the case.

Police: North Yorkshire

Hugh Bayley: To ask the Secretary of State for the Home Department how many full-time equivalent *(a)* police officers, *(b)* police community support officers and *(c)* police civilian staff were employed by North Yorkshire police force on the latest date for which figures are available. [285710]

Mr. Hanson: The requested data were published within the "Police Service Strength England and Wales, 30 September 2008, Statistical Bulletin" and are available at the following weblink:

http://www.homeoffice.gov.uk/rds/policeorg1.html

A copy of this publication has also been deposited in the House of Commons Library.

Annual 30 September figures are provided as interim figures to the more detailed 30 March figures which can also be found at the above link. 30 March 2009 figures are due to be published on 23 July 2009 on the same webpage.

Police: Torfaen

Mr. Paul Murphy: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police community support officers are employed in Torfaen. [288899]

Mr. Hanson: Police personnel data are not available by parliamentary constituency. Information for Gwent along with basic command unit (BCU) data for police officers and police community support officers (PCSOs) as at 31 March 2008 are provided in the tables.

Police officer strength by basic command unit, Gwent, 31 March 2008[1]

Police force	BCU	Full-time equivalents Police officers
Gwent	Caerphilly and Blaenau Gwent	469
	Newport	306
	Pontypool	300
	Central Services	412
Total		1,487

[1] These figures are based on full-time equivalents that have been rounded to the nearest whole number, due to rounding there may be an apparent discrepancy between totals and the sums of constituent items. Figures include those officers on career breaks or maternity/paternity leave.

Police community support officer strength by basic command unit, Gwent, 31 March 2008[1]

Police force	BCU	Full-time equivalents Police community support officers
Gwent	Caerphilly and Blaenau Gwent	42
	Newport	50
	Pontypool	47
	Central Services	0
Total		139

[1] These figures are based on full-time equivalents that have been rounded to the nearest whole number, due to rounding there may be an apparent discrepancy between totals and the sums of constituent items. Figures include those officers on career breaks or maternity/paternity leave.

Prisoners: Foreigners

Mr. Grieve: To ask the Secretary of State for the Home Department how many foreign prisoners released from a mandatory life sentence in *(a)* 2007 and *(b)* 2008 were deported or removed. [287737]

Mr. Woolas *[holding answer 20 July 2009]:* The information requested is not readily available and could be obtained only by examination of individual files at disproportionate cost.

The UK Border Agency continues to make considerable progress in delivering an effective deportation system. In 2008 we deported or removed nearly 5,400 foreign criminals, including 50 people found guilty of murder, attempted murder or causing death, around 260 sex offenders and 1,600 drug offenders.

The Chief Executive at the UK Border Agency has regularly written to the Home Affairs Select Committee in order to provide them with the most robust and accurate information available relating to foreign national prisoners. Copies of these letters are available in the Library of the House.

Right of Abode: European Economic Area

Sarah Teather: To ask the Secretary of State for the Home Department what the average length of time taken to process an application for an EEA residence permit was in the latest period for which figures are available. [283953]

Mr. Woolas: The time taken to process applications will depend on the type of application made and how it is submitted. There is currently a backlog of applications, and UK Border Agency is taking steps to address this situation as soon as possible. UKBA aims to be operating back within service standards from the beginning of December 2009.

Road Traffic Offences

Mark Hunter: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females aged (i) between 17 and 24 years, (ii) between 25 and 30 years, (iii) between 31 and 35 years, (iv) between 36 and 40 years and (v) over 40 years have been (A) charged with and (B) convicted of failing to comply with an instruction given by a traffic signal in each year since 1997. [282197]

Mr. Alan Campbell *[holding answer 25 June 2009]:* Information on prosecutions and convictions for selected motoring offences covering the years 1997 to 2007, latest available, can be found in tables 1 and 2 as follows:

Table 1: Number of males and females proceeded against at magistrates courts for certain motoring offences, by sex and age group, England and Wales, 1997 to 2007[1, 2, 3]

[1] The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] All ages column includes the age group 10 to 16.

Roads: Closures

Mr. Greg Knight: To ask the Secretary of State for the Home Department for what reason the Metropolitan Police closed Finchley road in London on 9 July 2009; on whose authority; and what efforts were made to notify motorists of the closure in order to avoid unnecessary congestion. [288416]

Mr. Hanson: The decision to close a road is an operational matter for the police. On this occasion, the Metropolitan police closed the road following a serious road traffic collision. The closure was necessary to ensure the safety of the public, to cut open the vehicles so that the drivers and passengers could be removed, to facilitate treatment for the injured and the removal of four casualties by the London ambulance service, and to carry out an investigation into the cause of the collision.

Transport for London were notified immediately of the closure and co-ordinated relevant announcements These which included local radio traffic updates to provide advance information of the closure and advice for motorists so that they could seek alternative routes as far in advance of the accident scene as possible.

Sexual Offences

Chris Huhne: To ask the Secretary of State for the Home Department what the detection rate has been for cases of *(a)* rape and *(b)* sexual assault in each police force area in each year since 1997. [286041]

Alan Johnson: The available information is given in the tables.

It should be noted that non-sanction detections that contribute to the percentage change in total detection rates have fallen in recent years reflecting a significant shift by many police forces away from recording detections of crime where no further action is taken. For this reason overall detection rates over time are not fully comparable. From 1 April 2007 the rules governing recording of non-sanction detections were revised to reduce the scope within which they can be claimed to a very limited set of circumstance. There are other changes affecting trends in detection rates that are discussed in section 3.5 of Volume two of Crime in England and Wales 2008-09, a copy of which has been deposited in the Library of the House.

Detection rates are a ratio of crime detected in a period to crimes recorded in a period. They are not based on tracking whether individual crimes recorded in a period have eventually been detected.

[1] The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Note:
Offences detected in any given year may have been initially recorded in a previous year and for this reason some percentages may exceed 100.

Terrorism: Afghanistan

Daniel Kawczynski: To ask the Secretary of State for the Home Department what proportion of known terrorist plots in the United Kingdom have a connection with Afghanistan; and what discussions he has had with the Secretary of State for Foreign and Commonwealth Affairs on the matter. [287425]

Mr. Hanson *[holding answer 16 July 2009]:* It is the long held policy of successive Governments not to comment on ongoing investigations. As a member of Ministerial Committee on National Security, International Relations and Development (NSID), the Home Secretary regularly discusses the Government's policies on Afghanistan and Pakistan with the Secretary of State for Foreign and Commonwealth Affairs.

Daniel Kawczynski: To ask the Secretary of State for the Home Department what proportion of known terrorist plots in the United Kingdom have a connection with Helmand province. [287426]

Mr. Hanson *[holding answer 16 July 2009]:* It is the long held policy of successive Governments not to comment on ongoing investigations.

Travel: Personal Records

Mr. Carmichael: To ask the Secretary of State for the Home Department (1) pursuant to the answer of 15 May 2009, *Official Report*, column 1092W, on travel: personal records, what steps his Department plans to take to ensure the collection of advance passenger data on domestic air and sea journeys will focus only on crossings between Great Britain and Northern Ireland; [282395]

(2) when he plans to decide on whether to carry out a formal consultation on his Department's proposals to collect advance passenger data in respect of domestic air and sea journeys; and if he will make a statement. [282680]

Mr. Hanson: The Government are currently considering whether to hold a public consultation. Should we decide to proceed after the consultation a statutory instrument necessary to implement the power under section 14 of the Police and Justice Act 2006 would specify that the data collection would apply only to routes between Great Britain and Northern Ireland.

UK Border Agency: Correspondence

Mike Penning: To ask the Secretary of State for the Home Department when the Chief Executive of the UK Border Agency plans to reply to the letter from the hon. Member for Hemel Hempstead dated 5 January 2009 on asylum seekers from Zimbabwe. [275375]

Mr. Woolas: The chief executive of the UK Border Agency wrote to the hon. Member on 20 July.

Vetting: Standards

James Brokenshire: To ask the Secretary of State for the Home Department how many and what proportion of criminal record certificates provided by the Criminal Records Bureau in each of the last three years were enhanced criminal records certificates. [288857]

Mr. Hanson: The number of enhanced disclosures issued by the Criminal Records Bureau (CRB) in each of the last three years is shown in the following table:

Financial year	Number of enhanced disclosures issued
2006/07	2,948,734
2007/08	3,028,659
2008/09	3,457,410

Approximately nine out of every 10 disclosure applications received by the CRB are for enhanced disclosures.

James Brokenshire: To ask the Secretary of State for the Home Department what the average time taken by the Criminal Records Bureau to process a request for *(a)* a criminal record certificate and *(b)* an enhanced criminal record certificate was in the latest period for which figures are available. [288858]

Mr. Hanson: I refer the hon. Member to the written answer of 29 June 2009, *Official Report*, columns 79-80W.

Visas: Finance

Chris Huhne: To ask the Secretary of State for the Home Department what the cost to his Department was of issuing *(a)* short- and *(b)* long-term visitor visas in each country in each year since 2000. [285764]

Alan Johnson: The cost to my Department of issuing individual types of visa in each country is not available. To obtain the requested information would be at disproportionate cost.

Parliament agrees the fee for visit visas, most recently in the Immigration and Nationality (Cost Recovery Fees) Regulations 2009.

Chris Huhne: To ask the Secretary of State for the Home Department what revenue has been collected from *(a)* short- and *(b)* long-term visitor visa applicants from each country in each year since 2000. [285765]

Alan Johnson: The following table shows revenue collected from *(a)* short and *(b)* long-term visitor visa applications, from each country in each year since 2004. Reliable data are not available before 2004.

Chris Huhne: To ask the Secretary of State for the Home Department what the cost has been of a *(a)* short-term visitor visa for (i) single and (ii) multiple entry and *(b)* long-term visitor visa for (A) one year, (B) two years, (C) five years and (D) 10 years in each year since 2000. [285767]

Alan Johnson: The following table shows the fee for *(a)* a standard six month visit visa and *(b)* visit visas valid for longer periods for the financial years 2002-09 (inclusive).

Visit visa duration	1999-2000 to 2001-02	2002-03 to 2004-05	2005-06 to 2006-07	2007-08	2008-09	2009-10
6 month	45	36	50	63	65	67
2 years	55	60	[1]85	[1]200	[1]205	215
5 years	60	88	[1]—	[1]—	[1]—	400
10 years	80	150	[1]—	[1]—	[1]—	500

[1] Represents brace.

Note:
All visit visas are multiple entry visas. Any single visit cannot exceed six months, regardless of the validity of the visa.

Visas: Pakistan

Chris Grayling: To ask the Secretary of State for the Home Department how many visa applications were received by the visa section in Islamabad in each of the last 12 months. [285944]

Alan Johnson: Islamabad visa section received the following number of visa applications:

	Number
2008	
July	17,604
August	12,291
September	10,391
October	4,250
November	4,550
December	4,420

	Number
2009	
January	5,072
February	3,886
March	3,961
April	3,780
May	4,171
June	2,404

The volume of applications, month on month, reflects the partial closure of the visa operation following security incidents.

These figures do not constitute part of National Statistics as they are based on internal management information. The information has not been quality assured under National Statistics protocols, should be treated as provisional and is subject to change.

Chris Grayling: To ask the Secretary of State for the Home Department how long on average elapsed between an applicant in Pakistan applying for each type of visa and a decision on that application being made in the latest period for which figures are available. [285945]

Alan Johnson: The current processing time on receipt of the visa application to decision for settlement applications is up to 60 working days. For all other types of applications the current average processing time is up to 15-20 working days from receipt of application to decision. Some cases can take considerably longer while further checks are carried out. Complex cases take longer.

Written Questions: Government Responses

Mr. Ames: To ask the Secretary of State for the Home Department when he plans to answer Question 259199 tabled by the hon. Member for Southend West on 23 February 2009 on the British Nationality (Honorary Citizenship) Bill; what the reasons are for the time taken to respond; what recent representations he has received from hon. Members on the time taken by his Department to respond to Questions for written answer; and if he will make a statement. [276873]

Mr. Woolas: I replied to the hon. Gentleman on 1 June 2009, *Official Report*, column 145W.

The Department makes every effort to respond to Members' questions within the deadlines set. Sometimes this is not possible. A few hon. Members have tabled written questions on the Department's PQ performance this session.

Mr. MacNeil: To ask the Secretary of State for the Home Department when he plans to answer Question *(a)* 273961, *(b)* 273962, *(c)* 273963 and (d) 273964, tabled on 5 May 2009, on the Cabinet meeting in Glasgow. [281288]

Mr. Woolas: I replied to the hon. Gentleman on 20 July 2009, *Official Report*, column 905W.

Jo Swinson: To ask the Secretary of State for the Home Department when he plans to answer *(a)* Question 281217, tabled on 16 June 2009, on visa applications at Pristina, *(b)* Question 281218, tabled on 16 June 2009, on visa applications at Skopje, *(c)* Question 276908, tabled on 19 May 2009, on Gurkhas and *(d)* Question 273542, tabled on 5 May 2009, on Gurkhas. [284617]

Mr. Woolas *[holding answer 7 July 2009]:* In respect of Parliamentary Question 281217, I replied to the hon. Member on 21 July 2009. In respect of Parliamentary Question 28128, I replied to the hon. Member on 13 July 2009, *Official Report*, column 144W. I replied to the hon. Member on Parliamentary Questions 276908 and 273542 on 20 July 2009, *Official Report*, column 930W.

Mr. Watson: To ask the Secretary of State for the Home Department when he plans to answer Question *(a)* 279500 and *(b)* 279501, on Demos, tabled on 11 June 2009. [283876]

Mr. Woolas: I replied *(a)* to the hon. Member on 15 July 2009, *Official Report*, column 400W and my right hon. Friend the Member for Delyn (Mr. Hanson) replied *(b)* on 20 July 2009, *Official Report*, column 909W.

Mike Penning: To ask the Secretary of State for the Home Department when he plans to respond to question 275375 from the hon. Member for Hemel Hempstead on correspondence with the UK Border Agency on asylum seekers from Zimbabwe. [280754]

Mr. Woolas: The chief executive of the UK Border Agency wrote in response to the hon. Member's letter on 20 July and I answered PQ 275375 on 21 July.

CABINET OFFICE

Cybercrime

Mrs. Curtis-Thomas: To ask the Minister for the Cabinet Office what steps the Office of Cyber Security plans to take to raise awareness of cyber security in the Government. [286998]

Mr. Hanson: I have been asked to reply.

The Government's Cyber Security Strategy, published last month, announced new governance structures and a cross-government programme of work in pursuit of the UK's strategic cyber security objectives. These objectives include reducing the risks and exploiting the opportunities from our use of cyber space through improving knowledge, capabilities and decision-making.

These objectives will be delivered through eight new workstreams, overseen by the Office of Cyber Security and supported by the Cyber Security Operations Centre:

Workstream 1: Safe, secure and Resilient Systems

Workstream 2: Policy, Doctrine, Legal and Regulatory Issues

Workstream 3: Awareness and Culture Change

Workstream 4: Skills and Education

Workstream 5: Technical Capabilities and Research and Development

Workstream 6: Exploitation

Workstream 7: International Engagement

Workstream 8: Governance, Roles and Responsibilities

These workstreams will build on existing work to take forward the Government's plans for reducing the impact on and vulnerability of the UK's interests from cyber attacks. They also describe how the Government

would improve knowledge and awareness of the issues and the range of stakeholders who will be involved in the process, including the public.

As the strategy makes clear, this programme will be delivered through a partnership approach comprising Government, organisations across all sectors, and the public.

Departmental Manpower

Jo Swinson: To ask the Minister for the Cabinet Office what percentage of employees in her Department are *(a)* women and *(b)* men; and what the average hourly pay is of (i) male and (ii) female employees. [288624]

Angela E. Smith: I refer the hon. Member to the answer I gave on 16 July 2009, *Official Report*, column 632W.

Unemployment

Mr. Rooney: To ask the Minister for the Cabinet Office how many jobseeker's allowance claimants aged *(a)* 18 to 21 and *(b)* 22 to 24 years old in each Jobcentre Plus district have been unemployed for up to (i) six and (ii) 12 months. [288705]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many jobseeker's allowance claimants aged (a) 18 to 21 and (b) 22 to 24 years old in each Jobcentre Plus district have been unemployed for up to (i) six months and (ii) 12 months. (288705)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. The duration of claims is not available for 18 to 21 year olds or 22 to 24 year olds. As an alternative table 1 shows the number of JSA claimants aged 18 to 19 and 20 to 24 who have claimed for up to 26 weeks and more than 26 up to 52 weeks.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Number[1] of persons claiming jobseeker's allowance in each Jobcentre Plus district by age and duration

	Up to 26 weeks	Over 26 and up to 52 weeks	Up to 26 weeks	Over 26 and up to 52 weeks
Bedfordshire and Hertfordshire	2,465	335	4,975	860

CULTURE, MEDIA AND SPORT

Arts

John Mann: To ask the Secretary of State for Culture, Media and Sport which events in the Arts Council's 2010 Cultural Olympiad will take place in former coalfield communities *(a)* in Nottinghamshire and *(b)* elsewhere in the UK. [288209]

Barbara Follett *[holding answer 20 July 2009]:* The Cultural Olympiad is a national celebration of culture as part of the London 2012 Olympic Games and Paralympic Games. It will harness the power of the Games to inspire creativity across all forms of culture, especially among young people and is designed to give everyone in the country a chance to be part of the Games and to leave a lasting legacy well beyond 2012.

Arts Council England has two major projects around the Cultural Olympiad: Artists Taking the Lead and Unlimited. In addition, the Arts Council and the London Organising Committee of the Olympic and Paralympic Games will be co-ordinating further activities all over England and elsewhere in the UK including in former coalfield communities.

Arts Council of England: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much Arts Council England awarded in grants in 2008-09. [287881]

Barbara Follett *[holding answer 20 July 2009]:* Arts Council England advises that it awarded £501,824,000 in grants in 2008-09.

Arts: Apprentices

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many apprenticeships have been created in the creative industries since the launch of his Department's Creative Britain strategy in February 2008; and which organisations have applied to be involved in the scheme. [288535]

Mr. Simon: I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State, to the hon. Member for South-West Surrey (Mr. Hunt) on 17 June 2009, *Official Report*, column 344W.

To date, over 150 organisations have expressed an interest in taking on apprentices in the creative industries. These include:

Bluecoat Display Centre
FACT
Hartlepool Museum, Arts and Events Service
Jack Drum Arts
Lincolnshire County Council—Heritage Services
Liverpool Biennial
Liverpool Everyman and Playhouse
National Museums Liverpool
Northampton County Council
Northern Stage
Royal Liverpool Philharmonic
Tate Liverpool
The Customs House
The Sage Gateshead
Tyne and Wear Museum
Unity Theatre
The Arcola
The Victoria and Albert Museum
London Transport Museum
Live Nation
Ryedale Folk Museum
Bradford Council
Royal Exchange Theatre
Walsall Art Gallery
Beam Gallery
Sheffield Gallery and Museums Trust
North Yorkshire County Council
Birmingham Hippodrome
Royal and Derngate Theatre
Wolverhampton Art Gallery
The Hat Factory
Royal Opera House
Historic Royal Palaces
Plymouth Museum and Archives
Colston Hall
Lyric Theatre Hammersmith
Universal Music
Creative Alliance
BLT
Ditto Music
Old Smithy
JJM Studios
Dudley Performing Arts
Wiltshire Dancing
DV8
Rising Tide
Manchester City Council
Colchester Mercury
Jabadao
Carling Academy
National Media Museum
Beatrix Potter Gallery
The Old Laundry Theatre
Duke's Theatre
Lancaster Theatre
Theatre by the Lake
Brewery Arts Centre
Apples and Snakes
City of Westminster College
New College, Nottingham
Theatre Royal, Stratford East
The Borough Council of Kings Lynn and West Norfolk
Museum of East Anglian Life
The Albany
Theatre Peckham

Arts: Economic Situation

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the recession on the creative industries. [288533]

Mr. Simon: My Department is monitoring the performance of the creative industries utilising reports and evidence directly from individual sectors.

At the same time my Department is seeking to ensure that the creative industries receive the maximum level of Government support possible.

Arts: Education

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards creating a 14-to-25 academic hub for the creative industries. [288532]

Mr. Simon: I refer the hon. Member to the answer I gave to the hon. Member for South-West Surrey (Mr. Hunt) on 22 June 2009, *Official Report*, column 612W.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards developing the five centres of excellence in creative skills announced as part of his Department's Creative Britain strategy. [288534]

Mr. Simon: The following progress has been made towards developing the five centres of excellence in creative skills:

World class centre of excellence and finishing school in animation

A feasibility study funded by South West Regional Development Agency for a 'world class centre of excellence and finishing school in animation' has recently ended with agreement between the partners that the originally envisaged facility should not proceed at this time.

Couture academy

Skillfast-UK anticipates that the first partnership between higher education and employers will be established in the new year.

National Skills Academy for the creative and cultural industries

Creative and Cultural Skills Sector Skills Council received support from the Learning and Skills Council to set up a National Skills Academy for Creative and Cultural Skills in May 2008.

National centre of excellence for computer games

A feasibility study, commissioned by the North West Regional Development Agency (NWDA), into a video games centre of excellence was produced in March 2009. DCMS and BIS officials have been working together with Industry and the NWDA to \take the project forward.

UK Design Skills Alliance

The UK Design Skills Alliance launched in September 2008.

Arts: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the monetary value of exports of services by the creative industries was in each of the last five years; and what the estimated monetary value of exports from such industries is for 2009-10. [288527]

Mr. Simon: The total monetary value of exports of services by the UK creative industries in each of the last five years for which data is available is as follows:

	Total (£ million)
2002	11,300
2003	11,600
2004	13,000
2005	14,600
2006	16,000

Source:
DCMS Creative Industries Economics Estimates, January 2009

These totals exclude crafts and designer fashion as figures are not available for every year.

No future estimates have been made.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the contribution of the creative industries to the UK's gross domestic product in each of the last five years; and what the estimated contribution for 2009-10 is. [288530]

Mr. Simon: The contribution of the creative industries to the UK's gross value added (GVA) in each of the last five years for which data are available is as follows:

	Total (£ million)
2002	45,000
2003	49,200
2004	53,600
2005	57,700
2006	57,300

Source:
DCMS Creative Industries Economics Estimates, Jan 2009

These totals exclude crafts and design as gross value added figures are not available for these sectors.

No future estimates have been made.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the economic growth rate in the creative industries has been in each of the last five years; and what estimate he has made of the likely rate of growth in 2009-10. [288531]

Mr. Simon: The gross value added (GVA) of the UK creative industries grew by an average of 4 per cent. per annum between 1997 and 2006. This compares to an average of 3 per cent. for the whole of the economy over this period.

The annual change in G VA for the creative industries over the last five years for which data are available is as follows:

	Annual growth (percentage)
2001-02	-2
2002-03	6
2003-04	6
2004-05	5
2005-06	-3
Average 1997 to 2006	4

Source:
DCMS Creative Industries Economic Estimate, January 2009

All figures exclude crafts and design as annual gross value added figures are not available for these sectors.

No future estimates have been made.

Arts: Manpower

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of redundancies in the creative industries in the last 12 months. [288528]

Mr. Simon: I have made no estimate of the number of redundancies in the creative industries in the last 12 months.

The Government's Future Jobs Fund aims to create 150,000 places in total and will create real jobs in interesting and socially worthwhile industries so people can get the skills and qualifications they need for jobs for the future.

The DCMS has announced it will contribute at least 10,000 jobs through its sectors, at least 5,000 of which will be in the cultural and creative industries.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many people have been employed in the creative industries in each of the last five years. [288529]

Mr. Simon: Total creative employment in Great Britain in each of the last five years for which data are available is as follows:

	Total
2002	1,830,700
2003	1,878,800
2004	1,825,000
2005	1,824,400
2006	1,906,300
2007	1,978,200

Source:
DCMS Creative Industries Economics Estimates, January 2009

Total creative employment includes all employment in the creative industries and additional employment in creative occupations in businesses outside the creative industries.

Bookmakers

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 3 July 2008, *Official Report*, column 1046W, on bookmakers, whether the outstanding issues have been resolved following the local negotiations; and if he will make a statement. [288003]

Mr. Sutcliffe: Local negotiations have taken place between a number of racecourses and the bookmakers who use them. However, these have not as yet resulted in the outstanding issues being resolved or agreements being reached on the allocation of pitches and the parties' duties and responsibilities from 1 September 2012.

I am encouraged by the recent proposal from Northern Racing to on-course bookmakers at its nine racecourses of a commercial deal to 2042. I believe this shows there is still room for local negotiations to result in agreements without the need for further Government intervention.

I am looking for racecourses and bookmakers to achieve meaningful progress and intend to reconvene the working party in due course to take stock.

Boxing: Diabetes

Ian Stewart: To ask the Secretary of State for Culture, Media and Sport if he will make an assessment of restrictions on participation in boxing at competition level by people with insulin-dependent diabetes. [287525]

Mr. Sutcliffe: The Amateur Boxing Association of England's Medical Commission along with Diabetes UK have recently drafted a set of conditions on participation in boxing at competition level by people with insulin-treated diabetes. These conditions have been accepted, and adopted as rules, by the Amateur Boxing Association of England's Boxing Council.

Under these rules, all individuals with diabetes can compete as long as a diabetic specialist or doctor is in attendance who will care and monitor the diabetic participant.

Broadband: North Yorkshire

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what recent steps his Department has taken to provide the universal service obligation in respect of access to a broadband connection in *(a)* rural and *(b)* urban areas of North Yorkshire; and if he will make a statement. [286064]

Mr. McFadden: I have been asked to reply.

In the Digital Britain White Paper, the Government set out their plan of how the Universal Service Commitment in relation to broadband will be achieved, committing an anticipated £200 million of public funds to help deliver this with the remainder of the costs been met from the private sector through in-kind contributions, competitive commercial pricing through tender contract and design, and contributions from other public sector organisations.

The process will be delivered through an arms-length body, the Network Design and Procurement Group, who will be responsible for managing the procurement process and prioritising which areas receive additional support to enable them to reap the benefits of universal broadband access. The Government hope to confirm the appointment of a CEO for the Group in the autumn.

Casinos: Licensing

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 16 June 2009, *Official Report*, columns 139-40W, on casinos: licensing, when he plans to issue guidance to licensing authorities on definitions of a gaming table in operation and ratios of gaming tables in use. [287909]

Mr. Sutcliffe: Regulations to define what will constitute a gaming table for the purposes of section 172(3) to 172(5) of the Gambling Act 2005 will be laid shortly. Should additional guidance be required then the Department will liaise with the Gambling Commission and licensing authorities on the best method for doing so.

Cricket: Schools

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many maintained *(a)* primary and *(b)* secondary schools have cricket as part of their physical education curriculum. [288779]

Mr. Sutcliffe: The Department for Children, Schools and Families have advised that the PE and sport survey collects data relating to the percentage of schools which offer certain sports for their pupils.

In this context, the last survey (2007-08) showed that 90 per cent. of all schools offer cricket for their pupils. This can be broken down into 88 per cent. of primary schools, and 98 per cent. of secondary schools. This has remained fairly constant over the last three years.

Culture: Education

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards every child taking part in five hours of cultural activity each week; and what estimate he has made of the number of school children who participate in five hours of cultural activity each week. [288458]

Barbara Follett: The Find Your Talent Pathfinder areas are trialling ways to deliver five hours of high-quality cultural experience to children and young people in their areas. They are almost one year into their three-year programmes. The Pathfinder activities run in parallel with a diverse range of national cultural education programmes, including significant investment in music education.

The figure for the numbers of children currently doing five hours across the whole country will be available from the results of the DCMS Taking Part Survey in October 2009. The Pathfinder areas are developing their own baseline figures for participation against which to compare this national figure.

Damian McBride

Mr. Maude: To ask the Secretary of State for Culture, Media and Sport on what date he last met Mr. Damian McBride in the course of his official duties. [287397]

Mr. Bradshaw: Never.

Departmental Billing

John Mason: To ask the Secretary of State for Culture, Media and Sport what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288907]

Mr. Sutcliffe: The percentage of invoices paid within 10 days in June 2009 by the Department for Culture, Media and Sport was 84 per cent.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport what percentage of employees in his Department *(a)* are on a flexible working contract, *(b)* are on a job share employment contract and *(c)* work from home for more than four hours a week. [287087]

Mr. Sutcliffe: *(a)* The Department has a policy of promoting flexible working arrangements. These are agreed at team and sector level and as such records of these arrangements are not kept centrally with human resources.

(b) There is currently one job share employment contract in place. This represents less than 1 per cent. of the total number of employees in the Department.

(c) 21 employees, or 4.5 per cent. of the total number of employees in the Department, currently work from home for more than four hours a week.

Departmental Finance

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport what procedures his Department and its agencies have to assess the cost-effectiveness of grants which they make. [281238]

Mr. Sutcliffe: Ninety-seven per cent. of the Department's budget is allocated to the public bodies that help us to deliver our strategic aim and objectives. These bodies agree a high level three-year funding agreement with the Department, which explains what they will deliver for the funding allocated to them. The agreement summarises strategic priorities, key activities and outputs to be delivered, and is regularly reviewed.

The most up-to-date information about performance against departmental strategic objectives and public service agreements can be found in the Department's annual report and accounts, which were laid on the 16 July by HM Treasury.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 13 July 2009, *Official Report*, column 49W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) permanent secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288996]

Mr. Sutcliffe: My Department's (A) Permanent Secretary runs Internet Explorer 6 on their desktop machine, the (B) chief information officer runs Internet Explorer 8, Firefox 3.51 and Chrome 2 on their desktop and laptop machines, the (C) head of communications runs Internet Explorer 6 on their desktop machine and their laptop machine and the (D) head of finance runs Internet Explorer 7 on their laptop machine.

Departmental Work Experience

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286825]

Mr. Sutcliffe: DCMS does not currently have any interns working in the Department.

Digital Broadcasting

Lembit Öpik: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made in modifying television transmitters in *(a)* Wales and *(b)* the rest of the UK for the digital switchover; and if he will make a statement. [286950]

Mr. McFadden: I have been asked to reply.

The information requested is as follows:

(a) Switchover in Wales starts at the Kilvey Hill transmitter on 12 August 2009 and finishes at Wenvoe on 31 March 2010. Mast and antenna work has been completed at Wenvoe, Kilvey Hill, Preseli, Carmel, Llanddona, Moel y Pare and Long Mountain and is scheduled for completion at Blaenplwyf next month. Transmitter installations, relay upgrades, other works and testing will continue until around one month before the switchover dates for each transmitter group.

(b) For the rest of the UK, the transmitters at Selkirk, Beacon Hill and Stockland Hill and their dependent relays have completed switchover. Modification of the transmitters at Douglas, Huntshaw Cross, Caldbeck, Redruth and their dependent relays has been completed and the first stage of switchover has been completed at each. Various stages of mast, antenna and transmitter works are under way in all other UK regions.

EC Law

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible, which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available. [281868]

Barbara Follett: It is very difficult to provide precise figures for the proportion of legislation that stems from the European Union.

The Secretary of State estimates that between 5 and 10 per cent. of legislation for which DCMS is responsible derives from or implements European Community obligations.

This estimate is based on approximate page counts of the relevant statutes and secondary legislation. It includes: (a) provisions that implement Community obligations even where these have super equivalent effect; (b) provisions that are now relied upon as implementing Community obligations even where the UK had adopted the same or similar provisions before those obligations took effect.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately 1/3 of the total administrative burden.

In the Government's view the quality, rather than the source of regulations is the most important issue. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk-based, proportionate and well designed, so as to achieve their objectives while also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

English Folk Dance and Song Society

Bob Russell: To ask the Secretary of State for Culture, Media and Sport if he will have discussions with the English Folk Dance and Song Society on promoting England's traditional folk culture; and if he will make a statement. [288748]

Barbara Follett: The Secretary of State has no plans at present to meet the English Folk Dance and Song Society. Arts Council England is the national development agency for the arts in England, distributing public money from Government and the National Lottery. The Council's remit includes both dance and music, and its portfolio of Regularly Funded Organisations includes Folk Arts England, the national development agency for folk, roots and traditional music and Folk South West, the folk arts development organisation for the South West of England.

English Heritage: Conditions of Employment

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what estimate English Heritage has made of the likely effects on its level of expenditure from changes to the terms and conditions of employment for its historic sites staff, including changes to pay, allowances and future pension entitlement. [288408]

Barbara Follett: This is primarily a matter for English Heritage, which has advised that any possible changes to the terms and conditions of employment for its staff at historic sites, including changes to pay, allowances and future pension entitlement, are currently the subject of discussions with trade unions. I have made no assessment of the likely effect of any potential changes.

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what plans he has to reallocate savings arising from changes in the terms and conditions of English Heritage staff working at its historic sites; and what assessment he has made of the likely effects of such changes on *(a)* staffing levels at historical sites in deprived areas and *(b)* on regeneration in those areas. [288693]

Barbara Follett: This is primarily a matter for English Heritage, which has advised that any possible changes to the terms and conditions of employment for its staff at historic sites, including changes to how their pay is structured, are currently the subject of discussions with trade unions. I have made no assessment of the likely effect of any potential changes.

Gambling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport when he expects his Department to finalise its conclusions on the measures required to ensure a level playing field for British gambling operators. [288457]

Mr. Sutcliffe: I will report to Parliament with findings on this work by the end of December 2009, as stated in my announcement on 30 April 2009.

Gaming Machines: Taxation

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what discussions he had with HM Treasury on the regulation of the use of Category C amusement machines between his Department's announcement of new stake prize limits on Category C amusement machines in January 2009 and the announcement in Budget 2009 of a consultation on the tax treatment of amusement machines. [288383]

Mr. Sutcliffe: The Department has regular discussions with HM Treasury about a range of gambling issues, including on the regulation of the use of Category C gaming machines prior to the announcement in Budget 2009 of a consultation on the tax treatment of amusement machines.

Heritage and Culture Sector Club

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 12 May 2009, *Official Report*, columns 637-8W, on Heritage and Culture Sector Club: Visit Britain, how many officials of his Department provide support for the Heritage and Culture Sector Club; and on what date the club last met. [287554]

Barbara Follett *[holding answer 20 July 2009]:* The Heritage and Culture Sector Club was one of a number of clubs set up by VisitBritain to engage with different sectors of the tourism industry. The club no longer exists and last met on 20 November 2007, this was a VisitBritain-led initiative and DCMS officials were not involved.

Hotels: Licensing

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the likely effect on bed and breakfast proprietors of the implementation of VisitBritain's concierge licence scheme. [286916]

Barbara Follett: The "concierge licence scheme" or "DVD Concierge Licence", is not a VisitBritain scheme. It is run by an independent business called Filmbank, which collects licence fees, under existing copyright legislation on behalf of a number of the major film studios. Other such schemes exist to help bed-and-breakfast owners comply with copyright law. Neither VisitBritain nor VisitEngland endorse this or any other particular licence services.

Under copyright law, businesses such as bed-and-breakfast accommodation should purchase a licence if DVDs are made available to guests. A licence is not required if DVDs are not provided by the establishment, or if guests bring their own.

ITV

Mr. Grogan: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the residual value of the ITV licence after digital switchover. [288614]

Mr. Simon: It is the Government's view, supported by Ofcom, that the residual value of the existing Channel 3 licences will decline further between now and the completion of digital switchover, meaning the benefits for ITV of remaining a PSB—public service broadcaster—will be outweighed by the obligations imposed on it.

That is why, in the Digital Britain White Paper, we set out a clear direction of travel for the liberalisation of the Channel 3 licences.

ITV: Public Service Broadcasting

Mr. Grogan: To ask the Secretary of State for Culture, Media and Sport what his most recent estimate is of the cost to ITV of its *(a)* public service obligation and *(b)* public service obligation in respect of regional news provision. [288653]

Mr. Simon: The analysis contained in Ofcom's second public service broadcasting review shows the 2009 pattern for regional news services in England and Wales costs over £50 million. The cost of ITV's other public service obligations are commercially sensitive.

Licensed Premises

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport how many premises in Greater London have had a licence to sell alcohol withdrawn since the implementation of the Licensing Act 2003. [288123]

Mr. Sutcliffe: Since the implementation of the Licensing Act 2003, DCMS has been collecting Alcohol, entertainment and late night refreshment statistics on an annual basis by financial year from licensing authorities. During the period April 2006 to March 2007 for licensing authorities in Greater London, 225 premises licences were surrendered, 21 lapsed, and six were suspended, (based on between 29 to 26 returns, out of 35, from licensing authorities in the Greater London Area). For the same period, eight club premises certificates were surrendered, none lapsed and none were withdrawn. There were also an additional 31 premises licences revoked or club premises certificates withdrawn following a completed review. Under the Licensing Act 2003, premises licences and club premises certificates are not confined to just authorise the sale or supply of alcohol; they also can provide regulated entertainment and/or late night refreshment. Therefore some of these closures may be for premises that are not authorised to sell or supply alcohol.

The April 2007 to March 2008 bulletin reported for licensing authorities in Greater London that, 463 premises licences were surrendered, 39 lapsed, three were suspended by a court, and 17 were subject to a closure notice (based on returns from 33 or 32 of the 35 licensing authorities in the Greater London Area). For the same period, 15 club premises licences were surrendered, none lapsed and 1 was withdrawn. There were also an additional 41 premises licences revoked or club premises certificates withdrawn following a completed review.

Music: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much of the £500,000 funding announced in December 2007 to set up music rehearsal spaces has been *(a)* allocated and *(b)* spent in each region. [288459]

Mr. Simon: So far, £72,434 of the £500,000 pledged to set up music rehearsal spaces has been spent. In the North West (Liverpool) expenditure has been £39,074, and in the South West (Bristol) expenditure has been £30,376. The total expenditure includes £2,984 paid to Sound Connections for the administration of the scheme.

In total, we are seeking to establish 10 pilot music rehearsal spaces in England. Although their grant allocations have yet to be finalised, those we plan to open over the next few months will be in Hastings, Washington, St. Austell, rural Norfolk, and Nottingham.

National Lottery: Grants

Mr. Kemp: To ask the Secretary of State for Culture, Media and Sport what proportion of Lottery funding for good causes has been awarded to organisations operating in *(a)* Sunderland and *(b)* England in the last 12 months. [289159]

Mr. Simon: The total value of Lottery grants awarded across the UK in the last 12 months to 30 June 2009 was £854.74 million. The amount awarded in that period in *(a)* the Sunderland local authority area was £2.08 million and in *(b)* England was £596.64 million.

This information is drawn from DCMS's Lottery Grants database. The database is searchable at:

www.lottery.culture.gov.uk

http://www.lottery.culture.gov.uk

and uses information supplied by the Lottery distributors.

Olympic Games 2012: Football

Mr. Bone: To ask the Secretary of State for Culture, Media and Sport what recent representations he has received on the eligibility of players from the four home nations for selection for a Great Britain football team at the London 2012 Olympics. [287700]

Mr. Sutcliffe *[holding answer 20 July 2009]:* I have not received any recent representations about eligibility of players from the four home nations for selection for a Great Britain football team at the London 2012 Olympic Games.

This is a matter for the home nation Football Associations and the British Olympic Association.

Pay Television

Mr. Bailey: To ask the Secretary of State for Culture, Media and Sport when he expects Ofcom *(a)* to conclude its pay TV market investigation and *(b)* to publish its final remedies regarding the pay TV market. [279627]

Mr. McFadden: I have been asked to reply.

Ofcom's investigation into the pay TV market is a matter for Ofcom. My officials have discussed this investigation with Ofcom. Ofcom published its third consultation document on their website on 26 June which calls for views on proposed remedies for the pay TV market. Ofcom's document can be viewed at the following link:

http://www.ofcom.org.uk/consult/condocs/third_paytv/summary/

Renaissance Programme for Museums: Finance

Mr. Garnier: To ask the Secretary of State for Culture, Media and Sport when he plans to publish the income and expenditure accounts of the Renaissance programme for museums for each year since 2002. [288372]

Barbara Follett: The Museums, Libraries and Archives Council has advised that it has only ever published Renaissance income and expenditure as part of its overall accounts, and that to provide the information in the format requested could be done only at disproportionate cost. The Renaissance review, to be published in July 2009, will contain detailed financial information about the Programme's past finances. The Museums, Libraries and Archives Council is committed to publishing an annual report for Renaissance from 2010 onwards which will include detailed accounts for the Programme.

Ryder Cup: Wales

Mr. Paul Murphy: To ask the Secretary of State for Culture, Media and Sport what plans he has to meet the Welsh Assembly Government to discuss the hosting of the Ryder Cup tournament in 2010. [288801]

Mr. Sutcliffe: While I wish The Ryder Cup 2010 all the success possible, The Ryder Cup 2010 is a matter for the Welsh Assembly and Ryder Cup Wales. However, the Secretary of State is due to visit The Celtic Manor Resort shortly, and meet with the Welsh Heritage Minister.

Sports: Finance

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what provisions in *(a)* his Department's funding agreement with Sport England and *(b)* Sport England's guidance to national governing bodies concern management of capital funding; and if he will place in the Library a copy of Sport England's guidance. [287415]

Mr. Sutcliffe: All national governing bodies are required to govern their affairs properly as a condition of Sport England funding.

Earlier this year, Sport England provided guidance to national governing bodies on managing their capital funding, based on best practice developed over five years delivering the Community Club Development Programme. This guidance—the 2009-13 National Governing Body Funding Memorandum of Agreement for Capital Build—has been placed in the Libraries of the House.

Sports: Young People

Geraldine Smith: To ask the Secretary of State for Culture, Media and Sport what steps his Department has taken to encourage young people to participate in sport in the last 12 months. [288448]

Mr. Sutcliffe: Through the PE and Sport Strategy for Young People (PESSYP) and as part of our London 2012 Olympic and Paralympic promises, we have extended our ambition for PE and sport and are creating a world-class system that will offer five hours of PE and Sport a week for 5-16 year olds and three hours a week for 16 to 19 year-olds.

In total, we are investing over £2.4 billion in the eight years to 2011, including £783 million from 2008-11. This will help to develop and sustain the nationwide infrastructure for sport in schools, which covers every maintained school in England, and from 2008 we began creating and sustaining a new network of Further Education Sports Co-ordinators (FESCOs) to realise our ambitions for 16 to 19 year-olds.

We are also building capacity of the system by training PE teachers, recruiting and deploying more coaches and reinvigorating inter-school competition through our new network of Competition Managers.

As well as revitalising PE and school sport, we are delivering more opportunities in community settings by working with 34 national governing bodies of sport to strengthen links between schools and community clubs and by focusing investment through our new exciting 'Sport Unlimited' programme to reach semi-sporty children and young people, attracting them into a greater range of sustainable sporting activities.

Swimming

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport which local authorities have applied for funding under the Government's free swimming initiative. [288280]

Mr. Sutcliffe *[holding answer 20 July 2009]:* I have arranged for a list to be placed in the House Libraries of those local authorities who have received funding under the Government's free swimming initiative.

Full information about which local authorities are offering free swimming and the grants awarded is available at the DCMS website:

http://www.culture.gov.uk/what_we_do/sport/5810.aspx

Telecommunications: Disclosure of Information

Mrs. Laing: To ask the Secretary of State for Culture, Media and Sport how many requests for communications data were made by Ofcom to communication service providers (CSPs) under the *(a)* Wireless Telegraphy Act 1949, *(b)* Telecommunications Act 1984 and *(c)* Communications Act 2003 in (i) 2000, (ii) 2001, (iii) 2002, (iv) 2003, (v) 2004, (vi) 2005, (vii) 2006, (viii) 2007 and (ix) 2008; and how many of these requests resulted in the requested communications data being disclosed by the relevant CSP. [284867]

Mr. McFadden: I have been asked to reply.

The matters raised are the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Television: Finance

Mr. Grogan: To ask the Secretary of State for Culture, Media and Sport whether implementation of his Department's proposals for a contained contestable element of the television licence fee would require the enactment of primary legislation. [288652]

Mr. Simon: Primary legislation is not required for introducing a contained contestable element within the television licence fee but may be necessary depending on how the contained contestable element is spent and will be considered as part of the Government's proposed Digital Economy Bill.

Mr. Grogan: To ask the Secretary of State for Culture, Media and Sport whether implementation of his Department's proposals for the allocation of a proportion of the projected digital switchover help scheme underspend to test a range of pilots testing different models for the creation of contestable funding for news before 2012 would require *(a)* the enactment of legislation and *(b)* approval by the BBC Trust. [288654]

Mr. Simon: The allocation of an underspend in relation to the switchover help scheme is dealt with in schedule 1 to that scheme. While the BBC Trust's approval of this spend is not specifically required, the Government will be discussing the use of the television licence fee with the BBC Trust during the current consultation period. Whether primary legislation is needed or not will depend on how the underspend is spent, and will be considered as part of the Government's proposed Digital Economy Bill.

Theatre: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many free theatre tickets have been given out to young people in each region since the launch of the A Night Less Ordinary Scheme in February 2009. [288460]

Barbara Follett: Data is still being collected, but the number of tickets given away in each region in the first three months of the A Night Less Ordinary scheme (16 February-30 April 2009) is set out in the following table:

Arts Council England region	*Tickets issued*
East	1,109
East Midlands	3,816
London	[1]15,961
North East	949
North West	[1]4,775
South East	[1]5,921
South West	2,862

Arts Council England region	Tickets issued
West Midlands	8,281
Yorkshire	3,293
North East and North West	[2]472
Total	[3]47,439

[1] Awaiting results from one theatre
[2] As part of Rural Highlights Touring Scheme
[3] Awaiting results from three theatres

Tourism: Finance

Andrew Stunell: To ask the Secretary of State for Culture, Media and Sport how much funding his Department allocated for development of the tourism sector in each region of England in each year since 2003. [285393]

Barbara Follett: DCMS invested £49.9 million in VisitBritain and VisitEngland in 2008-09, toward marketing Britain overseas and marketing England domestically.

Responsibility for tourism in the regions was taken over by the regional development agencies (RDAs) in 2003. Funding for the RDAs is not ring-fenced for particular economic sectors, such as tourism.

In each year from 2003-04 to 2007-08, DCMS contributed £3.6 million to the Department for Business, Innovation and Skills Single Programme budget (the "Single Pot") in respect of regional tourism responsibilities. The Single Pot, which was set at approximately £2.2 billion, £2.2 billion and £2.1 billion in 2008-09, 2009-10 and 2010-11 respectively, is allocated among the RDAs by DBIS. DCMS's contribution will be £3.5 million, £3.4 million and £3.3 million in these years.

In 2007-08, the nine English RDAs invested almost £70 million in tourism.

World Cup: Football

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the budget is for the *(a)* office, *(b)* staffing costs and *(c)* other expenditure of the Prime Minister's Special Representative to the 2018 World Cup Bid in (i) 2009-10 and (ii) 2010-11. [288278]

Mr. Sutcliffe *[holding answer 20 July 2009]:* The Prime Minister's Special Representative's role is an honorary role.

My Department does not hold a separate budget for the Prime Minister's Special Representative for the 2018 World Cup Bid. His administrative cost are met, where necessary, by my Department.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the responsibilities of the Prime Minister's Special Representative to the 2018 World Cup Bid are; and if he will make a statement. [288279]

Mr. Sutcliffe *[holding answer 20 July 2009]:* The Prime Minister appointed the World Cup ambassador on 27 June 2007 with the purpose of working closely with the Secretary of State for Culture, Media and Sport and the English Football Association, to promote our bid to host the 2018 World Cup.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many overseas visits the Prime Minister's Special Representative for the 2018 World Cup Bid has undertaken; at what cost; and what visits are planned prior to May 2010. [288338]

Mr. Sutcliffe *[holding answer 20 July 2009]:* The Prime Minister's Special Representative for the 2018 World Cup has undertaken six overseas visits at a cost to the Department of £7,538.02.

All these costs were incurred before the formation of the England 2018 board. All future travel costs will be met by England 2018.

HEALTH

Accident and Emergency Departments: Crimes of Violence

Sandra Gidley: To ask the Secretary of State for Health how many times the police have been called out to accident and emergency departments in each NHS trust area because of disorderly conduct by patients in each of the last five years. [287759]

Mr. Mike O'Brien: This information is not collected centrally and can be obtained only at disproportionate cost.

Alcoholic Drinks: Misuse

Norman Lamb: To ask the Secretary of State for Health (1) how many prescriptions of drugs for the treatment of alcohol dependency were dispensed in each of the last five years; [283728]

(2) how many and what proportion of *(a)* men and *(b)* women were diagnosed as alcohol-dependent in each of the last five years; [283729]

(3) how many and what proportion of *(a)* men aged over 65 years and *(b)* women aged over 65 years was diagnosed as alcohol-dependent in each of the last five years; [283739]

(4) how many and what proportion of under 18 year old *(a)* males and *(b)* females were diagnosed as alcohol-dependent in each of the last five years. [283740]

Gillian Merron: There are a number of drugs that can be used to treat, or that are used in the treatment, of alcohol dependency. The vast majority of these drugs are used to treat a range of other conditions and data on their use cannot be broken down to show use by disease group, therefore providing this data would be misleading. However, Dusulfiram (Antabuse) and Acamprosate Calcium (Campral EC) are used only in the treatment of alcohol dependency and the following table gives the combined number of prescription items for Dusulfiram (Antabuse) and Acamprosate Calcium (Campral EC) dispensed in the community in England over the last five years.

Number of prescription items for Acamprosate Calcium (Campral EC) and Disulfiram (Antabuse) dispensed in the community in England, 2004-08

	Items
2004	110,057
2005	109,170
2006	115,924
2007	122,828
2008	134,477

Note:
Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.

The information on the number of men and women diagnosed as alcohol-dependent is not collected centrally and information on the proportion of men and women diagnosed as alcohol-dependent is not available in the format requested.

Information on the proportion of men and women in England who showed 'any dependence' on alcohol is available for 2000 and 2007 as part of the NHS Information Centre for health and social care report "Adult Psychiatric Morbidity in England, 2007". However, data on alcohol dependence is available for the following age groups 16 to 24, 25 to 34, 35 to 44, 45 to 54, 55 to 64, 65 to 74, and not the age groups requested.

This report provides useful trend data, comparing 2007 with 2000, however it is important to note that it uses a definition of 'any dependence', which will have included a number of people with mild dependence who either did not require intensive specialised treatment or whose dependence would resolve without any intervention.

Epidemiological analysis of alcohol dependence by independent academics, including that provided in the Alcohol Needs Assessment Research Project (ANARP) commissioned from St. George's university in 2004, included use of a different methodology for estimating the most clinically relevant level of alcohol dependence in the population, taking into account the reliability and robustness of using the cut-off chosen in their study.

The cut-off used in the ANARP study, for example, was used to identify either moderately or severely dependent drinkers, as opposed to the identification of "any dependence" used for the "Adult Psychiatric Morbidity in England, 2007" report sample.

ANARP conducted their research over a period of six months between September 2004 and February 2005, and found an overall prevalence figure for alcohol dependence of 3.6 per cent. in those aged between 16 and 64, which equated to 1.1 million people with alcohol dependence for England.

The "Adult Psychiatric Morbidity in England, 2007" report, shows the proportion of men and women, by age, who showed any dependence on alcohol in 2000 and 2007. A copy of the "Adult Psychiatric Morbidity in England, 2007" report has been placed in the Library.

Analgesics

Mr. Hoyle: To ask the Secretary of State for Health how much the NHS spent on analgesic drugs in each of the last three years. [288241]

Mr. Mike O'Brien: The following table provides the net ingredient cost (NIC) of analgesic drugs for both primary and secondary care. The primary care figures are for those drugs as listed in section 4.7 of the British National Formulary. The secondary care NIC figures are for drugs in the following Anatomical Therapeutic Chemical (ATC) European Pharmaceutical Market Research Association (EPhMRA) sections: N02A0 Narcotic Analgesics, N02B0 Non-Narcotic Analgesics and N02C0 Anti-migraine Preparations.

Analgesic drugs—NIC

£000

	Primary care	Secondary care
2006	411,167.5	50,390.1
2007	450,805.6	53,672.7
2008	426,166.4	52,069.7

Source:
Prescription Cost Analysis (PCA) and Hospital Pharmacy Audit Index held by IMS Health

Blood: Contamination

Jenny Willott: To ask the Secretary of State for Health with reference to the answer of 14 May 2007, *Official Report*, columns 574-5W, on blood: contamination, what steps he has taken to identify the reasons for the destruction of legal waivers indemnifying the Government against any further litigation signed by registrants of the MacFarlane Trust; and if he will make a statement. [288168]

Gillian Merron: Further to the answer of 14 May 2007, *Official Report*, column 574W, the Department has identified 247 waivers on file. As explained in the previous answer, a number of waivers going back to 1989 were inadvertently destroyed with the files in which they were held.

Cardiovascular System: Children

Mr. Sheerman: To ask the Secretary of State for Health what recent research his Department has *(a)* commissioned and *(b)* evaluated on new techniques for identifying cardiovascular risk in children; and at what locations such research is being carried out. [288386]

Gillian Merron: The Department's National Institute for Health Research (NIHR) is funding a study via its Health Technology Assessment programme on pulse oximetry as a screening test for congenital heart disease in newborn babies. The chief investigator responsible for the study is based at Birmingham University. The NIHR Biomedical Research Centre at Great Ormond Street Hospital for Children and University College London Institute of Child Health is also undertaking relevant research as part of its work on the molecular basis of childhood disease.

Mr. Sheerman: To ask the Secretary of State for Health what steps he is taking to assist the screening of children for cardiovascular problems. [288387]

Ann Keen: The Government's Healthy Child Programme recommends that by 72 hours all babies should have a clinical examination of the heart. Those with a suspected abnormality of the heart on examination, or who are at

risk of an abnormality, should have an appropriate diagnostic assessment and start treatment for the condition as soon as indicated. The examinations are usually performed by doctors, but can also be carried out by midwives and specialist nurses. The aim of the clinical examination is to pick up a problem as early as possible, so that any treatment can start as early as possible. The examination record is included in the Red Book under "Colour, pulses, heart sounds and murmurs" for newborns and "Murmur, Cyanosis, Femorals" for the six to eight weeks examination carried out by general practitioners or trained health visitors. The Red Book provides a record of child development, growth, immunisations and the results of examination and screening tests, and should be given and explained to all parents soon after their baby is born.

Cardiovascular System: Screening

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for North Norfolk of 12 February 2009, *Official Report*, columns 2165-66W, on cardiovascular systems: screening, whether his Department is monitoring the location of settings from which vascular checks are being commissioned in each primary care trust area; and if he will make a statement. [288885]

Ann Keen: Currently, no data are collected centrally by the Department on which settings primary care trusts (PCTs) are commissioning NHS health checks to take place in. We are working to establish a national minimum data set on NHS health checks, in order to help PCTs and strategic health authorities observe progress of the NHS health check programme locally.

Sandra Gidley: To ask the Secretary of State for Health if he will develop national templates to assist primary care trusts in delivering vascular checks in *(a)* general practice surgeries, *(b)* community pharmacies, *(c)* walk-in centres and *(d)* other settings. [288886]

Ann Keen: The Department has produced a number of national guidance documents, templates and other resources to support primary care trusts deliver the NHS health check (previous called vascular checks). Most recently, in conjunction with the Pharmaceutical Services Negotiating Committee, it has produced a national template designed to help primary care trusts who wish to commission NHS health checks from community pharmacy. It is available at:

www.pcc.nhs.uk/302

In association with primary care contracting, it has also developed a primary care service framework to assist primary care trusts in delivering NHS health checks in general practice surgeries, walk-in centres and other settings. This can be found at:

www.pcc.nhs.uk/news/531

Care Homes: Standards

Mr. Lansley: To ask the Secretary of State for Health how many care homes obtained each score against each of the national minimum standards in the latest year for which figures are available. [288600]

Phil Hope: We are informed by the Care Quality Commission (CQC) that the scores against each national minimum standard (NMS) for care homes, for the year ending 31 March 2008—the latest year for which information is available—are as shown in the following tables.

Performance of care homes against each NMS for care homes for older people as at 31 March 2008

	Standard not met with major shortfalls		*Standard not met with minor shortfalls*		*Standard met*		*Standard exceeded*

Carers

Geraldine Smith: To ask the Secretary of State for Health what recent steps he has taken to assist carers. [287981]

Phil Hope: 'Carers at the heart of 21st-century families and communities' sets out a number of commitments that are being delivered over the next three years (2008-09 to 2010-11). A copy of which has already been placed in the Library.

The Carers Grant is currently £240 million a year. It enables local authorities to develop innovative and personalised outcomes reflecting the needs of their local carers. It includes £25 million that councils can use to provide emergency cover for carers when they are suddenly unable to care. This means that, by 2011, we will have invested over £1.7 billion in supporting carers.

We are investing over £255 million to support carers in the short term. This includes £150 million for planned breaks from carers, up to £38 million to enable carers to be better able to combine paid employment with their caring role through enhanced flexible working opportunities and increased skills training opportunities, and over £6 million to support young carers. This extra funding recognises the value of carers in today's society and their ever-growing importance in the future

In the last couple of months, we have formally launched a national information service, Carers Direct. The Carers Direct helpline and website enables carers to access a wide range of information and advice on sources of support.

On 15 July 2009, we announced the 25 primary care trusts and local authorities that have been selected to be the Carers Strategy Demonstrator Sites. These will provide evidence of good practice in respect of providing breaks for carers, health and well-being checks and national health service support for carers.

Mr. Caton: To ask the Secretary of State for Health (1) what steps he is taking to ensure that primary care trusts use funding provided for respite for carers; [288076]

(2) what estimate he has made of the number of carers of people with Parkinson's Disease who had no respite break in the last 12 months. [288077]

Phil Hope: Additional funding of £150 million for respite care is included in the 2009-10 and 2010-11 primary care trust (PCT) revenue allocations. This is in addition to the Carers Grant paid to councils across England which is worth £240 million in 2009-10 and which they can use to support carers with breaks and other services.

The NHS Operating Framework 2009-10 states that PCTs should work with their local authority partners and publish joint plans on how their combined funding will support breaks for carers, including short breaks.

However, the actual level of spend in each year is for PCTs to decide locally in the light of their local circumstances, and priorities as set out in the NHS Operating Framework and Vital Signs. This includes a vital sign on the proportion of carers receiving a carer's break.

The NHS Information Centre does not hold information on carers of people with Parkinson's Disease.

Carers: Young People

Lembit Öpik: To ask the Secretary of State for Health what his most recent estimate is of the number of young carers; and if he will make a statement. [285918]

Dawn Primarolo: I have been asked to reply.

The 2001 census, which is the only source of national data on the number of carers of all ages, indicated that there were some 175,000 children and young people aged under 18 across the UK who were offering some care to family members, neighbours, friends or others.

The census records young people who are described by the adults in the household as offering care to their families or communities. This includes young people who are responsible for the care of a family member (which is how young carers are usually defined) plus others who may provide more occasional support for neighbours and friends.

Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment

Mike Penning: To ask the Secretary of State for Health (1) how much the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment spent on staffing in each of the last five years; [289054]

(2) how many *(a)* full-time equivalent and *(b)* part-time staff are employed the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment; [289056]

(3) when Ministers in his Department last met staff of the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment; [289061]

(4) what the budget of the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment has been in each of the last five years; [289062]

(5) what the cost of the office premises of the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment was in each of the last five years; [289063]

(6) what the salary of each member of the board of the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment was in each of the last five years. [289064]

Gillian Merron: The Committee on Carcinogenicity in Food, Consumer Products and the Environment (COC) does not employ staff. Ministers have not held meetings with members of COC in the last five years.

Since 2006 the Health Protection Agency (HPA) have provided a secretariat for COC. The HPA meets the costs of several advisory committees. It is not possible to disaggregate the costs for this committee.

The COC does not occupy office premises. COC meetings are either held in premises provided by the HPA or the Department.

COC does not have a board. Members of the COC are not paid a salary. An attendance allowance £158 for the chairman and £123 for members, a reading fee £40 for the chairman and £30 for members and travelling expenses are provided.

Committee on Medical Aspects of Radiation in the Environment

Mike Penning: To ask the Secretary of State for Health (1) how many *(a)* full-time equivalent and *(b)* part-time staff are employed by the Committee on Medical Aspects of Radiation in the Environment; [289017]

(2) when Ministers in his Department last met staff of the Committee on Medical Aspects of Radiation in the Environment; [289043]

(3) what the budget of the Committee on Medical Aspects of Radiation in the Environment has been in each of the last five years; [289044]

(4) what the cost of the office premises of the Committee on Medical Aspects of Radiation in the Environment was in each of the last five years; [289045]

(5) what the annual salary of each member of the Board of the Committee on Medical Aspects of Radiation in the Environment was in each of the last five years; [289046]

(6) how much the Committee on Medical Aspects of Radiation in the Environment has spent on staffing in each of the last five years; [289047]

(7) how much the Committee on Medical Aspects of Radiation in the Environment has spent on external consultancy in each of the last five years. [289138]

Gillian Merron: The Committee on Medical Aspects of Radiation in the Environment (COMARE) does not employ staff. Ministers have not held meetings with members of COMARE in the last five years.

Since 2005 the Health Protection Agency (HPA) has provided a secretariat for COMARE. The HPA meets the costs of several advisory committees. It is not possible to disaggregate the costs for this committee.

COMARE does not occupy office premises. COMARE meetings are either held in premises provided by the HPA or the Department.

COMARE does not have a board. Members of COMARE are not paid a salary. An attendance allowance (£141.50 for the chairman and £98.50 for members, a reading fee £28.50 for the chairman and £25 for members) and travelling expenses are provided.

COMARE has not employed external consultants in the last five years.

Mike Penning: To ask the Secretary of State for Health (1) what the salary of each member of the Board of the Committee on Medical Effects of Air Pollutants was in each of the last five years; [289019]

(2) how much the Committee on Medical Effects of Air Pollutants spent on staff in each of the last five years; [289020]

(3) how many staff the Committee on Medical Effects of Air Pollutants employs; and how many are *(a)* full-time and *(b)* part-time; [289021]

(4) how much the Committee on Medical Effects of Air Pollutants spent on external consultancy in each of the last five years; [289022]

(5) when Ministers in his Department last met staff of the Committee on Medical Effects of Air Pollutants; [289040]

(6) what the budget of the Committee on Medical Effects of Air Pollutants was in each of the last five years; [289041]

(7) what the cost of the office premises for the Committee on Medical Effects of Air Pollutants in *(a)* Leeds and *(b)* London was in each of the last five years. [289042]

Gillian Merron: The Committee on the Medical Effects of Air Pollutants (COMEAP) does not employ any staff. Ministers have not held meetings with members of COMEAP in the last five years.

Since 2006 the Health Protection Agency (HPA) have provided a secretariat for COMEAP. The HPA meets the costs of several advisory committees. It is not possible to disaggregate the costs for this committee.

COMEAP does not occupy office premises. COMEAP meetings are either held in premises provided by the HPA or the Department.

COMEAP does not have a board. Members of COMEAP are not paid a salary. An attendance allowance (£158 for the chairman and £123 for members, a reading fee £40 for the chairman and £30 for members) and travelling expenses are provided.

COMEAP employed external consultants in 2007 to produce peer reviews of the latest report on "Long term exposure to air pollution: Effect on mortality" at a total cost of £4,000.

Council for Healthcare Regulatory Excellence

David Taylor: To ask the Secretary of State for Health what guidance he has issued to patient and service user groups on claiming for travel costs associated with attendance at meetings of the Council for Healthcare Regulatory Excellence between 5 March and 5 June 2009. [288579]

Ann Keen: My right hon. Friend the Secretary of State does not issue any guidance to patient and service user groups on claiming for travel costs associated with the attendance at meetings of the Council for Healthcare Regulatory Excellence. However, guidance available on the Council for Healthcare Regulatory Excellence website in March 2009 was revised in May 2009 to bring it in line with the Department's best practice guidance 'Reward and Recognition'. The Council for Healthcare Regulatory Excellence pays reasonable travel expenses to attend meetings and events (excluding their Council meetings) to those who are self financing or unemployed.

Counselling: Essex

Bob Spink: To ask the Secretary of State for Health how many specialist counselling services the NHS provided in *(a)* Essex and *(b)* Castle Point in the latest period for which figures are available. [289153]

Phil Hope: This information is not held centrally.

Damian McBride

Mr. Maude: To ask the Secretary of State for Health on what date he last met Mr Damian McBride in the course of his official duties. [287402]

Phil Hope: My right hon. Friend the Secretary of State for Health has not met with Mr. Damian McBride in the course of his ministerial duties.

Dementia: Drugs

Mr. Burstow: To ask the Secretary of State for Health if he will publish the report on prescribing of anti-psychotic medication commissioned by his Department; what steps his Department plans to take to reduce reliance on inappropriate use of medication in the management of people with dementia; and if he will make a statement. [288576]

Phil Hope: The report from Professor Sube Banerjee on the prescribing of anti-psychotic drugs to people with dementia has now been received by officials in the Department. The report will be published shortly, following normal peer review procedures.

Dementia: Research

Mr. Drew: To ask the Secretary of State for Health what plans he has for the future level of funding for dementia research; and what matters relating to such funding will be discussed at the forthcoming research summit held with the Medical Research Council. [288082]

Gillian Merron: The dementia research summit to be held on 21 July will bring together a range of experts to help shape the future direction of dementia research in the United Kingdom. It will aim to identify gaps in existing knowledge and prioritise new areas for research investment. In addition to helping to develop a more clearly prioritised research agenda, the summit will also focus on better ways to support the current science base and sharpen its impact.

The usual practice of the Department's National Institute for Health Research and of the Medical Research Council is not to ring-fence funds for expenditure on particular topics: research proposals in all areas compete for the funding available. Future levels of expenditure on dementia research will be determined by the success of relevant bids for funding.

Dental Health: Children

Mr. Wallace: To ask the Secretary of State for Health what plans he has to provide guidance on dental hygiene to children. [288702]

Ann Keen: The Department has just published a revision of "Delivering Better Oral Health: An evidence based toolkit for prevention". The aim of the toolkit, which has been distributed to all dental practices in England, is to ensure that dentists and members of dental teams give consistent, evidence based advice to patients and their families on the prevention of dental disease. The toolkit contains advice specific to children 0 to six years, children and young adults from age seven as well as for adults. Guidance includes tooth brushing, use of correct toothpaste and dietary advice. While access to national health service dentistry is improving and the toolkit advises parents and carers to take young children to the dentist, we have also taken initiatives to promote oral health in a community setting. For example, under the Brushing for Life scheme families with young children in areas with higher levels of dental decay are issued with a free pack of fluoride toothpaste and a toothbrush—supported by advice on oral hygiene—when they attend child health clinics, Surestart Children's Centres and other health and pre-school facilities.

"Delivering Better Oral Health: An evidence based toolkit for prevention" has been placed in the Library, and is also available online at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_102331

Dental Services

Andrew George: To ask the Secretary of State for Health how many patients received dental treatment on the NHS in *(a)* St Ives constituency, *(b)* Cornwall and *(c)* England in each of the last five years. [288204]

Ann Keen: Information is not available in the format requested.

The number of patients registered with a national health service dentist, in England, as at 31 March, 1997 to 2006 is available in Annex A of the NHS Dental Activity and Workforce Report, England: 31 March 2006. Information is provided by strategic health authority and primary care trust, as well as at a national level.

This information is based on the old contractual arrangements which were in place up to and including 31 March 2006. This report has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dwfactivity

Under the new dental contractual arrangements, introduced on 1 April 2006, patients do not have to be registered with an NHS dentist to receive NHS care. The closest equivalent measure to 'registration' is the number of patients receiving NHS dental services ("patients seen") over a 24-month period. However, this is not directly comparable to the registration data for earlier years.

Information on the number of patients seen by an NHS dentist in the previous 24 months in England, as at quarterly intervals, from 31 March 2006 to 31 December 2008 is available in Table D3 of Annex 3 of the NHS Dental Statistics for England, Quarter 3; 31 December 2008 report. Information is provided by PCT and SHA, as well as at a national level.

This report has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalstats0809q3

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Health what percentage of employees in his Department are on a *(a)* flexible working contract and *(b)* job share employment contract. [287096]

Phil Hope: The Department recognises that flexible working allows staff to combine employment and a career with other responsibilities as well as meeting personal needs. The Department encourages staff to work flexibly through providing opportunities such as part time working, job sharing, term time only working and the use of flexitime. It also provides the technology to allow staff to work at home on occasions and has in place specific arrangements to allow parents, adopters, guardians and foster carers of children under 16 (or disabled children under 18) to apply to work flexibly.

Managers have the discretion to agree flexible working arrangements locally, without making contractual changes. These arrangements are not recorded centrally so the percentage of staff working flexibly is not available but is likely to be a large fraction of the work force.

According to the Department's centrally held records (the Business Management System) at 1 April 2009 approximately 0.3 per cent, of civil servants in the Department were in job share arrangements. Approximately 9 per cent. were working part-time and approximately 0.2 per cent. were working in term time only.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Health how much his Department spent on Royal Mail services in each of the last two years. [288739]

Phil Hope: The Department has spent the following amounts on Royal Mail in the last two years:

	Total spend (£)
2007-08	170,608.43
2008-09	138,416.00

Diabetes: Health Education

David Taylor: To ask the Secretary of State for Health if he will provide guidance for people with diabetes on eating recommended daily amounts of fresh fruit and vegetables. [288641]

Ann Keen: The Department has no plans to issue specific nutritional guidance for people with diabetes. We recommend that everybody, including those with diabetes, should eat a healthy balanced diet, which includes five servings of fruit and vegetables a day. Eating a healthy balanced diet, and taking regular physical activity are key parts of good diabetes management, and can help to prevent or delay the onset of long-term complications of the condition.

Driving Under Influence

Mark Hunter: To ask the Secretary of State for Health how many drug-related finished hospital admissions with a primary or secondary diagnosis of road traffic accidents there have been for *(a)* males and *(b)* females aged (i) under 18, (ii) between 18 and 25, (iii) between 26 and 30, (iv) between 31 and 50, (v) between 51 and 70 and (vi) over 71 in each (A) region and (B) primary care trust area in each year since 1997. [286837]

Gillian Merron *[holding answer 14 July 2009]:* This information is not collected centrally.

There is no way of identifying whether a patient's admission was drug related or not. For example, a patient may have a drug poisoning code recorded on their episode of care, but this could be due to the over-prescription of a drug while in hospital, and does not necessarily signify that the patient came into hospital intoxicated. For these reasons the joint appearance of a drug poisoning code and a road traffic accident (RTA) code on a record of an episode of care does not signify that the patient was intoxicated at the time of the RTA.

Drugs

Sandra Gidley: To ask the Secretary of State for Health what recent discussions he has had with pharmaceutical manufacturers on the availability of medicines; and if he will make a statement. [288893]

Mr. Mike O'Brien: Ministers have had no recent meetings with pharmaceutical manufacturers on this subject. Departmental officials have frequent contact with manufacturers about shortages and discontinuations of drugs.

Drugs: Finance

Chris Huhne: To ask the Secretary of State for Health how much *(a)* his Department and *(b)* its agencies spent on the implementation of drugs policies in each category in each of the last 10 years. [286733]

Gillian Merron: The following table sets out the Department's spending on the implementation of drug policies over the last nine years. Data for 2000-01 are unavailable. The table includes funding for the national treatment agency for substance misuse (NTA).

Department of Health expenditure (£ millions to one decimal place)

	2001-02	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*
Adult PTB	142.0	191.0	236.0	253.0	300.0	385.0	398.0	398.0	406.0
Mainstream funding (PCT)	145	131	200	204	208	212	202	208	[1]—
Young people's PTB	0.0	0.0	0.0	15	24	24.6	24.7	24.7	24.7
Prison clinical services (IDTS)	0.0	0.0	0.0	0.0	0.0	7.8	11.5	23.2	39.7
NTA central costs	2.1	5.5	5.5	5.5	5.7	10.5	11.6	11.6	11.6
Frank (DH contribution)	0.0	0.0	1.8	2.6	1.3	3.1	2.0	2.0	2.0
Focal Point[1]	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2

[1] Not finalised

Notes:
PTB—pooled drug treatment budget,
PCT—primary care trust,
IDTS—integrated drug treatment system.

The UK Focal Point collates data and information on drug misuse in the UK and reports it to the European Monitoring Centre on Drugs and Drug Addiction.

This table does not include central voluntary sector funding, staff costs, and central programme costs, as these are more difficult to segregate out to demonstrate drugs specific expenditure.

Drugs: Misuse

Dr. Kumar: To ask the Secretary of State for Health how many reported incidents of overdoses of prescription drugs there have been of under 18 year olds in *(a)* England, *(b)* the North-East and *(c)* Teesside in each of the last 10 years. [285194]

Chris Huhne: To ask the Secretary of State for Health how many children aged *(a)* under five, *(b)* five to nine, *(c)* 10 to 16 and (d) 17 to 18 years live in a household where (i) one or (ii) both parents have a substance abuse problem; and if he will make a statement. [286738]

Gillian Merron: Although the data requested are collected via the National Drugs Treatment Monitoring System (NDTMS), the National Treatment Agency for Substance Misuse (NTA) has identified problems with the quality of this data and it believes that releasing this data in their current form would be misleading. The NTA is addressing these data quality issues and expects to publish this data, with an assessment of its quality, alongside their annual statistics release later in this financial year.

Bob Spink: To ask the Secretary of State for Health what treatments are provided by the NHS for problem drug users; and if he will make a statement. [287688]

Gillian Merron: The National Health Service provides a range of treatments for drug misuse. 'Models of Care for Treatment of Adult Drug Misusers', published by the National Treatment Agency for Substance Misuse in 2006, sets out a national framework for the provision of drug misuse treatment services. Types of interventions described include:

substance misuse related advice and information;

harm reduction interventions;

community prescribing interventions: general practitioner prescribing and specialist prescribing;

structured psychosocial interventions;

structured day programmes;

in-patient drug treatment;

residential rehabilitation; and

aftercare.

These interventions are provided as part of a package of care for individuals, and one person may receive a number of these interventions during their time in treatment.

In addition the NHS works in partnership with other agencies to support the social reintegration of problem drug users to help underpin the process of their becoming drug-free.

Drugs: Rehabilitation

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 3 July 2009, *Official Report*, column 478W, on drugs rehabilitation, how many people in each age group dependent on each drug in each year were resident in each region. [286418]

Gillian Merron: The data for 2003-04 are not available centrally. There is no regional breakdown for 2004-05, as regional data were not available for every region that year. The information available, is for 2005-06, 2006-07, 2007-08, and has been placed in the Library.

Epilepsy

Chris McCafferty: To ask the Secretary of State for Health if he will place in the Library a copy of the recent letter from the Parliamentary Under-Secretary of State for Health Services to strategic health authorities on epilepsy. [288423]

Ann Keen: A copy of the letter, which is expected to be sent out in the next few days, has been placed in the Library.

EU Law

Bob Spink: To ask the Secretary of State for Health (1) what estimate he has made of the proportion of statutory obligations provided for by legislation on

matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available; [281863]

(2) what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283475]

Ann Keen: The information is as follows.

The Working Time (Amendment) Regulations 2009 (S.I. 2009/1567)—which implement Article 17(5) third subparagraph of Directive 2003/88/EC concerning certain aspects of the organisation of working time.

Estimate of costs: Nil

Any costs arising from these changes to the average maximum working week will fall to the national health service, not to the Department. Any additional work for the Department arising from this would be met within existing resources.

Medicines for Human Use (Clinical Trials) and Blood Safety and Quality (Amendment) Regulations 2008 (SI 2008/941)[1]

Medicines for Human Use (Prescribing by EEA Practitioners)Regulations 2008 (SI 2008/1692)[2]

Medical Devices (Amendment) Regulations 2008 (SI 2008/2936)[1]

Medicines for Human Use (Marketing Authorisations Etc.) Amendment Regulations 2008 (SI 2008/3097)[2]

[1] To give effect to new EU obligations

[2] To give effect to existing EU obligations

Estimate of costs: Nil.

Medicines and Healthcare products Regulatory Agency activities are mostly based on EC legislation they are already funded to do the work either through the medicines fees system or the Departments funding for devices. Therefore the MHRA would do the work within existing resources.

Exercise

Mr. Hunt: To ask the Secretary of State for Health what estimate his Department has made of the cost to the economy of physical inactivity since 2002. [288086]

Gillian Merron *[holding answer 20 July 2009]:* The Department included estimates of the cost of physical inactivity, to the wider economy of England, of £8.2 billion a year in "At least five a week—Evidence on the impact of physical activity and its relationship to health", published in 2004.

More recently, a study of the primary and secondary health care costs attributable to physical inactivity was commissioned and published an estimate of these costs for every primary care trust in England as an Annex to "Be active, be healthy—A plan for getting the nation moving", published in February 2009.

Copies of both publications have already been placed in the Library.

Eyesight: Testing

Jon Trickett: To ask the Secretary of State for Health how many pensioners in Hemsworth have received free eye tests since they were introduced. [288663]

Ann Keen: Information is not available in the format requested.

The number of national health service sight tests, by patient eligibility, in England in 2007-08 is available in Table B3 of Annex C of the "General Ophthalmic Services: Activity Statistics for England and Wales: Year Ending 31 March 2008" report.

Information is provided by primary care trust (PCT) and by strategic health authority (SHA) but is not available by parliamentary constituency. Information on the number of NHS sight tests by patient eligibility is only available at a local level from 2007-08.

This report, published on 20 November 2008, has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/gosactivity0708p2

The number of NHS sight tests, by patient eligibility, in England, from 1996-97 to 2007-08 is available in Table A3, Annex B of the same report. The NHS Information Centre for health and social care is due to publish information for 2008-09 on 19 August 2009.

From 1 April 1999, eligibility for an NHS sight test was extended to everyone aged 60 or over. Patients may qualify for an NHS sight test on more than one criterion. However, they would only be recorded against one criterion on the form. Patients are more likely to be recorded according to their clinical need rather than their age. For example, a patient aged over 60, with glaucoma is likely to be recorded in the glaucoma category only. The count by eligibility is therefore approximate. Patients may also have had more than one sight test in the specified time period.

Food: Chemical Analysis

Mike Penning: To ask the Secretary of State for Health if he will have discussions with Tower Hamlets Council on its budgetary provision for the chemical analysis of food. [285694]

Gillian Merron: The Food Standards Agency (FSA) has reviewed the Tower Hamlets annual monitoring returns and is satisfied that budgetary provision is being made by Tower Hamlets for chemical sampling, and that the council are fulfilling the responsibilities for sampling set out in the Statutory Food Law Code of Practice. FSA monitoring returns since 2006 for Tower Hamlets shows that sampling has been carried out for a range of issues including composition, contamination and labelling of food in addition to microbiological sampling. On this basis, discussions with Tower Hamlets on budgetary provision for the chemical analysis of food are considered unnecessary.

Food: Safety

Mike Penning: To ask the Secretary of State for Health what the reasons are for the reduction in the number of public analysts in the last 10 years; and if he will make a statement. [285213]

Gillian Merron: The Food Standards Agency believes that there are two main factors that have led to the decline in overall numbers of public analysts in

the United Kingdom. First, public analysts are retiring at a faster rate than they are being recruited; 60 per cent., of the current population are over 50 years and the rate for successful completion of the MChemA qualification is only one per year. Secondly, as the number of public analyst laboratories is falling there maybe less incentive for people to undertake the MChemA (which is a required qualification to become a public analysts and takes an average of six years to complete).

Mike Penning: To ask the Secretary of State for Health for what reasons the Food Standards Agency's review of public analyst services has not been completed; when he expects it will be completed; and if he will make a statement. [285214]

Gillian Merron: The Food Standards Agency (FSA) commenced a review of the public analyst service in 2007 (in consultation with the Association of Public Analysts) to address concerns over the decline in the public analyst service. Although the majority of the work on issues was completed in 2007, the refocusing of resources within the FSA resulted in a delay in carrying out a full public consultation.

The FSA is now putting together a stakeholder working group to look at reviewing and amending the Food Safety (Sampling and Qualifications) Regulations 1990 in order to enable suitably qualified people, other than those holding a Masters in Chemical Analysis, to become official food analysts. The FSA is making these proposals as part of requirements under European Union food and feed law to ensure that there are sufficient numbers of suitably qualified and experienced staff; and appropriate facilities and equipment to undertake official controls within the United Kingdom.

The results of this work will be published later this year.

Mike Penning: To ask the Secretary of State for Health what recent assessment he has made of the performance of local authorities in monitoring food safety and enforcing food safety standards. [285693]

Gillian Merron: The Food Standards Agency (FSA) assesses the performance of local authorities on food safety matters on an annual basis. The last assessment was done in February 2009, and the Board paper which makes up the assessment and shows the local authority enforcement activities can be found at:

www.food.gov.uk/multimedia/pdfs/board/info090201.pdf

Each year the FSA Board assesses local authority performance on food safety matters. The FSA Board examines data reports from monitoring and audit checks to assess local authority performance in enforcing food safety legislation. FSA powers to carry out these activities are set out in under the Food Standards Act 1999.

The FSA Board examine both national trends and the position of individual authorities.

Where an individual local authority reports figures which are not considered to be acceptable, further inquiries are made of that authority, and the FSA will, if appropriate, use its powers formally to audit that authority's services.

General Practitioners: Home Visits

Mr. Wallace: To ask the Secretary of State for Health what steps his Department is taking to encourage GPs to make home visits outside surgery hours. [288371]

Mr. Mike O'Brien: The Department has not issued specific guidance on home visits for general practitioner (GPs) working during the out-of-hours period—6.30 pm to 8 am on weekdays, and the whole of weekends and Bank Holidays. The decision to undertake a home visit is a matter of clinical judgment at any time.

All out-of hours services must be delivered to the National Quality Requirements, ensuring patients have access to consistently high quality and responsive care, regardless of where they live.

The Requirements stipulate that:

patients will be guaranteed a GP consultation—including a home visit if there is a clinical need;

patients are treated by the clinician best equipped to meet their needs in the most appropriate location; and

services will be regularly audited to ensure that patients are receiving quality care.

General Practitioners: Working Hours

Mr. Wallace: To ask the Secretary of State for Health how many GP practices in *(a)* Lancashire and *(b)* England are closed at lunchtimes on weekdays. [288370]

Mr. Mike O'Brien: Data on general practitioner (GP) practices' opening hours is not collected centrally, but under the nationally negotiated general medical services (GMS) contract, GP practices are responsible for delivering primary medical care services to their patients from 8am to 6:30pm Monday to Friday, except Good Friday, Christmas day or bank holidays. Practices can place information of their opening times for patients to access on the NHS Choices website.

Glasgow

John Mason: To ask the Secretary of State for Health whether he plans to visit Glasgow on official business during the summer adjournment. [288931]

Phil Hope: My right hon. Friend the Secretary of State has no current plans to visit Glasgow on official business during the summer recess.

Haemophilia: Compensation

Jenny Willott: To ask the Secretary of State for Health what estimate he has made of the cost of implementing in full the recommendation of the Archer Inquiry into Contaminated Blood and Blood Products on compensation for haemophiliacs infected through contaminated blood products; and if he will make a statement. [288175]

Gillian Merron *[holding answer 20 July 2009]:* No estimate has been made of the cost of implementing in full the recommendation of the Archer Inquiry into

Contaminated Blood and Blood Products on compensation for haemophiliacs infected through contaminated blood products as Lord Archer's report did not quantify the levels of compensation he was recommending.

Haemophilia: HIV Infection

Jenny Willott: To ask the Secretary of State for Health how many haemophiliacs known to have been infected with HIV through contaminated blood products were alive on the latest date for which figures are available; and if he will make a statement. [288176]

Gillian Merron: As at 31 March 2009 346 haemophiliacs, known to have been infected with HIV through contaminated blood products, are still alive.

Health Services: Overseas Visitors

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he plans to respond to the results of his Department's consultation on proposals on eligibility of overseas visitors for free primary medical services; what the reasons are for the time taken to respond; and if he will place in the Library a copy of each of the unpublished consultation responses. [286924]

Gillian Merron: A summary of the responses to the 2004 consultation Proposals to Exclude Overseas Visitors from Eligibility to Free NHS Primary Medical Services was published on 10 June and can be viewed at:

www.dh.gov.uk/en/Consultations/Responsestoconsultations/DH_100608

A copy has been placed in the Library.

The complex issues raised in the complete responses to the 2004 consultation needed to feed into the joint Department of Health and Home Office review enforcing the rules: A new strategy to ensure and enforce compliance with our immigration laws.

The Government's final conclusions and its associated finding were announced in the written ministerial statement on 20 July 2009, *Official Report*, column 97WS.

Human Fertilisation and Embryology Bill 1990

Mr. Amess: To ask the Secretary of State for Health (1) if he will place in the Library a copy of each document in his Department's file INW0014/0030/0008/VO1 HF&E Bill 1990 Lords Consideration of Commons Amendments; and if he will make a statement; [285545]

(2) if he will place in the Library a copy of each document in his Department's file INW0014/0030/0010/VO1 HF&E Bill 1990 Various Papers; and if he will make a statement; [285546]

(3) if he will place in the Library a copy of each document in his Department's file INW0014/0030/0005/VO1 HF&E Bill 1990 Commons 2nd Reading; and if he will make a statement; [285550]

(4) if he will place in the Library a copy of each document in his Department's file INW0014/0030/0006/VO1 HF&E Bill 1990 Commons Committee; and if he will make a statement. [285551]

Gillian Merron: The Department does hold these files. It will take some time to review the information requested and we shall endeavour to do so within 20 working days, (the period of time that would apply had the hon. Member submitted the questions as Freedom of Information requests). I will write to the hon. Member in due course and place a copy of my letter in the Library.

Hospitals: Admissions

Mr. Spring: To ask the Secretary of State for Health how many hospital admissions of patients of each age group there were in Suffolk where the primary or secondary diagnosis was drug-related in each of the last five years. [286260]

Gillian Merron: The number of total admissions to hospital in the Suffolk primary care trust area, which the primary or secondary diagnosis of the patient was drug related, broken down by age for 2003-04 to 2007-08 are shown in the following table.

Activity in English NHS hospitals and English NHS commissioned activity in the independent sector

	Year (of end of first period of care in patient's hospital stay)				
Age	*2007-08*	*2006-07*	*2005-06*	*2004-05*	*2003-04*
Under 15	127	137	164	221	178
15 to 64	1,559	1,559	1,564	1,514	1,732
65+	552	606	579	529	489
Unknown	3	—	1	—	—

Notes:

1. There is no way to distinguish between illegal and legal drugs and although the patient may be given a drug related diagnosis.

2. Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

3. Data Quality

Hospital episode statistics (HES) are compiled from data sent by over 300 NHS trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

4. Assessing growth through time

HES figures are available from 1989-90 onwards. During the years that these records have been collected from the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

5. Number of episodes in which the patient had a (named) primary or secondary diagnosis—drug related

These figures represent the number of episodes where the diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) primary and secondary diagnosis fields in a HES record. Each episode is only counted once in each count, even if the diagnosis is recorded in more than one diagnosis field of the record.

6. The ICD-10 codes used to identify a drug related diagnosis are as follows (alcohol and tobacco codes have been removed as requested). Please note: A 'drug' can be defined, broadly speaking, as any substance that alters normal bodily function. Therefore we have included codes relating to noxious substances and solvents. It is not possible to identify in ICD-10 all diseases caused by drugs (legal or illegal) and there is no way to guarantee, that the admission was drug related. For example, a patient admitted for inguinal hernia surgery may also be dependent on a drug.

F11—Mental and behavioural disorders due to use of opioids

7. Suffolk PCT of residences
From 2006-07 onwards Suffolk as a whole was a PCT. Prior to this, Suffolk was made up of four PCTs. Reference should be made as follows for details.
2006-07 onwards
5PT—Suffolk PCT
Pre 2005-06
5JR—Suffolk Coastal
5JQ—Ipswich
5JT—Central Suffolk
5JW—Suffolk West
8. Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
Sources:
Hospital Episode Statistics (HES), The Information Centre for health and social care
NHS Information centre for health and social care.

Stephen Hammond: To ask the Secretary of State for Health how many *(a)* hospital admissions and *(b)* finished consultant episodes there were (i) in England and (ii) at (A) Ashford Hospital, (B) Hillingdon Hospital, (C) Ealing Hospital, (D) West Middlesex University Hospital and (E) Teddington Memorial Hospital in each of the last five years. [288419]

Mr. Mike O'Brien: Data on hospital admission are not collected at individual hospital level. The information collected is at national health service trust or primary care trust (PCT) level. Data on hospital admissions in the relevant provider NHS trusts and PCT and for England are shown in the following tables.

Count of Finished Admission Episodes and Finished Consultant Episodes for England and Selected NHS Trusts: Activity in English NHS Hospitals and English NHS commissioned activity in the independent sector

2004-05	31,211	33,692	470	470
2003-04	29,912	32,233	355	355

Notes:
Finished admission episodes (a)
A finished admission episode is the first period of inpatient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Finished Consultant Episode (FCE) (b)
A finished consultant episode (FCE) is defined as a continuous period of admitted patient care under one consultant within one healthcare provider. FCEs are counted against the year in which they end. Please note that the figures do not represent the number of different patients, as a person may have more than one episode of care within the same stay in hospital or in different stays in the same year.
Data quality
Hospital Episode Statistics (HES) are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Assessing growth through time
HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.
Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.
Hospital Providers
A provider code is a unique code that identifies an organisation acting as a health care provider (e.g. NHS Trust or PCT). Hospital providers can also include Treatment Centres (TC). Treatment Centres (also known as Diagnostic Centres) provide elective (planned) surgery for a range of conditions, mainly for day surgery or short-term hospital stay patients.
Some Treatment Centres are attached to hospital trusts and HES enables data for these to be separately identified from the rest of the healthcare provider's data. It does this by adding TC to the Trust code; if there is more than one per Trust T1, T2, T3 etc are suggested unless already in use by the Trust. Activity performed in the remainder of the Trust is identified by the health care provider code being followed by an 'X'.
Hospital providers beginning with an 'N' indicates an independent sector health care provider.

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Hospitals: Waiting Lists

Mr. McLoughlin: To ask the Secretary of State for Health what the average waiting time for *(a)* in-patient admissions and *(b)* first outpatient appointments was in each speciality in (i) Derbyshire County Primary Care Trust and (ii) England in the latest period for which figures are available. [288795]

Mr. Mike O'Brien: The Department does not collect in-patient and out-patient data at specialty level, except for trauma and orthopaedics. The latest data for May 2009, showing in-patient and out-patient median waiting times for Derbyshire County primary care trust (PCT) and England is shown in the following tables.

Median in-patient waiting time for elective admission (weeks) May 2009 (commissioner based)

Specialty	*Derbyshire County PCT*	*England*
Trauma and Orthopaedics	5.2	5.4
All Specialties	3.6	4.3

Source:

Department of Health Monthly Waiting List Collection MMRCOM

Hospitals: Working Hours

Mr. Wallace: To ask the Secretary of State for Health what research his Department has undertaken into levels of availability of medical services in hospitals at weekends. [288760]

Mr. Mike O'Brien: The Department has not funded any research into the levels of availability of medical services in hospitals at weekends.

Human-Animal Hybrid Embryos

Mr. Burrowes: To ask the Secretary of State for Health what legislative provisions govern the examination of human admixed embryos which have been stored in licensed premises for the purposes of investigating an offence under the Human Fertilisation and Embryology Act 1990. [288617]

Gillian Merron: The Human Fertilisation and Embryology Act 1990, as amended by the Human Fertilisation and Embryology Act 2008, provides that no one shall bring about the creation of an human admixed embryo or keep or use such an embryo except in pursuit of a licence from the Human Fertilisation and Embryology Authority. This includes where human admixed embryos are being kept, examined or stored in connection with the investigation of, or proceedings for, an offence under the Human Fertilisation and Embryology Act 1990 (as amended by the Human Fertilisation and Embryology Act 2008). Therefore, examination, keeping or use of such an embryo must take place at licensed premises.

Independent Reconfiguration Panel

Mike Penning: To ask the Secretary of State for Health (1) how many staff the Independent Reconfiguration Panel employs; and how many *(a)* full-time equivalent and *(b)* part-time staff there are; [288968]

(2) how much the Independent Reconfiguration Panel spent on external consultancy in each of the last five years; [288969]

(3) how much the Independent Reconfiguration Panel spent on staffing in each of the last five years; [288970]

(4) what the salary of each member of the board of the Independent Reconfiguration Panel was in each of the last five years; [288971]

(5) what the cost of office premises occupied by the Independent Reconfiguration Panel was in each of the last five years; [288972]

(6) what the budget of the Independent Reconfiguration Panel was in each of the last five years. [288973]

Mr. Mike O'Brien: The Independent Reconfiguration Panel (IRP) is an advisory non-departmental public body sponsored by the Department of Health and does not employ any staff directly. The Panel has a part-time chair who is a public appointment, a full-time chief executive employed by the NHS Business Services Authority, a full-time secretary to the panel employed by the Department, and one agency administrative staff.

As stated in previous responses to the hon. Member 3 November 2008, *Official Report*, column 79W and 26 November 2008, *Official Report*, column 2062W; all expenditure associated with the running of the IRP is met by the Department. Expenditure on IRP functions is not separately identified or reported on within Departmental costs. The Department does not set an annual budget with the IRP. Since its inception in 2003, IRP expenditure has been authorised by the Department for annual costs to reflect expenditure reasonably incurred to address ad hoc and irregular requests from the Secretary of State for Health to the Panel for authoritative advice on contested service changes, referred to him by local Overview and Scrutiny Committees in line with the Panel's terms of reference.

An exercise was undertaken recently to look at the detail of expenditure associated with the IRP's activity in 2008-09, some of the results of which are summarised in response to your questions.

The total expenditure, including employment costs, of the IRP in 2008-09 was approximately £930,000.

For the staff listed, the approximate total cost of salaries in 2008-09 was £250,000. The IRP has a number of members, details of whom can be found on the IRP's website:

www.irpanel.org.uk/view.asp?id=47

These members do not receive a salary but are entitled to claim a fee of £140 per day and normal expenses in line with Civil Service rates when they are engaged on IRP activity. The approximate total cost of members' fees was £22,000 in 2008-09. The Panel appoints external contractors to support specific reviews at an approximate cost of £312,000 in 2008-09.

The approximate total of all costs associated with the IRP offices, including rates and utilities, was £130,000 in 2008-09. The approximate total of all costs relating to the provision of media and communications services was £80,000 in 2008-09.

Mike Penning: To ask the Secretary of State for Health when Ministers in his Department last met staff of the Independent Reconfiguration Panel. [288974]

Mr. Mike O'Brien: Alan Johnson, as Secretary of State for Health, met Dr. Peter Barrett, chair, and Richard Jeavons, chief executive, of the Independent Reconfiguration Panel (IRP) on 1 June 2009.

An introductory meeting between Andy Burnham, Secretary of State for Health, Dr. Peter Barrett and Richard Jeavons is planned shortly.

Influenza: Health Services

Norman Lamb: To ask the Secretary of State for Health what public awareness campaigns his Department has undertaken in respect of the *(a)* interim and *(b)* full National Pandemic Flu Service; what steps he has taken to measure public awareness; how much each campaign has cost; and what estimate he has made of levels of public awareness of each service. [282161]

Gillian Merron: The Department of Health is carrying out an awareness campaign to publicise the interim National Pandemic Flu Service (NPFS) which it is anticipated will be launched in late July in England. As the differences between the interim and full service are technical and will not significantly affect the public's experience of the service, the publicity will not refer to these differences.

The campaign, which it is anticipated will start in late July, includes national press and radio advertising and digital search activity.

The cost of the campaign is around £2.4 million.

Levels of awareness of the service are being measured by tracking research which is being carried out to check awareness, knowledge and understanding of swine flu by the public.

Kidneys: Health Education

Mrs. Dean: To ask the Secretary of State for Health pursuant to the answer of 8 July 2009, *Official Report*, column 868W, on kidneys: health education, what plans he has to promote the Knowing the symptoms of Kidney disease self assessment tool on the NHS Choices website; and what plans he has to link it to other relevant websites offering information on kidney disease. [288464]

Ann Keen: The kidney disease self assessment tool on the NHS Choices website is being promoted via editorial features, clinical information articles, blogs, news stories and links across the national health service website and partner websites including primary care trusts. The self-assessment tool can be found at:

www.nhs.uk/tools/pages/kidneydisease.aspx

It is also included within the NHS Health Check area of the website and has been the lead story on the NHS home page on two occasions—at launch in January and in March to support World Kidney Day.

The tool is published via a syndication programme on a growing number of partner websites including popular lifestyle websites such as iVillage, and AOL.

KPMG

Norman Lamb: To ask the Secretary of State for Health how much his Department paid to KPMG in each month of the last five years. [286699]

Phil Hope: The following table specifies the total payments from the Department to KPMG by month and year. The table will include all services provided by KPMG including management consultancy as well as finance, tax and audit services.

£

	2004	2005	2006	2007	2008	2009

Meat Hygiene Service: Redundancy

Ms Keeble: To ask the Secretary of State for Health how many people were made redundant from the Meat Hygiene Service in the last 12 months. [287389]

Gillian Merron: In the period 1 July 2008 to 30 June 2009, 124 people left the Meat Hygiene Service on redundancy or early retirement terms. Of these, 85 left voluntarily and 39 left on a compulsory basis.

Methadone: Admissions

Norman Lamb: To ask the Secretary of State for Health how many hospital admissions for methanol poisoning were recorded in each region in each of the last five years. [285447]

Gillian Merron: Data have been given by year, and not by region, to prevent any identification of individuals.

Number of hospital admissions where there was a primary diagnosis of methanol poisoning[1], in England, from 2003-04 to 2007-08

	Number
2003-04	38
2004-05	34
2005-06	37
2006-07	31
2007-08	47

Notes:

[1] Primary diagnosis

The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and 7 prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was admitted to hospital. The data above is where the primary diagnosis is of T51.1 Toxic effect of alcohol - methanol

Finished admission episodes

A finished admission episode is the first period of inpatient care under one consultant within one healthcare provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of inpatients, as a person may have more than one admission within the year.

Ungrossed data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Data quality

HES are compiled from data sent by more than 300 national health service trusts and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Assessing growth through time

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.

Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

Activity in English NHS Hospitals and English NHS commissioned activity in the independent sector.

Mid Staffordshire NHS Foundation Trust

Mr. Lansley: To ask the Secretary of State for Health on what date his Department agreed to support Mid Staffordshire General Hospitals NHS Trust in its application for foundation trust status; which Minister took this decision; and if he will place in the Library a copy of his Department's analysis used as the basis for making that decision. [269098]

Mr. Mike O'Brien *[holding answer 20 April 2009]:* The application from Mid Staffordshire General Hospitals NHS Trust secured the then Secretary of State's support on 22 June 2007. The decision was taken on her behalf by the then Minister of State for Delivery and Reform.

We are placing in the Library the following analyses from May/June 2007:

an "application assessment"; this is a completed template summarising relevant information about the applicant;

a note containing unpublished provisional data on Methicillin-resistant *Staphylococcus aureus* and *C. difficile*; this is an extract from a longer note containing similar information about other applicants considered at the same time;

a table summarising the trust's position in respect of three questions; the table has been redacted to remove the details of other applicants considered at the same time;

a financial due diligence report prepared by an external accounting firm; the report has been redacted to remove commercially sensitive information; and

a submission from officials to the Minister which includes a recommendation to support the application; the submission has been redacted to remove (i) a "Restricted" marking, (ii) information about applicants other than Mid Staffordshire, and (iii) the names of junior officials.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the membership was of his Department's Applications Committee at the time at which the Committee discussed foundation status for the Mid Staffordshire NHS Trust. [279209]

Mr. Mike O'Brien: The Department's Applications Committee was chaired by Andrew Cash, the then Director General of Provider Development, and would have included officials involved in the NHS Foundation Trust process.

Monitor

Mike Penning: To ask the Secretary of State for Health how much Monitor has spent on external consultancy services in each of the last five years. [289060]

Mr. Mike O'Brien: We are advised by the chairman of Monitor, (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), that the amount spent on external consultancy services in each of the last five years is as follows.

	Monitor spend on external consultancy services (£000)
2004-05	7,880
2005-06	6,259
2006-07	3,099
2007-08	1,536
2008-09	1,901

Mike Penning: To ask the Secretary of State for Health how much Monitor has spent on staffing in each of the last five years. [289068]

Mr. Mike O'Brien: We are advised by the chairman of Monitor, (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), that it has spent the following amounts on staffing in each of the last five years.

	Monitor spend on staff (£000)
2004-05	1,903
2005-06	4,859
2006-07	6,274
2007-08	6,539
2008-09	8,036

Mike Penning: To ask the Secretary of State for Health how many *(a)* full-time equivalent and *(b)* part-time staff are employed by Monitor. [289069]

Mr. Mike O'Brien: We are advised by the chairman of Monitor, (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), that Monitor employed 88 full-time staff and six part-time staff (total number 94) as at 31 March 2009.

Mike Penning: To ask the Secretary of State for Health when Ministers in his Department last met staff of Monitor. [289073]

Mr. Mike O'Brien: Ministers often meet with staff from Monitor. The most recent meeting was on 9 July this year, when I met Stephen Thornton, non-executive director of Monitor, and Adrian Masters, its director of strategy.

Mike Penning: To ask the Secretary of State for Health what the budget of Monitor, the Independent Regulator of NHS Foundation Trusts, was in each of the last five years. [289074]

Mr. Mike O'Brien: We are advised by the chairman of Monitor, (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), that Monitor's budget in each of the last five years was as shown in the following table.

	Budget (£000)
2004-05	16,011
2005-06	17,744
2006-07	12,552
2007-08	13,500
2008-09	16,175

Mike Penning: To ask the Secretary of State for Health what the cost of the office premises for Monitor was in each of the last five years. [289075]

Mr. Mike O'Brien: We are advised by the chairman of Monitor, (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), that Monitor has spent the following amounts on office premises.

Monitor	
	Cost of office premises (£)
2004-05	513,294
2005-06	386,542
2006-07	354,083
2007-08	370,597
2008-09	358,292

Mike Penning: To ask the Secretary of State for Health what the salary of each member of the board of the Monitor was in each of the last five years. [289106]

Mr. Mike O'Brien: We are advised by the chairman of Monitor, (the statutory name of which is the Independent Regulator of NHS Foundation Trusts), that Monitor's executive chairman is the only full-time salaried member of the Monitor's board of directors. Monitor's four non-executive directors are remunerated for their attendance of board meetings and other work related commitments. Details of the remuneration of all Monitor's board members is published each year in Monitor's Annual Report and Accounts, which is laid before Parliament. An extract from Monitor's Annual Report 2008-09 including salary and remuneration of board members is set out in the following table. Copies of all previous annual reports and accounts are available on Monitor's website.

		£000
	2008-09 Salary Band	2007-08 Salary Band
William Moyes Executive Chairman	235 to 240	215 to 220
Non-executive directors		
Christopher Mellor	15 to 20	20 to 25
Jude Goffe	25 to 30	15 to 20
Elaine Murphy	15 to 20	15 to 20
Stephen Thornton	10 to 15	15 to 20

Neurology: Research

Mr. Caton: To ask the Secretary of State for Health what proportion of his Department's budget was spent on research into *(a)* Parkinson's Disease and *(b)* all degenerative neurological conditions in (i) 2006-07 and (ii) 2007-08. [288078]

Mr. Gale: To ask the Secretary of State for Health what proportion of the NHS research budget for *(a)* 2006-07 and *(b)* 2007-08 was spent on research into (i) Parkinson's Disease and (ii) all degenerative neurological conditions. [288271]

Gillian Merron: National health service support for degenerative neurological disorder research amounted to 4.5 per cent. of the departmental research and development allocations made to NHS organisations in 2006-07 and to 5.1 per cent. of the allocations made in 2007-08.

Details of NHS expenditure on research specifically concerned with Parkinson's Disease is not available.

NHS Blood and Transplant

Bob Russell: To ask the Secretary of State for Health if he will instruct NHS Blood and Transplant to adopt pathogen inactivation for *(a)* civilian and *(b)* military blood supplies; and if he will make a statement. [288749]

Gillian Merron: Pathogen inactivation is one of the options the independent Advisory Committee on the Safety of Blood, Tissues and Organs has been considering for further reducing the infection risk from platelets (a blood component). Ministers will wait for a recommendation from the Committee on the issue. There are no pathogen inactivation systems currently available for red cells, the most widely transfused blood component.

NHS Business Services Authority

Mike Penning: To ask the Secretary of State for Health when Ministers in his Department last met staff from the NHS Business Services Authority. [289031]

Mr. Mike O'Brien: The former Parliamentary Under-Secretary of State for Health, (Ivan Lewis) met with Nick Scholte, chief executive of the NHS Business Services Authority on 18 January 2007.

Mike Penning: To ask the Secretary of State for Health what the budget of the NHS Business Services Authority was in each of the last five years. [289032]

Mr. Mike O'Brien: The information is shown in the following table.

NHS Business Services Authority—net operating revenue budget (excluding one-off funding, capital charges and capital expenditure)

	£000
2006-07	121,400
2007-08	114,500
2008-09	113,100

NHS Business Services Authority was established in 2006 and therefore figures can only be prepared for the last three years.

Mike Penning: To ask the Secretary of State for Health what the cost of office premises for the NHS Business Services Authority was in each of the last five years. [289033]

Mr. Mike O'Brien: The information is shown in the following table.

NHS Business Services Authority—cost of premises

	£000
2006-07	[1]6,426
2007-08	7,009
2008-09	8,247

[1] 2006-07 is an estimated cost of premises based on current and previous years percentage of premises and fixed plant.

NHS Business Services Authority was established in 2006 and therefore figures can only be prepared for the last three years.

Mike Penning: To ask the Secretary of State for Health what the salary of each member of the board of the NHS Business Services Authority was in each of the last five years. [289034]

Mr. Mike O'Brien: The information is shown in the following table.

NHS Business Services Authority—board member salaries

Name	Start date	End date	£ 2006-07	2007-08	2008-09
Nicholas Paul Scholte	—	—	142,106.99	146,081.67	157,460.77
Alistair McDonald	—	—	101,088.35	103,540.80	110,995.68
William John Smith	—	—	101,505.01	103,540.80	110,995.68
Jim Orr	3 July 2006	—	87,068.81	119,071.92	127,645.12
Roberta Barker	29 September 2008	—	0.00	0.00	53,083.33
Mike Siewich	—	30 September 2008	88,279.26	88,080.45	52,831.20
Paul Rich	—	—	60,000.00	60,780.00	62,117.16
David Hulf	—	—	12,500.04	12,642.52	12,941.04
David Teale	—	—	7,500.00	7,597.56	7,764.72
Jeremy Strachan	—	—	7,500.00	7,597.56	7,764.72
Anne Galbraith	—	—	7,500.00	7,597.56	7,764.72
Michael John Harling	—	—	7,500.00	7,597.56	7,764.72

NHS Business Services Authority was established in 2006 and therefore figures can only be prepared for the last three years.

Mike Penning: To ask the Secretary of State for Health how much the NHS Business Services Authority spent on staff in each of the last five years. [289035]

Mr. Mike O'Brien: The information is shown in the following table:

NHS Business Services Authority—cost of staff

	£000
2006-07	93,310
2007-08	74,673
2008-09	72,674

NHS Business Services Authority was established in 2006 and therefore figures can be prepared only for the last three years.

Mike Penning: To ask the Secretary of State for Health how many staff the NHS Business Services Authority employs; and how many of those are *(a)* full-time and *(b)* part-time. [289036]

Mr. Mike O'Brien: The NHS Business Services Authority has a total staff headcount of 2,911 as at 17 July 2009. Of this figure, 2,112 are full time and 799 are part time.

Mike Penning: To ask the Secretary of State for Health how much the NHS Business Services Authority spent on external consultancy in each of the last five years. [288037]

Mr. Mike O'Brien: The information is shown in the following table.

NHS Business Services Authority—expenditure on external consultancy

	£000
2006-07	181
2007-08	121
2008-09	738

NHS Business Services Authority was established in 2006 and therefore figures can only be prepared for the last three years.

NHS Direct

Mr. Lansley: To ask the Secretary of State for Health how many calls NHS Direct has received in each week of 2009. [288398]

Mr. Mike O'Brien: The number of calls NHS Direct has received each week in 2009 is displayed in the following table.

Week beginning	*Calls received*
1 January 2009	114,494
8 January 2009	100,451
15 January 2009	102,342
22 January 2009	103,254
29 January 2009	102,719
5 February 2009	104,587
12 February 2009	103,438
19 February 2009	103,445
26 February 2009	103,972
5 March 2009	103,251
12 March 2009	101,961
19 March 2009	102,308
26 March 2009	104,093
2 April 2009	96,043
9 April 2009	118,387
16 April 2009	92,978
23 April 2009	95,256
30 April 2009	118,466
7 May 2009	113,443

NHS Healthcare Innovation Expo

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 30 June 2009, *Official Report*, columns 217-8W, on the NHS Innovation Expo, how many NHS staff attended the event; and how much delegates were charged to attend. [286419]

Gillian Merron: A total of 5,040 delegates attended the healthcare innovation Expo over the two days. We do not hold information on how many of those delegates were national health service staff; attendees came from a range of backgrounds, including NHS and social care chief executives, clinicians, front-line staff, managers, patients, voluntary organisations, academia and industry.

In the majority of cases, no charge was made for attendance from the public sector.

NHS Institute for Innovation and Improvement

Mike Penning: To ask the Secretary of State for Health what the annual salary of each member of the board of the NHS Institute for Innovation and Improvement was in each of the last five years. [288685]

Mr. Mike O'Brien: Annual salaries are as set out in the following table. It should be noted that salaries are reported in bands of £5,000 and in £000, as recorded in NHS Institute annual reports. Notes appear as follows.

Board member	*Role*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Bernard Crump	Chief Executive	100-105	155-160	160-165	175-180
Simone Jordan	Deputy Chief Executive and Chief Operating Officer	60-65	120-125	115-120	130-135
Helen Bevan	Chief Officer Service Transformation	120-125	120-125	120-125	130-135
Maire Smith	Director of Technology and Product Innovation	65-70	115-120	115-120	[1]100-105
Michael Cawley	Director of Finance and Business Services	55-60	110-115	110-115	[2]35- 40
Paul Allen	Director of Leadership	60-65	110-115	110-115	115-120
Roderick Anthony	Acting Chief Finance Officer	n/a	n/a	n/a	[3]80-85
Yve Buckland	Chair and Chair of Shadow Nominations Committee	45-50	60-65	60-65	60-65
David Bower	Non-executive Director	0-5	5-10	5-10	5-10
Tony Butterworth	Non-executive Director	0-5	5-10	5-10	5-10
Mike Collier	Vice Chair and Chair of the Audit Committee	0-5	10-15	10-15	10-15
Michael Deegan	Non-executive Director	0-5	5-10	5-10	5-10
Nouruzman Rashid	Non-executive Director	n/a	n/a	[4]0-5	5-10
Carol Black	Non-executive Director	n/a	5-10	5-10	5-10
Andrew Smith	Non-executive Director	n/a	n/a	5-10	[5]5-10
Joe Liddiard	Non-executive Director	n/a	n/a	n/a	[6]0-5

Board member	Role	2005-06	2006-07	2007-08	2008-09
Michael Lander	Non-executive Director	n/a	n/a	n/a	[7]0-5
Dennis Sherwood	Non-executive Director	0-5	[8]0-5	—	—

[1] Maire Smith left her post on 31 January 2009. in addition to basic salary, other contractual remuneration and benefits in kind received during the year, she also received an additional payment of £20,000 on termination of her contract.
[2] Michael Cawley left his post on 31 July 2008 on secondment to East Midlands Strategic Health Authority.
[3] Roderick Anthony commenced in post on 1 August 2008.
[4] Noorzaman Rashid commenced his post on 1 October 2007
[5] Andrew Smith left his post on 31 January 2009
[6] Joe Liddane commenced his post on 1 March 2009
[7] Michael Lander commenced his post on 1 March 2009
[8] Dennis Sherwood resigned from his post on 31 October 2006

It should be noted that salaries for 2005-06 are not, in many cases for the full year as the NHS Institute was not fully established until July 2005 and so some salaries are for part year only.

Mike Penning: To ask the Secretary of State for Health how much the NHS Institute for Innovation and Improvement spent on staffing in each of the last five years. [288687]

Mr. Mike O'Brien: This is set out in the following table:

Staff costs (including seconded, contract and agency staff)	£
2005-06	8,553,000
2006-07	9,297,000
2007-08	10,567,000
2008-09	12,937,000

Mike Penning: To ask the Secretary of State for Health when Ministers in his Department last met staff of the NHS Institute for Innovation and Improvement. [289038]

Mr. Mike O'Brien: Dame Yve Buckland, Chair of the NHS Institute met with my noble Friend Lord Darzi on 21 April 2009.

Professor Bernard Crump, CEO met with my noble Friend Lord Darzi on 3 June 2009 at the Department of Health.

Mike Penning: To ask the Secretary of State for Health what the budget of the NHS Institute for Innovation and Improvement was in each of the last five years. [289039]

Mr. Mike O'Brien: This is set out in the following table:

Annual budget	£
2005-06	61,912,000
2006-07	56,231,000
2007-08	73,531,000
2008-09	[1]80,790,000
2009-10	69,730,000

[1] Inc. National Library for Health costs, since transferred out.

Mike Penning: To ask the Secretary of State for Health how much the NHS Institute for Innovation and Improvement has spent on external consultancy services in each of the last five years. [289097]

Mr. Mike O'Brien: This information is set out in the following table:

	External consultancy fees (£)
2005-06	n/a
2006-07	515,137
2007-08	872,827
2008-09	2,274,634

Mike Penning: To ask the Secretary of State for Health how many *(a)* full-time equivalent and *(b)* part-time staff the NHS Institute for Innovation and Improvement employs. [289098]

Mr. Mike O'Brien: As at May 2009 the NHS Institute has 184 total headcount—23 are part time staff and 161 are full-time equivalent.

NHS Litigation Authority

Mike Penning: To ask the Secretary of State for Health when Ministers in his Department last met staff of the NHS Litigation Authority. [289023]

Ann Keen: Ministers in the Department last met staff of the NHS Litigation Authority on 11 October 2005.

Mike Penning: To ask the Secretary of State for Health (1) what the budget of the NHS Litigation Authority was in each of the last five years; [289024]

(2) what the salary of each member of the board of the NHS Litigation Authority was in each of the last five years. [289027]

Ann Keen: The NHS Litigation Authority publishes the information requested in its annual Report and Accounts. Copies are available in the Library.

Mike Penning: To ask the Secretary of State for Health what the cost of the office premises for the NHS Litigation Authority in *(a)* Holborn and *(b)* Harrogate was in each of the last five years. [289025]

Ann Keen: The NHS Litigation Authority provided the information requested in the following table.

		£
	Holborn Rent	Harrogate Rent
2008-09	653,000	49,800
2007-08	653,000	49,800

	£	
	Holborn Rent	*Harrogate Rent*
2006-07	653,000	49,800
2005-06	653,000	49,800
2004-05	653,000	49,800

Mike Penning: To ask the Secretary of State for Health how many staff the NHS Litigation Authority employs; and how many of those are *(a)* full-time and *(b)* part-time. [289028]

Ann Keen: The NHS Litigation Authority employs 145 staff, of which 121 are full-time and 24 are part-time.

Mike Penning: To ask the Secretary of State for Health when the annual accounts for the NHS Litigation Authority for 2008-09 will be published. [289029]

Ann Keen: The NHS Litigation Authority will publish their annual Report and Accounts for 2008-09 in August 2009.

Mike Penning: To ask the Secretary of State for Health how much the NHS Litigation Authority spent on external consultants in each of the last five years. [289030]

Ann Keen: The NHS Litigation Authority provided the information requested in the following table.

	Consultancy expenditure (£)
2008-09	127,213
2007-08	15,207
2006-07	3,319
2005-06	1,025
2004-05	3,691

NHS Purchasing and Supply Agency

Mike Penning: To ask the Secretary of State for Health how much the NHS Purchasing and Supply Agency spent on external consultancy services in each of the last five years. [289072]

Mr. Mike O'Brien: The figures from April 2004 until March 2009 are shown as follows:

	Spent on external consultancy services (£ million)
2004-05	0.5
2005-06	1.8
2006-07	2.9
2007-08	2.3

Mike Penning: To ask the Secretary of State for Health what the budget of the NHS Purchasing and Supply Agency was in each of the last five years. [289085]

Mr. Mike O'Brien: The net operating cost for NHS Purchasing and Supply Agency in each of the last five years is as follows.

	£
2004-05	24,617,000
2005-06	26,779,000
2006-07	26,698,000
2007-08	24,713,000
2008-09	24,492,000

Mike Penning: To ask the Secretary of State for Health what the cost of the *(a)* Chester, *(b)* London office and *(c)* Reading office premises of the NHS Purchasing and Supply Agency was in each of the last five years. [289086]

Mr. Mike O'Brien: The cost for Chester is included within estates north which included Sheffield and South Normanton offices.

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Estates north	370,573	532,444	289,978	343,877	350,973
London office	—	—	76,11	43,715	—
Reading office	837,726	755,043	745,134	792,537	941,735

Mike Penning: To ask the Secretary of State for Health what the salary of each member of the board of the NHS Purchasing and Supply Agency was in each of the last five years. [289087]

Mr. Mike O'Brien: The salaries of the senior management board for the last five years are provided in the following table.

		2008-09	*2007-08*	*2006-07*	*2005-06*	*2004-05*	*Leaving date*
Argyle	N	0	0	75,168	73,904	71,405	31 October 2006

Mike Penning: To ask the Secretary of State for Health how much the NHS Purchasing and Supply Agency spent on staffing in each of the last five years. [289088]

Mr. Mike O'Brien: The following table provides the staff costs for NHS Purchasing and Supply Agency over the last five years.

	£
2004-05	16,088,000
2005-06	17,873,000
2006-07	15,823,000
2007-08	15,816,000
2008-09	16,293,000

Mike Penning: To ask the Secretary of State for Health how many *(a)* full-time equivalent and *(b)* part-time staff are employed by the NHS Purchasing and Supply Agency. [289089]

Mr. Mike O'Brien: The whole time equivalent staff employed by NHS Purchasing and Supply Agency is 264.9 as of 30 June 2009 of which 37 are part time.

Mike Penning: To ask the Secretary of State for Health when Ministers in his Department last met staff of the NHS Purchasing and Supply Agency. [289091]

Mr. Mike O'Brien: Ministers have met with staff of the NHS Purchasing and Supply Agency on a number of occasions relating to their responsibilities over the year for example:

My right hon. Friend the Secretary of State (Andrew Burnham) was shown around the HealthCare Associated Infection exhibition stand at the NHS Innovation Expo on 18 June.

Officials attended a meeting with my hon. Friend the Parliamentary Under Secretary of State (Ann Keen) and an NHS supplier on 24 June.

Officials have also met with my noble Friend the Parliamentary Under Secretary of State (Lord Darzi) on a number of occasions over the last six months regarding Innovation in Procurement.

NHS: Accountancy

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 7 July 2009, *Official Report*, column 692W, on NHS accountancy, what assessment he has made of the effects on the revenue of NHS organisations of the adoption of International Financial Reporting Standards in relation to *(a)* accounting for private finance initiative deals, *(b)* accounting for local improvement finance trust schemes and *(c)* the accounting treatment of lease arrangements. [288571]

Mr. Mike O'Brien: In preparation for the introduction of International Financial Reporting Standards (IFRS), from 2009-10, the Department has estimated the recurring additional revenue impact should all NHS local improvement finance trust (LIFT) and private finance initiative (PFI) schemes come onto the public sector balance sheet. For 2009-10 it is estimated that this would amount to £36 million and £148 million respectively. No similar assessment has been performed for lease arrangements but we expect the introduction of IFRS to have a minimal net financial impact.

We are currently considering the Treasury Consolidated Budgeting Guidance published in June 2009, which deals with aspects of IFRS accounting, to determine how it should be applied to national health service. We are also in discussion with the audit Commission around the likely effect of IFRS on the revenue of NHS organisations.

NHS: Drugs

Mark Simmonds: To ask the Secretary of State for Health what his response is to the Medicines and Healthcare products Regulatory Agency consultation MLX357, on the medicines' supply chain, completed in March 2009. [287813]

Mr. Mike O'Brien: The Medicines and Healthcare products Regulatory Agency (MHRA) has reviewed the responses to the public consultation MLX357 and has now published those responses, together with an account of how the Government propose to take account of them. All these documents can be found on the MHRA's website at:

www.mhra.gov.uk/Publications/Consultations/Medicinesconsultations/MLXs/CON033660

Sandra Gidley: To ask the Secretary of State for Health which primary care trusts have a pharmaceutical needs assessment in place. [288887]

Mr. Mike O'Brien: The information requested is not held centrally. Primary care trusts were advised in 2004-05 to prepare and to publish pharmaceutical needs assessments in advance of reforms introduced through the NHS (Pharmaceutical Services) Regulations 2005 from 1 April 2005.

NHS: Finance

Sir John Stanley: To ask the Secretary of State for Health whether it is his policy that the balance of the £750 million of capital expenditure for community hospitals over five years announced by his predecessor the right hon. Member for Leicester West is to be spent; what the monetary value of that balance is; and over what period he plans to spend such balance. [288031]

Mr. Mike O'Brien: The Government continue to ensure that we provide support for the community hospital programme. Investment in community services remains a high priority for us. 28 projects have secured elements of the funding to a value of at least £250 million.

The money has contributed to a range of services, including community hospitals, and more generally to other important and welcome community projects. I can confirm that the Department of Health and the Treasury will continue to consider schemes for community hospitals. They will be subject to the same approval process as all capital investment, thus ensuring that any further spending is affordable and that it provides value for money. For projects due to start in 2010-11, decisions will be subject to the strategies that PCTs produce for the development of their estates and the outcomes of the next spending review.

Sir John Stanley: To ask the Secretary of State for Health if he will list the community hospital capital projects which have been approved under the £750 million of capital expenditure for community hospitals over five years announced by his predecessor the right hon. Member for Leicester West since the approval given in June 2008 to St Thomas', Stockport, New Build, stating in each case *(a)* the name of the community hospital and its location, *(b)* a brief description of the capital works, *(c)* the capital cost approved and *(d)* the date of approval. [288032]

Mr. Mike O'Brien: The 2005 Labour Manifesto promised a new generation of state of the art community hospitals. The 'Our health, our care, our say' (January 2006), reiterated the manifesto commitment and pledged to invest £750 million capital in modern community hospitals over five years from 2006-07. Policy details were set out in Our health, our care, our community: investing in community hospitals and services. A copy has already been placed in the Library.

Since 'Our health, our care, our say', around £250 million of the £750 million has been allocated to 28 schemes.

The following table outlines:

the name and location of each community hospital;

a description of the capital works;

the amount of the Department's capital allocated to each scheme; and

the date each scheme was approved.

Strategic Health Authority	*Primary Care Trust*	*Name of scheme*	*Funding Model*	*Date scheme approved*	*Total Department of Health Funding (£ million)*
North East	Sunderland Teaching PCT	Washington Primary Care Centre	Public Capital	December 2006	8.95

NHS: Foreign Workers

Mr. Wallace: To ask the Secretary of State for Health what steps his Department takes to validate the qualifications of clinicians from outside the EU who seek to work in the NHS. [288697]

Ann Keen: The validation of qualifications of overseas clinicians wishing to work in the NHS is not the responsibility of the Department.

In the United Kingdom, the health professions regulatory bodies are the competent authorities to assess whether an overseas clinician possesses relevant qualifications to work in the UK—whether within the NHS or the private sector.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health which Minister signed off each business case for the NHS IT programme approved since 2002. [283263]

Mr. Mike O'Brien: The information requested on which Minister signed off each business case for the NHS IT programme approved since 2002 is in the following table:

Number	Case	Date approved	Minister
1	Spine, plus each of the five local service provider (LSP) clusters, delivering care record service (CRS)—six approvals	December 2003	Minister of State for Health and Secretary of State.
2	Choose and book original contract	September 2003	Minister of State for Health
3	Adding PACS (picture archiving and comms systems) to the clusters [Note: Ministerial approval required only for the North East and Eastern clusters.]	August 2005	Minister of State for Delivery
4	GP systems of choice (patient record in general practice, linked to NP)	December 2006	Minister of State for Reform
5	Choose and book extension of contract	October 2008	Minister for State for Health Services
6	Extension of BT LSP contract to cover elements of the Southern programme for IT	March 2009	Minister for State for Health Services
7	Reset ('renegotiation') of the three LSP cluster contracts held by CSC	March 2009	Minister for State for Health Services

Sandra Gidley: To ask the Secretary of State for Health from which organisations his Department has sought advice on the NHS national IT programme; and what advice each such organisation has provided. [288403]

Mr. Mike O'Brien: The Department has always prioritised the building of awareness of the national IT programme, and two-way communication with influential stakeholders including clinicians, senior national health service managers and information management and technology staff, the medical professional representative and health regulatory bodies, voluntary and patient organisations, the commercial sector, and suppliers.

Before the programme's inception, a consultation document, 'Delivering 21st Century IT support for the NHS : National Specification for Integrated Care Records Service -consultation draft, issued in July 2002, that outlined the requirements for a national patient care records service and the national standards and specification which would underpin it, resulted in almost 200 responses from organisations and individuals. These were taken into account in drawing up the specification for the NHS care records service. Subsequently, in the programme's procurement and delivery process, and particularly in the development and testing phases, representative stakeholders have been routinely consulted to ensure that their requirements and concerns are taken into account.

More recently, in 2006, the NHS Connecting for Health Evaluation Programme was set up with a view to assessing the usability, actual usage, functions and impact of pilot and delivered systems and services, and more generally to providing high quality, objective, third-party insights into the lessons learned and how systems can be improved. The University of Birmingham was commissioned to manage the programme, including the independent procurement of evaluation services, and day-to-day management of the independent organisations conducting the evaluations.

Further information about the process by which consultation and other aspects of public engagement is conducted on the development, implementation and evaluation of electronic health information services in the NHS is available at:

www.connectingforhealth.nhs.uk/engagement/public

NHS: Pay

Norman Lamb: To ask the Secretary of State for Health how much was paid in performance-related bonuses to staff in *(a)* his Department, *(b)* non-departmental public bodies which his Department sponsored and *(c)* in the NHS in each of the last five years. [286698]

Phil Hope: The amounts paid in non-consolidated performance-related payments in the core Department in the past five years are presented in the following table.

Non-consolidated performance-related payments

	£
2004-05	643,744
2005-06	900,255
2006-07	1,073,151
2007-08	1,461,062
2008-09	1,895,150

The total sum of non-consolidated performance-related payments paid to staff in non-departmental public bodies which the Department of Health sponsors, is as follows.

	Total (£)
2004-05	10,319
2005-06	76,531
2006-07	144,718
2007-08	176,296

Non-consolidated performance-related payments for senior staff in national health service special health authorities, strategic health authorities, primary care trusts and ambulance trusts, is subject to the national Very Senior Managers' Pay Framework. Under that framework, the performance-related pay fund is limited to 5 per cent. of the total pay bill. For 2008-09, the total pay bill for relevant staff was £160 million, and the performance-related pay fund was £8 million. Figures for previous years are not available although it is expected that more detailed figures covering this areas of NHS pay will be available in future years, following improvements to the Electronic Staff Record.

Although NHS staff groups other than Very Senior Managers (VSMs) can be paid "performance related bonuses", a specific fund for that purpose is only set aside for VSMs. Any other performance related bonuses paid out are subject to local agreement and/or other contractual arrangements between employers and staff and must be paid from existing local funding. Details of any such performance related bonuses paid to these NHS staff are not collected centrally.

NHS: Working Hours

Sir John Stanley: To ask the Secretary of State for Health whether it is in accordance with Government policy that NHS managers who reduce doctors working hours to 48 hours to comply with the European Working Time Directive should receive a bonus. [288033]

Ann Keen: This Government's policy is that the payment of bonuses to national health service managers is at the discretion of their employers.

Sir John Stanley: To ask the Secretary of State for Health what information he has received that NHS managers are exerting pressure on doctors to state that their working hours are compliant with the 48 hours maximum permitted by the European Working Time Directive when they are not. [288034]

Ann Keen: This Government's policy is that the payment of bonuses to national health service managers for reducing doctors working hours to comply with European Working Time Directive is at the discretion of their employers.

Obesity

Mr. Barron: To ask the Secretary of State for Health if he will make copies of the publication on medical management during effective weight loss available to NHS staff working with the obese; and if he will make a statement. [286331]

Gillian Merron: National health service staff can currently refer to the National Institute for Health and Clinical Excellence (NICE) guidance on the prevention, identification, assessment and management of overweight and obesity in adults and children.

The Department was not consulted about this publication, but officials will discuss the publication with the national obesity forum, to consider its availability to NHS staff.

Obesity: Surgery

Norman Lamb: To ask the Secretary of State for Health how many bed days were taken up by patients with a diagnosis code of *(a)* E660, *(b)* E661, *(c)* E662, *(d)* E668 and *(e)* E669 in each (i) region and (ii) primary care trust in each of the last five years. [286843]

Gillian Merron *[holding answer 20 July 2009]:* Data are available from the NHS Information Centre on the number of bed days taken up by patients with a primary diagnosis of selected ICD-10 codes. This information has been placed in the Library.

The NHS Information Centre has not provided data at a primary care trust (PCT) level because in order to protect patient confidentiality, figures between one and five at PCT level would need to be suppressed. Where it is possible to identify numbers from the total due to a single suppressed number in a row or column, an additional number (the next smallest) would also need to be suppressed. As a result, the majority of the numbers at PCT level would need low number suppression, and would make the data meaningless. Therefore the data have been provided at strategic health authority level only.

Norman Lamb: To ask the Secretary of State for Health how many hospital admissions there have been for diagnosis codes of *(a)* E660, *(b)* E661, *(c)* E662, *(d)* E668 and *(e)* E669 for (i) males and (ii) females aged (A) under 18, (B) between 18 and 30 and (iii) over 30 years old in each (x) region and (y) primary care trust in each of the last five years. [286844]

Gillian Merron *[holding answer 20 July 2009]:* Data are available from the NHS Information Centre on the number of finished admission episodes with a primary diagnosis of selected ICD-10 code. This information has been placed in the Library.

The NHS Information Centre has not provided data at a primary care trust (PCT) level because in order to protect patient confidentiality, figures between one and five at PCT level would need to be suppressed. Where it is possible to identify numbers from the total due to a single suppressed number in a row or column, an additional number (the next smallest) would also need to be suppressed. As a result, the majority of the numbers at PCT level would need low number suppression, and would make the data meaningless. Therefore the data have been provided at strategic health authority level only.

Palliative Care: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health what data are used by NHS healthcare commissioners to determine the demand for specialist palliative and neurological care in Tamworth constituency. [283228]

Gillian Merron: It is for individual primary care trusts (PCTs), including South Staffordshire PCT, within the national health service to commission services for their resident population, including end of life care and neurological care, based on an assessment of local needs and priorities. Strategic health authorities (SHA) are responsible for monitoring PCTs to ensure they are effective and efficient. The information sources used by PCTs to make these decisions are a matter for local commissioners to determine. My hon. Friend may wish to approach the chief executive of South Staffordshire PCT for these details.

To support implementation of the End of Life Care Strategy for adults, published in July 2008, the NHS Operating Framework 2007-08 asked PCTs, working with local authorities, to undertake a baseline review of their end of life care services. These reviews have been helpful to PCTs as they have prepared their local strategic plans to deliver on the SHA visions for end of life care developed as part of the NHS Next Stage Review.

Regarding neurological care, the information strategy published alongside the "National Service Framework for Long-term (Neurological) Conditions" outlines commissioners' information requirements and a series of local and national actions designed to meet those needs.

Pharmacy: Pay

Mark Simmonds: To ask the Secretary of State for Health what discussions he has had with pharmacists on his Department's proposals to replace the prescription item threshold system with a scale of remuneration for pharmacists. [287814]

Mr. Mike O'Brien: There have been no discussions on the specific question as yet.

Prescription Drugs

Chris McCafferty: To ask the Secretary of State for Health whether he plans to specify medicines to be excluded from the provisions of his Department's proposed generic substitution arrangements. [288424]

Mr. Sanders: To ask the Secretary of State for Health if he will exempt anti-epileptic drugs from the requirements of his Department's guidelines on generic substitution to be introduced in January 2010. [287994]

Mr. Mike O'Brien: I refer the hon. Members to the written answer I gave the hon. Member for Slough (Fiona Mactaggart) on 15 July 2009, *Official Report*, column 524W.

Rehabilitation

Mr. Don Foster: To ask the Secretary of State for Health how much money his Department has spent on the treatment of *(a)* drug, *(b)* alcohol, *(c)* smoking and *(d)* gambling addictions in each of the last five years. [288777]

Gillian Merron: The following table sets out the Department's expenditure on drug treatment for the last five years.

	2005-06	*2006-07*	*2007-08*	*2008-09*	*2009-10*
Adult PTB	300.0	385.0	398.0	398.0	406.0
Mainstream Funding (PCT)	208	212	202	208	[1]—
Young people's PTB	24	24.6	24.7	24.7	24.7
Prison Clinical Services (IDTS)	0.0	7.8	11.5	23.2	39.7

[1] Not finalised

Note:

Abbreviations: PTB - Pooled drug treatment budget, PCT - Primary Care Trust, IDTS - Integrated Drug Treatment System.

The information requested on smoking addiction treatment is not available in the exact format requested.

The costs associated with the NHS Stop Smoking Services in each of the last five years can be found in Table 4.6 on page 43 of 'NHS Stop Smoking Services in England, April to March 2008.

This publication has been placed in the Library.

Primary care trusts are responsible for providing local health services, including gambling and alcohol addiction treatments, and together with their strategic health authorities are responsible for deciding which services to plan, commission and develop to meet the health needs of their local communities. Information on this spend is not collected centrally.

Respiratory System

Stephen Hammond: To ask the Secretary of State for Health pursuant to the answer of 20 April 2009, *Official Report*, column 479W, on the respiratory system, if he will break down the figures provided by age group. [288418]

Ann Keen: A table containing a break down by age group for patients with diseases of the respiratory system has been placed in Library.

Sexual Dysfunction

Sandra Gidley: To ask the Secretary of State for Health how many prescriptions of each type of drug for the treatment of erectile dysfunction were dispensed in each of the last five years. [287765]

Mr. Mike O'Brien: The following table provides the number of prescription items dispensed for drugs to treat erectile dysfunction, as listed in section 7.4.5 of the British National Formulary (BNF), written in the United Kingdom and dispensed in the community, in England.

Drugs used to treat erectile dysfunction (BNF section 7.4.5)

	Number of prescription items (thousand)				
BNF chemical name	*2004*	*2005*	*2006*	*2007*	*2008*
Alprostadil	77.1	74.6	75.8	76.3	75.6
Apomorphine Hydrochloride	21.6	16.6	7.1	0.0	0.0
Other Preparations[1]	0.1	0.1	0.2	0.2	0.2
Papaverine Hydrochloride	0.9	0.7	0.5	0.3	0.0
Papaverine Hydrochloride/ Phentolamine	0.0	0.0	0.0	0.0	0.0
Papaverine Sulphate	0.0	0.0	0.0	0.0	—
Sildenafil (Erectile Dysfunction)[2]	1,024.3	1,015.0	1,042.4	1,112.2	1,185.4
Tadalafil	266.3	370.4	438.1	503.0	569.5
Vardenafil	74.0	112.6	136.1	146.5	153.3
Yohimbine Hydrochloride	0.4	0.3	0.2	0.1	0.1
Grand total	1,464.8	1,590.4	1,700.4	1,838.7	1,984.1

'—' Indicates no prescription items.
'0.0' indicates less than 50 items
[1] Includes Invicorp-1 injection solution auto-injector, Invicorp-2 injection solution auto-injector and Invicorp-2 injection solution 1 ml amp.
[2] Does not include Revatio as this should only be prescribed to treat pulmonary hypertension (BNF 2.5.1).
Source:
Prescription Cost Analysis (PCA)

We do not know the intended purpose for which prescription items are prescribed. Some drugs within BNF section 7.4.5 can be used to treat other conditions. There are drugs in other BNF sections which may be prescribed to treat erectile dysfunction.

Smoking: Young People

David Taylor: To ask the Secretary of State for Health what research his Department has *(a)* commissioned and *(b)* evaluated on the effects of tobacco displays in shops on rates of smoking amongst young people. [288611]

Gillian Merron: The Department of Health has not directly commissioned or evaluated any specific research on the effect of tobacco displays on young people.

The Department has assessed the role of tobacco displays on smoking in young people based on a variety of research and evidence. These are detailed in the impact assessment that accompanies the Health Bill, in the consultation on the future of tobacco control, a copy of which has already been placed in the Library, in the presentations made to MPs during the passage of the Bill and in the factsheets sent to peers and MPs.

Swine Flu

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of his Department's expenditure on the National Pandemic Flu line in 2009-10; and how many staff he expects will be employed to answer calls to the line. [284196]

Gillian Merron: The Department has been planning for a flu pandemic for some time and this solution has already been subject to a substantial economic and business case analysis. Any such commitments the Department enters into are still subject to the usual tests for value for money and affordability. While cost estimates have been prepared based on a range of possible pandemic durations and attack rates, these cannot be released as the contract details are commercial in confidence. The number of staff employed to answer calls is subject to finalisation based on the attack rate. Current plans are based around needing an average of 2,000 agent seats per week.

Mr. Lansley: To ask the Secretary of State for Health pursuant to his oral statement of 2 July 2009, *Official Report*, columns 503-04, on swine flu update, against what criteria primary care trust readiness has been assessed; and if he will place in the Library a copy of the results of the assessment made in respect of each primary care trust. [286417]

Gillian Merron: The emergence of swine influenza in April interrupted the strategic health authority (SHA) and primary care trust (PCT) self-assessment process.

National health service (NHS) and the Department's resources that would, in normal circumstances, have been allocated to collecting and validating these assessments, are currently being directed towards managing the current outbreak and ensuring that the Department and NHS are fully prepared for any potentially more severe outbreak over the autumn or winter.

There is a full programme of work led by the National Director for NHS Flu Resilience, to ensure NHS Pandemic Influenza Plans fully reflect the current understanding of the swine flu virus. This includes a programme of

testing the plans to be coordinated by the 10 SHAs across England, the results of which will in effect succeed the audit.

This work is already under way and should be completed by early autumn. We will publish summary reports on each of the ten exercises. Once finalised, copies of these reports will be placed in the Library.

Mr. Stewart Jackson: To ask the Secretary of State for Health what assessment he has made of the effectiveness of local authority resilience and civil contingency planning in relation to the swine influenza outbreak. [286513]

Gillian Merron: The Government make no detailed assessment of preparedness of local authorities—it is for them to decide how to meet their legal obligations to plan for an influenza pandemic under the Civil Contingencies Act 2004. Local authority compliance with the Civil Contingencies Act duties is assessed by the Audit Commission as part of their comprehensive area assessment process.

As members of Local Resilience Forums (LRFs), local authorities have played a full part in the development of local multi agency pandemic influenza plans. Over the last year, these plans have undergone validation by local responders and Government offices and at least one LRF plan per region has been tested via a table top exercise. Lessons identified will be shared locally.

Plans are available on local LRF websites and can be accessed through the UK Resilience pages of the Cabinet Office website:

http://www.cabinetoffice.gov.uk/ukresilience/pandemicflu/plans/regional_plans.aspx

Mr. Drew: To ask the Secretary of State for Health if he will direct each mental health and learning disability trust to publish its contingency plans to deal with swine influenza. [288012]

Gillian Merron: National health service organisations that provide mental health and learning disability services have Flu Pandemic Plans that are already in action as part of the local response being led by primary care trusts. It would not be the best use of NHS resources at this time to direct NHS organisations to publish these plans. In addition, these plans are being continuously reviewed and, where necessary, updated informed by the latest expert scientific and medical advice of the current swine flu pandemic. Publication of contingency plans by mental health and learning disability trusts will, therefore, not be requested.

Mr. Hoyle: To ask the Secretary of State for Health what guidance his Department has issued to the public on those groups which are most vulnerable to contracting swine influenza. [288234]

Gillian Merron: We publish a range of guidance on the NHS Choices website that is updated daily at:

www.nhs.uk/news/2009/04April/Pages?Swineflulatest.aspx

Mr. Hoyle: To ask the Secretary of State for Health what assessment has been made of which groups of workers in the public sector are most vulnerable to contracting swine influenza. [288235]

Gillian Merron: Influenza viruses are transmitted by respiratory droplets and direct or indirect contact with the virus, for example by touching a surface contaminated with the virus as a result of a sneeze.

In the early stages of the pandemic, when there were few people infected with the virus, public sector workers delivering frontline health and social care to those patients were potentially at greater risk of becoming infected than the general population. However, this risk could be reduced by effective use of infection control procedures.

With widespread transmission of the virus in the community, it is unlikely that any one population group is more likely than another to be infected by swine influenza.

For those public sector staff working in front-line health and social care with known or suspected influenza patients, personal protective equipment including facemasks and gloves have been provided. There is also guidance for organisations on infection control procedures for staff to implement in their clinical practice.

Mr. Hoyle: To ask the Secretary of State for Health what his most recent assessment is of the ability of primary care trusts to cope with swine influenza outbreaks in their areas. [288236]

Gillian Merron: The emergence of swine influenza in April interrupted the strategic health authority (SHA) and primary care trust (PCT) self-assessment process.

The national health service and the Department's resources that would, in normal circumstances, have been allocated to collecting and validating these assessments, are currently being directed towards managing the current outbreak and ensuring that the Department and NHS are fully prepared for any potentially more severe outbreak over the autumn or winter.

There is a full programme of work led by the National Director for NHS Flu Resilience, to ensure NHS pandemic influenza plans fully reflect the current understanding of the swine flu virus. This includes a programme of testing the plans to be coordinated by the 10 SHAs across England, the results of which will in effect succeed the audit.

This work is already under way and should be completed by early autumn. We will publish summary reports on each of the 10 exercises. Once finalised, copies of these reports will be placed in the Library.

The Department has been working closely with PCTs across the country to ensure their plans are robust, and so far the response from PCTs, particularly in areas of sustained transmission, has been very good in challenging circumstances.

Swine Flu: Drugs

Mr. Lansley: To ask the Secretary of State for Health how many courses of antivirals have been dispensed for the treatment of swine influenza since 2 July 2009; and how many of these have been given to *(a)* patients with swine influenza and *(b)* contacts of patients with swine influenza. [288599]

Gillian Merron: Information on courses of antivirals given to patients is currently being collected. I will write to the hon. Member when the information is available and will place a copy in the Library.

Swine Flu: Lancashire

Mr. Hoyle: To ask the Secretary of State for Health what guidance has been given to primary and secondary schools in Lancashire on swine influenza. [288237]

Ms Diana R. Johnson: I have been asked to reply.

The Department had issued guidance in 2006 to all local authorities on contingency measures for pandemic flu, which we supplemented with guidance on infection control (2007) and remote learning in the event of a school closing for an extended period (2008). The Department sent out reminders to all local authorities in the week commencing 27 April that the guidance is available. We have since updated our questions and answers and Swine Flu messages and have sent these to schools and local authorities on 5 May, 27 May, 11 June and 14 July. Our Teachernet website has also been regularly updated with lines to take and advice for schools, local authorities and parents.

Swine Flu: Morecambe

Geraldine Smith: To ask the Secretary of State for Health how many cases of swine influenza had been diagnosed in Morecambe and Lunesdale constituency by the latest date for which figures are available. [287979]

Gillian Merron: As of 10 July, a total of seven laboratory confirmed cases of swine flu (H1N1v) had been identified in the North Lancashire primary care trust area, which includes Morecambe and Lunesdale.

Swine Flu: North West

Mr. Hoyle: To ask the Secretary of State for Health how many cases of swine influenza have been confirmed in each North West primary care trust area. [288233]

Gillian Merron *[holding answer 20 July 2009]:* As of 10 July, there have been a total of 195 laboratory confirmed cases of swine flu in the north-west. The breakdown, by primary care trust (PCT), is as follows:

Health protection unit	*PCT name*	*Confirmed*
Cheshire and Merseyside	Central and Eastern Cheshire	13
	Halton and St Helens	11
	Knowsley	7
	Liverpool	13
	Sefton	10
	Warrington	5
	Western Cheshire	5
	Wirral	8
	Unknown	0
Cumbria and Lancashire	Blackburn with Darwen	9
	Blackpool	0
	Central Lancashire	8
	Cumbria	4
	East Lancashire	13
	North Lancashire	7
	Unknown	2
Greater Manchester	Ashton Leigh and Wigan	2
	Bolton	3
	Bury	4
	Heywood Middleton and Rochdale	6
	Manchester	20
	Oldham	8
	Salford	12
	Stockport	11
	Tameside and Glossop	3
	Trafford	7
	Unknown	4
Total for north-west		195

Swine Flu: Vaccination

Geraldine Smith: To ask the Secretary of State for Health when he expects a programme of vaccinations against swine influenza to begin. [288446]

Gillian Merron: The manufacturers have advised that they will be delivering the first supplies of the vaccine at the end of August. The vaccine will need to satisfy regulatory requirements before it can be used. The regulatory issues, the timetable and the licensing process, are matters for the European Medicines Agency.

Tobacco

Mr. Lansley: To ask the Secretary of State for Health when he plans to publish his Department's consultation document on the future of tobacco control. [288597]

Gillian Merron: The "Consultation on the future of tobacco control" was published on 31 May 2008 and closed on 8 September 2008. The consultation report was published on 8 December 2008 and is available on the departmental website, and can be found at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_085114

A copy has already been placed in the Library.

Vulnerable Adults: Protection

Mr. Burstow: To ask the Secretary of State for Health (1) what the *(a)* membership and *(b)* remit is of the (i) Programme Board and (ii) Advisory Board for the No Secrets review; on what dates each board has met; and if he will make a statement; [287878]

(2) what the *(a)* start and *(b)* end date was for his Department's No Secrets consultation; whether his Department's response has been drafted and published in accordance with the timescale set out in the code of practice on consultation; and if he will make a statement; [287879]

(3) what steps his Department has taken to comply with the Government's Code of Practice on Consultation in relation to the No Secrets Review; what the *(a)* membership, *(b)* remit and *(c)* dates of meetings are of the Programme and Advisory Boards for the No Secrets Review; and if he will make a statement. [288577]

Phil Hope: The membership of the Programme Board and Advisory Group is published in the consultation document, "Safeguarding Adults: A consultation on the review of the 'No Secrets' guidance"—Department of Health, October 2008. A copy has already been placed in the Library.

The remit of the Programme Board was to review the effectiveness of present multi-agency safeguarding and adult protection guidance in producing positive outcomes for individuals at risk of abuse in the light of emerging information from recent cases, recent inspections and in the context of the Government's overall policy agenda in both health and social care, and to carry out a national consultation on these issues. The Advisory Group's remit was to advise on issues relevant to the consultation. The Programme Board met on 21 May 2008, 25 June 2008 and 9 October 2008. The Advisory Group met on 7 May 2008, 26 September 2008 and 12 November 2008.

The consultation opened on 16 October 2008 and closed on 31 January 2009. The analysis of the consultation responses was published on 17 July 2009. The time taken to publish the analysis reflected the fact that some 12,000 people, including those with learning difficulties, older people, those with mental health problems and people from a wide variety of ethnic backgrounds, participated in the consultation.

The Department is a signatory to the Government's Code of Practice on Consultation and follows the code closely.

James Brokenshire: To ask the Secretary of State for Health (1) how many people were on the barred list maintained under the Protection of Vulnerable Adults scheme in each of the last five years; [287920]

(2) how many people have been added to the barred list maintained under the Protection of Vulnerable Adults scheme by the Independent Safeguarding Authority since January 2009. [287921]

Phil Hope: The number of people confirmed as being unsuitable to work with vulnerable adults that have been placed on the Protection of Vulnerable Adults (POVA) list over the past five years, is shown in the table.

	Number of people confirmed on list
2004	41
2005	237
2006	407
2007	976
2008	377
Total	2,038

Source:
Department for Children, Schools and Families Customer Relationship Manager database

The Independent Safeguarding Authority (ISA) does not have the power to add names to the POVA list. Decisions whether to confirm individuals on the POVA list are made by the Secretary of State for Health, following receipt of advice from the ISA.

Since January 2009, the number of people confirmed on the Adult Barred List maintained by the ISA, is 576.

Wakefield NHS Trust: Manpower

Jon Trickett: To ask the Secretary of State for Health how many full-time equivalent *(a)* medical consultants, *(b)* other medical staff, *(c)* nurses, *(d)* other professional staff, *(e)* administrative and clerical staff and *(f)* auxiliary staff were employed by Wakefield NHS Trust in each year since 1996-97. [288657]

Ann Keen: The information is not available in the format requested. The information as is available is shown in the following table.

NHS staff in specified organisations by main staff groups. Shown as full-time equivalents and as at 30 September each year—2002-08

	2002	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*

Notes:

1. The structure of NHS trusts in the Wakefield area has changed over the period the data are requested for. In April 2002, the Mid Yorkshire Hospitals NHS Trust was formed from the partial-merger of the Pinderfields and Pontefract Hospitals NHS Trust and the Dewsbury Health Care NHS Trust.
2. In 2006, Wakefield District Primary Care Trust (PCT) was formed from a complete merger of Eastern Wakefield PCT and Wakefield West PCT. Most General Practitioners are not employed directly by the PCT, but perform NHS work within the PCT areas.
3. Work force statistics are compiled from data sent by more than 300 NHS trusts and PCTs in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens, any impact on figures already published will be assessed but unless this is significant at national level they will not be changed. Where there is impact only at detailed or local level this will be footnoted in relevant analyses.

Wakefield NHS Trust: Waiting Lists

Jon Trickett: To ask the Secretary of State for Health what the average waiting time was for *(a)* elective in-patient admission and *(b)* first out-patient appointment in each speciality at Wakefield NHS Trust in each year since 1996. [288656]

Mr. Mike O'Brien: The information is not available in the format requested. Such information as is available is contained in a table that has been placed in the Library.

ENERGY AND CLIMATE CHANGE

Biofuels

Norman Baker: To ask the Secretary of State for Energy and Climate Change (1) what assessment his Department has made of the effect of Ofgem's ruling of March 2009 on biodiesel, glycerol and the Renewables Obligation on the production of bio-fuels from used cooking oil; and if he will make a statement; [288039]

(2) what incentives his Department provides for the production of biofuels from used cooking oil; and if he will make a statement; [288040]

(3) what his Department's policy is on the use of recycled waste materials in the biofuel production process. [288041]

Mr. Kidney: Recycled waste biomass is an important source of renewable energy for transport fuel, and heat and electricity generation. The Renewable Transport Fuel Obligation (RTFO) requires suppliers of fossil fuel to ensure that a proportion of the fuel they supply is renewable. Under the RTFO, biofuels made from waste materials such as used cooking oil are eligible fuels and certificates can be issued for their supply. The Renewable Fuels Agency, the administrator of the RTFO, has published data in their fourth quarterly report indicating that 37 million litres, or 3 per cent. of the biofuel used in the first year of the obligation, was made from used cooking oil. The Renewable Energy Directive requires that biofuels made from waste, including used cooking oil, receive double rewards under biofuel support schemes and it is intended that the RTFO will be amended accordingly following consultation. The Government also intend to provide financial support for the creation by industry of a biofuels demonstration plant in England, which would use organic waste material to produce bioethanol and renewable power.

Fuels produced from used cooking oil continue to be eligible for the Renewables Obligation if they meet the requirements of section 32M of the Electricity Act 1989. In practice, the ruling by Ofgem is not expected to alter the production of biofuels from used cooking oil to a great extent. We are currently considering whether the implementation of the Renewable Energy Directive into national law has implications for the treatment of biodiesel under the Renewables Obligation.

British Gas

Mrs. Spelman: To ask the Secretary of State for Energy and Climate Change (1) with reference to paragraph 6 of the notes to editors of his Department's press release of 2 April 2008, whether each British Gas scheme involves *(a)* discounts on council tax bills and *(b)* cash back cheques; [288964]

(2) with reference to paragraph 6 of the notes to editors of his Department's press release of 2 April 2008, what funding his Department has provided to assist the 75 local schemes; and whether participating local authorities are required to subsidise the schemes; [288975]

(3) with reference to paragraph 6 of the notes to editors in his Department's press release of 2 April 2008, what estimate has been made of *(a)* the cost to the public purse of the energy saving measures offered by British Gas including the council tax discount and *(b)* the prices charged by companies other than British Gas for the same measures. [289018]

Mr. Kidney: The scheme referred to is a private scheme run by British Gas to help it meet its household carbon saving obligation set by Government under the Carbon Emissions Reduction Target (CERT). CERT is an obligation on all suppliers with more than 50,000 domestic customers. Suppliers meet their targets by promoting and encouraging consumers to take up energy efficiency measures such as loft insulation and cavity wall insulation and thereby save energy and money. Suppliers are responsible for meeting the costs of CERT, which are expected to be some £3.2 billion over the course of the three-year scheme to March 2011. Suppliers use a number of innovative schemes and partnerships to meet their targets, including linking up with local authorities, registered social landlords and charities.

Buildings: Carbon Emissions

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the levels of carbon dioxide emissions resulting from *(a)* heating for buildings and *(b)* air conditioning in buildings per head of population (i) in each region and (ii) in England. [288811]

Joan Ruddock: Emissions resulting from heating and cooling buildings can be assessed at a UK-wide level, but they are not currently disaggregated into constituent counties or regions.

In June 2007, the Department of Trade and Industry estimated CO_2 emissions from all heat use in the domestic and services sectors of the UK to be 27 per cent. of total UK CO_2 emissions, equivalent to 150 Mt CO_2, or around 2.5 tonnes CO_2 per capita.

Building Research Establishment (BRE) estimates the current annual CO_2 emissions from cooling non-domestic buildings in the UK to be approximately 3 Mt CO_2, equivalent to around one twentieth of a tonne of CO_2 per capita annually. Residential sector cooling is not thought to make a significant contribution to UK CO_2 emissions at present.

Carbon Emissions

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what *(a)* short-term and *(b)* long-term plans the Government have to contribute towards meeting the goal of reducing global greenhouse gas emissions by at least 50 per cent. by 2050; and what steps the Government plan to take in co-operation with other developed nations to reduce levels of such emissions. [288072]

Joan Ruddock *[holding answer 20 July 2009]:* The Government's framework for managing and responding to climate change is set by the 2008 Climate Change Act. The Act sets a target for the UK to reduce its greenhouse gas emissions to at least 80 per cent. below 1990 levels by 2050, and the Government are required to set and meet five-year carbon budgets to define the pathway to this target.

The 2050 target was adopted in October 2008, following advice from the Committee on Climate Change. The Committee advised that this was an appropriate UK contribution to a global deal aiming to reduce greenhouse gas emissions to between 20 billion tonnes and 24 billion tonnes by 2050 (between 50 and 60 per cent. below current levels).

The Act was also amended earlier this year to require us to set the third carbon budget, covering the period 2018-22, at a level that is equivalent to a reduction in emissions of at least 34 per cent. below 1990 levels, as an important interim target towards 2050. The first three carbon budgets were approved by Parliament in May. On 15 July, we published the 'UK Low Carbon Transition Plan', which sets out how we will meet those carbon budgets through investment in energy efficiency and clean energy technologies such as renewables, nuclear, and carbon capture and storage. It also committed us to producing a longer term roadmap for the transition to a low carbon UK for the period 2020 to 2050 by next spring.

Internationally, the UK is working with other developed countries to agree at the United Nations framework convention on climate change meeting in Copenhagen in December 2009 a comprehensive, global and long-term framework for addressing climate change that puts us on the right pathway for reducing global greenhouse gas emissions by at least 50 per cent. by 2050. The Government's proposals are set out in 'The Road to Copenhagen' (Cm 7659), copies of which are in the Library of the House.

Following a new and ambitious international agreement, the Government will tighten the level of the UK carbon budgets, taking into account the outcome of the EU's effort sharing negotiations and further advice from the Committee on Climate Change.

Carbon Trust: Energy Saving Trust

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Tunbridge Wells (Greg Clark) of 25 March 2009, *Official Report*, column 497W, on the Carbon Trust and Energy Saving Trust, (1) how much had been spent by the Carbon Trust on payments to *(a)* Weber Shandwick, *(b)* TLG Communications Ltd and *(c)* Greyling Political Strategy on the latest date for which figures are available; [288943]

(2) how much had been spent by the Energy Saving Trust on payments to *(a)* Postif Politics, *(b)* Stratagem, *(c)* Weber Shandwick Public Affairs and (d) Geromino Commuications on the latest date for which figures are available. [288944]

Joan Ruddock: The Carbon Trust and Energy Saving Trust are both private companies limited by guarantee, therefore details of payments made are a matter for the Trusts' Boards.

Coal Investment Aid

Charles Hendry: To ask the Secretary of State for Energy and Climate Change whether his Department plans to introduce a new scheme to replace the Coal Investment Aid Scheme. [285086]

Mr. Kidney: No.

Council Regulation (EC) No. 1407/2002 on State Aid to the hard coal industry under which Coal Investment Aid was offered does not provide for the introduction of a replacement scheme.

The European Commission is currently consulting on how to replace the Regulation when it expires on 31 December 2010. The consultation closed on 15 July 2009.

Departmental Billing

John Mason: To ask the Secretary of State for Energy and Climate Change what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288928]

Joan Ruddock: 100 per cent.

Departmental Campaigns

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what public campaigns have been undertaken by his Department since its establishment; and what the *(a)* resource, *(b)* capital expenditure and *(c)* staffing costs of each were of each such campaign. [288762]

Joan Ruddock: Since September 2008 to June 2009, DECC has spent approximately £4.8 million exclusive of VAT on the Act On CO_2 marketing campaign.

DECC has not incurred any capital expenditure costs or additional staffing costs on the campaign.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Energy and Climate Change how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287799]

Joan Ruddock: It is not possible to answer this question without incurring disproportionate costs.

Departmental Ministerial Policy Advisers

Mr. Drew: To ask the Secretary of State for Energy and Climate Change (1) what discussions he has had with his special adviser on feed-in tariffs as part of his Department's new Climate Change Strategy; [288065]

(2) how many meetings in his Department his special adviser on feed-in tariffs has attended since appointment. [288064]

Mr. Kidney: DECC Ministers have frequent meetings with parliamentary colleagues. My hon. Friend the Member for Nottingham, South (Alan Simpson) has not held meetings with officials. My hon. Friend is not employed as a special adviser but has had discussions with my right hon. and learned Friend the Member for North Warwickshire (Mr. O'Brien) on the subject of feed-in tariffs since the passage of the Energy Act.

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Energy and Climate Change what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287137]

Joan Ruddock: Our procurement service provider (Department of Business, Information and Skills—BIS) is considering how best to utilise the www.supply2.gov.uk portal for advertising tenders until the opportunities portal is available at the end of 2010 (Glover Report Recommendation 1) and how to identify small and medium-sized enterprise expenditure data (Recommendation 12) in an efficient manner.

The Department is currently preparing an Innovation Procurement Plan (Recommendation 8).

Along with BIS, the Department is waiting for the Office of Government Commerce guidance on the implementation of the remaining recommendations.

Departmental Public Relations

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Tunbridge Wells (Greg Clark) of 20 April 2009, *Official Report*, column 305W, on departmental public relations, what the monetary value is of the contract with Kreab Gavin Anderson to provide public relations advice to his Department. [288681]

Joan Ruddock: The Kreab Gavin Anderson contract is for up to £320,000 for the period 9 May 2008 to 31 March 2010 inclusive. Kreab Gavin Anderson are contracted to provide expert advice and support on the renewable energy finance community including on the impact of proposed measures on renewable finance and investment prospects. As part of this contract they also support the Department's work by arranging seminars, meetings with investors, and wider awareness raising with investors and media on developments in renewable energy policy.

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Energy and Climate Change how many employees of his Department have been posted to work in offices of hon. Members of each political party since its inception. [284973]

Joan Ruddock: Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Civil servants may shadow MPs as part of a programme run by the Industry and Parliament Trust. Information on numbers of civil servants from this Department that have had such an attachment is not held centrally and can be obtained only at disproportionate cost.

Departmental Work Experience

Mr. Willis: To ask the Secretary of State for Energy and Climate Change how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286823]

Joan Ruddock: DECC currently has one intern. DECC's terms of reference for interns are still being developed, and are based on giving an individual a personal development opportunity and introducing them to the civil service, while completing a meaningful piece of work.

Remuneration for this contract is based on £29,191 (pro rata) which is in line with the Department for Environment, Food and Rural Affairs HEO starting salary.

This contract is for three months.

E.ON: Corporate Hospitality

David Howarth: To ask the Secretary of State for Energy and Climate Change how many of his Department's employees accepted corporate hospitality from E.ON in *(a)* 2007 and *(b)* 2008; how many have done so in 2009 to date; and what hospitality was received in each case. [271825]

Mr. Kidney: Since 2007 DECC's employees have received corporate hospitality from EON on the following occasions:

	Nature of hospitality
2007	
5 July	Lunch
December	Lunch
2008	
24 January	Dinner and private viewing at the Royal Academy
29 January	Light buffet supper (received from Eon Ruhrgas)
20 February	International Petroleum week Dinner (received from Eon Ruhrgas)
9 June	Royal Academy of Engineering Awards Dinner (received from Eon Engineering)
19 November	Dinner
2009	
11 May	Guest at Eon sponsored reception

	Nature of hospitality
4 June	DECC staff visit to Eon Rushcliffe on Soar power station and Research and Development Centre (7 DECC participants). Sandwich lunch, small gift bag and transport to and from the station.

Hospitality received by my officials follows Civil Service Guidance that any hospitality should be "conventional, normal and reasonable".

Energy Supply

John Mason: To ask the Secretary of State for Energy and Climate Change what monitoring his Department is undertaking of the effects on *(a)* payment method preference, *(b)* levels of debt and *(c)* levels of disconnections of domestic energy consumers of (i) recent and (ii) anticipated increases in energy prices; and how much funding his Department has allocated to provide domestic energy customers with energy efficiency advice and information. [289136]

Mr. Kidney: DECC analyses data from a number of sources on conditions in the household energy supply markets. DECC monitors and publishes data on average bills by payment method, and on numbers of customers on different payment methods. Ofgem monitors and publishes data on levels of debt and on disconnections.

The Government provide the Energy Saving Trust with annual grant funding (circa £37 million in 2009-10) to manage the Act on CO_2 helpline and advice centres. This provides consumers a central free source of impartial advice on energy efficiency, microgeneration and renewable energy, low carbon transport, water efficiency and waste reduction, as well as easy access to a range of energy efficiency offers.

Energy: Meters

Lembit Öpik: To ask the Secretary of State for Energy and Climate Change what evidence his Department has received from the Energy Retail Association on the costs of those smart metering; and what further steps his Department has taken to establish implementing costs. [289217]

Mr. Kidney: The Department published Impact Assessments on 11 May, which set out the costs and benefits of different options for rolling out smart meters to both domestic and small and medium-sized enterprise public sector energy consumers. In preparing these assessments my Department took into account information on costs and benefits from a wide range of sources, including information provided by energy supply companies who are members of the Energy Retailers Association.

Lembit Öpik: To ask the Secretary of State for Energy and Climate Change which energy providers supply smart meters to their residential customers free of charge. [289218]

Mr. Kidney: The provision of intelligent metering to domestic customers and the terms on which such metering may be offered is currently a matter for energy supply companies. The Department does not collect information about this matter.

Energy: Prices

Charles Hendry: To ask the Secretary of State for Energy and Climate Change (1) how many households were on a social tariff from their energy supplier in each of the last five years; [283249]

(2) what estimate he has made of the number of households in receipt of a social tariff from their energy supplier who paid less than they would on the cheapest non-social tariff offered by that supplier in each of the last five years. [283250]

Mr. Kidney: Ofgem monitors the energy suppliers' social programmes on behalf of Government. They have published data on the number of customer accounts on a social tariff from their energy supplier for each of the last two years to 31 March 2008. Their latest report also estimated that, as at the end of October 2008, over 800,000 customer accounts were on a social tariff. In addition this report compared the range of savings between a supplier's social tariff and their cheapest non-social tariff offered during 2007-08. Numbers of customers on social tariffs and the range of savings from them are set out in the following table:

Supplier/tariff name	*Energy type*	*Total customer accounts on a social tariff as at 31 August 2007*	*Total customer accounts on a social tariff as at 31 March 2008*[1]	*Range of savings over supplier's best offer, 2007-08*[2]
British Gas/Essentials	Electricity	83,000	113,584	-59[3]
	Gas	197,000	200,845	-9
	Total	280,000	314,429	—
EDF Energy/Energy Assist	Electricity	45,154	46,130	46 to 55
	Gas	14,825	15,742	67 to 91
	Total	59,979	61,872	—
E.ON (Powergen)/Social StayWarm	Electricity	—	26,833	Because of the structure of this tariff it is not possible to compare it for this analysis.
	Gas	—	25,495	
	Total	10,373	52,328	

Supplier/tariff name	Energy type	Total customer accounts on a social tariff as at 31 August 2007	Total customer accounts on a social tariff as at 31 March 2008[1]	Range of savings over supplier's best offer, 2007-08[2]
Npower/First Step	Electricity	1,415	2,108	7 to 28
	Gas	1,042	1,398	17 to 38
	Total	2,457	3,506	—
Scottish Power		Social tariff launched on 1 April 2008		
SSE/Energy Plus Care	Electricity	7,538	15,282	36 to 50
	Gas	4,983	11,077	32 to 56
	Total	12,521	26,359	—
Total[3]	Electricity	137,107	203,937	n/a
	Gas	217,850	254,557	—
	Total	365,330	458,494	—

[1] To 31 March 2008, Ofgem defined a social tariff as needing to be at least equal to the supplier's standard direct debit tariff. Going forward, to qualify as a social tariff it has to be at least as good as the lowest tariff that supplier offers in the customer's area.
[2] As these savings were calculated over the year 2007-08 and the numbers on a social tariff were given as at 31 March 2008, the exact numbers benefiting from a social tariff, below a supplier's best offer, cannot be estimated.
[3] Negative figures illustrate the average cost disadvantage of the social tariff over the best offer from the same supplier.

Copies of these reports can be found online at:

http://www.ofgem.gov.uk/Sustainability/SocAction/Suppliers/CSR/Documents1/Review%20of%20suppliers%20voluntary%20initiatives.pdf

http://www.ofgem.gov.uk/Sustainability/SocAction/Suppliers/CSR/Documents1/CSRupdateopenletter23507.pdf

http://www.ofgem.gov.uk/Sustainability/SocAction/Suppliers/CSR/Documents1/Monitoring%20Suppliers%20Social%20Spend%20171.08.pdf

Mr. Baron: To ask the Secretary of State for Energy and Climate Change what representations he has received on *(a)* the adequacy of notice given to energy consumers of energy price rises and *(b)* the length of time they are given to switch supplier after a price increase. [286255]

Mr. Kidney: The Department receives a number of representations on a range of consumer matters, including on communications by energy suppliers to customers.

Ofgem is responsible for setting the rules governing notifications. The rules include the timing in which suppliers must notify customers after a tariff change has been put in place, and the timing for customers to notify suppliers if they wish to terminate their supply contract and start the transfer process to another supplier.

Ofgem carried out a review into the price notification period earlier this year, and is expected to publish its findings soon.

Jon Trickett: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the performance of Ofgem in its regulation of British Gas tariff changes; and if he will make a statement. [287704]

Mr. Kidney *[holding answer 20 July 2009]:* Following its Energy Supply Probe, Ofgem has made a number of proposals for amending regulation governing: information to consumers, time periods relating to notifications of tariff changes, the structure of tariffs and overarching standards for suppliers. Ofgem is also seeking improvements in suppliers' management of direct debits. We support Ofgem's work to pursue improvements to regulation where necessary.

Mr. Greg Knight: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 8 June 2009, *Official Report*, columns 719-20W, on energy: prices, if he will estimate the number of people in fuel poverty as a result of increases in energy prices arising from the implementation of commitments to reduce levels of carbon dioxide emissions. [288434]

Mr. Kidney: It is not possible to currently estimate the net change in fuel poverty as a result of our climate change policies, as this will depend on which dwellings receive measures and the households that live in them in 2020.

As our recent "Climate Change Transition Plan" makes clear, climate change policies will lead to significant and sustained savings on the domestic energy bills of those households who take up measures. As detailed in the analytical annex to this document, by 2020, funding of our climate change policies will lead domestic gas and electricity prices to rise. Households taking up climate change measures will be less affected by these rises as their consumption of gas and electricity will be reduced and in many cases, will see a reduction in their bill levels as a result.

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what funding his Department is providing to finance the mandated social price support for household energy, as announced on page 12 of the UK Low Carbon Transition Plan. [288566]

Mr. Kidney: By the final year of the voluntary agreement in 2010-11, energy suppliers will be spending £150 million per year on social programmes. Subject to the parliamentary timetable, the new mandated social price support policy will increase the funding made available by energy suppliers above £150 million per year after March 2011. In

announcing this policy, our aim is to give the vulnerable households receiving help from energy suppliers under the current voluntary arrangements the confidence that similar help will be available after the voluntary agreement comes to an end.

The Government will bring forward legislation at the earliest opportunity and will give more detail at around the time the legislation is introduced.

Environment Ministers: Meetings

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what the outcomes were of the conference of Environment Ministers held in Greenland in July 2009; and what papers his Department circulated at the conference. [286625]

Joan Ruddock: The Greenland Dialogue meeting of Climate Change and Environment Ministers and senior negotiators produced a Chair's Summary. This highlighted, among other things, participants' commitment to success at the United Nations Climate Change Conference in Copenhagen this December, and the need for global warming to stay below 2 degrees. The Chair's Summary can be viewed on the Danish Ministry of Climate and Energy website at:

www.kemin.dk/en-us/cop15/greenland_dialogue/Sider/Forside.aspx

The UK did not formally circulate any papers at the meeting but did distribute copies of the Road to Copenhagen document and I spoke about my right hon. Friend the Prime Minister's climate finance initiative.

Forestry

Martin Horwood: To ask the Secretary of State for Energy and Climate Change what his policy is on *(a)* the form in which and *(b)* the level to which industrialised countries should increase expenditure on forestry; what benefits he expects to accrue from expenditure on forestry; and what his policy is on the inclusion of forestry in carbon markets to prevent deforestation and degradation. [289003]

Joan Ruddock: The UK is working with other countries through the Working Group on Interim Finance for Reducing Emissions from Deforestation and forest Degradation (REDD) to build consensus on finance for forests in the run-up to the climate change negotiations in Copenhagen. Discussions are still in progress but the UK considers that a mix of grant support and public-private finance instruments will be needed. The level of expenditure required to achieve the EU's target of halving the rate of deforestation by 2020, while taking account of the concerns of indigenous peoples and local communities and realising biodiversity and other benefits, is still under discussion. The UK believes, as set out in The Road to Copenhagen, that in the medium to long term, including forests in the carbon market is the best solution to generating the scale of funding needed. It will take time to develop robust monitoring control and governance arrangements for this.

Martin Horwood: To ask the Secretary of State for Energy and Climate Change to which forestry activities the declaration on international climate negotiations at the UK-French summit in Evian on 6 July 2009 referred. [289012]

Joan Ruddock: The forestry activities referred to in the UK-French declaration on the international climate negotiations relate to:

reducing emissions from deforestation and forest degradation; and

the conservation, sustainable management of forests and enhancement of forest carbon stocks.

Fuel Poverty

Mr. Caton: To ask the Secretary of State for Energy and Climate Change what steps he plans to take to reduce fuel poverty if energy prices increase in winter 2009-10. [288079]

Mr. Kidney: Since 2000, we have spent £20 billion on fuel poverty benefits and programmes and we will continue to develop and implement a range of measures to tackle the drivers of fuel poverty, poor energy efficiency, low incomes and high energy prices.

The Government's Warm Front scheme has a budget of £950 million during 2008-11 for the installation of heating and insulation measures available to vulnerable householders in receipt of a qualifying disability or income related benefit. In addition, DECC has just laid in legislation a 20 per cent. increase to the carbon emissions reduction target which will lead to energy suppliers making available an estimated £3.2 billion during 2008-11, 40 per cent. of which must be targeted at a priority group of low income consumers who are in receipt of benefits or are aged 70 and over. In addition, last September, the Prime Minister announced the Community Energy Saving Programme. This will deliver £350 million of energy efficiency measures to around 90,000 homes in 100 low income areas across Great Britain over a three-year period.

To boost the income of vulnerable households, the increase in winter fuel payments, of an extra £50 for those aged 60-79 and £100 for those aged over 80, announced for the winter 2008-09, will continue for the coming winter.

On prices, under the voluntary agreement with suppliers, spend on programmes of social assistance, including discounted social tariffs, will be £125 million this year, rising to £150 million next year. We have also recently announced in the UK Low Carbon Transition Plan, the intention to create a policy of mandated social price support at the earliest opportunity with resources increased compared to the existing voluntary agreement.

Fuels: Power Stations

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what proportion of *(a)* oil, *(b)* gas, *(c)* coal and *(d)* uranium used in power plants came from (i) UK resources and (ii) imported fuels in the most recent year for which figures are available. [288565]

Mr. Kidney: The Department does not collect data on the source of fuels used in power plants. However, the following table shows, for oil, gas and coal, the proportions of total UK supply accounted for by imports (net of exports) and UK resources in 2008 and the proportion of total supply of each fuel used for electricity generation.

The UK does not have exploitable natural uranium resources, therefore all natural uranium used for fuel in UK nuclear power stations is sourced overseas. Reprocessed uranium sourced from the Sellafield reprocessing plant has been processed into uranium for use as fuel. However, the Department does not hold data on the proportions of this used in power plants.

	Oil (Thousand tonnes)	*Gas (GWh)*	*Coal (Thousand tonnes)*
Net imports	11,664	284,565	43,165
UK resources: production, stock changes and transfers	68,969	806,231	15,043
Total supply	80,633	1,090,797	58,208
Net imports proportion (percentage)	14.5	26.1	74.2
UK resources proportion (percentage)	85.5	73.9	25.8
Proportion of total supply used for electricity generation (percentage)	1.1	34.7	82.1

Source: Tables 2.1, 3.1, 3.2 and 4.1, in Energy Trends, June 2009, available at: http://www.berr.gov.uk/energy/statistics/publications/dukes/page45537.html

Gloucestershire Energy Strategy

Mr. Drew: To ask the Secretary of State for Energy and Climate Change what progress has been made in implementing the Gloucestershire Energy Strategy; and what recent discussions his Department has had with those responsible for the strategy. [288080]

Mr. Kidney: Implementation of the Gloucestershire Energy Strategy is the responsibility of Gloucestershire county council. The Government Office for the South West (representing a number of Departments including DECC) have had several discussions with Gloucestershire county council and its partner organisations concerning the strategy and in particular its links with the Local Area Agreement which has a strong commitment to tackling climate change and fuel poverty.

Housing: Air Conditioning

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what information his Department collects on the number of homes in the UK which have domestic air conditioning installed; and in what proportion of homes it is estimated such systems will have been installed by *(a)* 2020, *(b)* 2030 and *(c)* 2050. [288812]

Joan Ruddock: The Government Market Transformation Programme estimates that less than 1 per cent. of UK homes (c125,000) currently have some form of air conditioning equipment, with the majority being portable rather than installed units.

We do not currently hold estimates of the number of air conditioning systems that we expect to see installed in UK homes in 2020, 2030 or 2050.

Industrial Diseases: Nottinghamshire

John Mann: To ask the Secretary of State for Energy and Climate Change how many cases of *(a)* chronic obstructive pulmonary disease and *(b)* vibration white finger there are in the post code area (i) NG20 and (ii) DN22. [288819]

Mr. Kidney: The following table provides the number of Chronic Obstructive Pulmonary Disease (COPD) and Vibration White Finger (VWF) claims registered under the British Coal litigation schemes in the postcode areas of NG20 and DN22.

Claims registered (at 19 July 2009) in postcode areas NG20 and DN22

	Registered claim count
Postcode District NG20	
COPD	5,321
VWF	3,503
Total	8,824
Postcode District DN22	
COPD	1,007
VWF	750
Total	1,757

Insulation: Housing

Mr. Drew: To ask the Secretary of State for Energy and Climate Change what funding is available to local authorities for programmes for loft insulation *(a)* in (i) private and (ii) public residential housing and *(b)* for community buildings. [288081]

Joan Ruddock: No central Government funding is provided to local authorities for loft insulation programmes in social housing. However, local authorities can use money provided through the major repairs allowance in the Housing Revenue Account Subsidy System and Supported Capital Expenditure for the Decent Homes Programme to install loft insulation in council owned homes. Local authorities also work with energy suppliers under the Carbon Emissions Reduction Target (CERT) to identify homes that could benefit from measures under this scheme.

For private sector homes, Government have invested over £1 billion between 2008-09 and 2010-11 to help improve private sector housing for the most vulnerable. Allocations are paid to local authorities through the Regional Housing Pot as un-ring-fenced capital grants based on recommendations made by the Regional Housing Boards. In addition to tackling disrepair, the funds are often used to assist in the provision of energy efficiency measures.

No central Government funding is provided to local authorities for insulating the lofts of community buildings. However, loft insulation is a relatively low-cost measure that provides substantial energy savings, so local authorities should expect a short payback period for their investment.

Liquefied Petroleum Gas

Gordon Banks: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the likely effect of the UK Low

Carbon Transition Plan on families who use liquefied petroleum gas as a heating fuel; and if he will make a statement. [288415]

Mr. Kidney *[holding answer 20 July 2009]:* The UK Low Carbon Transition Plan is a route map to a low carbon economy setting out the instruments the UK will use to meet its carbon budgets. This together with the Renewable Energy Strategy published at the same time also sets out how the UK will meet its target that 15 per cent. of energy should come from renewable resources by 2020.

This will mean a transition over time from fossil fuels to renewable fuels for heating, supported by the introduction of the Renewable Heat Incentive from April 2011. LPG is a fossil fuel form of heating, often used in communities off the gas grid. We envisage that many families in rural communities will use the Renewable Heat Incentive and other schemes to switch to renewable and low carbon ways to heat their homes.

Low Carbon Buildings Programme

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how much of the £45 million announced in Budget 2009 for the Low Carbon Buildings Programme is projected to be spent in 2009-10. [288718]

Mr. Kidney: £30 million of the £45 million announced in Budget 2009 for the Low Carbon Buildings Programme is projected to be spent in 2009-10.

Low Carbon Energy

Charles Hendry: To ask the Secretary of State for Energy and Climate Change with reference to paragraph 7.28 of Budget 2009, how the £155 million of funding allocated to his Department for low-carbon energy and green manufacturing will be spent. [285032]

Joan Ruddock: The funding will deliver targeted support for sectors with high growth rate potential such as offshore wind, wave and tidal energy, and remove barriers to low carbon investment in the UK. The funding will also support innovative trialling of technologies in local community-based settings.

Spending allocation decisions taken so far by Ministers total up to £81.2 million and comprise:

up to £22.5 million for the Marine Energy Proving Fund;

up to £10 million for the Green Villages, Towns and Cities Challenge;

up to £6 million for renewable construction materials;

up to £6 million for 'smart grid' innovation;

up to £6 million for geothermal energy;

up to £4 million for Pay as You Save Pilots;

up to £1.7 million for the Whitehall District heating scheme; and

up to £25 million towards the UK Innovation Investment Fund.

The Energy White Paper and Low Carbon Industrial Strategy has more detail on these allocations.

Further announcements on projects and sectors to be funded will be made over the coming months. Where it is possible to bid for elements of funding, the process for doing so will be made clear when funding is announced.

National Decommissioning Authority: Finance

Jenny Willott: To ask the Secretary of State for Energy and Climate Change how much and what proportion of the National Decommissioning Authority's budget has been spent on funding university research in each of the last 10 years; on what research projects this funding has been spent; and if he will make a statement. [286484]

Mr. Kidney: Funding for university research in support of its core mission to decommission and clean up the nuclear legacy is a key part of the NDA's skills strategy. During financial year 2008-09, the NDA spent approximately £1.4 million on supporting university research through its Direct Research Portfolio and the Radioactive Waste Management Directorate (RWMD). Funding in previous years was not broken down so as to differentiate between university and other research but is estimated to have been in the order of around £1 million in each year. The NDA has also made a commitment of £10 million to support the establishment of the Dalton Cumbria facility, a joint venture with the university of Manchester which will see the establishment of a world-class research centre specialising in radiation science and nuclear engineering decommissioning.

Nuclear Power

Mr. Weir: To ask the Secretary of State for Energy and Climate Change when he plans to answer Question 280802, tabled on 16 June 2009, on coolant leaks and fires at UK nuclear installations. [288750]

Mr. Kidney: I refer the hon. Member to the answer I gave him on 20 July 2009, *Official Report*, columns 1023-29W.

Nuclear Power Stations: Decommissioning

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the *(a)* cost to date and *(b)* future cost to the public purse of decommissioning nuclear power stations; and if he will make a statement. [288421]

Mr. Kidney: The lifetime costs of decommissioning and cleaning up the fleet of Magnox nuclear power stations, only two of which are still operational, are set out in the Nuclear Decommissioning Authority's annual report and accounts 2008-09 published on 20 July 2009. The total discounted cost is estimated to be £9,233 million.

The Nuclear Liabilities Fund (NLF) is responsible for meeting the decommissioning cost of British Energy's existing nuclear power stations, together with defuelling costs and certain British Energy uncontracted liabilities. As at 31 March 2009, the total discounted cost (at a rate of 2.2 per cent.) of the NLF's future liability is estimated to be £4,500 million.

Any developers of new nuclear power stations will be obliged to meet the full costs of decommissioning and their full share of waste management and disposal costs.

Nuclear Power Stations: Pollution

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how much in fines the Nuclear Inspectorate has imposed on *(a)* companies, *(b)* local authorities and *(c)* individuals in respect of each type of pollution incident in each region in each year since 1997. [288465]

Mr. Kidney: The Health and Safety Executive's Nuclear Installations Inspectorate (NII) does not impose fines directly. It may prosecute duty holders for breaches of health and safety law. If found guilty those duty holders may have fines imposed on them by the courts. In the following cases heard for breaches of health and safety law since 1997 fines were imposed after prosecutions were instigated by the NII. In all cases the fines were imposed on companies.

Date of hearing	*Name of defendant*	*Fine imposed (£)*	*Costs awarded against defendant (£)*
25 November 1999	British Energy	30,000	5,700
27 July 2000	Magnox Electric Ltd.	18,000	6,100
18 January 2002	UKAEA Ltd.	4,000	57,800
18 January 2002	AEA Technology plc	4,000	57,800
6 March 2002	British Nuclear Fuels plc	15,000	4,500
16 October 2006	British Nuclear Group Sellafield Ltd.	500,000	67,000
12 July 2007	UKAEA Ltd.	15,000	—

The events giving rise to these prosecutions did not necessarily involve pollution. Events involving environmental pollution are primarily matters for the appropriate environmental agency.

Nuclear Power: Finance

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change pursuant to the oral answer to the hon. Member for Castle Point (Bob Spink), of 13 July 2009, *Official Report*, column 38, on the G8 Summit, whether the £20 billion to be spent on nuclear power in the UK in the next few years will be from public funds. [287603]

Mr. Kidney: As stated in the Nuclear White Paper, it will be for energy companies to fund, develop and build new nuclear power stations in the UK. Government estimates show that to replace existing capacity alone, £21 billion will need to be invested by energy companies.

Nuclear Power: Industrial Health and Safety

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what the very small risks are which his Department has judged new nuclear power plants would pose in respect of safety, health, proliferation and security, as referred to on page 63 in chapter 2 of the UK Low Carbon Transition Plan. [288593]

Mr. Kidney: The small risks referred to are those set out at page 22 and pages 74-80 of the 2008 White Paper on Nuclear Power.

Nuclear Power: Security

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the level of security of UK nuclear facilities from radiation leaks in the last 10 years; and if he will make a statement. [288716]

Mr. Kidney: The Health and Safety Executive, who have responsibility for the day to day regulation of the nuclear industry, make regular assessments on the causes of incidents, including leaks, within the nuclear industry. Through HSE's programme of regular inspection of nuclear facilities they are able to ensure that nuclear operators are complying with relevant health, safety and security legislation and ensure that industry, as a whole, learns from individual incidents. Ministers in DECC periodically meet with HSE to ensure that the framework in place remains robust in managing the risk of future leaks.

Nuclear Power: Waste Disposal

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what categories of costs will be included in the full share of waste management and disposal cost, which energy companies funding, developing and building new nuclear power stations will be required to meet, as referred to on page 63 of the UK Low Carbon Transition Plan. [288594]

Mr. Kidney: The Government consider that an operator's full share of waste management and disposal costs is:

the costs that are directly attributable to disposing of new build higher activity waste into a geological disposal facility;

a contribution towards the fixed costs of constructing such a geological disposal facility;

a significant risk premium over and above these costs to take account of uncertainties around the cost of constructing such a facility and the time when it will be able to accept new build waste; and

the cost of managing that waste pending disposal (or pending transfer for disposal).

Separately, operators are also responsible for the full cost of disposing of low level waste in a disposal facility and managing this waste pending its disposal.

Nuclear Reactors

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how close to sea level each of the UK's *(a)* existing and *(b)* planned (i) nuclear reactors and (ii) nuclear waste storage facilities is; and if he will make a statement. [288715]

Mr. Kidney: A simple comparison of sea level with ground level can be misleading, as it takes no account of local sea defences or local topography, both of which will be influential in determining the likelihood and magnitude of any flooding either on the site or its immediate environs.

The safety of existing sites (including associated on-site waste storage and the low level waste repository near the village of Drigg) regarding sea level and flood risk is monitored by the Nuclear Installations Inspectorate. A site or sites for geological disposal of higher activity radioactive waste has not yet been identified. The design and safety case for any facility will consider the effects of sea levels, and changes in sea levels, on operational and post closure performance.

The Government are running a strategic siting assessment to identify sites that are potentially suitable for the deployment of new nuclear power stations. The Government response to the consultation on the SSA criteria and process:

http://www.berr.gov.uk/files/file49865.pdf

outlined that nominated sites would be assessed against their capacity to be protected against flood risk, tsunami and storm surge. This includes consideration of the potential effects of climate change, throughout the lifetime of the station including allowing for the safe and secure storage of all the spent fuel and intermediate level waste produced from operation and decommissioning until it can be sent for final disposal in a geological disposal facility (GDF). Nominators have provided information about the ground level of nominated sites, and this is available at:

www.nuclearpowersiting.decc.gov.uk

Ofgem: Scotland

Mr. Baron: To ask the Secretary of State for Energy and Climate Change what discussions he has had with Ofgem on the Scottish Power Pay in Advance tariff; and what his policy is on the licensing of Scottish Power to hold client money. [286257]

Mr. Kidney: I have not discussed this tariff with Ofgem. However, in our White Paper 'A better deal for Consumers' published in July, the Government undertook to reassess the regulatory framework for prepayments in general, taking account of advice from the Office of Fair Trading and the Financial Services Authority and the recommendations to be contained within Consumer Focus's forthcoming report on the prepayments market. This report is expected this summer. The Government will work with the full range of stakeholders to assess what regulatory action would be sensible and practicable.

Renewable Energy

Gregory Barker: To ask the Secretary of State for Energy and Climate Change what percentage of the UK's electricity demand he expects to be met from electricity generation supported by new feed-in tariffs by 2020. [288185]

Mr. Kidney *[holding answer 20 July 2009]:* As stated in the UK Renewable Energy Strategy, our central scenario includes a contribution from small scale renewable electricity generation of 2 per cent. of our electricity supply in 2020.

In line with this we have proposed feed-in tariff levels in our Renewable Financial Incentives consultation available at

http://www.decc.gov.uk/en/content/cms/consultations/elec_financial/elec_financial.aspx

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change where his Department's Office for Renewable Energy Deployment will be based; who its director is; how many staff at each grade it will have; what budgetary allocations have been made for it over what period; and what arrangements the Office will establish for communications with the public and interested parties. [288569]

Mr. Kidney: The Office for Renewable Energy Deployment (ORED) will be based in the Department of Energy and Climate Change. ORED will be headed by a chief executive, Simon Virley, and the recruitment of a non-executive expert chair of ORED is under way. Staffing, budgets and other arrangements are currently being finalised.

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what proportion of *(a)* energy and *(b)* electricity in (i) the UK and (ii) each region came from renewable sources in each year since 1997. [289010]

Mr. Kidney: Information on the electricity generated from renewable sources as a percentage of all electricity generated in the UK and the proportion of primary energy demand accounted for by non-waste renewable sources in each year since 1997 is shown in table 1. Also shown are the data from 2004 onwards which monitor progress against the EU Renewable Energy Directive; the directive uses different definitions to the data available from 1997.

Data on electricity generation are not available at a regional level, since information at this level is disclosive. However information is available that shows the proportion of electricity generated in England, Wales, Scotland and Northern Ireland which came from all renewable sources for 2004 to 2007; this is shown in table 2. Data on all energy generation by region or country are not available.

Table 1: Percentage of electricity and energy in the UK obtained from renewable sources

	Electricity generated from renewable sources as a percentage of all electricity generated in the UK	*Energy from non-waste renewable sources as a percentage of UK primary energy demand*	*Percentage Renewables consumption as a percentage of capped gross final energy consumption, used to monitor the Renewable Energy Directive*
1997	2.0	0.8	—
1998	2.4	0.8	—
1999	2.6	0.9	—
2000	2.6	0.9	—

Table 1: Percentage of electricity and energy in the UK obtained from renewable sources

	Electricity generated from renewable sources as a percentage of all electricity generated in the UK	*Energy from non-waste renewable sources as a percentage of UK primary energy demand*	*Percentage Renewables consumption as a percentage of capped gross final energy consumption, used to monitor the Renewable Energy Directive*
2001	2.5	0.9	—
2002	2.9	1.1	—
2003	2.7	1.2	—
2004	3.6	1.4	1.2
2005	4.3	1.7	1.4
2006	4.6	1.8	1.6
2007	4.9	2.0	1.8
2008	5.5	2.4	2.25

2007	3.1	4.4	17.1	4.5

Source:
December 2008 edition of Energy Trends.

Renewable Energy: Hampshire

Sandra Gidley: To ask the Secretary of State for Energy and Climate Change what plans he has to exploit renewable sources of energy in the ceremonial county of Hampshire; and whether sites have been identified for the development of renewable energy sources within the county. [288896]

Mr. Kidney: On 15 July we published our Renewable Energy Strategy detailing an action plan for increasing renewable energy deployment throughout the UK, including measures at local and regional level.

However, it is for the market to bring forward proposals for renewable energy projects in specific areas.

Renewable Energy: Ministerial Responsibilities

Gregory Barker: To ask the Secretary of State for Energy and Climate Change when the hon. Member for Nottingham South (Alan Simpson) was appointed to the post of special adviser on renewable energy and feed-in tariffs; how many meetings *(a)* he and *(b)* his Department's officials have had with the special adviser since his appointment; and what advice the adviser has provided since appointment. [287715]

Mr. Kidney *[holding answer 20 July 2009]:* DECC Ministers have frequent meetings with parliamentary colleagues. My hon. Friend the Member for Nottingham, South (Alan Simpson) has not held meetings with officials. My hon. Friend is not employed as a special adviser but has had discussions with my right hon. and learned Friend the Member for North Warwickshire (Mr. O'Brien) on the subject of feed-in tariffs since the passage of the Energy Act 2008.

River Severn: Tidal Power

John Penrose: To ask the Secretary of State for Energy and Climate Change when he plans to publish the Government's response to the public consultation on the scope of the Severn Tidal Power feasibility study. [285434]

Mr. Kidney: The Government response to the public consultation on Severn tidal power was published on 15 July alongside the UK Low Carbon Transition Plan and the Renewable Energy Strategy. The Government response confirms high level analysis of the impact of three barrages and two lagoons and work to bring forward three further schemes using embryonic technologies—two tidal fences and a low head barrage.

Strategic Siting Assessment Programme

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what the cost was of the Strategic Siting Assessment Programme; and what proportion of that cost has been recovered from applicant companies. [288595]

Mr. Kidney: The Government set out in the 2008 Nuclear White Paper that it would conduct a Strategic Siting Assessment ("SSA") to identify sites which are potentially suitable for the deployment of new nuclear power stations by the end of 2025. The sites identified through this process will be listed in the proposed National Policy Statement for Nuclear Power.

The Government consulted on the criteria and process for the SSA in 2008, and set out the process in their Government Response to consultation at:

http://www.berr.gov.uk/files/file49865.pdf

This process does not include charging nominators for the cost of assessing sites.

Any new nuclear power stations would be proposed, developed, constructed and operated by energy companies. It is Government's role to set the right policy framework to attract investment in energy projects. In the past Government have undertaken strategic siting assessments for offshore renewables and for the licensing of oil and gas exploration in the North Sea. As with those projects, the cost of the SSA will be met by Government as part of their role to set the policy framework for energy investments.

The approximate costs from inception to date are shown in the following table. These are costs of consultancy organisations who have contributed towards delivering the SSA. This does not include DECC staff costs.

Activity	*Cost (£)*
Development of the SSA process and criteria	409,000
Publicity and consultation on the SSA process, criteria and nominations	331,200

Activity	Cost (£)
Carrying out the strategic siting assessment and associated Appraisal of Sustainability (AoS) incorporating a Strategic Environmental Assessment and a Habitats Regulations Assessment (HRA). Both the AoS and the HRA are legal requirements on Government in developing the Nuclear National Policy Statement	1,019,000
Total	1,759,200

Warm Front Scheme

Greg Clark: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of the report on each of the Gateway Reviews conducted in relation to the Warm Front scheme. [257476]

Mr. Kidney: I have arranged for copies of the reports to be placed in the House Library.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of each of the last six half-yearly audit reports on the Warm Front scheme produced by White Young Green. [285092]

Mr. Kidney: The Warm Front Scheme is the Government's flagship scheme for eradicating fuel poverty. White Young Green is the independent quality assurance assessor for the Warm Front Scheme. White Young Green normally produces a Quality Assurance Assessor's Report every six months. It is not usual practice to release reports of this nature.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 20 April 2009, *Official Report*, column 327W, on the Warm Front scheme, if he will place in the Library a copy of the *(a)* agenda and *(b)* minutes of each meeting of the Warm Front Scheme Management Board since 2005. [285119]

Mr. Kidney: The Warm Front Scheme is the Government's flagship scheme for eradicating fuel poverty. The Warm Front Scheme Management Board oversees the delivery and performance of the Warm Front Scheme and its contribution to achievement of the Government's fuel poverty and wider targets. It is not usual practice to release board agendas and minutes of this nature.

Mr. McLoughlin: To ask the Secretary of State for Energy and Climate Change how many people in *(a)* Derbyshire and *(b)* West Derbyshire constituency are eligible for a grant for insulation and heating improvements under the Warm Front scheme. [288794]

Mr. Kidney: The Department does not record how many households are eligible for a Warm Front grant in Derbyshire and West Derbyshire constituency.

Warm Front Scheme: Boilers

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how many new *(a)* oil boilers and *(b)* liquefied petroleum gas boilers have been installed under the Warm Front programme in each year since it was established. [288717]

Mr. Kidney: The following table details the number of *(a)* oil boilers installed and replaced and *(b)* liquefied petroleum gas boilers replaced under the Warm Front Scheme in each year since the beginning of the Scheme. Prior to 2005 oil and liquefied petroleum gas boilers were not installed as a standard measure under the Scheme.

Measure	2005-06	2006-07	2007-08	2008-09	Total
Oil Boiler Installations and Replacements	155	1,507	1,820	2,507	5,988
Liquefied Petroleum Gas Boiler Replacements	6	226	400	652	1,284

COMMUNITIES AND LOCAL GOVERNMENT

Architects Registration Board

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many full-time equivalent employees the Architects Registration Board employs; what its budget for 2009-10 is; and how much it will receive in support from his Department in 2009-10; [288477]

(2) what remuneration the Chief Executive of the Architects Registration Board received in the most recent year for which figures are available. [288488]

John Healey: The Architects Registration Board currently employs 22 full-time members of staff. The budget for 2009 is £3,438,538. The budget for 2010 is currently being discussed by the board. The registrar (effectively the chief executive) receives a salary of £98,705. I have asked the ARB to write to you separately to confirm these details.

The Architects Registration Board will receive no funds from my Department in 2009-10. The Architects Registration Board is funded by the registration fees paid annually by architects in the UK which are currently set at £86 per year.

Bed and Breakfast Accommodation

Ms Keeble: To ask the Secretary of State for Communities and Local Government how many families with children were accommodated in bed and breakfast accommodation in each local authority area in each of the last four quarters for which figures are available. [287388]

John Healey: Information about English local housing authorities' actions under the homelessness legislation (Part 7 of the Housing Act 1996) is collected quarterly at local authority level, and available at:

www.communities.gov.uk/publications/corporate/statistics/homelessnessq12009

Data collected include the number of households accepted by local housing authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty (to secure that suitable accommodation is available). If a settled

home is not immediately available, the authority must secure temporary accommodation until a settled home becomes so.

The number of households housed in temporary accommodation by local authorities as at the last day of each quarter, is also collected. This figure consists of those households which have been accepted as owed the main homelessness duty; those for which inquiries are pending; those being accommodated for a limited period because they have been found intentionally homeless and in priority need; those being accommodated pending possible referral to another authority; and those being accommodated pending the outcome of a local authority review or county court appeal.

The figures for households with dependent children and/or a pregnant woman accommodated in bed and breakfast temporary accommodation as reported by each local authority in the last four quarters have been placed in the Library of the House.

Council Tax: Students

David Taylor: To ask the Secretary of State for Communities and Local Government if he will bring forward legislative proposals to exempt from liability for council tax payments unemployed spouses of undergraduate students who are designated as dependants of those students; and if he will make a statement. [288642]

Ms Rosie Winterton: No. The Local Government Finance Act 1992 makes available a single person discount of 25 per cent. for households where one adult (including a spouse) is liable for council tax. Also, Class N of the Council Tax (Exempt Dwellings) Order 1992 provides exemption for dwellings solely occupied by full time students and their non-British spouses.

Damian McBride

Mr. Maude: To ask the Secretary of State for Communities and Local Government on what date he last met Mr. Damian McBride in the course of his official duties. [287366]

Mr. Malik: My right hon. Friend has had no such meetings.

Departmental Billing

John Mason: To ask the Secretary of State for Communities and Local Government what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288909]

Mr. Malik: The percentage of invoices from suppliers paid by the Department within 10 days of receipt in June 2009 was 90.53 per cent.

Departmental Board Members

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether each of his Department's non-executive directors has made a declaration of political activity. [288830]

Mr. Malik: Non-executive members of the departmental board are required under the terms and conditions of their appointment to declare to the permanent secretary any personal or business interest which may, or may be perceived to, influence their judgment in performing their functions and obligations as members of the board.

There are currently six non-executive board members, none of whom have declared any political activities under this provision.

Departmental Conditions of Employment

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what percentage of employees in his Department *(a)* are on a flexible working contract, *(b)* are on a job share employment contract and *(c)* work from home for more than four hours a week. [287086]

Mr. Malik: Only details of those staff working less than full-time hours are held centrally. As at the end of June 2009, 243 members of staff were recorded as working on a part-time basis.

Other data on other types of flexible working e.g. job sharing, compressed hours, home working are not collected centrally, as this is agreed at the line manager's discretion and in accordance with our flexible working policy.

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Communities and Local Government how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287796]

Mr. Malik: The information requested is not held centrally and could be provided only at disproportionate cost.

The Department is currently putting in place systems that will identify small and medium enterprises on its finance system which will allow this to be reported on in the future.

Departmental Cost Effectiveness

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what Gershon efficiency savings his Department has made in each of the last three years. [288828]

Mr. Malik: The details of the efficiency savings delivered within our SR04 Gershon efficiency programme were published in the Department's 2008 Autumn Performance Report, which reported achievement of £1,444 million efficiency savings against a target of at least £620 million efficiency savings by March 2008.

Departmental Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government what his Department's budget is for *(a)* 2009-10 and *(b)* 2010-11; and what changes have been made to previous plans for

the budget as a consequence of (i) funding being diverted from other Departments as a consequence of proposals in the Draft Legislative Programme 2009-10 and (ii) funding being brought forward from later years. [288285]

Mr. Malik: The Department's 2009 Annual Report shows Communities and Local Government's overall budget for 2009-10 and 2010-11 as £13.2 billion and £10.8 billion respectively. These figures reflect over £1.5 billion of funding brought forward from 2010-11 as well as new funding announced at Budget 2009.

Additional funding of up to £930 million for new affordable housing (as announced in 'Building Britain's Future') will come from a mixture of reprioritisation, efficient programme management and anticipated underspends in other Departments.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 15 July 2009, *Official Report*, column 485W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288990]

Mr. Malik: All of these officers use Microsoft Internet Explorer v6.0.2900.2180.xpsp_sp2_gdr.050301-1519 which is the standard for CLG's desktops and laptops.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Communities and Local Government how much his Department spent on Royal Mail services in each of the last two years. [288742]

Mr. Malik: The Department for Communities and Local Government has spent the following using Royal Mail within the last two years:

1 April to 31 March	*£*
2008	90,656.69
2009	53,389.25

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Communities and Local Government what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287134]

Mr. Malik: The Department is currently developing its strategy for small and medium enterprise engagement and has started to collect small and medium enterprise (SME) expenditure data.

Departmental Responsibilities

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the responsibilities are of each Minister in his Department. [282737]

Mr. Malik: My right hon. Friend the Secretary of State holds overall responsibility for the business of the Department and its policies.

My right hon. Friend the Minister for Housing and Planning (John Healey) leads on housing, planning, climate change and sustainable development.

My right hon. Friend the Minister for Local Government (Ms. Winterton) leads on local government, regions, regeneration and worklessness. She is also a Minister for the Department of Business Innovation and Skills and Minister for Yorkshire and the Humber.

I lead on the fire service, community cohesion, race and migration, preventing extremism, the Thames Gateway and the Olympic legacy.

My hon. Friend the Member for Dudley, North (Mr. Austin) supports on housing, planning, climate change and sustainable development. He is also Minister for the West Midlands.

My noble Friend Lord McKenzie of Luton supports on local government, and covers the Department's business in the House of Lords.

Robert Neill: To ask the Secretary of State for Communities and Local Government which Minister in his Department is responsible for *(a)* Travellers, *(b)* Pathfinder Housing Market Renewal and *(c)* the QE2 Conference Centre. [288322]

Mr. Malik: The ministerial responsibilities are as follows:

(a) I am responsible;

(b) My right hon. Friend the Minister for Housing and Planning (John Healey) supported by my hon. Friend the Member for Dudley North (Mr. Austin);

(c) I am responsible.

Robert Neill: To ask the Secretary of State for Communities and Local Government what the Ministerial responsibilities relating to local government are of Lord McKenzie of Luton as Parliamentary Under Secretary of State in his Department. [288323]

Mr. Malik: My noble Friend supports my right hon. Friend the Minister for Local Government (Ms Winterton) on such local government policies as the business of the Department demands.

Eco-Towns

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what guidance has been published by his Department on waste policy in eco-towns; [288103]

(2) what guidance has been published by his Department on transport policy in eco-towns; [288106]

(3) what guidance has been published on the planning process for eco-town travel plans. [288107]

John Healey: As set out in my written statement on 16 July 2008, *Official Report*, column 42WS, my Department published 'Planning Policy Statement: Eco-towns' (PPS), which sets out the standards that eco-towns will have to meet, including standards for transport and waste. I have placed copies of the PPS in the Library of the House.

As part of their work with us on eco-towns, the Town and Country Planning Association (TCPA) have produced a series of best practice guidance worksheets to support those taking forward eco-towns. This includes worksheets on waste and transport, and these are available on the TCPA's website

http://www.tcpa.org.uk/pages/sustainability-worksheets.html

The transport worksheet supplements the initial guidance produced by the Department for Transport, 'Building Sustainable Transport into New Developments: A Menu of Options for Growth Points and Eco-towns', and looks at travel planning and implementing sustainable transport approaches.

Eco-Towns: Middle Quinton

Peter Luff: To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 16 July 2009, on eco-towns and zero carbon homes, if he will withdraw the proposal for an eco-town at Long Marston from the West Midlands Regional Spatial Strategy review process; and if he will make a statement. [288637]

John Healey: I will make a decision on the proposal for an eco-town at Long Marston after the Department has received the report of the panel on the West Midlands Regional Spatial Strategy. Any decision will also take into account any further representations on any new or additional matters which may arise in relation to the proposed Middle Quinton eco-town at Long Marston.

Empty Dwelling Management Orders

Robert Neill: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued on the use of empty dwelling management orders in respect of empty dwellings occupied by *(a)* squatters and *(b)* Travellers. [288522]

John Healey: No guidance has been issued on this point.

EU Law

Bob Spink: To ask the Secretary of State for Communities and Local Government (1) what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available; [281969]

(2) what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283488]

Ms Rosie Winterton: The Department does not hold this information.

It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union. The important consideration is not the origins of a piece of legislation, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Fire Services: Industrial Disputes

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which fire authorities have entered into contracts with private sector companies to provide fire cover in the event of industrial action. [288161]

Mr. Malik: The provision of fire cover within a fire and rescue authority in the event of industrial action, is the responsibility of that fire and rescue authority. The Department does not collect information from fire and rescue authorities as to whether they have engaged private sector companies to provide emergency fire cover in the event of industrial action.

However, we understand that London Fire and Emergency Planning Authority have entered into a contract for the provision of an Emergency Fire Crew Capability Service to the London Fire Brigade. We are not currently aware of any other similar contracts.

Fires: Domestic Waste

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 3 July 2009, *Official Report*, column 454W, on fires: waste, if he will commission research into the scope and frequency of household arson attacks involving wheeled refuse containers. [288381]

Mr. Malik: There are currently no centrally held data on the number of wheeled refuse container fires. The recently implemented electronic Incident Recording System (IRS) records all incidents attended by Fire and Rescue Services. From the data held on IRS it will be possible to identify deliberate fires as well as the number and location of wheeled refuse container fires attended by Fire and Rescue Services. These data will be available for 2009-10 and so should provide information on the frequency of fires in wheeled refuse containers and their involvement in household arson attacks.

The Government fund research on fire and resilience matters through several routes, one of which is the annual Fire and Resilience Research and Statistics Programme. Potential research projects for the Programme are discussed and prioritised based on the Department's policy needs and also in close consultation with Fire and Rescue Service stakeholders, such as the Chief Fire Officers Association. The Programme for 2009-10 has been finalised. A potential research project on the scope of fires in wheeled refuse containers will be included in this process for 2010-11 and we will ensure engagement with the Arson Control Forum as key stakeholders.

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 3 July 2009, *Official Report*, column 454W, on fires: waste, what guidance *(a)* his Department and *(b)* the Fire Service College has issued to firefighters and fire services on tackling fires deliberately set in wheeled refuse containers. [288453]

Mr. Malik: Neither my Department nor the Fire Service College has issued guidance to firefighters and the fire and rescue service in relation to tackling fires which have been deliberately set in wheeled refuse containers. Individual Fire and Rescue Authorities may, however, have developed operational procedures or policy on the issue.

Gardens

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what information his Department and its agencies hold on the proportion and number of households with access to private gardens. [288102]

John Healey: The Department does not hold information on the proportion and number of households with access to private gardens.

Gardens: Helicopters

Mr. Gummer: To ask the Secretary of State for Communities and Local Government (1) what planning provision he intends to make to regulate the use of back gardens for the landing of helicopters; [287788]

(2) what guidance he has provided to local authorities on the application of legislation relating to neighbour behaviour which might be used in relation to the landing of helicopters in confined spaces. [287789]

John Healey: The planning system exists to control development and protect the amenity of others. Where use of a garden to land helicopters involves development of some kind existing regulations would apply. The Government have no plans to amend the law in this respect.

The Government have not issued any guidance in relation to the landing of helicopters in confined spaces by neighbours.

Glasgow

John Mason: To ask the Secretary of State for Communities and Local Government whether he plans to visit Glasgow on official business during the summer adjournment. [288910]

Mr. Malik: My right hon. Friend has no plans to visit Glasgow.

Green Belt

Robert Neill: To ask the Secretary of State for Communities and Local Government in what locations the regional spatial strategies submitted to his Department propose a review of green belt protection with a view to reducing the present level of protection. [288509]

John Healey: The level of protection afforded to green belt would not be affected by any regional spatial strategy—this is set out in National Planning Policy. Policies in regional spatial strategies may recommend that, in a particular area, there should be a review of which areas should be designated as green belt.

Green Belt: Cambridgeshire

Mr. Vara: To ask the Secretary of State for Communities and Local Government what steps his Department is taking to protect *(a)* green belts and *(b)* green open spaces in (i) Huntingdonshire and (ii) Cambridgeshire. [287202]

John Healey: National and regional planning policy (Planning Policy Guidance Note 2 and the East of England Plan) both contain policy to protect Green Belt land and there remains a strong presumption against development.

The East of England Plan, published in May 2008 confirmed that the broad extent of green belts in the East of England, including around Cambridge, is appropriate and should be maintained.

Government Planning Policy (Policy Guidance Note 17) sets out the Government's approach to the provision of open space. The East of England Plan (Policy ENV1) also includes policy on creation and maintenance and creation of networks of green infrastructure. The Local Development Plans of Cambridge City Council and Huntingdonshire district council will then make provision for open green space, including the setting of open space standards.

Home Information Packs

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of home condition reports that were completed in each of the last three years. [286432]

John Healey: The full year figures for the number of voluntary home condition reports (HCRs) which have been lodged on the HCR register are 1680 in 2007 and 120 in 2008. Figures for 2009 will be available after the year end.

Homelessness

Sarah Teather: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of people of no fixed abode in each region in England. [287509]

John Healey: Information about the total number of people in England with no fixed abode is not held centrally.

Homes and Communities Agency: Pay

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the salary is of each *(a)* board member and *(b)* executive team member of the (i) Homes and Communities Agency and (ii) Tenant Services Authority. [280295]

John Healey: The remuneration for the HCA chair was previously detailed in the Department's press notice of 27 June 2008, and for the TSA chair in the press notice of 13 May 2008. Information on the remuneration for the HCA and TSA's other board members was included in the Department's press notice of 17 October 2008.

The remuneration for the HCA and TSA's board, chief executive and other key senior executives will be published in the relevant 2008-09 annual report and accounts later this year.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many *(a)* board members and *(b)* employees of (i) the Homes and Communities Agency and (ii) the Tenant Services Authority received a bonus in the last 12 months; and what the average bonus payment was; [280299]

(2) how many *(a)* board members and *(b)* employees of the (i) Homes and Communities Agency and (ii) Tenant Services Authority are paid more than (A) £50,000, (B) £75,000 and (C) £100,000 per annum; [280301]

(3) how much the *(a)* Homes and Communities Agency and *(b)* Tenant Services Authority has paid in staff bonuses in the last 12 months. [280302]

John Healey: Information on pay and bonuses for the Homes and Communities Agency and the Tenant Services Authority will be included in their annual report and accounts. Additional details will be published by both the HCA and TSA later this year.

Housing Associations

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what powers local authorities have to set up housing associations. [288827]

John Healey: There is no express provision in statute allowing local authorities to set up housing associations, although there is a general power available to local authorities to do anything which would promote or improve the economic, social or environmental well-being of an area.

The Housing Act 1985 allows a local authority to facilitate the creation of a housing association through the transfer of its housing to another person (subject to consultation, a ballot of tenants and the consent of the Secretary of State).

Housing Investment Trusts

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many housing investment trusts have been established since 1996. [287534]

Sarah McCarthy-Fry: I have been asked to reply.

Housing Investment Trusts, known as HITs, were introduced in the 1996 Finance Act. No HITs were ever created. Legislation creating the HIT regime was repealed by Finance Act 2006 following two consultations, during which there was no opposition to repeal.

Housing Market

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many residential properties were sold in England in 2008-09; and what estimate his Department has made of the number of such properties expected to be sold in 2009-10. [287507]

John Healey: Data published by Her Majesty's Revenue and Customs report the number of residential property transaction completions with a value of £40,000 or above in England in 2008-09 as 664,000. We have not made any estimates for transactions in England for 2009-10.

Housing: Construction

Mike Penning: To ask the Secretary of State for Communities and Local Government how many new homes were built in *(a)* Hemel Hempstead, *(b)* Dacorum and *(c)* Hertfordshire in each of the last eight quarters. [284317]

John Healey: Information on house building completions is not available below the spatial level of local authority.

The following table shows the number of new homes built in each local authority in Hertfordshire county in each of the last eight quarters.

	2007				2008			2009
Local authority	*April to June*	*July to September*	*October to December*	*January to March*	*April to June*	*July to September*	*October to December*	*January to March*
Hertfordshire								
Broxbourne	36	33	71	94	44	46	35	53
Dacorum	83	85	113	35	97	148	83	28
East Hertfordshire	99	—	46	76	36	97	51	84
Hertsmere	42	69	167	38	96	36	55	9
North Hertfordshire	157	34	131	25	5	7	35	20
St. Albans	—	—	—	—	—	—	—	—
Stevenage	62	63	231	16	11	90	80	42
Three Rivers	106	41	45	35	38	79	104	59
Watford	5	3	96	94	174	117	92	27
Welwyn Hatfield	185	198	126	178	76	23	34	15

Source:
New build completions from P2 quarterly returns submitted by local authorities and the National House-Building Council to CLG.

Data on numbers of new build housing starts and completions by district are published routinely on the CLG website. The latest data can be found at:

http://www.communities.gov.uk/documents/housing/xls/140921.xls

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many houses in each of the millennium villages have been built; and in what locations. [288101]

John Healey: Since the programme began in 1997, the number of houses in each millennium village and the locations in which they have been built are:

Millennium community	*Location*	*Completed homes*
Greenwich Millennium Village	Greenwich, London	1,099
New Islington	Manchester	179
Allerton Bywater	Leeds	172
Kings Lynn	Kings Lynn, Norfolk	109
Telford	Telford	53
Hastings	Hastings	0
Oakgrove	Milton Keynes	18
Total		1,630

Housing: Elderly

Robert Neill: To ask the Secretary of State for Communities and Local Government who the members are of the Housing our Ageing Population Panel for Innovation established by the Homes and Communities Agency; and what the remit of the panel is. [288290]

John Healey: The housing our ageing population panel for innovation (HAPPI) will gather good practice from across Europe and put together new and creative proposals to help inform the HCA on scope for innovative housing for older people.

The membership of this panel is:

Lord Richard Best OBE, president, Local Government Association (Chair)

Anne Ashworth, property editor, *The Times*

Roger Battersby, managing director of PRP Architects

John Belcher CBE, chief executive of Anchor Trust

Anthony Hamilton, user representative

Sir Richard MacCormac CBE, McCormac Jamieson Prichard

Aggie MacKenzie, journalist and television presenter

Peter Maxwell, head of enabling, Public Buildings, CABE

John Penton MBE, architect, member of the Council of City & Guilds

Tony Pidgley, chairman, Berkeley Homes

Anne Power MBE, CBE, professor of social policy, LSE

Judith Torrington, reader in architecture, University of Sheffield

Dru Vesty MBE, chair of HCA design and sustainability advisory group

Housing: Expenditure

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 16 June 2009, *Official Report*, column 203W, on housing: expenditure, how much his Department plans to spend on capital expenditure on housing in each of the next two years. [281524]

John Healey *[holding answer 22 June 2009]:* Capital expenditure in this instance is taken to cover grants to the private sector, contributions to registered social landlords, and expenditure on council-owned housing stock.

The total planned investment for next year (2010-11) is £4,492 million. This includes additional funding of £510 million to be invested in new affordable housing as announced in 'Building Britain's Future'. This will be made available from anticipated underspends in other departments. However this figure excludes the major repairs allowance (MRA) element of housing revenue account subsidy, because the figure will not be known until 2010. For information, MRA for the current financial year is £1,277 million.

Budgets for 2011-12 will be subject to the next spending review.

Housing: Low Incomes

Jon Cruddas: To ask the Secretary of State for Communities and Local Government how many houses provided under the National Affordable Housing Programme 2008-11 under projects with starts in London after March 2009 *(a)* there will be in each borough, *(b)* will be new build, *(c)* will be converted from privately-developed units and (d) will have (i) one, (ii) two, (iii) three and (iv) four or more bedrooms. [288075]

John Healey: The number of new build homes forecast to start on site through the National Affordable Housing Programme since March 2009 are set out in the table. These figures show the current position and more starts on site will be added as the Homes and Communities Agency allocates more funding to successful bids for grant.

Homes and Communities Agency

Conversions from completed privately developed units are not classified as starts on site by the Homes and Communities Agency.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes he expects to be sold under the HomeBuy Direct scheme. [288707]

John Healey: HomeBuy Direct is a demand led scheme. There are currently over 8,500 homes available under the scheme.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many HomeBuy Direct sales there were in each of the last three months. [288708]

John Healey: The following table shows provisional HomeBuy Direct sales figures for the last three months.

	Number
April 2009	3
May 2009	21
June 2009	194

Homes and Communities Agency

LLM Communications

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) pursuant to the answer of 22 June 2009, *Official Report*, column 651W, on LLM Communications, whether LLM Communications received payment for their services *(a)* directly from his Department, *(b)* from the Campaign for More and Better Homes or *(c)* by another method; [288255]

(2) if he will publish the remit and terms of reference given LLM Communications by the Campaign for More and Better Homes; [288765]

(3) how much funding his Department has allocated to the Campaign for More and Better Homes to date; for what purpose such funding was allocated; and which Minister approved the allocation; [288766]

(4) what role the special adviser to the Minister for Housing and Planning played in the regional campaigns by LLM Communications; [288767]

(5) which local authorities were targeted as part of the LLM Communications campaign on the benefits of housing growth. [288775]

John Healey: In 2006, the Campaign for More and Better Homes (CMBH), an independent, pre-existing cross-sector Housing Alliance, sought funding for a series of regional housing debates to help raise public awareness of the need for, and benefits of housing growth. The Department agreed and granted them £25000, CMBH commissioned LLM Communications as their PR agency to deliver these debates in 2006-07. The Department paid LLM Communications directly.

The current special adviser to the Minister for Housing and Planning was not involved and had no role in the regional housing debates delivered by CMBH.

Local Government Delivery Council

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 12 June 2009, *Official Report*, column 1061W, on the Local Government Delivery Council, if he will place in the Library a copy of the minutes of each meeting of the Delivery Council since September 2007 held by *(a)* his Department and *(b)* the Government Office Network. [288364]

Ms Rosie Winterton: No meetings of the Local Government Delivery Council have been held by my Department or by the Government Office Network.

As referred to in the earlier answer, the Council was established under the auspices of the Local Government Association (LGA). It reports to the LGA Improvement Board and the secretariat for the Council is provided by the Improvement and Development Agency (IDeA), a member organisation of the LGA Group.

Local Government: Databases

Robert Neill: To ask the Secretary of State for Communities and Local Government what datastreams which are not in the National Indicator set his Department collects from local authorities. [288328]

Ms Rosie Winterton: I refer the hon. Member to the answer given by my right hon. Friend the Member for Wentworth (John Healey) on 2 February 2009, *Official Report*, columns 965W-966W.

Local Government: Debt Collection

Ms Buck: To ask the Secretary of State for Communities and Local Government (1) on how many occasions each local authority in England *(a)* issued a court order and *(b)* authorised bailiff action in respect of debts and charges in each of the last three years; [288536]

(2) on how many occasions each local authority in England *(a)* issued a court order and *(b)* authorised bailiff action in respect of housing benefit in each of the last three years; [288539]

(3) on how many occasions each local authority in England (a) issued a court order and (b) authorised bailiff action in respect of parking charges in each of the last three years. [288540]

Mr. Malik: Communities and Local Government does not collect this information.

Local Government: Pensions

Robert Neill: To ask the Secretary of State for Communities and Local Government what steps he plans to take to reduce the cost of the Local Government Pension Scheme to the public purse. [288250]

Ms Rosie Winterton: The provisions which regulate the Local Government Pension Scheme in England and Wales provide a prudent and stable regime from within which the individual scheme administering authorities can assess and manage their costs. Triennial valuations of each scheme pension fund establish new employer contribution rates to ensure ongoing solvency. The next valuation exercise takes place on 31 March 2010 and new rates will take effect from 1 April 2011.

Monuments: Armed Conflict

Robert Neill: To ask the Secretary of State for Communities and Local Government what guidance has been issued to local authorities on protection of war memorials from redevelopment. [288286]

John Healey: General guidance on planning and the historic environment is in planning policy guidance (PPG) note 15. This highlights the need for the historic environment to be fully taken into account both in the formulation of local authorities' planning policies and in development control. It also includes specific guidance on listed building control, which is relevant for war memorials that have been listed. A consultation document on a revised planning policy statement to replace PPG 15 and PPG 16 (archaeology and planning) will be published very shortly.

National Housing and Planning Advice Unit

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent employees the National Housing and Planning Advice Unit employs; what its budget for 2009-10 is; and how much it will receive in support from his Department in 2009-10. [288480]

John Healey: The National Housing and Planning Advice Unit currently employs 12.8 full-time equivalent staff. It also has six board members who are paid for up to a maximum of 30 days per year each.

Its budget for 2009-10 is £1,433,710, which is entirely funded by Communities and Local Government.

Non-Domestic Rates

Andrew George: To ask the Secretary of State for Communities and Local Government how many businesses have claimed (a) small business rate relief, (b) mandatory relief, (c) discretionary relief, (d) rural settlement relief and (e) hardship relief in (i) St Ives constituency, (ii) Cornwall and (iii) England in each of the last five years. [288203]

Ms Rosie Winterton: Details of the number of businesses claiming business rate reliefs as at 31 December 2007 and 31 December 2008 in Penwith district council, Cornwall and England are shown in the following table.

Number of hereditaments in receipt of business rate relief as at 31 December 2007

	Penwith	Cornwall	England
Mandatory relief	509	3,075	275,159
of which:			
Rural rate relief	55	346	6,603
Empty property relief	241	1,518	186,370
Discretionary relief	206	1,432	48,767
of which:			
Rural rate relief	24	179	3,515

Number of hereditaments in receipt of business rate relief as at 31 December 2008

	Cornwall	England
Mandatory relief	3,452	236,636
of which:		
Rural rate relief	350	6,308
Empty property relief	1,671	147,923
Discretionary relief	1,618	49,909
of which:		
Rural rate relief	171	3,565

Data for 2007 and 2008 are not strictly comparable as the rules governing empty property rate relief were changed by the Ratings (Empty Properties) Act 2007 and further subsequent changes.

Data as at 31 December 2008 are in respect of authorities that would be in existence from 1 April 2009. As part of the reorganisation of the local authorities Penwith DC became part of the Cornwall unitary authority.

Data for hardship relief and small business rate relief in these years are not available.

Data are not available at a constituency level and data for earlier years were not collected.

Non-Domestic Rates: Empty Property

Lorely Burt: To ask the Secretary of State for Communities and Local Government if he will revise the £15,000 upper limit for empty property rate relief to take account of the number of businesses eligible to claim the relief at its present level. [287602]

Ms Rosie Winterton: The current upper limit of £15,000 for empty property rate relief is a temporary limit announced in the pre-Budget report 2008. At the end

of the financial year 2009-10 the threshold at which empty property rates become due will automatically revert to £2,200 under the current legislation.

All tax matters are subject to the pre-Budget report and Budget process and, as with all taxes, the Government continue to keep business rates under review.

Lorely Burt: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the number of businesses in England and Wales with a rateable value of over £15,000 in respect of which empty property rate relief has been awarded. [287039]

Ms Rosie Winterton: Details of the number of hereditaments in England with a rateable value of over £15,000 in respect of which empty property rate relief has been awarded as at 31 March 2009, are currently being collected.

Opencast Mining: Planning Permission

Mark Pritchard: To ask the Secretary of State for Communities and Local Government how many opencast mining planning applications he has *(a)* approved and *(b)* refused between July 2008 and July 2009. [287014]

John Healey: None.

Ordnance Survey: Manpower

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent employees are employed by Ordnance Survey. [288706]

Mr. Malik: There are 1,356 full-time equivalent employees employed by Ordnance Survey as at 20 July 2009.

Planning Permission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate was made of the cost of preparation of environmental impact assessments (EIAs) to those submitting planning applications *(a)* before and *(b)* after introduction of the requirement to produce EIAs. [288164]

John Healey: The most recent estimates of the cost in carrying out an environmental impact assessment were set out in the explanatory memorandum to the Town and Country Planning (Environmental Impact Assessment) (Amendment) (England) Regulations 2008 (SI No. 2093). This shows an average cost of £30,000-£50,000 per assessment, equivalent to 0.3-0.5 per cent. of the total project costs.

We do not hold information on costs before Environmental Impact Assessment Regulations first came into force on the 15 July 1988.

Robert Neill: To ask the Secretary of State for Communities and Local Government what the timetable is for legislation to allow local authorities to extend the life of planning permissions. [288299]

John Healey: The proposed timetable for implementation of this measure is set out in paragraphs 51-52 of the consultation document 'Greater flexibility for planning permissions', which is available at:

http://www.communities.gov.uk/publications/planningandbuilding/flexibilitypermissions

Bob Russell: To ask the Secretary of State for Communities and Local Government what guidance he has issued to planning authorities to take account of *(a)* travel considerations, *(b)* energy conservation and *(c)* energy production from natural resources when determining planning applications; and if he will make a statement. [288504]

John Healey: These concerns are addressed through our national series of planning policy statements and guidance; in particular through Planning Policy Statement 1 and its supplement on climate change, Planning Policy Guidance Note 13 on transport and Planning Policy Statement 22 on renewable energy. More detailed guidance is available on our website at:

www.communities.gov.uk

Property Development

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued on the definition of the *(a)* front and *(b)* back of a property for the purposes of the new permitted development rights for small household extensions and works. [288108]

John Healey: The terms 'front of a property' and 'back of a property' are not included in part 1 of schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995. The Department has not issued guidance on the interpretation of these terms. Where terms are properly capable of more than one meaning it is for local planning authorities to take a view in the first instance. Ultimately, statutory interpretation is a matter for the courts.

Regional Planning and Development

Robert Neill: To ask the Secretary of State for Communities and Local Government what effect delays in introducing regional spatial strategies will have on his Department's allocation of growth point funding to local authorities in those regions. [288325]

John Healey: The Growth Point fund was paid to all local authorities in December 2008 for the period 2009-10, with indicative amounts also announced for 2010-11, subject to variation by the Secretary of State in exceptional circumstances.

Confirmation of final allocations for 2010-11 will be made following consultation on the savings that are being made to the growth point fund in 2010-11.

The award of growth point funds is not based on whether the Regional Spatial Strategies (RSS) timetable changes.

Retail Trade: Planning Permission

Robert Neill: To ask the Secretary of State for Communities and Local Government what the timetable is for *(a)* abolition of the needs test and *(b)* publication of final planning guidance on out-of-town retail development. [288293]

John Healey: On 5 May 2009 we published a consultation draft planning policy statement 4 (PPS4): 'Planning for Prosperous Economies'. This brings together all of the Government's key planning policies relating to the economy in both urban and rural areas into one single document. This new PPS incorporates draft PPS 4: 'Planning for Sustainable Economic Development'; PPG 5: 'Simplified Planning Zones'; PPS 6: 'Planning for Town Centres'; and the economic development policies in PPS 7: 'Sustainable Development in Rural Areas'. Draft PPS4 maintains the proposal to remove the requirement to demonstrate 'need' in respect to planning applications as set out in the PPS6 proposed changes consultation document last year.

GVA Grimley has also published a 'living draft' town centres practice guidance to support the implementation of town centre policies as set out in draft PPS4, and is informally consulting upon the guidance over the PPS consultation period.

The consultation period for draft PPS4 ends on 28 July 2009 and we aim to publish the final policy before the end of this year. The practice guidance will be published alongside the final PPS.

Social Rented Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will undertake a privacy impact assessment in relation to the extension of the National Register of Social Housing. [288104]

John Healey: The National Register of Social Housing (NROSH) is a central record of each individual unit of social housing compiled from information provided by local authorities and housing associations. It does not collect personal data and does not therefore come under the auspices of the Data Protection Act.

There are no current plans to extend NROSH.

Social Rented Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government what regional targets have been set for affordable housing *(a)* starts and *(b)* completions in (i) 2009-10 and (ii) 2010-11; how many such starts and completions are expected to be for (A) intermediate low cost ownership and (B) social rent; on what date the targets were set; and what the previous regional targets had been. [287846]

John Healey: I refer the hon. Member to the answer I gave him on 8 July, *Official Report*, column 905W.

Social Rented Housing: Waiting Lists

Robert Neill: To ask the Secretary of State for Communities and Local Government (1) what assessment he has made of the likely effects of giving priority to local people on housing waiting lists on the eligibility for social housing of *(a)* New Age Travellers, *(b)* Irish Travellers and *(c)* Gypsies with no local connection to the area in which they are applying for accommodation; [288251]

(2) what assessment he has made of the likely effects of giving priority to local people on housing waiting lists on the eligibility for social housing of *(a)* migrant workers from member states of the EU prior to 2004 and *(b)* those with refugee status; [288318]

(3) what assessment he has made of the likely effects of giving priority to local people on housing waiting lists on the eligibility for social housing of non-European economic area nationals with *(a)* indefinite leave to remain and *(b)* limited leave to remain; [288319]

(4) what assessment he has made of the likely effects of giving priority to local people on housing waiting lists on the eligibility for social housing of *(a)* A8 nationals on the Worker Registration Scheme and *(b)* A2 nationals on the Worker Authorisation Scheme. [288320]

John Healey: The proposals announced in "Building Britain's Future" relate to the allocation of social housing. We have no plans to change rules on eligibility to apply for social housing.

Robert Neill: To ask the Secretary of State for Communities and Local Government (1) whether an equality impact assessment has been prepared for the proposals for giving priority to local people on housing waiting lists; [288287]

(2) what assessment has been made of the compatibility with the Human Rights Act 1998 of proposals for giving priority to local people on housing waiting lists; [288288]

(3) whether he plans to bring forward legislation to allow local authorities to give people with a local association priority on council housing waiting lists. [288330]

John Healey: As I informed the House on 7 July, we plan to bring forward before the end of the month revised guidance for local authorities on social housing allocations. Our proposals will give local authorities more flexibility to take into account local housing needs and pressures when determining their allocations policies. The guidance will be issued for consultation, accompanied by an equalities impact assessment and a statement on compatibility with the Human Rights Act.

Supporting People Programme

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many people in each client group received a Supporting People grant in each of the last three years. [288485]

John Healey: The Supporting People programme is administered at the local level by the relevant administering authority. It is for each authority to decide which services to fund; this is informed by locally identified needs and

agreed priorities within their Supporting People strategies. People who are eligible for Supporting People funding tend to use a service, rather than receive a cashable grant.

Data are collected on the amount of housing related support services available to different client groups (measured in household units). The following tables provide a snapshot of the services available at a particular point in time during each of the last three years, but does not reflect the total number of households who have accessed services during each year. Household unit information is reported to the Department on a quarterly basis, by administering authorities.

Figures for 2006 to 2009

	Frail elderly	*Generic*	*Homeless families with support needs*	*Mentally disordered offenders*	*Offenders or people at risk of offending*	*Older people with mental health problems/dementia*
2006-07 Q4	32,983	32,435	12,651	277	6,852	998
2007-08 Q4	33,092	36,582	13,101	236	7,747	1,272
2008-09 Q3	35,834	38,263	14,270	236	8,326	1,227

	Older people with support needs	*People with a physical or sensory disability*	*People with alcohol problems*	*People with drug problems*	*People with HIV aids*	*People with learning disabilities*
2006-07 Q4	808,966	12,880	3,068	4,589	654	33,100
2007-08 Q4	808,487	11,876	3,486	4,895	731	31,238
2008-09 Q3	792,168	12,098	3,233	5,435	870	30,910

	People with mental health problems	*Refugees*	*Rough sleeper*	*Single homeless with support needs*	*Teenage parents*	*Traveller*
2006-07 Q4	36,396	3,113	2,339	40,989	3,687	1,040
2007-08 Q4	37,280	2,621	2,289	39,038	3,825	1,184
2008-09 Q3[1]	36,495	2,754	2,693	39,952	3,851	1,362

	Women at risk of domestic violence	*Young people at risk*	*Young people leaving care*	*Total*
2006-07 Q4	8,660	16,596	1,905	1,064,178
2007-08 Q4	9,520	18,610	1,884	1,068,994
2008-09 Q3[1]	10,120	20,454	1,855	1,058,335

[1] Data for Q4 of 2008/09, although collected, are not yet available. The Q3 2008/09 total includes an adjustment of 4,071 relating to some minor reporting inaccuracies from a small number of authorities.

Note:

The information in the tables shows the snapshot of household units available at the end of each of the last three years, where available. Data are collected on a quarterly basis and figures can be subject to fluctuations during the year.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what percentage of the expenditure on Supporting People grants was allocated to each eligible client group in each of the last three years. [288490]

John Healey: The Supporting People programme is administered at the local level by the relevant administering authority. It is for each authority to decide which services to fund; this is informed by locally identified need and agreed priorities within their Supporting People Strategies. The following tables set out the amount spent on Supporting People services in England, by primary client group. Retrospective spend information is reported to the Department annually by administering authorities, and is provided for the last three years where complete data are available.

Spend Figures for 2005-08

	Frail Elderly	*Generic*	*Homeless Families with Support Needs*	*Mentally Disordered Offenders*	*Offenders or People at risk of Offending*	*Older people with mental health problems/dementia*	*Older people with support needs*

2008-09 spend data, although collected, are not yet available.

Sustainable Communities Act 2007

Mr. Sanders: To ask the Secretary of State for Communities and Local Government what resources his Department has provided to local authorities to make proposals under section 2 of the Sustainable Communities Act 2007. [287183]

Mr. Malik *[holding answer 20 July 2009]:* The additional costs falling on local authorities as a result of their responsibilities under section 2 of the Sustainable Communities Act 2007 were taken into account in the spending plans announced as part of the comprehensive spending review 2007. The Act provides a valuable opportunity for local authorities to make proposals which they consider, with their local communities, would contribute to promoting sustainability of local communities. In October 2008, the Secretary of State invited local authorities to submit such proposals, via the Local Government Association by 31 July 2009.

Bob Russell: To ask the Secretary of State for Communities and Local Government what provisions of the Sustainable Communities Act 2007 have been taken into account in planning guidance issued to planning authorities; and if he will make a statement. [288432]

John Healey: The Sustainable Communities Act received Royal Assent in October 2007 and its implementation is part of the drive to involve citizens and communities in making proposals that will promote the sustainability of their area, that need central Government to act to enable them to do so.

CLG has produced a plain English guide to the Act which is available on our website. In October 2008 the Secretary of State invited local authorities to submit proposals via the Local Government Association (LGA), which we have appointed as 'the selector'. Proposals must reach the LGA by 31 July 2009.

Tenancy Deposit Scheme

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what key performance indicators are used by his Department to measure the performance of the Deposit Protection Service; and if he will make a statement; [287841]

(2) if he will place in the Library a copy of the Deposit Protection Service's most recent monthly report on its performance; [287842]

(3) what rating was applied to the Deposit Protection Service in relation to each of its key performance indicators in each of the last six months. [287844]

John Healey: I refer the hon. Member to the answer I gave him on 15 July 2009, *Official Report*, columns 486-88W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the budget of the Deposit Protection Service is for *(a)* 2009-10 and *(b)* 2010-11. [287843]

John Healey: I refer the hon. Member to the answer I gave him on 15 July 2009, *Official Report*, column 488W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* landlords and *(b)* lettings agents were registered with the Deposit Protection Service in each month since the service was commenced. [287845]

John Healey: I refer the hon. Member to the answer I gave him on 15 July 2009, *Official Report*, column 488W.

Travelling People: Caravan Sites

Robert Neill: To ask the Secretary of State for Communities and Local Government whether authorised Traveller camps may be built on green belt land. [288291]

John Healey: There is a presumption against inappropriate development on green belt land. New

Traveller sites in the green belt are inappropriate development, as defined in planning policy guidance note 2: green belts. An application for inappropriate development will be acceptable in planning terms only if the benefits of the development would be greater than the harms, and if very special circumstances exist to justify a grant of permission.

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 8 June 2009, *Official Report*, column 756W, on Travelling people: caravan sites, if he will publish the figures provided for each *(a)* Government Office region and *(b)* local authority area. [288507]

Mr. Malik: Information on the number of Gypsy and Traveller caravans, provided by Government Office region and by local authority area, has already been published in the bi-annual publication of the Count of Gypsy and Traveller Caravans. Information from these publications, covering the Counts between 19 January 2000 and 19 July 2006, has been made available to the Library of the House.

Additionally, data from the last five Counts which was published on 12 May 2009, include data on the Counts since 18 January 2007. This Count is available on the website of Communities and Local Government at:

http://www.communities.gov.uk/documents/statistics/xls/1228795.xls

Tree Preservation Orders: Thundersley Common

Bob Spink: To ask the Secretary of State for Communities and Local Government how many tree protection orders have been granted for trees on Thundersley Common in the last 10 years; and if he will make a statement. [287869]

John Healey: The Department for Communities and Local Government does not hold this information, as responsibility for making and administering Tree Preservation Orders rests with the relevant local authority; in this case Castle Point borough council.

BUSINESS, INNOVATION AND SKILLS

Adult Education: Finance

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 17 March 2009, *Official Report*, column 1065W, on adult education, how much was spent on evaluating the Impact of Skills for Life Learning initiative under each budgetary heading. [287781]

Kevin Brennan: The Department and its predecessor has spent, in total to date, £1,853,097 on the evaluation of the "Impact of Skills for Life Learning" initiative.

This evaluation has been split over two contracts. The following table shows the total payments by operation year made to each contractor.

Breakdown of total payments by operational year to contractors for research into the "Impact of Skills for Life Learning"

Contractor	*Contract*		*Amount paid (£)*
BMRB International Ltd.	1	2002/03	904,728
		2003/04	306,745
		2004/05	288,624
		2005/06	55,000
Sub total			1,555,097
National Institute of Economic and Social Research	2	2006/07	258,000
		2007/08	40,000
Sub total			298,000
Grand total			1,853,097

Adult Education: Suffolk

Mr. Spring: To ask the Minister of State, Department for Business, Innovation and Skills how many adults have *(a)* enrolled in adult and community learning programmes and *(b)* participated in further education in Suffolk in each year since 1997. [286263]

Kevin Brennan: The table shows the number of LSC funded adult learners participating in adult and community learning (ACL) and participating in further education provision in Suffolk, from 2002/03 to 2007/08. Information prior to 2002/03 is not available on a consistent basis. ACL providers were not required to return data to the Learning and Skills Council (LSC) prior to 2003/04—therefore ACL data for 2002/03 are not available.

Adult participation in ACL and FE provision in Suffolk local authority, 2002/03 to 2007/08

	Adult and community learning	*Further education provision*
2002/03	n/a	31,500
2003/04	15,200	32,500
2004/05	14,000	29,500
2005/06	12,900	24,000
2006/07	8,500	16,800
2007/08	9,000	17,100

Notes:
1. Area is based on home postcode of learner.
2. Figures for local authority have been rounded to the nearest hundred.
3. FE provision includes general further education colleges including tertiary, sixth form colleges, special college—agricultural and horticultural colleges and art and Design colleges, specialist colleges and external institutions.

Source:
ACL and FE ILR

Over the past few years we have focused public funding away from a high number of short, and poor quality courses towards longer and more valuable courses providing adults with the skills for employment and further progression in learning. This resulted in the reduction in the overall number of LSC funded adult learners between 2004/05 and 2006/07, but has led to significant increases in Skills for Life literacy and numeracy and full level 2 qualification achievements.

Adult Learning Grant

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills how many people in each age group received an adult learning grant in the latest year for which figures are available. [287526]

Kevin Brennan: The Learning and Skills Council (LSC) for England administers the adult learning grant (ALG) nationally on behalf of the Department for Business, Innovation and Skills. The ALG is specifically aimed at economically active adults who do not have at least a level 2 qualification but are working. Cost can often be a barrier to learning for those on low incomes and ALG is designed to help meet those additional costs.

To date in 2008/09 29,794 individuals have received an ALG payment. This can be broken down into the following age ranges:

Age range	*ALGs awarded and paid*
19-25	25,417
26-30	1,550
31+	2,827
Total	29,794

Advantage West Midlands: Finance

Bill Wiggin: To ask the Minister of State, Department for Business, Innovation and Skills what funding his Department allocated to Advantage West Midlands in each of the last five years; and what funding his Department will provide to Advantage West Midlands in each future year for which provision has been made. [288037]

Ms Rosie Winterton: The budget allocations made to Advantage West Midlands (AWM) in the last five years are shown in the following table.

	Budget allocations (£ million)
2008-09	296
2007-08	297
2006-07	290
2005-06	289
2004-05	237

AWM's budget allocation for 2[illegible]95 million, and they have indicative allocations for 2010-11 of £212 million.

Apprentices

Mr. Dai Davies: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department plans to take to increase the number of apprenticeships. [279349]

Kevin Brennan: We are taking a wide range of steps to encourage more people to take up apprenticeships and to encourage more employers to offer high quality places. Government are already committed to increasing spending on apprentices in 2009-10 to over £1 billion. At a time of economic downturn it is vital that we continue to invest in people and their skills. Earlier this year, the Prime Minister announced a £140 million package for 35,000 additional apprenticeship places, of which at least 21,000 will be in the public sector.

In May we announced an £11 million investment to provide 3,000 additional apprenticeship places for young people. This new approach will see large employers expanding existing apprenticeship programmes and allow small businesses to benefit from the expertise of companies which have been training apprentices for some time. We also announced a £7 million fund for up to 10 new apprenticeship training agencies this year, with the potential to deliver up to 15,000 apprenticeship places per year by 2014-15. The funding will also be available to help develop and expand new or existing group training associations, which can help attract new and hard to reach employers and new individuals to become apprentices.

We have now established the new national apprenticeship service to provide a single point of contact for employers and apprentices. A key part of this service is the new online system for apprenticeship vacancy matching, which is already proving successful in bringing together employers and prospective apprentices.

We are also putting in place procedures to use the public procurement process to encourage companies, including small and medium-sized enterprises, with access to Government-funded contracts to offer apprenticeships. The Department for Innovation, Universities and Skills and the Office of Government Commerce jointly published new guidance in April this year (promoting skills through public procurement) on how to embed skills and training in procurements.

We want apprenticeships to be a mainstream option for young people and are taking forward a range of measures, as part of our 16-18 apprenticeships action plan, to increase the number of apprenticeships available for 16-18 year-olds. The Children, Skills and Learning Bill, includes provisions to ensure that an apprenticeship place is available for all suitably qualified young people by 2013.

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how much he expects his Department to spend on level four apprenticeships in each of the next five years. [286796]

Kevin Brennan: The budget for apprenticeships is not separated according to the level of the framework undertaken. The total budget available for apprenticeships for 2009-10 is £1,098 million.

The budget for 2010-11 has not yet been agreed but will be published towards the end of this calendar year, and budgets for the following years will be agreed in line with our commitment to ensure that an apprenticeship place is available for all qualified young people by 2013. Over time, as we encourage the development of more level four apprenticeship frameworks, we would expect that more people will progress from level three apprenticeships to develop these higher level skills.

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many level four apprenticeships have been *(a)* started and *(b)* completed in each year since 2001. [286797]

Kevin Brennan: The first level four apprenticeship starts were in 2006-07, when these higher level frameworks were introduced. In 2006-07, there were 90 level four apprenticeship starts, with 60 in 2007-08, the latest full year for which we have data. Due to the length of these programmes, as of 2007-08, there are no recorded completions of level four apprenticeships.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged between 16 and 24 years started an apprenticeship in each region in the period *(a)* September 2007 to July 2008 and *(b)* September 2008 to July 2009. [287751]

Kevin Brennan: Table 1 shows the number of apprenticeship starts for 16 to 24-year-olds, by region. Data are shown for the 2007/08 academic year (1 August to 31 July), and the first nine months of the 2008/09 year (1 August to 30 April). Apprenticeship starts for the whole of the 2008/09 academic year are due to be published later in 2009 in a statistical first release (SFR)—the next post-16 education and skills SFR is due to be published in October 2009.

Table 1: Apprenticeship starts, 16 to 24-year-olds

Government office region	*2007/08 (1 August to 31 July)*	*2008/09 (1 August to 30 April), part-year, provisional*
East Midlands	19,300	14,200
East of England	18,800	13,100
London	12,100	9,700
North East	13,700	10,300
North West	32,800	23,700
South East	28,100	21,700
South West	22,400	17,800
West Midlands	21,600	16,900
Yorkshire and the Humber	25,800	20,300
Other	2,900	2,300
Grand total	197,600	149,900

Notes:
1. Data have been rounded to the nearest hundred, and may not sum to totals due to rounding.
2. Region is based on learner's home postcode.
3. 'Other' includes unknown postcodes, and those outside of England.
4. The data shown include a small number of learners below 16 years of age.
5. Age is calculated based on age at start of the programme.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people went on to higher education after completing an apprenticeship in each year since 1997. [287752]

Kevin Brennan: Information on the destinations of apprenticeships is not routinely collected in administrative data.

However, there are other sources of information which give an indication of the progression of apprenticeship completers to higher education. One such source is a report published by the Higher Education Funding Council for England in May 2009, "Pathways to Higher Education":

http://www.hefce.ac.uk/pubs/hefce/2009/09_17/.

The report states that 5 per cent. of those who completed an apprenticeship in 2002/03 had progressed to some form of higher education by 2006/07 (or by 2005/06 for those progressing to work-based HE).

A greater proportion of apprentices who completed an advanced (level 3) programme progressed to HE: 6 per cent. compared to 4 per cent. of those who completed a level 2 apprenticeship.

The analysis excluded a minority of apprenticeship completers, who are discussed in the report.

We do want to see much greater progression from apprenticeships into higher education. That is why in World Class Apprenticeships the Government set out their commitment to apprenticeships being a route to higher education where desired, and we have recently consulted on our proposal that all advanced apprenticeships should be accredited with UCAS tariff points.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged *(a)* between 16 and 24 years and *(b)* 25 years and over stopped claiming jobseeker's allowance in order to start an apprenticeship in each year since 1997. [287753]

Kevin Brennan: My Department, the Department for Work and Pensions and Jobcentre Plus do not currently hold data on the number of jobseeker's allowance claimants leaving the benefit to start an apprenticeship.

At present, DWP do not hold information regarding specific training destinations of jobseeker's allowance leavers. The Integrated Employment and Skills Programme Unit is currently working to link data sets held by DWP and BIS which will allow us to identify the specific training destinations of jobseeker's allowance claimants in the future.

The Integrated Employment and Skills Service is being developed jointly by DWP and BIS to implement the Government's response to the Leitch Review. The new integrated system will allow everyone to easily access information, advice and guidance to help them progress in their careers and be flexible and responsive to the different demands of individuals and employers.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged between 16 and 24 years started an apprenticeship in *(a)* construction, *(b)* manufacturing, *(c)* health and beauty, *(d)* engineering, electrician and building services and *(e)* other sectors in the period (i) September 2007 to July 2008 and (ii) September 2008 to July 2009. [287754]

Kevin Brennan: Tables 1 and 2 show the number of apprenticeship starts for 16 to 24-year-olds by all frameworks for the 2007/08 academic year (1 August to 31 July), and the first nine months of the 2008/09 year (1 August to 30 April), respectively. Apprenticeship starts for the whole of the 2008/09 academic year are due to be published later in 2009 in a statistical first release (SFR)—the next post-16 education and skills SFR is due to be published in October 2009.

Copies of these tables have been provided and the relevant data will be placed in the Library.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of apprentices were unemployed 12 months after completing their apprenticeship in each year since 1997. [287755]

Kevin Brennan: An apprenticeship is a work-based programme and an apprentice must have a job or a work placement as a condition of completing their apprenticeship framework. Many will already be in permanent employment prior to the end of their apprenticeship.

Information on the destination of apprentices upon completion of their apprenticeship is not readily available. This type of information will in future be collected using the Framework for Excellence learner destination survey with the first results for all further education colleges and work based learning providers available later in 2009. The survey will be conducted nine months after the end of the academic year and so will not relate exactly to 12 months after the completion of the apprenticeship.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 25 June 2009, *Official Report*, column 1124W, on apprentices, what the most recent figures are for the number of apprenticeship vacancies *(a)* advertised and *(b)* filled through the National Apprenticeship Service online vacancy matching system. [287784]

Kevin Brennan: At the end of June 2009, 4,372 vacancies were live on the National Apprenticeship Service online vacancy matching system. A total of 17,588 vacancies have been posted since 12 January 2009 when the system went live. There have been 616 confirmed cases of successful offers made as a result of the service, and a further 2,508 vacancies have current applications.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 13 July 2009, *Official Report*, column 182W, on apprentices, whether all existing learners who have started their training since 1 April 2009 on *(a)* apprenticeship programmes and *(b)* Train to Gain courses funded by the Learning and Skills Council will be funded to complete their existing training at the agreed rates. [287785]

Kevin Brennan: The Learning and Skills Council (LSC) is responsible for agreeing with each provider the scope for continued recruitment for 2008/09 academic year on apprenticeship programmes and Train to Gain courses.

Where learners start within the 2008/09 academic year the funding rates will continue at the same level for the remainder of the academic year.

For the 2009/10 academic year, funding rates in respect of apprenticeship programmes (for those aged 19 or over) and Train to Gain courses will increase by 1.5 per cent. compared with 2008/09 academic year. The exception to this is the funding rate for learners aged 25 or over starting an apprenticeship programme in 2009/10 academic year. For these learners the funding rate will be 90 per cent. of the uplifted rate.

Apprentices: Greater London

Ms Buck: To ask the Minister of State, Department for Business, Innovation and Skills how many apprenticeships were *(a)* started and *(b)* completed in each London local authority area in (i) 1997 and (ii) 2007-08. [276212]

Kevin Brennan: Tables 1 and 2 show the number of apprenticeship starts and completions in each London local authority from 2003/04, the earliest year for which we have comparable data.

Table 1: Apprenticeship starts

Region	Local authority	2003/04	2004/05	2005/06	2006/07	2007/08
Inner London	Camden	100	200	100	200	200

WBL ILR

The Government are committed to rebuilding apprenticeships. Since 1997 we have witnessed a renaissance in apprenticeships from a low point of 65,000 to a record 225,000 apprenticeship starts in 2007/08. Completion rates are also at a record high with 64 per cent. successfully completing an apprenticeship—up from 37 per cent. in 2004/05.

Apprentices: Public Sector

Mr. Kemp: To ask the Minister of State, Department for Business, Innovation and Skills how many public sector apprenticeships have been started in *(a)* Sunderland and *(b)* England since 2005. [289158]

Kevin Brennan: We do not hold centrally data on the number of apprentices employed within the public sector. The Government are committed to developing and expanding apprenticeships in the public sector and earlier this year Cabinet colleagues announced plans for the expansion of the apprenticeship scheme across the public sector. We announced a £140 million package to deliver 35,000 extra places this year, of which, 21,000 would be in the public sector.

From 1 August 2009, a key employer field in individual learner records (ILR) will be compulsory for the first time. This will allow us to estimate the number of public sector apprentices more accurately.

Apprentices: Redundancy

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills what information his Department holds on the number of apprenticeships interrupted by redundancy in the last 12 month period for which figures are available. [289140]

Kevin Brennan: We do not currently hold data centrally about the total number of apprentices made redundant. Working with Construction Skills and the National Apprenticeship Service we have established a matching service to help apprentices in the construction sector at risk of redundancy to find alternative employment and to complete their apprenticeship. We do have some information on redundancies in the construction sector where 665 redundant apprentices have been subsequently re-employed. We are continuing to help 775 redundant apprentices in the construction sector.

Apprenticeships, Skills, Children and Learning Bill

John Pearce: To ask the Minister of State, Department for Business, Innovation and Skills what evidence was provided to the Better Regulation Executive by his Department in relation to the statement that, "Costs to existing recognised Awarding Bodies are expected to be neutral, on average", in the Impact Assessment of the Apprenticeships, Skills, Children and Learning Bill relating to the creation of the awarding body regulator, Ofqual and the QCDA. [285301]

Ian Lucas: The impact assessment which accompanied the Apprenticeships, Skills, Children and Learning Bill was prepared and published by the Department for Children, Schools and Families. The forecast benefits, set-up and steady state costs associated with this regulation are set out in that impact assessment. These are based are a range of cost and break-even scenarios.

British Telecom

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills on what dates members of BT's board have met *(a)* Ministers and *(b)* officials in his Department in the last six months. [285869]

Mr. McFadden *[holding answer 8 July 2009]:* In the last six months, members of BT's board have had five meetings with Ministers, and a further six meetings with BIS officials only. The dates for these meetings are:

(a) Ministers

23 January
26 February
9 March

14 April
1 July
(b) Officials only
21 January
11 February
17 February
25 March
11 May
6 July

Members of BT's board will also have been present at a number of wider meetings attended by Ministers and officials.

Broadband

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of jobs to be created through *(a)* the roll-out of universal broadband access to 2012 and *(b)* the roll-out of next generation broadband services. [282638]

Mr. McFadden: This Department has not made any estimates of the number of jobs to be created through *(a)* the roll-out of universal broadband access to 2012 and *(b)* the roll-out of next generation. However, a recent report by the Information, Technology and Innovation Foundation suggested that a nominal £5 billion investment in broadband networks infrastructure would generate 280,000 jobs.

Broadband: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department and its predecessors have taken to ensure competition among high-speed broadband providers in Essex in the last three years. [279335]

Mr. McFadden: My Department has made no steps to ensure competitiveness among high speed broadband providers specifically in Essex. However, through Ofcom, the government has ensured that the majority of consumers across the country benefit from competition in the broadband market by ensuring wholesale access to the BT Openreach network, and the local loop unbundling of BT exchange.

Broadband: Finance

Mr. Fabian Hamilton: To ask the Minister of State, Department for Business, Innovation and Skills what funding his Department has allocated to facilitate universal provision of high-speed broadband in 2009-10; and from which budget. [281196]

Mr. McFadden: The Digital Britain Report set out our plans for a Universal Service Commitment in relation to broadband. This will ensure virtually every household will be able to access a broadband line capable of delivering at least two megabits per second. This will be funded, by approximately £200 million, drawn from a combination of the emerging under spend on the Digital Switchover Help Scheme (from the TV licence fee) and the £750 million BIS Strategic Investment Fund announced in the recent Budget to support advanced industrial projects of strategic importance. The finer details of how funding for this will be done year on year to 2012 are yet to be determined.

The Digital Britain Report also proposed that a Next Generation Fund should be created to encourage investment in high speed broadband in those parts of the UK where commercial investment will not reach. This would come from a small supplement of 50 pence per month on fixed telephone lines, which represents a fair and sensible national investment to ensure that the overwhelming majority of the country can get access to next generation, high speed, broadband.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills if he will exempt *(a)* elderly people and *(b)* vulnerable groups from liability for payment of the Next Generation Fund supplement; and if he will make a statement. [285226]

Mr. McFadden *[holding answer 9 July 2009]:* Under existing rules any individual in receipt of income support, income-based jobseeker's allowance, pensions credit (guaranteed credit) or employment and support allowance (income related) is entitled to social telephony. As set out in the Digital Britain White Paper published on 16 June 2009 the Government do not wish to see a widening digital divide. Therefore the Government expect that individuals who are in receipt of social telephony packages would also be exempt from the broadband levy to fund the deployment of next generation networks.

Broadband: Kent

Mr. Fallon: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking in conjunction with BT to upgrade the BT broadband service in the Chartwell and Pootings area of West Kent. [286782]

Mr. McFadden: I am not in a position to comment on BT's commercial plans. In the Budget on 22 April we confirmed the Government's commitment to delivering a Universal Service for broadband at a speed of 2 megabits per second, by no later than 2012. In the Digital Britain White Paper, published on 16 June, we set out our plan of how this Universal Service Commitment will be achieved.

Broadband: Merseyside

Mrs. Curtis-Thomas: To ask the Minister of State, Department for Business, Innovation and Skills how many households in *(a)* Crosby and *(b)* Merseyside had access to high-speed broadband services in each year since 1997. [278908]

Mr. McFadden: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Mrs. Curtis-Thomas: To ask the Minister of State, Department for Business, Innovation and Skills how much funding his Department has allocated for expansion of high-speed broadband usage in *(a)* Crosby and *(b)* Merseyside since 1997. [278909]

Mr. McFadden: This Department has not allocated central funding for expansion of high-speed broadband usage in *(a)* Crosby and *(b)* Merseyside since 1997.

As my hon. Friend may already be aware, in the Budget on 22 April the Chancellor confirmed the Government's commitment to delivering a universal service for broadband at a speed of 2 megabits per second, by no later than 2012. In the recently published Digital Britain report, we have set out in greater detail our plan of how the universal service commitment might work.

Broadband: Rural Areas

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills what range of broadband speeds the Universal Service Commitment will deliver to rural areas by 2012. [287418]

Mr. McFadden: The Digital Britain Report, published on 16 June outlined a minimum broadband speed of 2 megabits per second for virtually everyone by 2012 under the Government's Universal Service Commitment (USC). Greater speeds may be achieved depending on the technology used to meet the USC and the Report estimated that approximately 1.5 million households may benefit from Next Generation broadband speeds as a result.

Building Schools for the Future Programme

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what discussions the Secretary of State has had with the Secretary of State for Children, Schools and Families on the transfer of some sixth form college capital projects to the Building Schools for the Future programme. [288466]

Kevin Brennan: The Government's intention to bring sixth form colleges within the scope of Building Schools for the Future programme was announced in the White Paper Raising Expectations: enabling the system to deliver (Cm7348), which was published in March 2008. That was a joint publication by the Secretaries of State for Children, Schools and Families and Innovation, Universities and Skills. The DCSF continues to work closely with the Department for Business, Innovation and Skills on matters involving capital investment. It remains our position that we will bring sixth form colleges within the scope of the BSF programme and we will make the details clear as soon as we are able.

Business: Advisory Services

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made in providing face-to-face advisory sessions on business advice open days as referred to in the Government's response to the Anderson Review of Good Guidance. [274367]

Ian Lucas: BIS, Her Majesty's Revenue and Customs, ACAS and the Health and Safety Executive have established a working group to take forward recommendations on improvements to HMRC's Business Advice Open Days (to be rolled out from autumn 2009). In the interim, the Better Regulation Executive are represented at the five Business Advice Open Days over the summer and will provide information on employment law guidance with the participation of BIS colleagues where possible.

Business: Credit

Mr. Touhig: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of levels of access to credit for small businesses. [279261]

Ms Rosie Winterton: BIS makes regular assessments on the availability of credit to small businesses by monitoring statistics produced by the British Bankers Association (BBA) and the Bank of England, as well as monitoring findings from a large number of regular surveys by business representative bodies. In addition, BIS collects data monthly from the five main banks on their lending activity to small and medium-sized enterprises. BIS also carries out regular surveys of businesses examining a wide range of issues including access to finance.

From these data sources, it is apparent that the stock of bank lending has increased compared to 2007 and 2008. For instance, the BBA has reported that the stock of bank lending to SMEs has increased in the first five months of 2009 and was about 4 per cent. higher in May 2009 than a year ago. However, there has been a decline in new bank lending to SMEs. This is due to a reduction in the demand for finance with declining loans and overdraft applications, as well as a decline in approval rates reflecting tighter credit conditions.

Approval rates (approvals of new borrowing as a ratio to applications) have fallen compared to the corresponding months in 2007. Likewise, the BIS SME Barometer shows that although the majority of SMEs can obtain the finance they need, there has been a reduction in the proportion of businesses being able to raise finance. In February 2009, 60 per cent. of SME employers obtained some finance from the first source they approached. In comparison, the Annual Small Business Survey 2007-08 shows 84 per cent. of SME employers obtained some finance from the first source approached. Banks attribute the fall in approval rates to a decline in the quality of applications as well as a tightening in credit availability.

There has been a reduction in the demand for finance, as measured by the number of loans and overdrafts applications compared to corresponding months in 2007. This is especially pronounced for SMEs with turnover of less than £1 million. It is likely that businesses have become more cautious and are delaying capital investment.

Although access to finance is vital for supporting businesses during the current difficult economic conditions, only a minority of businesses seek finance. The Business Barometer shows 21 per cent. of SME employers sought finance in the last six months. Furthermore, the majority of SMEs (39 per cent.) report the economy as the main barrier to the success of the business, compared to only 4 per cent. who report access to finance as the main barrier.

Business: EC Law

Philip Davies: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment his Department has made of the cost to UK businesses of the implementation of EU regulations. [287808]

Ian Lucas: It is very difficult to provide precise figures for the cost to UK businesses of the implementation of legislation that stems from the European Union.

The administrative burdens measurement exercise carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately 1/3 of the annual total of £13.2 billion.

Business: Enfield

Joan Ryan: To ask the Minister of State, Department for Business, Innovation and Skills how many loans have been granted under the Small Business Loan Guarantee Scheme to small and medium-sized businesses in *(a)* the London Borough of Enfield and *(b)* Enfield North constituency since the establishment of the scheme. [282574]

Ms Rosie Winterton: The Enterprise Finance Guarantee was launched on 14 January. Information for the London borough of Enfield and Enfield North is as follows:

London borough of Enfield

	Number
Loans offered	14
Loans drawn	9
	Value (£ million)
Loans offered	1.37
Loans drawn	0.66

Enfield North

	Number
Loans offered	5
Loans drawn	3
	Value (£ million)
Loans offered	0.87
Loans drawn	0.32

Business: Government Assistance

Anne Main: To ask the Minister of State, Department for Business, Innovation and Skills (1) how much lending has been guaranteed under the Enterprise Finance Guarantee Scheme; [260553]

(2) how many businesses have received assistance under the Enterprise Finance Guarantee Scheme. [260554]

Ms Rosie Winterton: Since its launch on 14 January the Enterprise Finance Guarantee has over £596 million of eligible applications from 5,305 firms that have been granted, are being processed or assessed. 3,867 businesses have been offered loans totalling £381.23 million.

Mr. Heban: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the implications for lenders under the Enterprise Finance Guarantee Scheme of the default rate exceeding 13 per cent. of the whole amount guaranteed. [267153]

Ms Rosie Winterton: To date, there is no evidence to suggest that lenders are being inhibited in their use of the Enterprise Finance Guarantee because of the cap of 13 per cent., which is a requirement of EU state aid rules. It is important to remember that the Enterprise Finance Guarantee is aimed at helping banks lend to fundamentally viable businesses. We therefore do not expect an overall portfolio default rate of 13 per cent. to restrict the ability of banks to lend appropriately under the guarantee.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many loans have been granted under the Small Business Loan Guarantee Scheme to small and medium-sized businesses in *(a)* Essex and *(b)* Castle Point since the inception of that scheme. [282071]

Ms Rosie Winterton: As follows are the numbers and value of loans secured under the enterprise finance guarantee for Essex and Castle Point since it was launched on 14 January 2009:

	Essex	*Castle Point*
Number of loans offered	126	10
Value of loans offered (£ million)	11.4	1.06
Number of loans drawn	87	6
Value of loans drawn (£ million)	8.74	0.9

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what further assistance he plans to provide to *(a)* small businesses, *(b)* medium-sized businesses and *(c)* large businesses in Essex in the next 12 months; what recent discussions he has had with ministerial colleagues on this issue; and if he will make a statement. [282247]

Ms Rosie Winterton: The East of England Development Agency's business support services, which operate at a regional level, are all available to businesses in Essex. All business support is accessible through Business Link East. EEDA's Business Map,

www.bizmapeast.co.uk

is designed to help businesses navigate the network of publicly funded business support.

Key business support services that will assist businesses in the region during the next 12 months are as follows:

The EEDA-funded regional Business Link service provides access to a comprehensive range of independent, impartial advice to would-be entrepreneurs, start-ups and businesses across the region. Within Essex, Business Link have three Partnership Directors overseeing activity specifically dedicated to supporting Essex businesses.

EEDA along with UK Trade and Investment funds East of England International (EEI) to offer an international trade and inward investment service, which provides the support to local businesses to grow internationally or export and to overseas-owned companies locating in the region

EEDA's own specialist business support services include:

Take IToo - assisting businesses to improve use of IT, focused on helping small and medium-sized enterprises save costs through IT.

Manufacturing Advisory Service East (MAS-East) – assisting businesses to introduce new manufacturing, innovation and design tools.

Enterprising Women - specialist business support for women entrepreneurs.

Inspiring Women - supporting economically inactive women to find employment or consider self-employment.

Business Finance - EEDA manages a number of business finance schemes designed to help businesses in the region start up and grow, e.g.:

Proof of Concept - grants up to £20,000 to define and quantify the market opportunity for a business

Grants for Research and Development - grants from £5,000 to £250,000 to help businesses carry out research and development work

Grant for Business Investment - grants from £10,000 to £2 million to establish, expand, diversify and modernise your business.

Small Loans for Business - loans of £500 to £50,000 for start-ups, SMEs and social enterprises

EEDA Regional Loan (Transition) - short-term loans of £100,000 to £150,000 for businesses turning over more than £1 million

EEDA Regional Loan (Growth) - long-term loans of £50,000 to £200,000 for growth businesses.

Innovation Vouchers - designed to help businesses purchase academic expertise from the region's universities to support innovation and business improvement.

Understanding Finance for Business - a training course to help to make SME businesses investment-ready and be signposted to relevant sources of funding

Beyond 2010 - in the next 12 months, EEDA will fund a £6.2 million project to work alongside Train to Gain to ensure that businesses can get the skills training that they need. This includes £2.2 million to support a regional Response to Redundancy programme which provides advice, guidance and re-training opportunities to individuals facing redundancy. The programme is linked to the Jobcentre Plus Rapid Response Service.

Resource Efficiency East - This scheme helps businesses to improve their competitiveness by using resources more efficiently. The project aims to save the region's SMEs £12m a year, and cut water consumption by 765,000 cubic metres, landfill by 81,000 tonnes and carbon dioxide emissions by 40,000 tonnes.

At an national level, there are also:

the Enterprise Finance Guarantee is a temporary loan guarantee scheme which enables bank lending to SMEs with a turnover of up to £25 million. The Government have set aside £1.3 billion to guarantee banks loans to SMEs who have been deemed viable but have little or no security. It is due to end in March 2010 and an announcement about what will replace EFG will be made in due course

the Capital for Enterprise Fund is a £75 million equity scheme. Decisions on investments are made by the appointed fund managers and are based on the merits of the proposal and the outcome of the resulting due diligence, and not on the location of the business.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in Castle Point have *(a)* applied for and *(b)* received assistance from the (i) Enterprise Finance Guarantee Scheme and (ii) Capital for Enterprise Fund in 2009; and how much has been provided to businesses in Castle Point under each scheme. [283964]

Ms Rosie Winterton: The number and value of loans offered and drawn under the enterprise finance guarantee for Castle Point since it was launched on 14 January 2009:

	Enterprise finance guarantee
Number of loans offered	10
Value of loans offered (£ million)	1.06

	Enterprise finance guarantee
Number of loans drawn	6
Value of loans drawn (£ million)	0.90

The Department only records information on a regional basis for the capital for enterprise fund and the information for the south-east is as follows:

	South-east
Number of loans under consideration	11
Value of loans under consideration	18.3
Number of loans offered	2
Value of loans offered	3.2
Number of offer terms agreed	1
Value of offer terms agreed	2

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps his Department has taken to assist *(a)* small, *(b)* medium-sized and *(c)* large businesses in Hemel Hempstead; and if he will make a statement. [283675]

Ms Rosie Winterton: Business Link, which is funded by East of England Development Agency (EEDA), provides access to independent and impartial business advice. Business Link engaged with 1,439 companies in Hemel Hempstead (parliamentary constituency) during 2008-09 out of 19,460 for the county of Hertfordshire.

EEDA delivers a range of specialist business support services across the East of England accessible through Business Link East. All these services are available to businesses in Hemel Hempstead:

EEDA along with UK Trade and Investment funds East of England International (EEI) to offer an international trade and inward investment service for businesses in the region.

EEDA's Take ITon campaign assists businesses to improve use of IT, focused on helping small and medium-sized enterprises save costs through IT.

Assistance for businesses to introduce new manufacturing, innovation and design tools through Manufacturing Advisory Service East (MAS-East).

EEDA's specialist business support for women entrepreneurs, Enterprising Women, offers networking opportunities, a bank of mentors, promotional opportunities and a network of women ambassadors.

Support for economically inactive women; Inspiring Women assists them to find employment or consider self-employment as a career option.

EEDA manages a number of business finance schemes designed to help businesses in the region start up and grow. These include grants for Proof of Concept and Research and Developments, small loans for start-ups, SMEs and social enterprises as well as short and long-term larger loans.

EEDA's understanding finance for business programme to help businesses understand and access the most appropriate form of finance for your business.

Resource Efficiency East scheme helps businesses to improve their competitiveness by using resources more efficiently.

At a national level there is:

the Enterprise Finance Guarantee (EFG) which is a temporary loan guarantee scheme launched on 14 January 2009. Under the EFG, Government will support up to £1.3 billion of bank loans to companies with a turnover of up to £25 million for working capital and investment. These will be smaller, viable,

creditworthy firms that are struggling to access the finance they need because of the additional risk created by the downturn. EFG is due to end in March 2010 and an announcement about what will replace EFG will be made in due course.

The Department records information on the Capital for Enterprise Fund on a regional basis, including the East of England. As of 7 July, the appointed fund managers report 44 formal inquiries from businesses in the East of England. Of which, one offer of investment totalling £2 million has been issued thus far.

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in Hemel Hempstead have *(a)* applied for and *(b)* received assistance from the (i) Enterprise Finance Guarantee Scheme and (ii) Capital for Enterprise Fund in 2009; and how much funding has been provided to businesses in Hemel Hempstead under each such scheme in 2009. [283676]

Ms Rosie Winterton: The information requested in respect of the Enterprise Finance Guarantee for Hemel Hempstead since it was launched on 14 January 2009 is as follows:

	Enterprise Finance Guarantee
Number of loans offered	8
Value of loans offered (£ million)	0.38
Number of loans drawn	5
Value of loans drawn (£ million)	0.24

The Department only records information on a regional basis for the Capital for Enterprise Fund and the information for the East region is as follows:

	Enterprise fund
Number of loans under consideration	1
Value of loans under consideration (£ million)	1
Number of loans offered	1
Value of loans offered (£ million)	2
Number of offer terms agreed	0
Value of offer terms agreed (£ million)	0

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in *(a)* Hemel Hempstead and *(b)* Hertfordshire (i) have sought access to funding under and (ii) are receiving assistance from the Enterprise Finance Guarantee Scheme. [284561]

Ms Rosie Winterton: Set out in the following tables is the information for the Enterprise Finance Guarantee for Hemel Hempstead and Hertfordshire since it was launched on 14 January 2009:

	Hemel Hempstead
Number of loans offered	8
Value of loans offered (£ million)	0.38
Number of loans drawn	5
Value of loans drawn (£ million)	0.24

	Hertfordshire
Number of loans offered	110
Value of loans offered (£ million)	10
Number of loans drawn	78
Value of loans drawn (£ million)	7.09

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills how much had been lent through the Enterprise Finance Guarantee Scheme up to 3 July 2009; and how many companies had received loans under that scheme. [286232]

Ms Rosie Winterton: Since its launch on 14 January the Enterprise Finance Guarantee has over £596 million of eligible applications from 5,305 firms that have been granted, are being processed or assessed. 3,867 businesses have been offered loans totalling £381.23 million.

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills how much in loans guarantees have been *(a)* applied for and *(b)* provided under the Enterprise Finance Guarantee Scheme. [287109]

Ms Rosie Winterton: Since its launch on 14 January the Enterprise Finance Guarantee has over £596 million of eligible applications from 5,305 firms that have been granted, are being processed or assessed. 3,867 businesses have been offered loans totalling £381.23 million.

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 13 July 2009, *Official Report*, columns 189-90W, on business: Government assistance, whether the UK Innovation Investment Fund's Fund of Funds will invest monetary in unquoted companies. [288219]

Mr. Lammy: The UK Innovation Investment Fund will invest in a small number of specialist technology funds. These underlying funds will invest in strategically-important companies in life sciences, clean technologies, digital and advanced manufacturing. Investments in individual companies will ultimately be a commercial decision for the Fund Manager based on the investment opportunity, the potential risk and the current investment portfolio. These companies may be quoted or unquoted.

Business: Greater Manchester

Andrew Gwynne: To ask the Minister of State, Department for Business, Innovation and Skills what business support measures his Department provides for small and medium-sized businesses in Denton and Reddish. [277498]

Ms Rosie Winterton: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Warrington, South (Helen Southworth) on 20 July 2009, *Official Report*, column 1103W.

Business: Public Sector

Margaret Moran: To ask the Minister of State, Department for Business, Innovation and Skills (1) what assistance his Department plans to give to micro-businesses to compete for *(a)* Government and *(b)* local government contracts; [288852]

(2) what steps he plans to take to assist small and medium-sized enterprises to work together to obtain public sector contracts. [288853]

Ian Pearson: I have been asked to reply.

The Government are committed to making it easier for small and medium sized enterprises (SMEs), including micro-businesses, to compete in public procurement.

To that end, the Government are working to deliver the recommendations in the Glover committee report 'Accelerating the SME Economic Engine'.

The Committee's Report can be found at:

http://www.ogc.gov.uk/documents/Accelerating_the_SME_Economic_Engine.pdf

One of the recommendations is that public procurers should, during the advertising process, flag opportunities thought especially suitable for SMEs or consortia of SMEs. The Office of Government Commerce will shortly issue departments with guidance to help them do this. OGC is also working to develop training for Government procurers in SME-friendly practices, including early engagement with businesses to help them understand public sector needs and enable business to come together to form consortia for future bids.

Business: Wales

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills how many companies in Wales have *(a)* applied for and *(b)* received assistance under the Enterprise Finance Guarantee Scheme in each of the last six months; and how much each participating lender has provided to each in each month. [261985]

Ms Rosie Winterton: In Wales, as of 1 July, £15 million of eligible applications from 200 firms have been granted, processed or assessed. Of which, 183 businesses have been offered loans totalling £12.9 million.

Carbon Emissions

Gregory Barker: To ask the Minister of State, Department for Business, Innovation and Skills what work his Department plans to undertake on policy on the low carbon economy. [280370]

Mr. McFadden: The Low Carbon Industrial Strategy, published recently, outlines the strategic role of Government in helping UK businesses maximise the economic benefits from the transition to a low carbon economy. It builds on an ambitious vision, set out by the Prime Minister on 6 March, and the Government's commitment in Budget 2009 to £1.4 billion of targeted support for the low carbon economy.

Colleges: Visits

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills which colleges were visited by Ministers in his Department and the former Department for Innovation, Universities and Skills during the last 12 months. [288230]

Kevin Brennan: Ministers from the Department for Business, Innovation and Skills and Ministers from the former Department for Innovation, Universities and Skills visited colleges on 35 occasions over the last 12 months. Details are provided as follows:

College

Kings College London
Blackburn College
City College Brighton and Hove
Lewisham College
New College Durham
MidKent College
Barnfield College (Luton)
South Cheshire College (Crewe)
Reaseheath College (Nantwich)
The College of North East London
Leeds College of Building
York College
The Mary Ward Centre (London)
Walsall College
Westminster Kingsway College
Hackney Community College
The Oldham College
The College of Central London
City College Brighton and Hove
Swindon College
Warwickshire College
City of Bristol College
Southgate College
Capel Manor College (London)
South Birmingham College
Newham College
Sutton Coldfield College
Central Sussex College
Westminster Kingsway College
Greenwich Community College
Bournville College (Birmingham)
West Nottinghamshire College
Dudley College
Westminster Kingsway College
Hackney Community College
Barnfield College (Luton)

Company Accounts

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how many penalties for the late submission of accounts were issued by Companies House in each month in the last four years; how much revenue was raised; and what this revenue has been used for. [278054]

Ian Lucas: The following is the information:

PLC and private companies in Great Britain

	Number of late filing penalty invoices issued	*Revenue raised(£)*
April 2005	17,268	2,505,000
May 2005	16,478	1,980,000
June 2005	15,890	2,145,000
July 2005	14,667	1,800,000
August 2005	15,820	2,042,000
September 2005	15,885	1,652,000
October 2005	13,795	2,745,000
November 2005	14,671	5,145,000
December 2005	12,075	2,522,000
January 2006	22,574	2,500,000
February 2006	21,410	3,512,000
March 2006	21,356	1,752,000
April 2006	17,235	3,272,000
May 2006	17,959	1,982,000
June 2006	18,314	5,238,000
July 2006	15,224	1,992,000
August 2006	17,968	1,985,000
September 2006	16,258	1,992,000
October 2006	15,969	1,577,000
November 2006	19,908	6,404,000
December 2006	16,114	1,981,000
January 2007	21,005	3,954,000
February 2007	19,721	3,948,000
March 2007	25,223	4,476,000
April 2007	19,062	2,161,000
May 2007	21,393	3,127,000
June 2007	18,937	5,105,000
July 2007	21,927	3,119,000
August 2007	21,445	4,115,000
September 2007	18,008	2,634,000
October 2007	17,397	3,097,000
November 2007	22,692	4,116,000
December 2007	16,289	3,147,000
January 2008	20,748	4,129,000
February 2008	22,334	3,621,000
March 2008	18,467	3,629,000
April 2008	21,348	3,979,000
May 2008	20,552	3,619,000
June 2008	16,074	3,619,000
July 2008	20,616	3,429,000
August 2008	20,926	3,546,000
September 2008	17,818	4,057,000
October 2008	19,872	5,039,000
November 2008	20,774	4,021,000
December 2008	22,076	2,510,000
January 2009	24,214	4,984,000
February 2009	32,275	5,022,000
March 2009	26,912	9,039,000

Please note that revenue raised in any one month does not relate to the penalties issued in that month.

Companies House is unable to say what the revenue has been used for as it is passed to HM Treasury.

Consumer's Home or Place of Work etc. Regulations 2008

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills what guidance has been provided by *(a)* his Department and *(b)* the Certification Officer, on the application of the Cancellation of Contracts made in a Consumer's Home or Place of Work etc Regulations 2008 to the sale of trade union membership. [288680]

Kevin Brennan: The Department for Business, Innovations and Skills has produced general guidance, available on the BIS website, about the Cancellation of Contracts made in a Consumer's Home or Place of Work etc. Regulations 2008. The guidance does not specifically cover the application of the Regulations to the sale of union membership in a workplace.

This is not an issue within the Certification Officer's jurisdiction and he has produced no guidance on the Regulations.

Corus: North East

Dr. Kumar: To ask the Minister of State, Department for Business, Innovation and Skills what steps the Government plan to take to secure the future of Corus in the North East. [282795]

Ian Lucas: My right hon. Friend the Secretary of State for Business, Innovation and Skills has spoken to Kirby Adams, chief executive officer of Corus, on a number of occasions about the situation at Teesside Cast Products. In addition, officials have held ongoing discussions with the company to explore ways in which the Government can help resolve the dispute with the partners to the 10-year off-take agreement in a way that avoids job losses.

We have urged Corus and, through our embassies overseas, the Consortia to keep working together to resolve their differences and reach a satisfactory solution that avoids redundancies. My right hon. Friend the Minister for Business, Innovation and Skills has also spoken direct to Corus and Marcegaglia (the Italian member of the Consortia) and as a result we understand that a meeting between Corus and Consortia members will take place soon at which Corus will present a proposal for a new contract and new commercial terms to replace the old agreement.

As my right hon. Friend the Prime Minister stated in the House on 13 May, the Government stand ready to do whatever they can to support the company. We are not prepared to reconcile ourselves to the inevitable closure of this plant.

In addition, the Government have offered the company £5 million training support, some of which could be used in the North East to train the work force, retain capacity in the UK, and help the company through the downturn and to recover more strongly in the upturn. This offer is a signal of the Government's commitment to Corus and its work force.

Credit: Licensing

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how many applications for renewals of consumer credit licences submitted to the Office of Fair Trading prior to their expiry date took longer than 90 days to process in each month of each year since 1997. [285433]

Kevin Brennan: The information is not readily available. I will write to the hon. Member giving a full response at the earliest opportunity.

Damian McBride

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills on what date the Secretary of State last met Mr. Damian McBride in the course of his official duties. [287364]

Mr. McFadden: My right hon. Friend the Secretary of State has had no meetings with Damian McBride in the course of his ministerial duties.

Debts

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills if he will bring forward proposals to provide greater protection for debtors from early enforcement action through the courts. [284732]

Ian Lucas: The Government believe it is important to ensure all appropriate safeguards are in place to protect debtors from early enforcement action through the courts as a result of what might have been originally relatively small, unsecured borrowing.

As set out in the recent White Paper "A Better Deal for Consumers", we will therefore:

Look at putting better warnings/explanations into unsecured credit agreements highlighting the risk of borrowers losing their home if they default on repayments;

Consult on introducing a financial limit below which a creditor could not apply for an order for sale. In doing so, we will explore the implications of the threshold only applying to cases where the original debt arose under regulated consumer credit agreements.

Demos

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills what *(a)* private meetings and *(b)* public engagements Ministers in his Department and its predecessors have attended at which representatives from the think-tank Demos were present in the last 12 months; and if he will make a statement. [279518]

Mr. McFadden: Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Departmental Accountancy

Steve Webb: To ask the Minister of State, Department for Business, Innovation and Skills when he expects to publish his Department's resource accounts for 2008-09. [287322]

Mr. McFadden: For accounting, estimates and budgeting purposes, the Department for Business, Innovation and Skills (BIS) will continue to comprise of the former Department of Innovation, Universities and Skills (DIUS) and the former Department of Business, Enterprise and Regulatory Reform (BERR), until the transfer of functions order is authorised and a new estimate is approved by Parliament, at the same time as the winter supplementary estimates.

Both Departments plan to lay annual reports and accounts prior to the summer parliamentary recess. Copies will be placed in the Libraries of the House of Commons and the House of Lords.

Departmental Billing

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many and what proportion of invoices his Department and its agencies paid within 10 days of receipt in each of the last 12 months; and if he will make a statement; [278818]

(2) how many and what proportion of invoices his Department and its agencies paid within 10 days of receipt in each of the last 12 months; and if he will make a statement. [278823]

Mr. McFadden: Since November 2008, the first full month of recording the new target, the then Department for Business, Enterprise and Regulatory Reform has paid the following invoices within 10 working days:

	Number of invoices paid	*Percentage*
November 2008	2,365	93.1
December 2008	2,222	96.9
January 2009	2,535	96.7
February 2009	2,324	96.2
March 2009	3,119	97.2
April 2009	2,428	96.3
May 2009	2,284	89.1

Until October 2008, BERR was required to monitor and publish payment performance against a 30-day payment target. The first full month of formal recording against the 10-day target was November 2008 and information about payment performance within ten days prior to this date is not available.

Since December 2008, the then Department for Innovation, Universities and Skills paid the following invoices within 10 working days:

	Number of invoices paid	*Number paid in 10 working days*	*Percentage*
December 2008	3,178	3,049	96
January 2009	1,101	1,000	91
February 2009	1,904	1,831	96
March 2009	2,634	2,513	95
April 2009	870	663	76
May 2009	610	493	81

The first full month of formal recording against the 10-day target was December 2008 and information about payment performance within ten working days prior to this date is not available.

The Department of Business, Innovation and Skills fully supports the Prime Minister's commitment of 8 October that central Government Departments will make payment within 10 days. We also currently encourage our leading suppliers to pass on our credit terms and will be working with them to reduce payment times along the entire supply chain.

I have approached the chief executives of the Department's executive agencies and they will respond to the hon. Member directly.

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how many days on average *(a)* his Department and *(b)* each of its agencies has taken to pay invoices from suppliers in each month since November 2008. [278914]

Mr. McFadden *[holding answer 10 June 2009]:* Since November 2008, BIS (formerly the Department for Business, Enterprise and Regulatory Reform and the Department for Innovation, Universities and Skills) have paid the following invoices:

Month	*Number invoices paid*	*Average time to pay (days)*
November 2008	3,184	5.1
December 2008	3,389	4.0
January 2009	3,351	4.7
February 2009	3,091	4.8
March 2009	4,275	4.9
April 2009	3,314	4.8
May 2009	2,833	4.4

I have approached the chief executives of the Department's executive agencies and they will respond to the hon. Gentleman directly.

Departmental Consultants

Geraldine Smith: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department has spent on consultants in *(a)* 2008 and *(b)* 2009. [288468]

Mr. McFadden *[holding answer 20 July 2009]:* The Department for Business, Innovation and Skills spent the following on consultants in financial years 2007/08, 2008/09 and 1 April 2009 to end June 2009.

	£
2007/08	19,603,077
2008/09	31,448,452
1 April 2009 to end June 2009	2,297,192

Departmental Contracts

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills which services his Department has outsourced in each of the last five years; and if he will make a statement. [274455]

Mr. McFadden: In each of the last five years the following services have been outsourced:

February 2005 - Business Link national website outsourced to Serco and subsequently transferred to HMRC in 2007.

May 2007 - production of departmental security passes outsourced to EC Harris, the Department's FMA provider.

February 2009 - administration of Civil Service Pensions outsourced to Department of Work and Pensions. DWP is an Authorised Pension Administration Centre.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287794]

Mr. McFadden: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Databases

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills what information databases his Department *(a)* maintains and *(b)* uses; and which do not contain personal information. [284392]

Mr. McFadden: The Department holds a large number of databases ranging in size. These include corporate databases, access databases held by units within the Department and a large number of spreadsheets of data of which certainly the larger and more sophisticated could be described as fulfilling a database function. The vast majority of these databases and systems can be expected to a greater or lesser extent to contain personal data. It is not possible due to disproportionate costs to identify those databases which do not contain personal data.

Departmental Electronic Equipment

Jenny Willott: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* photocopiers, *(b)* scanning devices and *(c)* fax machines, excluding multi-function devices, there are in his Department; how many there were in his Department's predecessors in each of the last three years; and if he will make a statement. [286180]

Mr. McFadden: Much of the information requested is not held centrally by this Department as locally held equipment is the responsibility of individual Groups and it would involve disproportionate cost to establish this.

In terms of photocopiers used in our central Reprographics pools, which included a service to ex-Department for Innovation, Universities and Skills staff in central London, there were 23 machines in 2007-08, 22 in 2008-09 and 19 currently.

The scanners provided as part of the Department's core IT service are multi-function devices.

The current number of operational fax machines across the BIS estate is 126. There are no historical records for fax machines used by BIS's predecessors, but there has been a rationalisation in recent years as the Department has introduced flexible working practices across its estate.

I would also refer the hon. Member to the Government Strategy "Greening Government ICT: Efficient, Sustainable, Responsible" published on 17 July 2008, *Official Report*, column 53WS.

Departmental Flexible Working

Chris Ruane: To ask the Minister of State, Department for Business, Innovation and Skills what family-friendly working policies his Department and its predecessors have implemented in the last 12 years. [285818]

Mr. McFadden: In the last 12 years the Government have made great progress on providing support to working parents and encouraging family-friendly working practices through a balanced package which takes account of the needs of parents and the businesses which employ them. This includes significant improvements in maternity leave and pay. All employed women are now entitled to 52 weeks' maternity leave with 39 weeks' maternity pay. Employed fathers benefit from two weeks' paid paternity leave. Adopters are now entitled to the same periods of pay and leave as birth parents.

We have ensured support does not end after the first year. Parents of children aged 16 or under, or whose child is disabled, can request a flexible working pattern. Employers must consider the request but may refuse on set business grounds. Eligible parents can take up to 13 weeks' parental leave up to their child's fifth birthday. Parents of disabled children can take up to 18 weeks' parental leave up to their child's 18th birthday.

The wider needs of families are also recognised—carers of adults can also request a flexible working pattern and all employees are able to take a reasonable amount of time off work to deal with an emergency involving a dependant.

Departmental Internet

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department has spent on the development of the Department for Business, Innovation and Skills website. [285526]

Mr. McFadden: The information is as follows.

Cost breakdown (exc. VAT):

Design and development: no external costs, as a free open source platform was used

Hosting setup: £1,160.00

Hosting (monthly charge): £449.00

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 15 July 2009, *Official Report*, column 193W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288993]

Mr. McFadden: All users in BIS currently use Microsoft Internet Explorer Version 6 from their desktop PC and laptops.

Departmental Lost Property

Mr. Blunt: To ask the Minister of State, Department for Business, Innovation and Skills how many laptop computers belonging to *(a)* his Department and its predecessors and *(b)* its agencies have been lost or stolen in the last five years. [281080]

Mr. McFadden: The number of laptops reported lost or stolen from 2005 to end May 2009 is 46.

I have approached the chief executives of the executive agencies and they will respond to the hon. Member directly.

Departmental Manpower

Jo Swinson: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of his Department's (i) male employees and (ii) female employees was in the latest period for which figures are available. [287121]

Mr. McFadden *[holding answer 16 July 2009]:* 53 per cent. of the Department for Business, Innovation and Skills work force are men and the remaining 47 per cent. are women. The average hourly salary for women is £15.44 and for men is £17.91.

Departmental Older Workers

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills how many staff in his Department will reach the age of 65 years by the year 2011. [283366]

Mr. McFadden: There are currently 32 staff in the Department who have reached the age of 65 and there are currently an additional 21 staff who will reach the age of 65 by the start of 2011.

Departmental Press

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills what *(a)* newspapers and *(b)* periodicals are delivered to the private office of each Minister in his Department, and at what cost, in the latest period for which figures are available. [279421]

Mr. McFadden: The following list details what *(a)* newspapers and *(b)* periodicals are delivered to the private office of each Minister in the Department for Business, Innovation and Skills. The total monthly cost at the present time is £899.20.

Departmental Reviews

Mr. Vara: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* review and *(b)* taskforce projects his Department has commissioned in each of the last five years since its

creation; what the purpose of each such project is; when each such project (i) began and (ii) was completed; what the cost of each such project was; and if he will make a statement. [275972]

Mr. McFadden: Summary information on taskforces and other standing bodies is available in the annual Cabinet Office publication Public Bodies. Copies of Public Bodies 2008 are available in the Libraries of the House.

Detailed information on ad hoc advisory bodies is available in BERR Public Bodies Directory 2008 at:

http://www.berr.gov.uk/files/file49274.pdf

Information about reviews commissioned since the Department's creation is not held centrally and could be obtained only at disproportionate cost.

Departmental Stationery

Sarah Teather: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department and its predecessor spent on branded stationery and gifts for *(a)* internal and *(b)* external promotional use in each of the last five years. [273775]

Mr. McFadden: Central records indicate that spending by the former Department for Business, Enterprise and Regulatory Reform on branded stationery in the financial year 2008/09 was £72,208.35.

This covers all branded stationery, such as business cards, letterheads, folders, compliment slips and special forms, purchased through a new central stationery supplier by BERR, UK Trade and Investment, BERR's two agencies, Companies House and the Insolvency Service and the following BERR delivery partners: ACAS, Low Pay Commission, Office of Manpower Economics (OME), SITPRO and the Tribunals Service. It also includes spend on branded stationery procured by the Strategic Marketing team.

Complete figures for spending by the former BERR on all branded stationery in previous years could be provided only at disproportionate cost. The following figures are available for spending on headed stationery via the previous central stationery supplier and a range of branded stationery items procured by the strategic marketing team:

2007/08 £16,013.71

2006/07 £3,472.00

2005/06 £9,859.51

2004/05 £20,107.85

Information about spending on gifts is not held centrally and can only be provided at disproportionate cost.

Departmental Training

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills what training courses have been attended by special advisers in his Department and its predecessors in the last 12 months; and at what cost. [279407]

Mr. McFadden: Special advisers receive training as appropriate to enable them to fulfil their duties and responsibilities as set out in the model contract for special advisers.

Internal laptop training was provided on 12 December 2008, at a cost of £310. No further training courses have been attended by special advisers for my Department, and its predecessors, within the last 12 months.

Departmental Work Experience

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* paid and *(b)* unpaid graduate internships his Department has awarded in each of the last six months. [281508]

Mr. Lammy: The Department for Business, Innovation and Skills was only created on 5 June 2009. It is fully committed to supporting the Graduate Talent Pool, the Government's new graduate internship programme, and will be awarding a number of internships in the coming months.

Mr. Willis: To ask the Minister of State, Department for Business, Innovation and Skills how many interns work in his Department; what terms of reference apply to their appointment; what remuneration they receive; and how long on average an intern appointment lasts. [286828]

Mr. McFadden: The Department currently has four interns. They are employed on a training contract and receive £300 per week outside London and £350 inside London for a period of around 12 weeks.

Digital Broadcasting: Hertfordshire

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the number of *(a)* households and *(b)* businesses in (i) Hemel Hempstead, (ii) Dacorum and (iii) Hertfordshire which will be liable for payment of the proposed levy contained in the Digital Britain White Paper. [284563]

Mr. McFadden: This Department has made no specific estimate of the number of *(a)* households and *(b)* businesses in (i) Hemel Hempstead, (ii) Dacorum and (iii) Hertfordshire liable for payment of the proposed levy contained in the Digital Britain White Paper. The independent regulator, Ofcom estimates, however that Hertfordshire has 477,235 fixed lines of which Hemel Hempstead has 43,260, with 1,700 businesses. As the analysis was not carried out at boundary level, but rather at constituency and county level, Ofcom does not have estimates for Dacorum.

Under existing rules any individual in receipt of income support, income-based jobseeker's allowance, pensions credit (guaranteed credit) or employment and support allowance (income related) is entitled to social telephony. As set out in the Digital Britain White Paper published on 16 June 2009 the Government do not wish to see a widening digital divide. Therefore the Government expect that individuals that subscribe to

social telephony packages would also be exempt from the broadband levy to fund the deployment of next generation networks.

Digital Broadcasting: Wales

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 1 July 2009, *Official Report*, column 324W, on digital broadcasting: Wales, when he plans to decide how much funding to allocate to Wales in each financial year from 2009-10 to 2013-14. [288047]

Mr. McFadden: *[holding answer 20 July 2009]:* The procurement process for the Universal Service Commitment, and therefore the process for identifying the extent to which specific areas will benefit, will be carried out by the Network Design and Procurement Group which we aim to set up during the autumn. It is impossible to determine the level of funding for specific areas at this time, as much will depend on the technologies used to deliver the commitment.

Digital Technology: Disabled

Mr. Blunt: To ask the Minister of State, Department for Business, Innovation and Skills (1) what steps his Department is taking to ensure that disabled people who require a relay service in order to use voice-operated telephone services are able to access the opportunities outlined in Digital Britain: The Interim Report; and if he will make a statement; [277973]

(2) if he will ensure that the final report on Digital Britain includes specific provisions for disabled users, including those who are unable to use existing voice telephony services. [277974]

Mr. McFadden: The Department for Business Innovation and Skills (BIS), along with Ofcom, remains committed to improving communications services for disabled users including deaf and hearing impaired people. We have worked in the ongoing EU review of the electronic communications framework to introduce into the framework directives the concept of ensuring "equivalence of access" for disabled users.

BIS continues to make a financial contribution to a representative disability stakeholder group with a view to securing expert advice on the telecommunications sector and disability issues. We remain committed to ensuring that all parts of society, including people with disabilities, can benefit from the policies set out in the Digital Britain White Paper, published on 16 June.

EC Internal Trade

Philip Davies: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment his Department has made of the financial benefits to UK businesses of the EU single market. [287769]

Ian Lucas: The most recent assessment of the benefits of the single market is contained within the publication "The Single Market: A Vision for the 21st Century", published jointly with HM Treasury:

http://www.hm-treasury.gov.uk/d/ent_singlemarket21_121.pdf.

The Department's recent publication "The Future of EU Competitiveness"

http://www.berr.gov.uk/files/file51732.pdf

sets out policy priorities for the single market and also includes references to benefits the single market has brought.

EC Law

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the proportion of statutory obligations provided for by legislation on matters for which his Department is responsible which were introduced as a consequence of obligations arising from EU legislation in the latest period for which figures are available. [281871]

Mr. McFadden: It is very difficult to provide precise figures for the proportion of UK legislation that stems from the European Union. The administrative burdens measurement exercise (ABME) carried out by the Government in 2006 put the proportion of administrative burdens stemming from the EU at approximately 1/3 of the total administrative burden.

No figures are available for legislation for which BIS is responsible. The ABME report for the former Department of Trade and Industry is available at

http://www.berr.gov.uk/files/file35841.pdf

The important thing is not the origins of legislation, which could of course be a devolved Administration or a local authority, as well as the Government or the EU, but the quality of the regulation. All regulations, irrespective of their origins, should comply with the principles of better regulation. Regulations should be risk based, proportionate and well designed, so as to achieve their objectives whilst also keeping costs to a minimum. The Government continue to work with European partners to ensure that EU regulations meet these standards.

Education Maintenance Allowance

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the written ministerial statement of 1 July 2009, *Official Report*, column 17WS, on the Education (Student Support) Regulations, when the cancellation of the guarantee of student support for education maintenance allowance recipients will take effect; and whether students planning to enter higher education in 2009-10 will be covered by the guarantee. [287829]

Mr. Lammy: The guarantee was not due to come into effect until academic year 2010-11; former EMA recipients entering higher education in 2009-10 would always have been treated in the same way as other applicants for student support, being assessed at the point of application. In these difficult economic times, it is both fair and reasonable to expect that those students who see an improvement in their financial circumstances are assessed for student support according to their need. We have

therefore revised our plans for a guarantee of student support with effect from the date of the written statement, and will offer students in receipt of EMA a clear quote of the student support they will receive if their circumstances are unchanged at the time they apply for higher education.

Education: Finance

Mr. Lancaster: To ask the Minister of State, Department for Business, Innovation and Skills how much funding was allocated by the Learning and Skills Council to each educational establishment in Milton Keynes in each of the last five years. [279720]

Kevin Brennan: The Learning and Skills Council (LSC) has responsibility for the funding of post-16 further education and training. Information on individual provider funding is not held centrally by this Department. I have therefore asked the chief executive of the LSC to write to the hon. Member with post-16 funding allocations for further education providers in the Milton Keynes area. A copy will be placed in the House Library.

Emergency Calls

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to monitor compliance with regulations regarding emergency service numbers on the part of EU-registered voice over internet protocol providers offering services in the UK. [286619]

Mr. McFadden *[holding answer 14 July 2009]:* The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number and proportion of voice over internet protocol providers which offer access to emergency service telephone numbers. [286620]

Mr. McFadden *[holding answer 14 July 2009]:* The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to ensure Skype provides access to emergency numbers. [287126]

Mr. McFadden *[holding answer 16 July 2009]:* The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Employment

Chris Ruane: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the effects on the economy of downshifting by employees. [285815]

Mr. McFadden: To date the Department for Business, Innovation and Skills has not undertaken any research in this area.

The Government are closely monitoring the labour market impacts of the current economic challenges. We are committed to supporting the UK through the recession and believe the measures we have in place to support businesses and workers are effective.

The reports of approaches such as downshifting highlight that in some areas employers and staff are working together to protect businesses and jobs. This is evidence of the flexibility of the UK labour market—these approaches help to protect jobs of those affected and help ensure that businesses retain the skills needed to respond to future opportunities.

Energy: Disconnections

John Mason: To ask the Minister of State, Department for Business, Innovation and Skills how many customers have been disconnected by each energy provider in each of the last eight quarters. [289126]

Mr. Kidney: I have been asked to reply.

Ofgem monitors the level of debt and disconnection and publishes relevant data in annual and quarterly reports. The most recent quarterly report was published in January 2009 and contained data for the third quarter of 2008.

Data from these reports show that the numbers of electricity and gas customers disconnected for debt over the last eight quarters were:

Supplier	*Fuel*	*Q4 2006*	*Q1 2007*	*Q2 2007*	*Q3 2007*	*Q4 2007*	*Q1 2008*	*Q2 2008*	*Q3 2008*

[1] Up to and including Q4 this supplier was reported on as Powergen.
[2] Up to and including Q4 2006 this supplier was reported on as Telecom Plus.
[3] Npower figures through to Q4 2007 also include Npower Northern and Npower Yorkshire.

Full details of Ofgem's annual and quarterly reports can be found online at:

http://www.ofgem.gov.uk/Sustainability/SocAction/Monitoring/SoObMonitor/Pages/SocObMonitor.aspx

Energy: Expenditure

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills with reference to paragraph 7.28 of Budget 2009, how the £250 million of funding allocated to his Department for low-carbon energy and green manufacturing will be spent. [285033]

Mr. McFadden: The first investments from the £250 million of funding allocated for low carbon economic development will be set out in the Low Carbon Industrial Strategy on Wednesday 15 July. All funding will be allocated, examining the costs and benefits, consistent with Green Book criteria.

Enterprise Finance Guarantee Scheme

Mr. Hoban: To ask the Minister of State, Department for Business, Innovation and Skills if he will place in the Library a copy of the lending terms of the Enterprise Finance Guarantee Scheme. [264448]

Ms Rosie Winterton: The lending terms for the Enterprise Finance Guarantee (EFG) are that the business:

meets an approved EFG lender's commercial lending criteria and determination that use of EFG is appropriate;

has a turnover of up to £25 million; and

is seeking a loan of between £1,000 and £1 million;

The EFG loan (either unsecured or partially secured) may be used as a new term loan, as a new term loan specifically for the purpose of transferring long term debt out of an overdraft in order to release capacity in the overdraft or as refinancing of an existing secured loan which would otherwise be withdrawn due to deterioration in the quality of the security

EFG is available for most business purposes and sectors. However, EFG is subject to certain sector restrictions arising from the EU De Minimis Aid rules, the Industrial Development Act 1982 (which provides the statutory basis for EFG) and also for national policy reasons which are detailed on the BIS website.

Export Credits Guarantee Department

Dr. Cable: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 7 July 2009, *Official Report*, column 766W, on the Export Credits Guarantee Department, what

projects the Export Credits Guarantee Department supported through its Fixed Rate Export Finance Scheme between 1 January 2002 and 31 December 2008; and what the *(a)* date of approval, *(b)* amount of exposure at that date, *(c)* UK company concerned, *(d)* destination country for the export and *(e)* project or product involved was in each case. [286915]

Ian Lucas *[holding answer 16 July 2009]:* Details of exports supported under ECGD's Fixed Rate Export Finance (FREF) scheme between 1 January 2002 and 31 December 2008 are provided as follows:

Date of approval	*Amount of exposure at that date (£)*	*UK company concerned*	*Destination country of the export*	*Project or product involved*
25 January 2002	35,700,000	Mabey and Johnson Ltd	Papua New Guinea	Steel bridgework
25 February 2002	600,000	Alstom Power UK	Mexico	Spares for gas turbines
14 March 2002	300,000	Angloco Ltd	St. Lucia	Firefighting vehicles
11 April 2002	33,515,984	Alstom Power Plants Ltd	Turkey	Reinsurance to Coface relating to 2x 160 MLO Power Station at Can
16 June 2002	27,132,515	Airbus SAS	Hong Kong	Airbus aircraft
20 June 2002	362,554	Sedgewall Communication Group Ltd	Tunisia	Railway communications equipment
2 July 2002	2,678,800	NSG Exports Ltd	Barbados	Vehicles and equipment for road network improvement
18 July 2002	19,300,000	Airbus SAS	Qatar	Airbus aircraft
29 July 2002	1,294,148	Dunlop Oil and Marine Ltd	Mexico	Supply of 86 oil transportation hoses
14 August 2002	2,656,421	Findel Education Ltd	Brazil	Laboratory equipment
14 August 2002	214,433	John Gordon Ltd	Costa Rica	Coffee husk burners for coffee dryers
12 September 2002	358,851	Vikoma International Ltd	Mexico	Hi-Sprint oil spill containment boom system
25 September 2002	778,274	Alstom Power UK	Mexico	Overhaul of 2 TA 1750 gas generators
3 October 2002	975	Angloco Ltd	St. Lucia	Firefighting vehicles
21 October 2002	1,674,211	Telspec Europe Ltd	Kazakhstan	Supply of pair gains technology
26 November 2002	7,347,003	Odebrecht Oil and Gas Services Ltd	Mexico	Supply of goods and rendering of services for a living quarters platform
26 November 2002	1,627,704	Mabey and Johnson ltd	Venezuela	8 compact bridges
6 February 2003	117,405	Kier International Ltd	Jamaica	Flyover bridges
7 February 2003	2,931,733	Saywell International Ltd	Brazil	Aircraft generators, avionics and ancillary equipment
10 February 2003	11,237,003	Martin-Baker Aircraft Company Ltd	Brazil	Ejection seat equipment
17 February 2003	11,729,401	Martin-Baker Aircraft Company Ltd	Brazil	Supply of ejection seat and associated equipment for AL-X Super Tucano aircraft
14 March 2003	526,605	Mabey and Johnson Ltd	Dominican Republic	Steel bridgework
11 April 2003	1,833,443	Rolls Wood Group (Repair and Overhaul) Ltd	Mexico	Generator upgrade
13 June 2003	7,279,627	Lagan International ltd	Maldives	Upgrade of Gan International Airport
17 June 2003	19,790,378	Mabey and Johnson Ltd	Jamaica	Steel bridges
15 July 2003	21,766,910	Mabey and Johnson Ltd	Sri Lanka	Bridge refurbishment
29 August 2003	8,994,118	Thales Training and Simulation Ltd	Tunisia	A320 Flight simulator
5 September 2003	2,228,540	MRB Schumag Ltd	Mexico	Tube drawing machinery
23 October 2003	4,121,687	Thales ATM Ltd	Dominican Republic	Radar and Control centre for Punta Cana Airport
19 November 2003	4,019,245	MRB Schumag Ltd	Mexico	Copper tube processing plant
29 April 2004	3,034,619	Sir William Halcrow and Partners Ltd	Venezuela	Phase 4 of Bayeloma project
3 November 2004	6,636,455	Kellogg Brown and Root Ltd	Kazakhstan	Engineering services for Alibekmola oil field
22 February 2005	799,093	Guralp Systems Ltd	Turkey	Earthquake and Seismology equipment
30 August 2005	92,827,324	Mabey and Johnson Ltd	Philippines	Highways, bridges and flyovers
12 October 2005	31,964,268	Rolls-Royce Power Engineering plc	Brazil	Power generation modules
12 October 2005	7,768,717	VWS Westgarth Ltd	Brazil	P52 Sulphate reduction
12 October 2005	2,513,830	Koch Chemical Technology Group Ltd	Brazil	Vacuum dearation for P52 project
12 October 2005	1,578,285	Invsat Ltd	Brazil	Telecom package for P52 project
24 November 2006	50,800,373	Mabey and Johnson Ltd	Philippines	Rural bridges programme

Date of approval	Amount of exposure at that date (£)	UK company concerned	Destination country of the export	Project or product involved
31 January 2007	23,955,611	Thales Training and Simulation Limited	Russia	Superjet 100 full flight simulators
20 May 2008	18,720,905	PW Limited	Ghana	Construction of Kotoka Airport

Notes:
(i) The amount of exposure shown is the maximum liability under the ECGD guarantee; FREF support may have been provided in whole or in part of that amount;
(ii) The domicile of the obligor or, if applicable, the guarantor of the obligor under the ECGD facility has been given as the destination country of the export. Exceptionally, exports are supplied to a different country from that of the obligor and/or the guarantor; and
(iii) Information on two FREF cases has not been provided as disclosure would be prejudicial to the commercial interests of the obligors or international relations or both.

Gangmasters Licensing Authority

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the merits of extending the remit of the Gangmasters Licensing Authority to *(a)* the construction sector and *(b)* other sectors. [286527]

Mr. McFadden: The Government looked carefully at the issue of extending the GLA-style licensing regime to other sectors, including the construction sector, as part of the Vulnerable Worker Enforcement Forum that I chaired last year. The Forum consisted of union and business representatives, Citizens Advice, and the key workplace enforcement bodies. There was a full debate, but no consensus was reached on the issue.

Following the work of the Vulnerable Worker Enforcement Forum, the Government's focus has been to prioritise effective enforcement of the existing law. We have taken steps to strengthen the Employment Agency Standards Inspectorate which regulates employment agencies in the non-GLA sectors, and to raise its profile among both agency workers and agencies themselves.

There have been calls more recently for the Government to look at this issue as my hon. Friend the Member for Paisley and Renfrewshire, North (Jim Sheridan) put forward a 10-minute rule Bill on 10 June 2009, and my hon. Friend the Member for Hayes and Harlington (John McDonnell) tabled an Early Day Motion on 28 April 2009. More recently, Rita Donaghy's report into the underlying causes of fatalities in the construction sector, commissioned by the Department for Work and Pensions, was published on 9 July 2009 and recommended the extension of the GLA's remit to the construction sector. The Government will fully consider all the recommendations before responding later in the year.

Government Departments: Procurement

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* unique visitors, *(b)* new registrations and *(c)* total registrations there were to the supply2.gov.uk website in each of the last 12 months. [270869]

Ms Rosie Winterton: The information is as follows.

(a) Unique visitors per month to the website:

	Number
2008	
April	26,831
May	34,502
June	32,451
July	55,544
August	31,714
September	36,240
October	40,099
November	35,830
December	27,775
2009	
January	41,113
February	50,274
March	52,320

(b) New supplier registrations:

	Number
2008	
April	3,160
May	5,821
June	4,079
July	12,642
August	3,657
September	4,063
October	4,555
November	4,257
December	2,953
2009	
January	5,645
February	9,088
March	8,430

(c) Total supplier registrations April 2008 to March 2009: 68,350.

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills how many contracts were advertised on the supply2.gov.uk website in each of the last 12 months; how many of them were subsequently awarded to firms who had submitted a bid via that website; and if he will make a statement. [270870]

Ms Rosie Winterton: The number of opportunities advertised on the Supply2.gov website in the last 12 months are as follows:

	Number
2008	
April	3,486
May	3,240

	Number
June	3,069
July	3,448
August	3,426
September	3,113
October	3,664
November	3,465
December	3,901
2009	
January	3,592
February	3,711
March	2,117

The supply2.gov.uk site offers consolidated access to public sector opportunities and allows businesses to search and view open lower-value contract opportunities in a single place. It does not measure contract awards. No estimate is available for the number or value of contracts won through the site.

Graduates

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of *(a)* physics, *(b)* chemistry, *(c)* engineering and *(d)* information and communication technology graduates were women in each year since 2001. [284281]

Mr. Lammy: The number and proportion of female postgraduates and undergraduates qualifying in Physics, Chemistry, Engineering and Computer Science are shown in the tables. Figures for the 2008-09 academic year will be available in January 2010.

The Higher Education Statistics Agency (HESA) changed their method of coding subjects for the academic year from 2002-03 so it is not possible to make direct comparisons with figures prior to this date. As a result the time series shown in the table commence from 2002, rather than 2001 as requested.

Female postgraduate qualifiers[1] in physics, chemistry, engineering and computer science, UK higher education institutions: Academic years 2002-03 to 2007-08

	Physics		Chemistry		Engineering		Computer science[2]	
	Number	%	Number	%	Number	%	Number	%
2002-03	220	23	915	39	1,410	17	2,530	30
2003-04	220	24	630	39	1,710	18	2,345	28
2004-05	245	26	580	38	2,090	19	2,205	25
2005-06	255	26	560	40	2,240	19	2,020	24
2006-07	255	26	605	40	2,150	18	1,780	22
2007-08	255	25	510	37	2,225	19	1,815	22

[1] Covers female postgraduate qualifiers of all domiciles from full-time and part-time courses
[2] Includes computer science, information systems, software engineering, artificial intelligence and other broadly based programmes.
Notes:
1. Figures exclude the Open University due to their incorrect coding of subjects across the time series.
2. figures are rounded to the nearest five.
3. Percentages are rounded to the nearest integer.

Greece

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills what the dates and times were of each official engagement the Secretary of State undertook *(a)* at the Bilderberg Conference and *(b)* at other times on his visit to Greece in May; and which (i) individuals and (ii) companies he met on each of those engagements. [284713]

Mr. McFadden *[holding answer 7 July 2009]*: On Friday 15 May prior to the conference my right hon. Friend the Secretary of State met a number of UK and Greek businesses at a business breakfast hosted at the British embassy and the Union of Greek Shipowners. He also met his counterpart in the Greek Government. During the course of the conference he was able to have productive meetings with other attendees about the future of the UK automotive sector and other issues.

Havering Sixth Form College: Finance

Angela Watkinson: To ask the Minister of State, Department for Business, Innovation and Skills whether funding will be made available to Havering Sixth Form College to revise the enabling works undertaken in its unsuccessful bid for its Learning and Skills Council capital project. [288119]

Kevin Brennan *[holding answer 20 July 2009]*: The Learning and Skills Council (LSC) has supported colleges throughout the development of capital proposals, and is committed to meeting all outstanding contractual obligations. The LSC has consistently said that it will ensure no college is unable to meet its financial obligations as a result of decisions on capital projects. Whether funding will be made available to Havering Sixth Form College is a matter for the LSC.

Higher Education: Admissions

Annette Brooke: To ask the Minister of State, Department for Business, Innovation and Skills if he will estimate the cost to the public purse of creating 5,000 further student places in 2009-10; and if he will make a statement. [287047]

Mr. Lammy *[holding answer 20 July 2009]:* In 2008-09 the total cost of the maintenance grant and resource accounting and budgeting cost of loans was around £3,000 per student where the RAB charge represents the future cost to Government of subsidising and writing off the loans issued. £3,000 is likely to be an under-estimate of providing an extra place in 2009-10 because it is partly based on students falling under less generous student support regulations than are in operation in 2009-10. The maximum total grant and RAB cost per entrant in 2009-10 is around £5,200, therefore the academic year student support cost for the first year of study for 5,000 additional entrants in 2009 could be anything up to £26 million; depending on students' individual characteristics.

No estimate of teaching costs is offered here as these vary between courses and institutions. The allocation of teaching grant to institutions to help meet these costs is governed by the Higher Education Funding Council for England. Guidance on how HEFCE allocates its funds is available at:

http://www.hefce.ac.uk/Pubs/hefce/2008/08 33/

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many applicants to higher education institutions *(a)* found a place in clearing and *(b)* were eligible to find a place in clearing in each year since 1993. [287758]

Mr. Lammy: Information on clearing is not available for 1993, as applications to higher education were processed through the University Central Council on Admissions (UCCA) and the Polytechnics and Colleges Admissions Service (PCAS). UCCA and PCAS numbers on clearing are not held centrally. From 1994, applications were processed through the Universities and Colleges Admissions Service (UCAS).

The numbers for 1994 onwards are in the table, which has been placed in the Library.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the letter of 21 July 2009 from the Department for Innovation, Universities and Skills to the Higher Education Funding Council for England, how many additional students he expects to be in higher education in 2009-10; and what progress the Government have made towards their commitment of having half of all young people attend higher education by 2010. [288411]

Mr. Lammy: Our grant letter to HEFCE this year confirmed additional teaching grant funding for the equivalent of an extra 10,000 full-time-equivalent places in 2009-10. HEFCE estimate that this will result in 3,000 additional full-time first year entrants. Further to this, we announced on 20 July 2009 that we would be providing financial support for an additional 10,000 students in science, technology, engineering and maths over the duration of their course in Higher Education. We will not receive outturn data on the 2009-10 student population until early 2011.

The Comprehensive Spending Review 2007 target was to increase participation in Higher Education towards 50 per cent. of those aged 18 to 30 with growth of at least a percentage point every two years to the academic year 2010-11. Over half of young people from all social backgrounds aspire to go to university. Progression towards 50 per cent. is a measure of how well we are responding to the families who want the best for their children while making an essential investment in our economic success. Latest figures showed 43.3 per cent. of 17-30 year olds participated for the first time in higher education in 2007-08.

Mr. Kemp: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of young people living in *(a)* Sunderland and *(b)* England entered university in each of the last 10 years. [289157]

Mr. Lammy: The Government do not collect data on the number of people resident in a particular area who are not in higher education. Therefore, it is not possible to calculate what percentage of young people living in Sunderland local authority entered university in the last 10 years.

The Higher Education Funding Council for England (HEFCE) published "Young participation in higher education" in January 2005, which is available from the HEFCE website at:

http://www.hefce.ac.uk/pubs/hefce/2005/05_03/

The HEFCE report shows participation rates for young people who enter higher education aged 18 or 19 disaggregated by local education authority (LEA) for the years 1997 to 2000.

At national level, the Higher Education Initial Participation Rate (HEIPR) covers English-domiciled 17 to 30-year-old first-time entrants to higher education courses at UK higher education institutions and English, Scottish and Welsh further education colleges, who remain on their course for at least six months. The latest available figure is 43 per cent. in 2007/08. For young people (aged 17-20), the figure is 34 per cent.

The number of young entrants to higher education from Sunderland local authority and England, in the last 10 years, are shown as an alternative in the table. Figures for the 2008/09 academic year will be available in January 2010.

Young[1] undergraduate entrants[2] from Sunderland local authority[3] and England, UK higher education institutions[4], academic year 1998/99 to 2007/08

Academic year	*Sunderland*	*England*
1998/99	910	203,950
1999/2000	850	206,935
2000/01	870	208,065
2001/02	965	216,300
2002/03	940	220,980
2003/04	1,030	222,270
2004/05	1,035	226,570
2005/06	1,200	244,175
2006/07	1,135	235,260
2007/08	1,065	246,680

[1] Covers entrants under the age of 21.
[2] Covers entrants to full-time and part-time courses.
[3] The table does not include entrants where the local authority area of the student cannot be established due to missing or invalid home postcodes.
[4] Excludes the Open university due to inconsistencies in their coding of entrants across the time series.
Notes:
1. Figures are on a snapshot basis as at 1 December.
2. Figures have been rounded to the nearest five.

Higher Education Statistics Agency (HESA).

Higher Education: Greater Manchester

Mark Hunter: To ask the Minister of State, Department for Business, Innovation and Skills how many people resident in each local authority area in Greater Manchester *(a)* applied for and *(b)* enrolled on a course in a higher education institution in each year since 1997. [288366]

Mr. Lammy: The latest information from the Universities and Colleges Admissions Service (UCAS) on the number of applicants and accepted applicants to full-time undergraduate courses is shown in table 1.

Table 1: Applicants and accepted applicants to full-time undergraduate courses via Universities and Colleges Admissions Service (UCAS)

Academic year	Bolton	Bury	Manchester	Oldham	Rochdale	Salford
Applicants						
1997-98	1,704	1,187	2,588	1,129	1,205	929

[1] The table does not include entrants where local authority of the student cannot be established due to missing or invalid home postcodes.
[2] Figures exclude the Open University due to inconsistencies in their coding of entrants across the time series.
Note:
Figures are based on a snapshot basis as at 1 December and have been rounded to the nearest five.
Source:
Higher Education Statistics Agency (HESA)

There are a number of differences between the data gathered by UCAS on applicants and those gathered by HESA on entrants. Not all students apply through the UCAS system as they may apply directly to the institutions. UCAS does not cover part-time students, so these have been shown separately in table 2.

Higher Education: International Cooperation

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills if he will place in the Library a copy of the report of the US/UK study group on US/UK higher education links. [277842]

Mr. Lammy: The report of the US/UK study group on higher education and collaboration in a global context was commissioned by my right hon. Friend the Prime Minister. The group included a number of university Vice-Chancellors and Presidents from the UK and USA, led by Professor John Sexton, President of New York University and Professor Rick Trainor, Prinicpal of King's College London. The report contains a very helpful analysis of the strengths and weaknesses of US/UK collaboration and recommends significant investment in a new programme of joint activities involving the US, UK and third country partners. Its recommendations are being considered in the context of the work on a framework for higher education over the next 10-15 years which is expected to be launched in the autumn. I have arranged for a copy of the report to be placed in the House Libraries.

Higher Education: Student Numbers

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what margin of flexibility on UK and EU undergraduate student numbers has been offered by the Higher Education Funding Council for England in each year since 1997. [286986]

Mr. Lammy: The HEFCE funding model for teaching is constructed in broad terms and generally allows institutions to vary the number and mix of students within a tolerance band of plus/minus 5 per cent, of a standard reference point. Other specific controls (minimum Full Time Equivalents (FTE) required to satisfy the funding agreement) apply if institutions are awarded funded growth. Institutions are expected to deliver growth for which they have received additional funding, but are given two academic years to deliver a minimum target FTE student number. Institutions can vary between full-time, part-time, undergraduate and postgraduate provision.

In addition, during the period 1997-98 through to 2001-02 another control on full-time undergraduate home and EU students applied known as the Maximum aggregate Student Number (MaSN). It related specifically to full-time undergraduate and postgraduate certificate in education home and EU students. Institutions were set a maximum number of students with margin which if exceeded resulted in holdback of grant.

Since 2001-02 institutions have been allowed to vary their mix of students so long as they remain within their contract range which is generally plus/minus 5 per cent. but may be wider for some institutions that are in the process of migrating towards it.

Higher Education: Student Wastage

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of students in higher education left their course before completion in each year since 1997. [287757]

Mr. Lammy: The latest information from the "Performance Indicators in Higher Education" published by the Higher Education Statistics Agency (HESA) is shown in the table, which has been placed in the Library. Information is available on the proportion of students who are projected to neither obtain an award nor transfer to another institution; but the associated numbers have not been published. Figures for the 2007-08 academic year will be available in June 2010.

Innovation Fund

Mr. Dai Davies: To ask the Minister of State, Department for Business, Innovation and Skills when the £150 million Innovation Fund referred to in paragraph 35 of Building Britain's Future, column 7654, will be established; and how manufacturing firms will be able to obtain funding from that Fund. [287539]

Mr. Lammy: The UK innovation investment fund will operate on a fund of funds structure which means it will not invest directly in companies, but rather invest in a small number of specialist technology funds that have the expertise and track record to invest directly in companies, in sectors such as ICT, life sciences, low carbon and advanced manufacturing. A fund of funds manager will be appointed during 2009 to manage the fund and make investments in underlying technology funds with the expertise and track record to invest directly in technology businesses.

Insolvency

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 29 June 2009, *Official Report*, column 97W, on insolvency, what criteria are used to prioritise cases; and whether the effectiveness of the new scheme will be monitored. [285749]

Ian Lucas [*holding answer 13 July 2009*]: The answer of 29 June 2009 referred to company administrations. This answer encompasses company administration as well as other corporate failures. This is because the principles of prioritisation of cases apply to all company failures.

The case prioritisation process takes into account a number of factors including, in particular, the nature of the financial losers and the impact on them; the content and level of complaints received; and the characteristics of the misconduct identified with an emphasis on prioritising cases of serious fraud and dishonesty.

The duty and process of administrators to report to the Secretary of State for BIS on the conduct of directors and shadow directors of insolvent companies is not new. The process has already been subject to audit by my Department and will be periodically reviewed to ensure it remains fit for purpose.

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many companies went into administration in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire and *(d)* England in each of the last five years. [287862]

Ian Lucas: Official statistics covering administrations and other corporate insolvency procedures are not currently available at sub-national level, or for England separately. Table 1 shows the number of administrations in England and Wales as a whole for the period requested.

Table 1

	Administrations—number of new cases
2004	1,602
2005	2,261
2006[1]	3,560
2007	2,512
2008[2]	4,822

[1] The figure for 2006 includes 844 separate, limited companies created and managed by Safe Solutions Accountancy Limited for which Grant Thornton was appointed administrator. [2] The figure for 2008 includes 729 separate managed service companies for which BDO Stoy Hayward was appointed administrator.

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many companies were declared insolvent in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire and *(d)* England in each of the last five years. [287863]

Ian Lucas: Official statistics for corporate insolvencies are not currently available at sub-national level, or for England separately. Table 1 gives the number of corporate insolvencies, by type of procedure, in England and Wales as a whole for the period requested.

Table 1

	Compulsory liquidations	*Creditors' voluntary liquidations*[1]	*Receivership appointments*[2]	*Administrations*	*Company voluntary arrangements*
2004	4,584	7,608	864	1,602	597
2005	5,233	7,660	590	2,261	604
2006	5,418	7,719	588	3,560	534
2007	5,165	7,342	337	2,512	418
2008	5,494	10,041	867	4,822	587

[1] Excludes creditors' voluntary liquidations which follow administration. [2] Includes Law of Property Act receiverships. Receivership figures from 2007 are not entirely consistent with those for the earlier period.

Insolvency Service: Consultants

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much the Insolvency Service spent on external consultants in each of the last five years. [285441]

Ian Lucas: The Insolvency Service executive agency of the Department for Business, Innovation and Skills spent the following amounts on external consultants in each of the last five years.

	Amount (£000)
2004-05	0
2005-06	38
2006-07	0
2007-08	34
2008-09	210

Insolvency Service: Travel

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much the Insolvency Service spent on taxis in each of the last five years. [285437]

Ian Lucas: The Insolvency Service executive agency of the Department for Business, Innovation and Skills is unable to extract details of taxi expenses. The service's policy is that public transport must be used in preference to taxis on all possible occasions. Sample data for one calendar month has been extracted which shows taxi costs of £1,510. This would correspond to annual taxi fares of approximately £20,000.

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much the Insolvency Service spent on *(a)* flights, *(b)* hotel accommodation, *(c)* rail travel and *(d)* other travel and overnight subsistence expenses in each of the last five years. [285438]

Ian Lucas: The Insolvency Service executive agency of the Department for Business, Innovation and Skills spent the following amounts on *(a)* flights, *(b)* hotel accommodation, *(c)* rail travel and *(d)* other travel and overnight subsistence expenses in each of the last five years.

	Hotels'	Air	Train	Staff subsistence	Total
2004-05	409,579	9,827	425,664	481,516	1,326,585
2005-06	531,962	15,795	568,138	503,666	1,619,561
2006-07	745,162	95,277	871,712	633,616	2,345,766
2007-08	856,095	67,237	1,145,946	720,298	2,789,577
2008-09	1,173,460	109,993	1,319,879	747,372	3,350,703

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much the Insolvency Service spent on first class *(a)* rail and *(b)* air travel in each of the last five years. [285439]

Ian Lucas: The Insolvency Service executive agency of the Department for Business, Innovation and Skills spent the following amounts on rail travel in each of the last five years. Details of the class of travel used is only available from July 2006 when the Service began using thetrainline.com as its preferred supplier of rail bookings. Please see the following table:

	First class	Standard class	Total
2004-05	n/a	n/a	425,664
2005-06	n/a	n/a	568,138
2006-07	174,618	697,094	871,712
2007-08	423,535	722,411	1,145,946
2008-09	600,265	719,614	1,319,879

The Insolvency Service executive agency of the Department for Business, Innovation and Skills is unable to report the amount spent on first class air travel because it does not have details of individual flights. Air travel costs for the last five financial years were:

	Air
2004-05	9,827.00
2005-06	15,795.00
2006-07	95,277.00
2007-08	67,327.27
2008-09	109,993.00

It's Your Call Road Show

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills what the budget is of the It's Your Call road show for 2009-10; and which locations will be visited by the roadshow in 2009-10. [288843]

Mr. McFadden: The National Minimum Wage outreach campaign for 2009-10 will be run in conjunction with the Government's vulnerable workers campaign whose objective is to promote awareness of basic employment rights and the new Pay and Work Rights Helpline to vulnerable workers. The locations that will be visited during the campaign have not yet been finalised. The overall budget for the vulnerable workers campaign this year is £3 million, of which £215,000 is the expected cost for the outreach elements.

LDV

Gordon Banks: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 23 June 2009, *Official Report*, column 870W, on LDV, if Ministers in his Department will meet the administrators of LDV Group to discuss the future of the business; and if he will make a statement. [287560]

Ian Lucas *[holding answer 20 July 2009]:* I have no plans to meet the administrator of LDV Group. We are continuing to monitor developments closely while offering all practical assistance to those affected. I understand that there are several potentially interested buyers including parties who are considering restarting manufacturing at Washwood Heath. The court appointed administrator is legally responsible for LDV and it would be inappropriate for Government to seek to influence his discussions with potential buyers.

Learndirect

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what his most recent assessment is of the effectiveness of Learndirect in developing skills required by employers in the current economic climate. [288770]

Kevin Brennan: Learndirect continues to play a vital role supporting employers and helping over 200,000 learners improve their skills and achieve qualifications through innovative use of online materials and support, together with delivery through a network of learning providers. Learndirect is forecast to exceed the targets on Skills for Life and NVQ learner achievements set for it by the Learning and Skills Council and double the number of learner starts on its Train to Gain contract this year.

Learning and Skills Council for England

Michael Gove: To ask the Minister of State, Department for Business, Innovation and Skills if he will place in the Library a copy of the resignation letter of Mark Haysom, former Chairman of the Learning and Skills Council. [287251]

Kevin Brennan: Mark Haysom resigned from his position as chief executive of the Learning and Skills Council on 23 March 2009. His communication about his resignation was sent to Chris Banks, the LSC's National Chair. The Department will therefore ask the LSC to consider whether it would be appropriate to place a copy of the letter in the House Library, and to write to the hon. Gentleman.

Members: Correspondence

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills when a reply will be sent to the letters dated 12 March and 13 October 2008 from the hon. Member for Torbay to the Minister of State for Trade, Investment and Consumer Affairs on sales of replica hand grenades. [245130]

Kevin Brennan: I responded to the hon. Member today. I apologise to the hon. Member for the unacceptable delay in responding to his letters. This was mainly due to an administrative error but also that the issues raised were cross-cutting and it was unclear as to which Department portfolio they fell under. I am taking steps to avoid a repeat of this error.

Mr. Salmond: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to reply to the letter of 5 March 2009 from the right hon. Member for Banff and Buchan on his constituent Mr Watt of Cruden Bay. [280795]

Mr. McFadden: I apologise to the right hon. Member for the delay in responding. This is, in part, due to a substantial increase in volumes of correspondence caused by the current economic downturn. The hon. Member will receive a response as soon as possible.

Sir Michael Spicer: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to reply to the letter from the hon. Member for West Worcestershire of 30 March 2009, transferred from HM Treasury, PO reference: 1/70034/2009, on banks. [281131]

Mr. McFadden *[holding answer 18 June 2009]:* I apologise to the hon. Member for the delay in responding. This is, in part, due to a substantial increase in volumes of correspondence caused by the current economic downturn. The hon. Member will receive a response as soon as possible.

Anne Main: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to reply to the letter from the hon. Member for St. Albans of 25 February 2009 on the St. Albans Business Summit. [281183]

Mr. McFadden: I apologise to the hon. Member for the delay in responding. This is, in part, due to a substantial increase in volumes of correspondence caused by the current economic downturn. The hon. Member will receive a response as soon as possible.

Mr. Swayne: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to reply to the letter from Mr. Vernon Holloway, a constituent of the hon. Member for New Forest West, of 15 May 2009 on small businesses. [285231]

Mr. McFadden: A reply was sent to Mr. Holloway on 26 June.

Mr. McLoughlin: To ask the Minister of State, Department for Business, Innovation and Skills when he will reply to the letter from the right hon. Member for West Derbyshire of 30 April 2009 on his constituent's business. [285495]

Mr. McFadden: The letter of 30 April from the right hon. Member was transferred to Her Majesty's Treasury for response. Confirmation of this transfer was sent to the right hon. Member on 5 June.

Mr. Baron: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 1 June 2009, *Official Report*, column 61W, when he plans to respond to the letters from the hon. Member for Billericay of 26 February and 26 March 2009 on his constituent, Mr. Piechuta. [287127]

Mr. McFadden *[holding answer 16 July 2009]:* I apologise to the hon. Member for the unacceptable delay in responding to his letter. This was due to an administrative error. The hon. Member will receive a response shortly.

Mr. Grieve: To ask the Minister of State, Department for Business, Innovation and Skills when the Secretary of State plans to reply to the letter from the hon. Member for Beaconsfield *(a)* of 12 February 2009, on behalf of his constituent Mr. Wilkinson, *(b)* of 24 February 2009, on behalf of his constituent Mr. Booroff and *(c)* of 12 March 2009 on behalf of his constituent Mr. Woods. [288368]

Mr. McFadden *[holding answer 20 July 2009]:* I apologise to the hon. and learned Member for the delay in responding to his correspondence. My noble Friend, the Minister with responsibility for economic competitiveness, small business and enterprise will respond shortly to the three outstanding letters.

Mr. McLoughlin: To ask the Minister of State, Department for Business, Innovation and Skills when the Parliamentary Under-Secretary of State plans to respond to the letter from the right hon. Member for West Derbyshire of 17 March 2009 on business difficulties. [288796]

Mr. McFadden: I apologise to the right hon. Member for the unacceptable delay in responding, he will receive a response shortly.

Mr. McLoughlin: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to reply to the letter from the right hon. Member for West Derbyshire of 6 February 2009 concerning problems with a constituent's business. [288797]

Mr. McFadden: I apologise to the right hon. Member for the delay in responding. He will receive a reply shortly.

Mr. Burns: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 1 June 2009, *Official Report*, column 61W, on Members: correspondence, when the relevant Minister plans to reply to the letter from the hon. Member for West Chelmsford of 27 February 2009 on his constituent, Mr Paul Cook of Chelmsford; and what the reason is for the time taken to reply. [288866]

Mr. McFadden: I apologise to the hon. Member for the continuing delay in responding. My noble Friend, the Minister with responsibility for economic competitiveness, small business and enterprise, will respond shortly.

Met Office

Nick Harvey: To ask the Minister of State, Department for Business, Innovation and Skills what representations from private sector weather companies have been submitted to the Trading Funds review of the Met Office. [284835]

Ms Rosie Winterton: The operational efficiency programme and trading funds assessment teams have heard the views of over 20 private sector stakeholders, including customers, suppliers and competitors of the trading funds. These representations have related to both the Meteorological Office specifically but also often to trading funds in general and include meetings with private sector weather companies.

Nick Harvey: To ask the Minister of State, Department for Business, Innovation and Skills what the *(a)* terms of reference and *(b)* membership are of the Met Office Trading Funds Review team. [284856]

Ms Rosie Winterton: The HM Treasury operational efficiency programme (OEP) Ministry of Defence asset review team's terms of reference have been placed in the Library of the House.

This OEP review team comprises HM Treasury, Ministry of Defence, shareholder executive and senior management of the Meteorological Office.

Met Office: Cost Effectiveness

Julia Goldsworthy: To ask the Minister of State, Department for Business, Innovation and Skills whether the Shareholder Executive plans to meet the Office of Fair Trading in relation to the Operational Efficiency Programme review of the Met Office. [284656]

Ms Rosie Winterton *[holding answer 7 July 2009]:* The Shareholder Executive works as part of the HM Treasury Operational Efficiency Programme Ministry of Defence Asset Review Team. There are no current plans to meet with the Office of Fair Trading in relation to the Operational Efficiency Programme review of the Met Office.

Minimum Wage: Publicity

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills which locations the Minimum Wage Battle Bus visited in 2009; and on what dates those visits took place. [284149]

Mr. McFadden: The national minimum wage trailer tour began on 19 November 2008 and ended on 7 February 2009. Locations visited during the eight week campaign are as follows:

	Location
19 November 2008	Cardiff
20 November 2008	Bristol
21 November 2008	Newport
22 November 2008	Swansea
26 November 2008	Stirling
27 November 2008	Kilmarnock
28 November 2008	Edinburgh
29 - 30 November 2008	Glasgow
10-11 December 2008	Leeds
12 December 2008	Huddersfield
13-14 December 2008	Sheffield
7 January 2009	Norwich
8 January 2009	Peterborough
9-10 January 2009	Leicester
11 January 2009	Derby
14-15 January 2009	Liverpool
16 January 2009	Blackburn
17-18 January 2009	Manchester
21 January 2009	Coventry
22-23 January 2009	Nottingham
24-25 January 2009	Birmingham
28-29 January 2009	Newcastle
30-31 January 2009	Middlesbrough
1 February 2009	Sunderland
4 February 2009	Plymouth
5 February 2009	Portsmouth
6 February 2009	London (East)
7 February 2009	London (North West)

Money Laundering Regulations 2007

Robert Neill: To ask the Minister of State, Department for Business, Innovation and Skills whether any *(a)* impact and *(b)* small firms assessment has been produced in relation to the Office of Fair Trading's plans to require compulsory registration of all estate agents under the Money Laundering Regulations 2007. [286810]

Kevin Brennan: The Office of Fair Trading has been the anti-money laundering supervisory authority for estate agents since December 2007. As Her Majesty's Treasury had carried out a regulatory impact assessment before implementation of the Money Laundering Regulations 2007, the Office of Fair Trading did not produce a separate impact assessment or small firms' assessment for the registration of estate agents for money laundering purposes, when deciding to require compulsory registration. In deciding upon compulsory registration, the OFT was concerned to minimise the burdens on business and has framed the information requirements and registration fee accordingly.

Money Lenders

Mr. Carmichael: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many calls the national illegal money lender helpline has received from each region in each month since it was established; [286016]

(2) how many calls made to the national illegal money lender helpline have *(a)* resulted and *(b)* assisted in the arrest or prosecution of an illegal money lender in each month since its establishment; [286017]

(3) how many staff have been employed on the national illegal money lender helpline in each month since its establishment; [286018]

(4) how much funding has been *(a)* allocated and *(b)* spent on (i) establishing the national illegal money lender helpline and (ii) operating the helpline in each month since its establishment. [286019]

Kevin Brennan *[holding answer 13 July 2009]:* Since 1 March 2009 to 30 June to 2009 the total number of calls received for all regions via the national 0300 555 2222 hotline was 516.

The total numbers of calls received by some of the IML teams has been filtered (f) to indicate the number of calls received that gave actionable intelligence. However, some of the teams have maintained regional numbers to ensure a golden thread ensues for previous poster and media campaigns:

	March	*April*	*May*	*June*	*July*
South West	37	7	4	20	4
East Midlands	72	26	29	33	9
London	33	52	57	58	14
North East (f)	2	3	4	4	3
Wales (f)	6	3	0	3	2
Scotland (f)	4	2	2	1	0
Central England (f)[1]	22	11	12	23	3

[1] South East, North West, East of England, Yorkshire and Humberside

Of the 519 calls received by the national hotline number the following assisted in the arrest or proceeding to the prosecutions of illegal money lenders.

	Detail
North East	Three arrests have followed from calls received on the national hotline number. None have yet proceeded to a prosecution.
South West	No calls have yet resulted in arrest or prosecution, all are still ongoing investigations.
East Midlands	10 arrests have followed from calls to the hotline; none have yet proceeded to a prosecution.
London	One arrest, 16 calls have initiated ongoing investigations not yet proceeded to prosecution. One call led to re-arrest of an illegal lender on bail. Three matters were linked to ongoing organised crime. SOCA, Anti-Terrorism Unit, and the Metropolitan Police Service engaged as a result.
Wales	Eight arrests have been made, all are ongoing cases. None have been prosecuted in such a short space of time.
Scotland	Three of the calls have initiated investigations. Any investigations which have been instigated as a result of these calls are still ongoing.
Central England[1]	12 arrests, charges have been laid against three and inquiries are on going with the others.

[1] South East, North West, East of England, Yorkshire and Humberside

All calls are answered by enforcement officers already employed within the teams. No additional staff were employed to operate the national hotline number.

The national number is not a helpline but a hotline for victims to report a loan shark in confidence. The single national number was established to make it simpler to report loan sharking and to create greater connectivity between regions and increased cross-border operations. Therefore the only direct costs resulting from setting up and running the national hotline are

(a) the cost of installing the hotline number = £200; and

(b) the quarterly rental cost for the hotline number = £10.

The easily recognisable number itself was free. The geographical set-up was free.

Motor Vehicles: Manufacturing Industries

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills what the monetary value is of loans underwritten by the Automotive Assistance Programme which have been drawn down by businesses. [287037]

Ian Lucas: Projects in the pipeline seeking loan guarantees are worth at least £2.4 billion with total Government support sought of around £1.45 billion.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 9 July 2009, *Official Report*, column 989W, on motor vehicles: manufacturing industries, what estimate he has made of the maximum number of car purchases that can be funded by the £300 million allocated by his Department to the car scrappage scheme. [287588]

Ian Lucas: Under the scrappage scheme, the Government provide £1,000 per vehicle. Therefore, the maximum number of vehicles that could be funded would be 300,000. However, the total number will be slightly less than that since a small portion of the £300 million will be used to cover monitoring and administration costs.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 9 July 2009, *Official Report*, column 989W, on motor vehicles: manufacturing industries, how many of the 94,000 orders for new vehicles qualify for Government funding under the car scrappage scheme. [287600]

Ian Lucas: The figure for total orders under the scrappage scheme is adjusted each week to take account of any errors or cancellations in previous orders. Therefore, we anticipate that, subject to any future minor adjustments of this sort, all the orders would qualify for Government funding. Over 121,700 orders for new vehicles have now been taken.

Motorsport Development UK

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what the findings were of the evaluation undertaken by GHK Consulting of the Learning Grid and other Motorsport Development UK initiatives; and whether he plans to publish the report. [287296]

Ian Lucas: An evaluation has been commissioned by the East Midlands Regional Development Agency (EMDA) and I am expecting to receive a copy of the final report shortly. I will consider the arrangements for publication when I have read the report.

National Internship Scheme

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what his most recent estimate is of the number of internships likely to be established under the National Internship Scheme. [288633]

Mr. Lammy: The Government are committed to helping new graduates through these tough times. Internships offer graduates the opportunity both to apply their learning in a working situation and to build the work ready skills they will need for permanent employment. Our aim was to generate at least 5,000 additional internships for new graduates this autumn, many of them through the new Graduate Talent Pool. We have been working with businesses, universities and partners from the public and third sectors and have already achieved more than 5,000 committed places.

National Skills Academies: Finance

Mr. Timpson: To ask the Minister of State, Department for Business, Innovation and Skills whether another funding round for national skills academies is planned to take place. [287695]

Kevin Brennan *[holding answer 20 July 2009]:* An announcement will be made as soon as is practicable.

National Vocational Qualifications: Construction

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many people on Government-funded National Vocational Qualification courses in the construction industry left the course early in each of the last five years; [281185]

(2) how many people applied for Government-funded National Vocational Qualification courses in the construction industry in each of the last five years. [281184]

Kevin Brennan: Table 1 shows the number of Learning and Skills Council-funded enrolments on NVQs within the construction, planning and the built environment sector subject area, from 2005-06 to 2007-08. Information is not available on a consistent basis prior to 2005-06.

Table 1: Number of NVQ enrolments within the construction, planning and the built environment sector subject area, 2005/06 to 2007/08

	2005-06	2006-07	2007-08
Further education	22,400	22,200	23,500
Work-based learning	70,600	67,600	65,700
Train to Gain	4,100	32,400	52,700

Notes:
1. Figures have been rounded to the nearest hundred.
2. Figures include FE and WBL enrolments and TTG starts.
3. TTG began in April 2006, hence 2005-06 contains only part-year figures.

Source: Individualised Learner Record.

Table 2 shows the number of people who withdrew from an NVQ in the construction, planning and the built environment sector subject area, from 2005-06 to 2007-08. Information is not available on a consistent basis prior to 2005-06.

Table 2: Number of NVQ Enrolments within the construction, planning and the built environment sector subject area which were withdrawn from, 2005-04 to 2007-08

	2005-06	2006-07	2007-08
Further education	2,200	1,800	1,700
Work-based learning	10,500	9,100	9,500
Train to Gain	200	600	1,800

Notes:
1. Figures have been rounded to the nearest hundred.
2. These figures do not include a small number of learners who have temporarily withdrawn due to an agreed break in learning.
3. These figures do not include learners who have transferred to a new learning aim with the same provider.

Source:
Individualised Learner Record.

New Businesses

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to encourage the establishment of new businesses in deprived areas. [270398]

Ms Rosie Winterton: This Department supports people setting up new businesses through the Business Link service. Information and advice is available to all new businesses through the 'Starting A Business' product. The 'Intensive Start Up Support' product provides additional assistance to people setting up new businesses in deprived areas, including those from groups that are underrepresented in self employment and business ownership. The Government also help Community Development Finance Institutions assist individuals in deprived areas who are unable to access finance from commercial banks. More widely, the Government support Local Authority action to increase levels of enterprise, through the Working Neighbourhood Fund and the Local Enterprise Growth Initiative.

Non-Domestic Rates

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of *(a)* households and *(b)* businesses in (i) Essex and (ii) Castle Point which will be liable for payment of the levy proposed in the Digital Britain White Paper. [283897]

Mr. McFadden: This Department has made no specific estimate of the number of *(a)* households and *(b)* businesses in (i) Essex and (ii) Castle Point liable for payment of the proposed levy proposed in the Digital Britain White Paper.

Ofcom estimates that there are 612,037 fixed lines in Essex. As the analysis was not carried out at boundary level, rather constituency and county level, Ofcom does not have estimates for Castle Point. We have recognised that those on the lowest incomes might have difficulty paying the fixed line levy and that is why we have confirmed that those on social telephony schemes will be exempt. The social telephony schemes are available to those on income support, income-based Job Seeker's Allowance Employment Support Allowance (income rated) or Guaranteed Pensions Credit and should be an accurate indication of ability to pay.

North West Regional Development Agency: Finance

Geraldine Smith: To ask the Minister of State, Department for Business, Innovation and Skills to which projects in Morecambe and Lunesdale constituency the North West Regional Development Agency has provided funding in the last five years. [287977]

Ms Rosie Winterton: The information is as follows:

Name	*Description*	*Total NWDA investment (£)*
SFI Grants to Local Businesses	SFI grants to local businesses	587,036

Name	Description	Total NWDA investment (£)
Trimpell Tip Middleton Wood Ph1	Environmental improvement works to reclaim a former industrial site and tip at Trimpell Tip Middleton Wood	580,368
Midland Hotel, Morecambe	Redevelopment of Midland Hotel, Morecambe	4,070,523
The Whoop Hall, Burrow, Kirkby Lonsdale	Refurbishment of redundant rooms to create four letting bedrooms	6,221
Clawthorpe Hall, Carnforth	Conversion of part of Clawthorpe Hall to create offices and workspace units	63,300
Carnforth Market Town: Winter Promotion Scheme	Partnership launch event and retail promotion of Carnforth retail centre	42,667
St. Martins College Arts Campus: Feasibility study	Feasibility of development of a new campus, located in Morecambe, which will specialise in the Arts	28,964
Lancaster Vision Strengthening Morecambe's West End Retail Core	A number of public realm improvements to Yorkshire Street, Heysham Road, West Street and Regent Road, Morecambe	20,000
Winter Gardens Morecambe	Feasibility work only to allow for HLF bid	15,000
Winter Gardens, Morecambe	Detailed Planning Stage—Various technical reports to support funding applications	298,381
Seaside Square: site clearance	Site clearance and improvements to land adjacent to the Midland hotel	226,253

Offical Visits: Glasgow

John Mason: To ask the Minister of State, Department for Business, Innovation and Skills whether he plans to visit Glasgow on official business during the summer adjournment. [288924]

Mr. McFadden: No BIS Ministers are planning to visit Glasgow this summer.

Overseas Trade: Israel

Dr. Starkey: To ask the Minister of State, Department for Business, Innovation and Skills what information his Department holds on the extent of UK commercial operations in Israeli settlements in the occupied Palestinian territory in the last five years. [287152]

Ian Lucas: The Department for Business, Innovation and Skills does not hold information on UK commercial operations in Israeli settlements in the Occupied Palestinian Territories.

Dr. Starkey: To ask the Minister of State, Department for Business, Innovation and Skills whether UK Trade and Investment has provided any *(a)* financial assistance and *(b)* advice to UK companies trading with or investing in Israeli settlements in the occupied Palestinian territory in the last 12 months. [287153]

Ian Lucas: UK Trade and Investment has not provided financial assistance or advice to UK companies within the last 12 months wishing to trade with or invest in Israeli settlements in the occupied Palestinian territory.

Dr. Starkey: To ask the Minister of State, Department for Business, Innovation and Skills if he will commission research into the level of investment in the UK by *(a)* companies owned by Israeli settlers in the occupied Palestinian territory and *(b)* companies located in Israeli settlements in the occupied Palestinian territory. [287161]

Ian Lucas: The Department has no plans to commission such research.

Dr. Starkey: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to ensure that UK companies operating in Israeli settlements in the occupied Palestinian territories are aware of their obligations under *(a)* the Geneva conventions, *(b)* the Hague regulations and *(c)* other international law. [287163]

Ian Lucas: HM Government have not offered support or advice to UK companies operating in Israeli settlements in the occupied Palestinian territories. We consider all settlements in the Occupied Palestinian Territories to be illegal under international law.

Parental Leave: Bexley

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of people in *(a)* Bexleyheath and Crayford constituency and *(b)* the London Borough of Bexley who took (i) paternity and (ii) maternity leave in the most recent period for which figures are available. [288231]

Mr. McFadden: The most recent estimates of take-up of maternity leave are based on Maternity Rights and Mother's Employment Decisions (published 2007). The survey is based on a random sample of mothers who had a baby between February and May 2006.

Of mothers in paid work, all took at least some of their entitlement to maternity leave.

Up-to-date estimates of fathers taking paternity leave are from the Maternity and Paternity Rights and Benefits in Britain: Survey of Parents, conducted in 2005. 93 per cent. of fathers took some time off around the time of the birth. Of the 93 per cent. who took some time off, 79 per cent. took paternity leave. (The survey is based on a random sample of mothers who had a baby in December 2003 and their partners).

The Department does not collect data on take-up of maternity and paternity leave at constituency level.

Parental Leave: Hemel Hempstead

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department has made of the number of people from low income families in Hemel Hempstead constituency who took *(a)* paternity and *(b)* maternity leave in the most recent period for which figures are available. [287864]

Mr. McFadden: The most recent estimates of take-up of maternity leave are based on Maternity Rights and Mother's Employment Decisions (published 2007). The survey is based on a random sample of mothers who had a baby between February and May 2006.

Of mothers in paid work, all took at least some of their entitlement to maternity leave.

Up-to-date estimates of fathers taking paternity leave are from the Maternity and Paternity Rights and Benefits in Britain: Survey of Parents, conducted in 2005. 93 per cent. of fathers took some time off around the time of the birth. Of the 93 per cent. who took some time off, 79 per cent. took paternity leave. (The survey is based on a random sample of mothers who had a baby in December 2003 and their partners.)

The Department does not collect data on low income families so has not estimated the number of low income families which have taken up paternity or maternity leave.

The Department does not collect data on take-up of maternity and paternity leave at constituency level.

Parental Leave: Tamworth

Mr. Jenkins: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department has made of the number of people from low income households in Tamworth constituency who took *(a)* paternity and *(b)* maternity leave in the most recent period for which figures are available. [285919]

Mr. McFadden: The most recent estimates of take-up of maternity leave are based on Maternity Rights and Mother's Employment Decisions (published 2007). The survey is based on a random sample of mothers who had a baby between February and May 2006.

Of mothers in paid work, all took at least some of their entitlement to maternity leave.

Up-to-date estimates of fathers taking paternity leave are from the Maternity and Paternity Rights and Benefits in Britain: Survey of Parents, conducted in 2005. 93 per cent. of fathers took some time off around the time of the birth. Of the 93 per cent. who took some time off, 79 per cent. took paternity leave (the survey is based on a random sample of mothers who had a baby in December 2003 and their partners).

The Department does not collect data on low income families so has not estimated the number of low income families which have taken up paternity or maternity leave. The Department does not collect data on take-up of maternity and paternity leave at constituency level.

Parliamentary Questions: Government Responses

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills when the Minister of State for Trade, Investment and Consumer Affairs plans to respond to question 245130, tabled by the hon. Member for Torbay on 17 December 2008, on correspondence on sales of replica hand grenades. [271616]

Kevin Brennan *[holding answer 30 April 2009]:* I am responding to the hon. Member today.

Pleural Plaques

Mr. Clapham: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department made of its potential liabilities arising from compensation claims from those with pleural plaques in advance of the House of Lords judgment on pleural plaques compensation of October 2007. [284308]

Mr. McFadden *[holding answer 6 July 2009]:* The Department for Business, Innovation and Skills (then the Department for Trade and Industry) had estimated potential liabilities of £22.5 million in relation to British Shipbuilder-related cases of plural plaques. This was shown in the Department's Resource Accounts 2006-07 as a contingent liability.

Post Offices

Andrew George: To ask the Minister of State, Department for Business, Innovation and Skills how many post office branches have closed in each network change plan area following adoption of the network change plan for that area. [288206]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member. Copies of the letter will be placed in the Libraries of the House.

Post Offices: Nottinghamshire

John Mann: To ask the Minister of State, Department for Business, Innovation and Skills how many post office branches there were in Nottinghamshire in each of the last 30 years. [286831]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Wales

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills how many Post Office branches in each constituency in Wales have closed in each year since 1997; and how many such branches have been replaced by Outreach services. [288865]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Mrs. Gillan: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of people in each constituency in Wales who lived further than two kilometres from a post office in each of the last five years. [288873]

Mr. McFadden: Compliance with the access criteria is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Postal Services

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills how many Royal Mail post boxes are located by reference to a *(a)* postcode and *(b)* grid reference. [284605]

Mr. McFadden: This is an operational matter for Royal Mail. I have therefore asked the chief executive, Adam Crozier, to reply direct to the hon. Member. Copies of the letter will be place in the Libraries of the House.

Mr. McLoughlin: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the quality of postal services in remote rural areas compared to those in towns and cities. [286410]

Mr. McFadden: Postcomm, the industry regulator, monitors Royal Mail's quality of service performance in all postcode areas on a quarterly basis. Postcomm also commissions an annual survey of residential and small and medium-sized enterprise customers, which involves asking questions of customers in rural and deep rural areas about their use of mail services and how satisfied they are as senders and recipients of mail.

In the latest 2008 survey, all respondents were asked to rate their overall satisfaction with Royal Mail on a scale of one to 10 (10 representing extremely satisfied and one extremely dissatisfied). The total sample gave Royal Mail a mean score of 8.02. A breakdown of the sample showed that deep rural customers gave Royal Mail a higher mean score of 8.47.

More information can be found on Postcomm's website:

http://www.psc.gov.uk/about-the-mail-market/customer-needs-survey.html

Publicity: Finance

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills how much the former Department for Innovation, Universities and Skills spent on management of its corporate identity. [289080]

Mr. McFadden: In 2007-08 the Department spent an estimated £38,759.49 on managing its corporate identity. This includes development of the logo, branding guidelines, signposts, display panels and stationery.

Redundancy

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many employers in *(a)* Essex and *(b)* Castle Point sought advice on redundancy issues from his Department in (i) the latest period for which figures are available and (ii) the same period 12 months previously. [284951]

Mr. McFadden: Employers are able to seek advice on redundancy issues from my Department via the Business Link helpline and the website, the ACAS helpline and the Redundancy payments Service helpline. The available figures are set out in the following table, except for calls to the Redundancy Payments Service helpline, which are not categorised or recorded by group:

ACAS helpline	*May 2008*[1]	*May 2009*
Percentage of total calls from employers that were about redundancy issues.	19.9	27.2
Business Link Helpline	[2]—	[2]—
Business Link	April 2008	April 2009
Guidance	[3]28,050	[3]68,740
Redundancy tool	2,487	4,004
Redundancy calculator	[2]—	39,474

Regulation

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how many of the 106 regulatory conflicts identified by the Better Regulation Executive in the last financial year have been resolved; and what timetable has been set for resolving the remainder. [285864]

Ian Lucas: 106 of the 270 suggestions received on the Government's better regulation website

www.betterregulation.gov.uk

in 2008-09 were classified by the members of the public submitting the ideas as involving a "conflict in regulations". On close examination these may, or may not, involve actual regulatory conflicts.

Each idea submitted is considered individually by the relevant Government Department or Departments and an official response is sent to the originator and published on the website within 90 days. Data are not held centrally on which of the ideas classified by the originators as regulatory conflicts are actual regulatory conflicts and this information could be obtained only at disproportionate cost.

Royal Mail

Mr. Hoyle: To ask the Minister of State, Department for Business, Innovation and Skills what plans he has for the future ownership of Royal Mail; and if he will make a statement. [284702]

Mr. McFadden *[holding answer 7 July 2009]:* Market conditions have made it impossible to conclude the process to identify a partner on terms that we can be confident would secure value for the taxpayer.

There is therefore no prospect in current circumstances of achieving the objectives of the Postal Services Bill. When market conditions change we will return to the issue.

We remain convinced that Hooper's combined package offers the best chance of securing the universal postal service while protecting Royal Mail pensions.

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the Electoral Commission's publication of registered donations to political parties in the first quarter of 2009, for what reason Royal Mail donated £3,000 to the Labour Party. [287357]

Mr. McFadden: This is a matter for Royal Mail but I understand from the company that as a part of its commercial activities, it has, over the last 12 months, made donations to all the major political parties in the form of sponsorship of receptions at their Scottish conferences.

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what recent representations he has received on the working practices of the Royal Mail with specific reference to *(a)* their use of roads in rural and semi-rural areas, *(b)* access for vehicles to assist delivery, *(c)* payment of overtime and *(d)* arrangements to cover sick leave. [288023]

Mr. McFadden *[holding answer 20 July 2009]:* Royal Mail working practices are operational matters for Royal Mail. My Department has not received specific representations on these issues.

Science and Technology Facilities Council: Finance

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills for what reasons the Science and Technology Facilities Council is *(a)* experiencing a budgetary shortfall and *(b)* planning a programme of funding delays and reductions for 2009-10. [278772]

Mr. Lammy *[holding answer 12 June 2009]:* The science and technology facilities council continually adjusts and reprioritises its funding, for example to cover the adverse effect of exchange rate fluctuations on the level of its subscriptions to international organisations.

The STFC recently carried out such an exercise; its press notice of 25 June sets out the outcome of its most recent process of prioritisation.

Scientists: International Cooperation

Mr. Dai Davies: To ask the Minister of State, Department for Business, Innovation and Skills what steps the Government plan to take to use UK scientific expertise in support of the recommendation for a co-ordinated approach in the field of global weapons of mass destruction knowledge, proliferation and scientist engagements in the L'Aquila declaration of 9 July 2009. [287537]

Mr. Kidney: I have been asked to reply.

The Government contributed to and fully endorse the announcement made by the G8 at L'Aquila. The UK's commitment to the G8 Global Partnership Against the Spread of Weapons and Materials of Mass Destruction (launched at the G8 summit at Kananaskis in June 2002) is delivered by the UK's Global Threat Reduction Programme (GTRP). The Foreign and Commonwealth Office hold the overall policy lead for GTRP, but the nuclear and radiological components of the programme are managed by the Department of Energy and Climate Change (DECC). DECC's portfolio of GTRP programmes includes the Closed Nuclear Cities Partnership, which provided assistance to address the knowledge proliferation risks posed by unemployed or under-employed nuclear weapons scientists and technicians in closed nuclear cities in Russia and various Institutes of Nuclear Physics in Ukraine, Kazakhstan, Uzbekistan, Armenia, Georgia and Belarus.

This UK collaborative programme draws on UK scientific and technical expertise in both the public and private sector and provides:

finance for commercial civil sector projects;

training for personnel including study tours to share the UK's experiences of nuclear industry, defence industry downsizing and restructuring of Government funded laboratories to commercialise research and development and create "spin-out" businesses;

assistance in the establishment of commercial businesses with Russian etc. and Western foreign enterprises;

support to business development agencies and commercialisation units for sustainable economic development in the Closed Nuclear Cities and various Institutes of Nuclear Physics.

The Ministry of Defence, which manages the chemical and biological parts of GTRP, has a small but developing programme of redirection and engagement in the biological sciences in Former Soviet Union countries and elsewhere which engages world class UK scientific expertise from the Health Protection Agency, Veterinary Laboratory Agency, Food and Environment Research Agency and other such bodies.

Further details of these programmes are contained in the Global Threat Reduction Programme Annual Report which is available in the House Library and available from:

http://www.berr.gov.uk./energy/non-proliferation/global-threat-reduction/index.html

Small Businesses: Staffordshire

Mr. Jenkins: To ask the Minister of State, Department for Business, Innovation and Skills what support his Department has offered to small businesses in *(a)* Tamworth constituency and *(b)* Staffordshire during the economic downturn. [270234]

Ms Rosie Winterton: The Government are committed to ensuring that a comprehensive range of assistance is available to businesses affected by the economic downturn. The support available includes a package of schemes to address the cash flow, credit and capital needs of small businesses under the Real Help for Business campaign. This includes Government guaranteed lending under the Enterprise Finance Guarantee scheme as well as loan funding from the Advantage Transition Bridge Fund which is administered by Advantage West Midlands (AWM). AWM also administers other schemes providing

financial support for eligible firms including the Grant for Business Investment and the Grant for Research and Development.

Details of funding provided to businesses in Tamworth and Staffordshire under national initiatives are not available. Financial support provided to businesses in Staffordshire by AWM over the last six months is as follows:

(i) Eight businesses have received offers of Grant for Business Investment totalling £564,671;

(ii) Three businesses have received offers of Grant for Research and Development totalling £327,880;

(iii) 11 businesses have received loans from Community Development Finance Institutions (CDFIs) totalling £295,000;

(iv) Six businesses have received offers of loans totalling £510,000 from the Advantage Transition Bridge Fund;

(v) Four businesses have received investment from the region's venture capital funds totalling £727,060.

These figures include £75,000 CDFI funding for three businesses in Tamworth and £100,000 from venture capital funds for one business in the town.

Companies can also receive advice including free business Health Checks from Business Link. The Health Check looks at the whole of a business operation including strategy, markets, productivity, skills and finance.

In the year to March 2009 Business Link West Midlands provided the following support to businesses in Tamworth:

(i) In-depth reviews with 121 businesses and skills reviews with a further 58 businesses

(ii) Information support to 825 businesses

The support provided to businesses in the rest of Staffordshire in the year to March 2009 was as follows:

(i) In-depth business reviews with 1,753 businesses and skills reviews with a further 682 businesses.

(ii) information support to 9,167 businesses

Business Link also provided information about starting a business to 319 individuals in Tamworth and 3,035 in the rest of Staffordshire, helping 31 businesses in Tamworth and 396 in the rest of the county to start during the year.

Business Link has also run business clinics and credit crunch and other events throughout Staffordshire. UK Trade and Investment assistance with exporting is provided by through the Staffordshire International Trade Team based at the North Staffordshire Chamber.

Social Work: Higher Education

Michael Gove: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* applicants and *(b)* successful applicants there were for General Social Care Council-accredited social work degree courses in each of the last 10 years. [287254]

Mr. Lammy: Prior to 2005, parallel to the main UCAS system administering admissions for social work degrees, UCAS operated the Social Work Admissions System (SWAS), for entry on to diplomas in social work. Entry to diplomas in social work was last available for 2004 entry—these were replaced by three-year social work degree courses or two-year postgraduate diplomas. The admissions for the degrees and some postgraduate masters diplomas were absorbed into mainstream UCAS for 2005 entry. The figures in the table include applicants to full-time first degree courses only.

From 2002 entry, UCAS switched from using the Standard Academic Classification of Subjects (SCAS) to the Joint Academic Coding System (JACS).

The information is in the following table:

UK domiciled applicants and accepted applicants to full-time first degree social work courses in UK institutions 1998-2008

Academic year of entry	*Applicants*	*Accepts*
1998	5,852	1,782
1999	5,901	2,045
2000	5,938	2,180
2001	5,787	2,343
2002	5,766	2,458
(Change in coding of subjects)		
2003	7,443	3,184
2004	11,768	5,036
(SWAS merged with main UCAS system)		
2005	15,215	5,820
2006	15,720	6,152
2007	17,025	6,821
2008	16,828	7,308

Applicants data refers to applicants making at least one choice to a full-time first degree course in social work (applicants applying solely to higher national certificates, higher national diplomas, foundation degrees or postgraduate masters diplomas are not counted).

Accepted applicant data refers to applicants being accepted to a full-time first degree course in social work.

Spaceflight

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what assessment his Department has made of the merits of establishing a space agency for the UK; and what estimate he has made of *(a)* the likely cost and *(b)* the number of staff that would be required for the functioning of such an agency. [278671]

Mr. Lammy *[holding answer 8 June 2009]:* The Minister for Science and Innovation has discussed with the British National Space Centre partnership to determine whether a formal assessment should be undertaken on the structure of BNSC. As a result, a public consultation on how UK civil space activities can best be funded and managed will be launched formally on 22 July to take on board the wider views of stakeholders and the general public.

Strategic Investment Fund

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills (1) whether *(a)* charities and *(b)* public sector bodies will be eligible for (i) grants and (ii) loans under the Strategic Investment Fund; [285034]

(2) when he expects to publish plans for the allocation of funding from the Strategic Investment Fund; [285035]

(3) what categories of businesses will be eligible for *(a)* grants and *(b)* loans under the Strategic Investment Fund. [285036]

Mr. McFadden: The aim of the Strategic Investment Fund is to help ensure that the UK remains well positioned to emerge from the economic downturn in a globally competitive position. Although the SIF it is not a fund

to which businesses, charities or public sector organisations can apply directly, BIS seeks and continues to welcome a broad engagement with business and other organisations to understand opportunities and challenges they face as well as the areas in which Government action can have a bigger impact.

Investments will be prioritised on where there are economic opportunities for UK-based businesses and where government action can make a real and beneficial impact. All proposals will be appraised to ensure that they have a clear rationale, that Government intervention will make a difference and that they provide good value for money in delivering longer term benefits to the UK wide economy. The project portfolio will seek to ensure that funds are complementing markets and that interventions are prioritised on the basis of scale of impact on the economy through addressing barriers to growth in areas of opportunity.

There are number of proposals currently being considered to help deliver the Government's strategy as set out in the 'Building Britain's Future - New Industry New Jobs' document published on 20 April 2009. Within the context of that document the Government will be bringing forward more detailed statements of policy in the weeks and months ahead. A number of these may draw on the Strategic Investment Fund.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what criteria his Department will use to determine what spending under the Strategic Investment Fund will qualify as low-carbon spending. [285037]

Mr. McFadden: The first investments from the £250 million of funding allocated for low carbon economic development were set out in the Low Carbon Industrial Strategy on 15 July. All funding will be allocated, examining the costs and benefits, consistent with Green Book criteria.

Students: Hampshire

Sandra Gidley: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged *(a)* 21 years and under and *(b)* over 21 years in each socio-economic group who were resident in (i) Test Valley borough and (ii) the City of Southampton attended university in each of the last five years. [288399]

Mr. Lammy: The number of full-time undergraduate enrolments at UK higher education institutions from Test Valley census district is given in table 1, and from Southampton local authority in table 2. Enrolments are given by socio-economic classification and by age group (under 21 and 21 and over). Socio-economic class information is not available for part time higher education students.

Figures for the 2008-09 academic year will be available from the Higher Education Statistics Agency in January 2010.

Table 1: Full-time undergraduate enrolments from the Test Valley census district[1] by age and socio-economic classification[2], UK higher education institutions, academic years 2003-04 to 2007-08

	2003-04		2004-05		2005-06		2006-07		2007-08	
Socio-economic classification	*<21*	*21+*	*<21*	*21+*	*<21*	*21+*	*<21*	*21+*	*<21*	*21+*
Higher managerial and professional occupations	290	15	380	65	370	115	400	125	420	140
Lower managerial and professional occupations	240	25	335	70	330	120	340	120	350	115
Intermediate occupations	135	25	190	50	180	65	180	65	175	70
Small employers and own account workers	35	10	60	20	75	20	75	25	65	30
Lower supervisory and technical occupations	30	5	35	10	40	15	50	15	45	20
Semi-routine occupations	45	20	75	35	85	40	85	45	70	50
Routine occupations	25	5	30	15	30	15	25	15	20	20
Never worked and long-term unemployed[3]	0	0	0	0	0	0	0	0	0	0
Total known	805	105	1,105	270	1,115	395	1,150	405	1,145	445
Missing[4]	440	575	185	435	215	280	215	230	235	205

[1] The table does not include enrolments where the census district of the student cannot be established due to missing or home postcodes.
[2] This field collects the socio-economic classification of students participating in HE if 21 or over at the start of their course or parental classification if under 21.
[3] Information is not comprehensively collected on the "Never worked and long-term unemployed" category for students. Students who fit this group are usually classed as having missing information.
[4] Covers students whose socio-economic classification was missing or not classified: not classified includes occupations which were inadequately described, not classifiable or unstated.

Note:
Figures are based on a HESA standard registration population and have been rounded up or down to the nearest five, so components may not sum to totals.

Higher Education Statistics Agency (HESA)

Students: Housing

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many students lived at home while studying in the most recent year for which figures were available. [287830]

Ian Lucas: The latest available information from the Higher Education Statistics Agency (HESA) shows that, in the academic year 2007-08, 267,965 UK domiciled full-time students enrolled at UK Higher Education Institutions lived at a parental or guardian home while studying.

In total there were 1,201,975 UK domiciled full-time students enrolled at UK Higher Education Institutions in 2007-08. Therefore, 22 per cent. of full-time students lived at a parental or guardian home while studying.

Figures for the 2008-09 academic year will be available in January 2010.

Students: Loans

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many career development loans were taken out for study *(a)* in each subject area and *(b)* at each level of education in each of the last three years for which figures are available. [287028]

Kevin Brennan: Regular management information collected by the Learning and Skills Council on learners taking out career development loans is based on information provided by the high street banks that offer the loans. This classifies loan applications by courses linked to specific sectors, but not by specific subject areas or levels. Data classifying loan applications by subject area and level are available periodically through snapshot evaluation activity. Currently available evaluation does not cover the last three years.

Telephones

Mr. Breed: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department has taken to combat the practice of moving a telephone subscriber's account from one service provider to another without the subscriber's authorisation; and if he will make a statement. [281715]

Mr. McFadden: Responsibility for mis-selling lies with the Office of Communications (Ofcom) which is committed to preventing problems related to mis-selling and slamming (where a telephone service is switched to another provider without the customer's knowledge or consent), and has put various safeguards in place to protect consumers from such risks.

In May 2005 Ofcom introduced new rules to combat slamming, which require all providers of fixed-line telecommunications services to residential consumers and small to medium sized enterprises (SMEs) to establish, and comply with, a sales and marketing code of practice consistent with Ofcom guidelines. Compliance with the codes is enforceable by Ofcom under the Communications Act 2003 and they can require telecoms providers to remedy the consequences of any breach and can ultimately levy a financial penalty (up to 10 per cent. of relevant turnover) if they do not do so.

In June 2006 Ofcom imposed the maximum financial penalty of 10 per cent. of relevant turnover on Just Telecomms UK Ltd (trading as Lo-Rate Telecom). This decision reflected the serious nature of the contravention. In addition to imposing a financial penalty, Ofcom is also requiring this company to:

pay refunds to affected customers where appropriate;

provide weekly reports to Ofcom on customer contact and refunds paid; and

fully co-operate with, and comply with the adjudications of, the Telecommunications Ombudsman scheme (Otelo).

Ofcom also monitors complaints received through its Advisory Team concerning instances of slamming and they will take action against providers who persistently act contrary to the guidelines.

There are a number of safeguards built into the switching process. Customers must be sent a 'notification of transfer' letter informing them that the switch is happening. There is a 10 day switchover period during which time the customer is able to stop the order going ahead. Typically the customer will receive two letters during the switchover period—one from both their losing and gaining telephone companies.

Ofcom is currently consulting on proposals to strengthen the existing safeguards in this area in order to ensure better protection for consumers and to enable it to take more effective action against providers that break the rules. The consultation closed at the end of May and Ofcom is now reviewing the responses, and expects to publish a statement later in the year.

Train to Gain Programme: Expenditure

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department has spent under the Train to Gain scheme in each year of its operation in each sector of the economy as classified by Sector Skills Council. [284246]

Kevin Brennan *[holding answer 3 July 2009]:* Train to Gain is a service for employers which puts buying power and information in their hands, giving them better access to a wider range of opportunities for improving the skills of their employees and the productivity of their business. Evaluations show that a wide spread of industry sectors are accessing the service.

The expenditure for Train to Gain is an operational matter for the national Learning and Skills Council (LSC). They do not generally break down information on Train to Gain spend by Sector Skills Council (SSC). However, they are able to provide a breakdown of learner starts by sector and actual costs where possible. I have asked Geoff Russell, the LSC's chief executive, to write to the hon. Member with the relevant information. A copy of his reply will be placed in the Library.

Training: Disabled

Mr. Hancock: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of the budget of the Learning and Skills Council for 2009-10 will be used in the training of people with a learning disability. [260532]

Kevin Brennan: As announced in the LSC grant letter, Government investment strategy and LSC statement of priorities (published 18 November 2008), investment in participation for learners aged 16 and over is planned to increase to over £10 billion in 2009-10.

As set out in the same publication, the LSC are committed to continuing development of the provision and support available to learners with learning difficulties and/or disabilities. This will help us realise the vision set out in the learning for living and work strategy that people with learning difficulties and/or disabilities have access to, and experience of, post-16 learning that is equal to that experienced by their peers without learning difficulties and/or disabilities.

When accessing mainstream LSC-funded further education courses, learners have the option to self-declare as having a learning difficulty and/or disability. It is therefore possible to provide historical, but not projected, spend.

Total spend on self-declared learners was £874 million in 2006-07, and £923 million in 2007-08. This relates to funding for the programme costs of provision delivered through further education colleges. It does not include funding for provision delivered in the workplace, as data are not reported in this way.

In addition, there is a separate budget for specialist LDD provision. This funds learners with LDD learning in independent, specialist providers. For 2009-10, the budget for this provision will be £236 million.

Training: Trade Unions

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills what skills courses funded by his Department are provided by trade unions. [280080]

Mr. McFadden: Trade unions have not provided any skills courses funded by the Department for Business, Innovation and Skills.

Unemployment

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of people aged 16 to 24 were not in education, employment or training in each *(a)* region and *(b)* local authority area in the first quarter of (i) 2001 and (ii) 2009. [283992]

Kevin Brennan *[holding answer 14 July 2009]:* Table 1 shows the number and percentage of people aged[1] 16 to 24 not in education, employment or training by region. These estimates are from the Quarter 1 Labour Force Survey (LFS).

Table 2 shows the number and percentage of people aged[1] 16 to 24 not in education, employment or training by Local Education Authority (LEA). The estimates for 2008 are from the Annual Population Survey (APS) which covers the period January to December, and the estimates for 2001 are from the Annual Local Area Labour Force Survey (ALALFS), the predecessor to the APS, which covers the period March 2001 to February 2002. Due to the small populations of local authorities, the LFS does not have large enough sample sizes to produce reliable estimates for geographies such as LEAs. Therefore we have used the latest APS (2008) which has a larger sample size, and have provided estimates for LEAs as estimates are too unreliable for smaller geographies. Please note that even for regions, sample sizes can be small and these estimates are subject to sampling variability. Numbers have been rounded to the nearest thousand, and typical confidence intervals for these percentages are between 2 and 3 percentage points for regional estimates, and between 3 and 9 percentage points for local authority estimates.

Table 1: People aged 16 to 24 not in education, employment or training by region

	Q1 2001		Q1 2009	
	NEET (number)	Percentage	NEET (number)	Percentage
England	671,000	13	935,000	16
North East	56,000	20	57,000	18
North West	113,000	16	156,000	18
Yorks and Humber	80,000	15	107,000	16
East Midlands	57,000	13	69,000	13
West Midlands	81,000	15	126,000	20
East of England	61,000	12	83,000	14
London	101,000	12	127,000	14
South East	76,000	10	130,000	14
South West	45,000	10	78,000	14

[1] Age used is the respondent's academic age, which is their age at the preceding 31 August.

Union Modernisation Fund

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills (1) with reference to the Answer to the hon. Member for Chichester (Mr. Tyrie) of 19 February 2008, *Official Report*, column 658W, on the Union Modernisation Fund: audit, which accountancy firms have undertaken audits on union modernisation fund profits since the date of that Answer; [288631]

(2) if he will place in the Library a copy of each evaluation report of the Union Modernisation Fund produced by his Department in conjunction with Leeds University Business School; [288668]

(3) for what reason no minutes are kept of the Union Modernisation Fund Supervisory Board meetings; [288672]

(4) what declaration of past and present union activity and membership each current member of the Union Modernisation Fund Supervisory Board has made; [288676]

(5) what related party transactions have been declared by each of the Union Modernisation Fund Supervisory Board members; [288677]

(6) if he will place in the Library a copy of the protocol adopted by the Union Modernisation Fund Supervisory Board on conflicts of interest. [288678]

Mr. McFadden: I shall take the answers together and in order.

Since my response to the hon. Member for Chichester on 19 February 2008, *Official Report*, column 658W, the additional companies listed have undertaken reports to confirm claims and expenditure from the Union Modernisation Fund.

Naylor Wintersgill
Knox Cropper
H K Jenkins FCCA
BDO Stoy Hayward LLP
Nabarro

Brooks Green
UHY Hacker Young
RSM Bentley Jennison

The independent accountants' reports have confirmed that none of the project costs claimed have been calculated to include any profit.

A copy of the final evaluation report of the first round of the Union Modernisation Fund produced by my Department in conjunction with Leeds University Business School will be published shortly and placed in the Libraries of both Houses. Copies of the two interim evaluations of the first round are available on the Department's website, and we will ensure that they are available from the Libraries.

An action record of decisions is taken at Supervisory Board meetings in line with the Board's terms of reference and these are communicated to Ministers by the Board's secretariat and to the applicants of all bids.

Members of the Union Modernisation Fund Supervisory Board are selected by open competition in accordance with the Commissioner for Public Appointments' Code of Practice for Ministerial Appointments to Public Bodies, with support from the Office of the Commissioner for Public Appointments. As part of that appointment process, applicants must declare relevant experience and give details of potential conflicts of interest. All appointment letters set out the Nolan Principles of Public Life, which are the foundations of the public appointments process and provide guidance on the standards expected of public appointees. All members declare their political activities at the time of application to the Board. Board members are reminded of the need to observe the rules on conflict of interest when assessing bids.

United Kingdom Atomic Energy Authority

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the *(a)* minimum and *(b)* maximum proportion of the UK Atomic Energy Authority Ltd which will remain under Government control following the completion of a sale of a majority stake. [285838]

Ms Rosie Winterton: There is no 'minimum or maximum' estimation of the proportion of the share capital of UKAEA Ltd. which will remain under Government control following a sale process. Up to 100 per cent. of UKAEA Ltd.'s share capital has been offered for sale, but bidders have been permitted to bid for a lower proportion if they believed that this would result in a more attractive proposition for HMG.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what representations *(a)* the Secretary of State and *(b)* his predecessors have received from the management of the UK Atomic Energy Authority Ltd in favour of a sale of all or part of the business since 1997; on what dates such representations were received; and what factors were taken into account in determining the response to such representations. [285839]

Ms Rosie Winterton: The process for the sale of the business has been approved by the UK Atomic Energy Authority's Board in consultation with its financial adviser and UKAEA Ltd.'s management. The recommendation has been approved by the Secretary of State after taking into account key areas of the board's consideration.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the likely effect on competition in nuclear site decommissioning of the sale of a stake in the UK Atomic Energy Authority Ltd. [285840]

Ms Rosie Winterton: The introduction of private capital is expected to strengthen UKAEA Ltd. financially as well as permitting it to recruit and retain appropriate skills and expertise. This should allow it to compete more effectively within the nuclear site decommissioning market. This, in turn, is expected to benefit the competitive dynamics of the UK nuclear decommissioning market as a whole.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills which companies have registered an interest in purchasing a stake in the UK Atomic Energy Authority Ltd. [286011]

Ms Rosie Winterton: This information is commercially sensitive during a live sale process.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what account has been taken of the merits of maintaining an international centre of nuclear expertise in the UK in deciding on the future of UKAEA Ltd. [286908]

Ms Rosie Winterton: The skills and nuclear expertise included within UKAEA Ltd. will be enhanced by private sector ownership. UKAEA Ltd. is one of several service providers of nuclear decommissioning services to the Nuclear Decommissioning Authority. The NDA contracts with a broad rangeof UK and international businesses to manage decommissioning more effectively at its various sites. Contracts are awarded by the NDA by way of a competitive process.

United Kingdom Atomic Energy Authority

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what the reasons are for his decision to sell a majority stake in UKAEA Ltd; and what criteria he will apply to determine the suitability of potential purchasers. [285853]

Ms Rosie Winterton *[holding answer 13 July 2009]:* The decision to sell UKAEA has been motivated by the objective of supporting the continuity of UKAEA Ltd's operations. A sale is expected to provide UKAEA Ltd. with access to the resources that it requires to participate effectively in the forthcoming Nuclear Decommissioning Authority competitions. The sale process has been opened to all categories of bidder who, inter alia, will need to satisfy the Secretary of State and the NDA with regard to their suitability as an experienced and responsible future owner of the business.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what the capital value of the assets of UKAEA Ltd was in each of the last five years. [285854]

Ms Rosie Winterton *[holding answer 13 July 2009]:* UKAEA Ltd. was dormant until 1 April 2008. Audited statutory figures are not yet available for 2008-09.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what net financial contributions have been made by UKAEA Ltd to *(a)* the UK Atomic Authority and *(b)* the Exchequer in each year since 1997; and what the Government's most recent estimate of future such contributions in the next three years was prior to the decision to sell a majority stake in UKAEA Ltd. [285860]

Ms Rosie Winterton *[holding answer 13 July 2009]:* UKAEA Ltd. was dormant until 1 April 2008 hence there were no financial contributions from UKAEA Ltd to either the UK Atomic Authority or the Exchequer.

Although UKAEA Ltd. is forecast to be profitable for the three-year period following the decision to sell, distributions are a matter for the board of the UK Atomic Energy Authority to propose based on their assessment of the overall funding requirements for the authority as a whole.

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills what information the companies which have registered an interest in purchasing a stake in UKAEA Ltd have communicated to his Department in respect of their expertise in nuclear technology. [286856]

Ms Rosie Winterton: All final round bidders for UKAEA Ltd. have been asked to provide a detailed offer. As part of this, they will need to respond to a data request to fully clarify their operating credentials. The precise nature of the questions contained in the data request and the information that is ultimately received from interested parties is commercially sensitive.

Vehicle Scrappage Scheme

Daniel Kawczynski: To ask the Minister of State, Department for Business, Innovation and Skills what steps have been taken to prevent the destruction of classic cars under the vehicle scrappage scheme. [288601]

Ian Lucas: It is for the owners of a vehicle to decide what they wish to do with their own property.

David Taylor: To ask the Minister of State, Department for Business, Innovation and Skills how many vehicles of each *(a)* age and *(b)* make had been scrapped under his Department's scrappage scheme by the latest date for which figures are available. [288684]

Ian Lucas: Government have approved or made payments for 29,542 completed transactions (a requirement of which is that a Certificate of Destruction on the old car has been obtained before the claim is made) and further claims are in the pipeline. BIS does not directly collect data on the age of vehicles scrapped, although they must have been registered in the UK before 31 August 1999. We will be publishing information on the makes of vehicles scrapped in due course.

Vocational Training

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills which 10 vocational training courses funded by his Department had the lowest participant job entry rate after completion in the last 12 months. [287740]

Kevin Brennan: Information on the job entry rate for vocational courses is not available.

Our vocational qualification reforms are creating a more flexible qualifications and skills system whereby qualifications are closely aligned to the real needs of employers and employers have a real say in what qualifications are needed across occupational areas. Sector skills councils (SSCs) have a key role in developing vocational qualifications based on their sector's needs and will only approve qualifications that fit their skills requirements and, in future, the skills funding agency will only fund those qualifications which SSCs advise them to. Allowing and encouraging employers to get their training accredited onto the new qualifications and credit framework also ensures demand-led qualifications based on employers needs.

Information on the number of awards of national vocational qualifications/Scottish vocational qualifications and vocationally related qualification (VRQs) is published in a statistical first release, including information on the subjects with the largest volume of awards. Tables 1 and 2 as follow provide information on the number of NVQ/SVQ and VRQ awards by sector subject area.

Table 1: NVQ/SVQ awards by sector subject area, 2007-08, coverage: UK

Sector subject area	*Total awards (000s)*
Total UK awards	773.2

Wind Power

Chris Huhne: To ask the Minister of State, Department for Business, Innovation and Skills if he will estimate the *(a)* number of British companies which build wind turbines and *(b)* size of the workforce of each such company. [278379]

Mr. Kidney: I have been asked to reply.

The recent Innovas (2009) report for BIS, "Low Carbon and Environmental Goods and Services: an industry analysis", estimated the number of companies, both British and foreign-owned, in the UK wind sector in the financial year 2007-08 at around 5,800. The definition of this sector includes the manufacture of wind turbines, but also whole wind farm systems and their associated supply chains.

The same report estimates UK wind sector employment in 2007-08 at around 87,000. This would imply an average of 15 workers per company across the whole wind sector.

Separate estimates of the number of and employment in British-owned companies building wind turbines are not available.

Working Hours

Mr. Redwood: To ask the Minister of State, Department for Business, Innovation and Skills whether there are restrictions on the number of hours a person who is *(a)* self-employed and *(b)* a chief executive officer of a major (i) public body and (ii) private corporation may work. [287593]

Mr. McFadden: The Working Time Regulations 1998, which govern the maximum number of hours a person may work, apply to individuals who are considered to be "workers" as defined in the regulations. The self employed, who are in business on their own account, are not usually regarded as "workers" as they are in effect their own boss. There are specific exemptions from certain provisions in the regulations for managing executives or other persons with autonomous decision-taking powers.

An individual's contract with a public or private corporation will determine if that person is covered by the regulations.

Working Hours: Members

Mr. Redwood: To ask the Minister of State, Department for Business, Innovation and Skills whether EU Working Time Directive restrictions on working hours apply to hon. Members when *(a)* acting as constituency Members and *(b)* undertaking duties in the House. [287591]

Mr. McFadden: The regulations implementing the Working Time Directive in the UK apply to "workers". A "worker" is someone who works under a contract of employment or a contract to perform personally any work or services for another party whose status is not that of a client or customer. Holders of political and elected office are not regarded as "workers" and are therefore not covered by the regulations.

Mr. Redwood: To ask the Minister of State, Department for Business, Innovation and Skills whether there is a restriction on the number of hours an hon. Member may work in their capacity as *(a)* a hon. Member and *(b)* a Minister. [287592]

Mr. McFadden: The Working Time Regulations 1998, which govern the maximum number of hours a person may work, apply to individuals who are considered to be "workers" as defined in the regulations.

A "worker" is someone who works under a contract of employment or a contract to perform personally any work or services for another party whose status is not that of a client or customer. Holders of political and elected office are not regarded as "workers" and are therefore not covered by the regulations.

Working Hours: Ministers

Mr. Redwood: To ask the Minister of State, Department for Business, Innovation and Skills whether EU Working Time Directive restrictions on working hours apply to Ministers in the performance of their ministerial duties. [287590]

Mr. McFadden: The regulations implementing the Working Time Directive in the UK apply to "workers". A "worker" is someone who works under a contract of employment or a contract to perform personally any work or services for another party whose status is not that of a client or customer. Holders of political and elected office are not regarded as "workers" and are therefore not covered by the regulations.

WorldSkills Calgary 2009

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills how many officials his Department plans to send to WorldSkills Calgary 2009. [285527]

Kevin Brennan: The Department will be sending one official to the WorldSkills Calgary 2009 event.

Written Questions: Government Responses

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question 280003, tabled on 10 June 2009, on the Automotive Assistance Programme. [281283]

Ian Lucas: I replied to the hon. Member on 23 June 2009, *Official Report*, column 870W.

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what the reasons are for the time taken to answer question 245130, tabled on 15 December 2008, on replies to correspondence. [286350]

Kevin Brennan *[holding answer 16 July 2009]:* I am responding to the hon. Member today.

Mr. Timpson: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to provide a substantive answer to question 284440, on national skills academies, tabled on 1 July 2009. [287131]

Kevin Brennan *[holding answer 16 July 2009]:* I refer the hon. Member to the answer I gave on 13 July 2009, *Official Report*, column 198W.

Yes Loans

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 17 June 2009, *Official Report*, column 422W, on Yes Loans, when he expects a decision to be made on the renewal of the consumer credit licence for Yes Loans. [285460]

Kevin Brennan: The Office of Fair Trading carried out a detailed investigation into Yes Loans and its business practices and on 13 July 2009 it imposed multiple requirements on the company to change its behaviour and to cease certain business practices. Any single failure to comply with these requirements, now or in the future, can result in a fine of up to £50,000 per occasion.

Following the OFT's requirements, which were imposed upon the company, a renewed credit licence will be issued in due course. The exact timing for reissuing Yes Loans licence is a matter for the OFT.

Written Answers to Questions

The following Justice answers were received for publication on Monday 20 July 2009

JUSTICE

Youth Justice Board: Consultants

David Howarth: To ask the Secretary of State for Justice how many consultants the Youth Justice Board has employed in each financial year since 2003-04; and how many such consultants were paid *(a)* between £10,000 and £100,000, *(b)* between £100,000 and £200,000, *(c)* between £200,000 and £300,000 and *(d)* over £300,000 in each such year. [282003]

Maria Eagle: The Youth Justice Board does not normally hire individual "consultants". If consultancy services are required for normal youth justice business, specific companies are procured to carry out defined pieces of work. The consultancy firm then decides how many staff they employ to deliver the work and the appropriate pay rates.

However, in specific specialist circumstances the YJB procure the services of named consultants to represent the YJB's interests in specialist matters, and to manage the delivery of specialist work, such as ICT. The table below shows the number of such consultants providing services to the YJB, per year and per amount received by these individuals.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
£10-100,000	27	27	16	28	69	59
£100-200,000	0	1	2	7	21	21
£200-300,000	0	0	1	1	1	1
£300,000+	0	0	0	0	0	1

Aylesbury Young Offender Institution

Dr. Vis: To ask the Secretary of State for Justice how many boys have been physically restrained in Aylesbury Young Offender Institution in each month since January 2009; and whether injuries were sustained by the young offender in each case. [286869]

Maria Eagle: Restraint is only ever to be used by staff as a last resort, when all other approaches have either not succeeded or would not be appropriate.

Because of violent and sometimes dangerous behaviour, there are occasions on which use of physical restraint is unavoidable. We must consider the interests and safety of everyone in the establishment—other young people, staff and visitors—as well as that of the young person whose behaviour is causing problems.

The number of incidents of control and restraint, together with the number and type of injuries sustained as a result, are set out in the table. The figures have been provided from records held at the establishment.

	Number of C and R incidents	*Number of injuries as a result of C and R*
January	12	1
February	22	1
March	29	1
April	23	2
May	22	5
June	17	0
Total	125	10

Complaints

Mrs. Laing: To ask the Secretary of State for Justice how many complaints the Office for Legal Complaints dealt with in the last 12 months. [287187]

Bridget Prentice: The Office for Legal Complaints has not considered any complaints in the past 12 months, as it is not as yet fully operational. Under current plans, this is expected to take place later in 2010. Until that time, complaints about the legal profession will continue to be handled by the professional bodies in the first instance with the Office of the Legal Services Ombudsman providing an appeal mechanism.

Convictions: Young Offenders

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* 10 to 12, *(b)* 13 to 15, *(c)* 16 to 17 and *(d)* 18 to 21-year-olds were (i) convicted and (ii) issued with a caution for all offences in each police force area in each year since 1997. [286611]

Claire Ward: The number of persons found guilty at all courts and issued with a caution for all offences in England and Wales, by age group and police force area, 1997 to 2007 (latest available) are shown in tables that have been placed in the House Library.

From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These data are included in tables 5 to 8.

The Government's strategy and reforms on youth crime are working; the latest National Statistics on juvenile reoffending show that the level of juvenile reoffending is at its lowest since records for the frequency of reoffending began in 2000, with the juvenile reoffending rate down by almost a quarter between 2000 and 2007.

Cautions and court proceedings data for 2008 will be available in the autumn of 2009.

Departmental Contracts

Mr. Garnier: To ask the Secretary of State for Justice how many facilities management contracts have been let by his Department in each of the last 12 years. [288374]

Mr. Wills: The Ministry of Justice (MoJ) was formed in May 2007 by merging the National Offender Management Service from the Home Office with the Department of Constitutional Affairs and the Office of Criminal Justice Reform. Data in respect of the number of facilities management contracts were not therefore held centrally prior to this time, and were not subsequently held centrally prior to June 2009.

However, a data collection exercise which concluded in June 2009 has determined that a total of 227 contracts for managed, hard and soft facilities management services are in existence across the MoJ.

Departmental Manpower

Mr. Grieve: To ask the Secretary of State for Justice with reference to the answer of 26 November 2008, *Official Report*, column 1662W, on departmental manpower, how many *(a)* special advisers and *(b)* press officers were employed by his Department in (i) 2007-08 and (ii) 2008-09. [285321]

Mr. Straw: The Ministry of Justice (MoJ) was formed in May 2007. The number of press officers employed by the MoJ in 2007-08 (as at 31 March 2008) was 33. The number employed in 2008-09 (as at 31 March 2009) was 40. This includes a member of staff on maternity leave. The MoJ press office operates 24 hours a day, 365 days a year, dealing with all media relations for the department and the National Offender Management Service (NOMS) from the international, national and regional media. The MoJ is one of the largest Departments in Government. It is right that the public know and understand the work of the MoJ and its agencies and how taxpayers' money is being spent. Communications, including the work of the press office, is an important element of this. The rise in the number of press officers is attributable to the need to increase the capability of the press office to deal with the expanded remit of the work undertaken by the MoJ, compared to its previous incarnations, and to fill vacancies.

Between April 2007 and July 2007, two special advisers were employed. These changed with the change of Secretary of State, so that between August 2007 and March 2008, two different special advisers were employed. The same two continued to be employed throughout 2008-09 and remain in post.

Departmental Security

Danny Alexander: To ask the Secretary of State for Justice how many breaches of security have been reported at *(a)* HM Courts Service, *(b)* the Land Registry, *(c)* the National Offender Management Service, *(d)* the National Archives, *(e)* the Office of the Public Guardian and *(f)* the Tribunals Service in the last five years; and what procedures each agency follows when a breach of security involves the disclosure of personal data. [276934]

Mr. Straw: Ministry of Justice (MOJ) records as incidents any breach of security rules or events that have resulted in or had the potential to result in the loss of, damage to or harm to assets. The total number of centrally recorded security breaches/incidents occurring within the last five reporting years for the agencies/offices requested are broken down as follows:

	2008-09	2007-08	2006-07	2005-06	2004-05
HM Courts Service	744	940	1,010	641	295
Land Registry	77	82	76	92	77
National Offender Management Service	8,538	8,800	8,621	8,740	8,419
National Archives	0	0	1	1	1
Office of the Public Guardian	3	0	0	0	0
Tribunals Service	224	215	164	[1]	[1]

[1] Agency not created.

98 per cent. of the incidents occurred in prisons and courts. This needs to be put into the context of the challenges faced with work in the high-risk prison environment.

The Ministry of Justice is applying the Government's Security Policy Framework to effectively, efficiently and reliably control risks across its organisation.

This comprises the requirement for all areas to apply procedures for reporting security incidents robustly, including the identification and investigation of the departure, however minor, from all security procedures.

The outcome is an evidently effective security management regime which in 2008-09 saw the lowest number of escapes from prisons to date; abscond performance is good and improving.

Where incidents involve the inadvertent disclosure of personal data these include the requirement to involve managers and Senior Civil Servants within an hour of any potential disclosure being identified. The circumstances surrounding each potential incident are investigated and where appropriate disciplinary action is taken.

These figures differ from those provided by me in a written answer to the hon. Member for Beaconsfield (Mr. Grieve) on 29 April 2009, *Official Report*, columns 1327-28W. I will be writing to the hon. Member for Beaconsfield and will issue a corrected answer to be printed in the *Official Report*.

The figures in this answer include an additional 4,507 security incidents/breaches relating to operational breaches of security in prison establishments. These mostly relate to the smuggling of drugs into prisons.

Drugs misuse as measured by random mandatory drug testing has decreased by 63 per cent. since 1996-97, principally as a result of an effective offender management and prisoner support regime, combined with prison governors deploying a comprehensive range of robust security measures to detect contraband and prevent its importation into prisons.

Director of Offender Management

Mr. Drew: To ask the Secretary of State for Justice when he expects the appointment of the Director of Offender Management in each region in England and Wales to be complete. [286582]

Maria Eagle: Appointments were made in eight of the nine regions in England and the one in Wales. The successful candidates took up post in late March and during April 2009.

There is currently an interim appointment in place in the north east. This post is due to be advertised in September with a view to filling it substantively by the end of the calendar year.

Drugs: Prisons

Jenny Willott: To ask the Secretary of State for Justice what quantity of drugs of each type has been confiscated from prisoners in each prison in each of the last five years; and if he will make a statement. [286491]

Maria Eagle: To compile the data requested requires a lengthy and detailed interrogation of a National Offender Management Service (NOMS) database such that to answer this question would exceed the cost limit.

NOMS is currently part-way through the roll-out of Prison-NOMS Information System and this is due to be completed in 2010. Although this new system will not be updated with old data, any new drugs incidents in prisons will be entered onto it, meaning requests for information such as this will in future be possible to answer within the cost limit and with relative ease.

Fraud: Forgery

Paul Holmes: To ask the Secretary of State for Justice how many people have been *(a)* investigated, *(b)* cautioned, *(c)* tried and *(d)* convicted for offences relating to fraud and forgery in each year since 1997. [286981]

Claire Ward: The number of persons cautioned, proceeded against at magistrates courts and found guilty at all courts, for offences relating to fraud and forgery, in England and Wales, 1997 to 2007 (latest available) is shown in the table.

The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

Proceeded against and found guilty data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Information on the number of people who have been investigated for offences relating to fraud and forgery is not held by my Department.

Court proceedings data for 2008 will be available in the autumn of 2009.

The number of persons cautioned, proceeded against at magistrates' courts and found guilty at all courts, for selected offences relating to fraud and forgery in England and Wales, 1997 to 2007[1,2,3,4,5,6]

	Cautioned	*Proceeded against*	*Found guilty*
1997	7,156	24,114	17,006
1998	7,401	27,418	19,753
1999	7,204	28,434	20,303
2000	6,180	26,881	19,222
2001	5,764	25,764	18,282
2002	5,335	25,014	18,141
2003	5,484	24,739	18,019
2004	6,033	23,552	18,140
2005	6,936	23,110	18,449
2006	8,024	22,705	18,186
2007	8,587	24,170	19,932

[1] The offence group of Fraud and Forgery includes 'Indictable only' and 'triable-either way offences', it does not include summary offences. 'Indictable only' are the most serious breaches of the criminal law and must be dealt with at the Crown Court. 'Triable-either-way offences' may be tried at either the Crown Court or at magistrates courts.

[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. These figures have been included in the totals.

[3] The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

[4] Fraud and Forgery includes the following offence classes:
Fraud by Company Director etc.
False Accounting
Other Fraud
Bankruptcy Offence
Forgery etc. of Drug Prescription
Other Forgery etc.

[5] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[6] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces (police forces only for cautions though). As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
OCJR—E&A: Office for Criminal Justice Reform—Evidence and Analysis Unit, Ministry of Justice

Grants

Mr. Grieve: To ask the Secretary of State for Justice how many grants have been made by the Office for Criminal Justice Reform in the last 12 months; and what the total amount of those grants is. [287130]

Mr. Straw: During 2008-09, OCJR made 174 grants totalling £49.9 million. Of this, £37.0 million was funding to Victim Support for nationwide services to victims and witnesses.

National Offender Management Service

Mr. Wallace: To ask the Secretary of State for Justice pursuant to paragraph 9.21 of the UK Strategy for Countering International Terrorism, Cm 7457, how many Muslim chaplains have received training from the National Offender Management Service (NOMS); where they are based; what estimate he has made of the size of the population they serve; what other NOMS staff have received further such training; where they are based; and at what cost to his Department the training has been provided. [286111]

Maria Eagle: As part of the National Offender Management Service's programme of work to address the risks associated with violent extremism and radicalisation, a series of briefings, written material, and training events have been delivered at both national and local level to a range of operational and non-operational staff working across prisons and probation, including Muslim chaplains. At present, there is no single central point for management information relating to training for staff across NOMS. Given the range of people employed directly by NOMS in public service prisons and in national and regional offices, as well as those employed directly by probation areas and trusts, obtaining information on associated costs to the Ministry of Justice would involve identifying and contacting sources across numerous locations and prove disproportionately expensive.

Muslim chaplains, working as part of the prison's chaplaincy team, work with the entirety of the prison population, including staff, not just with Muslim prisoners, although figures show that as of March 2009 the Muslim population of the prisons estate stood at 9,930.

National Offender Management Service: Consultants

Mr. Gerrard: To ask the Secretary of State for Justice how much the National Offender Management Service spent on consultants in financial year 2008-09; and how much was spent on consultants specifically for training and development purposes. [278560]

Mr. Straw: Expenditure on external consultants by the National Offender Management Service in the financial year 2007-08 (latest available figures) was £6.9 million of which £3.5 million relates to HM Prison Service.

The information requested for how much was spent on consultants specifically for training and development purposes is not held centrally and would involve a manual trawl of each unit responsible for this work at a disproportionate cost.

National Offender Management Service: Expenditure

Mr. Garnier: To ask the Secretary of State for Justice what the outturn expenditure on *(a)* the National Offender Management Service Head Office and *(b)* the Probation Service was in (i) 2007-08 and (ii) 2008-09. [282855]

Maria Eagle: The information requested is set out as follows:

Financial year 2007-08

National Offender Management Service headquarters

The Resource outturn expenditure for the National Offender Management Service (NOMS) headquarters in 2007-08 as published in the Ministry of Justice Resource Accounts was £1,114 million.

Although the expenditure heading in the published accounts is called NOMS headquarters, the £1,114 million expenditure does not solely represent the administration costs of running NOMS headquarters. The figures in the following table show that the majority of the expenditure related to centrally managed front line services, including electronic monitoring, prisoner escort services and prison and probation property. Other services at the centre of NOMS such as the prison and probation ombudsman, HM Inspector of Prisons and Public Protection are directly related to front line services.

NOMS headquarters expenditure for 2007-08	*£ million*
Administration costs	76
Prison and probation property, estates and capacity planning	557
Electronic monitoring	84
Prisoner escort services (including Operation Safeguard)	212
Other programme expenditure	185
Total resource expenditure	1,114

The administration costs of running NOMS headquarters in 2007-08 were £76 million; or £151 million if HM Prison Service's administration costs are included. This is 1.6 per cent. or 3.2 per cent. respectively of the total NOMS resource expenditure.

The £557 million expenditure on prison and probation property, estates and capacity planning relates to costs associated with the custodial and probation estate including: capital charges; estate management including major maintenance; and, where applicable, rent, rates, insurance and utilities.

The Probation Service

The resource outturn expenditure for the Probation Service in 2007-08 was £845 million as published in the National Probation Service Consolidated Accounts 2007-08.

Financial Year 2008-09

The information cannot be provided because the National Offender Management Service Agency Resource Accounts for 2008-09, and the National Probation Service Consolidated Accounts for 2008-09, have not yet been finalised and audited by the National Audit Office prior to their sign-off by the agency's director general.

Police

Mr. Austin Mitchell: To ask the Secretary of State for Justice what reports he has received of allegations of the systematic gathering of information by the States of Jersey police on elected members of the States of Jersey. [286124]

Mr. Wills: I have received updates about the allegations referred to. This is currently a matter under investigation by the Wiltshire Constabulary at the request of the Government of Jersey. It would not be appropriate for me to comment further at this time.

Political Parties

Mr. Maude: To ask the Secretary of State for Justice what discussions he has had with HM Revenue and Customs on the implementation of the new provisions in the Political Parties and Elections Bill on non-resident donors. [288089]

Mr. Straw: Officials from my Department have had a number of discussions with officials from HM Revenue and Customs on the taxation status provisions in the Political Parties and Elections Bill.

My officials will continue discussions with HM Revenue and Customs, political parties and the Electoral Commission on implementation issues prior to bringing the new restriction into force.

Prison Accommodation

Mr. Garnier: To ask the Secretary of State for Justice how many *(a)* male and *(b)* female prisoners are being held on their own in cells designed for more than one prisoner. [287886]

Maria Eagle: The data requested are not held centrally and would be available only at a disproportionate cost.

Prison Service: Meat

David Taylor: To ask the Secretary of State for Justice what guidance his Department provides to HM Prison Service on the procurement of halal meat; and whether that guidance differentiates between stunned and pre-stunned meat. [287723]

Maria Eagle: All Halal denoted products provided via national NOMS supply contracts to prison establishments are accredited by a certifying Islamic body.

There is no agreed national or international standard for Halal products. Additionally differing views in regard to interpretations of Islamic Law, in particular to stunning and mechanical slaughter issues, further compound the difficulty of fully ensuring consumer confidence among all Muslim prisoners when providing meals.

The NOMS Muslim adviser, together with some Muslim chaplains, has consulted widely on the issue of Halal meat. The work culminated in the introduction of a NOMS Halal Standard which has been agreed by senior Muslim scholars from across all the different Muslim schools of thought. It has also been acknowledged by a senior official at the English Beef and Lamb Executive (EBLEX) as an example of best practice. The Halal Standard together with comprehensive commodity specifications helps ensure that all Muslim prisoners are provided with assured, quality products. Since 1 April 2009, all Halal raw poultry products have been accredited and supplied to this new standard.

If any prisoner has any doubt about the credibility of the Halal menu option offered, despite the introduction of these standards, there is always an option to choose a vegetarian or vegan option as an alternative.

All contracted suppliers are required to comply with Food Quality Standards provided by the authority. This includes the standard for Halal, a copy of which has been placed in the House Library.

The Halal Standard states:

"the animal may be stunned, anaesthetised or otherwise rendered wholly or partially insensible before slaughter."

Prisoners

Mr. Grieve: To ask the Secretary of State for Justice how long on average a prisoner spent in *(a)* production workshops, *(b)* education and *(c)* rehabilitation in each month in the last five years. [285262]

Mr. Straw: The average time a prisoner has spent in *(a)* production workshops, *(b)* education and *(c)* rehabilitation in each month in the last five years is set out in the following table.

Month	*(a) Average hours per prisoner per month in workshops*	*(b) Average hours per prisoner per month in education*	*(c) Average hours per prisoner per month in rehabilitation*
April 2004	2.7	6.2	1.3
May 2004	2.9	6.5	1.3
June 2004	3.2	6.9	1.4
July 2004	3.1	6.8	1.5
August 2004	3.0	6.4	1.3
September 2004	3.3	6.9	1.4
October 2004	3.2	6.9	1.4
November 2004	3.3	6.9	1.5
December 2004	2.7	6.0	1.2

June 2008	2.9	7.4	0.9
July 2008	2.8	7.2	0.9
August 2008	2.7	6.9	0.9
September 2008	2.8	7.2	0.9
October 2008	2.8	7.3	0.9
November 2008	2.8	7.2	0.9
December 2008	2.2	6.0	0.7
January 2009	2.8	7.4	0.9

Month	(a) Average hours per prisoner per month in workshops	(b) Average hours per prisoner per month in education	(c) Average hours per prisoner per month in rehabilitation
February 2009	2.7	7.3	0.9
March 2009	2.8	7.6	0.8

There is a clear drop in the level of activity from 2007-08 onwards. This is in part attributable to the existence of fewer activities following a review of the collation of data as well as their use to monitor and manage prisoner activity.

Prisoners on Remand

Mr. Pelling: To ask the Secretary of State for Justice (1) how many prisoners on remand in each financial year from 2005-06 to 2008-09 were found not guilty of the charges on which they were remanded to prison; and how many days on remand were served on average by such prisoners in each of those years; [285831]

(2) how many prisoners on remand in each financial year from 2005-06 to 2008-09 who were found guilty of the charges on which they were remanded to prison did not return to prison because their period on remand equalled or exceeded the terms of imprisonment that they would have been due to serve on conviction; and how many days on remand on average were served by such prisoners in each of those years. [285832]

Maria Eagle: The estimated number of defendants remanded in custody by all courts in England and Wales for the years 2005, 2006 and 2007 (latest available) who were subsequently acquitted or not proceeded against was 14,500, 12,800, and 11,400 respectively.

The estimated number of defendants remanded in custody by all courts in England and Wales for the years 2005, 2006 and 2007 (latest available) who were subsequently found guilty and sentenced to immediate custody was 41,300, 39,700 and 38,800 respectively. From information held on the Court Proceedings Database, it is not possible to determine how many of these defendants did not return to custody because they had already served their sentence on remand.

These data include those held in custody at any stage during proceedings and relate to the final outcome of the court proceedings. They are taken from the 'Criminal Statistics, England and Wales' publications, 2005-07 which is published annually and presents data by calendar year.

Data from Offender Management Caseload Statistics indicate that during 2007 the average length of time served on remand was 55 days. This figure relates to all defendants and it is not possible to provide separate figures for those defendants who were subsequently acquitted and those subsequently found guilty.

Prisoners: Assaults

Jenny Willott: To ask the Secretary of State for Justice how many *(a)* prisoner on prisoner and *(b)* prisoner on prison officer assaults have been recorded in each prison in each month of 2009 to date; and if he will make a statement. [286487]

Maria Eagle: The information requested is compiled on an annual basis.

The figures for 2009 will be available in early 2010. However, I refer the hon. Lady to the latest information covering the years 2004 to 2008 that I have placed in the Libraries of the House.

Violence in prisons is not tolerated. The National Offender Management Service is working with the police and the Crown Prosecution Service to ensure that perpetrators of violence in prisons are dealt with through the courts where is appropriate to do so.

Prisons: Drugs

Mr. Pelling: To ask the Secretary of State for Justice how much was spent on drug testing in prisons in each financial year from 2002-03 to 2008-09. [285884]

Maria Eagle: Many prison officers responsible for the mandatory drug testing (MDT) process do not work exclusively on the testing of prisoners. The cost of MDT staff resources cannot be disaggregated from the overall prison running costs.

Probation

Sandra Gidley: To ask the Secretary of State for Justice what the ratio of offenders to probation service staff in the Hampshire probation area was in each of the last five years. [281377]

Maria Eagle: The information requested is shown the following table. A data validation exercise is currently taking place on the area work force information for 2008.

	Hampshire
2004	10.5
2005	10.1
2006	10.3
2007	10.6

Probation Officers: Essex

Bob Spink: To ask the Secretary of State for Justice how many *(a)* probation service officers and *(b)* probation officers there were in the Essex probation area in each of the last five years. [286535]

Maria Eagle: The number of probation service officers (PSOs) and probation officers (POs) in Essex probation area in each of the last five years is shown in the table.

Financial year	POs	PSOs	Total frontline
2004-05	78	168	246
2005-06	94	191	285
2006-07	90	183	273
2007-08	81	194	275
2008-09	68	205	273

The trend towards employing larger numbers of PSOs and fewer POs is one that has occurred in many counties and recognises that there are many tasks that can be undertaken by PSOs that historically were completed by POs. In Essex probation area this change was completed

as part of a planned staff restructuring process and was undertaken following full consultation with the local trade unions.

Probation: West Midlands

Mr. Dunne: To ask the Secretary of State for Justice what the average change in caseload for trained probation officers in West Mercia between 2002 and 2007 was. [282643]

Maria Eagle: The average case load per qualified probation officer was 15 orders in 2002 and 23 orders in 2007.

Prosecutions: Metals

Mr. Watson: To ask the Secretary of State for Justice how many people have been prosecuted for offences under the Scrap Metal Dealers Act 1964 in England and Wales in each of the last five years. [288248]

Claire Ward: The number of persons proceeded against at magistrates' courts for offences in relation to the Scrap Metal Dealers Act 1964, in England and Wales for the years 2003 to 2007 (latest available) is shown in the following table. From information held by my department it is not possible to separately identify prosecutions for specific offences detailed within the Act.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of persons proceeded against at magistrates' courts, offences under the Scrap Metal Dealers Act 1964 England and Wales, 2003-07[1, 2]

	Proceeded against
2003	5
2004	5
2005	7
2006	5
2007	5

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Office for Criminal Justice Reform, Evidence and Analysis Unit, Ministry of Justice

Reoffenders: Manchester

Paul Rowen: To ask the Secretary of State for Justice how many offenders from Greater Manchester were charged with each category of violent offence while under supervision by the Probation Service in each of the last five years. [282041]

Maria Eagle: The National Offender Management Service holds information on the number of offenders charged with serious further (violent) offences whilst under probation supervision for the years 2006-07 and 2007-08. However, this does not include all types of violent offence. The following table contains data on the number of offenders, managed by Greater Manchester probation area, who were charged with certain violent offences, where there was a requirement initially to notify the National Offender Management Service, in line with the Serious Further Offence Probation Circulars 06/2006 and 41/2006.

Notifications of serious further offence (violent offence) charges received by National Offender Management Service for 2006-07 and 2007-08. Serious Further Offence breakdown of Greater Manchester cases notified to NOMS PPU between 1 April 2006 —31 March 2008

Serious violent offence description	*Initial notifications received 2006-07*	*Initial notifications received 2007-08*
Aggravated burglary (section 10 of the Theft Act 1968)	0	6
Aggravated theft	4	5
Arson (section 1 of the Criminal Damage Act 1971)	10	9
Attempt to commit murder or a conspiracy to commit murder	7	6
Burglary with intent to (a) inflict grievous bodily harm on a person or (b) do unlawful damage to a building or anything in it. (section 9 of the Theft Act 1968)	0	2
Causing death by dangerous driving (section 1 of the Road Traffic Act 1988)	4	2
False imprisonment	3	6
Kidnapping	6	6
Manslaughter	1	0
Murder	9	6
Other offences against the person	5	2
Other serious violent offence	6	5
Possession of firearm at time of committing or being arrested for offence specified in Schedule 1 to that Act (section 17(2) of the Firearms Act 1968)	0	1
Possession of firearm with intent to endanger life (section 16 of the Firearms Act 1968)	0	1
Robbery or assault with intent to rob (section 8 of the Theft Act 1968)	0	1
Serious firearms offences (SFO)	8	22
Wounding with intent to cause grievous bodily harm (section 18 of the Offences against the Person Act 1861)	40	57
Total	103	137

Security

Mr. Grieve: To ask the Secretary of State for Justice how many breaches of security at his Department's Petty France office were recorded in the last 12 months. [279222]

Mr. Straw: The Ministry of Justice (MoJ) records as incidents any breach of security rules or events that have resulted in or had the potential to result in the loss, damage or harm to assets.

The total number of recorded security breaches/incidents occurring in 102 Petty France (MoJ HQ) for the last reporting year was 25.

Most of these were low-level departures from security procedures by staff and none were assessed to be significant, for example not displaying their passes adequately. They were identified via enforcement activity/inspections. Remedial action was taken in all cases to address areas of non-compliance and ensure no re-occurrence.

The MoJ is applying the Government's Security Policy Framework to control risks effectively, efficiently and reliably across its organisation. This includes a regime of education and awareness for staff/contractors, robust implementation of controls to manage risks to a reasonably practicable level and a physical security monitoring/ inspection and auditing regime across its HQ estate.

Mr. Grieve: To ask the Secretary of State for Justice how many breaches of security at his Department were recorded in each of the last two years. [279223]

Mr. Straw: The Ministry of Justice records as incidents any breach of security rules or events that have resulted in or had the potential to result in the loss of, damage to or harm to assets. The total number of centrally recorded security breaches/incidents occurring within the Ministry of Justice for the 2008-09 and 2007-08 reporting year is broken down as follows:

	2008-09
Information	394
IT	922
Buildings/physical	4,022
Personnel	2
Operational	4,745
Other	269
Total	10,354

	2007-08
Information and IT	563
Buildings/physical	1,882
Personnel	0
Operational	8,435
Other	—
Total	10,880

Of the total, over 80 per cent. relate to incidents involving prisons and courts. This needs to be put into the context of the challenges faced with work in the high-risk prison environment. 2008-09 saw the lowest number of escapes from prisons to date; abscond performance is good and improving.

The Ministry of Justice is applying the Government's Security Policy Framework to control risks across its organisation.

Although, there has been a 43 per cent. increase in reported information and IT security related breaches/ incidents, much of this is the result of the implementation of a robust information assurance programme. This has included the need for all areas to robustly apply procedures for reporting security incidents, including the identification and investigation of the departure, however minor, from all security procedures. The result is an evidently improving information security management system. This has seen a 70 per cent. reduction in the number or significant information security incidents/breaches between the two reporting years.

The figures above detail a 47 per cent. increase in building/physical related breaches/incidents and 87 per cent. decrease in operational security breaches between the two years. 97 per cent. of these relate to either prison or court physical security operational breaches/ incidents. The split is solely attributable to the change in the way HM Prison Service have assigned breaches/incidents to classifications between the two years.

Sentencing: Foreigners

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer of 13 July 2009, *Official Report*, column 86W, on sentencing: foreigners, (1) how many of the three prisoners discharged from a mandatory life sentence were *(a)* handed over to the custody of the UK Border Agency and *(b)* transferred to approved premises; [287735]

(2) what the nationality was of each of the three prisoners discharged from a mandatory life sentence. [287938]

Mr. Straw: Of the three prisoners discharged from a mandatory life sentence, one was an Irish national, one an Indian national and one a Pakistani national. None of the offenders was subject to deportation or, therefore, taken into UK Border Agency custody. One of the three was released into approved premises; the other two were released into alternative accommodation, which had been risk-assessed by the probation service.

All three were released subject to supervision on life licence by the probation service.

There are 101 approved premises in England and Wales. Approved premises are used primarily to supervise certain high risk of harm offenders on release from custody. They provide for the kind of effective and close supervision of certain offenders which would be much more difficult to achieve if those offenders were dispersed into less suitable accommodation elsewhere in the community.

Trespassing: Agricultural Land

Mr. Roger Williams: To ask the Secretary of State for Justice how many prosecutions for trespass on agricultural land *(a)* resulted and *(b)* did not result in a conviction in the last three years. [286254]

Claire Ward: Offences related to "trespass on agricultural land" are covered by sections 61, 63, 68, and 70 of the Criminal Justice and Public Order Act 1994.

The number of defendants proceeded against at magistrates courts and found guilty at all courts in England and Wales for these offences under the Criminal Justice and Public Order Act 1994 are shown in the table.

It should be noted that offences under the aforementioned statute and appropriate sections are not solely for "trespass on agricultural land".

The found guilty column may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown court in the following year, or the defendants were found guilty of a different offence to the original offence proceeded against.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Criminal Justice and Public Order Act 1994 Sections 61, 63, 68, and 70, in England and Wales, 2003 to 2007[1,2,3]

		Proceeded against			Found guilty		
Statute	*Offence description*	*2005*	*2006*	*2007*	*2005*	*2006*	*2007*
Public Order Act 1986 Part II S.14B(3) as added by Criminal Justice and Public Order Act 1994 S.70	Inciting another to take part in a prohibited trespassory assembly	1	1	0	0	0	1
Criminal Justice and Public Order Act 1994 S.61	Failing to leave land when directed or to return as a trespasser within three months	1	3	2	0	2	2
Criminal Justice and Public Order Act 1994 S.63	Failing to leave land when directed or returning within 7 days of the direction (raves)	0	1	13	0	1	9
Criminal Justice and Public Order Act 1994 S.68	Disrupting or obstructing a lawful activity or seeking to intimidate	60	36	87	39	26	69
Criminal Justice and Public Order Act 1994 S.63 (7A) and (7B) as added by Anti-Social Behaviour Act 2003 S.58	Committing an offence knowing that a direction under S.63(2) applies and making preparations for or attending a gathering (rave) within 24 hours starting when the direction was given	0	0	0	0	0	0
Total		62	41	102	39	29	81

[1] The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The found guilty column may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown court in the following year, or the defendants were found guilty for a different offence to the original offence proceeded against.

Visas: Fraud

Bob Spink: To ask the Secretary of State for Justice how many convictions for offences of fraud in relation to visa applications there were in *(a)* England, *(b)* the East of England region, *(c)* Essex and *(d)* Castle Point in each of the last 10 years. [286368]

Claire Ward: The number of defendants found guilty at all courts in relation to visa application frauds for offences under the Immigration Act 1971 in England and Wales, the Essex police force area and the East of England Government Office Region from 1998 to 2007 (latest available) is shown in the table.

The statistics given relate to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Information for Scotland and Northern Ireland are matters for the Scottish Executive and the Northern Ireland Office respectively.

Information held by the Ministry of Justice on the Court Proceedings Database is not available at constituency level.

Data for 2008 will be available in the autumn 2009.

Office for Criminal Justice Reform—Evidence and Analysis Unit.

Young Offenders: Reoffenders

Justine Greening: To ask the Secretary of State for Justice (1) what percentage of *(a)* 12, *(b)* 13, *(c)* 14, *(d)* 15, *(e)* 16, *(f)* 17, *(g)* 18 and *(h)* 19 year-olds who were released from each young offender institution in each of the last five years were reconvicted within a year of release; [282914]

(2) what percentage of *(a)* 12, *(b)* 13, *(c)* 14, *(d)* 15, *(e)* 16, *(f)* 17, *(g)* 18 and *(h)* 19 year-olds who were released from young offender institutions after serving a sentence for a non-violent offence were reconvicted within a year for a violent offence in each of the last five years. [282915]

Maria Eagle: Juvenile reoffending covers those aged 10 to 17. A release from custody could be from a Secure Training Centre, a Secure Children's Home or a Young Offender Institution. Data are not broken down by type of release establishment or by individual release establishment.

The following table shows the frequency of reoffences per 100 offenders and the actual rate of reoffending for each of the last five years for which data are available. Those aged 10 through to 15 have been banded due to the small number of offenders in each of the groups.

Juvenile actual and frequency rates per 100 offenders for custody

	Age band	*Number of offenders*	*Actual reoffending rate (%)*	*Frequency of reoffences (per 100 offenders)*
2003	10-15	133	78.2	424.8
	16	235	76.6	465.1
	17	418	70.8	435.4
	Total	786	73.8	442.5
2004	10-15	209	80.4	461.2
	16	244	77.0	401.6
	17	362	73.8	397.0
	Total	815	76.4	414.8
2005	10-15	195	80.0	463.1
	16	275	70.2	424.7
	17	374	71.7	370.3
	Total	844	73.1	409.5

Juvenile actual and frequency rates per 100 offenders for custody

	Age band	*Number of offenders*	*Actual reoffending rate (%)*	*Frequency of reoffences (per 100 offenders)*
2006	10-15	200	83.0	463.5
	16	262	79.4	433.2
	17	355	71.8	349.0
	Total	817	77.0	404.0
2007	10-15	171	78.9	407.0
	16	246	77.2	370.7
	17	361	72.3	328.3
	Total	778	75.3	359.0

The information on the re-offence of juveniles released from custody for non-violent offences is not available at this level of detail.

Reoffenders that are aged 18 and 19 are included in the adult dataset. We do not have the facility to determine those that were released from young offender institutions. Further information on adult re-offending is available at:

http://www.justice.gov.uk/publications/docs/reoffending-adults-2007.pdf

For information on the latest juvenile re-offending statistics please consult:

http://www.justice.gov.uk/publications/docs/reoffending-juveniles-2007.pdf

Youth Justice Board: Finance

Mr. Burrowes: To ask the Secretary of State for Justice what methodology was used to calculate the budget of the Youth Justice Board for the provision of youth custody when the Board was formed in 1998. [287900]

Maria Eagle: The Youth Justice Board took responsibility for commissioning and purchasing places in the under 18 secure estate in 2000-01. The funding allocated to the Youth Justice Board by the Home Office was based on historical information on the cost of placing young people in custody and anticipated levels of need. YJB funding requirements are reviewed annually.

The following answers were received between Wednesday 22 July and Friday 28 August 2009

CABINET OFFICE

10 Downing Street: Repairs and Maintenance

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 5 May 2009, *Official Report*, column 78W, on 10 Downing Street: repairs and maintenance, how much was paid to Ecovert FM for the works carried out in August and September 2008. [287280]

Angela E. Smith: Information on capital expenditure on improving Cabinet Office buildings, including the Downing Street estate for 2008-09 is included in the Resource Accounts published in the Cabinet Office Annual Report and Accounts 2008-09. Copies are available in the Library of the House.

Charities

Mr. Maude: To ask the Minister for the Cabinet Office what guidance the Charity Commission has issued on whether registered charities may *(a)* register as third parties with the Electoral Commission and *(b)* engage in political campaigning during a regulated election period. [287264]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated July 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question on what guidance the Charity Commission has issued on whether registered charities may *(a)* register as third parties with the Electoral Commission, and *(b)* engage in political campaigning during an election period.

Charity law on campaigning and political activity is set out in our published guidance 'Speaking Out—Guidance on Campaigning and Political Activity by Charities' (CC9) and 'Charities and Elections' which are available on our website at www.charitycommission.gov.uk. This guidance makes clear that a charity can carry out campaigning and political activity as a means of furthering or supporting its charitable purpose, but that under charity law a charity must never carry out party political activity.

On part *(a)* of your question regarding the issue of a charity's registration as a third party with the Electoral Commission, our guidance signposts charities to the Electoral Commission and to the Political Parties, Elections and Referendums Act 2000. We do not provide detailed guidance ourselves. Charities must not support or oppose any party political campaign, candidate or manifesto. Therefore we do not envisage circumstances where it would be necessary for a charity to register with the Electoral Commission as a third party. We would be concerned about any charity that was recognised in this way, and would certainly want to explore this further with them.

As to part *(b)*, the Commission's guidance on political campaigning during an election period makes clear that the principles for a charity engaging in any campaigning or political activity continue to apply. The key principle of charity law in terms of elections is that charities must be, and be seen to be, independent from party politics. We therefore urge charities to think carefully about what activities they engage in during this period, and how they might be perceived.

We are currently in the process of arranging to meet with the Electoral Commission to discuss further the issue of third party registration. Please do not hesitate to get in touch if you have other questions. I hope this is helpful.

Civil Servants: Vacancies

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 20 May 2009, *Official Report*, column 1473W, on civil servants: vacancies (1) how many civil service jobs were advertised in the last 12 months *(a)* externally and *(b)* internally; [287283]

(2) what the job titles were of each of the vacancies in the last 12 months which were advertised on the internal gateway; and in which Department each of the vacancies was. [287284]

Angela E. Smith: Further to the answer given on 17 March 2009, since civil service jobs online service went live on 25 February 2009, 4,587 vacancies in the civil service have been advertised externally on the website and 2,789 have been advertised to civil servants. Further information about these vacancies could be provided only at disproportionate cost.

Cybercrime

Mrs. Curtis-Thomas: To ask the Minister for the Cabinet Office how much funding the Government plans to provide to protect UK IT networks from cyber attacks in 2009-10. [286994]

Mr. Hanson: I have been asked to reply.

While there is no one budget for cyber security, and the Government do not provide details of the resources employed by the UK intelligence and security agencies, cyber security is a key priority and as such is appropriately resourced. A number of Government bodies contribute towards the protection of UK networks. For example: CPNI, Centre for the Protection of National Infrastructure, provides advice on electronic or cyber protective security measures to the businesses and organisations that comprise the UK's critical national infrastructure, including public utilities companies and banks CPNI also runs a CERT service which responds to reported attacks on private sector networks; and CESG, part of GCHQ, provides Government Departments with advice and guidance on how to protect against, detect and mitigate various types of cyber attack.

CESG also runs the computer emergency response team, GovCertUK, which provides warnings, alerts and assistance in resolving serious IT incidents for the public sector. In addition to this existing work, the June 2009 Cyber Security Strategy also announced the provision of additional programme funding for the development of innovative future technologies to protect UK networks; the details will be reported to Parliament in the autumn.

Departmental Billing

John Mason: To ask the Minister for the Cabinet Office, what percentage of invoices to *(a)* the Cabinet Office and *(b)* the Office of the Leader of the House from suppliers her Department paid within 10 days of receipt in June 2009. [288936]

Angela E. Smith: In June 2009 the Cabinet Office paid 97.4 per cent. of correctly rendered invoices within 10 days. This figure covers the whole of the Cabinet Office, including the Office of the Leader of the House of Commons.

Departmental Postal Services

Mr. Weir: To ask the Minister for the Cabinet Office how much her Department spent on services from Royal Mail in each of the last five years. [288790]

Angela E. Smith: Details of expenditure with the Royal Mail is shown in the following table:

	£000
2004-05	370
2005-06	271
2006-07	168
2007-08	221
2008-09	203

Departmental Publications

Mr. Kilfoyle: To ask the Minister for the Cabinet Office if she will restore the Cabinet Office publication Public Bodies to its 1997 format. [288551]

Tessa Jowell: The annual "Cabinet Office Public Bodies" publication provides headline information on the NDPB sector and on public appointments. Detailed information on individual NDPBs is provided by relevant sponsor departments. Following representations by my hon. Friend, links to this detailed information, together with the latest publication Public Bodies 2008, are now located on the Civil Service website at:

www.civilservice.gov.uk/about/work/index/ndpbs.aspx

Grant Shapps: To ask the Minister for the Cabinet Office what expenditure her Department incurred in the production of its document, Building Britain's Future; and how many copies were printed. [286918]

Tessa Jowell: 1,000 copies of the main document were produced in print. In addition, 4,500 of the 15 page summary document were printed. 1,000 copies of the summary document are also being produced in Welsh. The total cost was £39,047.00 (excluding VAT).

Departmental Training

Mr. Heath: To ask the Minister for the Cabinet Office with reference to the answers of 3 November 2008, *Official Report*, column 22W, and 29 October 2008, *Official Report*, column 1020W, on departmental training, what personal training courses at public expense other Ministers in *(a)* her Department and *(b)* the Leader of the House's Office have undertaken since 1 January 2008. [251338]

Tessa Jowell: Training is provided to Ministers as necessary in order to carry out their duties effectively under the "Ministerial Code".

Ministers: Gifts and Endowments

Mr. Maude: To ask the Minister for the Cabinet Office what criteria are used to ascertain whether a Minister has received a gift or hospitality in a private capacity for the purposes of declarations under the Ministerial Code. [287250]

Tessa Jowell: Guidance on the acceptance of gifts and hospitality is set out in paragraphs 7.20-7.24 of the "Ministerial Code".

Public Appointments Unit

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 30 April 2009, *Official Report*, column 1464W, on public appointments, what financial saving was attributed to the closure of the Public Appointments Unit when it was counted as a Gershon efficiency saving; and what assessment has been made of the effect of the closure on the costs of other Government departments. [287282]

Tessa Jowell: The Cabinet Office Public Appointments Unit was disbanded in July 2007 in response to recommendations arising from the 2006 Capability Review of the Cabinet Office, rather than as a result of the Gershon Review, and its responsibilities transferred elsewhere within the Department.

Costs would be available only at disproportionate cost.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Holloway: To ask the Secretary of State for Defence how many rounds have been fired by British forces in each Brigade rotation in Afghanistan since Herrick 6, broken down by type of ammunition used. [23[illegible]644]

Mr. Hutton: Officials are collating and validating the data needed to answer this question and this is taking longer than anticipated. I will therefore write to the hon. Member when this work is complete and place a copy of my letter in the Library of the House.

Mr. Holloway: To ask the Secretary of State for Defence, with reference to the answer of 3 November 2008, *Official Report*, column 1518W, how many rounds *of (a)* 0.338 ammunition of all natures, *(b)* 12 bore shotgun ammunition, *(c)* 30 mm armoured fighting vehicle ammunition of all natures, *(d)* 30 mm attack helicopter ammunition of all natures and *(e)* 105 mm ammunition of all natures were used in Operation Herrick 7. [268012]

Mr. Hutton: Officials are collating and validating the data needed and this is taking longer than anticipated. I will write to the hon. Member when this work is complete and place a copy of my letter in the Library of the House.

Mr. Holloway: To ask the Secretary of State for Defence how many rounds of *(a)* 51 mm and *(b)* 81 mm mortar ammunition of all natures were used in Operation (i) Herrick 4, (ii) Herrick 5, (iii) Herrick 6 and (iv) Herrick 7. [268210]

Mr. Hutton *[holding answer 1 April 2009]:* Officials are collating and validating the data needed and this is taking longer than anticipated. I will write to the hon. Member when this work is complete.

Substantive answer from Bob Ainsworth to Adam Holloway:

I am writing to provide you with the information promised in mine and my predecessor's holding replies to your Parliamentary Questions regarding ammunition expenditure in Afghanistan on 20 April 2009 (Official Report, column 46W); 31 March 2009 (Official Report, column 1034W) and 26 November 2008 (Official Report, column 1518W).

The Ministry of Defence has recently completed a review of the data on ammunition usage required to answer this question, and has revised the manner in which we classify and present data to ensure consistency. The table below shows all ammunition expenditure for UK forces in Afghanistan from the beginning of retained records (August 2006) to the end of Operation HERRICK 9 (October 2008-April 2009), in April of this year.

You will note that, unfortunately, this review has resulted in corrections to the ammunition figures previously issued for the HERRICK 6 (April 2007-October 2007) and HERRICK 7 (October 2007-April 2008) roulements. These figures have been found to be incorrect due inconsistency of tour dates taken, inconsistency of inclusion of training rounds and a failure to include all variations of ammunition in all cases.

Ammunition type	*Herrick 4 (13 August 2006-October 2006)*[1]	*Herrick 5 (October 2006-April 2007)*	*Herrick 6 (April 2007-October 2007)*	*Herrick 7 (October 2007-April 2008)*	*Herrick 8 (April 2008-October 2008)*	*Herrick 9 (October 2008-April 2009)*
7.62 mm all variants	210,000	520,000	1,300,000	1,380,000	700,000	908,400
5.56 mm all variants	235,000	615,000	1,490,000	1,390,000	1,000,000	1,080,000
0.5 inch all variants	25,000	90,000	200,000	180,000	113,000	196,000
12.7 mm all variants	2,400	350	4,800	21,000	13,000	10,600
9 mm all variants	10,000	69,000	30,000	69,000	71,700	61,400
0.338 inch all variants	200	1,700	5,600	7,300	8,200	12,100
12 bore shotgun all variants	5	45	660	15,100	300	525
105 mm all variants	8,600	4,300	12,100	12,400	5,600	11,200
30 mm armd fighting veh rounds	1,200	5,000	3,600	2,800	745	4,500
30 mm Attack helicopter rounds	29,800	21,000	27,800	15,700	34,400	34,200

[1] Accounting records exist only from 13 August 2006—mid Herrick 4.

Notes:

1. All tour dates are taken from the Transfer of Authority from one Brigade to the next.
2. All figures rounded to nearest 10,000, 1,000 or 100.

Ammunition expenditure is shown for the whole of Afghanistan, rather than just Helmand Province as the information is collated centrally for UK forces in Afghanistan. The data include all training rounds used and all variants of each ammunition type. They are collated by each HERRICK roulement, at the end of which the data are finalised for records.

All data shown above are data based on information derived from a number of sources and can only be an estimate, not least because of the difficulties in ensuring a consistent interpretation of the basis for collating statistics in a complex fast-moving multinational operational environment.

I hope that the above information addresses your concerns on this matter.

I will place a copy of this letter in the Library of the House.

Dr. Fox: To ask the Secretary of State for Defence how many rounds of ammunition have been discharged by British forces in Afghanistan in each rotation since 2006. [251707]

Mr. Hutton: Officials are collating and validating the data needed and this is taking longer than anticipated. I will write to the hon. Member when this work is complete and place a copy of my letter in the Library of the House.

Dr. Fox: To ask the Secretary of State for Defence how many rounds of ammunition have been discharged in Helmand province by British forces in each roulement since June 2006, broken down by ammunition type. [257687]

Mr. Hutton: I refer the hon. Member to the answer I gave on 11 February 2009, *Official Report*, column 1993W.

Substantive answer from Bob Ainsworth to Liam Fox:

I am writing to provide you with the information promised in my predecessor's holding reply to your Parliamentary Questions regarding ammunition expenditure in Afghanistan on 11 February 2009, (Official Report, column 1992W), and 26 February 2009, (Official Report, column 1050W).

The Ministry of Defence has recently completed a review of the data on ammunition usage required to answer this question, and has revised the manner in which we classify and present data to ensure consistency. The table below shows all ammunition expenditure for UK forces in Afghanistan from the beginning of retained records (August 2006) to the end of Operation HERRICK 9 (October 2008- April 2009), in April of this year.

You will note that, unfortunately, this review has resulted in corrections to the ammunition figures previously issued for the HERRICK 6 (April 2007 - October 2007) and HERRICK 7 (October 2007 - April 2008) roulements. These figures have been found to be incorrect due inconsistency of tour dates taken, inconsistency of inclusion of training rounds and a failure to include all variations of ammunition in all cases.

Ammunition type	HERRICK 4 (13 August 2006 - October 2006)[1]	HERRICK 5 (October 2006 - April 2007)	HERRICK 6 (April 2007 -October 2007)	HERRICK 7 (October 2007 - April 2008)	HERRICK 8 (April 2008 - October 2008)	HERRICK 9 (October 2008 - April 2009)
7.62mm all variants	210,000	520,000	1,300,000	1,380,000	700,000	908,400
5.56mm all variants	235,000	615,000	1,490,000	1,390,000	1,000,000	1,080,000
0.5 inch all variants	25,000	90,000	200,000	180,000	113,000	196,000
12.7mm all variants	2,400	350	4,800	21,000	13,000	10,600
9mm all variants	10,000	69,000	30,000	69,000	71,700	61,400
0.338 inch all variants	200	1,700	5,600	7,300	8,200	12,100
12 bore shotgun all variants	5	45	660	15,100	300	525
105mm all variants	8,600	4,300	12,100	12,400	5,600	11,200
30mm armd fighting veh rounds	1,200	5,000	3,600	2,800	745	4,500
30mm Attack helicopter rounds	29,800	21,000	27,800	15,700	34,400	34,200

I hope that the above information addresses your concerns on this matter.

I will place a copy of this letter in the Library of the House.

Mr. Wallace: To ask the Secretary of State for Defence whether he has received reports of Taliban forces seeking to acquire ground-to-air missiles. [288197]

Mr. Bob Ainsworth: I am withholding this information as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

We constantly monitor the threats faced by our personnel in Afghanistan and ensure that we take all possible steps to respond to these threats as they evolve.

Patrick Mercer: To ask the Secretary of State for Defence whether his Department has assessed the potential effectiveness of infrared surveillance capabilities used by the police for deployment for military purposes in Afghanistan. [288691]

Mr. Quentin Davies: The Ministry of Defence (MOD) undertakes a wide-ranging research programme supporting the needs of our troops on current and future operations. As part of continuing successful coalition operations, the MOD is currently discussing infrared surveillance with several parties including the Metropolitan Police Service.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 24 June 2009, *Official Report*, column 899W, on Afghanistan: peacekeeping operations, how many British troops were required to serve in the Regional Command South Headquarters between May 2007 and February 2008. [289094]

Bill Rammell: I refer the hon. Member to the answer I gave him on 14 July 2009, *Official Report*, column 264W.

Air Force: Military Bases

Mr. Wallace: To ask the Secretary of State for Defence what research his Department has commissioned on the relative merits of RAF bases *(a)* in the UK *(b)* overseas in the last three years. [288607]

Bill Rammell: The number and operation of RAF bases both in the UK and overseas is constantly under review to ensure that the best use is made of the Defence estate for our armed forces. The outcome of this work is reflected in the Defence Estate Development Plan 2009, which can be found at the following link:

http://www.defence-estates.mod.uk/publications/dedp.php

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence how many complaints Modern Housing Solutions received in each area in each month in 2008. [289138]

Mr. Kevan Jones: The requested information for 2008 is provided in the following table:

Month	Region	Number of complaints
January	East	39
	London	120
	North	37
	South East	116
	South West	105
	West	33
	Total for month	450

British Forces Post Office: Manpower

Mr. Wallace: To ask the Secretary of State for Defence what recent consideration he has given to future staffing levels in the British Forces Post Office; and if he will make a statement. [288609]

Bill Rammell: The staffing levels of the British Forces Post Office are determined by the requirement to ensure that our personnel have access to appropriate postal facilities. Support to operations, exercises and to HM Ships can be provided only by British Forces Post Office staff. However, we have identified that savings may be realised if personnel based in countries with a well developed postal infrastructure utilise the indigenous postal service rather than relying on British Forces Post Office staff. To that end the Forces Post Offices servicing the UK elements of NATO HQs in SHAPE, Brussels, Brunssum, Stavanger, Karup, Rome, Milan, Lisbon, Valencia and Norfolk Virginia are due to close.

Defence: Procurement

Angus Robertson: To ask the Secretary of State for Defence how much was spent by each of the armed services on defence procurement in the latest year for which figures are available; and how much such expenditure was incurred by each service in *(a)* Wales, *(b)* Northern Ireland, *(c)* England and *(d)* overseas. [289137]

Mr. Quentin Davies: The defence budget is not allocated by service or by sub-UK level. Defence Procurement provides the UK armed forces with the equipment needed as efficiently as possible to deliver the best value for money for the armed forces. The Defence Budget is planned solely on this basis.

The latest estimates of direct MOD expenditure on equipment and non-equipment procurement are provided in the following table.

£ million at current prices (VAT exclusive)

2006-07	*Wales*	*Northern Ireland*	*England*	*Overseas*
Total	220	200	15,230	2,330
of which:				
Equipment expenditure	120	60	9,620	2,170
Non equipment expenditure	100	140	5,610	160

Note:
Figures rounded to nearest £10 million

The data underlying the estimates of direct expenditure on procurement cannot be broken down by service. In addition, these figures do not take into account expenditure by main contractors to sub-contractors in these geographic areas, nor do they take account of monies paid for work done in that area if the company's billing address is elsewhere.

The MOD reports spend on procurement in the UK Defence Statistics can be found at the following link;

http://www.dasa.mod.uk/UKDS2008/ukds.html

This annual report presents the MOD procurement of goods and services in the UK broken out by industry sector and estimates of aggregate MOD equipment expenditure.

Defence: Research

Mr. Wallace: To ask the Secretary of State for Defence what cash allocations his Department has made for defence research for each of the next two years; and if he will make a statement. [288608]

Mr. Quentin Davies: The current planning assumption is that the science innovation and technology budget will have available approximately £439 million in 2010-11. This compares with £544 million in 2009-10 when calculated on the same basis. Departmental expenditure limits have not yet been set for the years beyond 2010-11.

Departmental Budgets

Dr. Fox: To ask the Secretary of State for Defence what his Department's science innovation and technology budget is for 2010-11. [284525]

Mr. Quentin Davies: The current planning assumption is that the SIT budget will have available approximately £439 million in 2010-11. This compares with £544 million in 2009-10 when calculated on the same basis. Departmental expenditure limits have not yet been set for the years beyond 2010-11.

Departmental Compensation

Mr. Wallace: To ask the Secretary of State for Defence how much compensation his Department has paid to former and serving *(a)* members of the armed forces and *(b)* civil servants in cases of (i) sexual discrimination, (ii) bullying and (iii) other infringements of employment rights in the last 12 months. [288200]

Mr. Kevan Jones: Some £182,600 was paid out to Military personnel in the last 12 months to settle two sexual discrimination cases, comprising one payment each by the Army and RAF. An additional claim was settled in 2008-09 for £90,000 in respect of the previously operated MOD policy of debarring homosexuals from serving in the armed forces.

In respect of civilian staff in the last 12 months, some £43,500 was paid to settle sexual discrimination cases. This figure includes one payment in respect of an age discrimination case the cost of which cannot be separately identified. One case, where bullying was alleged, was settled with £3,250 of compensation. Some £233,920 was paid to settle cases where other infringements of employment rights occurred.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Defence pursuant to the answer of 13 July 2009, *Official Report*, column 23W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288992]

Mr. Quentin Davies: The name and version of the web browser used by the Ministry of Defence's Permanent Secretary, chief information officer, head of communications and head of finance, on their officially designated desktop and laptop computers, is Internet Explorer Version 6.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Defence what percentage of employees in his Department are (a) women and (b) men; and what the average hourly pay is of those (i) male and (ii) female employees. [288605]

Mr. Kevan Jones: The percentage breakdown of employees by gender in the Department, as of 1 June 2009, is as follows:

Men: 61.47 per cent

Women: 38.53 per cent

The average hourly pay rates between genders, as of 1 June 2009, is as follows:

Male: £12.139

Female: £10.368

Departmental Secondment

Sarah Teather: To ask the Secretary of State for Defence how many employees of his Department have been posted to work in offices of hon. Members of each political party in each of the last five years. [284974]

Mr. Kevan Jones: Civil servants are required to act in accordance with the requirements of the civil service code.

Civil servants may shadow MPs as part of a programme run by the Industry and Parliament Trust. Details of numbers of civil servants from the Ministry of Defence who have undertaken such an attachment are not held centrally.

Ex-servicemen: Sleeping Rough

Mr. Wallace: To ask the Secretary of State for Defence what progress his Department's Taskforce established to tackle rough sleeping among forces veterans has made; and what his most recent estimate is of the number of veterans sleeping rough at the latest date for which figures are available; and if he will make a statement. [288610]

Mr. Kevan Jones: Service men and women should be provided with the best possible support as they move back to civilian life, and this is recognised in the Service Personnel Command Paper, The Nation's Commitment: Cross-Government Support to our Armed Forces, their Families and Veterans, published in July 2008.

Measures proposed in the Command Paper to improve access of ex-Service personnel to housing include: a change in legislation to enable Service personnel to establish a local connection with the area in which they are serving; an investigation to see what steps are required to ensure that local authorities follow good practice in respect of 'cessation to occupy' certificates when service-leavers are threatened with homelessness; the consideration of how 'void' military accommodation can be used to temporarily accommodate injured ex-service personnel; and an extension to the Key Worker Living programme to ex-service personnel for up to 12 months after discharge.

The Department does not hold figures on the number of veterans sleeping rough. However, independent research carried out, specifically in London, last year by the University of York shows that the proportion of veterans among the homeless population has fallen dramatically over the last 10 years. Veterans are now some 6 per cent. of the homeless population in London.

The MOD works closely with the Department of Communities and Local Government (CLG) and the Devolved Administrations, veterans' organisations and other service providers to ensure a co-ordinated and structured approach to this problem as it affects a small minority of our ex-service personnel. We aim to prevent new service leavers becoming homeless and to provide an effective safety net for those veterans who are homeless.

Current measures, including new commitments in the July 2008 Service Personnel Command Paper, provide a comprehensive package of support. Mike Jackson House provides 25 units of secure short-term supported accommodation built in Aldershot for young single ex-service leavers identified at risk of homelessness. Mike Jackson House opened in March 2008 on land gifted by MOD.

There are service charities who are able to offer assistance with housing matters. The Soldiers, Sailors, Airman and Families Association (SSAFA Forces Help) for example offer assistance and advice relating to housing needs

Gurkhas

Sandra Gidley: To ask the Secretary of State for Defence how many Gurkhas were stationed in the UK in each year from 1992 to 1997. [288395]

Mr. Kevan Jones: The number of Gurkhas stationed in the UK in each year from 1992 to 1997 is provided in the following table.

Date of strength as at 31 March each year	*Officers*	*Soldiers*	*Total*
1992	40	1,340	1,390
1993	40	1,380	1,420
1994	50	1,570	1,620
1995	60	1,730	1,780
1996	70	1,640	1,710
1997	70	1,930	2,000

Notes:
1. Figures have been roundol to 10; numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.
2. Totals and sub-totals have been rounded separately and so may not appear to be the sum of their parts.

Over the same period the trained strength of the Brigade of Gurkhas reduced from around 7,180 to 3,760, as the Brigade progressively withdrew from Hong Kong to be based in the UK. This process was completed on 1 July 1997.

Merlin Helicopters

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many Merlin helicopters Agusta Westland has offered to supply to his Department; and *(a)* at what cost and *(b)* to what timetable Agusta Westland has offered to supply those helicopters. [288834]

Mr. Quentin Davies: During recent consideration of whether the acquisition of new medium helicopters could be advanced in lieu of the planned life-extension of Puma and Sea King Mk4 helicopters informal discussions were held with a number of aircraft manufacturers, including Agusta Westland. These discussions are commercial-in-confidence and so it would be inappropriate to disclose details as their disclosure would prejudice commercial interest.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence how many aircraft of each type are in service with the Royal Air Force. [289133]

Mr. Quentin Davies: The number of aircraft in the Royal Air Force in-service fleet are provided in the following table. The figures show the service fleet position as of 30 June 2009.

In-service fleet

Aircraft type	*Number*
BAe 146	2
BAe 125	6
C-17	6
Dominie	9
Harrier	74
Hawk T1	129
Hawk T2	11
Hercules C130K	14
Hercules C130J	24
Nimrod MR2	11
Nimrod R1	3

In-service fleet

Aircraft type	*Number*
Sea King (SARF)	25
Sentinel	5
Sentry	7
Tornado F3	62
Tornado GR4	138
Tristar	9
Tucano	93
Typhoon	56
VC10	16
Vigilant	64
Viking	82

Military Aircraft: Helicopters

Mr. Hoyle: To ask the Secretary of State for Defence how many helicopters there are in the British armed forces. [288239]

Mr. Quentin Davies: The MOD departmental fleet consists of 585 helicopters as at 30 June 2009.

This figure excludes helicopters that are leased by the MOD.

Dr. Fox: To ask the Secretary of State for Defence what the maximum *(a)* loaded weight and *(b)* take-off weight for all variants of helicopters used by UK forces is when operating in ambient temperatures of 50 degrees celsius at a density altitude of 6,000 feet. [289129]

Mr. Quentin Davies: The operation of helicopters in hot conditions and at high altitudes, such as those experienced on current operations, is particularly demanding. Details of helicopter operating parameters, such as maximum loaded and take-off weights, is operationally sensitive information and cannot be released as it would or would be likely to prejudice the effectiveness and security of the armed forces.

Dr. Fox: To ask the Secretary of State for Defence how many helicopters of each type are in service with each service. [289132]

Mr. Quentin Davies: "In service" has been taken to mean the effective fleet, which includes all aircraft barring those that are redundant, declared as surplus or awaiting disposal.

The number of effective aircraft within each helicopter type and service, as at 30 June 2009 is provided in the following tables.

Royal Navy

	Number
Lynx MK3/8	61
Merlin Mk1	42
Sea King Mk4/6C	42
Sea King Mk5	15
Sea King Mk7	13

Army

	Number
NSRW	4
Apache	67
Gazelle	39
Lynx Mk7/9	94

Royal Air Force

	Number
Chinook Mk2/2a	40
Merlin Mk3/3a	28
Puma	34
Sea King Mk 3/3a	25

These figures do not include aircraft leased by the MOD.

Navy

Mr. Hancock: To ask the Secretary of State for Defence what the cost of operating a *(a)* Type 22, *(b)* Type 23 and *(c)* Type 42 vessel was in the last year for which information is available; and what the estimated annual cost of operating a Type 45 vessel is. [287196]

Mr. Quentin Davies: Operating costs for Royal Navy vessels are not held centrally. Officials are, however, in the process of compiling this information and I will write to you once the work has been completed.

Nigeria: Military Aid

Dr. Fox: To ask the Secretary of State for Defence whether he has received any recent requests for military assistance from the Nigerian government. [289016]

Bill Rammell: I refer the hon. Member to the answer I gave on 17 June 2009, *Official Report*, column 340W, to my right hon. Friend the Member for Oxford, East (Mr. Smith).

In addition we provide support to enhance the Nigerian peace-keeping capacity, advice on defence management, and professional officer education and training. We maintain a regular dialogue with Nigeria on defence and security matters.

Puma Helicopters

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) how long after contract signature he expects the first upgraded Puma helicopter to be *(a)* delivered and *(b)* available for operational deployment; [288837]

(2) whether he has plans to deploy the upgraded Puma helicopter to Afghanistan. [288838]

Mr. Quentin Davies: We expect to place the Puma Life Extension contract with Eurocopter later this year, though this remains subject to negotiations and final approvals. It would not be appropriate to make public any specific details of the proposed programme schedule while negotiations are ongoing.

It is for the chain of command to determine how many and which of their aircraft should be deployed and when.

Royal Hospital Haslar

Sir Peter Viggers: To ask the Secretary of State for Defence what recent consideration he has given to the future use of the Royal Hospital Haslar site; and if he will make a statement. [288769]

Mr. Kevan Jones: I refer the hon. Member to my written ministerial statement published on 20 July 2009, *Official Report*, column 95WS.

The MOD ran an Expressions of Interest campaign earlier this year and a number of bids were received by the closing date. I have announced today that Our Enterprise, a community interest company that brokers and delivers bespoke commercial partnerships between charities, social investors, commercial operators and the public sector to deliver large-scale integrated regeneration projects, has been chosen as our preferred bidder for the site. Our Enterprise has been chosen as our preferred bidder for the site in accordance with Government policy on the disposal of historic buildings. We expect to exchange contracts with the purchaser and complete the transfer by the autumn, if not earlier.

Our Enterprise has a vision of promoting the quality of life for both individuals residing on the site and for Gosport as a whole. I believe that the choice of preferred bidder for Haslar is good news for the local community, and will preserve the heritage and visual aspects of this important site.

Royal Military Academy: Foreigners

Daniel Kawczynski: To ask the Secretary of State for Defence how many foreign nationals of each nationality passed out from the Royal Military Academy, Sandhurst in *(a)* 2006, *(b)* 2007 and *(c)* 2008. [288414]

Bill Rammell: The information requested is provided in the following tables. In accordance with MOD release protocols that protect us from unintentionally revealing the identity of an individual, any number less than five is represented by a asterisk (*) and any number equal to zero is represented by an Em dash (—).

Commonwealth and dual nationality officer cadets who commissioned into the British Army in 2006, 2007 and 2008

Scotland

Stewart Hosie: To ask the Secretary of State for Defence whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288950]

Bill Rammell: The Ministry of Defence has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its final report, which can be found at:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009fbookmarked.pdf

A Steering Group has been established under the Chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Chairman's recommendations and deliver stronger devolution within a stronger United Kingdom.

Trident

Nick Harvey: To ask the Secretary of State for Defence what the cost of conventional forces protecting Trident was in 2008-09. [288764]

Mr. Bob Ainsworth: We do not routinely calculate the operating cost of specific committed or contingent force elements in support of the deterrent, and such estimates are necessarily illustrative. The answer that my right hon. Friend the Member for Kilmarnock and Loudoun (Des Browne), as Defence Secretary, gave to the hon. Member on 8 March 2007, *Official Report*, column 2131W, estimated the annual operating costs of committed conventional force elements to be around £25-30 million. We have not prepared a more recent estimate as to do so would incur disproportionate costs.

Mr. Hancock: To ask the Secretary of State for Defence how much has been spent on Trident II; and what his Department's estimate is of how much it would cost to order *(a)* three and *(b)* four boats to replace Trident I. [287200]

Mr. Bob Ainsworth: The current Trident II D5 missile is expected to remain in service until 2042. No expenditure has been incurred on a successor to the Trident II D5 missile.

As set out in the 2006 White Paper, we estimate that the procurement costs of the replacement for the current Vanguard class submarines will be between £11-14 billion at 2006-07 prices. The total spent on the replacement submarine and associated propulsion system since the beginning of April 2007 to the end of June 2009 is some £250 million.

Work is ongoing to assess whether continuous at sea deterrence could be achieved with a three boat fleet, and at what cost.

Unmanned Air Vehicles

Mr. Wallace: To ask the Secretary of State for Defence what studies his Department has undertaken into the skill levels and qualifications required to fly unmanned aerial vehicles. [288198]

Mr. Kevan Jones: The UK's armed forces currently operate a range of unmanned aerial vehicles (UAVs). The Medium Altitude Long Endurance Reaper System is flown by fully qualified pilots following their completion of conversion training. Smaller systems, such as Hermes 450 and Desert Hawk, do not require the full range of pilot skills and can therefore be operated by non-pilots who have received specialist UAV training only.

Several UK studies have been undertaken into current and future requirements for skill levels and qualifications for UAV operators as our capabilities in this area have developed. These include studies to define the skills and competences required to underpin operator selection and training and to derive formal standards for training programmes. This work is ongoing.

USA: Arms Trade

Mr. Wallace: To ask the Secretary of State for Defence what recent progress has been made on the Defence Technology Transfer Treaty between the US and UK; and if he will make a statement. [288606]

Mr. Quentin Davies: Her Majesty's Government continue to discuss the Defence Trade Cooperation Treaty with the US Government at all levels. The Treaty still awaits ratification by the US Senate. The UK has worked hard to ensure that members of the Senate are aware of the importance the UK places on the Treaty and the benefits for both nations in operational and industrial terms. MOD and FCO officials in the British embassy in Washington regularly discuss Treaty implementation with their US colleagues in preparation for ratification.

White Phosphorus

Sir Menzies Campbell: To ask the Secretary of State for Defence pursuant to the answer of 26 June 2009, *Official Report*, column 1160W, what information his Department holds on munitions containing white phosphorus manufactured in the UK. [288805]

Bill Rammell *[holding answer 21 July 2009]:* The 120 mm white phosphorous shell is the only white phosphorous munition in the UK armed forces inventory manufactured in the UK. The inventory also includes the 60 mm and 81 mm white phosphorous mortar bombs, which are manufactured outside the UK.

The Department holds a range of information on the 120 mm white phosphorous shell, as it does on all its munitions. This includes, but is not limited to, information on contracts, Through Life Management, safety, legality/International Humanitarian Law, composition, performance, storage, handling, transportation, training, in-service surveillance, stockpile, and usage.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Contracts

Lorely Burt: To ask the Secretary of State for Environment, Food and Rural Affairs how many contracts let by his Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287800]

Dan Norris: The Department does not request or hold any central or local information on the number of staff in each of its suppliers. The number of staff in a supplier may vary over a period. The information could be provided only at disproportionate cost.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 July 2009, *Official Report*, column 386W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288994]

Dan Norris: I refer the hon. Member to the answer given on 15 July 2009, *Official Report*, column 386W.

All DEFRA staff, including the permanent secretary, chief information officer, head of communications and head of finance, are provided with Internet Explorer 7 on their desktop computers or laptops via our internal office system.

Scotland

Stewart Hosie: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288958]

Dan Norris: DEFRA has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its Final Report, which can be found on the Commission on Scottish Devolution website.

A steering group has been established under the chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within the United Kingdom.

Water Charges

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many people have accessed social tariff schemes in each water company area in each of the last five years. [288505]

Huw Irranca-Davies: The number of customers accepted on to the vulnerable groups scheme by water companies in each of the last five years is set out in the following table.

This will not strictly equal the number of customers currently on the tariff, owing to applications expiring during the year, bereavements, changes of occupancy and applications still being processed at year end.

Ofwat only routinely collects these data for the compulsory vulnerable groups tariff (WaterSure), and not for any other social tariffs which individual companies may offer.

Total number of successful applications for vulnerable groups tariff

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Anglian and Hartlepool	682	719	904	3,385	3,068

Portsmouth	24	30	30	43	73
South East Water (including mid-Kent)[1]	229	217	143	249	156
South East Water (excluding mid-Kent)	*91*	*114*	*102*	*97*	—
Mid-Kent	*138*	*103*	*41*	*152*	—
South Staffs	39	139	198	259	364
Sutton and East Surrey	38	64	91	110	113
Tendring Hundred	313	328	425	468	533
Three Valleys	251	284	316	504	788
Industry total	9,627	13,187	16,212	24,121	28,879

[1] In 2007, South East Water absorbed mid-Kent water. The figures shown above for the new South East Water (including mid-Kent) until 2007-08 are a sum of the figures reported by the former separate companies. The split between the former companies is shown in italics for information. These figures do not contribute to the industry totals.

HEALTH

Brain Cancer

Sandra Gidley: To ask the Secretary of State for Health (1) what the five-year survival rate for cases of brain cancer in each strategic health authority area was in each of the last six years; [288890]

(2) what the five-year survival rate for cases of brain cancer in each primary care trust within the ceremonial county of Hampshire was in each of the last six years. [288891]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated July 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions asking (1) what the five-year survival rate for cases of brain cancer in each strategic health authority area was in each of the last six years [288890] and (2) what the five-year survival rate for cases of brain cancer in each primary care trust within the ceremonial county of Hampshire was in each of the last six years [288891].

The Office for National Statistics (ONS) does not produce five-year survival rates for brain cancer for (1) strategic health authorities or (2) primary care organisations.

The latest available survival figures for brain cancer for England, among adult patients diagnosed during 2001-2006 and followed up to the end of 2007, are published on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=14007&Pos=1&ColRank=1&Rank=192

Cardiovascular System: Children

Mr. Sheerman: To ask the Secretary of State for Health what the incidence of cardiovascular failure in children was in the latest period for which figures are available. [288384]

Ann Keen: The numbers of finished consultant episodes in English national health service hospitals or in independent hospitals but commissioned by the NHS in England where the primary diagnosis was cardiovascular failure for children for 2007-08, the last year for which figures were available were as in the following table.

Age group	*Number of episodes*
Under 16	244
16 to 18	25

Notes:

Finished Consultant Episode (FCE)

1. A finished consultant episode (FCE) is defined as a continuous period of admitted patient care under one consultant within one health care provider. FCEs are counted against the year in which they end. The figures do not represent the number of different patients, as a person may have more than one episode of care within the same stay in hospital or in different stays in the same year.

Primary diagnosis

2. The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the FCE Hospital Episode Statistics (HES) data set and provides the main reason why the patient was admitted to hospital.

3. The ICD-10 codes used to identify Cardiovascular failure are as follows:

I50.0 Congestive heart failure
I50.1 Left ventricular failure
I50.9 Heart failure, unspecified
I11.0 Hypertensive heart disease with (congestive) heart failure
I11.0 Hypertensive heart and renal disease with (congestive) heart failure
I11.0 Hypertensive heart and renal disease with both (congestive) heart failure and renal failure
P29.0 Neonatal cardiac failure

Data quality

4. HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Ungrossed data

5. Figures have not been adjusted for shortfalls in the data, i.e. the data are ungrossed.

Source:

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Mr. Sheerman: To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of mechanisms for identifying cardiovascular risk in children. [288385]

Ann Keen: We have made no recent assessment of mechanisms for identifying cardiac risk in children but we believe that lack of exercise and poor diet are major factors. We are attempting to address these through the Change 4 Life programme, launched in January of 2009.

Committee on Carcinogenicity of Chemicals in Food Consumer Products and the Environment

Mike Penning: To ask the Secretary of State for Health how much the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment spent on external consultancy services in each of the last five years. [289055]

Gillian Merron: The Committee on Carcinogenicity of Chemicals in Food, Consumer Products and Environment has not employed external consultant services in the last five years.

Departmental Billing

John Mason: To ask the Secretary of State for Health what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288930]

Phil Hope: The formal data collection to measure performance against the Prime Minister's target of paying commercial suppliers within 10 days of receipt of a valid invoice is being coordinated across Government by the Department for Business, Innovation and Skills (BIS). Data provided to BIS shows that in June 2009 96.39 per cent. of payments made by the Department of Health were made within 10 working days of receipt of the invoice.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Health with reference to the answer of 26 November 2008, *Official Report*, column 2060W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289165]

Phil Hope: Comprehensive information on spend for flat screen televisions, DVD players and stereo equipment, since November 2008, is not held centrally and to collect it would incur disproportionate cost.

All expenditure has to be incurred in accordance with the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Health pursuant to the answer of 9 July 2009, *Official Report*, column 972W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [289001]

Phil Hope: The Department currently uses Internet Explorer Version 6 on the desktop and laptop computers it uses. This includes those used by the Permanent Secretary, the Chief Information Officer, the Head of Communications and the Head of Finance.

The exception to this is the use of Mozilla Firefox Version 3.0.1.1 on a small number of desktop machines used by:

the web publishing team, for compatibility with a web publishing system; and

the information technology development team, for the purposes of testing our systems.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Health what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of (i) male and (ii) female employees is. [288305]

Phil Hope: The percentage of employees in the Department who are women is 56 per cent. and the percentage who are men is 44 per cent.

The average hourly rates of pay for men and women are presented in the following table.

Hourly pay (£)

Type of average	*Men*	*Women*	*Percentage difference*
Median	20.10	16.17	19.6
Mean	22.06	19.03	13.7

Although median and mean hourly pay (excluding overtime as do the figures above) provide useful comparisons of men's and women's earnings, they do not reveal differences in rates of pay for comparable jobs. This is because such broad measures do not allow for the different employment characteristics of men and women, such as the proportion in different occupations and their length of time in jobs.

NHS Institute for Innovation and Improvement

Mike Penning: To ask the Secretary of State for Health what the cost of the office premises for the NHS Institute for Innovation and Improvement was in each of the last five years. [288686]

Phil Hope: This is set out in the following table.

£

Premises	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*
Coventry House at University of Warwick	325,690	414,922	434,441	397,615	414,922
Victoria House, London	110,117	163,371	147,355	207,581	233,098
Manchester, Gateway House	30,636	32,632	40,015	34,638	30,944
Birmingham, Birmingham Hospital	37,452	38,864	37,835	37,426	37,558
Total	503,895	649,789	659,646	677,260	716,522

Out of Area Treatment

Andrew George: To ask the Secretary of State for Health how many patients in each primary care trust (PCT) area received referrals to consultant specialists based in a different PCT area in each of the last five years. [287875]

Mr. Mike O'Brien: The available data on number of patients in each primary care trust (PCT) area that received referrals to consultant specialists based in a different PCT area in each of the last five years are shown in the document, referrals to consultant specialists based in a different primary care trust area, provided by the NHS Information Centre, which has been placed in the Library.

Out of Area Treatment: South West

Andrew George: To ask the Secretary of State for Health how many patients from Cornwall and Isles of Scilly Primary Care Trust area did not keep an appointment following a referral to an out of county consultant specialist in each of the last five years. [287853]

Mr. Mike O'Brien: The information requested is not held centrally. However, the number of out-patient appointments from Cornwall and Isles of Scilly Primary Care Trust where a patient did not attend or cancelled an appointment following a referral to an in county or out of county consultant specialist in each of the last five years has been placed in the Library.

Andrew George: To ask the Secretary of State for Health how many patients from Cornwall and Isles of Scilly Primary Care Trust area have been referred to out of county consultant specialists in each of the last five years. [287874]

Mr. Mike O'Brien: The information requested is not held centrally. However, the number of out-patient appointments for patients resident in Cornwall and Isles of Scilly Primary Care Trust area who received referrals to out of county consultant specialists in each of the last five years has been placed in the Library.

Parkinson's Disease: Consultants

Mr. Gale: To ask the Secretary of State for Health what estimate he has made of the number of professionals in the NHS available to deliver high quality care to patients with Parkinson's Disease. [288272]

Ann Keen: Professionals working in this area of patient care are not identified separately in the National Health Service Workforce Census.

Scotland

Stewart Hosie: To ask the Secretary of State for Health whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288946]

Mr. Mike O'Brien: The Department has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the United Kingdom Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its final report, which can be found here:

www.commissiononscottishdevolution.org.uk/uploads/20090612calmfinalreport2009bookmarked.pdf

A steering group has been established under the chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger UK.

PRIME MINISTER

Civil Service: Bullying

Mr. Maude: To ask the Prime Minister what Civil Service procedures govern the handling of complaints of bullying of civil servants by Ministers. [287291]

Angela E. Smith: I have been asked to reply.

Complaints made by civil servants of bullying are dealt in accordance with the Civil Service Management Code which can be accessed online at:

http://www.civilservice.gov.uk/about/work/codes/csmc/index.aspx

TRANSPORT

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Minister of State, Department for Transport with reference to the answer of 26 November 2008, *Official Report*, column 1566W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289167]

Chris Mole: The information is as follows:

	(i) Flat screen televisions	*(ii) DVD players*	*(iii) Stereo equipment*
			£
(a) Department	2,556	0	0
(b) Agencies	13,346	55	0

This excludes spend at the Maritime and Coastguard Agency and the Vehicle and Operator Services Agency as the requested information is not recorded and could be obtained only at disproportionate cost.

Departmental Postal Services

Mr. Weir: To ask the Minister of State, Department for Transport how much his Department spent on Royal Mail services in each of the last two years. [288743]

Chris Mole: The Department for Transport spent £21,419,317.41 on Royal Mail services in 2007-08 and £22,348,405.74 on Royal Mail services in 2008-09.

This excludes spend at the Vehicle and Operator Services Agency as the information requested is not recorded.

Departmental

Mrs. Villiers: To ask the Minister of State, Department for Transport (1) how much his Department and its predecessors have spent on foreign language training for its officials in each year since 1997; [289175]

(2) how much his Department and its predecessors have spent on training in coping with traumatic incidents for its officials in each year since 1997; [289176]

(3) how much his Department and its predecessors have spent on pre-retirement courses for its officials in each year since 1997; [289177]

(4) how much his Department and its predecessors have spent on stress management training for its officials in each year since 1997; [289178]

(5) how much his Department and its predecessors have spent on training in mentoring for its officials in each year since 1997; [289179]

(6) how much his Department and its predecessors have spent on personal *(a)* development and *(b)* effectiveness courses for its officials in each year since 1997; [289180]

(7) how much his Department and its predecessors have spent on talent management training for its officials in each year since 1997; [289181]

(8) how much his Department and its predecessors have spent on health and safety training for its officials in each year since 1997; [289182]

(9) how much his Department and its predecessors have spent on avoiding harassment and anti-bullying courses for its officials in each year since 1997; [289183]

(10) how much his Department and its predecessors have spent on training relating to the European Union for its officials in each year since 1997; [289184]

(11) how much his Department and its predecessors have spent on absence management training for its officials in each year since 1997; [289185]

(12) how much his Department and its predecessors have spent on diversity awareness training for its officials in each year since 1997; [289186]

(13) how much his Department and its predecessors have spent on training in telephone skills for its officials in each year since 1997. [289187]

Chris Mole: The information requested can be provided only at disproportionate cost.

Departmental Work Experience

Mr. Amess: To ask the Minister of State, Department for Transport what provision is made to enable students to undertake work experience in his Department; how members of the public may obtain information about work experience in his Department; and if he will make a statement. [288729]

Chris Mole: The Department for Transport takes part in the Summer Development and the Summer Placement intern programmes which are administered by the Cabinet Office. These schemes are aimed (respectively) at ethnic minority and disabled undergraduates/graduates interested in the Fast Stream development programme.

The Department also employs a number of economist summer interns each year through the Government Economics Service central recruitment process.

The schemes are advertised on the civil service website, the Government Economic Service website and university and graduate websites. They are also promoted at career fairs.

Scotland

Stewart Hosie: To ask the Minister of State, Department for Transport whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [289569]

Chris Mole: The Department for Transport has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its Final Report, which can be found at:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009-bookmarked.pdf

A steering group has been established under the chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

WALES

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Wales pursuant to the answer of 24 November 2008, *Official Report*, column 1066W, on departmental electronic equipment, how much his Department has spent on *(a)* flat screen televisions, *(b)* DVD players and *(c)* stereo equipment since November 2008. [289170]

Mr. Hain: Expenditure during this period amounts to £79.99 which was for a replacement digital radio. There has been no other expenditure on such equipment during this period.

Economic Situation

Mr. Paul Murphy: To ask the Secretary of State for Wales when he next plans to meet the First Minister to discuss ways to deal with the economic downturn. [288798]

Mr. Hain: I have regular meetings with the First Minister to discuss the economic situation in Wales, continuing the dialogue and close working relationship that my right hon. Friend developed. Indeed, I last met the First Minister at the 7th All Wales Economic Summit on Friday 17 July 2009 in Bangor.

Employment Schemes

Mr. Dai Davies: To ask the Secretary of State for Wales what proportion of the £5 billion of funding to create new jobs and assist people back into work, as referred to in paragraph 40 in chapter 2, page 43 of Building Britain's Future, Cm 7654, will be available in Wales. [288120]

Mr. Hain: We are investing an extra £5 billion to help people back into work across the UK. The £3 billion investment in Jobcentre Plus will enable the recruitment of 600 additional advisers in Wales by the end of the year.

The £1 billion Future Jobs Fund has already approved 10 bids for funding from organisations in Wales which were announced on 29 July 2009. These bids will create over 2,000 jobs and are a demonstration of our determination to deliver the help that people need where and when they need it most.

Mortgages: Government Assistance

Mr. Paul Murphy: To ask the Secretary of State for Wales what schemes the Government has made available to families in Wales who face mortgage repossessions. [288900]

Mr. Hain: The UK Government have a number of initiatives to help Welsh homeowners—the Support for Mortgage Interest Scheme and the Homeowner Mortgage Support Scheme, both apply in Wales. In addition, we have also put in place a number of other measures, including new court protocols to protect homeowners, secured commitments from major lenders not to repossess homes within three months of arrears and have invested

a further £25 million to extend free debt advice. All of these measures are available to consumers across the country.

The Welsh Assembly Government also provides support to struggling homeowners, through the Mortgage Rescue Scheme.

Public Expenditure

Mr. Dai Davies: To ask the Secretary of State for Wales what discussions he has had with *(a)* the Welsh Assembly Government and *(b)* the Chancellor of the Exchequer on the Holtham Commission report. [287540]

Mr. Hain: The Welsh Assembly Government established an Independent Commission on Funding and Finance for Wales, headed by Gerald Holtham. The Commission published their first report 'Funding devolved government in Wales: Barnett and Beyond' on 7 July 2009. I have discussed the recommendations contained within the report with both the First Minister and Gerald Holtham.

As this is a Welsh Assembly Government commissioned review, we await their response to the report and look forward to the final report to be published next year.

Recycling

Stewart Hosie: To ask the Secretary of State for Wales, what proportion of his Department's waste was recycled in the latest period for which figures are available. [289670]

Mr. Hain: The last period for which figures are available covers January to March 2009. During this period, the Wales Office recycled 84 per cent. of its waste.

WOMEN AND EQUALITY

Departmental Contracts

Lorely Burt: To ask the Minister for Women and Equality how many contracts let by her Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287807]

Michael Jabez Foster: During financial year 2008-09, the Government Equalities Office awarded 45 contracts to businesses with fewer than 50 members of staff. The total monetary value of these contracts was £526,460.96

The Government Equalities Office became a stand alone department in October 2007 so no data are available for previous years.

Travelling People

Robert Neill: To ask the Minister for Women and Equality what assessment has been made of the effect of the new duties on public authorities in the Equality Bill on Travellers' access to public services. [288263]

Michael Jabez Foster: Romany Gypsies and Irish Travellers are covered by the existing race duty as recognised ethnic groups, and will continue to be covered as part of that strand in the forthcoming Equality Duty. This should mean public bodies considering the needs of all groups, including Irish Travellers, when taking decisions and planning services.

When the Bill was published, Government Equalities Office officials assessed the potential impact of the provisions in the Equality Bill, including plans for the Equality Duty, upon stakeholders. The assessment and its conclusions were published. That assessment concluded that the introduction of the Equality Duty would not have any adverse impact on different racial groups.

The other public sector duty in the Equality Bill, covering socio-economic inequalities, should benefit travellers, many of whom suffer significant levels of socio-economic disadvantage.

CHILDREN, SCHOOLS AND FAMILIES

Absenteeism: North East

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families how many cases of unauthorised absence from school were recorded in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each year since 1997. [285325]

Dawn Primarolo: The available information is shown in the table. Further information could be provided only at disproportionate cost.

Primary, secondary and special schools[1,2] number and percentage of half days missed due to unauthorised absence 2003-04 to 2007-08[3]

	North East		*Tees Valley*		*Middlesbrough South and East Cleveland constituency*	
	Total half days missed due to unauthorised absence	*Percentage of half days missed due to unauthorised absence[4]*	*Total half days missed due to unauthorised absence*	*Percentage of half days missed due to unauthorised absence[4]*	*Total half days missed due to unauthorised absence*	*Percentage of half days missed due to unauthorised absence[4]*
2007-08	801,580	0.83	269,050	1.02	39,660	1.21
2006-07	809,630	0.81	289,430	1.04	[5]	[5]
2005-06	788,110	0.77	247,180	0.90	[5]	[5]
2004-05	708,070	0.67	266,810	0.92	[5]	[5]
2003-04	685,750	0.62	229,190	0.73	[5]	[5]

[1] Includes maintained secondary schools, city technology colleges and academies (including all-through academies).
[2] Includes maintained and non-maintained special schools. Excludes general hospital schools.
[3] Figures in italics have been sourced from the Absence in Schools Survey. Other figures are derived from the School Census.
[4] The number of sessions missed due to unauthorised absence expressed as a percentage of the total number of possible sessions.
[5] Not readily available. To provide further information would incur disproportionate cost.
Note:
Figures have been rounded to the nearest 10.
Source:
Absence in Schools Survey and School Census (3)

Advanced Skills Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many advanced skills teachers there were in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [288340]

Dawn Primarolo: The following table provides the headcount number of full and part-time advanced skills teachers in service in local authority maintained schools in England, January 2006 to 2009.

Full and part-time head count number of advanced skills teachers (ASTs) in service in the local authority maintained sector[1]—2006-09: England

	ASTs
2006	4,010
2007	4,060
2008[2]	4,300
2009[3]	4,030

[1] The figures exclude academies and CTCs because they are not funded by Las and therefore not part of the 618g collection.
[2] This figure is approximately 200 too high because a small number of local authorities overstated the numbers of ASTs they employed in 2008.
[3] Provisional.
Source:
Annual survey of teachers in service and teacher vacancies (618g).

Children: Disabled

Dr. Evan Harris: To ask the Secretary of State for Children, Schools and Families if he will develop a national strategy for the inclusion of children with disabilities into society, based on the principles of the UN Convention on the Rights of Persons with Disabilities. [289213]

Dawn Primarolo: The Government have taken action to promote an inclusive society in which disabled children will play a full part. We ratified the UN Convention on the Rights of Disabled Persons on 8 June. Further, we outlined in the Children's Plan our desire to make Britain the best place for all children and young people to realise their full potential, including those with special educational needs and disabilities.

We have legislated to ensure that disabled children and young people are not discriminated against and are actively encouraged by their school to participate in school life and in the local community. We amended the Disability Discrimination Act 1995 to require public bodies (including schools and local authorities) to increase access to the curriculum and school premises over time for disabled students by making reasonable adjustments.

The Disability Discrimination Act 1995 has also been amended to place a general duty on all public bodies, when carrying out their functions to have due regard to the need to: promote equality of opportunity between disabled people and other people; eliminate discrimination that is unlawful under the Disability Discrimination Act 1995; eliminate harassment of disabled people that is related to their disability; promote positive attitudes by disabled people in public life; and take steps to meet disabled people's needs, even if this requires more favourable treatment. Additionally, public bodies have a specific duty to work with disabled people to develop, implement and publish a disability equality scheme outlining how the general duty will be met.

Children: Protection

James Brokenshire: To ask the Secretary of State for Children, Schools and Families how many people have been added to the barred list maintained under the Protection of Children Act 1999 by the Independent Safeguarding Authority since January 2009. [287923]

Dawn Primarolo: I refer the hon. Member to the reply given on 21 July 2009, *Official Report*, columns 1408W and 1443W.

EU Law

Bob Spink: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the cost to his Department of the statutory obligations upon it provided for in legislation introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283482]

Dawn Primarolo: The Department for Children, Schools and Families has not carried out an estimate of the proportion of statutory obligations deriving from EU law within its policy remit. The key policy areas within the Department's remit (education in schools, children's social care and substantive family law) fall outside Community competence.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils eligible to sit a *(a)* mathematics, *(b)* English and *(c)* science GCSE in 2007 were not entered for an examination in each subject. [286383]

Dawn Primarolo: The information is shown in the following table:

GCSE attempts of pupils at the end of Key Stage 4: England 2006-07

Subject	*Number of pupils eligible for subject*	*Number of pupils entered for subject*	*Number of pupils not entered for subject*
Mathematics	649,200	616,900	32,300
English	649,200	619,500	29,700
Science	649,200	599,700	49,500

[*] All figures to nearest 100.

These figures are derived from the Statistical First Release: GCSE and Equivalent Examination Results in England 2006-07 (Revised) at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000768/index.shtml

Glasgow

John Mason: To ask the Secretary of State for Children, Schools and Families whether he plans to visit Glasgow on official business during the summer adjournment. [288927]

Dawn Primarolo: The Secretary of State currently has no plans to visit Glasgow on official business during the summer adjournment.

Head Teachers: Age

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the average age of headteachers in maintained schools was at the most recent date for which figures are available. [288343]

Dawn Primarolo: In March 2008, the latest period for which information is available, the average age of full-time head teachers in service in local authority maintained schools in England was 50. This figure is from the Database of Teacher Records and is provisional.

National Curriculum Tests

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families at how many and what proportion of primary schools *(a)* 25 per cent. or more and *(b)* 50 per cent. or more of pupils did not achieve a Level 4 or above in reading, writing and mathematics in their Key Stage 2 tests in the latest period for which figures are available. [286804]

Dawn Primarolo: The information can be provided only at disproportionate cost.

Offences against Children: Internet

Margaret Moran: To ask the Secretary of State for Children, Schools and Families what *(a)* funding, *(b)* materials and *(c)* other support his Department provides for children who have experienced online abuse. [288850]

Dawn Primarolo: Details on the funding, materials and support made available specifically for the victims of online child abuse are not held centrally.

However, expenditure on children's social care in England has increased from £2.218 billion in 1997-98 to £5.728 billion in 2008-09. This is a real terms increase of over 90 per cent., which equates to an average real terms increase of 6.1 per cent. per annum. In addition, the Government are investing £130 million in social work reform over the full spending review period including £109 million in the next two years of which £57.8 million is additional new investment as part of the Government's detailed response to Lord Laming's Report.

The Department of Health also makes available to local authorities £100.045 million in 2009-10 for child and adolescent mental health services through the local authority area based grant. It is for local authorities to determine how to use those resources in order to deliver local and national priorities in their areas. These grants account for less than 20 per cent. of spend on CAMHS and the actual reported spend on CAMHS increased by 62 per cent. between 2003-04 and 2006-07 to £523 million (latest available figure) when NHS spending is considered also.

Statutory guidance contained in 'Working Together to Safeguard Children' explains the procedures to be followed if somebody has concerns about the welfare of a child and in particular has concerns that a child may be suffering, or may be at risk of suffering, significant harm. Chapter 5 sets out the principles that underpin work to safeguard and promote the welfare of children. Where online abuse is concerned children and or parents can seek support from children's social care.

In addition, the Government have committed £30 million to the NSPCC's Childline services which offers trusted 1:1 counselling to children. The money will allow the NSPCC to expand their services significantly and improve them so that more children can be given the advice and help that can be so important.

Pupil Exclusions: Hampshire

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families how many exclusions from schools there have been in each year group in *(a)* Test Valley Borough and *(b)* Southampton in each of the last three years; and how many of those pupils who were excluded were also (i) cautioned for and (ii) charged with criminal offences. [287767]

Dawn Primarolo: The available information on the number of exclusions (not the number of students) is shown in the table.

Data on permanent exclusions are available for the full period requested. Data on fixed period exclusions were collected for the first time in 2003-04 via the Termly Exclusions Survey. Since 2005-06 collection has been via the School Census, but in that first year was for secondary schools only, therefore, comparable information for fixed period exclusions in 2005-06 is not available. In 2006-07, collection was extended to primary and special schools.

Information for Test Valley Borough could be provided only at disproportionate cost.

Statistics are not collected by the Department on the numbers of pupils that have been cautioned or charged for criminal activity.

Primary, secondary and special schools[1, 2, 3]: Number of exclusions by age, Southampton LA: 2004-05 to 2007-08

	2004-05		2005-06	2006-07		2007-08

Total	30	2,890	30	40	3,820	40	3,240

[1] Includes middle schools as deemed.
[2] Includes both CTCs and academies (including all-through academies). Information is as reported by schools.
[3] Includes maintained special schools. Non-maintained special schools are included from 2006-07.
[4] Figures relating to permanent exclusions are estimates based on incomplete pupil-level data.
[5] Age as at 31 August.
Notes:
1. x less than 5.
2. Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

Schools: Absence

Mike Penning: To ask the Secretary of State for Children, Schools and Families how many cases of unauthorised absence from school were recorded in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire and *(d)* the South East in each year since 1997. [285893]

Dawn Primarolo: The available information is shown in the table. Further information could be provided only at disproportionate cost.

Primary, secondary and special schools[1, 2] number and percentage of half days missed due to unauthorised absence 2003-04 – 2007-08[3]

	Hemel Hempstead constituency		*Dacorum*		*Hertfordshire*		*South East*	
	Total half days missed due to unauthorised absence	*Percentage of half days missed due to unauthorised absence[4]*	*Total half days missed due to unauthorised absence*	*Percentage of half days missed due to unauthorised absence[4]*	*Total half days missed due to unauthorised absence*	*Percentage of half days missed due to unauthorised absence[4]*	*Total half days missed due to unauthorised absence*	*Percentage of half days missed due to unauthorised absence[4]*
2007-08	30,210	0.81	[5]	[5]	307,380	0.73	2,812,270	0.95

Absence in Schools Survey and School Census[3]

Schools: Wakefield

Jon Trickett: To ask the Secretary of State for Children, Schools and Families what the average class size was in Wakefield local authority area for *(a)* primary and *(b)* secondary schools (i) in 1997 and (ii) at the latest date for which figures are available. [289119]

Dawn Primarolo: The information requested is shown in the following table:

Average class size in Wakefield local authority area

School type	1997	2008
Primary	28.2	26.2
Secondary	22.2	21.8

Notes:
1. Classes as taught by one teacher on the day of the Census in January.
2. The 1997 figures exclude the three middle schools that existed in Wakefield local authority at that time.
3. In 2008 there were no middle schools in Wakefield local authority.

Source:
School Census.

More detailed information can be found in the 'Pupil Characteristics and Class Sizes in Maintained Schools in England (tables B12 and B14)' Statistical First Release: http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000786/LATablesWeb.xls

Jon Trickett: To ask the Secretary of State for Children, Schools and Families what the average spend per head in *(a)* primary and *(b)* secondary schools in Wakefield local authority area was in (i) 1997 and (ii) in the last 12 month period for which figures are available. [289120]

Mr. Coaker: The available information on the average spend per head in primary and secondary schools in Wakefield local authority in 1997 and the last 12 months is shown in the following table:

School based expenditure per pupil in local authority maintained schools in Wakefield in 1997-98 and 2007-08

	1997-98		2007-08	
	Pre-primary and primary education	Secondary education	Primary education	Secondary education
Wakefield	1,560	2,150	3,590	4,340

Notes:
1. School based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.
2. 1999-2000 saw a change in data source when the data collection moved from the RO1 form collected by the ODPM to the Section 52 form from the DCSF (then DfES). 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) and the associated restructuring of the outturn tables. From 2002-03 school based expenditure is taken from Section 52 Outturn Table A line 51 net current expenditure (NCE). For 2001-02 and earlier years the expenditure is calculated as lines 1 to 12 less lines 29, 30, 35 and 37. This differs from the old Net Institutional Expenditure (NIE) calculation only in the treatment of meals and milk which is no longer excluded and no adjustments for balances are now made. This is taken from Section 52 Outturn Table 3 for 1999-2000 to 2001-02 and from the RO1 form previously.
3. The calculation for 2002-03 onwards is broadly similar to the calculation in previous years.
4. Pupil numbers include only those pupils attending maintained establishments within each sector and are drawn from the DCSF Annual Schools Census adjusted to be on a financial year basis.
5. Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999-2000.
6. Figures are rounded to the nearest £10 and in cash terms.

BUSINESS, INNOVATION AND SKILLS

Post Office Card Account

Mr. Frank Field: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made in the discussions between Xafinity Paymaster and the Post Office on the payment of armed forces pensions into the Post Office Card Account. [284813]

Mr. Kevan Jones: I have been asked to reply.

I will write to the right hon. Member with the information requested shortly.

Substantive answer from Kevan Jones to Frank Field:

I undertook to write to you in answer to your Parliamentary Question on 13 July (Official Report, column 506W), asking for a progress update about discussions between Xafinity Paymaster and the Post Office concerning the payment of armed forces pensions into the Post Office Card Account.

In order for the MOD or Xafinity Paymaster to introduce a POCA facility for Armed Forces Pension Scheme (AFPS) payments a new contractual agreement between MOD and the Post Office for this provision would be required. This would incur significant set up costs, as well as higher ongoing costs, especially as the MOD volumes would be significantly lower than those which enabled DWP to negotiate the current rate. The Service Personnel Veterans Agency (SPVA) will continue, as always, to work closely with Xafinity Paymaster to ensure that we provide our customers with services that are both convenient and represent value for money.

CHURCH COMMISSIONERS

Departmental Land

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners pursuant to the answer of 20 April 2009, *Official Report*, column 40W, on departmental land, to what purposes the £59.7 million of capital receipts obtained by the Church Commissioners following the sale of agricultural land in 2007 has been allocated. [288902]

Sir Stuart Bell: The Commissioners do not ring-fence capital receipts for specific purposes. Receipts are reinvested with the aim of maximising the fund's long-term total return in support of the Commissioners' various responsibilities. These include meeting clergy pension commitments and providing maximum sustainable funding for bishops and cathedrals as well as parish mission and ministry support.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners pursuant to the answer of 20 April 2009, *Official Report*, column 40W, on departmental land, what the rate of return was on *(a)* the £59.7 million of capital receipts obtained by the Church Commissioners following the sale of agricultural land in 2007 and *(b)* agricultural assets retained by the Church Commissioners in the same period. [288941]

Sir Stuart Bell: The information requested is as follows.

(a) As the Commissioners do not ring-fence capital receipts, it is not possible to state the return on the capital receipts obtained by them from a specific transaction.

(b) I can, however, tell the hon. Gentleman that the total return on the Commissioners' assets in 2007 was 9.4 per cent. The total return on the rural holdings was 36.6 per cent. which included sales significantly above valuation.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners pursuant to the answer of 20 April 2009, *Official Report*, column 40W, on departmental land, what the monetary value is of the assets in which the £59.7 million of capital receipts obtained by the Church Commissioners following the sale of agricultural land in 2007 was invested. [288942]

Sir Stuart Bell: Because the Commissioners pursue a total return investment strategy rather than ring-fencing receipts for specific reinvestment or expenditure, it is not possible to give a monetary value for the capital receipt obtained by the specific transaction to which the hon. Gentleman refers.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners (1) how many tenanted agricultural holdings with rights of succession under the Agricultural Holdings Act 1986 were sold in whole or in part following the death or retirement of the previous tenant in each of the last five years; [289110]

(2) how many tenanted agricultural holdings with rights of succession under the Agricultural Holdings Act 1986 were re-let in whole or in part as farm business tenancies to *(a)* individuals unconnected to previous tenant family and *(b)* members of the previous tenant's families following the death or retirement of the previous tenant in each of the last five years. [289122]

Sir Stuart Bell: None.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many tenanted agricultural holdings with rights of succession under the Agricultural Holdings Act 1986 had successful successions following the death or retirement of the previous tenant of those holdings in each of the last five years. [289121]

Sir Stuart Bell: The Commissioners do not record succession data.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government (1) if he will make it his policy to ensure that district authorities in Lancashire publish their waiting lists for local authority-provided allotments; what recent assessment he has made of local authorities' performance in the provision of allotments; and what formula his Department provides for local authorities to determine the number of allotments each should provide; [287690]

(2) if he will estimate the number of allotments which each district authority in Lancashire should provide under the formula prepared by his Department; and if he will estimate the number of allotments each such local authority provides. [287810]

Mr. Malik: Local authorities are responsible for keeping and managing waiting lists for allotments they provide. We have no plans to direct local authorities to publish their waiting lists.

Information on the number of allotments provided by local authorities is not held centrally. The provision of allotments is the responsibility of local authorities; Section 23 of the Small Holdings and Allotments Act 1908 places a duty on local authorities (except for inner London boroughs) to provide allotments where they perceive a demand for them in their area.

Government do not provide a formula for local authorities to determine the number of allotments they should provide. However, the Planning Policy Guidance Note 17: Planning for Open Space, Sport and Recreation 2002 (PPG17) requires local authorities to make provision for all types of open space and requires them to undertake robust assessments of local needs and audits of existing open space, to establish standards for new provision. Setting national standards for provision cannot cater for local circumstances, such as differing demographic profiles and the extent of building development in an area. The accompanying guidance to PPG17 advises local authorities on setting local standards.

A revised good practice guide, "Growing in the Community", was published by the Local Government Association in March 2008, and includes a section on allotment provision and how to assess the need for allotments as outlined in PPG17.

Building Regulations

Norman Baker: To ask the Secretary of State for Communities and Local Government how many contraventions of Part L of the Building Regulations have been identified in each year since 2000; how many of these were resolved before project completion; and how many of those unresolved at project completion resulted in prosecution. [288042]

Mr. Malik: Enforcement of compliance with the Building Regulations is undertaken by local authorities. There is no central register of enforcement notices served or prosecutions brought. In the main, local authorities aim to resolve issues that arise through inspection of and advice to those undertaking work. Enforcement notices and prosecution are only used as a last resort.

The consultation on revising Part L in 2010 published on 18 June included proposals for specifically improving compliance. The consultation paper can be accessed via the link:

http://www.communities.gov.uk/publications/planningandbuilding/partlf2010consultation

Building Regulations Advisory Committee

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent employees the Building Regulations

Advisory Committee employs; what its budget for 2009-10 is; and how much it will receive in support from his Department in 2009-10. [288481]

Mr. Malik: The Building Regulations Advisory Committee has no full time employees. The Committee's budget for 2009-10 is £20,000 which is funded by the Department and used for members' expenses and the essential costs of its meetings. The Department also provides the Committee's secretariat and its resources for this comprise the equivalent of approximately three-quarters of a full-time post.

Council Housing: Construction

Robert Neill: To ask the Secretary of State for Communities and Local Government how many local authority housing units have been *(a)* started and *(b)* completed in the last 12 months. [288283]

Mr. Malik: 330 local authority dwellings were started, and 520 local authority dwellings were completed in England in the 2008-09 financial year.

The latest statistics on house building starts and completions in England were published in the Communities and Local Government Statistics Release of 21 May 2009 and accompanying live tables. The web links are shown as follows:

Link to House Building Statistics Release:

http://www.communities.gov.uk/publications/corporate/statistics/housebuildingq12009

Link to House Building Live Tables:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/housebuilding/livetables/

Council Housing: Fire Prevention

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the letter sent by his Department's Head of Housing to each local authority following the Lakanal House fire. [288105]

John Healey: I have arranged for the letter to Chief Executives in all local authorities to be placed in the Library of the House.

The enclosures to the letter can be found on the Communities website at

www.communities.gov.uk/publications/housing/camberwellupdate

Council Tax: Debt Collection

Ms Buck: To ask the Secretary of State for Communities and Local Government on how many occasions each local authority in England *(a)* issued a court order and *(b)* authorised bailiff action in respect of council tax arrears in each of the last three years. [288537]

Ms Rosie Winterton: Communities and Local Government does not collect this information.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government with reference to the answer of 24 November 2008, *Official Report*, column 1128W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289163]

Mr. Malik: The information is as follows:

(a) The Department spent the following on these commodities since November 2008:

i. £6,360 on two flat screen televisions and associated equipment

ii. £0 on DVD players

iii. £0 on stereo equipment.

(b) The Department's agencies spent the following on these commodities since November 2008:

i. £1,350 on flat screen televisions

ii. £582 on DVD players

iii. £0 on stereo equipment.

Departmental Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to the proposals contained in the Draft Legislative Programme 2009, what changes will be made to the programme budgets of *(a)* his Department and *(b)* its agencies in order to finance the £1.5 billion housing package; what proportion of the package will be funded by his Department; and over what timescale. [288782]

Mr. Malik: Details of the funding package for the £1.5 billion housing pledge announced in Building Britain's Future were announced on 17 July:

http://www.communities.gov.uk/news/corporate/1286956

Departmental ICT

Robert Neill: To ask the Secretary of State for Communities and Local Government what projects involving information technology elements being sponsored by his Department and its agencies are *(a)* behind schedule and *(b)* overbudget. [288284]

Mr. Malik: The criteria set out in the question currently apply to several CLG projects as follows.

Communities and Local Government (including the regional co-ordination unit and Government offices in the regions)

FiReControl: The FiReControl project is a business change project with an IT component. On 15 July 2009 I announced a 10 month rescheduling of the project. The IT costs will remain the same although total costs might increase as a result of the extended delivery schedule.

FireLink: The Firelink project is primarily providing a radio system for the Fire and Rescue Service, and contains a small element of IT. Completion of the roll-out is scheduled for April 2010 compared to the previously published completion date of December 2009. The whole life project costs remain on target.

Planning Inspectorate

Charging for Appeals: This project, originally for delivery by April 2009, has been re-planned, and split into two stages. This recognises the time needed for the charging regime to be developed

and consulted on. Stage 1 is expected to be complete by October 2009, and stage 2 by April 2010. Costs are increasing by £65,000 as a result.

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Communities and Local Government what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of (i) male and (ii) female employees is. [288298]

Mr. Malik: The workforce of Communities and local Government is 50.58 per cent. female and 49.42 per cent. male.

Data on Civil Service pay, including average pay for men and women, can be found in the Annual Civil Service Employment Survey statistics published by ONS at:

http://www.statistics.gov.uk/pdfdir/cds0109.pdf

Please note the ONS collects the annual gross salary of civil servants and does not produce hourly rates of pay.

Departmental Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what *(a)* salaries, *(b)* benefits in kind and *(c)* payments for expenses each of his Department's non-executive directors have received in the last 24 months. [288829]

Ms Rosie Winterton: Non-executive members of the board are not employees of the Department, and do not therefore receive salaries. Rather, each receives a fee of £10,000 per year. As agreed on a case-by-case basis, however, this fee may be paid to the employer and not to the individual as reimbursement for their time spent on non-executive business. (Within the last 24 months, this has applied for Sir Bob Kerslake, a former board member and formerly chief executive of Sheffield city council; and Rob Vincent, the chief executive of Kirklees council and a current board member.)

No non-executive board member has received any benefits in kind during the last 24 months.

Non-executive board members are entitled to reimbursement of all reasonable expenses properly and necessarily incurred in respect of their appointment. Payments made to individual non-executive board members between 1 April 2007 and 31 March 2009 are summarised in the following table. All business expenses reimbursed to non-executive board members, and also to senior civil servants at the director general and above level, from 1 April 2009 onwards will be published quarterly.

		£
	2007-08	*2008-09*
Peter Doyle	1,094.13	337.60
Sir Bob Kerslake	2,886.81	442
Sarah Weir	79.40	0
Polly Cochrane	0	157
Rob Vincent	0	2,007.83

On occasion, the Department also books travel and accommodation for all board members and incurs that expenditure centrally.

Departmental Recruitment

Robert Neill: To ask the Secretary of State for Communities and Local Government which posts filled by his Department in the last three months were not advertised on either his Department's public website or the public part of the Civil Service Recruitment Gateway; and what the job title and remit of each such vacancy was. [286644]

Ms Rosie Winterton: Staff are from time to time recruited through limited competition on a time-limited basis to provide additional expertise and capacity as required, and are not permanent civil servants who can only be appointed through fair and open competition.

20 posts were not advertised and were filled through limited competition (including three student placements). The job title and remit for the remaining 17 posts are as follows:

Project Adviser—Local Analysis and Delivery Unit;
Marketing Assistant—Planning Portal;
Lawyer—Legal Directorate;
Grade 6—Residential Property Tribunal Service;
Team Leader—Olympics Legacy Planning and Delivery;
Personal Assistant, Strategy and Performance;
Development Team Admin.—Planning Portal;
HR Communications Manager;
Research Assistant—Planning Portal;
HR Helpdesk Operator;
Workforce Equalities Team Member;
Policy Adviser—Local Government Restructuring;
HR Management Information Manager;
Deputy Director—Communities Futures;
Policy Adviser—Strategy and Performance;
Executive Officer—Total Place;
HR Resourcing Manager.

Robert Neill: To ask the Secretary of State for Communities and Local Government how many job vacancies have been filled in his Department in the last 12 months; and how many of them were advertised on *(a)* his Department's public website and *(b)* the public part of the Civil Service Recruitment Gateway. [286683]

Mr. Malik: 270 job vacancies were filled in the Department in the last 12 months, and most were filled internally. 82 job vacancies were advertised externally. A high proportion of external adverts are for specialist and senior roles. Advertising methods are chosen to ensure a strong field of candidates. It is standard procedure to advertise all external vacancies (below SCS level) on the public part of the Civil Service Recruitment Gateway and on the Department's public website, in addition to the use of other means such as Local Employment Partnerships and Jobcentre Plus.

Departmental Work Experience

Mr. Amess: To ask the Secretary of State for Communities and Local Government what provision is made to enable students to undertake work experience in his Department; by what means members of the public may obtain information about work experience in his Department; and if he will make a statement. [288731]

Mr. Malik: This year Communities and Local Government has offered internships to Greenwich university students, under/recent graduates from the ADAB Trust and students from the Cabinet Office Summer Development programme for Ethnic Minorities and Summer Placements scheme for disabled students. In addition we have taken on summer students and sandwich students via the Government Economic Service and Legal Directorate has offered summer placements to legal trainees.

Members of the public may obtain information about work experience opportunities from a variety of sources including the contact phone number and email address found on the Communities and Local Government website.

Eco-Towns: Construction

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to page 122 of the Draft Legislative Programme 2009-10, whether his Department's target to build five eco-towns by 2016 remains in place. [288456]

John Healey: I refer the hon. Member to my written statement of 16 July 2008, *Official Report*, column 42WS, on eco-towns and zero carbon homes, which sets out the first locations with potential to have an eco-town and our aims and proposals for the further development of eco-towns.

Energy Performance Certificates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 8 July 2009, *Official Report*, column 902W, on energy performance certificates and home information packs, what the reasons are for the difference between the period of validity of energy performance certificates *(a)* included in and *(b)* not included in home information packs. [288109]

John Healey: The reasons were set out in paragraphs 7.1-7.3 of the Explanatory Memorandum to The Energy Performance of Buildings (Certificates and Inspections) (England and Wales) (Amendment No.2) Regulations 2008 which can be viewed online at

http://www.opsi.gov.uk/si/si2008/em/uksiem_20082363_en.pdf

Fire Service College

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the net cost to the public purse of the Fire Service College is; and whether an assessment has been made of the potential for increasing its commercial revenue. [288826]

Mr. Malik: In 2008-09 the expenditure of the Fire Service College was £23.840 million, which it funded from £21.579 million income and £2.261 million reserves. It was unable to pay the required dividend (net of loan interest) of £1.521 million.

Over the past year the Department and College management team have jointly carried out a detailed review of all aspects of the College's business to determine how it could continue to meet the training and development needs of the Fire and Rescue Service on a financially sustainable basis. This review looked at building College income through growing current market share and developing new public and private sector markets and products and concluded that financial sustainability could be achieved in 2010-11.

Homes and Communities Agency: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the budget for the Homes and Communities Agency for 2009-10 is. [288471]

John Healey: I refer the hon. Member to the answer I gave him on 16 June 2009, *Official Report*, column 202W.

Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 14 May 2009, *Official Report*, column 1002W, on housing, on what dates the Working Group on Condition Information in the Home Buying and Selling Process has met since 23 March 2009; what was discussed at each meeting; and if he will make a statement. [288437]

John Healey: The Working Group on Condition Information in the Home Buying and Selling Process has met twice since 23 March 2009, on 19 May and 13 July. This work is ongoing and disclosure of what was discussed at each meeting could restrict the contribution of Working Group members to those discussions and limit their input.

Housing Market

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the average length of time was between a home being placed on the market and being sold in the latest period for which figures are available. [287506]

John Healey: We do not collect the data requested.

Housing: Construction

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many new housing units were completed in 2008-09; and how many are predicted to be completed in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [287508]

Mr. Malik: 133,710 new build dwellings were completed in England in 2008-09.

The latest statistics on house building starts and completions in England were published in the Communities and Local Government Statistics Release of 21 May 2009 and accompanying live tables. The web links are as follows:

Link to House Building Statistics Release:

http://www.communities.gov.uk/publications/corporate/statistics/housebuildingq12009

Link to House Building Live Tables:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/housebuilding/livetables/

The Department does not publish forecasts for house building.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what targets his Department and its agencies have set for affordable house building in each of the next two years. [288224]

John Healey: As set out in Building Britain's Future, we will be providing a total of 110,000 new affordable homes over the next two years.

Housing: Energy

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes classified as energy efficient were built in each local authority area in each of the last five years. [286917]

Mr. Malik: All new homes built in England in the last five years have been required to meet the energy efficiency standards set out in part L of the Building Regulations. The part L standard for new homes was raised by 25 per cent. in 2002 and by a further 20 per cent. in 2006. This requirement will progressively increase leading up to the target for all new homes to be zero carbon from 2016. Tables showing the total number of new build dwellings per year in each English region can be found on my Department's website at:

http://www.communities.gov.uk/documents/housing/xls/141239.xls

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government with reference to paragraph 31 of the Building Britain's Future document, Cm 7654, what criteria will be used to decide where to deploy the £1.5 billion of new investment in energy efficient affordable homes. [287866]

John Healey: Criteria for allocations for these funds vary across the different component programmes, although all funding will be allocated on a competitive basis. For affordable housing units, standards and costing will be in line with those of the National Affordable Housing Programme. For private housing completions, the level of public subsidy required, fit with national, regional and local priorities and the quality of the homes will all be assessed. The bidding guidance and criteria for the schemes will be made available through the website of the Home and Communities Agency at

www.homesandcommunities.co.uk

Alan Simpson: To ask the Secretary of State for Communities and Local Government how many energy performance certificates have been issued by local authorities in respect of privately-rented properties in each year since their introduction; what recent progress has been made in increasing the energy efficiency of buildings; and if he will make a statement. [288022]

John Healey: The Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007 (S.I. 2007/991) ("the 2007 regulations") require the seller, prospective landlord or builder of a property to make an Energy Performance Certificate (EPC) available to a prospective buyer or tenant whenever a building in England or Wales is sold, constructed or rented out. Local authorities are not therefore expected to issue EPCs in respect of privately rented properties.

The Heat and Energy Saving Strategy consultation paper (HESS), published in February this year, sets out the combination of measures the Government have adopted and proposes for increasing the energy efficiency of existing homes, including targeted help to households on using energy better, insulating their homes, accessing low carbon heat and power, and reducing their fuel bills. The UK Low Carbon Transition Plan (UKLCTP), publish on 15 July, also sets out the route to cut emissions by 34 per cent. in comparison to 1990 levels by 2020. Consultation on the HESS has now been completed and the final policy proposals will be published later this year.

Housing: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in which month in 2009 data collection funds from the second round of housing and planning delivery grant will be allocated to local authorities; over what period of data collection his Department will base its second round allocations; and over what period his Department will take a decision on how to allocate the funding. [288824]

John Healey: A consultation paper setting out changes to the formula for distributing Housing and Planning Delivery Grant was issued in May 2009. The data used to calculate the allocations of the second year of Housing and Planning Delivery Grant (2009-10) have been collected and we hope to make provisional allocations shortly. Following comments from local authorities we will make final allocations and payments in the autumn.

The proposed formula is based on data for housing supply (average net additions) in local authorities over the period 2005-6 to 2007-8. For planning the formula is based on data from 2008-9 for the delivery of local development frameworks, providing land for housing and publishing strategic housing land assessments.

Housing: Low Incomes

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many completed Social Homebuy transactions there have been in each Government Office region. [288225]

Mr. Malik: The following table shows the number of social homebuy sales in each Government office region between April 2006 and June 2009. Social homebuy is a voluntary and demand-led scheme in which only some social landlords choose to participate. It is one of several options available to help social tenants into home ownership. Purchasers can buy shares of between 25 and 100 per cent.

Region	*Number of social homebuy sales*
North East	16
North West	63
Yorkshire and the Humber	19

Region	Number of social homebuy sales
West Midlands	21
East Midlands	9
East	6
South East	32
Greater London	151
South West	2
Total	315

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many and what proportion of social housing units contained households with at least one person in paid work in *(a)* 1979, *(b)* 1997 and *(c)* the most recent year for which figures are available. [288226]

Mr. Malik: Estimates of the number and proportion of social sector households with at least one person in employment in 1997 and 2008 are provided in the following table. Data are not available for 1979. These estimates are based on data from the ONS Labour Force Survey.

Social sector households with at least one person in employment, England, 1997 and 2008

	Thousands	Percentage
1997	1,433	35
2008	1,425	39

Source:
ONS, Labour Force Survey.

Robert Neill: To ask the Secretary of State for Communities and Local Government what progress has been made towards the Government's target of delivering at least 70,000 affordable houses by 2010. [288324]

Mr. Malik: Provisional figures from the Homes and Communities Agency show a total of 47,000 affordable homes were provided in 2008-09. Market conditions have made the delivery of affordable housing much more challenging. Along with additional investment from the Housing Pledge and steps the Government have already taken, we will deliver 20,000 more affordable homes than would otherwise have been possible and allow us to deliver over 56,000 affordable homes in 2010-11.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what formula is used to allocate between regions additional monies under the National Affordable Housing Programme. [288475]

John Healey: Flexibility will be applied to the additional funding for the national Affordable Housing Programme and will reflect the extent to which local areas in regions respond on delivery and value for money.

Independent Housing Ombudsman

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent employees the office of the Independent Housing Ombudsman employs; what its budget for 2009-10 is; and how much it will receive in support from his Department in 2009-10. [288479]

Mr. Malik: The Independent Housing Ombudsman (THO) currently employs 35.5 full-time equivalent employees. Its budget for 2009-10 is £3,326,734. The IHO does not receive any financial support from the Department.

Leasehold Advisory Service

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent employees the Leasehold Advisory Service employs; what its budget for 2009-10 is; and how much it will receive in support from his Department in 2009-10. [288478]

Mr. Malik: LEASE currently employs 19 full-time equivalent staff. The expenditure forecast by LEASE for 2009-10 is £1,468,851. Communities and Local Government expects to provide a grant-in-aid amount of £1,325,000 for the year 2009-10.

Leasehold Advisory Service: Managers

Grant Shapps: To ask the Secretary of State for Communities and Local Government what remuneration the Chief Executive of the Leasehold Advisory Service received in the most recent year for which figures are available. [288487]

Mr. Malik: The remuneration for the chief executive of the Leasehold Advisory Service with effect from 8 October 2008 is equivalent to £72,235 per annum.

Local Government Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what individual funding streams there are within the area-based grant; and which elements of area-based grant derive from funding streams which are managed by other Government departments. [288162]

Ms Rosie Winterton: Information on individual area based grant funding streams and their contributing central Government Departments for the period 2009-10 is available from the CLG website at the following link:

http://www.communities.gov.uk/documents/localgovernment/xls/780467118.xls

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the amount of area-based grant will be in each of the next three years. [288163]

Ms Rosie Winterton: The total of area based grant in 2010-11 is currently scheduled to be £4,776,748,906. This total is subject to change as departments contributing to ABG have the option to increase their previously announced allocations or to include new funding streams within ABG. Details of department allocations are available on the CLG website at the following link:

www.communities.gov.uk/localgovernment/localgovernmentfinance/areabasedgrant/

Spending plans for 2011-12 onwards have yet to be determined.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how the number of resident migrants who are not recorded on the census in a particular locality are reckoned for the purposes of local government finance settlements. [288982]

Ms Rosie Winterton: The distribution of Formula Grant funding takes into account a measure of the usual resident population, and does not use estimates of migrant numbers separately.

Communities and Local Government use sub-national population projections and the mid-year estimates that are published by the Office for National Statistics (ONS). These statistics take into account changes in the population through natural change (births and deaths), internal migration (movements between local authorities) as well as international migration.

Local Government: Debt Collection

Ms Buck: To ask the Secretary of State for Communities and Local Government on how many occasions each local authority in England *(a)* issued a court order and *(b)* authorised bailiff action in respect of rent arrears in each of the last three years. [288538]

Mr. Malik: Data are not yet available on possession or eviction orders granted by the courts to local authority landlords in respect of rent arrears.

Local Government: East of England

Robert Neill: To ask the Secretary of State for Communities and Local Government what his plans are for the parliamentary timetable for secondary legislation in relation to local government restructuring in Norfolk, Suffolk and Devon. [288300]

Ms Rosie Winterton: Following the High Court judgment in the case of Forest Heath District Council and Others v. the Boundary Committee for England, the Boundary Committee informed us that it was not able to provide the requested advice on unitary local government in Devon, Norfolk and Suffolk by 15 July. We agreed that the deadline for providing advice should be extended. Once it is clear when any appeal against the court's judgment may be determined a new date by which the Boundary Committee is requested to advise will be specified.

The statute provides that the Secretary of State may not make a decision about any unitary proposals put to him within six weeks of the date the Committee has been requested to provide advice.

Any Orders to implement unitary proposals in Norfolk, Suffolk or Devon would be laid before Parliament as soon as practicable after statutory decisions are taken.

Local Government: Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assumptions his Department makes of the level of local government pay inflation in determining the local government finance settlement; and what measure of pay inflation is used. [288983]

Ms Rosie Winterton: No assumption on the level of local government pay inflation is made in determining the local government finance settlement. Cost pressures are considered as part of Spending Reviews. Differences in labour costs between areas are reflected in the Area Cost Adjustment.

Migration Impacts Fund

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which 200 projects will be funded under the Migration Impacts Fund; where each is based; what the purpose of each is; what the name of the recipient of funding in respect of each is; and how much each will receive. [288831]

Mr. Malik: On 9 July 2009 we announced the successful proposals for England to receive a share of the Migration Impacts Fund. The Fund is financed by a levy on migrants and provides £35 million across the UK for 2009-10 and, subject to a review in the autumn, a similar amount in 2010-11. This money will be used to reduce local pressure on public services and tackle illegal working practices. Councils and other frontline services have identified projects in their area that will make the biggest contribution to insulating them and local people against the impact of migration.

A list of funding allocations for 2009-10 has been deposited in the Library of the House. This does not cover payments to voluntary sector bodies, or to enforcement agencies to protect existing workers in local areas as amounts are subject to funding agreements. Details of these payments will be published shortly.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 July 2009, *Official Report*, column 959W, on mortgages: Government assistance, on what date *(a)* the Bank of Ireland, *(b)* GMAC, *(c)* Kensington Mortgages, *(d)* GE Money and *(e)* the Post Office joined the Homeowners Mortgage Support Scheme. [287604]

John Healey: I refer the hon. Member to the answer I gave him on 15 July 2009, *Official Report*, column 498W.

Non-Domestic Rates: Appeals

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many business rate appeals the Valuation Tribunal Service has considered in each of the last five years. [288825]

Ms Rosie Winterton: The following table sets out the number of national non-domestic rate appeals, considered by the 56 valuation tribunals in England, in each of the last five years.

Total VT decisions on NNDR appeal types

	Number
2008-09	8,101
2007-08	13,825
2006-07	23,779

Total VT decisions on NNDR appeal types

	Number
2005-06	36,581
2004-05	34,725

Opencast Mining: Planning Permission

Mark Pritchard: To ask the Secretary of State for Communities and Local Government if he will bring forward proposals to reduce the size of buffer zones between proposed opencast mining planning developments and residential housing in England to the size they are in Scotland. [287011]

John Healey: I refer the hon. Member to the answer given by the then Under-Secretary of State my hon. Friend the Member for Hartlepool (Mr. Wright) on 3 February 2009, *Official Report*, column 1156W. There is no current intention to review existing planning policy on opencast mining and introduce buffer zones in England.

Residential Property Tribunal Service

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent employees the Residential Property Tribunal Service employs; what its budget for 2009-10 is; and how much it will receive in support from his Department in 2009-10. [288470]

Mr. Malik: The Residential Property Tribunal Service (RPTS) is an umbrella organisation for five regional panels which draw on a pool of tribunal members, including nine full-time equivalent (FTE) paid presidents and vice presidents. Although they receive funding for expenses and pay from the Department, members of tribunals are not Communities and Local Government staff. They are supported by 92.5 FTE administrative staff who are civil servants employed by Communities and Local Government. The total budget for the RPTS for 2009-10 is £11 million.

Scotland

Stewart Hosie: To ask the Secretary of State for Communities and Local Government whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288966]

Mr. Malik: Communities and Local Government has not submitted evidence to the Scottish Executive's National Conversation and does not plan to do so.

Social Rented Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many and what proportion of social housing dwellings have received new tenants in each of the last five years. [288108]

John Healey: I refer the hon. Member to the answer given by the then Under-Secretary of State my hon. Friend the hon. Member for Hartlepool (Mr. Wright) on 18 May 2009, *Official Report*, column 1198W.

Social Rented Housing: Foreigners

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many households of non-UK nationals have received new social housing tenancies in each of the last five years. [288098]

John Healey: Information on the number of foreign national households receiving social housing is collected through the continuous recording of letting form (CORE). Historically CORE has only collected information from registered social landlords. An increasing number of local authorities are now providing information through this process as well, but there are still some gaps in the data.

A question on nationality was first introduced to the form for the 2006-07 data collection period. It was estimated that around 6 per cent. (equivalent to around 11,000) general needs lettings to new social housing tenants were made to foreign nationals in 2006-07. This estimate was adjusted for the missing local authority data, and included lets made to nationals from EEA countries.

It is estimated that around 12,000 general needs lettings to new social housing tenants were made to foreign nationals in 2007-08 (equating to 6.6 per cent.). Figures for 2007-08 are based on an improved imputation method to adjust for missing local authority data. 2007-08 figures are published on the Communities and Local Government website at:

http://www.communities.gov.uk/documents/housing/xls/1228921.xls

Social Rented Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much funding will be provided from *(a)* the National Affordable Housing Programme and *(b)* other funding streams to meet regional affordable housing targets in (i) 2009-10 and (ii) 2010-11. [287847]

John Healey: Through Building Britain's Future we are investing, via the Homes and Communities Agency, over £7.5 billion in 2009-10 and 2010-11 from the National Affordable Housing Programme and other HCA programmes.

With regard to regional targets, I refer the hon. Member to the answer given to him by the Under-Secretary of State my hon. Friend the Member for Dudley, North (Mr. Austin) on 8 July, *Official Report*, column 905W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what proportion of funding allocated to the National Affordable Housing Programme for *(a)* 2009-10 and *(b)* 2010-11 is expected to be spent; [287848]

(2) what proportion of funding allocated to the National Affordable Housing Programme for *(a)* 2009-10 and *(b)* 2010-11 was expected to be spent prior to the agreement of the new regional targets for affordable housing. [287849]

John Healey: I expect all of the national Affordable Housing Programme budget for 2009-10 and 2010-11 will be spent.

Social Rented Housing: Service Charges

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the average annual service charges were for social housing run by *(a)* local authorities, *(b)* arms length management organisations and *(c)* housing associations in each region in England in the latest period for which figures are available. [287510]

John Healey: Information on average service charges is available for housing associations through the Regulatory and Statistical Return, collected by the Tenant Services Authority. Most service charges are eligible for housing benefit, with the exception of heating and hot water charges.

Table 1 gives average service charges eligible for housing benefit as at 31 March 2008 and is based on only general needs dwellings that have an eligible service charge.

Table 1: Average service charges by region for general needs stock owned by large registered social landlords, as at 31 March 2008

		Benefit-eligible service charge	
	Total stock (Unitholds basis)	*Stock with service charge*	*Average for stock with service charge (£ per week)*
East Midlands	78,046	34,256	4.11
East of England	176,712	67,786	4.08
London	259,670	162,113	7.56
North East	106,673	37,928	4.19
North West	308,744	119,394	3.97
South East	230,853	114,203	4.46
South West	135,689	61,217	3.63
West Midlands	193,624	95,447	3.83
Yorkshire and the Humber	130,602	55,339	4.32
England	1,619,615	747,683	4.83

Notes:
1. Figures include data from all housing associations that completed the long version of the RSR and made a valid return (in general those HAs that own or manage 1,000 or more dwellings and/or bedspaces, including shared ownership dwellings).
2. The data cover general needs housing, including Estate Renewal Challenge Fund stock, but exclude all supported housing and housing for older people.

Source:
Tenant Services Authority's Regulatory and Statistical Return (RSR), part 1a, 2008.

The average service charge ineligible for housing benefit in England, as at 31 March 2008, was £5.11 per week, based on 113,985 dwellings with an ineligible service charge.

Comparable information is not available for local authorities and arms length management organisations.

Social Rented Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government what funding his Department has allocated in respect of the Decent Homes programme in 2009-10; and what funding he intends to allocate in 2010-11. [286602]

John Healey: The Department for Communities and Local Government investment in the Decent Homes programme will be provided through the housing revenue account (HRA) subsidy system in the form of local authorities' supported capital expenditure (SCE), arms length management organisations' supported borrowing allocations and major repairs allowance (MRA). The level of spending is reducing as landlords come to the end of the decent homes investment programmes.

We have also reprioritised funding from the ALMO programme. On 17 July, I announced £150 million in 2010-11 would be reprioritised from this programme, to enable investment of a further £1.5 billion to build an extra 20,000 new affordable homes for rent and low cost sale. This includes a new role for local authorities in the delivery of housing, enabling them to build 3,000 additional council homes over the next two years, which is a four-fold expansion of the scheme announced at the Budget. 12 ALMOs that have not yet met the Audit Commission's two-star standard to be eligible for support are more likely to receive funding in 2011-12. We remain fully committed to complete the Decent Homes programme, and once completed, to seeing this standard maintained in the future. The reforms to the council housing finance system set out in the consultation document I published on 21 July will safeguard our commitment to future decent homes.

		£ million
	2009-10	*2010-11*
Local authorities supported capital expenditure	266	259
ALMO supported borrowing allocations	896	609
Major repairs allowance	1,277	[1]

[1] Not yet known.

Social Rented Housing: Waiting Lists

Sarah Teather: To ask the Secretary of State for Communities and Local Government for how long on average a household was on a social housing waiting list before being allocated social housing in each region in the latest period for which figures are available; and what the longest time was for which a household in each region had been waiting during that period. [287511]

Mr. Malik: Information on the length of time households spend on a housing waiting list is not collected centrally.

Supporting People Programme

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many local authorities were eligible to receive Supporting People grants in each of the last three years. [288484]

Mr. Malik: Supporting People is a locally devolved programme administered through top tier authorities in partnership with local Housing, Health, Social Services and Probation bodies. Before the structural changes to local government on 1 April 2009, 150 authorities were eligible to receive funding, this has now increased to 152 eligible authorities.

Tenant Services Authority: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what the budget for the Tenant Services Authority for 2009-10 is; [288472]

(2) how much he expects to give the Tenant Services Authority in grant-in-aid in 2009-10. [288486]

John Healey: I refer the hon. Member to the responses given by the then Under-Secretary of State my hon. Friend the Member for Hartlepool (Mr. Wright) on 3 February, 23 March and 16 June 2009, *Official Report*, columns 1160W, 78W and 202W respectively.

CULTURE, MEDIA AND SPORT

Departmental Catering

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport with reference to the answer of 20 November 2008, *Official Report*, column 752W, what subsidy his Department provided for staff dining facilities at Cockspur Street in 2008-09. [289101]

Mr. Sutcliffe: The Department paid £90,000 for staff catering facilities at Cockspur Street. In addition, the costs of running the kitchen are about £40,000.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport with reference to the answer of 25 November 2008, *Official Report*, column 1336W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agency has spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289193]

Mr. Sutcliffe: Since November 2008 my Department and the Royal Parks Agency have spent the following:

		£
	DCMS	*Royal Parks Agency*
Flat screen televisions	633.28	0
DVD players	0	15
Stereo equipment	0	400

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay is of (i) male and (ii) female employees. [288625]

Mr. Sutcliffe *[holding answer 21 July 2009]:* The percentage of employees who are male and female along with the average hourly pay is set out in the following table.

	Percentage		*Average rate per hour*	
Grade	*Female*	*Male*	*Female*	*Male*
Director (SCS2)	25	75	48.99	58.48
Deputy Director (SCS1)	53	47	34.55	38.34
Grade A (Upper)	42	58	29.45	29.80
Grade A	45	55	24.21	24.74
Grade B (Faststream)	40	60	16.46	17.22
Grade B	46	54	15.40	16.13
Grade C	46	54	12.91	12.68
Grade D	58	42	10.73	10.34
Overall	46	54	19.09	21.84

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Culture, Media and Sport what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287135]

Mr. Sutcliffe: The Department is making good progress in implementing the recommendations of the Glover Report, "Accelerating the SME Economic Engine". In particular:

(a) The Department already makes use of a free portal "Supply2gov.uk" for advertising its contract opportunities, which attracts a wide range of SMEs.

(b) Electronic issuing of tender documentation is standard practice, which is inclusive of the publication of contract award notices.

(c) The Department has invested in new systems which allow us to track and map spend annually with SME's since 2006-07. Presently 27.5 per cent. of spend goes through SMEs, close to the recommended target of 30 per cent. over the next five years.

The Department has also made progress with the other recommendations within the report, having completed its procurement innovation plan. We are also making progress in using more outcome based specifications.

Departmental Sick Leave

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what percentage of sick leave taken by staff in his Department was stress-related in the last three years. [287882]

Mr. Sutcliffe *[holding answer 20 July 2009]:* The percentage of sick leave taken by Department for Culture, Media and Sport staff reported as stress-related in each of the last three financial years is as follows:

	Percentage of sick leave
2006-07	13
2007-08	4.6
2008-09	1

Departmental Travel

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department and its agencies spent on travel in the last 12 months for which figures are available. [287883]

Mr. Sutcliffe *[holding answer 20 July 2009]:* The travel and subsistence costs incurred by the Department for Culture, Media and Sport and its agency body, the Royal Parks Agency in the 12-month period June 2008 to the end of May 2009 are as follows:

	£
DCMS	444,677
Royal Parks Agency	28,403

In addition, the Department also makes use of the Government Car Service for general ministerial duties, details of which were published in a written ministerial statement on 16 July 2009, *Official Report*, column 80WS.

Neither DCMS or RPA are able to separate travel costs from subsistence costs without incurring disproportionate costs.

Gambling Commission

Philip Davies: To ask the Secretary of State for Culture, Media and Sport how much was claimed in expenses by staff of each grade at the Gambling Commission in the last 12 months. [287772]

Mr. Sutcliffe: The following table shows expenses claimed for each type by Gambling Commission staff between 1 April 2008 and 31 March 2009.

Expenses claimed in 2008-09

Type	£
Conference and hospitality[1]	6,399
Information technology	858
Office accommodation costs	78
Office equipment and stationery	2,533
Other	433
Employee costs including professional fees and memberships	3,353
Postage and telephone	2,404
Publications	310
Recruitment	240
Training	1,226
Travel and subsistence[2]	330,498

[1] Including expenses that occurred at events staged by the Commission.
[2] Travel and subsistence includes travel costs for routine travel undertaken by employees performing compliance and enforcement duties. This includes more than 50 compliance managers based around the country.

Philip Davies: To ask the Secretary of State for Culture, Media and Sport how much each of the senior officials at the Gambling Commission spent on official *(a)* hospitality, *(b)* travel, *(c)* office expenses and *(d)* other expenses in the last 12 months. [287773]

Mr. Sutcliffe: The following table lists expenses claimed by type for the senior officials at the Gambling Commission in 2008-09.

Expenses claimed and expenditure incurred by Commission credit card (see definition) by senior officials of the Gambling Commission 2008-09 to the nearest £

Official	*Hospitality (see note)*	*Travel (including related subsistence)*	*Office expenses*	*Other expenses*
Chief Executive	1,561	10,724	16	1,842
Deputy chief executive	0	3,119	0	0
Director of regulation (formerly director of operations)	839	4,205	40	1,283
Director of corporate services	147	806	725	2,583
Director of people and organisational development (formerly director of human resources)	0	136	0	0
Director of policy and communications	0	825	0	1,427

Note:
The Commission's credit card has been used to pay for a range of goods and services including professional membership; occasional room hire, air travel booked online; meeting refreshments which are included under hospitality covering meals provided for Commission guests and their Commission hosts. The Commission does not provide any hospitality or entertainment in the wider sense of, for example, taking people to sporting or cultural events. Some of the entries relate to goods and services procured on behalf of other Commission employees and functions that do not hold an organisational credit card.

Glasgow

John Mason: To ask the Secretary of State for Culture, Media and Sport whether he plans to visit Glasgow on official business during the summer adjournment. [288908]

Mr. Bradshaw: Not currently but having done a number of visits in England and one in Wales I am hoping to visit Scotland shortly.

Olympic Games 2012: Scotland

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the sporting legacy for Scotland of the London 2012 Olympics. [289111]

Tessa Jowell: I have been asked to reply.

The London 2012 Olympic and Paralympic games will offer Scotland a wonderful opportunity to create a lasting legacy. In the run up to the games, Scotland offers 30 facilities in the London 2012 Pre Games Training Camp Guide and at games time, Hampden Park will host some of the matches to be held in the football tournament. Scotland will also benefit from the increased funding for Olympic and Paralympic athletes.

Sport is a devolved matter for which responsibility lies with the Scottish Government. The Scottish Government have indicated that they will publish their Games Legacy Plan in relation to both the London 2012 Olympic and Paralympic games and the Glasgow 2014 Commonwealth games later this summer and this will include their plans for the sporting legacy in Scotland.

Scotland

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288948]

Mr. Bradshaw: The Department for Culture, Media and Sport has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its Final Report, which can be found on the Commissions website.

A Steering Group has been established under the Chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

Sports: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much funding his Department has allocated to the national governing body of each Government-funded sport in each of the last five years. [288781]

Mr. Sutcliffe: Sport England and UK Sport have advised that the following funding has been allocated to the national governing bodies of each Government-funded sport in each of the last five years:

Sport England funding

	Governing body	*2004-05*	*2005-06*	*2006-07*	*2007-08*	£ *2008-09*

NORTHERN IRELAND

Departmental Advertising

Mr. Paterson: To ask the Secretary of State for Northern Ireland what his Department's expenditure for advertising *(a)* on UTV, *(b)* on commercial radio, *(c)* in the Belfast Telegraph, *(d)* in the News Letter, *(e)* in The Irish News and *(f)* in weekly papers was in each of the last five years. [287492]

Paul Goggins: The finance system of the Northern Ireland Office (NIO) does not break down advertising expenditure in the detail requested therefore these figures could be provided only at disproportionate cost.

Departmental Billing

John Mason: To ask the Secretary of State for Northern Ireland what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288932]

Paul Goggins: The Northern Ireland Office, including the Public Prosecution Service Northern Ireland but excluding its agencies and NDPBs, paid 92.4 per cent. of invoices from suppliers within 10 days of receipt in June 2009.

Departmental Dismissal

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many members of staff in his Department were dismissed *(a)* for under-performance and *(b)* in total in each of the last five years. [287480]

Paul Goggins: In the Northern Ireland Office, no member of staff has been dismissed for under-performance and 20 members of staff in total have been dismissed from 2005 to date. The following table shows a breakdown of dismissals since 2005:

	Number of staff dismissed
2005	1
2006	5
2007	8
2008	4
2009	2

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Northern Ireland what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay is of the (i) male and (ii) female employees. [288602]

Paul Goggins: The percentage of employees in the Northern Ireland Office and its agencies are 40.2 per cent. male and 59.8 per cent. female. The average hourly rate in the latest period for which figures are available for male employees is £11.94 and for female employees is £10.36.

Parades

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much was spent on security and policing of the 12 July events in each of the last five years. [287493]

Paul Goggins: That is an operational matter for the Chief Constable. I have asked him to reply directly to the hon. Member, and a copy of his letter will be placed in the Library of the House.

Police Service of Northern Ireland: Disciplinary Proceedings

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many Police Service of Northern Ireland officers had disciplinary action brought against them for each type of disciplinary offence in the last five years. [287666]

Paul Goggins: That is an operational matter for the Chief Constable. I have asked him to reply directly to the hon. Member, and a copy of his letter will be placed in the Library of the House.

Security Guards: Licensing

Mr. Paterson: To ask the Secretary of State for Northern Ireland how many security licences have been *(a)* refused and *(b)* revoked by his Department in each of the last five years. [287644]

Paul Goggins: The number of licenses refused and revoked are shown in the following table.

	Number of licenses refused	*Number of licenses revoked*
2004	0	0
2005	0	0
2006	0	0
2007	0	0
2008	5	0

OLYMPICS

Departmental Contracts

Lorely Burt: To ask the Minister for the Olympics how many contracts let by her Department were awarded to businesses with fewer than 50 employees in each of the last five years; and what the monetary value of such contracts was in each such year. [287805]

Tessa Jowell: My ministerial portfolio requires my Office to operate within both the Cabinet Office and the Department for Culture, Media and Sport and this information will therefore be included in the answers provided by the Minister of State, Cabinet Office and the Secretary of State for Culture, Media and Sport.

Departmental Databases

Jenny Willott: To ask the Minister for the Olympics what categories of personal information on members of the public will be held on each database expected to become operational in the next five years and which will be managed by her Office; what estimate she has made of the likely number of individuals' details each such database will hold when fully operational; and if she will make a statement. [286140]

Tessa Jowell: My ministerial portfolio requires my Office to operate across the estates of the Cabinet Office and Department for Culture, Media and Sport and this information will therefore be included in the answers provided by the Minister of State, Cabinet Office and the Secretary of State for Culture, Media and Sport.

National Lottery: Olympic Games 2012

Pete Wishart: To ask the Minister for the Olympics which grants to the London 2012 Olympic Games project approved by the Big Lottery Fund have been *(a)* notified to and *(b)* authorised by the EU Commission for state aid clearance. [289134]

Tessa Jowell: The Big Lottery Fund has made no grants to the London 2012 Olympic and Paralympic games project.

Olympic Games 2012

Hugh Robertson: To ask the Minister for the Olympics what assessment she has made of the work of establishing temporary facilities to house the International Broadcast Centre and the Main Press Centre during the London 2012 Olympic and Paralympic Games. [284553]

Tessa Jowell *[holding answer 6 July 2009]:* It was always the intention that the International Broadcast Centre/Main Press Centre (IBC/MPC) would be a combination of temporary and permanent elements. As it became clear that a private sector deal was not going to offer best value for money, a full assessment of the IBC/MPC site was undertaken to determine ways to make temporary those proposed permanent elements not required in legacy.

The MPC offices, the two-storey IBC studio and part of the car parking facilities will be permanent buildings for games and legacy as originally planned but slightly smaller (totalling just under 100,000 sq m rather than 125,000). Some of this reduction is due to catering facilities, originally intended to be housed temporarily in office space during the games, now being provided in separate wholly temporary facilities. Other temporary elements of the project include both the other part of the car parking facilities and temporary retail facilities for media and broadcast personnel.

Assessment of temporary versus permanent facilities is ongoing as the design and procurement teams continue to ascertain those components required solely for games-time. As such, careful attention is being given to identify those elements that can either be hired in for the duration of the games or that can be relocated following the games. For example, we are considering hiring much of the mechanical and electrical plant required to service the IBC in games-time and the generators for back-up power.

Games-time operations are the responsibility of the London Organising Committee of the Olympic Games and Paralympic Games (LOCOG), in conjunction with the Olympic Broadcast Service and Host Broadcaster, who will be providing much of their own broadcast equipment and operational functions.

It remains the intention to create facilities that leave a real long-term employment legacy for Hackney and the buildings have been designed to be as flexible as possible. The public sector will retain ownership of the asset and receipt of all revenues from its sale after 2012.

Bob Russell: To ask the Minister for the Olympics if she will make it her policy that the traditional folk culture of the nations of the United Kingdom feature in the opening and closing ceremonies of the London 2012 Olympics; and if she will make a statement. [288747]

Tessa Jowell: The London Organising Committee of the Olympic Games and Paralympic Games (LOCOG) will be developing its plans for the opening and closing ceremonies of the 2012 Olympic and Paralympic games in due course. It is too early to say which organisations will take part in these events in three years' time. However, the Cultural Olympiad provides opportunities for folk culture to be represented in the London games in the run up to and including 2012. Information and opportunities for involvement will be highlighted on the London 2012 website at:

www.london2012.com

Olympic Games 2012: Carbon Emissions

Mr. Sanders: To ask the Minister for the Olympics what steps her Office is taking to *(a)* define and *(b)* measure the carbon footprint of the London 2012 Olympics. [285207]

Tessa Jowell: The London Organising Committee of the Olympic Games and Paralympic Games has led a project to define and measure the carbon footprint of London 2012, working closely with the Olympic Delivery Authority and London Development Agency, and also stakeholders such as the Government Olympic Executive, Department for Environment, Food and Rural Affairs and the Greater London Authority.

The outcome of the analysis will be published in the autumn alongside a carbon management strategy setting out how we are ensuring that carbon emissions are minimised as part of our commitment to a genuinely sustainable 2012 Games, including by making sustainable choices during procurement, by reducing energy at source and by minimising waste at every stage.

Olympic Games 2012: Contracts

Lorely Burt: To ask the Minister for the Olympics what proportion of contracts relating to the London 2012 Olympics had been advertised on the CompeteFor website on the latest date for which figures are available. [283902]

Tessa Jowell: The Olympic Delivery Authority has directly awarded contracts to over 950 suppliers to date. The ODA was formed in April 2006, and began procurement from its inception to ensure that it was on programme. It was already working with a number of suppliers, 550 in all, by the time CompeteFor was launched in January 2008. Due to the scale and complexity of its procurements, the ODA has procured some of its contracts using established OGC frameworks to simplify the process, and a number are closed, for example, for security reasons.

As of June 2009, 2,872 contract opportunities had been advertised on CompeteFor. These break down as follows:

The ODA, its contractors, and buyers in their supply chains have advertised 2,335 opportunities

LOCOG and its supply chain have advertised 88 opportunities

Other partners, including the London Development Agency, and their supply chains have advertised 449 opportunities

It is anticipated that the ODA's and the London Organising Committee for the Olympic Games and Paralympic Games' direct procurement will generate around 75,000 supply chain contracts. Contractors are encouraged to place as many as possible of their unallocated contract opportunities on CompeteFor.

It is estimated that for around 80 per cent. of these contracts, contractors will rely on their existing suppliers and sub-contractors leaving around 15,000, approximately 20 per cent., of opportunities to be placed on the system. The 20 per cent. figure is an estimate based on other large projects and the way in which contractors have decided to package and procure their sub-contracts. Given that the majority of these will be private procurements, we are unable to state precisely what proportion of these have been advertised on CompeteFor.

As expected, the vast majority of CompeteFor opportunities have been posted by the ODA's contractors and buyers in their supply chains, and the ODA continues to work with its contractors to ensure that as many as possible of their new opportunities are placed on the system. Some of the ODA's contractors are now also beginning to use CompeteFor for some of their 'non-Olympic' contract opportunities, opening up further opportunities.

LOCOG is in the early stages of its procurement activity, and will start buying the majority of the goods and services required for staging the games from early 2010.

CompeteFor was established to help open up games-related opportunities to businesses across the UK and to provide a means of offering them any business support they need to win contracts. Our ambition is not only a legacy of businesses winning contracts but also one of businesses inspired to be fitter, more innovative and more competitive as a result. To date over 31,000 businesses have received business support as a result of registering on CompeteFor, and over 2,500 have received an intensive level of assistance.

Olympic Games 2012: Facilities

Mr. Bone: To ask the Minister for the Olympics what plans she has for the use of the Olympic Village after the London 2012 Olympics. [287701]

Tessa Jowell *[holding answer 20 July 2009]:* The Olympic Village will provide 2,818 homes after the London Games in 2012. Of these new homes, 1,379 will be available as affordable housing, including affordable rented, intermediate market rented and part-buy/part-rent (shared ownership), together with shared equity housing.

Olympic Games 2012: Finance

Pete Wishart: To ask the Minister for the Olympics which Government grants to the London 2012 Olympic Games project have not been notified to the European Commission for the purposes of compliance with the requirements of state aid rules; and for what reasons in each case. [289135]

Tessa Jowell: The Olympic Delivery Authority is the statutory body charged with preparing for the 2012 games, including procuring the necessary infrastructure. For this purpose it receives grants from central government, the Greater London Authority, the London Development Agency, the Olympic Lottery Distributor and Sport England. These grants do not constitute state aid under European Union rules and, accordingly, have not been notified to the European Commission. In procuring games-related infrastructure, the Olympic Delivery Authority complies with European Union public procurement rules.

Olympic Games 2012: Hertfordshire

Mr. Walker: To ask the Minister for the Olympics what steps the London Organising Committee for the Olympic Games is taking to ensure that residents of Hertfordshire benefit from the London 2012 Olympic and Paralympic Games; and if she will make a statement. [285956]

Tessa Jowell: The Broxbourne white water canoe centre (BWWCC) will provide benefits for the residents of Hertfordshire before, during and after the games. It will be open to the public before the London 2012 games.

Events were held on 3 July to mark the beginning of construction work at the BWWCC site. As part of these events, 550 local residents attended and took the opportunity to find out more about the construction of the BWWCC and its lasting legacy for Hertfordshire as a world-class white water canoeing and rafting centre that will be open to the public after the games.

The London Organising Committee of the Olympic Games and Paralympic Games (LOCOG) and the Government Olympic Executive (GOE) work with representatives of the East of England through their joint Nations and Regions Group (NRG) to ensure that the region, and more broadly the whole of the UK, benefits from the opportunities the games provide. Across the East of England, nearly 600 schools and colleges are involved in LOCOG's domestic education programme, Get Set, while 66 LOCOG-approved facilities have been included in the official London 2012 Pre-Games Training Camp Guide. 13 community projects are now using the Inspire Mark, LOCOG's non-commercial brand. At last year's handover celebrations, 49 events were held across the region and 60 special '2012 handover' flags were raised.

The county has 17 pre-games training camps for the London 2012 Olympic and Paralympic games and links are being built with national Olympic committees to attract teams to these venues. Hertfordshire also has over 2,000 businesses registered with the London 2012 business network and six contracts awarded through CompeteFor, the free brokerage service between buyers throughout the London 2012 supply chain. Hertfordshire also has a number of events planned for the forthcoming London 2012 Open Weekend to be held on 24-26 July including the Junk Percussion workshops being held in and around the Broxbourne area.

Olympic Games 2012: ICT

Adam Afriyie: To ask the Minister for the Olympics what steps she has taken to assist small and medium-sized enterprises in the digital and information technology industries to provide services for the London 2012 Olympics; and what online services relating to the games will be available to the public while they are in progress. [288377]

Tessa Jowell: CompeteFor was designed to open up supply chain opportunities to businesses, especially small and medium-sized enterprises, across the UK in many sectors, including those working in digital and information technology. As well as opening up contract opportunities, CompeteFor sign posts businesses to support services, helping them get fitter to compete for games-related, and other, contracts. At games time, the London Organising Committee will provide comprehensive coverage online, including with new media technologies, enabling everyone to access, share and participate in the games.

Olympic Games 2012: Lancashire

Geraldine Smith: To ask the Minister for the Olympics what assessment she has made of the legacy to Lancashire from the London 2012 Olympics. [288450]

Tessa Jowell: Lancashire is already benefiting from the London 2012 Games. 19 businesses in the county have won Games-related contracts and 115 Lancashire schools have registered for 'Get Set' the official 2012 education programme, enabling them to use a range of Games-related materials.

Lancashire is also heavily involved in the region's cultural legacy programme WE PLAY. For example, Abandon Normal Devices is a festival of new cinema and digital culture and is a new regional partnership between Film, Art and Creative Technology (FACT) (Liverpool), Comerhouse (Manchester) and Folly (Lancashire) and is partly funded by Legacy Trust UK. Another example is New Cultural Journeys which is a major youth culture and sport programme for the Fylde Coast and Lancashire.

Lancashire, and the Northwest region as a whole, is playing an active part in maximising the benefits of the London 2012 Games. A key part of the region's plans are to ensure that all parts of the NW benefit and as such each sub region is represented on the NW Steering Group for the 2012 Games. This group feeds directly in to the Nations and Regions Group which is the joint Government Olympic Executive and London Organising Committee of the Olympic and Paralympic Games initiative aimed at deriving the maximum benefit from the Games for the whole of the UK.

HOME DEPARTMENT

Administration of Justice: Domestic Visits

James Brokenshire: To ask the Secretary of State for the Home Department how many official visits have been undertaken by the Government's Crime and Justice Adviser in the last six months; when each such visit was undertaken; what the *(a)* purpose and *(b)* cost was of each such visit; and in which constituency each such visit was undertaken. [288859]

Mr. Alan Campbell *[holding answer 21 July 2009]:* The Government's Crime and Justice adviser has undertaken 12 official visits in the last six months as part of the work to ensure that crime is tackled and justice delivered more visibly and in response to community priorities

Dates and locations are as follows.

Destination	*Purpose*	*Constituency*	*Cost[1] (£)*
24 February 2009			
London to Nottingham	Speech and official visits to raise levels of involvement by local people in work to tackle crime and to ensure local services are responsive to local people's needs on crime and justice	Nottingham, North and South	365.19

Hull—Priory Drive, Shawpark Playing Field, Courtland Road			
York			
17 July 2009			
York to London			

[1] Costs include local transportation as necessary for Louise/members of local staff/local residents and hotels, meals, rail fares and taxi transfers.

Alcoholic Drinks: Young People

Sandra Gidley: To ask the Secretary of State for the Home Department (1) how many prosecutions were brought against public house licensees for serving alcohol to minors in each local authority area within the ceremonial county of Hampshire in each of the last five years; and how many such public houses closed after the licensee was convicted in such cases; [286282]

(2) how many prosecutions were brought against retail store licensees for serving alcohol to minors in each local authority area within the ceremonial county of Hampshire in each of the last five years. [286428]

Mr. Alan Campbell: Information showing the number of defendants proceeded against at magistrates courts and found guilty at all courts for 'selling alcohol to persons under 18' in the Hampshire police force area 2003 to 2007 (latest available) is contained in the table. Information held centrally cannot be broken down to local authority area.

It is not possible to differentiate between sales on and off premises in the court proceedings database or to identify which premises closed after being convicted of the above offence.

2008 data will be available in the autumn of 2009.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for selling alcohol to persons aged under 18', by offence, Hampshire police force area 2003 to 2008[1]

	2003		2004		2005		2006		2007	
	Proceeded against	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*
Selling intoxicating liquor to persons under 18 for consumption on the premises	—	—	9	7	11	8	2	—	—	—
Sale of alcohol to person under 18	—	—	—	—	—	—	—	—	4	4
Total	—	—	9	7	11	8	2	—	4	4

[1] Selling alcohol to persons under 18 includes the following offences:
(a) Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18.
Selling etc intoxicating liquor to person under 18 for consumption on the premises.
(b) Wholesaler selling intoxicating liquor to a person under 18.
(c) Sale of alcohol to person under 18.
(d) Allowing sale of alcohol to person under 18.
(e) Persistently selling alcohol to children.
[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces.
As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Evidence and Analysis Unit—Office for Criminal Justice Reform Ref: IOS 366-09 and 367-09.

Antisocial Behaviour Orders

James Brokenshire: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were *(a)* issued and *(b)* breached in each police force area in (i) 2007 and (ii) 2008; and when he plans to publish qualitative analysis of the impact and effectiveness of each type of anti-social behaviour intervention. [288860]

Mr. Alan Campbell *[holding answer 21 July 2009]:* Data on the number of Antisocial Behaviour Orders (ASBOs) issued and breached in England and Wales are available up 31 December 2007. The number of ASBOs issued during 2007 and the number proven in court to have been breached at least once during 2007 (latest available) is shown in the table. It is important to note that many of the breaches counted in this table will have arisen due to ASBOs issued in years prior to 2007.

The Home Office has commissioned two pieces of work evaluating interventions to tackle antisocial behaviour. These are:

Research to examine local variations in the use of antisocial behaviour interventions. This was the first step to developing further work into the comparative effectiveness of different approaches to tackling antisocial behaviour. The findings of this study are due to be published in autumn 2009; and

An evaluation of the comparative effectiveness of interventions to address anti-social behaviour. Results from this evaluation are due in 2010.

Three independent reports have confirmed that our approach to tackling antisocial behaviour is working. The National Audit Office (NAO) reported that two thirds of people stop committing ASB after one intervention, rising to nine out of 10 after three interventions. Many of these were warning letters and antisocial behaviour contracts which are voluntary measures.

Antisocial Behaviour: Southampton

Sandra Gidley: To ask the Secretary of State for the Home Department how many anti-social behaviour orders issued against people in each age category are in force in *(a)* Test Valley borough and *(b)* the City of Southampton. [288407]

Mr. Alan Campbell: The latest available published data on the number of antisocial behaviour orders (ASBOs) issued covers the period 1 April 1999 to 31 December 2007 and are not available below Criminal Justice System (CJS) area level.

The number of ASBOs issued at all courts in the Hampshire Criminal Justice System area to young people (defined as being aged 10 to 17 at the date of appearance in court) and adults (defined as being aged 18 or over at the date of appearance in court) is 199 and 226 respectively. In addition, there were five ASBOs issued to persons whose age was not reported.

ASBOs can be of a fixed duration (for a minimum of two years) or made until further order. It is therefore not possible to determine from centrally collected data how many ASBOs are in force at a particular point in time.

Asylum

Stephen Williams: To ask the Secretary of State for the Home Department how many legacy asylum cases have been resolved since July 2006. [287779]

Mr. Woolas: In her update to the Home Affairs Select Committee, Lin Homer, the UK Border Agency Chief Executive, has stated that 197,500 older asylum cases have been resolved, up to 31 May 2009. The Case Resolution Directorate have made good progress and remain committed and on track to conclude these cases by summer 2011.

Asylum Seekers: Detention of Children

Pete Wishart: To ask the Secretary of State for the Home Department how many children have been detained at immigration detention centres in each location in the last 12 months for which figures are available; and what the average period of detention was. [289141]

Mr. Woolas: The information is not held centrally and could be provided only at a disproportionate cost.

Asylum: Families

Ms Abbott: To ask the Secretary of State for the Home Department how many applications made by those under the age of 18 years and resident in their country of origin to join their parents who *(a)* have been granted refugee status, *(b)* have been granted humanitarian protection, *(c)* have been granted discretionary leave to remain and *(d)* are awaiting a decision on their immigration application in the UK have been accepted in the last five years; and if he will make a statement. [286941]

Mr. Woolas: The number of visas issued to overseas nationals under the age of 18 in the Family Reunion category in each of the financial years 2004-05 to 2008-09 is shown in the following table. The Family Reunion category comprises dependents of *(a)* those granted refugee status before 2005 and *(b)* those granted refugee status and humanitarian protection after 2005, but such dependents are not recorded separately by the UK Border Agency.

Financial year	*Family reunion visa issue*
2004-05	5,663
2005-06	4,714
2006-07	3,521
2007-08	3,069
2008-09	2,552
Total	19,519

There is no provision in the Immigration Rules for entry clearance to dependents of *(c)* those granted discretionary leave to remain before they have obtained indefinite leave to remain, or *(d)* those awaiting a decision on their application for leave to remain on the basis of their claim for asylum.

Bichard Inquiry

James Brokenshire: To ask the Secretary of State for the Home Department what progress has been made in implementing the Bichard Inquiry; what steps still require to be implemented; and when implementation is expected to be completed. [287913]

Mr. Hanson: Good progress has been made in implementing Sir Michael Bichard's recommendations. 22 of the 31 recommendations are now substantially delivered. The Government remain committed to implementation and action continues under various strands of work.

Much of this ongoing work relates to the larger, more complex projects within the Bichard programme. These include transmitting court results direct to the Police National Computer, delivering the IMPACT Programme to strengthen national police intelligence sharing capabilities, taking account of broader developments in identity management and establishing the Independent Safeguarding Authority to administer the new Vetting and Barring Scheme. All these projects are expected to be completed or to have made further substantial progress by the end of 2010.

Biometrics

Chris Grayling: To ask the Secretary of State for the Home Department what estimate he has made of the error rate of face recognition systems installed at points of entry by the UK Border Agency. [288517]

Alan Johnson: Automated Clearance Systems (ACS) are currently in use at Manchester and Stansted airports. They are being independently monitored for the UK Border Agency, as well as by the Home Office Scientific Development Branch.

The system can reliably pick out impostors and even distinguish between identical twins. The face matching system uses statistically based algorithms and error rates are in line with system specifications. The system is monitored by UKBA officers, who will examine any passengers rejected by the gate, as well as carrying out random manual checks.

Borders: Patrol Craft

Chris Grayling: To ask the Secretary of State for the Home Department how many patrol boats of each type *(a)* HM Revenue and Customs and *(b)* the UK Border Agency have operated in each of the last 10 years; and for what purpose. [288545]

Alan Johnson: HM Customs and Excise, HM Revenue and Customs and the UK Border Agency have operated five offshore patrol ships in the years stated.

These are interdiction vessels, conducting intelligence-led operations.

Chris Grayling: To ask the Secretary of State for the Home Department whether the Royal Navy has taken on any *(a)* functions and *(b)* operations previously conducted by vessels of HM Revenue and Customs and the UK Border Agency. [288546]

Alan Johnson: HM Customs and Excise, HM Revenue and Customs and the UK Border Agency have all operated offshore patrols and operations with other organisations, including the Royal Navy.

The UK Border Agency's maritime branch can call on the military for support and protection at a time of operational need. In the same way, maritime branch has supported the military during major operations and for boarding expertise.

No direct transfer of roles has taken place.

Chris Grayling: To ask the Secretary of State for the Home Department how many vessels were *(a)* intercepted and *(b)* boarded by crew from vessels of HM Revenue and Customs and the UK Border Agency in UK territorial waters in each of the last 10 years. [288548]

Alan Johnson: The combined number of interceptions and boardings of vessels made by HM Customs and Excise, HM Revenue and Customs, and the UK Border Agency in the last 10 years are as follows:

Financial year	*Number of interceptions and boardings*
1999-2000	514
2000-01	661
2001-02	716
2002-03	1,046
2003-04	1,170
2004-05	1,075
2005-06	1,240
2006-07	1,352
2007-08	1,472
2008-09	1,981

It is not possible to break these figures down further.

These figures are based on locally collated management information and as such are subject to change and do not form part of national published statistics.

Burglary Prevention

Mr. Hurd: To ask the Secretary of State for the Home Department how many burglary prevention advice packs are planned to be distributed; how they will be distributed; and what the timetable is for their distribution. [288846]

Mr. Alan Campbell: The Home Office is supplying 360,000 burglary advice packs. The contracted distributors, Prolog, are despatching them to members of the public who have ordered them via the dedicated public order telephone line, and to named contacts in all police forces in England and Wales which have requested the packs. All packs are due to be distributed to the police by the end of August 2009.

Children: Rights

Dr. Evan Harris: To ask the Secretary of State for the Home Department whether an assessment has been made of the compatibility of *(a)* antisocial behaviour orders, *(b)* curfews, *(c)* dispersal zones and *(d)* mosquito devices with children's rights to freedom of movement and peaceful assembly. [288134]

Mr. Alan Campbell: The Home Office has not carried out an assessment, however we have always made clear that tackling antisocial behaviour is not about intolerance of different lifestyles.

The freedom of assembly and association, found in Article 11 of the European Convention on Human Rights, is a qualified right. This means that it may be subject to restrictions which are in accordance with the law, when such restrictions are necessary, and therefore proportionate, for the prevention of disorder or crime or for the protection of the rights and freedoms of others.

Crime: Prevention

James Brokenshire: To ask the Secretary of State for the Home Department which projects have *(a)* been funded or *(b)* had funding allocated to them from the crime prevention budget in the 2009-10 financial year. [287919]

Mr. Alan Campbell: The Home Office does not have a single crime prevention budget. Funding through the Local Area Agreements and support for Crime and Disorder Partnerships, including police funding, all contributes to locally agreed work to prevent crime.

In addition to this, the Home Office funds projects and initiatives targeted at preventing crime through: offender-based interventions (to reduce recidivism); diversion and deterrence, especially around young people and those exposed to the problems of drug and alcohol misuse, antisocial behaviour, delinquency, chaotic families and poor parenting; support for victims, particularly victims of sexual or domestic violence (to reduce repeat victimisation and encourage the reporting of crime); improved local agency responses to antisocial behaviour and crime problems; and advice and practical measures of support for members of the public.

Funding goes towards national initiatives, support for police and other crime-reduction partners in the development and use of new techniques, tools and powers, and grants for third sector organisations for the delivery of Home Office programmes or to support innovative approaches that contribute to crime reduction. In terms of national initiatives, programme and capital expenditure for 2009-10 has been planned for the following areas:

Acquisitive crime

1. Preventing serious acquisitive crime, including the Safer Homes Action Against Burglary projects, the Vigilance Programme, and funding towards AVCIS (the ACPO Vehicle Crime Intelligence Service).

Public space violence

2. Tackling gang-related crime, and preventing gun and knife-related violence, including the Community Fund grant programme for voluntary and community sector organisations located in areas where gun and knife crime are a particular problem.

3. Tackling serious youth violence, including the Tackling Knives Action Programme.

4. Preventing the incidence of hate crime, including through the Government's Victims' Fund and the delivery of the hate crime action plan.

Sexual and domestic violence

5. Supporting sexual and domestic violence victims, including funding for multi-agency risk assessment conferences, and the expansion of ISVA (independent sexual violence adviser) services and sexual assault referral centres.

6. Reducing violence against women, including the Together We Can End Violence against Women and Girls public consultation.

7. The Child Sex Offender Disclosure Pilots.

8. Preventing the incidence of other forms of interpersonal violence, including funding for the Forced Marriage Unit and a cross-Government co-ordinator on female genital mutilation.

Youth crime, antisocial behaviour, and community justice

9. Youth Crime Action Plan initiatives.

10. Youth Justice Board crime prevention initiatives.

11. Supporting members of the public and local agencies in dealing with antisocial behaviour, including the Antisocial Behaviour Action Squad.

12. Piloting a community justice panel.

Wildlife crime

13. Funding towards the UK National Wildlife Crime Unit.

Preventing re-offending

14. Offender-based intervention, including the Prolific and other Priority Offenders programme, Drug Interventions Programme, and encouraging the take-up of Integrated Offender Management approaches.

Alcohol and drugs misuse

15. The 2008 drug strategy delivery programme, including pilots to test new approaches to drug treatment and a national cannabis cultivation coordinator.

16. Named drug workers within youth offending teams.

17. Piloting family drug and alcohol courts.

18. Alcohol Arrest Referral pilots.

19. Improving alcohol law enforcement, including a programme of training and guidance for local practitioners.

20. The Positive Futures social inclusion programme for disadvantaged and socially marginalised young people.

21. Drugs licensing and compliance (issue of licences to companies and individuals within England, Wales and Scotland who wish to produce, supply, possess or import/export controlled drugs).

Partnerships

22. Grant funding support for crime third sector organisations, including the Crimestoppers Trust and the Neighbourhood Watch movement.

Crime: Suffolk

Mr. Spring: To ask the Secretary of State for the Home Department how many and what percentage of crimes committed in Suffolk resulted in *(a)* a caution, *(b)* a fixed penalty notice and *(c)* a conviction in each of the last five years. [286265]

Mr. Alan Campbell: Information is not available in the form requested as it is not possible to track individual offences through to their outcome at court. The available information relates to the number of offences recorded and detected by means of a caution or penalty notice for disorder in Suffolk in each financial year. Convictions data are based on the number of offenders and have been provided by the Office for Criminal Justice Reform. These data are published on a calendar year basis and are counts of persons classified by their principal offence.

For these reasons the two datasets are not directly comparable.

Table 1 gives the police recorded crime data for Suffolk. Table 2 provides data on the number of offenders convicted for all offences.

Table 1: Offences recorded by the police in Suffolk

	Number of offences	*Number detected by a caution*	*Percentage detected by a caution*	*Number detected by a penalty notice for disorder*	*Percentage detected by a penalty notice for disorder*
2004-05	52,101	3,161	6	173	0
2005-06	52,831	4,236	8	526	1
2006-07	51,096	4,047	8	1,206	2
2007-08	48,330	4,096	8	1,661	3
2008-09	46,504	4,004	9	1,733	4

Table 2: Offenders convicted at all courts for all offences in Suffolk[1, 2]

	Number of convictions
2003	16,098
2004	18,685
2005	19,320
2006	17,817
2007	17,405

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete.

However, it is important to note that these data have been extracted from large administrative data systems generated by police forces.

As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Criminal Records Bureau

Tom Brake: To ask the Secretary of State for the Home Department what the longest time taken for the completion of a Criminal Records Bureau (CRB) *(a)* standard and *(b)* enhanced disclosure check was in each year since the inception of the CRB. [283826]

Mr. Hanson: The performance of the CRB remains good and in 2008-09 the CRB exceeded its targets for issuing 90 per cent. of all standard checks within 10 days and issued 88 per cent of all Enhanced checks in 28 days. In 2008-09, the CRB witnessed an unprecedented increase in demand for its service which caused a dip below the 90 per cent. target for processing Enhanced checks in 28 days.

The disclosure process comprises broadly several stages involving the applicant, the registered body (RB) (the organisation that handles the application on behalf of an employer), the CRB and the police. Each stage is reliant on the accuracy of the data provided by the applicant and the subsequent verification of these data by the RB from the outset.

A number of factors can cause delays, including the length of time it can take for an employer to deal with the initial application; the accurate completion of the application form; the clarity of the information provided; the existence of conviction or non-conviction information and the operational effectiveness of the Disclosure Units of the police forces involved in the enhanced disclosure process following recent high volumes of applications.

The majority of applications spend between three and four days at the CRB and analysis undertaken by the Bureau has shown that the majority of delays that occur do so before the CRB receives an application and after it has been sent to the police.

The CRB has set up an improvement plan with its delivery partners, including the police forces, to address the problems associated with delays. This is aimed at maintaining a balanced output of applications on the system while also reducing the number of cases that have been in process for more than five days. This work has started to show an improvement in turnaround times but the CRB will continue to monitor forces' performance in line with its own performance.

Where applications are returned to customers to acquire further information, reminders are issued but some customers can fail to provide this information or withdraw their application from the Bureau's systems where they no longer require their disclosure.

The following table provides details of the longest time taken for the completion of a CRB standard and enhanced disclosure in each year since the inception of the Bureau. The figures have been calculated based on the date the disclosure was issued in each year, counting back from the date of completion.

	Longest time taken in days - enhanced disclosure	*Longest time taken in days - standard disclosure*
2002-3	406	345
2003-4	684	692
2004-5	954	803
2005-6	1,189	1,198

	Longest time taken in days - enhanced disclosure	Longest time taken in days - standard disclosure
2006-7	1,414	1,203
2007-8	1,680	1,512
2008-9	1,606	864
2009-10	1,434	393

It is likely that these applications will have been referred back to the applicant or Registered Body; the delays in issue are not necessarily representative of the Bureau's performance.

Criminal Records Bureau

Mr. Evennett: To ask the Secretary of State for the Home Department what the average time taken to process an application for a Criminal Records Bureau disclosure was in the latest period for which figures are available. [288339]

Mr. Hanson: I refer the hon. Member to the answer of 29 June 2009, *Official Report*, columns 79-80W.

Criminal Records Bureau: Vetting

Jenny Willott: To ask the Secretary of State for the Home Department how many Criminal Records Bureau checks in respect of individuals applying for posts which would require their names to be added to the list maintained under the *(a)* Protection of Children Act 1999 and *(b)* Protection of Vulnerable Adults Act 2003 were undertaken in each police force area in each of the last five years; and if he will make a statement. [288174]

Mr. Hanson: The Criminal Records Bureau (CRB) does not maintain the lists of the Protection of Children Act 1999 (POCA) and the Protection of Vulnerable Adults Act 2003 (POVA). The POCA list is maintained by the Department for Children, Schools and Families (DCSF) and the POVA list is maintained by the Department of Health (DOH).

Departmental Databases

Mr. Hurd: To ask the Secretary of State for the Home Department pursuant to the answer of 16 March 2009, *Official Report*, column 918W, on departmental databases, what marketing campaigns have been targeted using ACORN data; and what ACORN codings were used in each such campaign. [288884]

Mr. Woolas: We have used the ACORN hard pressed category to inform our marketing planning to tackle youth crime and antisocial behaviour, and acquisitive crime.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for the Home Department how much his Department spent on Royal Mail services in each of the last two years. [288736]

Mr. Woolas: The Department's payments to Royal Mail is set out in the following table.

	2008-09	£000 2007-08
Core Home Office and UKBA	1,282	1,247
Identity and Passport Service	1,134	1,931
Criminal Records Bureau	2	3
Total Home Office	2,418	3,181

Drugs

Chris Huhne: To ask the Secretary of State for the Home Department how much *(a)* his Department and *(b)* its agencies spent on the implementation of drugs policies in each category in each of the last 10 years. [286735]

Alan Johnson: Total expenditure on Home Office drugs programmes was captured within the HM Treasury database on our previous strategic objective that fewer people's lives are ruined by drugs (and alcohol).

The relevant figures for *(a)* the Department are set out in the following table, whereas *(b)* Home Office agencies whose strategic and operational activities include elements of our drugs policies do not budget specifically for them but for their overarching enforcement aims and objectives.

Changes in the classification of funding in Spending Review 2000 mean that comparison with previous years is not possible.

Total expenditure by the Home Office on drugs

	Resource	£000 Capital
2000-01	0	0
2001-02	1,825	0
2002-03	80,619	0
2003-04	96,351	0
2004-05	206,904	2,174
2005-06	200,382	800
2006-07	211,472	1,390
2007-08	199,450	774
2008-09	180,688	500

Note:
Capital funding of £20,262,000 in 2006-07 and £19,702,000 in 2007-08 20,262 previously reported on to the HMT database erroneously included and classified Safer and Stronger Communities funding as Drugs expenditure. This is being corrected in the HMT database.
Source:
HMT database.

Bob Spink: To ask the Secretary of State for the Home Department what steps his Department is taking to reduce the supply of prohibited substances to problem drug users at street level. [287498]

Mr. Alan Campbell: As part of 2008 drug strategy, we have expanded the 'street level up' (SLUA) initiative. The SLUA approach is a national, multi-agency project designed to make a sustained impact on the illicit drugs trade and drug related criminality, and harm it causes to people and communities. This approach builds on intelligence on street level dealers to identify and take out higher level dealers, thereby disrupting the entire supply chain. A number of police forces are involved in

the second phase and the Serious Organised Crime Agency are working with forces to plan and support the local roll-out.

As highlighted in the 2008 drug strategy 'Drugs: protecting families and communities', the Home Office and partners have put in place neighbourhood policing teams in every area of England and Wales to allow the police to respond more directly to any issues of concern identified by the community and to work in a more joined-up approach with local partners. Our next priority is to embed action to tackle drugs, where this is a local priority, within the neighbourhood policing and policing pledge approach to help the police and partners to be more responsive to community intelligence and concerns about drugs.

James Brokenshire: To ask the Secretary of State for the Home Department what recent estimate he has made of the monetary value of the illicit drugs market in the UK. [287918]

Mr. Alan Campbell: The most recent estimate by the Home Office of the value of the UK illicit drugs market was published in 2006, it estimates the value of the UK illicit drug market at between £4 billion to £6.6 billion for the reference year 2003-04.

This estimate is based on six categories of illicit drugs: cannabis, amphetamines, ecstasy, powder cocaine, crack cocaine and heroin. The total market size is estimated at £4.6 billion in England and Wales and £5.3 billion in the UK as a whole. The margin of error for these estimates are wide; £3.5 billion to £5.8 billion for England and Wales, and £4.0 billion to £6.6 billion for the UK. In terms of total street value, crack and heroin account for the largest shares of expenditure (respectively 28 per cent. and 23 per cent.); cannabis and powder cocaine make up 20 and 18 per cent. of expenditure, while amphetamines and ecstasy have a market shares of six and five per cent.

Reference:

Pudney et al. (2006) 'Estimating the Size of the UK Illicit Drug Market' In Singleton, N. et al. (eds.) 'Measuring Different Aspects of Problem Drug Use: Methodological Developments'. Home Office Online Report 16/06).

Drugs: Research

David Taylor: To ask the Secretary of State for the Home Department if he will evaluate for comparative purposes research carried out into the effects of the policies on drugs adopted by the Portuguese government in 2001 on levels of *(a)* drug-taking, *(b)* drug-smuggling and *(c)* other drug-related crime in that country. [288689]

Mr. Alan Campbell: Both British and Portuguese drugs strategies recognise the importance of a balanced approach to tackling the demand for and the supply of drugs, placing an emphasis on the needs of the individual drug user and using the criminal justice system to identify and direct drug users into treatment programmes.

There are no plans to undertake a specific comparative evaluation of the Portuguese drugs policies, although we will note with interest any emerging evidence from the Portuguese approach.

Emergency Services: Common Talk Groups

Mr. Paul Goodman: To ask the Secretary of State for the Home Department pursuant to the answer to Baroness Neville-Jones of 13 July 2009, *Official Report*, House of Lords, columns WA185-86, on emergency services: common talk groups, what the intended *(a)* purposes and *(b)* users are of (i) the Sharer Hailing Group, (ii) the Dedicated Government Agency Group, (iii) the Silver Level Inter-Agency Group, (iv) the three Bronze Level Inter-Agency Groups, (v) the All-User Interoperability Group and (vi) the Multi Agency Mutual Aid Group. [288367]

Mr. Hanson *[holding answer 20 July 2009]:* The information is as follows:

(a) The Sharer Hailing Group enables visiting sharer agencies within a police force area to make contact with the police control room.

(b) The Dedicated Government Agency Group enables non-police enforcement agencies to carry out operations with the police.

(c) The Silver level Inter-Agency Group is intended for Silver command use at incidents where all or some blue light agencies are present.

(d) The Three Bronze level Inter-Agency Talk Groups are intended for Bronze operational use where all or some other blue light agencies are present.

(e)The All-User Interoperability Group is owned and managed by Airwave Solutions Limited, the service provider, for use by their customers where appropriate.

(f) The Multi Agency Mutual Aid Talk Group is a set of 10 talk groups owned and managed by Airwave Solutions for use as a supplement to other talk group arrangements.

Users of each Talk Group are listed in the following table.

Talk group	*Users*
(a) The Sharer Hailing Group	Fire—Brigades
	Ambulance—Strategic Health Authorities, Primary Care Trusts, Air Ambulance
	Broadmoor Hospital
	Defence—Army, RAF (including RAF Search and Rescue), Navy, Guards Agency
	HM Revenue and Customs
	Department for Work and Pensions
	Gangmasters Licencing Authority
	Prisons Services
	Highways Agency

Talk group	*Users*
	Transport Scotland
	Traffic Wales
	Local Authority Warden Schemes
	CCTV Schemes
	Royal Society for the Prevention of Cruelty to Animals
	Coastguards
	Royal National Lifeboat Institution
	UK Border Agency
	Other minor single users.
(b) The Dedicated Government Agency Group	HM Revenue and Customs Department for Work and Pensions
	Gangmasters Licencing Authority
	Immigration Service
	Prisons Services
(c) The Silver Level Inter-Agency Group	Fire Ambulance Defence—Army, Royal Air Force (RAF) (including RAF Search and Rescue), Navy, Guards Agency HM Revenue and Customs Prisons Services Highways Agency Transport Scotland Traffic Wales UK Border Agency
(d) The three Bronze Level Inter-Agency Groups,	Fire - Brigades Ambulance - Strategic Health Authorities, Primary Care Trusts, Air Ambulance Broadmoor Hospital Defence—Army, RAF (incl RAF Search and Rescue), Navy, Guards Agency HM Revenue and Customs Department for Work and Pensions Gangmasters Licencing Authority Prisons Services Highways Agency Transport Scotland Traffic Wales Local Authority Warden Schemes CCTV Schemes
	Coastguards Royal National Lifeboat Institution UK Border Agency
(e) The All-User Interoperability Group	All organisations that have access to Airwave.
(f) The Multi Agency Mutual Aid Group All organisations that have access to Airwave (incl all above) have access to these talk groups.	All organisations that have access to Airwave.

Mr. Paul Goodman: To ask the Secretary of State for the Home Department pursuant to the answer to Baroness Neville-Jones of 13 July 2009, *Official Report, House of Lords*, columns WA185-86, on emergency services: common talk groups, how many officers of *(a)* the Metropolitan Police, *(b)* the City of London Police and *(c)* the British Transport Police in London have been trained to use (i) the Sharer Hailing Group, (ii) the Dedicated Government Agency Group, (iii) the Silver Level Inter-Agency Group, (iv) the three Bronze Level Inter-Agency Groups, (v) the All-User Interoperability Group and (vi) the Multi-Agency Mutual Aid Group. [288404]

Mr. Hanson *[holding answer 20 July 2009]:* All officers in the three forces are trained on how to access and use the Airwave Talk Group facility, as part of their general radio training. Consequently they are all trained to use all of the talk groups listed.

Entry Clearances

Mr. Benyon: To ask the Secretary of State for the Home Department what estimate he has made of the time it will take for the back-log of residence applications from EEA nationals to be cleared. [287793]

Mr. Woolas: The UK Border Agency is committed to clearing the backlog of cases by the end of November 2009 and to returning to operational service standards from the beginning of December 2009.

Entry Clearances: Kosovo

Jo Swinson: To ask the Secretary of State for the Home Department what recent representations he has received on the processing in Pristina of applications for visas to enter the UK; and if he will make a statement. [289144]

Mr. Woolas: I have not received any representations on the processing of applications for visas to enter the UK in Pristina.

European Electronic Crime Task Force

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what his most recent assessment is of the effectiveness of the European Electronic Crime Task force; and what recent discussions he has had with his Italian counterpart on cyber crime. [287009]

Mr. Hanson: The European Electronic Crime Task Force went live on 30 June 2009. It was created by the Polizia Postale e delle Comunicazioni (Italian Postal and Communication Police) and Poste Italiane (Italian Post).

The purpose of the taskforce is to facilitate the exchange of information and analysis on cyber-crime techniques and to establish new techniques and tools for the prevention, detection, mitigation and effective investigation of cyber-crimes.

It is too soon to judge the effectiveness of the taskforce as it was only established in the past four weeks; however this seems a useful initiative and builds on the strong existing links between Italy and the UK in fighting this area of crime.

Fixed Penalties

Chris Huhne: To ask the Secretary of State for the Home Department how many penalty notices for disorder have been issued in respect of each offence by each police force in each year since 2002. [286043]

Claire Ward: I have been asked to reply.

The number of penalty notices for disorder (PNDs) issued from 2004 to 2007 (latest available) in England and Wales, broken down by police force area and offence, are shown in tables which have been placed in the House Library.

PNDs were made available to all 43 police forces in England and Wales from April 2004.

PND data for 2008 will be available in the autumn of 2009.

Forced Marriage

Margaret Moran: To ask the Secretary of State for the Home Department how many cases dealt with by *(a)* the Forced Marriage Unit and *(b)* police forces have involved persons who have been obliged to sign applications for leave to remain under duress from their spouses. [288849]

Mr. Alan Campbell: The Forced Marriage Unit (FMU) does not routinely collect the information requested. However, of the 420 cases where the FMU provided direct support to victims in 2008, 207 involved reluctant sponsors (where a victim has already been forced into marriage and is now being forced to sponsor their spouse's visa) and 10 cases where the sponsor wished to withdraw their sponsorship of their spouse prior to them being granted indefinite leave to remain.

Margaret Moran: To ask the Secretary of State for the Home Department what recent investigations his Department has carried out in respect of allegations that persons have been obliged to sign recent applications for leave to remain under duress by their spouses. [288881]

Mr. Woolas: The information is not held centrally at a sufficient level of detail to extract what is often one of several issues raised.

Margaret Moran: To ask the Secretary of State for the Home Department what research his Department has *(a)* commissioned and *(b)* evaluated on any link between instances of forced marriage and cases where persons have been obliged to sign applications for leave to remain under duress by their spouses. [288882]

Mr. Alan Campbell: To date, there has been no specific research commissioned to evaluate the link between instances of forced marriage and cases where persons have been obliged to sign applications for leave to remain under duress by their spouses.

In 2008 the Forced Marriage Unit (FMU) introduced a new system in order to capture more robust figures on forced marriage. During 2009 the FMU will continue to work with other Government Departments and the non-government organisations to build a co-ordinated approach to data collection. Within this we will consider how to better capture data on immigration matters.

Foreign Workers: Vetting

James Brokenshire: To ask the Secretary of State for the Home Department what steps his Department is taking to improve access to international conviction data to improve checks on workers from overseas in the UK. [287915]

Mr. Woolas: Officials from my Department and the Criminal Records Bureau have reached an agreement in principle on sharing criminal record information with Australia and New Zealand for employment vetting purposes. We are also in ongoing discussions with France and Ireland.

Under the terms of EU Council Framework Decision 2009/315/JHA the United Kingdom can, when an individual is seeking a copy of their own criminal record, ask the member state of nationality or previous residence for such information and related data. If such a request is made, the requested member state shall reply in accordance with its national law. Member states, including the United Kingdom, are required to take the necessary measures to comply with this Framework Decision by 27 April 2012.

Foreigners: Drugs

Chris Grayling: To ask the Secretary of State for the Home Department how many alien persons and what quantity and type of narcotic intended for the UK were intercepted by *(a)* HM Revenue and Customs and the UK Border Agency and *(b)* Royal Navy vessels in UK territorial waters in each of the last 10 years. [288547]

Alan Johnson: From April 2008, the UK Border Agency took on responsibility for maritime operations which had previously been undertaken by HM Revenue and Customs.

Prior to the creation of the UK Border Agency, people trafficking and illegal immigration did not feature as Maritime operational targets. Our crews are now actively briefed and alert to the risk of illegal immigration. Policy and legislative guidance on this matter is presently subject to review.

Seizure results and outcomes arising from Maritime operations are not distinguished from other border operations.

UK Border Agency assets work regularly in support of operations by other agencies. We do not record details of seizures resulting from operations carried out by other agencies involved in border patrols.

Identity Cards

Mr. Willetts: To ask the Secretary of State for the Home Department pursuant to the answer of 1 June 2009 to Baroness Hanham, *Official Report*, House of

Lords, column WA36 on identity cards, which other organisations representing students have been involved in recent stakeholder activity. [287831]

Mr. Woolas: As part of stakeholder activity across the country to raise awareness of the National Identity Service we have met with a number of organisations. These have included the National Union of Students, Universities UK, Student Services from Manchester University and the Learning Skills Council in Manchester.

Mr. Willetts: To ask the Secretary of State for the Home Department pursuant to the answer of 1 June 2009 to Baroness Hanham, *Official Report*, House of Lords, column WA36 on identity cards, what the dates were of meetings held between the Identity and Passport Service and *(a)* the National Union of Students, *(b)* Universities UK and *(c)* other organisations representing students. [287832]

Mr. Woolas: As part of stakeholder activity across the country to raise awareness of the National Identity Service we have met with a number of organisations. These have included the National Union of Students, Universities UK on 26 February 2009, Student Services from Manchester University on 8 January 2009 and the Learning Skills Council in Manchester on 25 February 2009. Representatives from Manchester University attended the Home Secretary event in Manchester on 29 January 2009.

Illegal Immigrants: Drugs

Chris Grayling: To ask the Secretary of State for the Home Department how many *(a)* patrol boats and *(b)* aircraft are available to police to combat illegal immigration and drug smuggling operations. [288544]

Alan Johnson: In 2008 there were 108 patrol boats and 33 aircraft operated by police forces in England and Wales, used for a number of operational policing tasks at the discretion of individual chief officers.

Other assets (mainly military) are made available through the Military Aid to Civil Authorities (MACA) and Military Aid to Civil Power (MACP) process for specific operations. MACA/MACP covers standing arrangements for the Police Service and other civil agencies to draw on military capability in time of need. These operations would usually be led by Her Majesty's Revenue and Customs or the Serious Organised Crime Agency.

Illegal Immigrants: Housing

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department what recent estimate he has made of the annual cost of providing accommodation for illegal migrants to the UK. [287181]

Mr. Woolas *[holding answer 16 July 2009]:* The UK Border Agency does not provide accommodation to migrants other than to:

asylum seekers who are destitute, or likely to become destitute, whilst their claim (including any appeal) remains under consideration; failed asylum seekers with dependent children under the age of 18 years and those who are unable to leave the UK immediately for reasons beyond their control who would otherwise be destitute.

Local authorities are responsible for providing assistance to migrants who are destitute and have care needs. This form of assistance may include the provision of accommodation under the National Assistance Act 1948. The Home Office does not collect data on the cost of this.

Illegal Immigrants: Olympic Games 2012

Mr. Hunt: To ask the Secretary of State for the Home Department how many *(a)* illegal immigrants and *(b)* failed asylum seekers have been discovered working on construction of the main Olympic site. [288084]

Mr. Woolas *[holding answer 20 July 2009]:* Since April 2008, UK Border Agency (UKBA) staff have been working on site with the Olympic Delivery Authority (ODA) and contractors to support the process of checking that people employed on the Olympic park are legally entitled to work in the UK. This process was extended across the Athletes' Village in February 2009.

In addition to my previous answer of the 26 January 2009, between January 2009 and March 2009, a further two foreign nationals were arrested as a result of the UK Border Agency's activity.

IMPACT Programme

James Brokenshire: To ask the Secretary of State for the Home Department when the IMPACT Programme is expected to be fully operational; and what recent estimate he has made of the cost of the programme. [287914]

Mr. Hanson: The IMPACT Programme is on track to commence deployment of the Police National Database (PND) capabilities in 2010.

As part of the IMPACT Programme, the Impact Nominal Index (INI) was delivered on time in December 2005. A code of practice on the Management of Police Information (MoPI) was published in July 2005 and came into effect in November 2005. Detailed guidance was published in April 2006. The IMPACT Programme continues to assist forces in bringing about the required business change to effect successful compliance with the code of practice and the guidance by 2010.

The cost of the IMPACT Programme (INI, MoPI and PND) from 2005 through to 2011-12 is estimated to be £244.2 million, including historical costs and contingency funds.

Management of Police Information

James Brokenshire: To ask the Secretary of State for the Home Department what progress has been made by police forces in their implementation of the statutory code of practice on the management of police information. [287917]

Mr. Hanson: IMPACT continues to support police forces in bringing about the required business change to effect successful compliance with the code of practice and guidance for the Management of Police Information (MoPI).

In September 2006 the MoPI Delivery Board required all forces in England and Wales to achieve implementation in line with the MoPI code of practice and guidance by December 2010.

The board also required the IMPACT Programme to conduct regular formal reviews of all police forces in order to monitor progress and assess national implementation risk. Throughout March to May 2009, the fourth series of such reviews was conducted by the IMPACT Programme.

The review established that there could be every expectation that a large majority of police forces would be fully MoPI compliant and the remaining forces substantially MoPI compliant by December 2010.

Missing People

Mark Pritchard: To ask the Secretary of State for the Home Department how many *(a)* adults and *(b)* minors reported missing in 2008 remain unaccounted for. [287026]

Mr. Hanson: This information is not held centrally.

The central collection of data and other information to support work tackling the issues around missing people has been initiated through the 'Code of Practice on the Collection of Missing Persons Data', which was published in April 2009.

National Wildlife Crime Unit: Finance

Tim Farron: To ask the Secretary of State for the Home Department how much it cost to run the National Wildlife Crime Unit in each of the last 10 years. [288214]

Mr. Alan Campbell: The current National Wildlife Crime Unit was created in April 2006, after the National Crime Intelligence Service (NCIS) was disbanded. Previously there was a Wildlife Crime Unit within NCIS. The unit received funding of £308,417 in 2006-07, £476,296 in 2007-08, £403,412 in 2008-09 and has been budgeted at £437,919 for 2009-10.

Neighbourhood Policing Publicity Campaign: Finance

Mr. Hurd: To ask the Secretary of State for the Home Department how much was spent on marketing, public relations, communications and advertising in the 2008. [288848]

Mr. Hanson: The Spring 2008 Neighbourhood Policing Campaign was intended to inform the public that for the first time every neighbourhood in England and Wales had a neighbourhood policing team in their area and how to contact them. In the financial year 2007-08 the Home Office spent £1,179,754.00 on marketing, public relations, and advertising on this campaign.

Offences Against Children

Margaret Moran: To ask the Secretary of State for the Home Department what research his Department has *(a)* commissioned and *(b)* evaluated (1) on potential links between those who (i) view evidence of child abuse online and (ii) abuse children; [288874]

(2) on any relationship between incidences viewing of child abuse online and the incidence of (i) abuse of children and (ii) other types of sexual offences; [288875]

(3) on the use of evidence of possession of different types of child abuse images to predict likely future risks to children. [288876]

Mr. Alan Campbell: In April this year law enforcement, government and academic experts from the G8 nations and others came together in a symposium hosted by the United States of America to discuss these issues raised; it included experts from the UK's Child Exploitation and Online Protection Centre (CEOP). Their deliberations led to the issue on 30 May 2009 of a G8 Justice and Home Affairs Ministerial Statement "The risk to children posed by Child Pornography offenders". Among the many conclusions and recommendations was: an acceptance of a relationship between viewing and contact offending, although more work was required to determine the exact nature of that relationship; a recognition that based on conviction evidence a significant proportion of "image" offenders had committed some form of contact offence; and the exchange of child abuse images and communication between child sexual offenders legitimises and normalises their beliefs and behaviours providing a social context which encourages the further exploitation of children.

The Home Office, CEOP and other relevant stakeholders from across Government will be exploring how the recommendations from the G8 ministerial statement can be taken forward in a UK context.

Offences Against Children: Internet

Margaret Moran: To ask the Secretary of State for the Home Department what recent discussions he has had on progress towards the Government's commitment to ensuring that 80 per cent. of internet service providers *(a)* use filtering software and *(b)* prevent access to images of child abuse. [288985]

Mr. Alan Campbell: In 2006 the Government stated that it wished to see 100 per cent. of consumer broadband connections covered by blocking, which includes child abuse images, by the end of 2007. Currently in the UK 95 per cent. of consumer broadband connections are covered by blocking. The Government are currently looking at ways to progress the final 5 per cent. and will set out actions and timescales in due course.

The Kitemark for filtering software developed by the Home Office and OFCOM and in partnership with BSI, was launched in launched April 2008. Currently none have been issued, but the promotion of the Kitemark is a priority for the UK Council for Child Internet Safety under the Industry Working Group. The Government fully support the Kitemark and encourages companies to apply for it.

Passports: Borders

Chris Grayling: To ask the Secretary of State for the Home Department what estimate he has made of the number of people who enter the UK without passing through passport or border controls each year. [288514]

Alan Johnson: Since the phasing out of embarkation controls in 1994 no Government has ever been able to produce an accurate figure for the number of people who are in the country including those who have failed to present themselves to an immigration officer on arrival or overstayed on their visa. By its very nature it is impossible to quantify accurately and that remains the case.

Patrol Craft: Finance

Chris Grayling: To ask the Secretary of State for the Home Department what estimate he has made of the *(a)* capital and *(b)* operating cost of patrol vessels operated by HM Revenue and Customs and the UK Border Agency in each of the last 10 years. [288550]

Alan Johnson: The running costs (including fuel, repairs, defects, spares, refits, maintenance, berthing and ancillary costs) and capital costs (including vessel replacements) for the last 10 years are as follows:

Financial year	*Running*	£ *Capital*
1999-2000	2,256,000	0
2000-01	1,840,000	5,300,000
2001-02	1,893,000	3,020,000
2002-03	1,999,6[illegible]	3,100,000
2003-04	1,446,410	4,584,100
2004-05	1,626,830	1,421,600
2005-06	1,840,850	0
2006-07	1,625,380	0
2007-08	2,580,380	100,000
2008-09	2,508,700	0

Police

Mr. Paul Murphy: To ask the Secretary of State for the Home Department what structures are in place to enable liaison between police forces in Wales and neighbouring police forces in England. [288800]

Mr. Hanson: There are well-established structures for liaison across all forces in England and Wales that Welsh forces and their neighbouring forces avail themselves of. The Association of Chief Police Officers and various staff associations facilitate both formal and informal contact. The National Policing Improvement Agency and Her Majesty's Inspectorate of Constabulary both promote the sharing of effective practice between forces.

In terms of systems, the Police National Computer and the Home Office Large Major Enquiry System enable forces across England and Wales to exchange information critical to the successful investigation, detection and prevention of crime. All forces have adopted the National Intelligence Model as a way of working; the model itself fosters cross-border collaboration.

Liaison specifically between Welsh forces and neighbouring forces in England also takes place at both a formal and an informal level, facilitated by a number of groups. Issues covered by these groups include distraction burglary, professional standards, major crime review, and drugs.

Police National Computer

Mrs. Laing: To ask the Secretary of State for the Home Department how many vehicle records on the Police National Computer have an indicator relating to driver information marked against them. [287044]

Mr. Hanson *[holding answer 20 July 2009]:* Based on the latest figures available, from a data extract taken on 1 July 2009, a total of 78,713 vehicle records contained police reports with information about the driver or where action may still be required in connection with the driver/users of the vehicle.

The data presented here are drawn from administrative IT systems. Although care is taken when processing and analysing the data, the detail collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number.

Police National Computer: Patrick Brendon Smith

Mr. Timpson: To ask the Secretary of State for the Home Department when the convictions of Patrick Brendon Smith for rape in Ireland were uploaded to the Police National Computer; and whether those entries included his alias Patrick Reilly. [288096]

Mr. Alan Campbell *[holding answer 20 July 2009]:* Government Ministers are unable to direct officials to search the Police National Computer for an individual's name. The National Policing Improvement Agency is therefore not able to disclose the information requested.

Police: Emergency Calls

Mrs. Gillan: To ask the Secretary of State for the Home Department what the average police response time in each constituency in Wales to 999 calls is. [289014]

Mr. Hanson *[holding answer 21 July 2009]:* Data on the time taken to respond to incidents resulting from 999 calls are not collected centrally. This is a matter for each individual chief police officer.

Police: Pensions

Mr. Amess: To ask the Secretary of State for the Home Department what the cost of payments made to police pensioners aged *(a)* under 50, *(b)* between 51 and 55, *(c)* between 56 and 60, *(d)* between 61 and 65 and *(e)* 65 and over was in (i) the latest year for which figures are available, (ii) 1997, (iii) 2001, (iv) 2005 and (v) 2007. [287826]

Mr. Hanson: Information on expenditure on payments to police pensioners by age group is not held centrally.

Before 2006-07 the previous pay-as-you-go system of financing was in operation, under which police pensions were paid out of forces' operating accounts. Information about the total level of pensions expenditure net of officer contributions is included in the annual reports published by the Chartered Institute of Public Finance and Accountancy (CIPFA). This information is gathered independently of the Home Office.

Total expenditure on police pensions in payment in 2007-08 to retired officers and police survivors was £2.096 billion.

Police: Powers

Keith Vaz: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Epsom and Ewell (Chris Grayling) of 20 May 2009, *Official Report*, columns 1467-68W, on police: powers, what definition of the term front-line policing he uses. [286933]

Mr. Hanson: The detailed definition of the front-line policing measure is given in the Guidance on Statutory Performance Indicators for Policing. Copies of the definition of the measure have been placed in the House Library.

Police: Retirement

Mr. Amess: To ask the Secretary of State for the Home Department how many chief constables took early retirement in each year since 2001; on what grounds each took early retirement; what pension arrangements each received; and if he will make a statement. [287825]

Mr. Hanson: Under the Police Pensions Regulations 1987 a police officer may retire with an ordinary pension after 25 years' service.

Information on chief constables' retirements is held dating back to September 2001 only. Since that date there have been 55 retirements of chief constables. In all of these cases the individual had served for over 25 years.

Details of the grounds for retirement of chief constables and of their pension arrangements are not held centrally.

Mr. Amess: To ask the Secretary of State for the Home Department what *(a)* primary and *(b)* secondary legislation for which his Department was responsible and which made provision for the (i) retirement and (ii) early retirement of police officers has been enacted since 1997. [287827]

Mr. Hanson: There has been no primary legislation introduced since 1997 governing the retirement or early retirement of police officers.

The provisions of the Police Pension Scheme 1987, to which the majority of officers belong, are set out in the Police Pensions Regulations 1987. The following Statutory Instruments made since 1997 have amended the provisions relating to retirement and early retirement in those regulations:

The Police Pensions (Amendment) (No. 2) Regulations 2003/535

The Police Pensions (Amendment) Regulations 2004/1491

The Police Pensions (Amendment) (No. 3) Regulations 2004/2354

The Police Pensions (Part-time Service) Regulations 2005/1439

The Police Pensions (Amendment) Regulations 2008/1887

The following Statutory Instruments also have provisions relating to arrangements governing retirement and early retirement:

The Police Pensions Regulations 2006/3415 setting out the New Police Pension Scheme 2006 which applies to new entrants to the service with effect from 6 April 2006.

The Police (Injury Benefit) Regulations 2006/932 setting out awards for injury or death in the line of duty which are separate from the contributory pension scheme arrangements.

The Police Pension Fund regulations 2007/1932 which set out the new pension scheme financing arrangements which have applied since April 2006.

Poppy Crop

Mr. Hoyle: To ask the Secretary of State for the Home Department what the *(a)* size and *(b)* estimated monetary value of the domestic poppy crop was in the latest period for which figures are available. [288240]

Mr. Alan Campbell: Poppies are grown for many purposes in the UK; some are grown for the extraction of morphine (papaver somniferum) and it is only these poppies that the Home Office holds statistics on.

(a) There are currently 38 sites growing poppies for the extraction of morphine. The total area under cultivation in 2008 amounted to 2,568 hectares, slightly down from 2007 2,745 hectares. Additionally, a small number of organisations grow poppies for research purposes.

(b) The monetary value of the poppies is a commercial matter between the growers and their customers.

Rape

Mr. Waterson: To ask the Secretary of State for the Home Department how many offences of rape have been reported *(a)* in England and Wales, *(b)* in East Sussex and *(c)* in Eastbourne in each of the last five years; and how many of these resulted in (i) a prosecution and (ii) a conviction. [287386]

Mr. Alan Campbell: Information is not available in the form requested as it is not possible to track individual offences through to their outcome at court. The available information relates to the number of offences of rape recorded by the police in the last five financial years. Prosecutions and convictions data are based on the number of offenders and have been provided by the Office for Criminal Justice Reform. These data are published on a calendar year basis and are counts of persons classified by their principal offence. For these reasons the two datasets are not directly comparable.

Table 1 gives the number of offences of rape recorded by the police in England and Wales, Sussex and Eastbourne. Data for East Sussex are not available.

Table 2 provides data on the number of defendants proceeded against and convicted for all rape offences for England and Wales and Sussex. Data for East Sussex and Eastbourne are not available.

Table 1: Offences of rape recorded in England and Wales, Sussex and the Eastbourne Crime and Disorder Reduction Partnership area

Financial year	England and Wales	Sussex	Eastbourne
2004-05	14,013	458	52
2005-06	14,443	424	37
2006-07	13,774	440	37
2007-08	12,639	309	38
2008-09	13,133	370	37

Table 2: Number of defendants proceeded against at magistrates courts and found guilty at all courts for rape and attempted rape offences, Sussex police force area and England and Wales, 2003 to 2007[1, 2]

	2003		2004		2005		2006		2007	
	Proceed against	Found guilty	Proceed against	Found guilty	Proceed against	Found guilty	Proceed against	Found guilty	Proceed against	Found guilty
Sussex police force area	41	18	54	13	65	12	58	13	43	26
England and Wales	2,790	673	2,689	751	2,826	796	2,567	863	2,363	873

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Security Guards: Licensing

Mr. Evennett: To ask the Secretary of State for the Home Department how many complaints have been made to the Security Industry Authority about its licence application processing times in the last 12 months. [288121]

Mr. Alan Campbell: The SIA have recorded the subject of complaints received since August 2008. Since then 35 formal complaints related to licence application processing times have been made to the Security Industry Authority.

Security Industry Authority

Chris Grayling: To ask the Secretary of State for the Home Department how many contractors have had their security credentials revoked by the Security Industry Authority in the last five years. [288515]

Alan Johnson: Since the approved contractor scheme was introduced in March 2006, in total 22 contractors have had approved contractor status withdrawn. Of these, five companies submitted fresh applications after a period of time and have been re-approved.

Chris Grayling: To ask the Secretary of State for the Home Department what powers the Security Industry Authority has to investigate reports of racist door policies at pubs and clubs operated by security staff licensed by the Authority. [288516]

Alan Johnson: The Security Industry Authority has the power to take evidence of criminal activity, including in relation to racially motivated offences, into account in considering the refusal or revocation of licences. The Authority will refuse applications or revoke licences of security staff who do not meet its 'fit and proper person' criteria.

Serious and Organised Crime Agency: National Police Improvement Agency

Justine Greening: To ask the Secretary of State for the Home Department what assessment he has made of the effect of the additional £20 million in capital funding to improve the estates of the Serious and Organised Crime Agency and the National Police Improvement Agency brought forward from 2010-11 to 2009-10 and 2008-09 on *(a)* installation and development of high technology systems, *(b)* enhanced intelligence gathering and *(c)* the redeployment of posts out of London as part of the Lyons relocation policy; and how much of the funding has been spent in each month since it was announced. [286652]

Mr. Alan Campbell: The National Policing Improvement Agency (NPIA) has £10 million of capital funding advanced from 2010-11 to 2009-10. This expenditure is not expected to impact directly on the development of high technology systems, or enhanced intelligence gathering. It is not linked to the redeployment of posts out of London.

This funding will enable an acceleration of planned improvements to office, classroom and other facilities at the NPIA site at Ryton-on-Dunsmore in the West Midlands. This is a multi-function site providing specialist training and operational support to the police service and security agencies.

Work is scheduled to take place in second half of the 2009-10. No spending has occurred to date.

Early availability of capital funds has enabled investment in the Serious Organised Crime Agency's (SOCA) physical infrastructure and technical capability. Preparatory work has started on the capital projects that had previously been scheduled for 2010-11. Long lead-in times for delivering these investments mean that the impact will not be felt until 2010-11 and beyond.

SOCA's capital budget for 2009-10 included expenditure and delivery of technology to support both SOCA's High Volume Operating Model and the collection and analysis of a wide range of information.

SOCA has contributed to the Lyons targets for relocating posts out of London by the integration of some sites. This will be enhanced by the relocation of 130 posts from London to the north-west in 2010-11.

Serious and Organised Crime Agency: Northern Ireland

Mr. Paterson: To ask the Secretary of State for the Home Department how many Serious and Organised Crime Agency staff based in Northern Ireland have received performance-related bonuses; and what the total amount of such bonuses has been. [287671]

Mr. Alan Campbell: To date, no staff based in Northern Ireland have received performance-related bonuses.

Mr. Paterson: To ask the Secretary of State for the Home Department what the cost of the Serious and Organised Crime Agency in Northern Ireland was in 2008-09. [287672]

Mr. Alan Campbell: The Serious Organised Crime Agency's budget is not managed on a geographic basis and so it is not possible to determine what the cost of SOCA in Northern Ireland was in 2008-09.

Mr. Paterson: To ask the Secretary of State for the Home Department how many of the Asset Recovery Agency cases based in Northern Ireland were taken up by the Serious Organised Crime Agency; and how many have resulted in *(a)* prosecutions and *(b)* seizure of assets. [287787]

Mr. Alan Campbell: The Serious Organised Crime Agency is a UK-wide agency and does not collate statistics on a regional basis, as many crimes, by their nature, do not respect regional boundaries.

All of the Assets Recovery Agency's cases were transferred to SOCA when the two agencies merged. Asset recovery investigations under the Proceeds of Crime Act's criminal confiscation, civil and tax recovery provisions cannot lead directly to prosecution. In 2008-09 (having gained civil recovery and tax powers in April 2008), SOCA enforced civil recovery orders and tax assessments and collected £16.7 million.

Social Workers: Visas

Simon Hughes: To ask the Secretary of State for the Home Department how many qualified social workers have been refused an initial visa or visa extension under Tier 1 and Tier 2 of the points-based system since it was introduced; and how many of these applicants applied to work with children and families. [288712]

Mr. Woolas: The information is not centrally recorded and could only be provided at disproportionate cost.

Territorial Waters

Chris Grayling: To ask the Secretary of State for the Home Department whether the UK Border Agency vessels operate a continuous patrol of the British coastline. [288543]

Alan Johnson: The UK Border Agency's Maritime capabilities are deployed to provide operational coverage for 365 days a year, on a permanent patrol of the UK coast. Operations are conducted on a risk and intelligence-led basis.

Terrorism: Afghanistan

Daniel Kawczynski: To ask the Secretary of State for the Home Department what assessment he has made of the effect of British military involvement in Afghanistan on levels of violent extremism in the UK. [287427]

Mr. Hanson *[holding answer 16 July 2009]:* It is in our national interest that Afghanistan becomes a stable and secure state able to deal with violent extremism within its borders and to prevent the export of terrorism abroad. We are fully committed to supporting a legitimate and democratic Afghan Government as they seek to build a peaceful and resilient nation, shaped by the will of the Afghan people.

I recognise that individual reactions to UK foreign policies, such as military involvement overseas can be a factor in radicalisation, and that violent extremists exploit this when recruiting others to their cause. But we also know that radicalisation occurs for a wide range of complex and personal reasons. The aim of the Government will continue to be to prevent radicalisation at home and abroad.

Wildlife: Crime

Tim Farron: To ask the Secretary of State for the Home Department how much the policing of wildlife crime cost in each police force area in each of the last 10 years. [288215]

Mr. Alan Campbell: Each force sets their own priorities having made an assessment on the issues of most importance locally. As such forces where wildlife crime is an issue will be likely to provide greater resources for tackling it. However, the Home Office does not collect data on the amount each force has spent policing wildlife crime.

Written Answers to Questions

The following answers were received between Tuesday 1 September and Wednesday 9 September 2009

PRIME MINISTER

Internet

Mr. Hurd: To ask the Prime Minister for what reasons the comment facility on his video on Parliamentary expenses reform posted to the Downing Street YouTube portal is not enabled. [290083]

The Prime Minister: It is not possible to post comments on any Downing street YouTube video. My Office does however receive and respond to many other comments each year through e-mails, letters, ePetitions, webchats and Twitter.

Libya

Mr. Hague: To ask the Prime Minister (1) if he will place in the Library a copy of each item of his correspondence with Colonel Gaddafi of Libya in which Abdelbaset Ali al-Megrahi is mentioned; [290634]

(2) whether he discussed *(a)* commercial contracts for oil and gas and *(b)* Abdelbaset Ali al-Megrahi during his meeting with Colonel Gaddafi of Libya at the G8 summit in July 2009; and if he will place in the Library the record of the meeting. [290639]

The Prime Minister: A copy of my letter to Colonel Gaddafi of 20 August has been placed in the Libraries of the House. During my meeting with Colonel Gaddafi in July I did not discuss oil and gas contracts. I did raise the need for a more effective global dialogue between energy producing and consuming countries.

LEADER OF THE HOUSE

Members: Allowances

Mr. Pickles: To ask the Leader of the House whether she plans to publish claims made under the additional cost allowance for 2004-05 by those who are no longer hon. Members; and if she will make it her policy to publish claims made by former hon. Members who are also prospective parliamentary candidates under the additional cost allowance during their period of service in the House. [290806]

Ms Harman: The publication of information relating to hon. Members' claims for additional costs allowance is a matter for the House of Commons Commission.

TRANSPORT

A14

Mr. Hollobone: To ask the Minister of State, Department for Transport what assessment the Highways Agency made of the effect on entry to and exit from the A14 for industrial units in Burton Latimer of the imposition of a Grampian condition on the sustainable urban extension to the east of Kettering; and what recent estimate the Highways Agency has made of daily traffic volumes on the A14 between junctions *(a)* 7 and 9 and *(b)* 9 and 10. [290886]

Chris Mole: In response to the Kettering East Planning Application, the Highways Agency has reviewed all the information provided by the developer in order to determine the impact of the proposals on the performance of the A14. This has included a review of the developer's proposals for access and egress onto/off the A14. This consists of replacing existing junction 10 with an enlarged junction, approximately 1 kilometre to the east of its current location.

The Agency's review of these proposals did not include an assessment of the implications of the junction improvements on the wider community including the industrial units at Burton Latimer, as this was not necessary at this stage. However, it is envisaged that the developer will carry this out as part of the statutory processes required for implementation of the access arrangements. These processes will also provide an opportunity for all parties, including the Highways Agency, to comment on the details of the proposals.

While the conditions the Agency has directed specifically relate to the access arrangements proposed to date, it is prepared to consider any other options put forward including the possibility of improving the junction in its current location. It should be noted, however, that the Agency would not accept an additional access onto the A14 in accordance with policy (Department for Transport Circular 02/2007) in particular safety and efficiency.

The Highways Agency's recent estimates of daily traffic volumes between junctions on the A14 are as follows:

Direction	*Junctions*	*AADT*[1]
Eastbound	7-8	35,717
	8-9	32,421
	9-10	28,105
Westbound	7-8	35,619
	8-9	33,742
	9-10	28,263

[1] AADT—Annual Average Daily Traffic, based on rolling year between June 2008 and May 2009.

Air Travel Organiser's Licensing Protection Contribution

Mr. Bone: To ask the Minister of State, Department for Transport (1) what the level of the Air Travel Organiser's Licensing Protection contribution will be once the Air Travel Trust Fund deficit has been eliminated; [290770]

(2) by what date he expects the deficit in Air Travel Trust Fund to be eliminated; and if he will make a statement. [290771]

Chris Mole: In his written statement of 16 July 2009, *Official Report*, column 82-83WS announcing an increase to the ATOL Protection Contribution (APC), the Parliamentary Under Secretary of State for Transport, my hon. Friend the Member for Gillingham (Paul Clark) explained that

"The Civil Aviation Authority (CAA) intend to review the rate of the APC before the Air Travel Trust fund (ATTF) moves into surplus, projected to be by the spring of 2012."

A summary of responses to the CAA's consultation on increasing the APC and a copy of the CAA's advice to the Secretary of State are available in the House Library.

Aviation: Passengers

Mr. Brady: To ask the Minister of State, Department for Transport what recent assessment his Department has made of the likely effect on air passenger numbers at *(a)* Heathrow Airport and *(b)* regional airports of the introduction of high-speed train services between London and the North. [290746]

Chris Mole: High Speed Two (HS2) Ltd. has been formed to help develop the case for high speed services between London and Scotland, and will report to Government by the end of the year. As part of its work HS2 will be assessing passenger demand for high speed rail services, including the likely number of passengers attracted from aviation. We are, however, satisfied that the case for new runway capacity at Heathrow remains strong, given projections of future demand for long-haul air traffic which cannot readily be served by rail.

Blue Badge Scheme

Mr. Brady: To ask the Minister of State, Department for Transport if he will make it his policy to extend the Blue Badge scheme for disabled parking to people suffering from colitis, Crohn's disease and similar conditions. [290743]

Chris Mole: In October 2008 the Department for Transport published the Comprehensive Blue Badge (Disabled Parking) Reform Strategy which outlined a number of changes to the scheme, including our intention to extend eligibility to certain groups of people whose level of disability imposes severe limitations on their personal mobility and safety. Whilst colitis, Crohn's disease and similar conditions were considered for eligibility during the development of the Reform Strategy, it was decided that the Blue Badge scheme would not be extended to people affected by these conditions and there are no plans to alter this.

British Railways Board Residuary: Manpower

Norman Baker: To ask the Minister of State, Department for Transport how many people have been employed by the British Railways Board Residuary in each year since 1997; and what the *(a)* income and *(b)* expenditure of that body has been in each such year. [290634]

Chris Mole: British Railways Board Residuary (BRBR) Ltd was formed in February 2001. The income, expenditure and headcount information for the period since BRBR's creation is shown in the following table:

£ million

	Income	*Operating expenditure*	*Employees (FTE)*[1]
2001-02	51.5	(35.0)	52
2002-03	154.2	(157.1)	44
2003-04	79.4	(56.3)	32
2004-05	82.5	(77.4)	25
2005-06	75.6	(53.7)	24
2006-07	91.8	(31.2)	27
2007-08	93.7	(41.7)	32
2008-09	96.0	(85.3)	32

[1] Full time equivalent

Crossrail: Expenditure

Norman Baker: To ask the Minister of State, Department for Transport how much his Department has spent on preparation for Crossrail; and what estimate he has made of *(a)* the likely expenditure by (a) June 2010 and *(b)* any required expenditure after June 2010 in the event that the project is cancelled. [290635]

Chris Mole: Expenditure on preparation for Crossrail prior to the signature of the core agreements for the scheme in December 2008 was £175 million. This figure includes the costs incurred by Crossrail Ltd in support of the Crossrail Act 2008 and related agreements, and the Department for Transport's financial, legal and technical consultancy fees in support of the parliamentary process and agreements.

By June 2010 it is estimated that expenditure by Crossrail Ltd in support of the delivery of the project will have reached £1,550 million. This includes the costs of land and property expenditure and the costs of consultancy services procured by the Department to support the programme.

There are no precise estimates as to how much expenditure would be required if the project were to be cancelled; this is contingent on a number of different factors, including contractual commitments and potential income from land no longer required.

Crossrail Ltd is jointly funded by the Department and Transport for London.

Driving Offences

Mr. Greg Knight: To ask the Minister of State, Department for Transport what plans he has to provide for the police to issue on-the-spot fines to motorists for *(a)* careless driving and *(b)* other road traffic offences for which offenders are prosecuted. [290728]

Chris Mole: The Road Safety Compliance Consultation, published in November 2008 sought views on proposals for measures to improve compliance levels with key road safety laws. This included a proposal to allow for fixed penalties for certain categories of careless driving. The consultation ended on 27 February 2009 and all responses are being carefully considered.

The Department for Transport will announce its response to the consultation and the measures it intends to take forward, including on careless driving, alongside the new Road Safety Strategy later this year.

Both VOSA and the police already have the ability to issue on-the-spot fines for certain road traffic offences.

Driving Under Influence

Norman Baker: To ask the Minister of State, Department for Transport what recent assessment he has made of the merits of reducing the drink-drive limit from its current levels. [290727]

Chris Mole: The Department for Transport's Road Safety Compliance consultation document explains that we are keeping the present limit under review and have work in hand to improve available evidence needed to assess the potential road safety effect of a lower limit. We have also said that we intend to review the new evidence in the course of finalising the Government's Road Safety Strategy beyond 2010, to be published later this year.

Heathrow Airport

Simon Hughes: To ask the Minister of State, Department for Transport whether his Department has revised its net present value estimate for a new runway and terminal at Heathrow airport to take account of the new methodology for carbon pricing in appraisals provided by the Department for Energy and Climate Change. [290897]

Chris Mole: The assessment of the economic case presented in Adding Capacity at Heathrow Airport Impact Assessment followed the guidance on the shadow price of carbon, issued by DEFRA following the Stern Review. In developing the Impact Assessment, the Department for Transport considered the potential impact of significantly higher values and concluded that the economic case remained robust.

However, no revised net present value estimate for a new runway and terminal at Heathrow airport that takes account of the new carbon values published in July 2009 by the Department for Energy and Climate Change is available.

Preliminary work since the January Heathrow decision indicates that the economic case for Heathrow's third runway is robust to the new carbon values.

The Department for Transport currently expects to publish the next generation of air passenger demand forecasts in 2010.

Highways Agency: Ragwort

Mr. Greg Knight: To ask the Minister of State, Department for Transport what steps the Highways Agency is taking to remove ragwort from *(a)* the roadside and *(b)* other land for which the Highways Agency is responsible. [290684]

Chris Mole: Ragwort is a difficult plant to control and requires a long-term and systematic approach as the seeds can remain dormant in the ground for over 20 years.

The Highways Agency dedicates significant resources to its control each year. It is not possible to eradicate ragwort entirely because plants can spread from adjoining land. The Agency's service providers are required to follow the Department for Environment, Food and Rural Affairs code of practice as well as Agency specific guidance, to control ragwort at the roadside and on other Agency owned land. Control measures, which include the use of herbicides, are particularly targeted at locations where livestock is most at risk.

Year round monitoring is undertaken to identify the location of ragwort plants, so that control measures can be used when most effective, and not just during the flowering season. Adjacent landowners are informed where ragwort is present, to encourage them to introduce their own measures of control.

Invalid Vehicles: Insurance

Mr. Amess: To ask the Minister of State, Department for Transport if he will bring forward legislation to require users of mobility scooters to hold mobility scooter insurance; what training users of mobility scooters are required to undergo; what recent estimate he has made of the number of persons injured by mobility scooters annually; and if he will make a statement. [290641]

Chris Mole: We currently have no plans to introduce legislation requiring users of mobility scooters to hold insurance. They are nevertheless subject to the law of civil liability. We do strongly recommend that mobility scooter users take out insurance and that they avail themselves of the advice and training that is available in a number of locations such as Shopmobility venues (a charity organisation which hires out mobility scooters). No recent estimate of the number of injuries caused by mobility scooters has been undertaken but anecdotal evidence suggests that the majority of accidents are minor in nature.

We are aware that the number of mobility scooters is on the increase. The Department for Transport is procuring a survey to help assess the number of mobility scooter users and the extent to which their use may have injured people. We anticipate that this will help to inform future policy.

Kegworth Bypass

David Taylor: To ask the Minister of State, Department for Transport what recent progress has been made on the Kegworth bypass project; and if he will make a statement. [290831]

Chris Mole: The Kegworth bypass has been proposed alongside improvements to the M1 between junctions 23a and 25. The Department for Transport publication 'Britain's Transport Infrastructure—Motorways and Major Trunk Roads', published in January 2009, provides details of the major road improvements which we expect to take forward in the period up to 2015 and the longer term motorway improvements which we expect to be rolled out after 2015.

The scheme to improve the M1 between junctions 23a and 25 falls into the category of schemes expected to be delivered after 2015. The timetable for these schemes will be considered as part of the DuSTS (Delivering

a Sustainable Transport System) process, under which we will be defining our longer term investment priorities. This process is described in the Department's November 2008 document 'Delivering a Sustainable Transport System'.

Lorries: Accidents

Sir John Stanley: To ask the Minister of State, Department for Transport in how many accidents resulting in serious injury foreign-registered left-hand drive heavy goods vehicles were involved in 2008. [290778]

Chris Mole: In 2008, there were 25 fatal and 69 reported road accidents resulting in a serious injury, where at least one foreign-registered left-hand drive heavy goods vehicle was involved.

Maritime and Coastguard Agency: HM Coastguard

Mr. Brazier: To ask the Minister of State, Department for Transport with reference to page 81 of the Maritime and Coastguard Agency's Annual Report 2007-08, HC 617, what the average response time of the Maritime and Coastguard Agency/HM Coastguard was to maritime incidents where assistance was given in each year from 2002 to 2008. [290662]

Chris Mole: Information is not collected in the form requested.

Between 2001-02 and 2006-07 the percentage of incidents where the Maritime and Coastguard Agency (MCA) decided on a search and rescue response within five minutes of being alerted is shown in the following table:

	Percentage
2001-02	99
2002-03	99
2003-04	99
2004-05	98
2005-06	97
2006-07	99

In each of these years the MCA met its published ministerial target on this area of work.

Figures for 2007-08 and 2008-09 were not recorded due to industrial action short of a strike by members of the Public and Commercial Services (PCS) Union.

However, through a programme of local management checks and audits, the agency is confident that the quality of its emergency response co-ordination service was fully maintained despite the absence of statistical data.

Railways: Overcrowding

Norman Baker: To ask the Minister of State, Department for Transport if he will make it his policy to collect passenger overcrowding data from train operators running services from stations in *(a)* Birmingham, *(b)* Manchester, *(c)* Cardiff, *(d)* Sheffield, *(e)* Bristol, *(f)* Liverpool and *(g)* Leeds. [290633]

Chris Mole: As outlined within their respective franchise agreements, train operating companies are required to provide passenger count data on request to the Secretary of State for Transport. The Department for Transport currently collects passenger counts data for most rail services running into these regional stations.

The specific arrangements for each operator can be viewed on the Department's website at the following address:

http://www.dft.gov.uk/pgr/rail/passenger/publicregister/current/

Roads: Cycling

Mr. Bone: To ask the Minister of State, Department for Transport when he plans to publish his Department's *(a)* interim and *(b)* final report on road safety and cycling. [290773]

Chris Mole: The Department for Transport is working with the contractors, Transport Research Laboratory, to ensure the road safety and cycling project remains on schedule. The Department intends to publish two research reports this autumn 2009, including one on cycle helmets, with the publication of the project's final reports in autumn 2010.

Sustainable Distribution Fund

Norman Baker: To ask the Minister of State, Department for Transport how much has been *(a)* made available to and *(b)* subsequently allocated to rail freight interchange projects through the Sustainable Distribution Fund in each year since its inception. [290632]

Chris Mole: The multi-modal Sustainable Distribution Fund (SDF) took effect from 1 April 2007. Although there have been a number of rail capital projects funded through SDF, the Department for Transport has not funded any rail freight interchange projects.

Freight Facilities Grants (FFGs) can help to fund the difference in cost between rail/water and road freight, but only where the environmental benefits can justify the support, there is a genuine financial need for grant and the provision of grant would not distort competition.

Competition in the rail freight intermodal business has been increasing with a number of terminal and freight hauliers now active in the market. As a result, in January 2008 the Department announced that it would no longer provide FFG funding for investment in intermodal terminals in the North West of England (Manchester, Liverpool and Widnes conurbations).

Traffic Penalty Tribunal

Mr. Goodwill: To ask the Minister of State, Department for Transport (1) how many parking cases the Traffic Penalty Tribunal adjudicated by *(a)* post, *(b)* email and *(c)* in person in the most recent year for which figures are available; [290703]

(2) how much on average it cost the Traffic Penalty Tribunal to adjudicate on a parking case *(a)* by post, *(b)* by email and *(c)* in person in 2008-09; [290705]

(3) what funding the Traffic Penalty Tribunal received from each of its funding streams in 2008-09. [290706]

Chris Mole: This information is not collected centrally by the Government. Details of the Traffic Penalty Tribunal's activities are recorded in its annual report which is available on its website,

www.trafficpenaltytribunal.gov.uk

Transport: Finance

Justine Greening: To ask the Minister of State, Department for Transport what assessment he has made of the likely effect of the £700 million in capital funding for transport, brought forward from 2010-11 to 2009-10 and 2008-09 on *(a)* motorway capacity, *(b)* numbers of new carriages on the rail network, *(c)* congestion relief and *(d)* railway overcrowding; and how much of the funding has been spent in each month since it was announced. [286653]

Paul Clark: £300 million is budgeted for advancing work on the national road network; for enabling works in advance of the Managed Motorway (hard shoulder running) schemes announced in January, and on advancing planned capital maintenance, e.g. safety improvements to the central reserve on the M1 between J32-35a. The planned roads programme adds 520 additional lane miles including 340 lane miles of hard shoulder running.

As well as the work on the national network, £100 million is budgeted to relieve congestion on the regional A46 Newark to Widmerpool scheme, by advancing construction (dualling) by two years. This is an important freight route and will support the Newark growth point.

£300 million was budgeted to advance the purchase of additional diesel railway carriages, scheduled as part of the High Level Output Specification (HLOS) agreement for increasing capacity and relieving overcrowding on the rail network (HLOS agreement from 2009 to 2014) that was set out in the July 2007 Rail White Paper. However, the £1.1 billion electrification of the Great Western Main Line to Swansea and the line between Liverpool and Manchester announced on 23 July 2009, means that there will be far less need for diesel trains and so the previously planned procurement has been superseded. A revised rolling stock strategy, taking into account the reduced need for diesel trains will be published in due course.

Monthly expenditure (£ million)

	April	*May*	*June*	*Total Q1*	*Budget Q1*
A46	2.4	3.3	2.1	7.8	16.4
National schemes	9.4	14.8	19.2	43.4	44.1
Total HA	11.9	18.0	21.3	51.3	60.5

Note:
Table totals subject to roundings.

Spending on national highway schemes is very close to budgeted expenditure at this point (98 per cent.). Delays on concluding negotiations for access have led to slower spend on the A46.

Furthermore, as announced in Building Britain's Future in June, the Department for Transport is contributing £350 million from the 2009-10 capital budget to the Government's housing fiscal stimulus initiative to deliver 20,000 additional energy efficient, affordable homes.

HOME DEPARTMENT

Democratic Republic of Congo

Jeremy Corbyn: To ask the Secretary of State for the Home Department what recent meetings officials of his Department have had with officials of *(a)* HM Embassy Kinshasa and *(b)* officials of the Democratic Republic of Congo government at Kin Maziere officials. [289004]

Mr. Woolas *[holding answer 21 July 2009]:* The UK Border Agency commissioned the British embassy in Kinshasa to investigate allegations that appeared in *The Guardian* newspaper on 28 May and this included visiting officials from Kin Maziere. The investigation found no evidence to substantiate the allegations of mistreatment, and found that the documentation in possession of *The Guardian* was not credible.

Drugs: Convictions

Chris Huhne: To ask the Secretary of State for the Home Department how many people have been convicted of *(a)* possession of and *(b)* supplying Class (i) A, (ii) B and (iii) C drugs in each year since 1997; and how many such people received (A) a custodial sentence and (B) the maximum sentence for those offences. [286040]

Claire Ward: I have been asked to reply.

The number of defendants found guilty at all courts for the possession and supply of class A, B and C drugs, those sentenced to a custodial sentence and those receiving the maximum sentence, in England and Wales, from 1997 to 2007 (latest available) is shown in the following table.

The statistics given relate to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Data for 2008 will be available in the autumn 2009.

The number of defendants found guilty at all courts and sentenced to immediate custody for possession and supply of class A, B and C drugs in England and Wales, 1997 to 2007[1, 2, 3, 4, 5]

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
[4] Cannabis was reclassified in January 2004 to a class C drug. Guidelines advised that offenders over the age of 18 could be given, for possession only, a "cannabis warning" which does not constitute a criminal record.
[5] Cannabis was re-classified to a class C drug in January 2004. From 1997-2004 the class B category includes cannabis, from 2005-2007 cannabis is included in class C.
[6] From January 2004 the statutory maximum penalty for Possession with intent to intent to supply and supplying a class C drug was increased from five to 14 years. Those sentenced in 2004 were all assumed to be eligible for the five year maximum those sentenced from 2005 onwards are assumed to be eligible for the 14 year maximum although as the date of offence is not known this may not be true of all cases.

Office for Criminal Justice Reform—Evidence and Analysis unit (OCJR-E and A).

Entry Clearances

Mr. Benyon: To ask the Secretary of State for the Home Department how many residence applications from EEA nationals are awaiting assessment. [287791]

Mr. Woolas: As of 15 July there were 71,428 EEA residence applications of all categories awaiting assessment.

Mr. Benyon: To ask the Secretary of State for the Home Department how many outstanding residence applications from EEA nationals have exceeded the six month time limit set out in the Immigration (European Economic Area) Regulations 2006. [287792]

Mr. Woolas: As of 15 July there were 27,120 EEA residence applications that have been outstanding for more than six months. This does not include applications made by EEA nationals for registration certificates, which are not subject to the same time scales.

Foreigners: Crime

Mr. Garnier: To ask the Secretary of State for the Home Department how many *(a)* murders, *(b)* attempted murders, *(c)* rapes, *(d)* other offences of violence against the person and *(e)* other offences were committed by foreign nationals who had served at least one custodial sentence in the UK in each of the last 12 years for which figures are available. [290755]

Maria Eagle: I have been asked to reply.

The requested information is not available. The recording by the police on the Police National Computer of the nationality of offenders in England and Wales is optional as there is no legislative obligation on individuals to provide this information. For this reason reliable statistics on the nationality of offenders cannot be compiled.

Overseas Students: Entry Clearances

Mr. Oaten: To ask the Secretary of State for the Home Department how long on average elapsed between the receipt by the Charging Unit of an application for a student visa extension and the receipt by the applicant of an IDFN form between January and June *(a)* 2008 and *(b)* 2009; and in what proportion of cases the time elapsed was more than three months in each period. [287901]

Mr. Woolas *[holding answer 20 July 2009]:* The information is not available in the precise format requested. Available information is as follows:

	Average time (days) taken to deal with an in country application for leave to remain as a student (a)	*Percentage of cases where turnaround time was more than 90 days (b)*
1 January-30 June 2008	[1]29	[1]2
1 January- 30 June 2009	[2]63	[2]7

[1] 1,288 applications
[2] 4,056 applications
Note:
All figures quoted are not provided under national statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Time taken to deal with in country applications for leave to remain as a student

All figures quoted are not provided under national statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

The figures in column (a) are calculated from the date of receipt by the Charging Unit to the date of despatch of the decision.

A requirement that applicants applying in country for leave to remain as a student must have an identity card was introduced on 25 November 2008. The target time for issue of a card is three working days. This time begins on the date the request to issue the card is received.

Passports

Anne Main: To ask the Secretary of State for the Home Department what the unit cost of printing a *(a)* new and *(b)* replacement British passport was in the latest period for which figures are available. [287533]

Mr. Woolas: The unit cost of printing a new and replacement British passport is the same. Due to commercial sensitivities it is not possible to disclose the exact printing charges.

Prisoners: Deportation

Mr. Hayes: To ask the Secretary of State for the Home Department how many foreign national prisoners the Government sought to deport when they left prison but were unable to because they were nationals of other EU member states in the last five years. [287741]

Mr. Woolas: The information requested is not readily available and could be obtained only at disproportionate cost. The chief executive of the UK Border Agency has regularly written to Home Affairs Select Committee in

order to provide them with all the robust and accurate information available relating to foreign national criminals. Copies of these letters are available in the Library of the House.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers are awaiting single payments; and what estimate his Department has made of the total monetary value of outstanding single payments. [290866]

Huw Irranca-Davies: The following table gives the number and estimated value of outstanding payments under the Single Payment Scheme for those yet to receive any payment. It includes claims which may eventually prove to be invalid for payment, often because of probate issues or invalid bank details.

£

Single payment scheme year	*Number of claims outstanding as at 3 September 2009*	*Estimated value of outstanding claims*
2005	3	10,000
2006	9	18,000
2007	48	444,000
2008	211	2,424,000
Total	271	2,896,000

Air Pollution: Prosecutions

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs how many organisations have been *(a)* prosecuted, *(b)* fined and *(c)* convicted under environmental legislation for air pollution offences in each year since 2005; what the total cost was of fines imposed for such offences; and if he will make a statement. [290899]

Huw Irranca-Davies: The following table has been produced by the Environment Agency's National Enforcement Database and shows the number of organisations that have been *(a)* prosecuted, *(b)* fined and *(c)* convicted for air pollution category 1-3 incidents[1] since 2005, and the total cost of fines imposed for such offences.

	Prosecuted	*Convicted*	*Fined*	*Total of fines (£)*
2005	42	42	41	418,650
2006	62	59	57	475,240
2007	37	34	32	561,796
2008	44	40	38	339,200
2009[2]	23	22	21	509,850
Total	208	197	189	2,304,736

[1] Category 1—major, persistent, extensive or serious impact or damage to the environment (air, land and/or water), people and/or property.
Category 2—significant impact or effect on the environment, people and/or property.
Category 3—minor or minimal impact or effect on the environment, people and/or property.
[2] To 12 August 2009

Circuses: Animal Welfare

James Duddridge: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects the Chairman of the Circus Working Group to provide a further report on wild animals in travelling circuses. [290937]

Huw Irranca-Davies: The Circus Working Group reported its findings in 2007. A feasibility study is currently under way looking at the possibility of regulating wild animal acts in circuses. The feasibility study is still in progress but we are expecting it to be finalised by the end of the year.

James Duddridge: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions the Circus Working Group has had about the welfare of elephants in circuses in the last 12 months. [290938]

Huw Irranca-Davies: The Circus Working Group reported its findings in 2007. A feasibility study has been under way since last year and is expected to be finalised by the end of this year. The use of elephants in circuses will be considered as part of this study.

Dairy Farming

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the number of farmers who have left in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009 to date. [290867]

Huw Irranca-Davies: DEFRA does not collect figures on the number of farmers who leave the dairy sector each year. Figures from the June Survey of Agriculture only indicate activity on registered holdings in England at June each year and therefore show net change only.

The number of farmers on holdings where dairy is the predominant activity (as indicated from Cattle Tracing System data) are shown in the table below for 2006-08. Figures for 2009 are not yet available.

		Number of farmers on dairy type holdings	*Number of dairy holdings[1]*
(a)	2006	22,483	11,079
(b)	2007	21,082	10,649
(c)	2008	20,122	10,112

[1] Based on predominant farming activity.
Note:
Farmers includes full- and part-time farmers, partners, directors and spouses if working on the holding.
Sources:
June Survey of Agriculture
Cattle Tracing System

Dairy Farming: Government Assistance

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs what assistance his Department is providing to the dairy farm industry in response to the reduction in the wholesale price of milk in 2009. [290868]

Huw Irranca-Davies: We believe that the market must determine prices. The setting of milk prices is a commercial matter to be resolved by private negotiation which should take place within the parameters set by competition law.

Through the Dairy Supply Chain Forum, we are working with industry to highlight challenges currently facing the sector. To this end, DEFRA will be chairing a new Horizon Scanning working group where we will work in collaboration with industry to address these challenges.

Dogs: Tagging

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals for *(a)* the compulsory microchipping of dogs and *(b)* the establishment of a central database of dog owners in the United Kingdom; what recent representations he has received on the issue; what discussions he has had with stakeholders on the issue since July 2008; and if he will make a statement. [290629]

Huw Irranca-Davies: The Dog Identification Group (DIG) recommended in its 2000 report that a voluntary scheme for the permanent identification of dogs be introduced. Since the DIG report, there has been an increase in voluntary dog registration. At the forefront of this is Petlog which is the largest pet reunification service in the UK. It manages a database of over 3,500,000 records. This is on hand 24 hours a day to authorised bodies such as animal wardens or animal welfare centres, who can scan the chips in found animals and trace their owners via the Petlog database. Today up to 40-50 per cent. of dogs are registered on the Petlog system.

We have no plans to make microchipping compulsory. We have received around 20 letters so far in 2009 on the subject of microchipping, and microchipping was discussed with representatives of the Dogs Trust in July this year.

Fishing Vessels: Decommissioning

Mr. McGrady: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to introduce a fishing vessel decommissioning scheme; and if he will make a statement. [290682]

Huw Irranca-Davies: There are currently no plans to introduce a fishing vessel decommissioning scheme.

Gangmasters

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to protect the employment rights of vulnerable workers employed through gangmasters. [290948]

Huw Irranca-Davies: The Government set up the Gangmasters Licensing Authority in 2005 to safeguard the welfare and rights of vulnerable workers employed in the agriculture, food processing and shellfish sectors, where gangmasters traditionally operate. The Gangmasters Licensing Act introduced compulsory licensing for anyone who supplies workers to do work in these sectors, and makes it an offence to operate as an unlicensed gangmaster or knowingly to enter into an arrangement with an unlicensed gangmaster. In order to obtain a gangmasters licence, a gangmaster must be considered to act in a fit and proper manner and must meet strict conditions, such as meeting correct payments for minimum wage, tax, national insurance, and health and safety requirements.

Following the recommendations of the Vulnerable Worker Forum in 2008, the Government have also put together a package of key measures to protect all vulnerable workers, including those employed by gangmasters. These measures include:

A sustained, three year, Government-led campaign to raise vulnerable workers' awareness of basic employment rights and encourage the reporting of workplace abuses.

The establishment of the new Pay and Work Rights line, through which vulnerable workers (and employers) will be able to report abuses and access information and advice about the rights enforced by Government.

The establishment of a Fair Employment Enforcement Board bringing together enforcement bodies and external stakeholders to drive forward improvements in support for vulnerable workers.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to extend the remit of the Gangmasters Licensing Authority; and if the Minister will make a statement. [290949]

Huw Irranca-Davies: The extension of gangmaster licensing to other sectors of the economy was considered by the Vulnerable Worker Enforcement Forum in 2008. However, the Government concluded that the way forward was to prioritise effective enforcement of the existing law, not to introduce new regulation. We are doing this through a campaign to raise workers' awareness of employment rights, including the establishment of the new Pay and Work Rights Helpline, which provides workers with a single point of contact covering five different enforcement agencies, and by strengthening the Employment Agency Standards Inspectorate which regulates agencies in sectors not covered by the Gangmasters Licensing Authority.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to remove unlicensed gangmasters. [290950]

Huw Irranca-Davies: Under the Gangmasters Licensing Act it is an offence to operate as an unlicensed gangmaster, which, upon conviction, can result in punishment of up to 10 years' imprisonment, a fine or both. The Gangmasters Licensing Authority (GLA) is responsible for enforcing the Act on behalf of Government, and now that it has moved on from its initial set up phase, the GLA is concentrating its resources on tackling those who operate outside the law. Operation Ajax was launched by the GLA in May 2008. This is a UK wide initiative to stamp out worker abuse by labour providers operating in the GLA sectors. Operation Ajax provides the brand under which the GLA undertakes individual enforcement and compliance operations against illegal and non-compliant labour providers. This type of approach is already used by other enforcement agencies to tackle criminality.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the likely effects of the recession on the number of unlicensed gangmasters. [290951]

Huw Irranca-Davies: There has not been any specific assessment of the impact of the recession on the number of unlicensed gangmasters, but the Government recognise that difficult trading conditions might tempt employers to cut corners by operating without a licence, or otherwise maximise profits at the expense of their work force. With this in mind, the Government have recently reviewed the funding available to the GLA and have agreed additional amounts for this year and next, specifically to cover enforcement and operational activities. This will enable the GLA to recruit additional enforcement officers to target the areas where vulnerable workers are most at risk from unlicensed labour providers.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how many gangmasters have been prosecuted by the Gangmasters Licensing Authority since its establishment. [290952]

Huw Irranca-Davies: The Gangmasters Licensing Authority (GLA) has carried out three successful prosecutions all for operating as a gangmaster without a licence. In May 2008, a labour provider from Perth in Scotland was sentenced to 18 months probation and 140 hours community service. In May 2009, an Edinburgh recruitment firm was given a fine of £200[1]. On 1 September 2009, a Gangmaster based in the Morecambe Bay area, operating in shellfish gathering, was ordered to pay a fine of £600 and costs of £4,000.

There are a further four cases pending that have entered the court system:

one in relation to operating as an unlicensed gangmaster;

two in relation to using the services of an unlicensed gangmaster; and

one in relation to obstruction of GLA officers.

[1] Figures provided by the GLA

Geomatics Group

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what contracts the Environment Agency's Geomatics Group has with local authorities. [290832]

Huw Irranca-Davies: The Geomatics Group undertakes commercial contracts for a range of external clients including local authorities. The names of contracting organisations are commercially confidential.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what the Environment Agency's Geomatics Group's public task is. [290833]

Huw Irranca-Davies: The Geomatics Group is a specialist business unit within the Environment Agency that supplies high quality, geospatial data and customised services to the Environment Agency, Government agencies, non-governmental organisations and the commercial market.

Its range of products can be used in a wide variety of geospatial applications including:

Environmental management (flood risk modelling, coastal erosion, risk assessment, vegetation monitoring);

Local planning applications;

Risk and crisis management (emergency flood response);

Infrastructure site selection (wind farm, utilities);

Archaeology and national heritage;

Thermal heat loss surveying;

Urban visualisation;

Reservoir assessment;

Forestry and farming.

The group is reinforcing the work the Environment Agency is currently undertaking to identify and evaluate areas at risk from flooding across England and Wales. By identifying drainage patterns and water flow, it will help predict which areas and structures are most at risk from flooding in different weather conditions.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed in the Environment Agency's Geomatics Group. [290834]

Huw Irranca-Davies: The Geomatics Group within the Environment Agency employs a total of 40 staff.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the *(a)* turnover and *(b)* profit of the Environment Agency's Geomatics Group in 2009-2010. [290835]

Huw Irranca-Davies: The expected total turnover of the Geomatics Group for 2009-10 is £4,482,000. This includes work undertaken for the Environment Agency.

Geomatics Group makes no profit from work undertaken for the Environment Agency and the level of profit on work undertaken for external customers is commercially confidential.

River Thames: Pollution

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the level of risk to the health and safety of swimmers and boaters from the discharge of sewage into the Thames in the area of Mogden, Isleworth on 3 July 2009. [288785]

Huw Irranca-Davies: The Environment Agency manages the chemical environmental quality of the upper Thames estuary; there are no stipulated microbiological standards that are applied in the upper reaches.

Water quality assessment is based on the level of dissolved oxygen in the river which is important for protecting fish in the estuary.

Matters relating to public health are directed to the London Port Health Authority which provides advice and guidance on river usage involving public contact with water.

As part of the Environment Agency's protocol for managing pollution incidents on the Thames estuary, the London Port Health Authority is routinely informed of significant sewage-related incidents. This is to ensure that any necessary precautionary information can be made available to the public and this was the case in this incident.

There are no designated bathing waters that would have been affected by the discharges from the locations in west London.

Shellfish: Colchester

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects a decision to be made on the application of protected geographic indicator status to the Colchester oyster; and if he will make a statement. [290738]

Huw Irranca-Davies: The application to register the Colchester Native Oyster, first received in 2005, had a number of objections received during the consultation process.

Officials subsequently met with representatives of the applicant group in May 2007 to discuss the objections and outstanding points relating to the product specification for the application. Further information relating to the geographical area and other aspects of the application was sought from the applicant group which, despite numerous and regular reminders from officials, has not been forthcoming.

As a result, it has not been possible to complete our assessment of the validity of the application for protected geographical indication status for the Colchester Native Oyster. Although the scheme is a voluntary one, we will continue to pursue this with the applicant group.

Water Charges

Mr. Burns: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to assist voluntary groups, churches and charities affected by introduction of charges for surface water drainage. [290715]

Huw Irranca-Davies: I attended the meeting of the All Party Scout Group on 15 July and promised the cubs and scouts that this issue will be resolved. We are currently waiting to see revised proposals from United Utilities on what it is proposing for 2010-11 and beyond. I expect companies and the regulator to settle this in a way that is fair and reasonable and reflects Government guidance to Ofwat.

Weedkillers

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with *(a)* representatives of Dow AgroScience Ltd. and *(b)* the Chemical Regulations Directorate on the relicensing of the herbicide aminopyralid; and if he will make a statement. [290689]

Huw Irranca-Davies: There have been no discussions with Dow Agrosciences Ltd. on this matter that have involved DEFRA Ministers. We have frequent discussions with the HSE's Chemicals Regulation Directorate, which is the part of central Government responsible for the regulation of pesticides, detergents, chemicals, on behalf of DEFRA Ministers.

We are currently considering the advice from the Advisory Committee on Pesticides that approvals for aminopyralid could be reinstated subject to various conditions.

NORTHERN IRELAND

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland with reference to the answer of 25 November 2008, *Official Report*, column 1566W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289166]

Mr. Woodward: The following table shows expenditure by the Northern Ireland Office (NIO), including the Public Prosecution Service Northern Ireland and its agencies but excluding its NDPBs, on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008:

	Flat Screen Televisions	*DVD Players*	*Stereo Equipment*
NIO Core	3,848	1,947	0
Compensation Agency	0	20	0
Youth Justice Agency	2,413	2,008	375
Forensic Science NI	0	0	0

Northern Ireland Prison Service

For this agency, the details requested could only be provided at disproportionate cost.

All expenditure has to be incurred in accordance with the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

Departmental Marketing

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on branded stationery and gifts for *(a)* internal and *(b)* external promotional use in each of the last five years. [287481]

Mr. Woodward: The costs requested for the Northern Ireland Office, including the Public Prosecution Service Northern Ireland but excluding its Agencies and Executive NDPBs, in each of the last five years, are shown in the following table.

	Internal (£)	*External (£)*
2004-05	Nil	841
2005-06	318	26,149
2006-07	Nil	22,046
2007-08	665	23,868
2008-09	275	26,613

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Northern Ireland how much his Department spent on Royal Mail services in each of the last two years. [288737]

Mr. Woodward: The following table shows how much the Northern Ireland Office, including the Public Prosecution Service Northern Ireland, but excluding its Agencies and Executive NDPBs, spent using Royal Mail in each of the last two years.

	Expenditure (£)
2007-08	£66,473
2008-09	£161,125

These figures exclude companies who operate franking machines and may make payments to Royal Mail. The £95,000 increase from 2007-08 to 2008-09 relates to an increase from £32,000 in 2007-08 to £81,000 in 2008-09 by the Chief Electoral Office due to the European elections and an increase from £371,000 in 2007-08 to £49,000 in 2008-09 by Access NI resulting from their first full operating year.

Departmental Training

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on health and safety training for its staff in each of the last five years. [287478]

Mr. Woodward: Expenditure by the Northern Ireland Office, including the Public Prosecution Service Northern Ireland, its agencies and NDPBs on health and safety training for its staff in each of the last five years is shown in the following table.

	£
2008-09	17,870
2007-08	6,000
2006-07	6,000
2005-06	8,170
2004-05	0

The increase in expenditure in 2008-09 relates to the provision of health and safety e-learning to all members of staff.

Mass Media

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much his Department spent on press monitoring in each of the last five years. [287474]

Mr. Woodward: The Northern Ireland Office has an in-house media monitoring service to meet the needs of Ministers and senior officials within the Department. It also provides its media monitoring services to Ministers and officials in the devolved Administration and a number of external public sector stakeholders.

Costs for this service in each of the last five years are detailed in the following tables and broken down into both equipment and staff costs. Equipment costs are all the costs associated with press monitoring for example televisions, DVD recorders, DVD discs, tapes, radios and transcribers.

The Department recoups a percentage of its running costs by passing on a small charge to its clients.

Equipment costs

	£
2004-05	14,052.15
2005-06	2,397.76
2006-07	1,682.94
2007-08	6,080.04
2008-09	2,957.14

Staff costs

Currently there are four members of staff employed in the Media Monitoring Unit and a further five typists to transcribe media monitoring requests. Staffing numbers have fluctuated over this period. I have provided the average salary costs for each team in each of the last five years:

		£
	Media Monitoring Unit	Typing Pool
2004-05	70,000	69,000
2005-06	70,200	72,000
2006-07	79,000	79,000
2007-08	69,000	79,000
2008-09	62,000	82,000

Police Community Support Officers

Mr. McGrady: To ask the Secretary of State for Northern Ireland (1) what steps he plans to take to enable the Police Service of Northern Ireland to recruit police community support officers; [290680]

(2) what assessment he has made of the likely effectiveness of the deployment of police community support officers in Northern Ireland; and if he will make a statement. [290681]

Paul Goggins: The PSNI is committed to working with the community to deliver an effective, efficient and impartial policing service. The Chief Constable, Northern Ireland Policing Board and I are all agreed that police community support officers have an important role to play alongside police and other support staff in making communities safer and providing public reassurance on areas of local concern.

The Police Service of Northern Ireland has received a resource allocation in excess of £1.1 billion for each of the three years of the Comprehensive Spending Review (CSR07). The timing of the introduction of PCSOs is a matter for the Chief Constable to consider, in consultation with the Policing Board.

Young Offenders

Mark Durkan: To ask the Secretary of State for Northern Ireland how many juveniles detained in custody in the *(a)* Juvenile Justice Centre and *(b)* Young Offenders Centre in each of the last 10 years had been resident in care homes prior to their detention. [288382]

Paul Goggins: The information requested in *(a)* is set out in the table. Figures for 2009 are not yet available.

(a) Initial admissions to custody by care comparison for the Juvenile Justice Centre

	2004	2005	2006	2007	2008
Admission on Sentence					
From Care	6	12	11	7	3
Not from Care	21	14	17	14	13
Not known	—	—	—	—	—
Admission on Remand					
From Care	36	55	44	47	17
Not from Care	62	93	84	128	100

(a) Initial admissions to custody by care comparison for the Juvenile Justice Centre

	2004	2005	2006	2007	2008
Not known	—	2	5	—	2
Admission on PACE					
From Care	65	40	62	49	28
Not from Care	112	84	104	110	90
Not known	4	6	9	—	1
Total initial admissions					
From Care	107	107	117	103	48
Not from Care	195	191	205	252	203
Not known	4	8	14	—	3
Percentage from Care	35.0	35.0	34.8	29.0	18.9

Notes:
1. The Youth Justice Agency was established in April 2003 and data prior to this are not readily available. The above figures represent full calendar years.
2. Initial admissions are for new admissions into the centre. It does not include any internal change of status, e.g. remand to sentence. A young person may be admitted to the centre on more than one occasion during the timeframe.
3. Figures are based on young people who are in a care home at time of admission.
4. Information is drawn from operational data sources which are inherently difficult to validate.

The information requested in *(b)* is not held. Hydebank Wood juvenile committals over the last 10 years total in excess of 900. The centre does not routinely capture details of pre-detention care home accommodation. To source the information requested would incur disproportionate cost.

TREASURY

Banks: Directors

Harry Cohen: To ask the Chancellor of the Exchequer with reference to Sir David Walker's report on bank corporate governance, what his policy is on the appointment of a proportion of non-executive directors of financial institutions by organisations other than those on whose board they serve. [290838]

Sarah McCarthy-Fry: Appointments to boards of companies are a matter for the companies and their shareholders in line with the statutory framework. The Combined Code on Corporate Governance sets out information on the role of the board and directors and stipulates that board appointments should be made on merit and against objective criteria.

The function of non-executive directors in banks and other financial institutions is being considered by Sir David Walker as part of his review of corporate governance. Sir David published his consultation paper on 16 July and is inviting comments by 1 October with a view to reporting to the Government in November. The Government welcomed Sir David's consultation paper and looks forward to receiving his final conclusions.

Banks: Finance

Mr. Meacher: To ask the Chancellor of the Exchequer how much has been spent from the public purse in each cost category on support for UK banks in each month since August 2007. [290621]

Sarah McCarthy-Fry: The Treasury does not publish breakdown of financial support provided to banks other than on a financial year basis. Details of the financial support provided to UK banks for the years 2007-08 and 2008-09 are set out in the Treasury's Resource Accounts for 2007-08 (HC 539) and 2008-09 (HC 611), respectively.

Capital Gains Tax: Second Homes

Mr. Ellwood: To ask the Chancellor of the Exchequer what plans he has to change tax arrangements for second homes from 2010; whether he plans to undertake a consultation on such arrangements; and if he will make a statement. [290775]

Mr. Timms: Tax policy changes are considered through the Budget process in the usual way. The Government consider a range of factors when formulating tax policy and keep all aspects of the tax system under review.

Equitable Life Assurance Society: Compensation

Mr. Brady: To ask the Chancellor of the Exchequer pursuant to the oral answer of 21 July 2009, *Official Report*, column 756, on Equitable Life, what further consideration has been given to introducing interim emergency payments on compassionate grounds to Equitable Life policyholders; and what recent discussions his Department has had with Sir John Chadwick on this matter. [290744]

Mr. Byrne: Sir John is making good progress with his work. The Government regularly discuss this with him and provides updates to the House and the public accordingly.

Both Sir John and Government recognise the need to reach a conclusion on this matter with expedition, while balancing speed against the need to come to the right conclusions that deliver justice to policyholders based upon the findings of the Ombudsman's report that the Government have accepted.

At this stage, no decisions can be taken upon the nature of ex gratia payments. In the meantime, the Government await the presentation of Sir John's advice, to which it will of course give due consideration and respond accordingly as to the nature of the ex gratia payments scheme.

I can confirm that we have drawn to Sir John Chadwick's attention your interest in making interim payments and, as I have already said, the need to reach a conclusion on the matter of Equitable Life as soon as possible is recognised.

Housing: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer how many properties are recorded with each *(a)* dwellinghouse code and *(b)* value significant code in each local authority area in Brentwood according to electronic records held by the Valuation Office Agency. [290808]

Mr. Timms: The number of properties with the codes requested as at 2 January 2009 is:

(a) Dwelling house Codes in Brentwood

Income Tax

Mr. Vara: To ask the Chancellor of the Exchequer what the total income tax take from residents of *(a)* each local authority area and *(b)* each parliamentary constituency in England was in each of the last 10 years. [290864]

Mr. Timms: Information on income tax revenues by unitary authority from 1999-2000 and parliamentary constituency from 2002-03 can be found in tables 3.14 "Income and tax by borough and district or unitary authority" and 3.15 "Income and tax by Parliamentary Constituency" in the National Statistics section of HM Revenue and Customs' (HMRC) website respectively, available at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314.

Estimates for earlier periods are not available. Estimates are based on the Survey of Personal Incomes, of which 2006-07 is currently the latest available.

Any inference from the information in tables 3.14 and 3.15 should take into account the confidence intervals in table 3.14a "income and tax by borough and district or unitary authority, Confidence Intervals" and table 3.15a "Income and tax by Parliamentary Constituency, Confidence Intervals", also available at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314.

Interest Rates: Credit Cards

Mr. Morley: To ask the Chancellor of the Exchequer what steps he is taking to ensure that financial services providers reflect the Bank of England base interest rate in the interest rates offered on credit cards. [289215]

Kevin Brennan: I have been asked to reply.

The Government fully understand concerns over interest rates charged by some credit card lenders. In December last year the Government took decisive action to secure agreement from the credit card industry to Fair Principles for any interest rate increase they introduce on reviewing an individual's account. These came into force in January 2009, and provide extra protections when a customer or group of customers' interest rate is changed as a result of a perceived change in their ability to repay their debts.

On the 2 July Government published the Consumer White Paper detailing plans to bring forth a review of credit and store card regulation. The review will examine whether restrictions should be placed on the raising of interest rates on existing debts.

The review will also explore if minimum monthly repayments should be raised to combat debt levels, it will also look at the benefits and risks of banning the practice of increasing borrowers credit limits without their consent, and what order debts built up on a credit card should be paid off. We intend to publish a consultation in the autumn and report our findings in the new year.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 21 July 2009 from the right hon. Member for Manchester, Gorton with regard to Mrs. Florence Gadjui. [290645]

Mr. Timms: I have replied to the right hon. Member.

Pay

Lynne Jones: To ask the Chancellor of the Exchequer if he will make it his policy to establish a commission to examine high levels of remuneration; and if he will make a statement. [290628]

Sarah McCarthy-Fry: The Government have a role to play in preventing undesirable practices which encourage excessive risk-taking such as remuneration policies in the banking sector. However, in general, private sector remuneration arrangements are a matter for employers, employees and shareholders to agree.

Payments Council

Mr. Breed: To ask the Chancellor of the Exchequer what recent discussions he has had with the Payments Council on the phasing out of cheques as a method of payment; and if he will make a statement. [290829]

Sarah McCarthy-Fry: The National Payments Council are not considering phasing out cheques as a method of payment, but only whether it would be sensible to set a long-term date for closing the use of a cheque clearing system.

In the National Payments Plan, the Payments Council committed to conducting initial research and analysis into the future of cheques as a method of payment, with the aims of:

understanding the barriers to cheque substitution;

identifying the areas where work is needed on acceptable alternatives to cheques; and,

clarifying where more education is needed on existing alternatives.

The Payments Council is committed to being open and transparent in its review of the future of the cheque clearing and even if a timescale were to be set, various milestones would need to be agreed and delivered before any final decision would be taken to irrevocably close cheque operations.

Protection of Trading Interests Act 1980

Jo Swinson: To ask the Chancellor of the Exchequer what recent assessment he has made of the effectiveness of the Protection of Trading Interests Act 1980. [288275]

Mr. McFadden: I have been asked to reply.

The Government have not recently made any such assessment.

State Retirement Pensions

Steve Webb: To ask the Chancellor of the Exchequer pursuant to the answer of 2 March 2009, *Official Report*, column 1309W, on state retirement pensions, how many *(a)* men and *(b)* women who reached state pension age between 6 April 2008 and 5 April 2009 have taken up the option of buying back one or more years of class 3 national insurance contributions under the measures contained in the Pensions Act 2008 to date; and how much has been paid back in contributions by such individuals to date. [290880]

Mr. Timms: The number of people who reached state pension age between 6 April 2008 and 5 April 2009 and have taken up the option of buying back one or more years of class 3 national insurance contributions under the measure introduced by the Pensions Act 2008 is *(a)* 21 men and *(b)* 204 women. National insurance contributions of £37,682.20 were paid by the men and £343,571.90 by the women.

Tax Credit

Mr. Vara: To ask the Chancellor of the Exchequer how much was paid in tax credits to residents of *(a)* each local authority area and *(b)* each parliamentary constituency in England in each of the last 10 years. [290865]

Mr. Timms: Child and working tax credit were introduced in April 2003 when they replaced working families' tax credit, disabled person's tax credit and children's tax credit.

Estimates of expenditure on tax credits at local authority and parliamentary constituency level are available only at disproportionate cost because the necessary expenditure data are not readily available on a geographical basis.

Estimates of the average number of recipient families and their entitlements (as opposed to payments) to tax credits, by local authority and parliamentary constituency, for each year between 2003-04 and 2007-08, are available in the HM Revenue and Customs (HMRC) publications "Child and Working Tax Credits Statistics Finalised Annual Awards. Geographical Analyses", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

The same information for 2008-09 is not yet available as awards have not yet been finalised. However, estimates of the number of recipient families with tax credits, based on provisional awards, as at 1 April 2009, are available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical analyses. April 2009", available at the same internet address.

Estimates of the number of working families' tax credit and disabled person's tax credit recipients, and the average weekly value of awards, from May 2001 to November 2002 are available at:

http://www.hmrc.gov.uk/stats/wftc/wfdptc_geog.htm

Estimates prior to May 2001 are not available. Similarly estimates are not available for children's tax credit.

Taxation: Gambling

Mr. Ellwood: To ask the Chancellor of the Exchequer what assessment he has made of the likely effects on the Exchequer of the decisions by William Hill and Ladbrokes to relocate their betting operations from the UK to Gibraltar. [290758]

Sarah McCarthy-Fry: General betting duty is charged at 15 per cent. of the gross profit of UK bookmakers. Bookmakers' profits include profits from "over the counter" placed bets and remotely taken Internet and telephone placed bets.

HMRC do not break down general betting duty receipts into these component parts, and cannot release taxpayer specific data while maintaining taxpayer confidentiality.

UK Financial Investments

Mr. Dai Davies: To ask the Chancellor of the Exchequer what reason was given by John Kingman for his resignation as Chief Executive of UK Financial Investments Ltd. [290925]

Sarah McCarthy-Fry: Forthcoming leadership changes at UK Financial Investment Ltd were set out in a press release on 28 July which can be accessed via the UKFI website:

http://www.ukfi.gov.uk/releases/20090728%20UKFI%20Chair%20PN.pdf

CHILDREN, SCHOOLS AND FAMILIES

Academies Enterprise Trust

Bob Russell: To ask the Secretary of State for Children, Schools and Families (1) what funding his Department has provided for the Academies Enterprise Trust in each year since the Trust was established; [290739]

(2) which schools in *(a)* Essex and *(b)* elsewhere have been transferred to the Academies Enterprise Trust to date; on what date each such transfer took place; how much funding was provided to each school upon transfer; and from what sources such funding was drawn. [290740]

Mr. Coaker: The following schools in Essex have been transferred to the Academies Enterprise Trust. No schools elsewhere have been transferred.

In September 2008: The Rickstones School became Rickstones Academy, Greensward College became Greensward Academy and the John Bramston School became the Maltings Academy. In September 2009, Bishops Park College and Colbuyns High School became Clacton Coastal Academy.

The funding in the table was provided in respect of academies which constitute the Academies Enterprise Trust. The source of all funding is the Department for Children, Schools and Families.

Total in respect of all academies within the Academies Enterprise Trust

Development funding provided prior to the academies opening	£
2008/09	2,838,314
2009/10	409,542

Funding provided once the academies were open	*2008/09*	*2009/10*
	£	£
Greensward Academy	9,021,118	7,874,024
Maltings Academy	6,258,017	5,679,145
New Rickstones Academy	5,459,257	4,830,734
Clacton Coastal Academy	0	11,191,473

Bob Russell: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the *(a)* accounts and *(b)* annual reports provided to his Department by the Academies Enterprise Trust for each year of the Trust's existence. [290741]

Mr. Coaker: We have not yet received any accounts or annual reports from the Academies Enterprises Trust.

The Academies Enterprises Trust comprises Greensward Academy, Maltings Academy and New Rickstones Academy, which opened in September 2008 and Clacton Coast which opened in September 2009. For the Academies that opened in 2008, their first annual report and accounts will cover the period 1 September 2008 to 31 August 2009. The Trust would then have until 31 December 2009 to get their audited accounts to us. For the Clacton Coastal Academy, audited accounts are due to be with us by 31 December 2010.

Once finalised, the accounts will be in the public domain and will be published on the Charities Commission's website.

Faith Schools

Dr. Evan Harris: To ask the Secretary of State for Children, Schools and Families whether teachers can be dismissed for conduct incompatible with the tenets of the religious denomination specified in relation to voluntary-aided schools with a religious character. [290664]

Mr. Coaker: Voluntary-aided schools with a religious character do have the ability to have regard to the conduct of a teacher which is incompatible with the tenets of the religion of the school when considering the termination of employment of any teacher.

I firmly believe and trust in the professionalism of our head teachers and in the skill and abilities of governing bodies across the country to ensure that they conduct the employment process fairly and in line with relevant legislation.

Dr. Evan Harris: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of whether religious education in voluntary-aided schools with a religious character can be given in accordance with the tenets of the religion or the religious denomination specified in relation to the school by teachers who are not of that religion; [290667]

(2) what assessment he has made of whether religious education in voluntary-aided schools with a religious character can be given by teachers who do not share the same faith as the religion or the religious denomination specified in relation to the school. [290668]

Mr. Coaker: The choice of who delivers religious education (and any other subject) in voluntary aided schools is a matter for local determination. Head teachers and governing bodies in voluntary aided schools will judge the appropriateness or otherwise of individuals who teach, or are seeking an appointment to teach, religious education in their schools. The law maintains that preference may be given to those of the faith but it is not implicit that only those of the faith may teach RE.

Free School Meals

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many children in *(a)* York, *(b)* North Yorkshire, *(c)* Yorkshire and the Humber and *(d)* England have received free school meals in each year since 1979. [290654]

Ms Diana R. Johnson: Information is collected on both free school meal eligibility and the number of pupils actually taking a free school meal on the day of the School Census. Most data analysis is based on eligibility which has only been collected since 1997. The number of pupils taking free school meals has been collected since 1989. The readily available information for these years is shown in the following table.

Maintained nursery, maintained primary[1] and secondary schools[1,2]: pupils[3] eligible for free school meals as at January each year in England, Yorkshire and the Humber Government Office Region, York local authority and North Yorkshire local authority.

		Nursery and Primary Schools[1]					*Secondary Schools[1,2]*

School Census.

GCE A-Level

Mr. Brady: To ask the Secretary of State for Children, Schools and Families what percentage of A-Levels in *(a)* chemistry, *(b)* physics, *(c)* mathematics and *(d)* modern languages were awarded to pupils at (i) grammar schools, (ii) comprehensive schools, (iii) sixth form colleges and (iv) independent schools in the 2008-09 academic year. [290747]

Mr. Iain Wright: The information requested is not yet available. The data will only be available for release after the publication of a Statistical First Release planned for 15 October 2009.

Pupils: Sunscreens

Mr. Bruce George: To ask the Secretary of State for Children, Schools and Families (1) if he will undertake a review of the guidance provided to schools on the application of sunscreen products to pupils for the purpose of revising that guidance to permit children to apply such products; [290674]

(2) if he will issue guidance to schools on the use of sunscreen products by schoolchildren involved in outdoor activity during the summer months. [290675]

Ms Diana R. Johnson: We have no current guidance specifically on applying sunscreen and none is envisaged. But we would not advise against pupils bringing and

applying their own sunscreen in-school or during offsite visits. It is for local authorities and governing bodies to formulate their own policies. These should state the school position on the use of sunscreens in the school grounds and farther afield when learning outside the classroom. Teachers and other support staff are not legally obliged to administer sunscreens. That said, schools discharge their duty of care by ensuring that children are not exposed overmuch to the sun in any event.

It is good practice for teachers and support staff to check that pupils, while playing or learning in the sunshine, are protected against the risk of sunburn—by appropriate clothing and hats as well as sunscreen applied at home or in school—and that they spend time in the shade as necessary.

Schools: Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families with reference to Table 8.4 of his Department's Annual Report 2009, pages 175-6, which individual programmes and corresponding allocations are aggregated as *(a)* specialist schools/city and national challenge/ interventions, *(b)* national strategies/curriculum/ behaviour/gifted and talented, *(c)* other miscellaneous programmes, *(d)* area based grants and *(e)* modernising the teaching profession for 2010-11. [290710]

Ms Diana R. Johnson: The Department's programmes shown aggregated in DCSF's Departmental Annual Report 2009 for the year 2010-11 are provided in the following table:

Departmental report allocation	*£ million 2010-11*
(a) Specialist Schools/City and National Challenge/ Interventions

	£ million
(b) Targeted programmes (2010-11)	
Targeted Capital Fund—Standards Music	4
Devolved Formula Capital—Voluntary Aided	22
TCF—Standard Funds	718
Total	744
(c) Credit approvals (schools credit approvals to LA)	545

Schools: Nottinghamshire

John Mann: To ask the Secretary of State for Children, Schools and Families what recent representations he has received from Nottinghamshire County Council on the future of three to 18 schools in Nottinghamshire. [290861]

Ms Diana R. Johnson: None. The planning of education provision in an area is the responsibility of the local authority (LA). Where LAs propose to make changes to local school provision, including closures, opening new schools and other alterations, they must follow a statutory process, which includes consultation with all those likely to be affected by the proposals. These are then decided under established local decision making arrangements. Ministers have no direct role in the process.

Schools: Transport

Hugh Bayley: To ask the Secretary of State for Children, Schools and Families how many children in *(a)* York, *(b)* North Yorkshire, *(c)* Yorkshire and the Humber and *(d)* England have received assistance with the cost of travel to school in each year since 1979. [290653]

Ms Diana R. Johnson: The Department does not collect information on the number of children who receive assistance with the cost of travel to school.

John Mann: To ask the Secretary of State for Children, Schools and Families what estimate his Department has made of the average distance travelled to school by secondary school pupils using school buses to reach their catchment area school. [290862]

Ms Diana R. Johnson: The Department does not collect information on the average distance travelled by secondary school pupils using school buses to reach their school.

Secondary Education: Standards

John Mann: To ask the Secretary of State for Children, Schools and Families what the most recent value added score of each maintained secondary school in England is. [290854]

Mr. Iain Wright: The Department's standard measure for progress between Key Stage 2 and Key Stage 4 is Contextual Value Added.

The CVA measure is a statistical means of assessing the relative effectiveness of a school and of measuring pupil progress. It shows how a school's results compare with the results achieved by similar pupils in other schools.

A school level CVA measure must always be interpreted alongside the confidence intervals (CI). Schools where the lower CI is above 1,000 represent schools where pupils on average made significantly more progress than pupils nationally, while schools where the upper CI is below 1,000 represent schools where pupils made significantly less progress.

Further information on CVA can be found at:

http://www.dcsf.gov.uk/performancetables/schools 08/s3.shtml

Figures for individual schools in 2008 are available on the departmental website:

http://www.dcsf.gov.uk/performancetables/schools 08.shtml

Figures for all schools in 2008 are available in a publication file that has been added to the House Libraries. Note that this file contains independent schools as well as maintained schools.

CABINET OFFICE

10 Downing Street: Repairs and Maintenance

Mr. Pickles: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Ruislip-Northwood of 27 January 2009, *Official Report*, column 467W, on 10 Downing Street: repairs and maintenance, how much has been spent in the last 24 months on the refurbishment of lavatories in 10 Downing Street. [290809]

Angela E. Smith: Information on capital expenditure in 2007-08 and 2008-09 on improving Cabinet Office buildings, including the Downing street estate are included in the annual Cabinet Office resource accounts. Copies are available in the Library of the House.

Capacitybuilders

Mr. Maude: To ask the Minister for the Cabinet Office what the names are of the members of the selection panel for the Capacitybuilders Campaigning Research Programme fund. [290701]

Angela E. Smith: The members of the selection panel are: Angela Sarkis (chair on panel, member of Capacitybuilders Board), Titus Alexander (Novas Scarman), Rachael Stokes (NCVO) and Jessica Ellis (Capacitybuilders)

The panel have short listed 49 organisations at this stage in the process.

As this is an action research programme, short listing decisions were based largely on ensuring that the projects proceeding to the next stage of selection include a spread of; geographic location, the marginalised group which is the focus of the campaign, and the age, size and turnover of the nominated organisation. Not being short listed should in no way be seen as a judgment on the campaign's significance or potential.

The final programme will support up to 30 organisations through a package of grant funding, mentoring, peer support and training. The panel will meet again in October 2009 to make the final selection, which will again be based upon maintaining a diverse range of projects. Initial research findings will be available in spring 2010.

Census

Mr. Maude: To ask the Minister for the Cabinet Office what *(a)* questions and *(b)* answer categories (i) used in the 2001 Census and (ii) to be used in the 2011 Census were not included in the 1991 Census. [290699]

Angela E. Smith: The information requested falls within the responsibility of the UK statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, 8 September 2009:

As National Statistician I have been asked to reply to your recent question asking what *(a)* questions and *(b)* answer categories used in the (i) 2001 and (ii) 2011 Census were not included in the 1991 Census. (290699).

2001

The following were the questions and answer categories included in the 2001 Census that were not included in the 1991 Census:

(a) Questions

religion

general health

provision of unpaid care

time since last worked

type of landlord

whether schoolchild/student

lowest floor level of accommodation

size of workforce at place of work

(b) Answer categories

The format of the 2001 Census questionnaire was different in many ways from that used in the 1991 Census. For example, the Relationship question in 2001 had specific tick-boxes for each of the several types of relationship which in 1991 would have been recorded by the write-in facility under the category 'other relative'.

The ethnic group question was much expanded and included: specific response categories for 'British' and 'Irish' under the 'White' heading; three specific response tick-boxes under a new 'Mixed' heading; and write-in categories under each of the main headings.

The questions on educational and professional qualification were also expanded to include several specific tick-box categories rather than write-in responses.

Some slight changes were also made to the response categories in the questions on Marital status, Students term-time address, Usual address one year ago, Economic activity in the week before the census. Type of accommodation.

2011

The proposals for the 2011 Census have not yet been approved by Parliament. The draft Census Order which contains details of the questions to be asked in the 2011 Census is scheduled be laid before Parliament in October. The proposals for questions for the 2011 Census were set out in the White Paper Helping to shape tomorrow (Cm 7513) published and laid before Parliament on 11 December 2008, and which is available on the ONS website at:-

http://www.ons.gov.uk/census/2011-census/2011-census-project/legislation/index.html

The White Paper proposes new questions on Type of central heating, Number of bedrooms, National identity, Type of passport held, Date of entry into the UK and Intended length of stay (for non-UK born). Language and Second residence.

You may also be interested to see the questionnaire to be used for the 2009 Census Rehearsal on 11 October which is available on the ONS website at:-

http://www.ons.gov.uk/census/2011-census/2011-census-questionnaire-content/2009-rehearsal-questionnaire/index.html

If you would like a paper copy of the 1991 Census and 2001 Census questionnaires we would be happy to send them to you.

Death: Drugs

Jenny Willott: To ask the Minister for the Cabinet Office how many deaths attributed to the use of each illegal drug there have been in each region in each year since 2000; and if she will make a statement. [290826]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jill Matheson, dated 8 September 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths attributed to the use of each illegal drug there have been in each region in each year since 2000. (290826)

Drugs classified under the Misuse of Drugs Act (1971) are termed 'controlled substances', and unlawful possession of a controlled substance is illegal, as is possession with intent to supply. Lawful possession of a controlled substance would include when the drug was in the possession of a person it had been prescribed to. It is not possible to ascertain from information collected at death certification whether a drug was obtained lawfully or not.

The table attached provides the total number of drug misuse deaths, and the number of drug misuse deaths where selected controlled substances were mentioned on the death certificate, in each government office region in England from 2000 to 2008 (the latest year available).

There are over 400 controlled substances listed under the Misuse of Drugs Act (1971). Figures have been provided for those substances, or categories of substances, most commonly associated with drug misuse deaths.

Table 1. Numbers of deaths related to drug misuse,[1] and numbers of deaths related to drug misuse where selected controlled substances were mentioned on the death certificate,[2,3,4,5] government, office regions in England,[6] 2000-08[7]

Deaths (persons)

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the year 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) from 2001 onwards. Deaths were included where the underlying cause was due to drug poisoning (shown in Box 1 following) and where a drug controlled under the Misuse of Drugs Act 1971 was mentioned on the death certificate.

[2] Some deaths may be counted in more than one category. For example if heroin and cocaine are recorded on the death certificate, the death would be counted once under each substance. Where more than one drug is mentioned on the death certificate, it is not possible to tell which was primarily responsible for the death.

[3] Heroin breaks down in the body to morphine, and the latter may be detected at post mortem and recorded on the death certificate. Therefore, a combined figure for deaths where heroin or morphine was mentioned on the death certificate is given.

[4] The figures for deaths associated with cocaine include those associated with crack cocaine.

[5] The figure for all amphetamines includes deaths mentioning MDMA/Ecstasy.

[6] Based on boundaries as of 2009.

[7] Figures for deaths registered in 2008 are provisional.

Box 1

Description	*ICD-9*	*ICD-10*
Mental and behavioural disorders due to drug use (excluding alcohol and tobacco)	292, 304, 305.2—305.9	F11—F16, F18—F19
Accidental poisoning by drugs, medicaments and biological substances	E850—E858	X40—X44
Intentional self-poisoning by drugs, medicaments and biological substances	E950.0—E950.5	X60—X64
Assault by drugs, medicaments and biological substances	E962.0	X85
Poisoning by drugs, medicaments and biological substances, undetermined intent	E980.0—E980.5	Y10—Y14

Departmental Information and Communications Technology

Mr. Maude: To ask the Minister for the Cabinet Office with reference to page 204 of the Cabinet Office Annual Report and Resource Accounts 2008-09, HC 442, which information technology project was terminated; what the purpose was of that project; for what reasons that projects was terminated; and what her latest estimate is of the cost to the public purse of that project. [290919]

Tessa Jowell: The section of the Cabinet Office Annual Report and Resource Accounts 2008-09 referred to relates to the SCOPE Programme.

With regards to the purpose of the SCOPE Programme and the reasons for the termination of the SCOPE Phase 2 supply contract, I have nothing further to add to my written ministerial statement of 16 July 2009, *Official Report*, column 41WS.

In respect of information requested concerning the costs associated with the programme, I refer to the answer given to the hon. Member for Westbury (Dr. Murrison) on 20 March 2009, *Official Report*, column 1358W.

Employment

Mr. Clappison: To ask the Minister for the Cabinet Office how many and what proportion of *(a)* UK nationals, *(b)* UK-born people, *(c)* foreign nationals, *(d)* non-UK EU nationals, *(e)* EU A8 nationals and *(f)* non-EU nationals (i) aged over 16 and (ii) of working age were in employment in the UK in each of the last 12 quarters for which figures are available; and what the percentage change in each category was in each of the last four quarters. [290846]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated 8 September 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many and what proportion of (a) UK nationals, (b) UK-born people, (c) foreign nationals, (d) non-UK EU nationals, (e) EU A8 nationals and (f) non-EU nationals (i) aged over 16 and (ii) of working age were in employment in the UK in each of the last 12 quarters for which figures are available; and what the percentage change in each category was in each of the last four quarters. 290846

The available information requested is shown in the attached tables. The estimates are derived from the Labour Force Survey. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

The figures in the table are derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. They are not entirely consistent with the figures published in the monthly Labour Market Statistics Statistical Bulletin, which is weighted using more up-to-date population estimates.

Employment levels and rates of people of working age[1] in employment by nationality and country of birth, three month periods ending, March, June, September and December, 2006 to 2009, United Kingdom, not seasonally adjusted

[1] Men aged 16 to 64 and women aged 16 to 59.
[2] EU A8 comprises Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia.
[3] Coefficients of Variation have been calculated for the latest period as an indication of the quality of the estimates, as described below:
Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5 per cent. we would expect the population total to be within the range 180-220.
Key Coefficient of Variation (CV) (%) Statistical Robustness:
* 0 = CV≤ 5 Estimates are considered precise
** 5 = CV ≤ 10 Estimates are considered reasonably precise
*** 10 = CV ≤ 20 Estimates are considered acceptable
**** CV 20 Estimates are considered too unreliable for practical purposes
Note:
It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.).

Labour Force Survey

Government Departments: Buildings

Mr. Maude: To ask the Minister for the Cabinet Office with reference to page 191 of the Cabinet Office Annual Report and Resource Accounts 2008-09, HC 442, which Whitehall properties have been refurbished in the last 24 months. [290608]

Angela E. Smith: In the last 24 months the Cabinet Office has carried out refurbishment works on 70 Whitehall and the Downing street estate.

Lobbying

Mr. Maude: To ask the Minister for the Cabinet Office (1) pursuant to the answer to the hon. Member for Pendle of 22 April 2009, *Official Report*, column 694W, on lobbying, which interested parties the Government has consulted; and when the Government plan to respond to the report; [287287]

(2) what progress has been made in the Government's review of lobbying; when she plans to respond to the First Report of the Public Administration Committee of Session 2008-09 on Lobbying: access and influence in Whitehall; and if she will make a statement. [290700]

Angela E. Smith: The Government have consulted a range of interested parties, including practitioners and policy makers in the lobbying industry, the voluntary and charitable sector and the OECD. The Government plan to respond to the report from the Public Administration Select Committee on lobbying shortly.

New Businesses: Kent

Mr. Howard: To ask the Minister for the Cabinet Office what the rate of business start-ups in Folkestone and Hythe constituency has been in each quarter since January 2005. [290874]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated 8 September 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning what the business start-up rate in Folkestone and Hythe constituency was in each quarter from January 2005 to the most recent period for which figures are available. (290874).

Quarterly statistics on business start-ups are not available. Annual statistics on business births, deaths and survival are available from the ONS release on Business Demography at www.statistics.gov.uk. The table below contains the latest statistics available on business births for the constituency of Folkestone and Hythe.

Count of births and active enterprises for 2005-07

Folkestone and Hythe	Active	Births	Rate (percentage)
2005	3,440	455	13.2
2006	3,425	430	12.6
2007	3,595	483	13.5

Third Sector: Stoke on Trent

Joan Walley: To ask the Minister for the Cabinet Office what funding her Department has provided to third sector organisations in Stoke-on-Trent in 2009-10; what estimate she has made of the level of take-up of grants by voluntary organisations in Stoke-on-Trent; and if she will make a statement. [290815]

Angela E. Smith: So far in the financial year 2009-10 the Office of the Third Sector has allocated £3.51 million of funding to third sector organisations in Stoke-on-Trent. The following table gives a breakdown of funding by programme. Full details of the programmes listed can be found on the OTS website:

http://www.cabinetoffice.gov.uk/third_sector.aspx

As an indication of take up of grants by voluntary organisations in Stoke, in 2008-9, £128,888 was allocated to Stoke-on-Trent through the Grassroots Grants Programme, to be offered as grants of £250-£5,000 to small local organisations. This amount was fully dispersed to these small organisations.

Programme	Amount of funding for 2009-10 in Stoke-on-Trent (£)
Targeted Support Fund	333,722
Community Assets	1.98 million
Grassroots Grants	[a]up to 238,226.44
Modernisation Fund	[b]2,000
Futurebuilders	575,000
V	[c]393,500
Total	3.51 million

[a] This comprises £133,799.66 allocated to grants and up to £94,426.75 in endowment for the year 2009-10.
Note:
The Grassroots Grants programme is the only OTS programme that has funding ring fenced by top-tier local authority area.
[b] Grants have been provisionally awarded.
[c] £153,500 of this amount was awarded to an organisation covering Stoke-on-Trent and Staffordshire more widely.

Unemployment: Kent

Mr. Howard: To ask the Minister for the Cabinet Office (1) what the *(a)* rate and *(b)* percentage of youth unemployment in Folkestone and Hythe constituency has been in each quarter since January 2005; [290872]

(2) what the *(a)* rate and *(b)* percentage of economic inactivity in Folkestone and Hythe constituency has been in each quarter since January 2005. [290873]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated 8 September, 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking what the *(a)* rate and *(b)* percentage of youth unemployment in Folkestone and Hythe constituency was in each quarter from January 2005 to date; and what the *(a)* rate and *(b)* percentage of economic inactivity in Folkestone and Hythe constituency was in each quarter from January 2005 to date. (290872 and 290873)

The Office for National Statistics (ONS) compiles unemployment and inactivity statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions.

However, estimates of unemployment of 18-24 year olds resident in the Folkestone and Hythe constituency are not available. As an alternative in Table 1 we have provided the number and percentage of 18-24 year olds claiming Jobseeker's Allowance in each month since January 2005.

Table 2 shows the number and percentage of persons of working age who were economically inactive resident in the Folkestone and Hythe parliamentary constituency. The latest period for which data are available is January 2008 to December 2008.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Annual Population Survey

INTERNATIONAL DEVELOPMENT

Developing Countries: Forests

Harry Cohen: To ask the Secretary of State for International Development how much *(a)* direct and *(b)* indirect funding his Department has allocated for the purpose of reducing levels of deforestation in developing countries in the last five years; and whether projects funded by his Department for such purposes have involved the planting of trees. [285766]

Mr. Thomas: The Department for International Development (DFID) does not record expenditure on reducing deforestation or on the planting of trees. It uses the two categories of expenditure required by the Development Aid Committee of the Organisation for Economic Cooperation and Development (OECD): Forestry Policy and Administrative Management; and Forestry Development. Total bilateral expenditure incurred on forests in the last five financial years was:

£20.0 million in 2003-04;

£15.8 million in 2004-05;

£15.5 million in 2005-06;

£15.6 million in 2006-07; and

£7.4 million in 2007-08.

Since 2007-08 the following sums have been committed:

£10 million to the Congo Basin Forest Fund for start-up activities.

£50 million to the Congo Basin Forest Fund and £15 million to the Forest Carbon Partnership Facility, from the International Window of the Environmental Transformation Fund. In December 2008 it was announced that up to another £100 million would be made available for forests from the Environmental Transformation Fund.

£5 million for work by the Rights and Resources Initiative over a five-year period to help accelerate forest tenure, policy and market reforms.

£1.5 million to the National Forest Programme Facility over a three-year period.

£1.5 million to PROFOR (Programme on Forests of the World Bank) over a three-year period.

£1 million for work on an Economics of Climate Change Study and work on low carbon development in Brazil, some of which relates to forests.

Iraq: Overseas Aid

Harry Cohen: To ask the Secretary of State for International Development what funding for aid for Iraq has been *(a)* committed and *(b)* spent by his Department since 2003. [290839]

Mr. Michael Foster: The Department for International Development (DFID) publishes future programme allocations and out-turn expenditure figures each year in its Annul Report which is available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Sri Lanka: Humanitarian Aid

Mr. McGrady: To ask the Secretary of State for International Development what his most recent assessment is of the humanitarian situation in Sri Lanka; and if he will make a statement. [290679]

Mr. Michael Foster: Following the end of the conventional conflict between the Government of Sri Lanka and LTTE in May 2009, approximately 270,000 internally displaced people (IDP) are now in camps in the north and east of Sri Lanka. Our humanitarian advisor, based at the British High Commission in Colombo, last visited the camps on 26 August 2009. Conditions in the camps are basic but improving as needs for shelter, food, water and medicine are gradually being met. Access for humanitarian agencies is also improving. However, I remain concerned about: high malnutrition levels among sections of the IDP population, particularly children; the lack of freedom of movement and restrictions put on protection activities, including ensuring the safety of the IDP population; reuniting unaccompanied children with their families; and registration of the population as a whole.

The recent flooding in some of the camps following heavy rain highlights the importance of safely returning as many people as possible to their homes before the forthcoming monsoon season. I am encouraged that the Government of Sri Lanka has started the process and has so far returned 4,500 people to their communities of origin. However, much more needs to be done if the Government of Sri Lanka is to meet its own target of resettling the bulk of the IDPs before the end of the year.

WOMEN AND EQUALITY

Religion: Conditions of Employment

Dr. Evan Harris: To ask the Minister for Women and Equality what her policy is on *(a)* whether, in an organisation with a religious ethos, the need of the organisation to maintain such an ethos should constitute a genuine, legitimate and justified occupational requirement to be of a particular religion and *(b)* the regard to be had to (i) the nature of the employment, (ii) the qualifications of the employee and (iii) the performance of the employee in the job. [290666]

Mr. McFadden: I have been asked to reply.

The Employment Equality (Religion or Belief) Regulations 2003 contain a specific exception to discrimination on grounds of religion which allows an

employer with an ethos based on religion or belief to require that an employee be of a particular religion or belief if it is a genuine occupational requirement for that particular job, and it is proportionate to apply the requirement in each case.

The ethos of the organisation is one factor which employers with a religious ethos take into account. They must also consider the nature of the job or the context in which it is carried out. The qualifications or performance of the employee are not relevant factors when considering whether the requirement to be of a particular religion or belief to do a particular job is genuine or not.

FOREIGN AND COMMONWEALTH OFFICE

Burma: Political Prisoners

Lembit Öpik: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the imprisonment of Kyaw Khaing in Burma; what discussions he has had with the Burmese government on the matter; and if he will make a statement. [289216]

Mr. Ivan Lewis: We are very concerned by reports that National League for Democracy leader Kyaw Khaing was sentenced to a further two year prison term on 14 July 2009. Our ambassador in Rangoon repeatedly raises the need for the release of all political prisoners in Burma with Ministers in the military government. Our embassy in Rangoon continues to enquire about specific cases with political prisoner support networks and those non-governmental organisations concerned with prisoner welfare.

We take every opportunity, including via the UN human rights bodies, to press the regime to uphold international human rights norms and release political prisoners. Most recently, G8 leaders called for the Burmese regime to release all political prisoners, including Daw Aung San Suu Kyi, stating that their continued detention would undermine the credibility of elections planned for 2010.

Cuba: Politics and Government

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the persecution of Christians in Cuba, with particular reference to the case of Pastor Omar Gride Pérez; and if he will make a statement. [288010]

Mr. Ivan Lewis: The Government remain concerned about the human rights situation in Cuba. The Cuban government maintains tight control over its citizens and is generally wary of unofficial, unregistered group meetings. Economic freedoms are limited, political opposition is not tolerated and restrictions on the right to freedom of expression and assembly are common. Unregistered religious groups, such as house churches, are sometimes affected by these restrictions. But as many churches manage to operate within the constraints of the system without harassment, we do not judge that there is systematic repression of Christians or religious freedoms within the country.

We have been following closely the case of Pastor Omar Gride Pérez—the leader of a self-governing non-denominational church called the 'Apostolic Reformation' who has been detained since May 2008 and was recently sentenced to six years' imprisonment for charges of falsification of documents, and was also evicted from his property. We are concerned by the lack of an independent judiciary in Cuba, and the harsh penalties given for some crimes. We are aware of concerns that his lengthy sentence may be connected to his religious activities and status as an independent church leader.

Departmental Billing

John Mason: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288919]

Chris Bryant: 86.5 per cent. of the Foreign and Commonwealth Office's payments to suppliers were made within 10 days of receipt in June 2009.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 9 July 2009, *Official Report*, column 947W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by his Department's (A) Permanent Under-Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [289000]

Chris Bryant: The desktop machines used by the holders of the four named posts use Internet Explorer 7. Secure laptops to enable remote access to their office accounts also use the same version of web browser.

Departmental Lost Property

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs how many cases of lost and stolen *(a)* electronic data and *(b)* paper documents have been recorded by his Department's overseas posts in each of the last three years. [288498]

Chris Bryant: It is not in the interests of the UK's national security for Departments to confirm information on the number of instances of loss—unauthorised or otherwise—of data overseas. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on Royal Mail services in each of the last two years. [288735]

Chris Bryant: During 2008 £174,200 was spent on Royal Mail services. During 2009 £69,600 has been spent on Royal Mail services to date.

Departmental Security

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs how many cases of deliberate attempts to breach security at his Department's overseas posts have been detected since January 2007; and which posts were affected. [288497]

Chris Bryant: It is not in the interests of the UK's national security for Departments to confirm information on the number of attempts to breach security overseas. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

Diplomatic Service: Disciplinary Proceedings

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs how many employees of UK embassies have *(a)* been suspended, *(b)* received formal warnings and *(c)* been dismissed in the last 12 months; and for what reasons in each case. [288470]

Chris Bryant: There are two categories of employees at our Missions abroad, locally engaged staff recruited by the Post and UK based staff who are posted out to Post from the UK. We do not retain figures centrally for locally engaged staff and to provide this information would incur disproportionate cost. The figures for UK based staff are as follows:

(a) suspended in the last 12 months—fewer than five cases

(b) received formal warnings in the last 12 months—15 cases

(c) been dismissed in the last 12 months—fewer than five cases

As there are fewer than five cases for each category of misconduct, details are not provided to avoid revealing the identity of individuals and on the grounds of personal confidentiality.

Fourth Geneva Convention

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on individual legal action to achieve compliance with the Fourth Geneva Convention; and if he will make a statement. [288855]

Mr. Ivan Lewis: The UK has fully implemented the Geneva Conventions through the Geneva Conventions Act of 1957, which includes all the necessary legal provisions to ensure the UK's compliance with the Conventions, including the fourth. It is for individuals to decide what legal action they wish to take in accordance with UK law, and it is not for the Government to comment on such action.

Hamas

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of the alleged broadcasting by Hamas of children's television programmes glorifying *(a)* terrorism and *(b)* attacks on the State of Israel; and if he will make a statement. [287518]

Mr. Ivan Lewis: While we do not monitor Hamas broadcasting, we are aware of reports of the use of inflammatory language against Israel in their programming. The UK continues to condemn any actions which incite hatred and violence.

India

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of India on the resettlement of members of its Christian community in Orissa. [290914]

Chris Bryant: My right hon. Friend the Foreign Secretary has not discussed the resettlement of Christian communities with the Indian Government. However the Government welcome the Indian central government's efforts to protect communities, including their efforts to restore law and order and their offer of compensation and assistance to victims of communal violence including in Orissa.

The EU sent a fact finding mission to Orissa in December 2008, in which a member of our High Commission participated, and reported their concerns to the Indian Government. The question of minority rights in Orissa and other affected states following the violence in 2008 was raised at the last EU-India Human Rights Dialogue meeting in early 2009.

We will continue to monitor the situation and raise any concerns relating to the human rights of all minorities in India as appropriate.

Iran: China

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met representatives of the government of the People's Republic of China to discuss policy towards Iran. [288496]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary last met Foreign Minister Yang on 1 February 2009 to discuss Iran. They have spoken on the telephone on the subject a number of times, most recently on 15 July 2009. Senior officials are also in contact.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the killing of two UK citizens working as private security contractors in Iraq by another private security contractor; what restrictions there are upon the recruitment by private security companies of those with diagnosed mental illnesses; what plans the Government have to renew the effectiveness of such restrictions; what guidance his Department has issued to such contractors on their recruitment procedures; and if he will make a statement. [290849]

Chris Bryant: British consular staff continue to provide assistance to the British nationals involved following a recent incident in Iraq where one British national was killed. The Iraqi authorities are investigating and we remain in close contact with all parties concerned.

The British nationals involved in the incident mentioned above were not working for the Foreign and Commonwealth Office (FCO). When private security companies are employed by the FCO in Iraq, our contracts make it very clear what our requirements are for security personnel, both in terms of their individual skills, qualifications and experience, and their health and fitness. The companies are required to ensure that their personnel are fit for the roles required of them. Our contractors are also required to ensure they comply with all appropriate UK health and safety and discrimination legislation. The FCO considers companies' resourcing and recruitment plans and procedures as part of its evaluation of their bids, at the point at which the contracts are competitively tendered. But we ultimately rely on the companies to ensure that these procedures are robustly and consistently applied under the contract, so as to ensure that the calibre of the contracted personnel is maintained. We naturally monitor the implementation of FCO contracts and raise any concerns with the companies concerned.

There is currently no legislation dealing specifically with the overseas operations of Private Military and Security Companies (PMSCs) registered in or operating from the UK. Recruitment and vetting of personnel by private security companies is currently a matter for the companies concerned. However the Government launched a public consultation in April this year seeking to promote high standards of conduct by PMSCs internationally. Responses to this consultation are currently being analysed.

Iraq: Human Rights

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Iraqi Government on the deaths and injuries to protected persons under the Fourth Geneva Convention following the recent attack on Camp Ashraf by Iraqi forces; and if he will make a statement. [290777]

Chris Bryant: Our ambassador in Iraq has written to the Iraqi authorities to ask for a review into the recent events at the camp. Officials from our embassy in Baghdad are continuing to follow developments, and will shortly undertake a further visit to the camp.

Our view remains that the residents of Camp Ashraf are not entitled to 'protected persons' status as the Fourth Geneva Convention ceased to apply in Iraq after 28 June 2004, following the end of active hostilities and occupation.

Israel: Borders

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he *(a)* changed his Department's policy and *(b)* took other steps in response to the advisory opinion of the International Court of Justice in relation to the wall in the Palestinian Occupied Territories. [288856]

Mr. Ivan Lewis: The UK agrees with the International Court of Justice (ICJ) broad conclusions that building a barrier along the current route, on occupied land, is a clear violation of international law. The Government therefore supported UN General Assembly resolution (ES-10/15) that acknowledged the ICJ's advisory opinion on the legal consequences of the barrier in occupied Palestinian territory.

While we recognise fully Israel's right to self-defence and agree that if it decides to build a barrier it should be able to do that, we will continue to make clear to Israel, both in private in and in public, that the barrier must be built either on or behind the Green Line.

Kenya

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will issue an apology for the treatment by the British colonial authorities of Kenyan nationals during the 1950s Kenyan emergency; and if he will make a statement. [286847]

Mr. Ivan Lewis: The Government are aware that the events surrounding the period of the Kenyan emergency give rise to strong feelings in Kenya. The emergency period remains a deeply divisive issue in Kenya and one which historians continue to debate. The road to independence in Kenya was marked with considerable suffering on all sides which is deeply regrettable.

It is important to have open debate about the past. The UK is prepared to contribute to this. Any debate should help address Kenya's current challenges, particularly the importance of reconciliation towards building a stable and prosperous nation.

Libya: Offical Visits

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what ministerial visits to Libya have taken place in the last two years; and what commercial matters were discussed during each such visit. [290819]

Chris Bryant: Two Foreign and Commonwealth Office Ministers visited Libya in 2008-09. My hon. Friend the Member for Harlow (Bill Rammell), the then Minister of State, visited Libya from 25-26 February 2009. He met with the Libyan Prime Minister, Dr al-Baghdadi al-Mahmudi, Energy Minister, Shurkri Ghanem, Europe Minister, Abdulatti Obidi and the then Head of the Libyan External Intelligence Service, Musa Kusa. During my hon. Friend's visit discussions focused on a range of issues including the stalled investigation into WPC Fletcher's murder, regional security matters, counter terrorism co-operation, the African Union (AU), consular matters, visa arrangements and commercial contracts currently under negotiation.

My noble Friend, the then Minister for Africa, Asia and the UN, Lord Malloch-Brown, also visited Libya for the AU Summit in July 2009. He did not have any formally arranged meetings with members of the Libyan Government. However, Lord Malloch-Brown met briefly with Ali Treiki, the then Libyan Minister for Africa and the UN, and Musa Kusa, the Libyan Minister for Foreign Affairs while attending the opening ceremony of the summit. No commercial matters were discussed.

There have also been visits to Libya by Ministers from other Government departments: my noble Friend the Minister of State at the Department for Business, Enterprise and Regulatory Reform, Lord Digby-Jones, in May 2008, and my right hon. Friend the Member for Bristol, South (Dawn Primarolo), the Minister of State at the Department of Health, in November 2008, and

my right hon. Friend the Member for Leigh (Andy Burnham), the Secretary of State at the Department of Health, in July 2009.

Lockerbie: Bombings

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government discussed the terms of the United Kingdom's Prisoner Transfer Agreement with Libya with the United States administration; and if he will make a statement. [290921]

Chris Bryant: The UK and US Governments remained in close contact throughout the negotiation of the UK-Libya Prisoner Transfer Agreement (PTA) and its entry into force. All key ministerial correspondence relating to the negotiation of the PTA was published on 1 September 2009.

Middle East: Peace Negotiations

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effects of the military build-up in southern Lebanon on the Middle East peace process; and if he will make a statement. [290888]

Chris Bryant: UN Security Council Resolution (UNSCR) 1701 establishes an area in southern Lebanon free from armed personnel, assets and weapons other than those of the Government of Lebanon and of the UN Interim Force in Lebanon (UNIFIL).

The UK believes that UNSCR 1701 is the best way of achieving lasting stability in Lebanon. We are deeply concerned that Hizballah maintains a substantial military capacity. This is a destabilising factor for the whole region. We strongly condemn all violations of UNSCR 1701 and urge its full implementation. We fully support the work of UNIFIL and its continued role in Lebanon.

Morocco: Students

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what further steps he plans to take in response to the decision by the government of Morocco to prevent Saharan students from attending a peace-building conference in Oxford in August 2009. [290916]

Chris Bryant: Following news of the events in Agadir, our Chargé d'Affairs in Rabat raised our concerns with the Secretaire Generale, head of the Moroccan Ministry of Foreign Affairs. He stressed that it was particularly disappointing considering Morocco's otherwise good record of allowing attendance at these types of events. We made it clear the Government were extremely concerned by reports of the use of disproportionate force against the participants on their return home to Layounne. The Sécretaire Générale undertook to look into the matter.

We have continued to press for an answer and make our concerns known. This has included close co-ordination with the Swedish EU presidency in Morocco and local human rights non-governmental organisations over this matter. I can assure you that our officials in Rabat and London will continue to press the Moroccan authorities for further clarification of the allegations of mistreatment.

Nuclear Weapons

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what means he has considered to achieving the abolition of nuclear weapons. [289142]

Mr. Ivan Lewis: The Government are committed to a world free of nuclear weapons and are actively working towards achieving this goal. My right hon. Friend the Prime Minister set out his vision in 'The Road to 2010 - Addressing the Nuclear Question in the Twenty First Century' earlier this month. In this he outlined a three stage process to enable progress towards this goal. This involves:

Transparency and control: reducing expansion of nuclear weapon capabilities and enhancing transparency of existing and future capabilities.

Arms reduction: addressing the challenges and mechanisms through which further multilateral disarmament can occur.

Steps to zero: creating the security conditions and overcoming technical difficulties related to disarmament.

We remain fully committed to the Nuclear Non Proliferation Treaty as the best vehicle for achieving this goal.

Pakistan: Armed Conflict

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Pakistani authorities on behalf of *(a)* those attacked at Bahmari Wala, Kasur and *(b)* other Christians subject to attacks. [288223]

Mr. Ivan Lewis: We are concerned about reports that members of the Christian community in Bahmari Wala, Pakistan have been attacked. The UK supports freedom of religion and condemns persecution because of faith or beliefs. Incidents such as the attack in Bahmari Wala are an example of the discrimination and violent extremism faced by religious minorities in Pakistan.

We regularly raise our concerns with the government of Pakistan about the situation of religious minorities, both with our EU partners and bilaterally in London and through our High Commission in Islamabad, and will continue to do so. The most recent EU demarche called upon the government of Pakistan to promote tolerance, to effectively protect freedom of belief and freedom of expression and to reform discriminatory legislation in particular blasphemy laws.

With regard to the latest incident officials from the High Commission in Islamabad are monitoring developments closely. We note that a compensation package has been announced for those affected by the attack.

Pakistan: Free Trade

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent consideration he has given to the introduction of a free trade agreement between Pakistan and the EU; and if he will make a statement. [284648]

Mr. McFadden: I have been asked to reply.

We are keen to see the EU improve economic links with Pakistan. One option would be for the EU and Pakistan to negotiate a free trade agreement. At the

recent EU-Pakistan summit, a package of trade measures was agreed which included enhancement of the EU-Pakistan trade dialogue; a commitment for the EU to remove trade obstacles and provide technical assistance; an agreement to review EU-Pakistan co-operation on capacity building; and a commitment to re-examine the GSP+ preferential scheme with a view to possible inclusion of Pakistan.

These trade measures should help improve economic ties between the EU and Pakistan, and help build the necessary capacity and infrastructure to help Pakistan towards an EU-Pakistan free trade agreement in the longer term.

Palestinians: Israel

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent consideration he has given to his Department's performance on meeting its obligations in respect of the non-recognition of illegal acts under international law, with particular reference to Israeli settlements in the occupied Palestinian territory. [287164]

Mr. Ivan Lewis: The Government take their international and domestic law obligations very seriously. We will continue to make clear to the Israeli Government that all settlement activity is illegal and is a violation of international law. My right hon. Friend the Foreign Secretary did so during his meeting with Israeli Defence Minister Ehud Barak on 6 July 2009 and also in a conversation with his counterpart Avigdor Lieberman on 1 July 2009.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Palestinian Authority on recognition of the State of Israel as a Jewish state; what response was received; and if he will make a statement. [287520]

Mr. Ivan Lewis: We welcome the fact that the Palestinian Authority recognises the state of Israel and is prepared to negotiate a peace deal with it.

The nature of the state of Israel, and the role that religion plays, is a matter for Israelis, although we would expect Israel to respect the rights of minorities as undertaken in Israel's declaration of independence and basic laws. We welcome the fact that the Israeli Government have not said that Palestinian recognition of Israel as a Jewish state should be a precondition for entering negotiations with the Palestinians.

The UK's position is clear that a comprehensive peace should be based on two states, living side by side within secure and agreed borders based on those of 1967, with Jerusalem as the capital for both states. Such a solution is the only way to do justice to the national aspirations of the Jewish people and of the Palestinians.

Papua: Political Prisoners

Lembit Öpik: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the imprisonment of Papuan democracy activist Buchtar Tabuni; what steps his Department has taken in response to such reports; and if he will make a statement. [289219]

Mr. Ivan Lewis: Buchtar Tabuni was sentenced to three years' imprisonment for "provocation" on 3 July 2009. Prosecutors had pressed for a sentence of ten years for treason but this was rejected by the judges.

Our embassy in Jakarta have been following the trial of Buchtar Tabuni and previously met his lawyers to investigate allegations of physical abuse. They were unable to verify these claims.

My predecessor, my hon. Friend the Member for Harlow (Bill Rammell), raised continuing UK parliamentary and public concern at the human rights situation in Papua with Indonesian Foreign Minister Wirajuda when he met him in Jakarta on 10 February 2009 and again at the Asia Europe meeting in Hanoi in May. There is frustration in Papua over poor implementation of the Special Autonomy Law of 2001. However, while problems do remain, it is important to recognise that real improvements have been made in Indonesia's human rights situation in recent years. Our embassy staff make regular visits to Papua to discuss human rights issues with a wide range of interlocutors. The last visit was on 17-18 June 2009.

Peacekeeping Operations: Private Sector

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the Lord Toms of Cheltenham of 5 May 2009, *Official Report, House of Lords*, column WA106, on private military companies, how many personnel of private military companies are operating under contracts with his Department. [276800]

Mr. Ivan Lewis: The Foreign and Commonwealth Office holds a number of contracts with private military and security companies (PMSCs) to provide services such as close protection, static guarding and police mentoring. We do not hold contracts with individual personnel of those companies nor is there a centrally held record of how many personnel are employed by them providing services to the Government. Additionally a number of overseas posts hold contracts with PMSCs locally. To establish the number of personnel working for the companies operating under contracts with us would therefore be a wide ranging exercise, the cost of which would be disproportionate.

Scotland

Stewart Hosie: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288955]

Chris Bryant: The Foreign and Commonwealth Office has not submitted evidence to the Scottish Government's National Conversation.

Sri Lanka: Human Rights

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the human rights situation in Sri Lanka since the end of the conflict in the country; and if he will make a statement. [288580]

Mr. Ivan Lewis: We are increasingly concerned about the treatment of Internally Displaced Persons (IDPs) in Sri Lanka, especially the lack of freedom of movement in the camps and the restrictions put on protection activities, including ensuring the safety of the IDPs, reuniting unaccompanied children with their families and registration of the IDP population as a whole. We also remain concerned at continuing reports of abductions, disappearances, violence and intimidation against the media, all of which appear to affect Tamil communities disproportionately. We continue to raise these issues regularly with the government of Sri Lanka and call upon them to take decisive action to tackle human rights abuses.

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Sri Lankan government on the treatment of Tamils in camps; and if he will make a statement. [288581]

Mr. Ivan Lewis: We take every available opportunity to urge the Sri Lankan government to ensure the internally displaced persons (IDPs) held in camps in northern Sri Lanka are treated in accordance with international standards. These include providing basic facilities such as food, water, shelter and medicine as well as issues such as freedom of movement, reuniting family members and ensuring the early return of IDPs to their homes.

My right hon. Friend the Prime Minister discussed the humanitarian situation in IDP camps with President Rajapakse on 18 May 2009, as did my right hon. Friend the Foreign Secretary with Foreign Minister Bogollogama on 5 June 2009. My noble Friend, the then Minister for Africa, Asia and the UN, Lord Malloch-Brown, raised the issue with the Sri Lankan Minister for Trade and External Development when they met on 19 June 2009. Our High Commissioner to Sri Lanka continues to raise our concerns with the Sri Lankan government at every opportunity.

I also refer the hon. Member to the written ministerial statement made by the Minister of State, Department for International Development, my hon. Friend the Member for Harrow, West (Mr. Thomas), on 14 July 2009, *Official Report*, columns 12-13WS, which contains further information on the latest humanitarian situation in Sri Lanka.

Sudan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan on the abduction of opposition politicians and activists in that country. [290915]

Chris Bryant: The UK regularly raises human rights issues with the Government of Sudan through the European Union, the Assessment and Evaluation Committee, the National Elections Commission and in bilaterals. In particular, we have raised the importance of protecting freedom of expression and the political space for campaigning by all parties in the run up to the elections in 2010.

Sudan: Prisoners

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the Irish government and *(b)* the Sudanese government on the kidnapping from Northern Darfur of two aid workers from the charity GOAL. [288694]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary spoke with the Irish Foreign Secretary regarding the kidnapping on 14 July 2009. Our Ambassador to Sudan has discussed the issue with the Sudanese Foreign Minister and Minister for Humanitarian Affairs. Our Embassy in Khartoum continues to work closely with Irish officials in Sudan.

We strongly condemn all acts of violence against aid workers, and call on all parties, including the government of Sudan, to ensure the safety of aid workers in the region.

Thailand: Aviation

Mr. Morley: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of progress made by the Thai authorities in their inquiry into the September 2007 air crash involving British citizens; and what recent discussions he has had with the Thai authorities on the date of publication of the report on the inquiry. [290894]

Chris Bryant: An interim investigation report was published by the Thai authorities in June and we circulated an English translation of this report to the families of those involved in this tragic accident. The final report is in the process of being translated into all the relevant languages, including English. It will then be submitted to the International Civil Aviation Organisation who have 60-days upon receipt to verify the documents. The finalising of the report was delayed following the accident in Koh Samui in August this year in which four British nationals were injured, as the same body is responsible for investigating both incidents. We expect it to be several months before the final report is published.

Our embassy in Bangkok is monitoring the progress of the investigation and we will alert the hon. Member and the families concerned as soon as the report is made public.

USA: Terrorism

Dr. Evan Harris: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the US administration on its designation of Interpal as a global terrorist organisation; and if he will make a statement. [289236]

Mr. Ivan Lewis: Officials are in ongoing discussions with their US counterparts about how to facilitate legitimate charitable work while protecting against any risk of abuse by terrorist financiers.

This has included the case of Interpal and its status as a US designated organisation.

Western Sahara: Human Rights

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to ensure that the matter of human rights abuses in the Non-Self Governing Territory of Western Sahara related to calls for a referendum is raised with Morocco by EU officials in the next meeting of the sub-committee on Human Rights, Democratisation and Governance. [289057]

Mr. Ivan Lewis: The UK considers the EU-Morocco Association Agreement Sub Committee on Human Rights, Democratisation and Governance to be an essential element of the EU-Morocco relationship. We have been engaged in the planning for the meeting on 24 July 2009 through our Missions in Rabat and Brussels. The agenda was agreed by member states on 13 July 2009, and will include, among other issues, women's rights, freedom of expression and the rights of detainees. Discussions will not exclude the territory of Western Sahara.

The EU engages regularly with the Moroccan Government on human rights issues at a local level with our EU colleagues by raising individual cases of concern as appropriate.

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy that there be a field presence from the Office of High Commissioner for Human Rights in the Western Sahara. [289058]

Mr. Ivan Lewis: The Government believe that greater openness and transparency on human rights by all the parties would create a significantly better environment for political dialogue between the parties. We support the call by the UN Secretary General, in his latest report, for the parties to remain engaged in a continuous and constructive dialogue with the Office of the UN High Commissioner for Human Rights (OHCHR) and to make progress on the human dimension of the conflict. If, as the result of such dialogue, a mechanism were to be established to allow OHCHR to further add value, for example by assisting and reporting on the situation in Western Sahara, the Government would support it.

WPC Yvonne Fletcher

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received a recent request from members of the family of WPC Yvonne Fletcher for a meeting with Ministers; and if he will make a statement. [290920]

Chris Bryant: Although my right hon. Friend, the Foreign Secretary has not received a request, he has offered to meet the family of WPC Fletcher to discuss the Government's efforts to move the investigation forward.

Libya has accepted responsibility for WPC Fletcher's murder and paid compensation to her family. Despite their promises to do so, and the UK's repeated requests, Libya has not allowed the Metropolitan Police Service to return to Libya to continue the investigation.

We attach the highest importance to securing Libyan cooperation with the investigation and push this with the Libyan authorities at every available opportunity.

ENERGY AND CLIMATE CHANGE

Carbon Emissions

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what his latest estimate is of the UK's carbon footprint. [288713]

Joan Ruddock: The latest estimate for the total carbon dioxide (CO_2) emitted from the UK is 542.6 Mt in 2007. A provisional estimate for the total CO_2 emitted from the UK in 2008 is 531.8 Mt.

The latest estimate for the total greenhouse gas emissions emitted from the UK is 636.6 Mt in 2007. A provisional estimate for the total greenhouse gas emissions emitted from the UK in 2008 is 623.8 Mt.

Climate Change

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change how many copies of the departmental pamphlet, The Road to Copenhagen: Taking International Action on Climate Change, have been printed; to whom they have been distributed; what the cost of printing and distribution has been; and what steps he plans to take to promote the proposals in the pamphlet before the Copenhagen summit. [288564]

Joan Ruddock: I can confirm that the overall cost of the Road to Copenhagen leaflet was approximately £34,000 exclusive of VAT. This includes design, typesetting, printing and distribution of 46,000 copies. The leaflet is being distributed in hard copy or electronic format to a range of outlets, including educational establishments, public libraries, Citizens Advice bureaux, trade unions, business-related outlets, MPs and other key stakeholders.

Climate Change: South East

Sandra Gidley: To ask the Secretary of State for Energy and Climate Change what assessment has been made of the financial effects of climate change at the present rate on *(a)* the ceremonial county of Hampshire and *(b)* the South East. [288895]

Joan Ruddock: In 2005, the regional climate change partnerships working with the UK Climate Impacts Programme published 'Measuring Progress'. The report assessed the impacts of climate change by region including the South East and included some indicative assessments of the impacts on activities from climate change. The Government have now begun the Adaptation Economic Assessment, which will analyse the high level economic costs and benefits of adapting to climate change in the UK. The project will include information by English region, including the South East, but not by individual county boundary. It is due to report in 2012.

Sandra Gidley: To ask the Secretary of State for Energy and Climate Change what plans he has to assist people in the *(a)* ceremonial county of Hampshire and *(b)* the South East to adapt their domestic circumstances to take account of the effects of climate change. [288897]

Joan Ruddock: The aim of the Government's Adapting to Climate Change Programme is to help people adapt to the effects of climate change by providing robust evidence on the effects of climate change and embedding

adaptation into policies, plans and programmes. The programme seeks to achieve this by building capacity in organisations who are the most able to take long term adaptation decisions. This includes local government via mechanisms such as National Indicator 188—Planning to Adapt to Climate Change within the local government performance framework to enable them to support individuals to adapt to future climate changes through local programmes.

On 18 June, the Government published the latest UK Climate Projections. These projections show the potential changes in climate for the UK for a range of probabilities, climate variables and emissions scenarios. These data are freely available to all to make their own assessments of the likely effects of climate change. To support organisations in using the projections, the Government are providing a training package, Projections in Practice from July to March 2010. The programme will include a series of national events for specific sectors and will also include from September a programme of events in each region including the South East. To support adaptation locally and regionally, we have established a local and regional programme managed by a board of key local and regional organisations. The regional climate change partnership, Climate South East, is represented on the board. The board manages a small programme of projects to develop guidance and tools to help local authorities, regional climate change partnerships and others to support communities to take account of the effects of climate change. Further information on the board is located on the Government's Adapting to Climate Change Programme website:

www.defra.gov.uk/adaptation

Damian McBride

Mr. Maude: To ask the Secretary of State for Energy and Climate Change on what date he last met Mr. Damian McBride in the course of his official duties. [287404]

Joan Ruddock: There have been no such meetings.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Energy and Climate Change with reference to the answer of 26 November 2008, *Official Report*, column 2142W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289164]

Joan Ruddock: The Department has spent £7,289 on flat screen televisions, some of which had built-in DVD players and £68 on stand-alone DVD players. The Department has procured no stereo equipment.

The Department has no agencies.

Departmental Marketing

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how much his Department has spent on branding since its establishment. [288763]

Joan Ruddock: The information is listed in the following table.

	£
Branding design	38,751.00
Trademarking the brand	14,102.00
Signage	1,910.00

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Energy and Climate Change how much his Department spent on Royal Mail services in each of the last five years. [288791]

Joan Ruddock: The information is as follows.

1. The Department for Energy and Climate Change (DECC) came into existence on 3 October 2008. The Department has spent £404.90 directly with the Royal Mail since then. General postal services have largely been provided through shared services arrangements with DEFRA and BERR (now BIS). We cannot separately identify the proportion of payments for those shared services that were ultimately payable to Royal Mail.

2. DECC ceased using BIS to provide these services in June 2009. However, these arrangements are still continuing with DEFRA and we are in a process of setting up a separate DECC account with Royal Mail.

Departmental Public Relations

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change how much his Department has spent on each of the external public relations and marketing companies included in the Central Office of Information's Public Relations Framework since it was created. [288671]

Joan Ruddock: Between September 2008 and March 2009 DECC spent approximately £101,000 through public relations and events management agencies on COI's rosters. The figures include all PR expenditure incurred by the department on the ACT ON CO_2 campaign, including media relations activity and the running of a series of regional roadshows.

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Welwyn Hatfield of 23 February 2009, *Official Report*, column 297W, on departmental public relations, which companies were contracted; for what purpose each contract was let to each company; and how much was paid to each company in respect of each contract. [288986]

Joan Ruddock: The Department has spent the following amounts in 2008-09.

£101,000 to Munro and Forster and TRO (through COI agency rosters). The figure includes all PR expenditure incurred by the department on the ACT ON CO_2 campaign, including media relations activity and the running of a series of regional roadshows. We are considering our campaign plans for the rest of 2009-10.

£100,229.99 to Kreab Gavin Anderson who are contracted, through a consultancy tender, to provide expert advice and support on the renewable energy finance community including on the impact of proposed measures on renewable finance and investment prospects. As part of this contract they also support the department's

work by arranging seminars, meetings with investors, and wider awareness raising with investors and media on developments in renewable energy policy.

All figures are rounded up and exclusive of VAT.

Departmental Travel

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how much his Department has spent on *(a)* ministerial cars and drivers, *(b)* taxis, *(c)* train travel, *(d)* the use of helicopters, *(e)* airline tickets and *(f)* chartered aeroplanes since its establishment. [289067]

Joan Ruddock: DECC has spent the following since its inception: *(a)* ministerial cars and drivers £166,305; *(b)* taxis for the whole Department £202,249; *(c)* train travel for the whole Department £557,637; and *(e)* air fares for the whole Department £1,179,390. The Department is not able to separately identify the use of helicopters or chartered aircraft except at disproportionate cost.

Energy: Conservation

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what discussions he has had with the Association for the Conservation of Energy as part of the preparation of the White Paper on low carbon energy strategies. [287542]

Joan Ruddock: DECC Ministers and officials have regular discussions with the Association for the Conservation of Energy on a broad range of issues relating to energy efficiency and fuel poverty.

Energy: Prices

Chris McCafferty: To ask the Secretary of State for Energy and Climate Change what recent discussions he has had with energy suppliers on the effects of increases in energy prices on small and medium-sized businesses. [290749]

Joan Ruddock: The Government are keenly aware of the impacts on businesses of changing energy costs. DECC Ministers and officials have frequent discussions with energy suppliers and their representatives about energy prices and other factors affecting business and household consumers.

Ofgem has recently published proposals for measures to improve the functioning of the supply markets for small businesses.

Chris McCafferty: To ask the Secretary of State for Energy and Climate Change what recent discussions he has had with business representatives on the effects of increases in energy prices on small and medium-sized businesses. [290750]

Joan Ruddock: Regular discussions are held with business representatives on energy price issues relevant to all sizes of businesses. These include the Business Energy Forum, jointly chaired by the Secretary of State and the Director General of the CBI. In addition there are ad hoc meetings with individual business organisations.

Chris McCafferty: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the average price of energy supply for small and medium-sized businesses in each year since 2004-05. [290751]

Joan Ruddock: The Department does not hold any data on electricity prices paid by small or medium-sized businesses. Data on prices are collected based on energy consumption levels, which do not always correspond to business size. Energy expenditure as a share of turnover varies widely, from around 1 per cent. to over 20 per cent. depending upon the nature of the business.

Annual energy prices for industrial consumers by consumption band are published quarterly in table 3.1.1 of "Quarterly Energy Prices", with annual data shown in Table 3.1.3. The latest edition of "Quarterly Energy Prices" was published in June 2009 and is available online at:

http://decc.gov.uk/en/content/cms/statistics/publications/prices/prices.aspx

Forestry

Martin Horwood: To ask the Secretary of State for Energy and Climate Change what the definition of *(a)* forestry investment and *(b)* sustainable forestry management was as contained in the declaration on international climate negotiations at the UK-French summit in Evian on 6 July 2009. [289011]

Joan Ruddock *[holding answer 21 July 2009]:* There are no internationally agreed definitions of the terms forestry investment and sustainable forest management. The UK's understanding of the meaning of forestry investment in the UK-French declaration on international climate negotiations is the use of resources to support forest activities which help to reduce emissions from deforestation and forest degradation or conserve, maintain or enhance forest carbon stocks, and which generate a return. The returns could provide important stimuli for low carbon development in developing countries, such as local employment opportunities. In this context, sustainable forest management means forest activities which support the long-term maintenance of forest carbon stocks.

Glasgow

John Mason: To ask the Secretary of State for Energy and Climate Change whether he plans to visit Glasgow on official business during the summer adjournment. [288929]

Joan Ruddock: There are currently no such plans.

Heating: Fuels

Mr. Charles Kennedy: To ask the Secretary of State for Energy and Climate Change what plans he has to assist domestic users of heating fuels to replace existing heating systems with renewable alternatives; and if he will make a statement. [290881]

Joan Ruddock: The Low Carbon Buildings Programme (LCBP) is the Government's £131 million capital grant programme, offering capital funds for small scale onsite energy technologies to householders, public, community and the not-for-profit sector. The Programme was initiated in 2006 and for householders, £46 million (of the

£131 million) has been made available. To date over 10,000 householder projects have been supported across the UK of which 8,900 are for heat generation.

This programme will be phased out to coincide with the introduction of Clean Energy Cashbacks (FITs) for energy generation in April 2010 and the Renewable Heat Incentive (RHI), for heat generation, in April 2011

The Renewable Heat Incentive (RHI), which the Government have committed to introducing from April 2011, will provide financial support in order to encourage the uptake of renewable heat at all scales, from domestic use to large scale industrial generation. We intend to publish a consultation document setting out the details of the RHI towards the end of this year.

Insulation: Housing

Mr. Charles Kennedy: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the level of uptake of home insulation programmes delivered through commercial energy suppliers; and if he will make a statement. [290885]

Joan Ruddock: Energy supply companies are obligated to provide energy efficiency measures, including insulation, to households via the Carbon Emissions Reduction Target (CERT) which runs from March 2008 to March 2011.

Ofgem administer the scheme and report to DECC annually on progress. Ofgem's review of the first year of CERT states that between April 2008 and March 2009 suppliers funded a total of 1,243,573 insulation measures. Of this total 545,594 were cavity wall jobs, 689,353 were loft insulation, and 8,626 were solid wall (Additional insulation has been delivered through CERT funded DIY, however as this information is commercial in confidence it will only be published at the end of the scheme).

CERT is the continuation of a series of successful energy efficiency programmes which delivered over 900,000 insulation measures 2002-2005 and over 2.6m measures 2005-08.

International Parliamentary Conference on Climate Change

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what contribution his Department made to the Commonwealth Parliamentary Association's Second International Parliamentary Conference on Climate Change. [286614]

Joan Ruddock: I participated in a session on international climate change on 8 July. An official from the Department took part in the discussion on "Technology Development and Transfer: Current Proposals and Persistent Challenges" on Tuesday 7 July.

Office for Renewable Energy Development

Simon Hughes: To ask the Secretary of State for Energy and Climate Change for what expenditure under each budget heading the budget of the Office for Renewable Energy Development for 2009-10 provides; and how many staff that office employs. [290898]

Joan Ruddock: The Office for Renewable Energy Deployment (ORED) was launched on 15 July 2009. ORED's mission is to accelerate the deployment of renewable energy in order to reduce carbon emissions, increase security of supply and create business opportunities in the UK.

As of August 2009 ORED employed 85 staff. The budgets available to ORED, including funding allocated to low carbon investment in Budget 2009, are as set out in the following table. In addition, ORED will also be delivering projects funded from the Strategic Investment Fund managed by BIS; this additional funding amounts to up to £135.5 million over the next two years.

ORED Budgets

£ million

	2009-10	*2010-11*
Administration	7.1	5.8
Programme	13.6	8.9
Capital	38.3	61.2
Total	59.0	75.9

Plutonium: Exports

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what quantities of safeguarded plutonium have been exported since July 2008; and for what purpose. [287543]

Mr. Kidney: There have been two exports of material containing small amounts of safeguarded plutonium since July 2008. Both were delivered to consignees in Sweden. The first shipment, in April 2009, was Intermediate Level Waste containing approximately 5g of plutonium. The waste was returned to Sweden as part of contracted work to reprocess spent nuclear fuel at Sellafield from Sweden's R1 research reactor. The second shipment, in June 2009, was a container of 46 irradiated Advanced Gas-Cooled Reactor (AGR) fuel pins containing less than 400 g of plutonium. This material will be returned to the UK following analytical examination.

Renewable Energy

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what the size is of the fund established for the clean energy cash-back scheme announced in the UK Low Carbon Transition Plan; and from which heading of his Department's budget the payments will be drawn. [288568]

Joan Ruddock: The clean energy cash back scheme comprises two policies, the Feed-In Tariffs (FITs) for small scale low-carbon electricity, which will take effect from April 2010, and the Renewable Heat Incentive (RHI), which will be implemented in 2011.

We are currently consulting on the detail of the FITs scheme. We do not propose to set limits on the total amount of funding available from the scheme. Payments to generators under the scheme will not be made from the Department's budget, but from electricity suppliers.

Powers were taken in the Energy Act 2008 which allow the RHI to be funded through a levy on fossil fuel suppliers. We will be consulting on the detail of the RHI later in 2009.

Renewable Energy: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what steps his Department has taken to assist research into green technology in Coventry. [281149]

Mr. Lammy: I have been asked to reply.

The Technology Strategy Board currently supports 35 collaborative R&D projects that have a focus on green technologies and where each includes at least one participant from the Coventry postcode area. The total project costs are £85.6 million (£22.2 million for Coventry participants) with the Technology Strategy Board providing grant[1] support of £41.8 million (£11.1 million for Coventry participants).

The Research Councils currently support 16 energy research projects in the Coventry postcode area that have a focus on green technologies. These have a total grant value of £4.7 million. The Research Councils also support one programme in plasma physics to the value of £5 million, one SUPERGEN consortium looking at excitonic solar cells to the value of £3.4 million, and two other general research projects that have a focus on green technologies to the value of £700,000.

The Department has also helped fund green technology initiatives through Advantage West Midlands (AWM).

A Hydrogen Energy Project—a collaboration between the University of Birmingham and the University of Warwick—is being delivered by the Birmingham Science City initiative and has received £ 10.5 million funding from AWM.

AWM is also about to launch the Renewable Energies Supply Chain Opportunities (RESCO) programme. Delivered by Staffordshire University, RESCO is designed to support companies in the supply chains of renewable energies. The £1.4 million project is targeted at the whole of the West Midlands but a significant strand of activity will take place in Coventry.

AWM also fund several projects that are led by Coventry centres to support the development of low carbon vehicles. These have total project costs of £37.2 million and AWM funding of £19.7 million.

HEALTH

Cervical Cancer: Screening

Mr. Burns: To ask the Secretary of State for Health (1) whether his Department has plans to keep under review its policy on the age at which cervical screening should begin; [290953]

(2) what plans his Department has to *(a)* commission and *(b)* evaluate new research to compare the incidence of cervical (i) abnormalities and (ii) cancer in the 20 to 24 year and 25 to 29 years age groups. [290954]

Mr. Mike O'Brien: The cervical screening age range will be a standing item on the agenda of meetings of the independent Advisory Committee on Cervical Screening, which reviews all new research to assess its significance to the cervical screening programme. NHS Cancer Screening programmes maintain an on-line database of literature relating to cervical screening, and publish "Cervical Screening: Literature Update" twice a year. If further evidence is published that warrants another formal review of the screening age range, this will be done.

With regard to new research, cervical screening rates will continue to be monitored by the National Cancer Intelligence Network and the Cancer Research UK Centre for Epidemiology, Mathematics and Statistics. This includes monitoring cervical abnormalities and cancer in the 20 to 24 year and 25 to 29 year age groups.

Continuing Care

Greg Mulholland: To ask the Secretary of State for Health how many people *(a)* in total and *(b)* per 50,000 of population received continuing care in each primary care trust area in England in each quarter of 2008. [290893]

Mr. Mike O'Brien: The requested information is shown in the following table.

Number receiving national health service continuing care in total and per 50,000 population, England, 2008-09

		Number receiving NHS continuing care				*Number per 50,000 population*

Department of Health forms: Vital Signs Monitoring Return (VSMR). GP membership populations—AD 2007 reconciled to Office for National Statistics mid-2006 estimates for local authorities (minus special populations), The Information Centre for health and social care

Dermatology: Manpower

Mr. Bruce George: To ask the Secretary of State for Health (1) what steps he is taking to increase the number of General Practitioners with a special interest in dermatology; [290673]

(2) what steps he is taking to increase the number of specialist nurses in dermatology. [290677]

Mr. Mike O'Brien: Local health care commissioners and providers are responsible for the provision of services appropriate to the needs of their local health communities, taking into account relevant national guidance. The Government have made clear, in a series of publications beginning with the White Paper "Our health, our care, our say" in January 2006, their commitment to providing a greater proportion of services close to where people live, where it is appropriate and safe to do so. General guidance on the provision of services using general practitioners with special interests was given in "Implementing care closer to home: convenient quality care for patients" and guidance on the role of specialist nurses is described in "Long term neurological conditions: a good practice guide to the development of the multidisciplinary team and the value of the specialist nurse". Specific guidance on dermatology services was given in July 2008 in "Delivering care closer to home: meeting the challenge", and in the associated resource pack "Providing care for patients with skin conditions".

Diabetes: Health Services

Chris Huhne: To ask the Secretary of State for Health (1) what research his Department *(a)* commissioned and *(b)* evaluated on the effects of diabetes networks, as defined in the National Service Framework for Diabetes, on patient outcomes for people with diabetes; [290763]

(2) what research his Department has *(a)* commissioned and *(b)* evaluated on the quality of diabetes services provided by primary care trusts which (i) have an effective diabetes network as defined in the National Service Framework for Diabetes and (ii) do not have such a network. [290766]

Mr. Mike O'Brien: We recognise the important role that diabetes networks can play in developing integrated services, as well as providing a structure for service planning and delivery. We are working with NHS Diabetes and Diabetes UK to expand networks across England.

We have not commissioned any specific research or evaluations on either the effects of diabetes networks on patient outcomes for people with diabetes or the quality of diabetes services provided by primary care trusts which have an effective diabetes network, and those that do not have such a network, as defined in the National Service Framework for Diabetes.

Doctors: Sports

Greg Mulholland: To ask the Secretary of State for Health how many persons are working as consultant physicians in sport and exercise medicine with the NHS; and how many such persons received *(a)* a certificate of eligibility for specialist registration and *(b)* a certificate of completion of training in sports and exercise medicine from a UK university in the last 12 months. [290626]

Mr. Mike O'Brien: The national NHS workforce census shows that there are three consultants working in sport and exercise medicine.

There have been 11 certificate of eligibility for specialist registration (CESR) applications to date, with a further four currently with the Postgraduate Medical Education and Training Board.

Five people have completed CESR and achieved a certificate of completion of training.

Fertility

Mr. Burrowes: To ask the Secretary of State for Health (1) what guidance his Department has issued on the eligibility of a person classified as prematurely infertile for the full 10-year extension of storage of gametes and embryos referred to in the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009 in circumstances in which that person's infertility would no longer be regarded as premature in the later stages of the 10-year extension; [290931]

(2) what guidance his Department has issued on the age at which infertility in *(a)* men and *(b)* women may be regarded as premature referred to in the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009. [290932]

Mr. Mike O'Brien: The Department has not issued guidance on the definition of premature infertility. The individual factors of each case would be taken into account by a registered medical practitioner when deciding if the criteria for extending storage periods for embryos or gametes are met. Therefore, it would not be appropriate for the Department, or the Human Fertilisation and Embryology Authority (HFEA), to give a definition of premature infertility or to specify an age when infertility would no longer be deemed premature.

Health Services: Overseas Residence

Mr. Moss: To ask the Secretary of State for Health how many non-British residents received NHS treatment in *(a)* England and *(b)* North East Cambridgeshire in each of the last 10 years; what estimate he has made of the cost to the NHS of treating each such group in each year; what proportion of such expenditure was recovered through charges to such patients and their insurers in each year; and if he will make a statement. [290671]

Mr. Mike O'Brien: The total audited national income from overseas patients under non-reciprocal arrangements and total losses, bad debt and claims abandoned for overseas visitors for years 2002-03 to 2008-09 for which figures are available for England and North East Cambridgeshire are shown in the tables.

The provisions of the NHS (Charges to Overseas Visitors) Regulations 1989 place a legal obligation on providers of National Health Service hospital services to establish whether patients are ordinarily resident in the United Kingdom and, if not, whether they are exempt from charges under the provisions of the regulations or liable to pay for any treatment provided. Under the regulations a number of categories of non-British citizens who are currently either resident or visiting the UK are exempted from charges for some or all of their NHS treatment. These include, but are not limited to, nationals of the European economic area states and other countries with which the UK has a bilateral health agreement, students and some workers.

The figures provided therefore reflect chargeable patients under these regulations. Successive governments have not required the NHS to provide separate statistics on the number of non-British residents seen, treated or charged under these provisions. Therefore, it is not possible to provide that level of information.

The total audited national income from overseas patients under non-reciprocal arrangements, and total losses, bad debt and claims abandoned for overseas visitors for years 2002-03 to 2008-09 for which figures are available for England.

£

	Non-reciprocal income received	*Bad debts and claims abandoned in respect of overseas patients*
2002-03	—	2,109,000
2003-04	9,178,000	3,334,173
2004-05	10,883,000	2,369,650
2005-06	13,070,000	3,883,017
2006-07	15,182,925	5,046,763
2007-08	18,167,000	6,468,751
2008-09	17,541,000	5,204,856

Notes:
1. 2003-04 was the first year we separately identified income from overseas patients under non-reciprocal agreements. Therefore there are no data before this time.
2. We do not collect data from NHS Foundation Trusts so figures from 2004-05 onwards exclude these sites.

Source:
NHS Trust Audited Summarisation Schedules.

The total audited income from overseas patients under non-reciprocal arrangements, and total losses, bad debt and claims abandoned for overseas visitors for years 2002-03 to 2008-09 for which figures are available for those organisations within North East Cambridgeshire.

Notes:
1. 2003-04 was the first year we separately identified income from overseas patients under non-reciprocal agreements. Therefore there are no income data before this time.
2. The Department keeps data from the individual Summarisation schedules of NHS bodies for seven years; therefore losses data are only available for the years 2002-03 to 2008-09.
3. In 2004-05 Addenbrookes NHS Trust obtained foundation status and became Cambridgeshire University Hospital Foundation Trust. The 2004-05 figure represents *onl*y the part of the year the organisation operated as a NHS Trust after which no national data have been collected.
4. In 2004-05 Peterborough Hospitals NHS Trust obtained foundation status and became Peterborough and Stamford Hospitals Foundation Trust. There are no losses data for Peterborough Hospitals NHS Trust.
5. In 2004-05 Kings Lynn and Wisbech Hospitals NHS Trust became Queen Elizabeth Hospital Kings Lynn NHS Trust.
Source:
NHS Trust Audited Summarisation Schedule

Health Services: West Yorkshire

Greg Mulholland: To ask the Secretary of State for Health how many serious untoward incidents arising from the provision of patient care in out-of-hours and urgent care services were registered by each primary care trust in West Yorkshire in each quarter since April 2008. [290623]

Mr. Mike O'Brien: This information is not collected centrally.

Greg Mulholland: To ask the Secretary of State for Health what performance standards against the internal operating requirement benchmarks for measuring the quality of out-of-hours service providers were reported to each primary care trust in West Yorkshire in each quarter since April 2008. [290624]

Mr. Mike O'Brien: This information is not collected centrally.

From 1 January 2005 all providers of out-of-hours (OOH) services have been required to comply with the national OOH Quality Requirements, first published in October 2004 (a copy of which has been placed in the Library). Following the National Audit Office 2006 report The Provision of Out of Hours Care in England, the Department worked with the Royal College of General Practitioners to review the Quality Requirements, which were updated in July 2006.

All out-of-hours services must be delivered to the National Quality Requirements, ensuring that patients have access to consistently high quality and responsive care, regardless of where they live.

Providers must report regularly to primary care trusts on their compliance with the Quality Requirements, and their services will be regularly audited to ensure that patients are receiving quality care.

Hepatitis

Lynne Jones: To ask the Secretary of State for Health what recent estimate his Department has made of the rate of contraction of Hepatitis C via the sharing of notes and straws by cocaine users; what measures are in place to discourage this practice; and if he will make a statement. [290947]

Mr. Mike O'Brien: The Department has not made such an estimate. Current advice from the Advisory Group on Hepatitis is that the sharing of bank notes or straws for intranasal cocaine use is a theoretically plausible route of hepatitis C transmission, but that robust evidence of an actual risk is lacking. The NHS hepatitis C website (www.nhs.uk/hepc) recommends that intranasal cocaine users do not share straws or banknotes because of this potential risk.

Hospitals: Food

Mr. Burns: To ask the Secretary of State for Health what the average daily allocation of funding is for food for a hospital inpatient. [290765]

Mr. Mike O'Brien: There is no national health service daily allocation as such so this information is not collected in the precise format requested. However, information provided to the Department shows that in 2007-08 the average cost of feeding one patient per day was £6.97.

This cost relates to the average daily cost for the provision of all meals and beverages fed to one patient per day, across all NHS trusts in England. The cost should include all pay and non-pay costs, including provisions, ward issues, disposables, equipment and its maintenance.

The information has been supplied by the NHS and has not been amended centrally. The accuracy and completeness of the information is the responsibility of the provider organisation.

Knee Replacements

Mr. Grogan: To ask the Secretary of State for Health which primary care trusts have provided Rheo knees to patients requiring an advanced technology leg prosthesis in the last two years. [290909]

Mr. Mike O'Brien: I regret that the information requested is not collected centrally.

Medical Treatments: Compensation

Lindsay Roy: To ask the Secretary of State for Health when his Department last made provision for an ex-gratia payment to a patient group affected by a product dispensed by the NHS. [290683]

Mr. Mike O'Brien: The Department provides funding to the following organisations who make ex-gratia payments related to contaminated blood or blood products.

The Macfarlane Trust, which was set up in 1988 to establish a hardship fund to assist haemophiliacs who contracted HIV following treatment with blood products on the national health service.

The Eileen Trust, which was set up in 1993 as a charitable trust to assist people other than those with bleeding disorders, who had contracted HIV through NHS treatment with contaminated blood products.

The Skipton Fund Ltd., which was set up in 2004 as an ex-gratia payment scheme for patients infected with hepatitis C through NHS contaminated blood and blood products, provided the patient was alive on 29 August 2003.

Funding is provided to the Macfarlane Trust and Eileen Trust twice a year. The Skipton Fund receives funding as required during the year.

Details of individual payments to patients are not held centrally by the Department.

Mental Health Services

Jenny Willott: To ask the Secretary of State for Health how many and what proportion of adults receiving secondary mental health services were living in settled accommodation in each of the smallest geographical areas for which figures are available in each year since 2000; and if he will make a statement. [290827]

Mr. Mike O'Brien: The data requested for previous years are not currently collected, however information for 2008-09 is due to be published later this year.

NHS: Expenditure

Mr. Bone: To ask the Secretary of State for Health what the cost to the Exchequer of the NHS has been in *(a)* cash and *(b)* real terms in each year since 1990; and what proportion of (i) gross domestic product and (ii) public expenditure such expenditure represented in each such year. [290726]

Mr. Mike O'Brien: Table 1 shows total net national health service expenditure in England in *(a)* cash and *(b)* real terms in each year since 1990.

Table 2 shows United Kingdom health expenditure as a proportion of (i) gross domestic product (GDP) and (ii) total managed expenditure.

Table 1: NHS Total Expenditure: England—1990-91 to 2010-11

2010-11	Plan	105.8	103.2

Notes:
[1] Expenditure pre 1999-2000 is on a cash basis.
[2] Expenditure figures from 1999-2000 to 2002-03 are on a stage 1 resource budgeting basis.
[3] Expenditure figures from 2003-04 to 2010-11 are on a stage 2 resource budgeting basis.
[4] Figures are not consistent over the period (1990-91 to 2010-11), therefore it is difficult to make comparisons across different periods.
[5] Figures from 2003-04 include a technical adjustment for trust depreciation.
[6] Expenditure excludes NHS (AME).
[7] GDP deflator 30 June 2009.
[8] Total Expenditure is calculated as the sum of revenue and capital expenditure net of non-trust depreciation and impairments. This is in line with HMT guidance.

Table 2: UK health expenditure as a proportion of (i) gross domestic product, and (ii) total managed expenditure

Calculated percentages use information on:
- Health Public Spending—Table 4.2/Table 4.4 HM Treasury PESA 2009
- ONS data for money GDP (not seasonally adjusted, BKTL)
- Total Managed Expenditure: Budget 2009 Table C17

GDP and public expenditure are reported on a UK basis by HM Treasury. In order to avoid a misleading calculation, UK based figures for health expenditure have been used in the calculation. The same method is applied in response to similar questions posed as part of the Health Select Committee's Public Expenditure Inquiry. Please note easily accessible health figures available on this basis only back to 1993-94.

NHS: Finance

Sandra Gidley: To ask the Secretary of State for Health what methodology his Department will use to assess the outcome of its individual budget pilots. [288889]

Mr. Mike O'Brien: I refer the hon. Member to the response given on 15 July 2009, *Official Report*, column 537W.

The Department has specified what the evaluation of the pilots should look at, rather than prescribing a particular methodology. Researchers have been invited to submit proposals explaining how they would meet that specification. This is the Department's normal approach. We are currently working to select an evaluation team and we hope to have one in place shortly.

The evaluation will cover five main areas: the effect on people's health and wellbeing, behavioural change by both individuals and national health service staff, financial outcomes, effects on the wider NHS, and how personal health budgets are delivered.

NHS: Per Capita Costs

Mr. Bone: To ask the Secretary of State for Health what estimate he has made of the cost of the NHS in *(a)* cash and *(b)* real terms per (i) family, (ii) household and (iii) person in England in each year since 1990. [290772]

Mr. Mike O'Brien: The following table shows national health service expenditure per head in England since 1990. The Department does not routinely collect or collate data on a family or household basis so this further information has not been supplied. However, indicative estimates could be derived from expenditure per head figures.

Total net NHS expenditure per head for England 1990-91 to 2008-09

		Net NHS spend per head nominal (£)	*Net NHS spend per head real (2008-09 prices) (£)*
1990-91	outturn	468	756

2. Expenditure figures are on a cash basis.
3. Calculation derived from ONS Population mid-estimates. Expenditure figures 1998-99 to 2002-03.
4. Expenditure in 1998-99 is on a cash basis.
5. Expenditure figures from 1999-2000 to 2002-03 are on a Stage 1 Resource Budgeting basis.
6. Per head figures are rounded to the nearest £10.
Source:
Expenditure figures for England - Department of Health, England.
Expenditure figures 2002-03 to 2008-09
7. Health Expenditure is defined under the HM Treasury's Total Expenditure on Services (TES aggregate). This definition allows comparison on the same basis between England and the Devolved Administrations. The TES definition of Health Expenditure for England includes most Department of Health resource near cash (excludes certain items e.g. grants to local authorities) plus local authority spending, Medical Research Council spending plus National Lottery spending on health.
8. Near cash can be defined as transactions that have an impact on cash flow in the short term, e.g. pay and pension costs on goods and services, or cash payments for the release of provisions.

HM Treasury Public Expenditure Statistical Analyses 2009 Tables 9.11 and 9.15
9. Figures are not consistent over the period therefore it is difficult to make comparisons across different periods
10. Figures may not be consistent with those published elsewhere due to updated sources.

Prescriptions: Fees and Charges

Mr. Dhanda: To ask the Secretary of State for Health what recent representations he has received on the exemption from prescription charges for sufferers of coeliac disease. [290855]

Mr. Mike O'Brien: In the period 1 January 2009 to 1 September 2009, the Department received six written representations concerning the exemption of individuals with coeliac disease from prescription charges.

SunSmart

Mr. Bruce George: To ask the Secretary of State for Health if he will require the SunSmart campaign to use the funds allocated to it from the public purse to increase its level of activity in schools. [290676]

Mr. Mike O'Brien: SunSmart, the national skin cancer prevention and sun protection campaign, is run by Cancer Research UK on behalf of the UK Health Departments. Schools have always been an important target audience for the campaign. All schools have been encouraged to develop their own sun protection policies with guidelines available from the SunSmart website at:

www.sunsmart.org.uk

which provides schools and parents with the opportunity to ask for further information around skin cancer and sun protection issues. The campaign also provides resources for schools which align with the national curriculum.

In spring 2009, a SunSmart competition aimed at raising awareness of SunSmart's sun protection messages ran across primary schools in England.

Swine Flu

Mr. Pelling: To ask the Secretary of State for Health (1) how many of those with a virologically-confirmed case of H1N1 infection reported between 17 and 30 June 2009 inclusive were hospitalised as a result of the infection; and how many of those were aged *(a)* under 10, *(b)* between 10 and 19, *(c)* between 20 and 29, *(d)* between 30 and 39, *(e)* between 40 and 49, *(f)* between 50 and 59 and *(g)* over 59 years of age; and for how many of those hospitalised no age was recorded; [290812]

(2) how many *(a)* male, imported, *(b)* female, imported, *(c)* male, indigenous, *(d)* female, indigenous and *(e)* other new cases of H1N1 were virologically confirmed in England, Wales and Northern Ireland between 17 June and 30 June 2009 inclusive; how many in each category related to patients (i) aged under 10, (ii) between (A) 10 and 19, (B) 20 and 29, (C) 30 and 39, (D) 40 and 49, (E) 50 and 59 and (F) 60 years or more and (iii) for whom no age is recorded; in respect of how many cases in each category the Health Protection Agency (HPA) has recorded (1) the date of onset of symptoms, (2) the date of swab sample for diagnosis and (3) the date of the H1N1 case report; and in how many such cases in each category the start date of antiviral prophylaxis or other treatment is also known to the HPA; [290813]

(3) how many of the confirmed cases of H1N1 infection in England and Wales reported by 16 June 2009 were hospitalised; and how many such patients were *(a)* aged (i) under 10, (ii) between 10 and 19, (iii) between 20 and 29, (iv) between 30 and 39, (v) between 40 and 49, (vi) between 50 and 59 and (vii) over 59 years old and *(b)* of unknown age. [290814]

Mr. Mike O'Brien: The available information is given in the following tables.

Not all of the data requested are available. Detailed information was collected on the first few hundred cases to provide information on the virus, it was not possible for the Health Protection Agency to continue to collect that level of detailed information as the number of cases increased.

Number of hospitalised virologically-confirmed pandemic influenza A(H1N1v) 2009 cases between 17-30 June 2009 reported to Health Protection Agency (HPA) Centre for Infections (CfI)[1]

Age group—years	*Number*
0-9	32
10-19	15
20-29	13
30-39	5
40-49	9
50-59	2
60+	3
Unknown age	1
Total	80

[1] These are the cases reported to HPA CfI between 17-30 June 2009 from England. No cases were reported for the period from Wales and Northern Ireland.

Imported and indigenous virologically-confirmed pandemic influenza A(H1N1v) 2009 cases known to the Health Protection Agency between 17 June and 30 June 2009 by age

		Age group—years

Swine Flu: Drugs

Paul Rowen: To ask the Secretary of State for Health (1) what steps he plans to take to maintain adequate levels of manufacturing capacity in the UK for generic *(a)* antibiotics and *(b)* anti-viral drugs; [290720]

(2) which suppliers of anti-viral drugs for the treatment of swine influenza manufacture such drugs in the UK. [290721]

Mr. Mike O'Brien: The United Kingdom has stockpiled both Relenza, manufactured by GlaxoSmithKline (GSK), and Tamiflu, manufactured by Roche. Neither product is manufactured in the UK. Based on scientific advice from the British Thoracic Society, the Government have stockpiled 15.3 million treatment courses of antibiotics as part of their pandemic response.

In addition, the Office for the Life Sciences, working with relevant Whitehall departments including the Department of Health has recently published a Life Sciences Blueprint. This sets out the Government's commitments on a range of issues which we and industry have identified as being most important to make the UK attractive to the life sciences industries (including the pharmaceutical industry) including manufacturing.

Swine Flu: Northamptonshire

Mr. Hollobone: To ask the Secretary of State for Health what trends have been identified in the incidence of swine influenza in Northamptonshire. [290889]

Mr. Mike O'Brien: Information on influenza-like illness by primary care trust is published on the Health Protection Agency website at:

www.hpa.org.uk/hpr/infections/primarycare.htm

Influenza-like illness has been declining in recent weeks, following a peak in July.

We are now relying on clinical diagnosis instead of laboratory confirmation to identify cases of swine flu and so no longer have detailed data about the precise number of cases. The estimated total number of cases of swine flu is mathematically modelled for England each week using the available surveillance information and the downward trend in cases is continuing.

Vulnerable Adults: Protection

Bob Spink: To ask the Secretary of State for Health how many times his Department's Project Steering Group has convened since the publication of the No Secrets guidelines; and if he will make a statement. [290856]

Phil Hope: The review of the "No Secrets" guidance has been overseen by two groups; the Programme Board and the Advisory Group. The membership of both is published in the consultation document, "Safeguarding Adults: A consultation on the review of the 'No Secrets' guidance"—Department of Health, October 2008. A copy has already been placed in the Library.

The remit of the Programme Board is to review the effectiveness of present multi-agency safeguarding and adult protection guidance in producing positive outcomes for individuals at risk of abuse in the light of emerging information from recent cases, recent inspections and in the context of the Government's overall policy agenda in both health and social care, and to carry out a national consultation on these issues. The Advisory Group's remit was to advise on issues relevant to the consultation. The Programme Board met on 21 May 2008, 25 June 2008, 9 October 2008 and 2 September 2009. The Advisory Group met on 7 May 2008, 26 September 2008 and 12 November 2008.

The consultation opened on 16 October 2008 and closed on 31 January 2009. The analysis of the consultation responses was published on 17 July 2009. The time taken to publish the analysis reflected the fact that some 12,000 people, including those with learning difficulties, older people, those with mental health problems and people from a wide variety of ethnic backgrounds, participated in the consultation.

OLYMPICS

Olympic Games 2012: Consultants

Mr. Don Foster: To ask the Minister for the Olympics how many contracts have been granted to consultants in relation to London 2012 in each year since 2004; to whom the contract was granted in each case; what each project was; and how much each contract was worth. [277458]

Tessa Jowell: The procurement of consultancy services by both GOE and ODA is a planned response to the need to deliver the Government's commitments and guarantees to deliver the London 2012 games on time and within a budget of £9.325 billion.

The consultants provide valuable short term support or key specialist skills and expertise not otherwise readily available.

The use of consultants has enabled us to make excellent progress across the many facets of the Olympic programme and in particular in the construction of the Olympic venues and development of legacy planning. As well as rapid progress we have seen significant savings across the venues and infrastructure construction programme, whose anticipated final cost (AFC) fell by £179 million from £7,413 million when we published the London 2012 Olympic and Paralympic Games Annual Report in January 2009 to £7,234 million when we published our Quarterly Economic Report in May 2009.

As the IOC recently recognised, inputs such as these are continuing to transform the Lower Lea Valley and provide a lasting legacy for the people of London and the UK.

Spending by the Olympic Delivery Authority on consultancy fees reduced from £19.8 million (3.7 per cent. of total ODA spend) in 2007-08 to £16 million (1.2 per cent.) in 2008-09.

This reduction reflects the shift from the planning, design and preparation phase of the programme, where consultancy costs are traditionally concentrated, to the development phase.

Spending by the Government Olympic Executive (GOE) on consultancy was £0.4 million in 2007-08 and £0.3 million in 2008-09, 4.6 per cent. and 3.4 per cent. respectively of GOE's total budget.

Details for contracts let by the Government Olympic Executive (GOE), the former Olympic Programme Support Unit and the Olympic Delivery Authority (ODA) to July 2008 were set out in the answer that I gave to the hon. Member on 4 November 2008, *Official Report*, column 292W. I have placed in the Libraries of both Houses tables which set out in the following:

the details of contracts let by the GOE from 1 April 2008 to 31 March 2009.

The value of payments during the whole of 2008-09 to consultants who were contracted by the ODA during earlier years and remained engaged during 2008-09 and to those who were newly contracted during 2008-09. The table for ODA contractors excludes those listed in my earlier answer whose services ended before 2008-09 began. The information is, therefore, presented differently to that in my earlier answer, which listed the names of ODA's consultants by the year in which they were first contracted together with, in the case of each consultant, a cumulative figure for the value of ODA consultancy spend to July 2008.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence whether UK forces in Afghanistan have a guarantee of secondary medical support within an hour following a major injury. [289117]

Mr. Bob Ainsworth: Medical support in Afghanistan is provided in accordance with Military Medical Doctrine and takes account of the requirements of different types of injury. Operational and medical support planning is done in accordance with these guidelines. This doctrine allows two hours to get the casualty to a primary surgery facility.

All infantry troops are accompanied by a team medic, at a ratio of one to four, who is able to provide Role 1 care; immediate airway and haemorrhage control within 10 minutes. Battle Field Advanced Trauma Life Support (BATLS) is provided to all injured personnel within one hour; the airborne Medical Emergency Response Teams that are dispatched to incidents where casualties have been sustained bring Accident and Emergency (Role 2) level care and resuscitation, including the ability to ventilate patients and give blood during flight, to the front line.

The Allied Command Operations Directive 83-1 (Medical Support to Operations) requires that casualties requiring surgery should be under treatment in a correctly equipped facility, a Role 3 facility such as Camp Bastion Hospital, within two hours of being wounded. We adhere to this directive.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence what Ridgback vehicles have been *(a)* delivered to and *(b)* shipped from the United Kingdom; and what the delivery number of each such shipment was. [290922]

Mr. Quentin Davies: 157 base vehicles ordered under the Ridgback programme have been delivered to the UK. I am withholding details of vehicles delivered to Theatre as this could compromise operational security.

Ann Winterton: To ask the Secretary of State for Defence when he expects Ridgback vehicles to be used in operations. [290923]

Mr. Quentin Davies: Ridgeback vehicles have been used operationally in Afghanistan since June this year.

Ann Winterton: To ask the Secretary of State for Defence whether Ridgback vehicles will be fitted with new suspension units to improve off-road performance. [290924]

Mr. Quentin Davies: Ridgback does not have any suspension problems. Trials are due to begin in October 2009, looking at ways of improving the mobility and payload of the various Ridgback variants, and as part of this alternative suspension systems will be investigated. This is part of the ongoing improvement programme for all protected mobility vehicles; as the first phase of the trial and evaluation process is not due to complete until the end of this year, it is too early to say what modifications might be made.

Ann Winterton: To ask the Secretary of State for Defence what recent progress has been made in the Light Protected Patrol Vehicle programme; and if he will make a statement. [290955]

Mr. Quentin Davies: Some 30 expressions of interest were received for the Light Protected Patrol Vehicle programme following publication in the Defence Contracts Bulletin on 25 February 2009. Pre-Qualification Questionnaires were issued in response to these expressions of interest and 16 responses have been received; these are currently being evaluated and down-selected. The intention is that the vehicle should enter service in 2011.

Defence Trade Treaty

Stewart Hosie: To ask the Secretary of State for Defence when he expects the US-UK bilateral defence trade treaty to be ratified. [290787]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave on 1 September 2009, *Official Report*, column 1808W, to the hon. Member for Lancaster and Wyre (Mr. Wallace).

Departmental Billing

John Mason: To ask the Secretary of State for Defence what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288903]

Mr. Quentin Davies: Performance figures for June 2009, against the Government's agreed 10 day payment target, are as follows:

	Percentage
FMSSC	97.5
Met Office	92.3
UKHO	97.4
DSTL	27.8

We are working with the Defence Support Group towards a target to pay trade creditors' invoices within 10 days of receipt.

Departmental Expenditure

Angus Robertson: To ask the Secretary of State for Defence how much his Department incurred in *(a)* equipment expenditure, *(b)* non-equipment expenditure, *(c)* service personnel costs and *(d)* civil personnel costs in Scotland in each year since 1997. [290801]

Mr. Quentin Davies: Estimated direct MOD expenditure in Scotland under the categories requested for the years where data are available (i.e. 2001-02 to 2006-07) are presented in the following table:

VAT exclusive at current prices (£ million)

Scotland	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Total	1,480	1,560	1,720	1,630	1,720	1,620
of which:						
(a) Equipment expenditure	450	580	670	600	560	520
(b) Non Equipment expenditure	320	270	300	290	400	320
(c) Service personnel costs	480	510	570	560	560	590
(d) Civilian personnel costs	230	200	180	180	200	190

Notes:
1. Figures are rounded to the nearest £10 million.
2. Figures relate to expenditure in the whole Scottish Government Office Region rather than to any individual military or civilian establishments.
3. Indirect expenditure, such subcontracted work, is not reflected in the figures.
4. Personnel costs exclude contributions made by MOD to the Armed Forces Pensions Scheme and War Pensions Scheme.
5. Data were either not prepared or were deemed not to be of sufficient quality prior to 2001-02.

Helicopters: Nepal

Clare Short: To ask the Secretary of State for Defence what the outcomes were of his Department's investigation into the gifting of two M1-17 helicopters from the Conflict Prevention Fund to the Royal Nepal Army in 2002; and if he will make a statement. [290892]

Bill Rammell: After investigation, MOD Police Fraud Squad concluded that there was no evidence of criminality in the procurement and purchase process of these helicopters, nor any misappropriation or misuse of UK Government funds. The Nepalese Government has been advised to dispose of them in the manner which best suits them.

Manpower: Fife

Willie Rennie: To ask the Secretary of State for Defence what estimate he has made of the number of civilian jobs there have been in the defence sector in Fife in each year since 1997. [290678]

Mr. Quentin Davies: Figures for the numbers of MOD civilian personnel who are directly employed at MOD establishments/bases located in the Fife local authority area in each of the years since 1997 where data are available are presented in the following table. Requested information prior to 2007 broken down at local authority level is not available and cannot be compiled without incurring disproportionate costs.

Table 1: MOD civilian personnel directly employed in MOD establishments/ bases located in the Fife local authority area as at 1 January of each year.

	Number
2007	790
2008	770
2009	730

Source:
DASA CPS06

Estimates for those people employed directly and indirectly in industry and commerce in Scotland in those companies that receive contracts directly from MOD and indirectly through the supply chain supporting such contracts (for each of the last five years) where data are available are presented in the following table. Requested information prior to 2002-03 broken down at local authority level is not available and cannot be compiled without incurring disproportionate costs.

Table 2: Estimated Direct employment dependent on MOD expenditure in Scotland

	Direct	*Indirect*	*Total*
2002-03	10,000	2,500	12,500
2003-04	10,000	2,500	12,500
2004-05	9,000	2,500	11,500

Table 2: Estimated Direct employment dependent on MOD expenditure in Scotland

	Direct	Indirect	Total
2005-06	9,000	2,500	11,500
2006-07	7,000	2,000	9,000

Note:
Figures rounded to the nearest 500 jobs

Missiles

Mr. MacNeil: To ask the Secretary of State for Defence what tracking system for missiles his Department will use in circumstances in which its proposal to close its base on St. Kilda is implemented. [290696]

Mr. Quentin Davies: There is no intention to close the St. Kilda base. Under the proposals to rationalise the use of the MOD Hebrides ranges, the more modern G-Band radars based on South Uist would perform the missile tracking role in place of the ageing I-Band NIDIR radars based on St. Kilda.

Navy

Mr. Hancock: To ask the Secretary of State for Defence what the cost of operating a *(a)* Type 22, *(b)* Type 23 and *(c)* Type 42 vessel was in the last year for which information is available; and what the estimated annual cost of operating a Type 45 vessel is. [287196]

Mr. Quentin Davies: Operating costs for Royal Navy vessels are not held centrally. Officials are, however, in the process of compiling this information and I will write to you once the work has been completed.

Substantive answer from Quentin Davies to Michael Hancock:

I undertook to write to you in answer to your Parliamentary Question on 1 September 2009 (Official Report, column 1804W) regarding the operating costs for various Royal Navy vessels.

As you are aware from my previous answer, such costs are not held centrally within the Ministry of Defence. Officials have, however, consolidated the key cost driver information in order to provide you with approximate annual operating costs for Type 22 and Type 23 Frigates, and Type 42 Destroyers. Current estimates of the operating costs for Type 45 Destroyers have also been provided.

I should first make clear that, as the Type 45 Destroyers have not fully entered service with the Royal Navy, their costs are estimates and not directly comparable with the actual operating costs provided for in-service vessels. This is due to the different cost base information that has been used in determining operating costs for each class of vessel, which is explained below.

As you will also be aware, in-service Class operating costs are heavily influenced by an individual ship's operational tasking and upkeep/maintenance regime during any particular 12 month period. Direct comparisons can, therefore, be misleading and should be avoided. For the same reasons it is pragmatic to only provide operating costs for each class of ship, rather than for an individual vessel.

The annual operating cost for the Type 22 Class of Frigates, which comprises four ships, is £129.8M. This is based on information primarily from Financial Year 07/08 the last year for which this information is available, and includes typical day-to-day costs such as fuel and manpower and general support costs covering maintenance, repair and equipment spares. Costs for equipment spares are also included, although these are based on Financial Year 08/09 information as this is the most recent information available. Costs for weapon system support are not included as they could only be provided at disproportionate cost.

The Type 23 Class of Frigates, comprising 13 vessels, has a combined annual operating cost of £340.3M. This figure is derived in the same way as that for the Type 22 Class cost.

The annual operating cost of the Type 42 Class of Destroyers, covering a total of eight vessels in the 07/08 period, is £250.8M. The costs have been derived in the same way as the Type 22 and 23 Frigates.

Turning to the Type 45 Destroyers, their actual running costs cannot be provided as the First of Class, HMS DARING, has not yet entered operational service with the Royal Navy. For the purpose of internal planning, however, estimates have been derived from cost modelling based on a class of six ships, which indicate a support cost of around £188 million per annum for the Class. This figure includes support for weapon systems (including the Sea Viper missile system) but excludes a number of other operational costs, such as berthing and fuel, which have yet to be determined.

I hope this information is helpful.

Navy: Scalpay

Mr. Weir: To ask the Secretary of State for Defence whether he has received reports of the involvement of a Royal Navy submarine in an incident off the Isle of Scalpay on 24 July 2009. [290797]

Bill Rammell: A Royal Navy submarine was conducting routine training off the Isle of Scalpay on the 24 July 2009, but it was not involved in any incident. A Scottish Fisheries Protection vessel and a Maritime Patrol Aircraft were also in the area at the time, but these units were not involved in any coordinated activity.

NIDAR Radar System

Mr. MacNeil: To ask the Secretary of State for Defence how often he expects the NIDAR radar system on St. Kilda to be used in each of the next seven years. [290695]

Mr. Quentin Davies: We are unable to predict how often the I-Band NIDIR radar on St. Kilda will be used in each of the next seven years. They are, however, currently used infrequently and this usage will continue to decline as the majority of the current and planned weapons systems are equipped for G-Band radar tracking.

St. Kilda

Mr. MacNeil: To ask the Secretary of State for Defence by what mechanisms the outer range area will be *(a)* monitored and *(b)* used by his Department in circumstances in which its proposal to close its base on St. Kilda are implemented. [290697]

Mr. Quentin Davies: The proposal would not involve the closure of the St. Kilda base. Range area monitoring would also not be affected by this proposal. The surveillance radars on St. Kilda remain but would be remotely controlled and deep range clearance would therefore be unaffected.

Trident

Nick Harvey: To ask the Secretary of State for Defence what estimate he has made of his Department's likely expenditure on the Initial Gate phase for Trident. [288778]

Mr. Bob Ainsworth: The UK's nuclear deterrent comprises a number of elements, including the Trident D5 missile system, the nuclear warhead and the Vanguard Class submarines. Decisions are not required in the near future on the D5 missile or the warhead and neither will be included in the forthcoming Initial Gate business case, which will concentrate on the replacement submarine and associated propulsion system.

Initial Gate is a decision point in the acquisition process. The final spend on reaching Initial Gate cannot be calculated until after that point is reached; however, the total spend on the replacement submarine and associated propulsion system since the beginning of April 2007 to the end of June 2009 is some £250 million.

Until Initial Gate decisions are made it is too early to say what the likely expenditure will be for the period between that time and the Main Gate decision point.

Unmanned Air Vehicles

Stewart Hosie: To ask the Secretary of State for Defence (1) when he expects the final Reaper unmanned air system to be delivered; [290783]

(2) when he expects the third Reaper unmanned air system to be cleared to fly in US airspace; [290784]

(3) how many flight training hours have been purchased from the United States Air Force to train Royal Air Force crews on the Reaper unmanned air system; and what the cost was of that purchase. [290785]

Mr. Quentin Davies: The final Reaper unmanned air vehicles are due to be delivered in 2010. I am withholding further details as disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

We are delivering the training of UK Reaper mission crews through a combination of places on the US Air Force Reaper Formal Training Unit and the UK Reaper Operational Conversion Course based at Creech Air Force Base, Nevada. I am withholding further details of the support provided by the US Air Force as its disclosure would prejudice commercial interests.

In the longer term, the UK is exploring the viability of basing and flying a UK Reaper unmanned air vehicle in US airspace to support UK mission crew training. We are, however, in the very early stages of this complex process and it is too early to comment on when a UK Reaper unmanned air vehicle might require or receive clearance to fly in US airspace.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments

Bob Russell: To ask the Secretary of State for Communities and Local Government what his Department's policy is on the provision of allotments by local authorities; what guidance his Department has issued to local authorities on the matter since 1997; and if he will make a statement. [290742]

Mr. Ian Austin: The provision of allotments is the responsibility of local authorities. Section 23 of the Small Holdings and Allotments Act 1908 places a duty on local authorities (except for inner London boroughs) to provide sufficient allotments where they consider that there is a demand for them in their area.

Government do not provide a formula for local authorities to determine the number of allotments they should provide. However, the Planning Policy Guidance Note 17: Planning for Open Space, Sport and Recreation 2002 (PPG17) requires local authorities to make provision for all types of open space and requires them to undertake robust assessments of local needs and audits of existing open space, to establish standards for new provision. The accompanying guidance to PPG17 advises local authorities on setting local standards.

Given the ever increasing demand for allotments, my Department has recently written to the Government Office responsible for determining applications for consent for disposal of statutory allotments in England on behalf of the Secretary of State, to stress the need to demand and scrutinise evidence from local authorities to support their applications for allotment disposals.

"Growing in the Community", a good practice guide to assist those who manage allotments to work effectively, was published by the Local Government Association in 2001. This was updated in March 2008.

Community Relations: Finance

Mr. Holloway: To ask the Secretary of State for Communities and Local Government how much has been allocated to each group receiving funding under the Prevent Partnership area-based grant in each area since 2008. [290716]

Mr. Ian Austin: 78 local authorities in England received Prevent funding through Area Based Grant in 2008-09. 82 local authorities received funding in 2009-10. They are:

Region	*Local authority*	*£ 2008-09*	*£ 2009-10*
London	London Borough of Hounslow	165,000	218,292
	London Borough of Brent	205,000	268,292
	London Borough of Ealing	205,000	268,292
	London Borough of Hammersmith and Fulham	125,000	168,292
	London Borough of Harrow	145,000	193,292
	London Borough of Hillingdon	125,000	168,292
	London Borough of Barking and Dagenham	105,000	143,292
	London Borough of Barnet	165,000	218,292
	London Borough of Bexley	—	143,292
	London Borough of Bromley	105,000	143,292
	London Borough of Camden	185,000	243,292
	London Borough of Croydon	165,000	218,292
	London Borough of Enfield	185,000	243,292
	London Borough of Greenwich	125,000	168,292
	London Borough of Hackney	205,000	268,292

Region	Local authority	2008-09 £	2009-10 £
	London Borough of Haringey	185,000	243,292
	London Borough of Islington	145,000	193,292
	London Borough of Lambeth	145,000	193,292

	Hyndburn	105,000	143,292
	Pendle	125,000	168,292
	Preston	125,000	168,292
	Liverpool	105,000	143,292

Figures for 2009-10 include the additional funding for Prevent announced by the Communities Secretary on 28 August.

In April 2009 the then Secretary of State provided a list of groups that local authorities funded in 2008-09 using Area Based Grant, in support of their work on Prevent. This information was placed in the House Library.

Council Housing: Rents

Mr. Oaten: To ask the Secretary of State for Communities and Local Government how much and what proportion of council rent receipts were remitted to the Government for redistribution in each of the last five years; and how much each local authority received in redistributed rents in each such year. [290811]

Mr. Ian Austin: Tables containing this information have been placed in the House Library.

Departmental Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to page 11 of his Department's Resource Accounts for 2008-09, HC 449, what the reasons are for the increase in the cost of central administration from 2009-10 to 2010-11; and for what reasons the cost of that increase has not been met from annual efficiency savings. [290733]

Mr. Ian Austin: The Department's central administration spending plans (as reported in the 2008-09 Resource Accounts) include the ringfenced administration budget, the Department's own capital expenditure and other current expenditure. It is an increase in the budget for other current expenditure that accounts for the reported increase in budgets between 2009-10 and 2010-11. These costs sit outside of the Department's administration budget, on which it is expected to deliver 5 per cent. annual efficiency savings. Plans for administration spending in 2009-10 and 2010-11 take full account of the efficiency savings required.

Departmental Manpower

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many staff in his Department are employed in a non-party political advisory role on a fixed-term contract for up to 12 months; and how many such staff have been recruited in the last 12 months. [290735]

Mr. Ian Austin: Civil servants provide impartial advice to Ministers whether employed on fixed-term, permanent or other recognised contractual terms. At 31 July 2009, Communities and Local Government employed 59.5 Full Time Equivalent staff on fixed-term contracts.

In the 12 month period to 31 August 2009, our personnel records show that Communities and Local Government made 17 appointments on fixed-term contracts of up to 12 months.

Departmental Ministerial Policy Advisers

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the Answer to the hon. Member for Meriden of 16 July 2009, *Official Report*, column 656W, on Tony Clements, whether Mr Clements *(a)* held a previous position in and *(b)* acted as a consultant to his Department prior to his appointment as a policy adviser in the Department. [290658]

Mr. Ian Austin: Tony Clements has neither held a previous position in the Department nor acted as a consultant to the Department.

Departmental Property

Justine Greening: To ask the Secretary of State for Communities and Local Government what Crown Estate properties his Department owns; and what the *(a)* most recent assessed market and *(b)* book value is of each such property. [290941]

Mr. Ian Austin: I refer to the Department for Communities and Local Government Resources Accounts 2008-09 (for year ended 31 March 2009) available on the website

http://www.communities.gov.uk/documents/corporate/pdf/1299006.pdf

As at 31 March 2009 the following properties were revalued professionally in accordance with RICS Valuations Standards, by ATISReal Limited—Chartered Surveyors and International Real Estates Consultants.

Queen Elizabeth II Conference Centre, Broad Sanctuary, London was valued during March 2009 by ATISReal. The total valuation was reported at £25,000,000 but with a value of £21,500,000 in the Department's books because of a trading fund outside interest in the property.

Burlington House, Piccadilly, London was valued during March 2009 by ATISReal, at £250,000. Due to the Department's reversionary interest in the property a detailed reinspection was not carried out for the 2009 report.

Fire Experimental Unit Offices and Stores, (on the Fire Service College site) Moreton in Marsh, Gloucestershire was valued during March 2009 by ATISReal. The total valuation was reported at £1,700,000.

Hanger97, Little Rissington, Gloucestershire was valued during March 2009 by ATISReal Chartered Surveyors. The total valuation was reported at £700,000.

Government Departments: Carbon Emissions

Simon Hughes: To ask the Secretary of State for Communities and Local Government, what estimate she has made of the annual emissions savings which would be realised if all Government department headquarters buildings were fully to implement the recommendations made in respect of their assessments for energy performance certificates; and if she will make a statement. [290901]

John Healey: We have not made such an estimate. Energy performance certificates (EPCs) are required on sale, rent or construction of all non-domestic properties from October 2008. Prior to this, EPCs were required on sale, rent or construction of non-domestic properties over 10,000 m^2 from April 2008 and over 2,500 m^2 from July 2008. Few Government department headquarter buildings would have required an EPC since their introduction.

Government Office for London: Manpower

Justine Greening: To ask the Secretary of State for Communities and Local Government how many *(a)* directors, *(b)* senior managers, *(c)* specialists and *(d)* executive support and administration staff are employed by the Government Office for London (GOL); how many such staff are (i) on secondment from each Government department, (ii) employed directly by GOL on permanent contracts and (iii) employed directly by GOL on temporary contracts; and what the planned total salary cost is for each group of such staff in 2009-10. [290943]

Ms Rosie Winterton: The following table sets out permanent, seconded and temporary staff paid for by

GOL as at August 2009 and the projected salary costs for each group for 2009-10.

		Staff seconded to GOL from departments and other organisations				
Staff	*Department*	*Number of staff*	*Permanent GOL Staff*	*Fixed term appointments and agency staff*	*Total staff*	*Total salary cost (£)*
Directors and Deputy Directors (senior managers)	DWP	1	0	0	9	975,236
	CLG	3				
	HO	1				
	DCSF	2				
	DFT	2				
Specialists	Cabinet Office	1	6	0	8	451,486
	CLG	1				
All other staff	CLG	9	150	8	183	8,630,033
	HO	1				
	MOJ	2				
	Defra	1				
	Other	3				
Salary cost (£)		1,774,830	8,130,929	142,995	200	10,056,755

Housing: Barnet

Mr. Dismore: To ask the Secretary of State for Communities and Local Government what bids for housing capital finance by *(a)* Barnet Council, *(b)* Barratt Homes and *(c)* housing associations in respect of housing projects in Barnet have been (i) made, (ii) granted, (iii) refused and (iv) remain to be taken up after being granted to (A) central Government directly, (B) the Housing Corporation and (C) the Homes and Communities Agency for (1) affordable loans for subsidised purchase and (2) social housing for rent; under what schemes each bid was made; and what the (x) sum bid for, (y) number of properties involved and (z) proposed tenure mix was in each case. [29847]

Mr. Ian Austin: The following table shows bids received, approved and rejected through the Homes and Communities Agency's (HCA) (and prior to 1 December 2008 the Housing Corporation's) Affordable Housing Programme (AHP) in 2008-09 for low cost home ownership and social housing for rent. These bids were made by registered social landlords and other providers for schemes sponsored in Barnet. Bids received from Barratt Homes totalled £0.3 million for eight units in 2008-09 and are included in the low cost home ownership bid figure. Barnet council did not bid for AHP funding from the HCA in 2008-09.

The balance between all bids and the sum of allocations made and bids rejected can be due to withdrawal of scheme, decision pending or scheme being resubmitted.

All bids received 2008-09

HCA affordable housing programme	*Grant (£ million)*	*Units*
Total social rent	116.8	770
Total low cost home ownership	16.4	322
Grand total	134.1	1,353

Allocations made 2008-09

HCA affordable housing programme	*Grant (£ million)*	*Units*
Total social rent	76.0	494
Total low cost home ownership	11.8	235
Grand total	87.8	729

All rejected 2008-09

HCA affordable housing programme	*Grant (£ million)*	*Units*
Total social rent	37.1	249
Total low cost home ownership	2.9	59
Grand total	40.9	569

In addition, Barrett Developments PLC has been short listed for HCA Kickstart programme funding in July 2009 for a development of the 'Stonegrove' project in Edgware, which is now undergoing a process of due diligence before the HCA confirms if it will support each scheme. The shortlist has been published at:

http://www.homesandcommunities.co.uk/kickstart-response-shows-industry-appetite?p=3

Other programmes within CLG do not provide homes for social rent or affordable loans for subsidised purchase.

Housing: Valuation

Mr. Dunne: To ask the Secretary of State for Communities and Local Government how many dwellings in *(a)* England and *(b)* Wales have a conservatory according to records held by the Valuation Office Agency. [290804]

Ms Rosie Winterton: As at 2 September 2009, the number in England was 790,429. Matters in Wales are the responsibility of the Welsh Assembly Government.

LLM Communications

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer of 21 July 2009, *Official Report*, columns 1661-2W, on LLM Communications, which Minister in his Department authorised the payment to LLM Communications for services in respect of the Campaign for More and Better Housing. [290659]

John Healey: In 2006 the then Secretary of State for Communities and Local Government, my right hon. Friend the Member for Bolton, West (Ruth Kelly), granted the Campaign for More and Better Homes £25,000 + VAT to help fund a series of regional housing debates.

Local Government Ombudsman

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what mechanisms are in place for oversight of the work of the Local Government Ombudsman; and if he will make a statement. [290736]

Ms Rosie Winterton: Through the Local Government Act 1974 Parliament has established the local government ombudsman as independent of both central Government and local government. Parliament has required the ombudsman to present an annual report to it and the ombudsman's decisions, including on individual cases, can be subject to judicial review by the courts.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what plans he has for the future oversight of the work of the Local Government Ombudsman; and what representations he has received on the creation of a body to oversee that work. [290737]

Ms Rosie Winterton: Through the Local Government Act 1974 Parliament has established the local government ombudsman as independent of both central Government and local government. Parliament has required the ombudsman to present an annual report to it and the ombudsman's decisions, including on individual cases, can be subject to judicial review by the courts. We consider this sufficient.

The Department occasionally receives correspondence or take telephone calls from members of the public seeking clarification on who supervises the work of the ombudsman.

Local Government: Pensions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what plans he has for the future of the Local Government Pension Scheme in respect of arrangements for *(a)* new and *(b)* current local government employees; and if he will make a statement. [290734]

Ms Rosie Winterton: The affordability, viability and the fairness of the Local Government Pension Scheme to taxpayers is kept under regular review. The triennial actuarial valuation exercise of all 89 Scheme pension funds ensures that their pension liabilities can be met, sets affordable employer contribution rates and maintains on-going stability and discipline in overall funding. Regulatory changes to ensure an equitable balance between employers' and members' contributions towards the cost of providing pensions are already in place. If further amendments to the Scheme became necessary, a consultation with Scheme stakeholders will take place, as required by the Superannuation Act 1972.

Non-Domestic Rates

Bob Spink: To ask the Secretary of State for Communities and Local Government if he will make it his policy to extend Small Business Rate Relief to cover enterprises with an annual turnover of less than £500,000; and if he will make a statement. [290858]

Ms Rosie Winterton: The Government have no plans to make such a change. The Small Business Rate Relief scheme is based on the rateable value of premises and is targeted at small businesses occupying premises with low rateable values. Billing authorities do not hold the data on businesses occupying property liable for business rates which would be necessary to base eligibility for Small Business Rate Relief on business turnover rather than the rateable value of their property.

Non-Domestic Rates: Public Consultation

Justine Greening: To ask the Secretary of State for Communities and Local Government whether he has plans to *(a)* extend the closing date of his Department's consultation on transitional arrangements for the non-domestic rating revaluation 2010 in England and *(b)* bring forward the publication date of the 2010 ratings list, in order to make available to companies details of their updated rateable values before such companies make submissions to that consultation. [290942]

Ms Rosie Winterton: We have no plans to extend the closing date for the consultation on the transitional arrangements or to bring forward the publication of the draft 2010 rating lists. The closing date for the consultation of 23 September is required to ensure regulations implementing the transitional arrangements can be made by the end of December 2009 as required by statute. The draft rating lists and summary valuations will not be ready for publication before 30 September.

Standards Board for England: Public Relations

Robert Neill: To ask the Secretary of State for Communities and Local Government whether the Standards Board for England has incurred expenditure on external public relations companies in the last 18 months. [290661]

Ms Rosie Winterton: Out of their budget of £8.2 million for 2008-09 and £7.4 million for 2009-10, which we have provided for the Standards Board for England, the Board spent £416,000 in 2008-09 and plans to spend £325,000 in 2009-10 on external public relations, including outsourcing the production of guidance and training materials for local authorities and the organisation of its Annual Assembly of Standards Committees.

Sustainable Development

Alan Simpson: To ask the Secretary of State for Communities and Local Government what recent assessment he has made of the effectiveness of sustainable procurement policies in each region; and what account he expects to be taken of such policies in the setting of annual carbon budgets. [290650]

John Healey: Regional Development Agencies and local authorities are autonomous bodies responsible for taking their own procurement decisions, subject to the requirements of domestic and European legislation and to the ELV UK regulatory framework. Ministers have no ability to intervene in individual procurement decisions. Existing guidance to local authorities recommends that they take account of sustainability and quality when considering both service delivery options and service suppliers.

Regional Development Agencies are working closely with Government to improve the basis for sustainable procurement, and the RDA Sustainable Procurement Working Group is working to align policies and practices in a consistent fashion across all RDAs.

In November 2007, the Improvement and Development Agency (IDeA) in conjunction with the Local Government Association (LGA) and the North East Centre of Excellence, published a 'Sustainable Procurement Strategy for Local Government' which included a route map of actions for local authorities to ensure they are compatible with the principles of sustainable procurement and development. The IDeA concluded that many local authorities have already attained significant progress in meeting their target to drive up standards in sustainable procurement.

There is no requirement for regions to have carbon budgets. However, we will expect regions to contribute fully to the delivery of the Low Carbon Transition Plan and the Renewable Energy Strategy, including regional targets for the delivery of renewables. The national performance framework for local authorities includes indicators on reducing carbon emissions in their areas, and from their operations, and a large number of authorities have chosen to include these indicators in their Local Area Agreement. The recent consultation document: Strengthening Local Democracy set out proposals on how local authorities could further contribute to meeting national carbon emission targets perhaps through developing their own local carbon budgets. It will be for regional and local authorities to determine how they might meet regional and/or local targets and the role which sustainable procurement policies could play in doing so.

Travelling People: Caravan Sites

Mr. Dunne: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued to local authorities and regional planning bodies on the conduct of and methodology for Gypsy and Traveller accommodation assessments (GTAAs); whether it is his Department's policy that GTAAs should take into account the extent to which the provision of new traveller sites is likely to attract residents from outside the *(a)* local authority and *(b)* study area; and what guidance his Department has issued on the extent to which such potential demand should be reflected in assessments of need. [290803]

Mr. Ian Austin: Communities and Local Government published guidance on "Gypsy and Traveller Accommodation Needs Assessments" in October 2007.

The guidance provides advice to local authorities on carrying out assessments of the accommodation needs of Gypsies and Travellers. It states that the exact approach will need to be adapted to local circumstances.

The responsibility for carrying out the assessment rests with individual local authorities. However, the guidance strongly recommends that local authorities work in partnership with neighbouring authorities. Such an approach will provide a better understanding of migration into, out of, and within the survey area and a better understanding of travelling patterns, particularly where they cross administrative boundaries, factors which must be understood if appropriate provision is to be made.

The guidance advises that the most accurate possible projection of future as well as current need, covering the next 5-10 years, should be made in the assessment. This would include analysis of travelling patterns within the survey area and in and out of surrounding areas; the likely rate of household formation and annual population increase and the intentions of those households planning to move.

Mr. Dunne: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued to local planning authorities on whether likely effect on property values is a material consideration in assessing planning applications for Traveller sites. [290805]

Mr. Ian Austin: Guidance on what matters may be considered as material considerations in assessing planning applications is set out in the 'The Planning System: General Principles', which is an Annex to PPS1. This confirms that material considerations must be genuine planning considerations, i.e. they must be related to the development and use of land in the public interest. The considerations must also fairly and reasonably relate to the application. Ultimately, the Courts are the arbiters of what constitutes a material consideration.

Any development may affect the value of one or more existing properties, either positively or negatively. However, in considering planning applications, including those for Traveller sites, case law, e.g. Great Portland

Estate v. Westminster City Council [1985], has established that the impact of the proposed development on purely private interests cannot generally constitute a material consideration.

Mr. Dunne: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 February 2009, *Official Report*, column 1700W, on planning permission, what guidance has been provided to local planning authorities on equality and diversity in decisions on planning applications relating to Travellers. [290910]

Mr. Ian Austin: Planning policy for Gypsy and Traveller sites is contained in ODPM Circular 01/06 "Planning for Gypsy and Traveller Caravan Sites". This confirms that Gypsies and Travellers have the same rights and responsibilities within the planning system as all other applicants for planning permission. The Circular includes guidance highlighting the general duty that local authorities have under the Race Relations Act 1976, as amended by the Race Relations (Amendment) Act 2000 to actively seek to eliminate unlawful discrimination and to promote equality of opportunity and good relations in all they do. This duty does not give Gypsies and Travellers a right to establish sites in contravention of planning control.

JUSTICE

International Criminal Court

Mr. Carmichael: To ask the Secretary of State for Justice if he will bring forward proposals for the amendment of the International Criminal Court Act 2001 to allow those suspected of committing genocide, war crimes and crimes against humanity prior to 2001 to be prosecuted in UK courts. [288835]

Mr. Straw: I refer the hon. Member to my written ministerial statement on 7 July 2009, *Official Report*, columns 41-42WS. The statement confirmed that we will bring forward amendments to the Coroners and Justice Bill for consideration at Report stage of the Bill. We intend, as far as is permissible under the legal principles applicable to retrospection, to cover the categories of crime of genocide, war crimes and crimes against humanity from 1 January 1991.

Arrests: Bicycles

Sandra Gidley: To ask the Secretary of State for Justice (1) how many people were *(a)* arrested, *(b)* charged with and *(c)* convicted of being under the influence of alcohol while in charge of a bicycle in (i) Test Valley Borough and (ii) Southampton in each of the last five years; [287760]

(2) how many people were *(a)* arrested for, *(b)* charged with and *(c)* convicted of being under the influence of illegal drugs while riding a bicycle on a public road in (i) Test Valley Borough and (ii) Southampton in each of the last five years. [287761]

Mr. Alan Campbell: I have been asked to reply.

The information requested on arrests is not collected centrally. The arrests collection held by the Home Office covers arrests for recorded crime (notifiable offences) only, broken down at a main offence group level, covering categories such as violence against the person and robbery. The alcohol related offences presented in the table are not notifiable offences and do not form part of the arrests collection.

Information showing the number of persons proceeded against at magistrates courts and found guilty at all courts for the offences "Pedal cyclist driving under the influence of drink or drugs" under section 30 of the 1988 Road Traffic Act and "Being drunk in charge of a carriage, horse, cattle or steam engine" under section 12 of the 1872 Licensing Act, in the Hampshire Police Force Area from 2003 to 2007 (latest available) can be viewed in the table.

Data for 2008 will be available in the autumn of 2009.

The Ministry of Justice do not centrally collect charging data; proceeded against information has been provided in lieu. Data are not collected centrally below police force area; therefore information relating to Test Valley borough and Southampton cannot be provided.

The statistics relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Number of persons proceeded against at magistrates courts and found guilty at all courts under the offences "Pedal cyclist driving under the influence of drink or drugs"[1] (section 30 of the 1988 Road Traffic Act) and "Being drunk while in charge on any highway or other public place of any carriage[2], horse, cattle or steam engine" (section 12 of the 1872 Licensing Act), in the Hampshire Police Force Area, 2003 to 2007[3,4]

	Statute	
	Section 30 1988 Road Traffic Act	*Section 12 1872 Licensing Act*
Proceeded against		
2003	4	6
2004	3	1
2005	2	—
2006	3	1
2007	1	1
Found guilty		
2003	3	3
2004	2	1
2005	2	—
2006	2	1
2007	1	1

[1] The number of persons proceeded against and found guilty for driving under the influence of drinks or drugs cannot be separately identified under this statute.

[2] A bicycle, whether ridden or pushed, is a carriage within the meaning of this offence. The number of persons proceeded against or found guilty of being drunk in charge of a carriage cannot be separated from those involving a horse, cattle or steam engine.

[3] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Evidence and Analysis Unit—Office for Criminal Justice Reform

Bankruptcy

Hugh Bayley: To ask the Secretary of State for Justice (1) how many people have *(a)* entered into an individual voluntary arrangement and *(b)* been declared bankrupt in (i) York, (ii) North Yorkshire, (iii) Yorkshire and the Humber and (iv) England in each relevant year since 1979; [290651]

(2) how many court orders have been issued for the repossession of homes in *(a)* York, *(b)* North Yorkshire, *(c)* Yorkshire and Humberside and *(d)* England in each year since 1979. [290655]

Mr. Wills: Data on the number of mortgage possession claims in the county courts leading to an order being made for homes in York, North Yorkshire, Yorkshire and Humberside and England for 2000 to 2008 are shown in the following table.

Number of mortgage possession claims leading to an order being made for homes in York, North Yorkshire, Yorkshire and Humberside and England 2000-08

	2000	2001	2002	2003	2004	2005	2006	2007	2008
York UA	115	115	65	90	95	145	200	185	205
North Yorkshire	345	330	255	250	275	495	525	600	760
Yorkshire and the Humberside	5,395	5,145	3,995	3,735	3,945	6,165	8,240	9,145	11,770
England	41,630	39,670	35,485	36,165	42,055	64,100	81,640	84,610	103,780

Note:
Figures are rounded to the nearest five.
Source:
Ministry of Justice

Corresponding figures for earlier years are not available. The statistics showing mortgage possession claims in the county courts leading to an order being made, broken down by local authority based on the locations of the properties which were the subject of the possession actions, were published for the first time by the Ministry of Justice in August 2009. These can be found on the Ministry's website at:

http://www.justice.gov.uk/publications/mortgagelandlordpossession.htm.

Statistics broken down by individual court for 1987 onwards can also be found on the Ministry of Justice website.

These figures do not indicate how many homes have actually been repossessed. Repossessions can occur without a court order being made, while not all court orders result in repossession.

The Ministry of Justice does not hold data on the number of people who have entered into individual voluntary arrangement or have been declared bankrupt. Figures published by the Ministry of Justice show the number of bankruptcy petitions presented to the courts and therefore are not exact measures of bankruptcies. Court level statistics on bankruptcy petitions from 2007 onwards are available on the Ministry of Justice website at:

http://www.justice.gov.uk/publications/companywindingupandbankruptcy.

These figures are not available broken down by local authority.

The insolvency service publishes statistics on a quarterly basis on individual voluntary arrangement and individual insolvencies. The data can be accessed on their website at:

http://www.insolvency.gov.uk/otherinformation/statistics/insolv.htm

Convictions

Jo Swinson: To ask the Secretary of State for Justice how many convictions there have been for offences under the Protection of Trading Interests Act 1980. [288274]

Kevin Brennan: I have been asked to reply

There have been no convictions under the Protection of Trading Interests Act 1980 during the last five years. An investigation into whether there have been any convictions prior to this is likely to involve disproportionate expense.

Copyright: Music

Mr. Watson: To ask the Secretary of State for Justice how many people have been convicted of offences of copying music stored on a compact disc to a digital format for their own personal use in each of the last 20 years. [290627]

Claire Ward: Personal copying is a civil matter and not a criminal offence. As a result, there are no criminal convictions in relation to such an activity. Copying from one media to another becomes a criminal offence under Section 107 of the Copyright Designs and Patents Act 1988 only if conducted on a scale prejudicial to the interests of the legitimate rights holder, or in the course of business.

Crime: Internet

Margaret Moran: To ask the Secretary of State for Justice what guidance is given to the judiciary on the gravity of instances of online child abuse. [288880]

Mr. Straw: In April 2007, the independent Sentencing Guidelines Council published a definitive guideline on the Sexual Offences Act 2003. This includes guidance to the judiciary on the offences of child prostitution, child pornography and 'Grooming'.

This and all other published guidelines can be viewed at

www.sentencing-guidelines.gov.uk

Departmental Invoices

John Mason: To ask the Secretary of State for Justice what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288917]

Bridget Prentice: The Ministry of Justice (MOJ) is fully committed to achieving compliance with the Prime Minister's target of paying suppliers within 10 days where possible, and is a signatory to the Prompt Payment Code. The MOJ has only been collecting performance data for the proportion of invoices paid within 10 days of receipt of a supplier invoice since November 2008. Performance since that date is set out in the following table.

	Percentage paid within 10 day target	*Number of invoices paid within 10 days*
November 2008	64	63,307
December 2008	59	58,743
January 2009	55	57,679
February 2009	67	67,693
March 2009	66	82,116
April 2009	82	65,422
May 2009	92	61,462
June 2009	88	73,539

The Ministry has recognised that its performance against the target must improve, and has implemented a prompt payment improvement programme to address the issue. The results from April in the table indicate that this is having an effect, and further improvements will be evident as the programme progresses.

Departmental Marketing

Mr. Grieve: To ask the Secretary of State for Justice how much *(a)* his Department and *(b)* each of its agencies and non-departmental public bodies spent on (i) publicity and (ii) advertising in 2008-09. [276478]

Mr. Straw: I apologise to the hon. and learned gentleman for the unacceptable delay in answering this question.

(a) The Ministry's accounting records do not distinguish between expenditure on advertising and publicity. Work to differentiate the two components would incur disproportionate cost. Combined expenditure during 2008-09 was as follows:

	£
Ministry of Justice HQ	1,976,102
HM courts service	486,233
Tribunals service	41,303
Office of the public guardian	39,000
National offender management service (NOMS)	[1]3,409,968
Total	5,952,607

[1] The figure shown for NOMS is recorded as recruitment expenditure on their accounting system.

Over 95 per cent. of the Ministry's expenditure on advertising and promotion relates to recruitment, with the majority of recruitment activity being within NOMS to ensure sufficient prison officers are in post to operate effectively the prison system.

As a result, the figure for NOMS may include other recruitment expenditure, not considered to be publicity and advertising. Work to split out publicity and advertising spend from the total recruitment amount would incur disproportionate cost.

The NOMS figure also excludes expenditure by the 42 local probation boards and trusts whose records are held locally and could be collated only at disproportionate cost. A one-off exercise undertaken in 2007-08 found that expenditure on advertising and promotion by local probation boards and trusts was £58,264. There are no current plans to repeat this information-gathering exercise for 2008-09.

(b) To collate information for all of the Ministry's non-departmental Public Bodies (NDPBs) would incur disproportionate cost. However, the expenditure of the Ministry's three largest NDPBs which account for 97 per cent. of NDPB expenditure (excluding Legal Aid) is as follows:

	£
Criminal injuries compensation authority	91,312
Youth justice board	585,187
Legal services commission	[2]367,000

[2] The legal services commission did not record any expenditure on advertising for 2008-09. The figure of £367,000 provided is for publicity spend only.

2008-09 accounts are still being finalised by the Ministry, its agencies and NDPBs. Figures may therefore be subject to adjustment during the annual audit process.

Departmental Plants

Grant Shapps: To ask the Secretary of State for Justice how much his Department spent on *(a)* pot plants and *(b)* cut flowers in 2008-09. [280020]

Mr. Straw: I apologise to the hon. Member for the delay in answering this question.

The information requested is set out as follows and covers expenditure for pot plants and cut flowers during 2008-09 for the Ministry of Justice headquarters and Her Majesty's Courts Service:

(a) Pot plants—£23,824.49[1]

(b) Cut flowers—£5,935.77[1]

[1] Excluding VAT

While there is a very slight increase in the cost of pot plants on the year 2007-08, the overall cost of plants and flowers incurred by the MoJ in the year 2008-09 has been significantly reduced. As consolidation of the MoJ estate evolves it is anticipated these numbers will reduce further.

Upon re-tender of the Facilities Management contract, the provision of cut flowers was seen as an area for immediate cost reduction and duly ceased in August 2008.

There is a slight decrease in the figure given for cut flowers in comparison to an earlier answer given by my hon. Friend the Member for Liverpool, Garston (Maria Eagle), Minister of State for Justice, to the hon. Member for South-West Surrey (Mr. Hunt) on 2 March 2009, *Official Report*, column 1257W. This is due to the earlier figure being based on an annual budget figure and the current figure being based on actual yearly expenditure, which was slightly less than what was originally budgeted for.

The figures do not include costs from the Tribunal Service or the National Offender Management Service as no separate accounting code is used to record pot plants or cut flowers and to obtain this information would require a manual trawl of each division at a disproportionate cost.

Departmental Public Expenditure

Mr. Grieve: To ask the Secretary of State for Justice what expenditure his Department incurred on *(a)* entertainment, *(b)* advertising and promotion and *(c)* public relations consultancy in 2008-09. [276480]

Mr. Straw: I apologise to the hon. and learned Gentleman for the unacceptable delay in answering this question.

(a) Entertainment	£
Ministry of Justice HQ	3,774
HM Courts Service	1,041
Tribunals Service	747
Office of the Public Guardian	0
Total	5,562

The Ministry's other agency, the National Offender Management Service, does not record expenditure on entertainment separately from expenditure on hospitality. Combined expenditure on hospitality and entertainment in 2008-09 was £238,039. To separately identify entertainment expenditure would incur disproportionate cost but it is likely to be a small percentage of the total figure.

The figure for the National Offender Management Service excludes expenditure by the 42 local probation boards and trusts whose records are held locally and could currently be collated only at disproportionate cost.

(b) Advertising and promotion	£
Ministry of Justice HQ	1,976,102
HM Courts Service	486,233
Tribunals Service	41,303
Office of the Public Guardian	39,000
National Offender Management Service (NOMS)	3,409,968
Total	5,952,607

Except for NOMS, the figures quoted are for advertising and publicity which are recorded as a combined expenditure category within the Ministry's accounting system. The Ministry does not have a separately identifiable expenditure category for promotion.

The figure shown for NOMS is recorded as recruitment expenditure on their accounting system.

As a result, the figure for NOMS may include other recruitment expenditure, not considered to be publicity and advertising. Work to split out publicity and advertising spend from the total recruitment amount would incur disproportionate cost.

The NOMS figure also excludes expenditure by the 42 local probation boards and trusts whose records are held locally and could be collated only at disproportionate cost. A one-off exercise undertaken in 2007-08 found that expenditure on advertising and promotion by local probation boards and trusts was £58,264. In the light of the hon. and learned Member's question, I have asked for advice on the cost of mounting a similar exercise in respect of 2008-09.

(c) Public relations consultancy

The Ministry does not distinguish between different types of consultancy expenditure in its accounting records. Analysing expenditure to determine the amount that relates to public relations would incur disproportionate cost. Such an exercise was last undertaken in 2007-08 and found that expenditure on public relations consultancy was £290,476. There are no current plans to repeat this information-gathering exercise for 2008-09.

All the figures provided are unaudited.

All expenditure incurred is in accordance with the principles of Managing Public Money and the Treasury handbook on Regularity and Propriety.

Departmental Training

Andrew Rosindell: To ask the Secretary of State for Justice how much his Department has spent on health and safety training in each of the last two years. [287966]

Mr. Straw: The expenditure on Health and Safety Training by the Ministry is stated as follows:

	£
2008-09	
Ministry of Justice HQ	47,366
HM Courts Service	286,805
Tribunals Service	21,523
Office of the Public Guardian	500
Total	356,194
2007-08	
Ministry of Justice HQ	60,441
HM Courts Service	293,552
Tribunals Service	19,810
Office of the Public Guardian	500
Total	374,303

The expenditure incurred is for external training courses only with the use of approved Health and Safety training consultants.

To supplement these external courses, internal Health and Safety training is provided across the Ministry by in-house staff. To obtain an accurate figure for this would incur disproportionate cost.

The National Offender Management Service employs over 50,000 staff in more than 140 locations. At present, there is no single central point for management information relating to health and safety training for staff. To obtain the information requested would involve identifying and contacting sources of information in many different locations and would thus incur disproportionate costs.

Departmental Work Experience

Mr. Amess: To ask the Secretary of State for Justice what provision is made to enable students to undertake work experience in his Department; by what means members of the public may obtain information about work experience in his Department; and if he will make a statement. [288727]

Mr. Wills: While comprehensive information is not held centrally, records indicate that during the period 1 September 2008 to 31 August 2009 over 420 students have undertaken work experience.

The Department advertises its provision through, and members of the public may obtain placements, via:

Internships, such as those offered by the civil service-wide Ethnic Minority Summer Development Programme and Disability Summer Placement Scheme

Connections with local schools, colleges and universities

Local authority educational business partnerships

The Careers Advisory Service

Registered charities such as the Trident Trust

Students and their parents applying directly to courts, tribunals and other MOJ offices locally.

Fines: Drivers

Mr. Burrowes: To ask the Secretary of State for Justice what average fine was imposed for the offence of driving uninsured against third party risks in each of the last 10 years. [287698]

Claire Ward: The average fine imposed at magistrates courts and at the Crown court for the offence of using a motor vehicle uninsured against third party risks in England and Wales for the years 1998 to 2007 (latest available) is shown in the following table.

Data for 2008 will be available in the autumn of 2009.

The average fine (£) imposed at the magistrates' court and the Crown court for the offence of using a motor vehicle uninsured against third party risks[1], England and Wales, 1998 to 2007[2,3]

	1998	1999	2000	2001	2002	2003[4]	2004	2005	2006	2007
Magistrates courts	214	212	203	150	155	160	169	177	185	194
The Crown court	156	193	183	214	150	142	167	185	339	201

[1] An offence under the Road Traffic Act 1988 s.143 (2)
[2] It is known that for some police force areas the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.
[4] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.
Source:
Office for Criminal Justice Reform—Evidence and Analysis Unit

Flags

Andrew Rosindell: To ask the Secretary of State for Justice how many flags his Department owns; and what the cost was of maintaining such flags in the latest year for which figures are available. [287974]

Mr. Straw: The number of flags within Ministry of Justice HQ is currently 13. This is due to two flag poles with multiple flags at both 102 Petty France and Selborne House (a building which we no longer occupy).

Data on the number of flags within HM Courts Service are not held centrally by HMCS Estates nor the Regional Estates Offices and the Judges Lodgings Management Team. Detailed information on the number of flags would necessitate calls to individual courts/lodgings with flag poles and can be collated only at disproportionate costs.

Every prison establishment within NOMS has a Union Flag and Prison Service Flag. There are 122 Public Sector Prisons with 244 flags.

The latest expenditure on flag maintenance by the Ministry in the financial year 2008-09 is stated as follows:

	£
Ministry of Justice HQ	1,127
HM courts service	[1]35,743
Tribunals service	0
Office of the public guardian	0
Total	36,870

[1] Of the £35,743 for HM courts service, £24,052 was incurred on the provision and removal of flags, as well as flag maintenance. It is not possible to separate the two elements without a detail review of invoices that would incur disproportionate cost.

Flag maintenance expenditure includes the testing, inspection and surveying of the flags to ensure that they are in full operating condition.

Every flag pole/mast is inspected each year by the maintenance department held locally by prisons and probation boards/trusts of the National Offenders Management Service and the information can be collated only at disproportionate cost.

Fraud: Unemployment Benefits

Bob Spink: To ask the Secretary of State for Justice how many convictions for offences related to fraudulent claims for unemployment benefits there were in *(a)* England, *(b)* the East of England, *(c)* Essex and *(d)* Castle Point in each of the last 10 years. [289152]

Helen Goodman: I have been asked to reply.

Information relating to the number of convictions for offences relating to fraudulent claims for jobseeker's allowance is not available.

However, information is available for the number of people convicted for benefit fraud cases for all Department for Work and Pensions-administered benefits in each of the last five years. I refer the hon. Member to the written answer I gave on 14 July 2009, *Official Report*, column 289W, to the hon. Member for North Down (Lady Hermon).

Freedom of Information

Mr. Gordon Prentice: To ask the Secretary of State for Justice how many hon. Members have referred responses to requests under the Freedom of Information Act 2000 to the Information Commission in each of the last three years; and in each case how many such referrals were not resolved after 12 months of consideration. [287999]

Mr. Wills: The Information Commissioner's Office (ICO) is the independent authority responsible for enforcing the Freedom of Information Act (FOIA).

Information about the numbers of complaints referred by hon. Members to the ICO and the time taken to resolve them is set out as follows. However, it should be noted that this information was identified on the basis of complaints made from a respondent address of the Palace of Westminster. It does not include referrals made by hon. Members from their constituency or other address or from MEPs or MSPs.

	Number of hon. Members	*Total number of cases*	*Resolved in over 12 months*
2006-07	16	17	7
2007-08	28	44	5
2008-09	32	72	2
2009-10 (to 25 August 2009)	8	13	—

The ICO is committed to resolving cases as efficiently as possible, and is improving its closure rates despite large increases in the volume of case receipts since the introduction of the Act.

This information was provided by the ICO.

International Convention for the Protection of All Persons from Enforced Disappearance

Mr. Breed: To ask the Secretary of State for Justice what recent progress has been made towards ratifying the International Convention for the Protection of All Persons from Enforced Disappearance; and if he will make a statement. [290830]

Mr. Wills: The International Convention will be an important tool for preventing enforced disappearance and secret detention in the future. The UK was active throughout the negotiations to draft the convention, and we supported its adoption last year at both the UN Human Rights Council and the UN General Assembly.

It is however the long-standing practice of the UK not to sign international treaties unless we have a firm and realistic intention to ratify within a reasonable time-frame.

The Government have therefore been conducting a detailed analysis of the provisions of the convention. This has included analysis of the need to replicate common law provisions in statute law and to create one or more specific new criminal offences, as well as consideration of the need for any reservations or declarations upon ratification. It is now clear that a potentially substantial volume of primary legislation will be necessary to give effect to certain provisions of the convention before the United Kingdom can ratify it. Given that this will require preparation and then parliamentary time, it is not currently possible to set a timetable.

Legal Aid

Mr. Evennett: To ask the Secretary of State for Justice how many applications for legal aid from residents in *(a)* Bexleyheath and Crayford and *(b)* the London Borough of Bexley were granted in each of the last three years. [288771]

Bridget Prentice: The Legal Services Commission (LSC) does not record the grant of legal aid by constituency or borough. The following tables show the numbers granted in the areas requested, based on providers within the following postcodes covering those areas.

Bexleyheath—DA6 and DA7

Crayford—DA1

LB Bexley—DA1, DA5, DA6, DA7, DA8, DA14, DA15, DA16, DA17, DA18

Table 1: Instances of civil legal help reported by providers (excluding matters started under the community legal advice telephone advice scheme)

Financial year	*Area*	*New matter starts*
2006-07	Bexleyheath and Crayford	1,330
	LB Bexley	1,972
2007-08	Bexleyheath and Crayford	1,199
	LB Bexley	1,510
2008-09	Bexleyheath and Crayford	1,599
	LB Bexley	2,340

Table 2: Civil representation certificates granted by the LSC

Financial year	*Area*	*Certificates*
2006-07	Bexleyheath and Crayford	473
	LB Bexley	662
2007-08	Bexleyheath and Crayford	456
	LB Bexley	603
2008-09	Bexleyheath and Crayford	507
	LB Bexley	671

Ms Buck: To ask the Secretary of State for Justice (1) what estimate he has made of the cost to his Department of implementing best value tendering for criminal legal aid; [289107]

(2) what estimate he has made of the effects of his Department's expenditure of best value tendering for criminal legal aid over *(a)* the full contracting cycle and *(b)* the next five years. [289108]

Bridget Prentice: The Legal Services Commission (LSC) published a response to consultation on Best Value Tendering (BVT) of criminal defence services on 20 July 2009 and a copy has been placed in the House Library. The response sets out the LSC's intention to pilot BVT in Greater Manchester and Avon and Somerset during the period of the next criminal contract, which will take effect in July 2010 and is expected to run until 2013.

The estimated administrative cost of implementing a Best Value Tendering (BVT) pilot is £748,000 in 2009-10 and £263,000 in 2010-11. A breakdown of the main areas of expenditure is set out in the following table and includes some upfront development costs which would not be reincurred if BVT were subsequently implemented outside the pilot areas. These figures relate to the costs of implementation and exclude costs associated with policy development or consultation.

£000

Item	*Costs 2009-10*	*Costs 2010-11*
Staff costs and changes to administrative systems	473	263

£000

Item	Costs 2009-10	Costs 2010-11
Auction, including auction prototype and provider training and support	250	n/a
Pilot review[1]	25	n/a
Total	748	263

[1] the costs of the pilot review are subject to revision once the scope and method of review have been determined.

The aim of BVT is to secure a sustainable future for criminal legal aid services over the longer term by enabling prices to reflect local costs of delivery. It is impossible to predict the outcome of a competitive tender exercise as prices are expected to vary depending on the costs of providing a service in a particular area and the nature of the local market. While the Government have always recognised that prices could increase in some areas, it expects that BVT would encourage greater efficiencies on the part of legal aid providers and lead to some savings overall. However, we cannot be precise about what those savings might be.

No decisions have been made about implementing BVT outside of the two pilot areas and this will be dependent on the outcome of a full evaluation of the pilots in 2012. Any such wider implementation would not begin before the next contracting cycle is due to begin in 2013.

The pilot tender exercise will provide a much clearer indication of the savings or costs in the pilot areas, and will enable the LSC to estimate the potential cost impact if BVT were to be rolled out more widely from 2013.

Ms Buck: To ask the Secretary of State for Justice what assessment he has made of the likely effect on the number of solicitors working on criminal legal aid cases of the use of best value tendering. [289109]

Bridget Prentice: The Legal Services Commission (LSC) published a response to consultation on Best Value Tendering (BVT) of criminal defence services on 20 July 2009 and a copy has been placed in the House Library. The response sets out the LSC's intention to pilot BVT in Greater Manchester and Avon and Somerset from 2010 and to evaluate the pilot in 2012 before making any decisions on implementing BVT in further areas.

BVT will not affect the total volume of criminal legal aid work available within a particular area, but there is the potential for many different outcomes in terms of who secures contracts, and within this there is the potential that some current providers will not be successful. However, we expect that other providers will secure greater volumes of work and may be able to expand and take on staff. BVT is also expected to encourage efficiencies on the part of providers and so may have an impact on the way in which firms choose to structure themselves.

With respect to the number of firms, the LSC will require a minimum number of between four and eight firms in each scheme in the pilot areas. However, the maximum number of firms that potentially could win BVT contracts is much higher. The BVT pilot model sets a low minimum bid size in order to enable firms of all sizes to compete on an equal basis. The impact assessment, included within the consultation response, contains more detail on the potential impact on the structure of the market in the two pilot areas.

National Crime Reduction Board: Meetings

Mr. Grieve: To ask the Secretary of State for Justice how many meetings of the National Crime Reduction Board he has attended in the last 12 months. [285272]

Mr. Straw: Other diary commitments have prevented my attendance at meetings of the National Crime Reduction Board (NCRB) during the last 12 months. However, members of my ministerial team have attended all NCRB meetings during that period and reported back to me.

National Offender Management Service

Mr. Gerrard: To ask the Secretary of State for Justice what estimate has been made of the number of people to be employed by each director of offender management in England and Wales in 2009-10. [290875]

Maria Eagle: Staffing levels within each Director of Offender Management's office are shown in the table. To bring the respective area and regional offender management organisations of the Prison and Probation Services together effectively the Regional Restructure Project was commissioned and implementation of the model began in April 2009. It provides a framework on which every new regional office will operate around a core structure, with similar roles being carried out nationally by individuals of the same grade. A number of other roles also exist, outside of the core structure, but which report into the Director of Offender Management. The core structure involves the same number of roles in each region, with variation in the number of posts depending on the geography and size of the region.

Director of Offender Management—as at 31 August 2009

DOMs office	Headcount (core and non-core)
East Midlands	84
East of England	52
London	48
North East	53
North West	123
South East	109
South West	43
Wales Cymru	30
West Midlands	63
Yorkshire and Humberside	41
DOMS office total headcount	646

National Offender Management Service: Manpower

Mr. Grieve: To ask the Secretary of State for Justice how many staff were working in an offender management role in each year since 2003. [280840]

Mr. Straw: Figures on the number of staff working in an offender management role in the National Probation Service prior to 2006 are unavailable as the figures collected were not broken down into Offender Management Roles. The table shows the number of staff working in an offender management role in 2006 and 2007 broken down into job group:

National Probation Service

	[1]2006	[2]2007
Deputy Chief Officer	16	16
Assistant Chief Officer	81	75
Area/District Manager	74	83
Middle Manager	684	694
Senior Practitioner	124	111
Probation Officer	3,876	3,998
Probation Services Officer	2,616	2,459
Psychologist	4	5
Other Operational Staff	32	20
Support Staff-Administration	2,137	2,103
Support Staff-Other	19	11
Other Staff	9	2
Total	9,672	9,577

[1] Figures provided are full time equivalent and are as at 31 December for each year.
[2] Figures provided for 2007 are about to be made public.
Notes:
1. Figures for 2008 are currently unavailable due to issues with data classification at this level of detail. A data validation exercise is currently taking place that will resolve these issues and information will be available at the conclusion of this exercise.
2. Information is not collected on how many Prison Service staff undertake offender management roles. Offender management is an integral part of the Prison Officer's role within an establishment. How this resource is deployed varies from establishment to establishment.

Non-Payment: Council Tax

James Duddridge: To ask the Secretary of State for Justice how many people who have *(a)* appeared in court and *(b)* been imprisoned for failure to pay council tax were aged (i) 64 years and under and (ii) 65 years and over in each of the last five years for which figures are available. [290936]

Claire Ward: Persons who have appeared in court and been imprisoned for offences under Section 56 of the Council Tax (Administration & Enforcement) Regulations 1992 cannot be separately identified on the Ministry of Justice Court proceedings database as these offences form part of a miscellaneous offence group which cannot be analysed centrally.

Pharmacy

Mr. Watson: To ask the Secretary of State for Justice how many pharmacists have been prosecuted for incorrectly dispensing prescription medication under the Medicines Act 1968 in each of the last 10 years. [286586]

Claire Ward: Both the MHRA and the CPS can bring prosecutions under the Medicines Act 1968.

The MHRA has brought two prosecutions for incorrectly dispensing prescription medication under the Medicines Act 1968 since 1999. Neither of these cases involved the prosecution of an individual pharmacist.

The CPS does not collect data on the profession of those prosecuted under the Medicines Act. To identify their profession would involve disproportionate cost. It is possible that some of those prosecuted under the Medicines Act may be individual pharmacists.

Prison Service: Finance

Mr. Gerrard: To ask the Secretary of State for Justice what the difference was between the capital budget and capital expenditure outturn for the Prison Service for the financial years *(a)* 2006-07, (b) 2007-08 and (c) 2008-09. [288822]

Maria Eagle: The outturn figures for HM Prison Service (HMPS) are as follows:

	Capital budget	*Capital expenditure*	*£ million Variance*
2008-09	24.6	29.1	(4.5)
2007-08	19.3	26.8	(7.5)
2006-07	17.2	16.1	1.1

From 2008-09 HMPS became subsumed within the reorganised National Offender Management Service and figures are not separated in the accounts, but the equivalent figure has been obtained from NOMS' internal management accounts.

Prisoner Escapes

Mr. Greg Knight: To ask the Secretary of State for Justice when the most recent incidence of absconding from HM Prison Sudbury by a prisoner convicted of murder took place; and what steps he is taking to reduce the number of such incidents. [290685]

Maria Eagle: The most recent incident of absconding from Sudbury by a prisoner convicted of murder was on 21 September 2007. The prisoner was recaptured on 25 September 2007.

Sudbury continues to work closely with Derbyshire police and the Crown Prosecution Service (CPS) in responding to all instances of individuals absconding from the prison and ensuring that whenever an absconder is arrested, he is brought to court and charged. The National Offender Management Service's (NOMS) Police Advisors and the Association of Chief Police Officers are discussing the implementation of a national agreement for referring absconders for prosecution which would see the approach taken at Sudbury extended throughout the estate.

Absconds levels are monitored closely by NOMS. The Director General and Chief Operating Officer review abscond rates regularly. The risk assessment process for open conditions is stringent—and becoming more sophisticated at assessing risk. As a result, abscond rates are falling.

Individual open prison governors are responsible for implementing local security strategies to combat absconds. Open prisons operate intelligence systems to try and spot those who might be planning to abscond; prisoners are screened and those who are at significant risk of absconding are sent back to closed conditions; in many areas the prison, police and CPS are working together to prosecute absconders to provide a deterrent to others who may be thinking of doing the same.

All absconds are reported immediately to the police who will take steps to apprehend the prisoner. Re-captured absconders will be returned to a more secure closed prison where they face either a criminal prosecution for escaping or an internal adjudication in prison in front of a visiting judge. In both cases they can receive additional time in prison on top of their existing sentence.

Prisoner Release

Philip Davies: To ask the Secretary of State for Justice how many prisoners released on temporary licence reoffended in the last five years; and how many such prisoners were returned to custody. [289113]

Maria Eagle: Time spent on release on temporary licence affords prisoners the opportunity to find work, re-establish family ties, reintegrate into the community and ensure housing needs are met. For long-term prisoners these are essential components for successful resettlement. The most recent published statistics[1] show that in the five year period between January 2004 to December 2008 there were 2,075,506 temporary release licences issued to prisoners. In this same period there were 1,592 failures of licence (0.1 per cent. failure rate), the majority of which were for minor infringements such as returning late to the prison. To provide the information requested on further offences committed whilst on temporary release would involve the manual examination of all 1,592 individual records which could be done only at disproportionate cost.

[1] The attention of the House is drawn to the bulletin, Offender Management Caseload Statistics, 2008, which was published on 31 July 2009. Copies have been placed in the Libraries of this House and another place. I hope that this will provide additional context to the statistics supplied in the answer. Ministry of Justice Caseload Statistics, tables 9.6 and 9.11 available at:

http://www.justice.gov.uk/publications/docs/offender-management-caseload-statistics-2008-2.pdf

Prisons: Drugs

Mr. Garnier: To ask the Secretary of State for Justice how many grams of *(a)* cannabis, *(b)* heroin and *(c)* cocaine have been found in prisons on (i) visitors, (ii) staff and (iii) prisoners in each of the last 12 months for which figures are available. [290756]

Maria Eagle: The number of finds of cannabis, heroin and cocaine from April 2008 to March 2009 is shown in the table.

Drug	*Number of finds*
Cannabis	1,373
Heroin	764
Cocaine	238

It is important to note that many drugs are similar in appearance and in many cases finds of drugs are not categorically identified by scientific analysis.

Although NOMS records the number of occasions on which all drug types were found on it does not record centrally the weight of seizures or the type of drug found. To provide those details would require a manual investigation into each find at disproportionate cost.

The number of all drug finds from April 2008 to March 2009 is given in the table. The "other" category includes not only finds on staff but also the very many finds that are not attributable to a person, such as parcels that have been thrown over prison boundaries or found in communal areas. To disaggregate staff from the "other" category would also require a manual investigation into each find at disproportionate cost.

Found on	*Number*
Other	1,368
Visitors	701
Prisoners	155

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system. The data are not subject to audit.

Prisons: Manpower

Mr. Gerrard: To ask the Secretary of State for Justice how many employees of *(a)* his Department and *(b)* the Prison Service are on the surplus employees list. [290876]

Mr. Wills: As of 4 September 2009 the Ministry of Justice (MOJ) has 254 staff that are actively seeking permanent redeployment. 221 work for the National Offender Management Service (including the Prison Service), 33 work for the rest of the MOJ (including one SCS). The figure comprises both full-time and part-time staff. They are engaged in work contributing to the delivery of public services, including core frontline activities, policy and project work and other operational roles.

Probation

Mr. George Howarth: To ask the Secretary of State for Justice what percentage of offenders *(a)* released from prison, *(b)* under probation supervision without programmes and *(c)* under probation supervision with programmes were reconvicted within two years in the last five years. [288184]

Claire Ward: The latest statistics on reoffending published in May 2009 report the re-offending rates over a one year follow-up period.

The following table shows the one year reoffending rates for adult offenders who were discharged from custody or who commenced a community order or suspended sentence order in the first quarter of 2006 and 2007, and (a) received an accredited programme requirement and (b) did not receive an accredited programme requirement under that order. Data about individual requirements were not available prior to 2006.

			Number of offenders	*Proportion of offenders reoffending*
Q1 2006	Custody		14,364	46.5
	Community orders	Without AP[1]	19,637	34.5
		With AP[1]	8,281	40.6
	Suspended sentence orders	Without AP[1]	3,150	33.1

			Number of offenders	Proportion of offenders reoffending
		With AP[2]	2,129	41.9
Q1 2007	Custody		12,810	47.2
	Community orders	Without AP[1]	20,696	39.1
		With AP2	6,897	41.0
	Suspended sentence orders	Without AP[1]	3,734	32.5
		With AP[2]	3,328	40.9

[1] Offenders who did not receive an accredited programme as a requirement under their community or suspended sentence order.
[2] Offenders who received an accredited programme as a requirement under their community or suspended sentence order. This may be the only requirement, or in combination with others.

Comparisons to assess the effectiveness of different requirements and sentence types cannot be made from these results, as there is no control for known differences in offender characteristics or other factors that affect reoffending and the type of sentence given.

Further information on the one year rates of reoffending can be found in

http://www.justice.gov.uk/publications/reoffendingofadults.htm.

Probation Officers: Manpower

Mr. Grieve: To ask the Secretary of State for Justice what the ratio of offenders to probation officers has been in each of the last five years, broken down by probation service area. [280839]

Mr. Straw: The information requested is shown in the following table for the years 2004 to 2007 inclusive. A data validation exercise is currently taking place on the probation officer information for 2008 to be completed during the summer of 2009.

There are a number of factors which could affect average caseloads over time, resulting in regional variations shown in the table. These include:

Fluctuations in caseload according to changing sentencing patterns

Improving accurate workforce planning

Variations in the nature of cases will call for a different workforce. High risk cases will call for resource intensive supervision by more senior practitioners. For lower risk cases (e.g. unpaid work supervision), a high caseload can be managed safely by a small number of practitioners. Comparing these cases under a single "average caseload" calculation is therefore misleading.

The ratio of offenders supervised by offender managers, by each probation service area in England and Wales at 31 December in each year from 2004-07

Area	2004	2005	2006	2007
Avon and Somerset	26.0	24.8	23.0	23.7
Bedfordshire	41.1	35.3	32.7	32.1
Cambridgeshire	29.0	33.2	32.5	35.3
Cheshire	24.3	26.2	29.2	32.5
Cumbria	33.5	29.7	26.3	29.5
Derbyshire	34.0	32.3	30.9	32.1
Devon and Cornwall	25.3	23.6	23.9	22.7
Dorset	24.7	23.6	27.1	29.9
Durham	23.3	23.8	24.7	27.3
Dyfed Powys	26.3	24.1	26.7	29.5
Essex	39.1	42.2	48.8	54.9
Gloucestershire	26.9	28.8	32.9	37.6
Gwent	36.9	37.4	29.2	27.5
Hampshire	28.7	29.9	32.0	33.6
Hertfordshire	39.6	40.8	47.6	40.2
Humberside	25.6	24.6	24.0	27.0
Kent	31.6	30.4	34.2	35.5
Lancashire	24.0	25.3	27.9	31.1
Leicestershire	25.1	24.2	25.6	26.4
Lincolnshire	31.9	28.0	27.1	26.8
London	40.7	50.7	47.6	48.2
Greater Manchester	35.6	38.8	33.8	37.0
Merseyside	34.5	36.6	38.3	33.7
Norfolk	28.7	28.1	31.3	30.3
North Wales	26.6	27.5	31.4	34.7
North Yorkshire	22.4	25.0	26.3	28.2
Northamptonshire	33.1	33.7	26.3	29.5
Northumbria	21.4	21.0	23.1	26.1
Nottinghamshire	33.4	33.2	30.1	33.3
South Wales	31.6	29.7	30.1	30.5
South Yorkshire	29.6	28.2	29.3	29.6
Staffordshire	24.6	24.1	24.9	26.2
Suffolk	20.3	21.8	23.7	23.3
Surrey	25.3	25.7	28.2	24.7
Sussex	37.3	30.7	33.2	40.5
Teesside	30.8	32.7	33.9	32.5
Thames Valley	30.6	32.6	35.3	35.1
Warwickshire	27.8	23.8	29.2	33.1
West Mercia	23.8	25.9	25.2	27.3
West Midlands	41.0	36.7	37.0	40.4
West Yorkshire	31.4	30.6	29.4	30.1
Wiltshire	34.1	27.7	28.3	33.2
National Average	31.8	32.5	32.6	34.1

Note:
Figures provided are Full Time Equivalent and include Senior Probation Officers, Probation Officers, Senior Practitioners and Practice Development Assessors

Robbery: Children

Mr. Spring: To ask the Secretary of State for Justice how many children were *(a)* charged and *(b)* cautioned for robbery in (i) the East of England and (ii) Suffolk in each of the last five years. [286266]

Claire Ward: Information showing the number of children aged 10 to 17 who have been proceeded against at magistrates courts and cautioned for robbery in the

East of England region and Suffolk police force area is shown in tables 1 and 2. The Ministry of Justice do not collect charging data; proceeded against information has been provided in lieu.

Table 1: Number of persons aged 10 to 17, proceeded against at magistrates' courts for robbery, in the East of England region and Suffolk police force area, 2003-07[1, 2]

	East of England region[3]	Suffolk police force area
2003	251	26
2004	290	32
2005	370	19
2006	333	24
2007	334	26

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

[3] The East of England region includes Bedfordshire, Cambridgeshire, Essex, Hertfordshire, Norfolk and Suffolk.

Source:

Evidence and Analysis Unit—Office for Criminal Justice Reform

Table 2: Number of offenders aged 10 to 17 cautioned[1] for robbery in the East of England region and Suffolk police force area, 2003-07[2, 3]

	East of England region[4]	Suffolk
2003	24	3
2004	45	6
2005	41	5
2006	40	2
2007	38	6

[1] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.

[2] The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

[4] East of England region includes Bedfordshire, Cambridgeshire, Essex, Hertfordshire, Norfolk and Suffolk.

Evidence and Analysis Unit—Office for Criminal Justice Reform

Sentencing : Courts

Mr. Meacher: To ask the Secretary of State for Justice if he will review the *(a)* sentencing practices and procedures and *(b)* operational procedures at Minshull Street Crown Court, Manchester by comparison with other Crown courts dealing with similar cases. [290619]

Mr. Wills: It would not be appropriate for the Government to review or comment on sentencing practices at an individual court. Within the statutory framework set by Parliament, sentencing decisions are a matter for the judiciary, taking into account the particular circumstances of the case.

Minshull street Crown court has effective procedures in place to manage the criminal cases brought before it. In 2008-09 80.5 per cent. of the court's cases commenced within target against a national KPI of 78 per cent. and it reduced its ineffective trial rate from 10.8 per cent. to 9.5 per cent.

Treatment Programmes

Mr. Burrowes: To ask the Secretary of State for Justice how many prisoners entered *(a)* detoxification, *(b)* maintenance, *(c)* 12 step, *(d)* cognitive behaviour therapy (CBT), *(e)* shorter duration CBT and *(f)* therapeutic community treatment programmes in (i) 2007-08 and (ii) 2008-09; and at what cost for each type of programme in each year. [288087]

Maria Eagle: The table provides figures for prisoners recorded as entering drug treatment in 2007-08 and 2008-09.

	Intervention starts[1, 2]	
Intervention type	*2007-08*	*2008-09*
Clinical Treatment (detoxification or maintenance prescribing)[3]	58,810	64,770
12-Step	870	850
Cognitive Behaviour Therapy (CBT)[4]	4,070	4,160
Short Duration Programmes	6,050	5,550
Therapeutic Communities	280	260

[1] These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

[2] Rounded to nearest 10.

[3] Figures for detoxification and maintenance are not disaggregated.

[4] Figures include starts on Action on Drugs for 2007/08—(programme now discontinued)—FOCUS, P-ABBO and STOP.

The Integrated Drug Treatment System (IDTS) is bringing improvements to the quality and volume of drug treatment in prisons. IDTS allows a closer integration of clinical and psychosocial drug treatment services in order to ensure that the interventions delivered are more closely matched to the individual needs of prisoners, dependent upon the stage of their treatment they are at.

The 2008-09 Key Performance Target for drug treatment programmes focused on completions rather than starts. Across prisons and the community there were 15,434 accredited drug programme and Drug Rehabilitation Requirement (DRR) completions—exceeding the target of 12,919.

Most expenditure on accredited drug treatment programmes comes from prison service general funding. It is currently not possible to accurately disaggregate these costs. However, NOMS is undertaking a specification, benchmarking and costings exercise which will provide more detailed information on the costs of interventions delivered in prisons.

Welsh Assembly Government : Prosecutions

Mrs. Gillan: To ask the Secretary of State for Justice what discussions he has with the Welsh Assembly Government on its powers to postpone prosecutions brought under the Plastic Materials and Articles in Contact with Food (Wales) Regulations 2009; and what mechanisms are in place for monitoring the use of those powers. [288061]

Claire Ward: There are no provisions in these regulations to enable the postponement of prosecutions for offences under food contact materials legislation. Therefore, there have been no discussions with the Welsh Assembly Government on this issue.

CULTURE, MEDIA AND SPORT

Casinos: Licensing

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport when he plans to publish his Department's second consultation paper on availability to play; and when he expects the local authorities whose bids for small and large casino licences have been successful to be able to hold competitions for the operation of those licences. [290760]

Mr. Simon: The Government's consultation on proposals for regulations in order to define what would constitute a gaming table in the new categories of casino established by the Gambling Act 2005 closed on 15 May 2009. The Gambling Act 2005 (Gaming Tables in Casinos) (Definitions) Regulations 2009 were laid before Parliament on 20 July 2009 and came into force on 11 August 2009.

It is up to the individual licensing authorities whose bids for small and large casino licences were successful to decide when they will invite and consider applications for the operation of those licences. None of them have yet done so.

Digital Broadcasting: Radio

Tim Farron: To ask the Secretary of State for Culture, Media and Sport whether his Department's proposals for the analogue radio switch-off in 2015 have been submitted for rural proofing to the *(a)* Commission for Rural Communities and *(b)* Rural Advocate. [290702]

Mr. Simon: The Digital Britain White Paper set out our commitment to a full impact assessment of the Digital Radio Upgrade; including consideration of the rural impact. To inform these assessments we will work closely with the relevant stakeholders, such as the Commission for Rural Communities and the Rural Advocate.

Tim Farron: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the merits of providing financial assistance to *(a)* low-income households and *(b)* households in hilly rural areas in respect of the analogue radio switch-off in 2015. [290703]

Mr. Simon: The Digital Britain White Paper set out our commitment to conduct a full impact assessment, including a cost benefit analysis of Digital Radio Upgrade. The results of this impact assessment will help determine whether there is a case for a Digital Radio Help Scheme, and if so, what its scope would be.

In addition, the Consumer Expert Group, which brought together key consumer representatives to inform the Digital TV switchover process, has been invited to extend its scope to cover radio and will ensure that the Digital Radio Upgrade programme takes account of the wide range of listener needs.

English Heritage: Educational Visits

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what target has been set by English Heritage for free education visits each year from 2008-09 until the end of the funding agreement period. [290811]

Barbara Follett: English Heritage has set targets for the number of free education visits to its sites for the period of its current Funding Agreement as set out in the following table.

	Target
2008-09	450,000
2009-10	450,000
2010-11	450,000

This represents a revision of the aim to reach 650,000 visits by 2010 set out in Making the Past Part of Our Future in 2005, and reflects changing patterns of visits across the sector and an increased emphasis on more interactive, facilitated visits to reflect educational needs. This is being delivered through a series of new Discovery Visits, hands-on programmes which have been introduced at 60 sites since 2006.

English Heritage: Manpower

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport how many staff are employed in communications, media, press and other public relations roles by English Heritage. [290852]

Mr. Simon: Information from English Heritage is that it employs 10 full-time equivalent staff in these roles, each of whom has a direct communications, media, press or public relations role.

Gambling: Gibraltar

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the reasons for which William Hill and Ladbrokes decided to relocate their betting operations from the UK to Gibraltar; and if he will make a statement. [290759]

Mr. Simon: This was a commercial decision for the two companies. The Secretary of State has not made any formal assessment of the reasons for which William Hill and Ladbrokes decided to move their online betting operations from the UK to Gibraltar.

Heritage Lottery Fund: Manpower

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport how many staff are employed in communications, media, press and other public relations roles by the Heritage Lottery Fund. [290853]

Mr. Simon: Information from the Heritage Lottery Fund is that it employs 8.5 full-time equivalent staff in these roles, each of whom has a direct communications, media, press or public relations role.

Horse Racing: Bookmakers

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of progress towards resolution of the on-course bookmakers' dispute; and if he will make a statement. [290761]

Mr. Simon: My friend the Minister for Sport wrote to the Federation of British Bookmakers and Racecourse Association on 28 July setting out his current thoughts about the unresolved issues around on-course bookmaking.

He has strongly encouraged both sides to show willingness to compromise so that mutually acceptable solutions can be found, and he expects the outstanding issues to be resolved through negotiations, which officials have been helping to facilitate.

Another meeting of the Working Group is to be convened on 22 September to assess progress. We will continue to keep all options under review, including the legislative option.

Licensing

James Duddridge: To ask the Secretary of State for Culture, Media and Sport how many fast food outlets have been granted a late night refreshment licence in *(a)* England and Wales, *(b)* Essex and *(c)* Southend-on-Sea in each of the last two years. [290940]

Mr. Simon: Late night refreshment permissions allow for the provision of hot food or drink to the public, for consumption on or off the premises, between 11pm and 5am or the supply of hot food or hot drink to any persons between those hours on or from premises to which the public has access. This is however not restricted to fast food outlets, and can be granted to any premises type (for example, restaurants, bars and pubs). Although a licence is needed for sales between 11pm and 5am, it does not necessarily mean that a premises will have a licence for the whole of that period or that, if it did, it would necessarily operate those hours.

The Alcohol, Entertainment and Late Night Refreshment Licensing Statistical Bulletin, under the provisions of the Licensing Act 2003, reported there were an estimated 67,500 premises licences with late night refreshment permissions in England and Wales as of 31 March 2007, and an estimated 76,800 premises licences with late night refreshment permissions in England and Wales as of 31 March 2008.

In Essex there were 1,207 premises licences with late night refreshment as of 31 March 2007 (this excludes, Braintree, Brentwood, Maldon and Thurrock whom did not respond to this question) and 1,498 premises licences with late night refreshment as of 31 March 2008 (this excludes Braintree, Southend-on-Sea and Thurrock who did not answer).

Southend-on-Sea had 279 premises licences with late night refreshment as of 31 March 2007. They did not respond to this question in 2008.

Licensing: Essex

James Duddridge: To ask the Secretary of State for Culture, Media and Sport how many pubs, clubs and bars have been granted a licence to operate after *(a)* 11pm and *(b)* 2am in (i) Essex, (ii) Southend-on-Sea and (iii) Rochford in each of the last two years. [290939]

Mr. Simon: The information you require on operating hours is not held centrally. However the Alcohol, Entertainment and Late Night Refreshment Licensing Statistical Bulletin, under the provisions of the Licensing Act 2003, does collect the number of premises with permission to open for up to 24 hours, although their actual opening hours may vary.

In Essex there were six pubs, bars and nightclubs with 24-hour alcohol licences as of 31 March 2007 (this excludes Brentwood, Maldon and Thurrock who did not answer this question) and eight pubs, bars and nightclubs with 24-hour alcohol licences as of 31 March 2008 (this excludes Braintree who did not answer this question).

Southend-on-Sea had no pubs, bars and nightclubs with 24-hour alcohol licences as of 31 March 2007 or as of 31 March 2008.

Rochford had no pubs, bars and nightclubs with 24-hour alcohol licences as of 31 March 2007 or as of 31 March 2008.

National Lottery: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 13 March 2009, *Official Report*, columns 772-74W, on the national lottery, how much was received by each of the national lottery good causes in 2008-09. [290902]

Mr. Simon: The following tables show the total income for each of the national lottery good causes for each financial year since 1995-96. Figures are adjusted to 2008-09 prices, using GDP deflators for the most recent year available from the Treasury. All figures are rounded to the nearest £ thousand. Figures for the financial year 2008-09 are provisional figures subject to audit and do not take account of the transfer of £73 million from the National Lottery Distribution Fund to the Olympic Lottery Distribution Fund, which took place on the 2 February 2009.

The sport good cause comprises the following Lottery Distributing Bodies: UK Sport, Sport England, Sport Northern Ireland, Sports Council Wales and Sport Scotland. The arts good cause comprises Arts Council England, Arts Council Wales, Arts Council Northern Ireland, Scottish Screen, UK Film Council and Scottish Arts Council. The millennium good cause comprised the Millennium Commission, which was dissolved in 2006-07. The heritage good cause comprises the Heritage Lottery Fund. The health, education, environment and charitable expenditure good cause comprises the Big Lottery Fund, which is the successor to the Community Fund and the New Opportunities Fund.

2008-09	655,880,000

Sports: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much *(a)* Sport England, *(b)* UK Sport, *(c)* the Football Foundation and *(d)* the Youth Sport Trust received in grant-in-aid funding from his Department in each year since 1997. [290769]

Mr. Bradshaw: Table 1 shows the grant in aid funding from DCMS for Sport England and UK Sport since 1997.

	£ million	
	Sport England	*UK Sport*
1997-98	33.758	11.791
1998-99	33.341	11.548
1999-2000	37.523	12.600
2000-01	38.323	12.750
2001-02	43.162	16.773
2002-03	80.324	16.321
2003-04	44.572	23.175
2004-05	74.456	23.500
2005-06	78.963	29.305
2006-07	102.500	53.105
2007-08	113.296	67.305
2008-09	133.163	72.201

The Football Foundation and the Youth Sport Trust do not receive grant in aid funding directly from DCMS, but are funded by Sport England.

Sport England has advised that they allocated the following amounts to the Football Foundation and the Youth Sport Trust, since their records began in 2003.

	£ million (to nearest thousand)	
	Football Foundation	*Youth Sport Trust*
2004-05	2.141	2.235
2005-06	4.518	2.658
2006-07	22.064	2.593
2007-08	18.307	2.754
2008-09	21.796	3.991

Swimming

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many public swimming pools in England *(a)* closed and *(b)* opened in 2008. [288257]

Mr. Sutcliffe *[holding answer 20 July 2009]:* In 2008, 79 swimming pools were opened and 67 closed:

Ownership	*Local authority*	*Education*	*Commercial*	*Others*	*Total*
Pools opened	31	15	32	1	79
Pools closed	43	10	10	4	67

We are encouraging local authorities to plan strategically for the provision of facilities so they meet modern standards and expectations. This will include rationalising existing stock where necessary.

There has been significant public investment in sports facilities in recent years which will lead to new local authority pools opening. Government and lottery money contributed to four new 50 meter pools in Sunderland, Portsmouth, Leeds and Liverpool, which means there is now at least one 50 meter pool in every region of the country.

Corby's new East Midlands International 50 meter pool opened on 24 July, and next year will see two more 50 meter pools opening in Hillingdon and Basildon.

In addition, there will be investment in 60 projects as part of the Government's Free Swimming scheme. £23 million has already been committed to this in 2009-10. This investment includes upgrades of existing facilities and new builds.

UK Film Council: Finance

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what the budget of the UK Film Council for 2008-09 was; and what it *(a)* is in 2009-10 and *(b)* will be in 2010-11. [290850]

Mr. Simon: In 2008-09 the total expenditure for the UK Film Council, combining both lottery and grant in aid was £71.3 million.

In 2009-10 budgeted spend for all activities is £71.7 million (excluding the transfer of £5.9 million to the Olympic lottery distributor). These figures align with the current UK Film Council business plan "Film in the Digital Age" which covers the period until March 2010.

The budgets for 2010-11 will not be fully established and approved until the next spending round (2010 to 2013) has been formulated.

Sources:

2008-09 data from 2008-09 Annual Report and Financial Statements.

2009-10 data from budget approved by UKFC board in March 2009.

2010-11 data from DCMS allocation letter re GIA and DCMS lottery projection issued in January 2009, confirmed as current in June.

WORK AND PENSIONS

Pension Protection Fund

Miss Kirkbride: To ask the Secretary of State for Work and Pensions how many people who retired before April 2005 are members of schemes under the Pension Protection Fund; how many such people have had their pensions capped; what estimate she has made of the annual cost of restoring the full pensions of *(a)* those people who have had their pensions capped and *(b)* all of those who retired before April 2005 who are members of such schemes; and what estimate she has made of the effect of such expenditure on the level of the annual levy for eligible schemes. [281716]

Angela Eagle: The information requested could be provided only at disproportionate cost.

Such information as is available was provided to the hon. Member on 4 June 2009, *Official Report*, column 622W.

Business Link

Mrs. May: To ask the Secretary of State for Work and Pensions whether the courses offered by Business Link as part of the six month offer are available to people who have not been in receipt of jobseeker's allowance for more than six months. [290729]

Jim Knight: Business Link's business advice and support is available to anyone who is interested in starting a business. However, in recognition of the problems that longer-term jobseeker's allowance customers may have, under the six month offer we are funding additional intensive support for those who have been unemployed for six months or more and who are interested in taking up self-employment or starting a business.

In addition, on claiming jobseeker's allowance, some groups of customers who face particular disadvantage in the labour market are fast-tracked immediately to the six-month stage of the jobseeker's regime, and can take advantage of the six month offer. Fast-tracked customers are those who have had specific periods of time spent on benefit or who have been otherwise inactive immediately prior to claiming jobseeker's allowance. Other disadvantaged groups can choose to fast-track to the six month stage, subject to capacity and their personal adviser's discretion and will have access to the six month offer. These groups include, for example, people who have completed a custodial sentence, are homeless, are affected by drug addiction, have been in residential care or have language, literacy or numeracy problems.

Children: Maintenance

Andrew Selous: To ask the Secretary of State for Work and Pensions when the Child Maintenance and Enforcement Commission plans to publish *(a)* the 2007-08 Client Funds Account together with the Comptroller and Auditor General's report thereon and *(b)* the report from Pricewaterhouse Coopers on child maintenance debt balances. [290625]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions, when the Child Maintenance and Enforcement Commission plans to publish (a) the 2007-08 Client Funds Account together with the Comptroller and Auditor General's report thereon and (b) the report from PricewaterhouseCoopers on child maintenance debt balances. [290625]

In order to interpret the question correctly, clarification was sought from your office. They confirmed that you wanted to know when the Child Maintenance and Enforcement Commission plans to publish (a) the 2008-09 Client Funds Account together with the Comptroller and Auditor General's report thereon.

The Commission plans to lay the 2008/09 Client Funds Account soon after the House returns from summer recess. Contained within the Client Fund Account is a summary of the findings of the work undertaken by PricewaterhouseCoopers in respect of child maintenance arrears balances. This will include how these findings have been incorporated into our assessment of collectability; additionally this forms the basis of National Audit's work in auditing the arrears balances included in the Client Fund Account.

I hope that you find this answer helpful.

Departmental Billing

John Mason: To ask the Secretary of State for Work and Pensions what percentage of invoices from suppliers her Department paid within 10-days of receipt in June 2009. [288938]

Helen Goodman: 96.02 per cent.

Departmental Work Experience

Mr. Oaten: To ask the Secretary of State for Work and Pensions how many *(a)* paid and *(b)* unpaid graduate internships her Department has awarded in each of the last six months. [281509]

Jim Knight: The DWP supports a small number of paid and unpaid internship/work experience schemes but these are all aimed at undergraduate or sixth form students. Therefore the number of such placements offered to those who have already graduated over the past six months is nil.

We have already indicated our commitment to the new Graduate Talent Pool initiative so will be offering places under this scheme from September.

Employment Schemes

Steve Webb: To ask the Secretary of State for Work and Pensions pursuant to the answer of 22 April 2009, *Official Report*, column 767W, on employment schemes, when the requested information on payments will be made available. [278476]

Jim Knight: The recruitment subsidy and the six month offer were introduced on 6 April 2009. The Department is working to guidelines set by the UK Statistics Authority to ensure we are able to publish statistics that meet high quality standards at the earliest opportunity. We intend to publish Official Statistics from autumn 2009.

Ethnic Minority and Employment Task Force

Mrs. May: To ask the Secretary of State for Work and Pensions how many job application forms were sent to businesses by the Ethnic Minority and Employment Task Force as part of its research into barriers to employment; by what criteria the businesses were selected; and what advance consultation there was with employers prior to the issue of the job application forms. [286751]

Jim Knight: The National Centre for Social Research was commissioned to do this research and sent 2,961 job applications to employers in response to advertised vacancies. Commissioning took place after the employer-led Business Commission on Race Equality, chaired by Gordon Pell, Chief Executive, Retail Markets, Royal Bank of Scotland, recommended 'matched CV' testing to measure progress towards eliminating the ethnic minority employment gap. The Chancellor of the Exchequer accepted this recommendation and asked the Ethnic Minority Employment Task Force (EMETF) to oversee delivery and report back to him in writing by December 2009. A Confederation of British Industry (CBI) member sits on the EMETF. The CBI is also on the steering group for the research project. No specific employers or sectors of industry were targeted.

Future Jobs Fund

Paul Rowen: To ask the Secretary of State for Work and Pensions what recent consideration she has given to extending the exception to the long-term unemployment condition for Future Job Fund eligibility, to include those not in education, employment or training, to blind and partially sighted individuals claiming job seeker's allowance. [290944]

Helen Goodman: The jobs created using the Future Jobs Fund will be targeted at young people approaching ten months on jobseeker's allowance and other long-term benefit claimants living in areas of high unemployment. Some jobseeker's allowance customers, including those with a disability, can volunteer for more intensive support from Jobcentre Plus earlier in their claim at the discretion of their personal adviser. Customers who are fast-tracked to this more intensive support will be able to access Future Jobs Fund jobs from four months.

Future Jobs Fund

Mrs. May: To ask the Secretary of State for Work and Pensions if she will place in the Library copies of the bid assessment documents for each of the 117 successful Future Jobs Fund Bids announced on 29 July 2009. [290730]

Helen Goodman: The individual bid assessment documents cannot be placed in the Library because the information is commercially sensitive.

Housing Benefit

Joan Walley: To ask the Secretary of State for Work and Pensions what steps her Department is taking to monitor the effects of the arrangements by which housing benefit is paid to tenants rather than landlords; and if she will make a statement. [290818]

Helen Goodman: I refer the hon. Member to the written answer I gave the hon. Member for Bromley and Chislehurst (Robert Neill), on 21 July 2009, *Official Report*, column 1286W.

Industrial Diseases: Social Security Benefits

Julie Morgan: To ask the Secretary of State for Work and Pensions how much has been paid to people with *(a)* hand arm vibration syndrome, *(b)* noise-induced hearing loss and *(c)* other work-related diseases through (i) industrial injuries disablement benefit for disease and deafness and (ii) other disability benefits in each of the last three years; and how much of that

money has been recovered by the Government in accordance with the Social Security (Recovery of Benefits) Act 1997. [287749]

Jonathan Shaw: The available information on the monies paid through industrial injuries disablement benefit is in the table.

Payments through industrial injuries disablement benefit in 2006-07

Injury	*Amount paid (£ million)*
Hand arm vibration syndrome	22
Noise-induced hearing loss	37
Other work-related diseases	103

Notes:
1. Figures rounded to the nearest million.
2. Industrial injuries disablement benefit expenditure on particular diseases is estimated using annual statistical data. Latest finalised annual statistical data are for 2006-07. Figures for the next two years are not yet available.

Source:
DWP statistical and accounting data.

Information on payments of other disability benefits is not available broken down by the disease categories requested.

The amounts recovered in each of the last three years by the Government in accordance with the Social Security (Recovery of Benefits) Act 1997 covering industrial injuries disablement benefit and other disability benefits are detailed as follows:

Recoveries of monies paid through industrial injuries disablement benefit

	2006-07	*2007-08*	*£000 2008-09*
Hand arm vibration syndrome	1,727	1,857	1,306
Noise-induced hearing loss	42	24	36
Other work-related diseases	6,931	8,562	9,830

Recoveries of monies paid through other disability benefits

Disease	*2006-07*	*2007-08*	*£000 2008-09*
Hand arm vibration syndrome	15,956	22,580	11,413
Noise-induced hearing loss	16	19	0
Other work-related diseases	6,716	7,438	14,223

Note:
Information is rounded to the nearest thousand pounds.

Source:
DWP accounting data.

Julie Morgan: To ask the Secretary of State for Work and Pensions how much has been paid to people with *(a)* mesothelioma, *(b)* asbestosis, *(c)* bilateral pleural thickening and *(d)* other prescribed asbestos diseases (i) under the Pneumoconiosis etc (Workers Compensation) Act 1979, (ii) through industrial injuries disablement benefit for disease and deafness, (iii) under Part 4 of the Child Maintenance and Other Payments Act 2008 and (iv) through other disability benefits in each of the last three years; and how much of that money has been recovered by the Government in accordance with the Social Security (Recovery of Benefits) Act 1997. [287750]

Jonathan Shaw: Information on payments to people under the Pneumoconiosis etc. (Workers Compensation) Act 1979 is only available for all work-related diseases covered by the scheme, not individual diseases. The available information is in the table.

Financial year	*Payments (£ million)*
2006-07	26
2007-08	27
2008-09	32

Note:
Figures rounded to the nearest £ million

Source:
DWP statistical and accounting data

The available information on monies paid through Industrial Injuries Disablement Benefit is in the following table. Industrial Injuries Disablement Benefit expenditure on particular diseases is estimated using annual statistical data. The latest finalised annual statistical data are for 2006-07.

Payment through Industrial Injuries Disablement Benefit in 2006-07

		£ million
(a)	Mesothelioma	10
(b)	Asbestosis	[1]
(c)	Bilateral pleural thickening	9
(d)	Other prescribed asbestos diseases	23

[1] Less than £1 million.

Notes:
1. Figures rounded to the nearest £ million except where stated.
2. The estimate for *(b)* is for primary carcinoma of the lung with accompanying evidence of one or both (A) asbestosis (B) unilateral or bilateral diffuse pleural thickening.
3. The estimate for *(c)* is for unilateral or bilateral diffuse pleural thickening.
4. The estimate for *(d)* is for pneumoconiosis, which is prescribed for occupations involving working with asbestos and a number of other occupations.

Source:
DWP statistical and accounting data

The Child Maintenance and Other Payments Act 2008 made provision for the new 2008 Diffuse Mesothelioma scheme (known as the 2008 scheme) which enables lump sum payments to be made to people who suffer from diffuse mesothelioma caused by exposure to asbestos in the UK, and who do not currently qualify for help from the Government. This scheme has only been running since October 2008. Information is only available for all work-related diseases, not individual diseases. The expenditure up to March 2009 is £5.5 million.

Note:

This excludes Northern Ireland payments made under this scheme.

Source:

DWP statistical and accounting data.

Information on payments of other disability benefits is not available broken down by the disease categories requested.

The amounts of money recovered in each of the last three years under the categories requested are set out in the following tables:

Recoveries of Pneumoconiosis etc. (Workers Compensation) Act 1979 Lump Sum payments—October 2008 to March 2009

Disease	*£000*
Mesothelioma	4,465
Asbestosis	411
Bilateral Pleural Thickening	42
Other prescribed asbestos diseases	247

Recoveries of Industrial Injuries Disablement Benefit payments

£000

Disease	2006-07	2007-08	2008-09
Mesothelioma	3,024	3,944	5,306
Asbestosis	1,072	1,031	1,287
Bilateral Pleural Thickening	179	207	276
Other prescribed asbestos diseases	4,425	5,262	4,303

Recoveries of Child Maintenance and Other Payments Act 2008 Lump Sum payments—October 2008 to March 2009

Disease	£000
Mesothelioma	165

Recoveries of payments through Other Disability Benefits

£000

Disease	2006-07	2007-08	2008-09
Mesothelioma	2,089	2,644	7,989
Asbestosis	556	418	976
Bilateral Pleural Thickening	70	276	134
Other prescribed asbestos diseases	19,972	26,699	16,537

Notes:
1. Information is rounded to the nearest thousand pounds.
2. Any lump sums paid under the 1979 Act or the 2008 scheme are recoverable under the Social Security (Recovery of Benefits) Act 1997. The lump sum payments are recoverable from all cases where the compensation is paid on or after 1 October 2008. Prior to that date data were not separately captured on these cases.
3. For Pneumoconiosis etc (Workers Compensation) Act 1979 'Other prescribed asbestos diseases' include Cancer, Pleural Plaques and Non-Coded diseases.
4. For Industrial Injuries Disablement Benefit and Other Disability Benefits 'Other prescribed asbestos diseases' include Cancer, Pleural Plaques and Other Work Related Diseases.

Jobcentre Plus

Mr. Clappison: To ask the Secretary of State for Work and Pensions what jobcentres she has visited since becoming Secretary of State for Work and Pensions. [290845]

Helen Goodman: My right hon. Friend the Secretary of State visited St. Marylebone Jobcentre (part of Central London District) on 8 June and Leith Jobcentre (part of Edinburgh, Lothian and Borders District) on 1 July.

Jobcentre Plus: Offices

Mrs. May: To ask the Secretary of State for Work and Pensions how much Jobcentre Plus has spent on *(a)* acquiring office space, *(b)* extending existing office space and *(c)* converting existing office space as a result of an increased level of demand for its services in the most recent period for which figures are available. [286750]

Jim Knight: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State for Work and Pensions has asked me to respond to your questions asking how much has been spent by Jobcentre Plus on (a) acquiring office space, (b) extending existing office space and (c) converting existing office space as a result of an increased level of demand for its services. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus is continuously reviewing existing service delivery arrangements in order to meet the challenge of the current economic climate and the planned welfare reform changes for the next two to three years.

In the light of the increased customer demand we have secured the required funding to convert or extend our existing buildings where necessary. In addition we aim to make our services accessible to customers by providing a range of support through outreach facilities, often delivering advisory and other support on partners' premises. We are supplementing these measures by operating extended opening hours in some locations where the need for this is identified locally. This includes some offices opening to the public on Saturday. We will only acquire new space where all other measures are insufficient.

To date estates work has been undertaken and completed on 18 of our buildings at a cost of £1 million, increasing our capacity to deliver additional customer service to the public. Estates work is planned for a further 151 buildings. This work is currently at an early stage and therefore the costs are not fully known.

Jobseeker's Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions pursuant to the answer of 31 March 2009, *Official Report*, column 1154W, on jobseeker's allowance, how many people claiming jobseeker's allowance in each local authority area had been claiming it for a period of *(a)* up to three months, *(b)* between three and six months, *(c)* between six and 12 months, *(d)* between 12 and 24 months and *(e)* more than 24 months in each month since January 2009; and if she will make a statement. [290824]

Helen Goodman: The information requested has been placed in the Library.

Jobseeker's Allowance: Swine Flu

Steve Webb: To ask the Secretary of State for Work and Pensions whether she has made provision for benefit claimants with swine influenza to sign on for their benefits without attending the jobcentre plus office in person; and if she will make a statement. [287309]

Jim Knight *[holding answer 16 July 2009]:* There is already an easement to the normal jobseeker's allowance conditions of being immediately available for work, capable of work and actively seeking work. The easement allows someone who is sick for two periods of up to two weeks, within a 12 month period, to be treated as capable of work and continue to receive jobseeker's allowance.

Maternity Benefits

Steve Webb: To ask the Secretary of State for Work and Pensions how many people have been *(a)* awarded and *(b)* refused a Sure Start Maternity Grant in each of the last five years; and on what grounds such refusals have been made. [279660]

Jonathan Shaw: The available information is given as follows.

Sure Start Maternity Grants

	Number of awards and initial refusals				
	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Number of awards	235,900	237,500	236,700	243,100	262,600
Number of initial refusals	94,500	98,900	105,000	105,400	110,800

	Number of initial refusals by reason for refusal				
	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
No qualifying benefit or tax credit	71,100	74,400	77,100	77,500	87,100
Certificate not provided	14,900	15,300	19,800	17,600	10,000
Claim made too early	13,400	14,500	14,500	12,800	12,800
Claim made too late	3,100	3,000	3,200	4,000	4,400
Repeat application	1,300	1,300	1,400	2,800	2,400
Other	3,300	2,800	2,700	3,900	5,900

Notes:
1. The number of awards includes awards made after re-consideration or appeal.
2. The number of initial refusals is the number of claims refused at the initial decision-making stage. Some claims which are refused at the initial decision-making stage may be successful on re-consideration or appeal. As a result, some claims may be counted under both awards and initial refusals.
3. Up to two reasons for refusal can be recorded for each claim which is initially refused. Therefore, for each year, the total number of reasons for refusal exceeds the number of initial refusals.
4. Numbers have been rounded to the nearest 100.

DWP Social Fund Policy, Budget and Management Information System.

Members: Correspondence

Sir John Stanley: To ask the Secretary of State for Work and Pensions when she plans to reply to the letter of 6 May from the right hon. Member for Tonbridge and Malling, on behalf of Ms Denise Roberts. [290776]

Helen Goodman: A reply was sent to the right hon. Member on 13 August 2009.

New Deal Schemes

Justine Greening: To ask the Secretary of State for Work and Pensions (1) how many people have participated in the Flexible New Deal programme in each *(a)* region and *(b)* Jobcentre Plus district in each month since the scheme was introduced; [289145]

(2) how many people have found employment through the Flexible New Deal in each *(a)* region and *(b)* Jobcentre Plus district in each month since the scheme was introduced; [289146]

(3) how many people have participated in the Flexible New Deal programme trial in Wandsworth in each month since the trial began; [289147]

(4) how many people have found employment through the Flexible New Deal programme trial in Wandsworth in each month since the trial began; [289148]

(5) how many people who have found employment through the Flexible New Deal programme have returned to the programme at a later date in each *(a)* region and *(b)* Jobcentre Plus district in each month since the scheme was introduced; [289149]

(6) what her Department's *(a)* budget for and *(b)* expenditure on the Flexible New Deal programme has been in each (i) region and (ii) Jobcentre Plus district in each month since the programme began. [289150]

Jim Knight: The Flexible New Deal programme is being introduced in two phases. The first phase, covering 28 Jobcentre Plus districts including Lambeth, Southwark and Wandsworth, will start from 5 October 2009. The second phase will follow in October 2010. A number of Jobcentre Plus offices, including Wandsworth, have tested aspects of the new regime for jobseekers that will accompany the Flexible New Deal, but not the programme itself, so information on participation, performance and expenditure will not be available until after the full service has started.

The budget for Flexible New Deal is being finalised following the Budget 2009, which made an additional £2.8 billion available to DWP, on top of the £1.3 billion funding announced in the pre-Budget report, which will ensure we can continue to maintain our support to jobseekers through the economic downturn, including funding to support the Flexible New Deal.

Pension Credit

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many pensioners resident in *(a)* Sunderland and *(b)* England have received pension credit in each year since such credits were introduced. [289160]

Angela Eagle: The number of household recipients of pension credit in the City of Sunderland local authority and England are shown in the following table.

Date	*Sunderland local authority*	*England*
November 2003	15,330	1,742,960
November 2004	19,010	2,200,630
November 2005	19,470	2,266,420
November 2006	19,600	2,290,810
November 2007	19,510	2,287,390
November 2008	19,420	2,286,610

Notes:
The number of households in receipt are rounded to the nearest 10.
Totals may not sum due to rounding.
Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

DWP Information Directorate Work and Pensions Longitudinal Study 100 per cent. data.

Pensions

Mr. Evans: To ask the Secretary of State for Work and Pensions how many pensioners living outside of the UK do not qualify for inflationary pension uprates. [290869]

Angela Eagle: There are around 540,000 people living outside the UK who do not qualify for pension uprates.

Notes:
Rounded to the nearest 10,000.

Source:
Work and Pensions Longitudinal Study, February 2009.

Mr. Evans: To ask the Secretary of State for Work and Pensions how many pensioners living outside the UK who do not qualify for pension uprates receive a pension of less than £50 a week. [290870]

Angela Eagle: There are currently around 460,000 pensioners living abroad receiving less than £50 state pension a week, who do not qualify for pension uprates.

Notes:

Rounded to the nearest 10,000.

Source:

Work and Pensions Longitudinal Study, February 2009.

Social Security Benefits: Mentally Ill

Lynne Jones: To ask the Secretary of State for Work and Pensions if she will ensure that the independent review commissioned by the Government of the ways in which people with mental health conditions can be better supported by the benefit and welfare to work system *(a)* reports and *(b)* will be made publicly available before the Welfare Reform Bill completes its passage through Parliament. [290945]

Jonathan Shaw: The independent review referred to, which is being led by Dr. Rachel Perkins of the South West London and St. George's Mental Health NHS Trust, will report in the autumn. The Government will consider its findings and respond in due course.

Vocational Training: Young People

Paul Rowen: To ask the Secretary of State for Work and Pensions what steps her Department is taking to assist young people who are in employment but not receiving training to receive training. [284030]

Mr. McFadden: I have been asked to reply.

The Government have put substantial training provision in place for people in employment. Through Train to Gain, employers can access training at work for their employees who are 19 or above. Funding for Train to Gain will increase to over £1 billion by 2010-11. Training leading to Skills for Life literacy or numeracy qualifications, full level 2, and first full level 3 (where the learner is aged between 19 and 25) do not require a financial contribution.

The Government are committed to ensuring that by 2015 all young people under the age of 18 who are in employment are accessing accredited training.

The National Apprenticeship Service is committed to increasing the uptake of Apprenticeships among the group of 16 to 18-year-olds who are currently in Jobs without Training as part of our 16 to 18 Apprenticeships Action Plan. The Government have increased funding for Apprentices by almost a quarter since 2007-08 to over £1 billion in 2009-10.

The Learning Agreement Pilots, which ended in July 2009, tested interventions, incentives and options for engaging young people who are in jobs without training. These lessons are feeding into, for example, the on-going Activity Agreement pilots for those who are not in education, employment or training and the development of the Foundation Learning Tier as the learning suite for 14 to 19s working predominantly at Entry level or Level 1.

Work Capability Assessment

Mrs. May: To ask the Secretary of State for Work and Pensions what recent estimate she has made of the proportion of people undergoing the new Work Capability Assessment who have *(a)* passed that assessment and moved into the work-related activity group of the employment and support allowance, *(b)* passed that assessment and moved into the support group of the employment and support allowance and *(c)* failed that assessment; and what proportion of people assessed under the personal capability assessment (i) passed and (ii) did not pass that assessment. [290732]

Jonathan Shaw: Information on Employment and Support Allowance is due for publication in October.

Work Capability Assessment: Mentally Ill

Lynne Jones: To ask the Secretary of State for Work and Pensions what recent changes have been made to Work Capability Assessments to take account of the circumstances of those with fluctuating mental health conditions; and if she will make a statement. [290946]

Jonathan Shaw: There have not been any recent changes to the Work Capability Assessment. However, when it was introduced in October 2008, it was designed to ensure that people with mental health conditions are better identified and that their functional ability and support needs are correctly assessed. In addition, to allow for fluctuating conditions, the Work Capability Assessment does not take a snapshot of a person's condition on the day of assessment. Instead it looks at the person's level of function over time and considers whether they are able to complete actions reliably and repeatedly.

BUSINESS, INNOVATION AND SKILLS

Advantage West Midlands: Finance

Bill Wiggin: To ask the Minister of State, Department for Business, Innovation and Skills what adjustments have been made to his Department's funding allocations to Advantage West Midlands in each of the last three years. [288038]

Mr. McFadden: The following table shows indicative funding allocations made to Advantage West Midlands compared with their final allocation in each of the last three years.

£ million

	2006-07	*2007-08*	*2008-09*
Indicative allocation	284	286	279
Final allocation	290	292	296

British Telecom

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills what meetings Ministers and officials of his Department have had with representatives of BT to discuss the proposals in Government's Digital Britain report in the last six months. [285039]

Mr. McFadden *[holding answer 8 July 2009]:* The Digital Britain project is a joint initiative led by the Departments for Business, Innovation and Skills (BIS) and the Department for Culture, Media and Sport under Lord Carter as Minister for Communications, Technology and Broadcasting. Over the past six months, there have been four meetings on Digital Britain issues between Lord Carter and representatives of BT, and a further nineteen with BIS officials only.

Broadband: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how much funding the Government has allocated for expansion of high-speed broadband usage in *(a)* Essex and *(b)* Castle Point in each year since 1997. [279334]

Mr. McFadden: This Department has not allocated central funding for expansion of high-speed broadband usage in *(a)* Essex and *(b)* Castle Point in each year since 1997.

As you may already be aware, in the Budget on 22 April the Chancellor confirmed the Government's commitment to delivering a Universal Service for broadband at a speed of 2 Megabits per second, by no later than 2012. In the Digital Britain report, we will set out in greater detail our plan of how the Universal Service Commitment might work and we will be publishing the report very shortly.

Broadband: North East

Mr. Kemp: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department has allocated for the roll-out of high-speed broadband in the North East in the next three years. [289155]

Mr. McFadden: In the Digital Britain White Paper, the Government announced the creation of a Next Generation Fund, to be funded by a 50p per month supplement on all fixed telephone lines from 2010. This will generate £150-175 million per year and will encourage investment in super-fast broadband or 'next generation' broadband for the "Final Third" of the country that the commercial market will not deliver to otherwise. It is not possible at this time to say what areas will benefit or by how much. The proposed Network Design and Procurement Group will be responsible for this through the procurement process and network design.

Business Links: Finance

Mr. Harper: To ask the Minister of State, Department for Business, Innovation and Skills how much and what proportion of Business Links' budget was spent on support for self-employment and business start-ups in the last 12 months; and what expenditure under what budgetary headings Business Links has incurred on service delivery in that period. [285141]

Mr. McFadden: Business Link does not have a national budget. The Department provides regional development agencies (RDA) with funding in a single pot for the delivery of services. The RDAs contract with regional suppliers to deliver Business Link. The question requires gathering data from the nine regions and the multiple suppliers they contract with to deliver start up services locally and could be obtained only at disproportionate cost.

Business: Government Assistance

David Taylor: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in Leicestershire have applied for assistance under the Enterprise and Finance Guarantee Scheme to date. [254340]

Kevin Brennan: As of 12 August, in Leicestershire 70 businesses have been offered loans totalling £7.77 million.

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills how many officials at each grade have been employed on work relating to the Enterprise Finance Guarantee Scheme since its creation; how much has been allocated by his Department for staff costs; what recent discussions he has had with the Treasury on this issue; and if he will make a statement. [259064]

Mr. McFadden: The Enterprise Finance Guarantee has been developed by the Department's Enterprise Directorate, which has policy responsibility for start-up and growth for small and medium sized enterprises. The Directorate's resources are deployed on a project basis whereby resources follow priority work.

The Enterprise Finance Guarantee was developed and is being monitored from within an Access to Finance team consisting of around a dozen staff with responsibility for policy and monitoring of all aspects of finance for small and medium businesses.

Capital for Enterprise Limited, a wholly owned Government non-departmental public body, is responsible for the delivery of the Government's finance interventions, including the Enterprise Finance Guarantee.

Rosie Cooper: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to assist small to medium-sized enterprises through the current economic downturn. [261966]

Kevin Brennan: We have taken steps to help improve cash flow, to increase the availability of the credit businesses need, and to encourage investment so that businesses come through the recession ready to grow.

In particular, we obtained bank lending commitments from RBS and Lloyds to lend £27 billion additional lending to businesses this year. This includes lending guaranteed under the working capital scheme.

In addition, we introduced a trade credit insurance top-up scheme which provides protections for firms suffering a reduction in cover.

We have also taken steps to assist small businesses to overcome short-term cash-flow problems—for example the Enterprise Finance Guarantee and also measures to ensure prompt payment by both public and private sectors.

Andrew George: To ask the Minister of State, Department for Business, Innovation and Skills how many applications for finance guarantees from

companies in each local authority area under the Enterprise Finance Guarantee Scheme have been *(a)* received and *(b)* approved. [270686]

Kevin Brennan: The Department records information about the Enterprise Finance Guarantee on a regional basis. It does not hold the information at the level requested and it could be provided only at disproportionate cost.

Set out in the table is the information, for all UK regions, since the launch of the Enterprise Finance Guarantee on 14 January.

	Total eligible cases	*Total value of eligible cases (£ million)*	*Number of new loans offered to customers*	*Total value of offered Loans (£ million)*	*Number of offered loans drawn down*	*Total value of drawn Loans (£ million)*
Cumulative data	6,027	680.98	4,520	454.66	3,498	337.98
Region						
No region details as yet	1,085	173.91	1	0.1	0	0.0
East Midlands	342	37.60	323	35.33	244	25.7
East of England	569	50.30	540	46.40	409	36.06
London	590	68.47	537	59.92	389	40.95
North East	173	16.89	163	15.90	125	10.89
North West	527	52.95	475	46.25	403	40.16
South East	709	72.41	663	67.08	517	50.64
South West	555	50.44	527	47.22	411	32.33
West Midlands	469	44.82	437	41.44	335	30.53
Yorkshire and The Humber	305	32.18	278	29.41	217	21.2
Wales	242	18.50	229	17.53	167	11.29
Scotland	405	51.94	305	39.58	254	32.67
Northern Ireland	56	10.45	43	8.51	27	5.54

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills what the *(a)* total cost and *(b)* cost for (i) staff time, (ii) refreshments, (iii) security, (iv) transport and (v) other matters was of arranging and hosting (A) the employment summit on 12 January 2009, (B) the car industry summit on 28 January 2009, (C) the car industry summit on 12 December 2008, (D) the credit care summit on 26 November 2008, (E) the prompt payment summit on 10 December 2008, (F) the car industry summit on 27 November 2008 and (G) the pharmaceutical industry summit on 27 January 2009. [271593]

Mr. McFadden: Regarding the Employment Summit on 12 January, I refer the hon. Member to the answer given by my right hon. Friend, the then Minister of State for Pensions and the Ageing Society to the hon. Member for Welwyn Hatfield (Grant Shapps) on 5 May, *Official Report*, column 118W.

Regarding the Car Industry Summit on 28 January, I refer the hon. Member to the answer given by my hon. Friend, the then Parliamentary Under-Secretary of State for Economics and Business to the hon. Member for Welwyn Hatfield (Grant Shapps) on 20 March, *Official Report*, column 1408W.

BIS has no record of a Car Industry Summit being held on 12 December 2008.

The Credit Card Summit was held at the BERR conference centre in London on 26 November 2008. The total cost of the event was £6,080. The costs are broken down by budgetary headings in the following table.

	Expenditure breakdown of Credit Card Summit held on 26 November 2008 (£)
Catering costs	547
Venue hire	273
Staff costs	5,260
Total	6,080

Notes:
1. Figures rounded up to the nearest pound.
2. Calculating exact staff costs would be onerous, therefore figures are an estimate.

The Prompt Payment Summit on 12 December 2008 was held at the BIS Conference Centre in London. Refreshments were limited to tea and biscuits to around 20 delegates so costs were therefore minimal.

The Car Industry Summit on 27 November 2008 was held at the BIS Conference Centre in London. Total costs for this event were £784, broken down as £287 for room hire and £497 for catering.

The Pharmaceutical Summit held on 27 January was chaired by my right hon. Friend the Prime Minister at Downing street. My noble friend, the Minister for Economic Competitiveness and Small Business participated in the summit. BERR made no financial contribution to the cost of hosting the summit. BIS made no estimate of the cost of staff time, security or transport in preparing BIS's input to this event. This information is not held centrally and to do so would involve disproportionate cost.

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* small and medium-sized enterprises and *(b)* individuals have applied for assistance under each initiative announced by his Department since November 2008; how many applications have been (i) accepted and (ii) rejected; for what reasons applications were rejected; and how much funding has been provided in relation to each initiative. [276869]

Kevin Brennan: Since November 2008 the Department has announced the following schemes.

Enterprise Finance Guarantee (EFG)

This was launched on 14 January 2009. To date, over £680 million of eligible applications from 6,207 firms that have been granted, are being processed or assessed. 4,526 businesses have been offered loans totalling nearly £455 million.

Decisions on individual lending rests with the lender, whose decision will follow a commercial assessment of the viability of the proposition and the ability to service the loan and other charges, the suitability of EFG as opposed to lender's other commercial lending products, and the EFG eligibility criteria.

Capital for Enterprise Fund

The Capital for Enterprise Fund was also announced on 14 January. 1,611 businesses have registered their interest in the fund. The fund managers have made offers totalling £36 million to 24 businesses. Four businesses have accepted the terms of the funding offered with a total value of £5 million. Thus far, two businesses have received investment totalling £3 million. The fund managers are continuing due diligence on the further proposals that have been put forward.

Trade Credit Insurance

Take-up is demand-led as it depends on the number of credit limit reductions in the private sector. All applications, payments, claims and queries under the scheme are dealt with by the trade credit insurer. At present, 52 policies totalling £7.045 million have been accepted by trade credit insurers.

Scrappage Scheme

Over 165,923 orders for new vehicles have been taken since the scrappage scheme was announced in the Budget. The scheme was launched on 18 May. Under the terms of the scheme, vehicle dealers liaise with customers. BIS does not hold information on whether orders are made by businesses or individuals. A small number of orders are cancelled/removed each week for a variety of reasons e.g. accidental duplicate orders by dealers, the customer changing their mind. However, we anticipate that, subject to any future minor adjustments of this sort, all orders that meet the scheme criteria would qualify for Government funding of £1,000 per vehicle matched by at least £1,000 from the manufacturers.

Simon Hughes: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions his Department has had with accredited lenders under the Enterprise Finance Guarantee scheme about the terms and conditions under which loans are made to businesses; and if he will make a statement. [279302]

Kevin Brennan *[holding answer 15 June 2009]:* Capital for Enterprise Ltd, which delivers the Enterprise Finance Guarantee on behalf of BIS, has regular discussions with the main participating lenders about lending under the scheme and is working with them to ensure terms and conditions are communicated throughout their networks to Relationship Managers. Each lender has access to a web based portal which includes information on the EFG rules and training on the use of the portal.

Simon Hughes: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the effectiveness of the Enterprise Finance Guarantee scheme in supporting small businesses; and if he will make a statement. [279303]

Kevin Brennan *[holding answer 15 June 2009]:* The Enterprise Finance Guarantee has been designed to lend to viable businesses at the margins of commercial lending decisions representing approximately 3 per cent. of the total SME lending market and is facilitating lending that would otherwise not be available. Since the launch of the scheme in January:

As of 12 August 2009, over £680 million of eligible applications from over 6,027 firms has been granted, being processed or assessed.

So far, over 4,520 businesses have been offered loans totalling almost £455 million.

The network of approved lenders has expanded from eight at launch to twenty-seven, providing access across the whole of the UK.

A mystery shopper exercise (of the main four EFG lenders) showed that 77 per cent. of bank business advisers surveyed showed a good awareness of EFG.

Mr. McLoughlin: To ask the Minister of State, Department for Business, Innovation and Skills how many loans have been made to small and medium-sized businesses in *(a)* Derbyshire and *(b)* West Derbyshire under the Small Business Loan Guarantee scheme since its inception. [279652]

Kevin Brennan: The Enterprise Finance Guarantee was launched on 14 January and replaced the Small Firms Loan Guarantee. Set out in the table is the information for Derbyshire and West Derbyshire:

	Number	*Value (£ million)*
Derbyshire		
Loans offered	75	7.00
Loans drawn	62	5.66
West Derbyshire		
Loans offered	5	0.40
Loans drawn	3	0.34

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department and its predecessors have taken to *(a)* assist small businesses, *(b)* assist medium-sized businesses, *(c)* develop the skills base, *(d)* facilitate innovation and *(e)* facilitate business start-ups in Coventry in the last two years. [280718]

Mr. McFadden *[holding answer 18 June 2009]:* The information is as follows:

1. The Government are committed to ensuring that a comprehensive range of assistance is available, particularly to businesses affected by the economic downturn. The support available includes a package of schemes to address the cash flow, credit and capital needs of small businesses under the Real Help for Business campaign launched in January 2009. Full details of the support available can be found at:

www.businesslink.gov.uk/realhelp

2. Within the West Midlands region, The West Midlands Task Force set up by the Minister for the West Midlands, has established a 'one stop shop' website at:

www.supportwm.co.uk

dedicated to signposting businesses and individuals across the region to support available, including specialist regional support.

3. The following provides details of the range of support available to businesses at a national and regional level. It should be noted that it is not possible to provide Coventry specific data in many cases, as data are not routinely available at a local level and schemes do not generally distinguish between small and medium sized firms.

National Measures to assist business under Real Help for Business—January 2009 to 21 August 2009

4. Support available includes government guaranteed lending under the Enterprise Finance Guarantee scheme, the Capital for Enterprise Fund, the RDA Transition Loan Funds and a series of other financial measures instituted to help businesses with their cash flow such as the Prompt Payment Code, Top-up Trade Credit Insurance. Other key measures put in place include the Help for Business Helpline and special help to the automotive sector including scrappage and the Automotive Assistance Programme. The following provides details of the take up of this support at national level. Figures on take up are provided for the West Midlands where available.

Overview of national initiatives—cumulative figures to 21 August 2009

National initiatives	
Enterprise finance guarantee scheme	Over 4,600 businesses have been offered total loans of £470 million.
	West Midlands EFG: 448 businesses have been offered total loans of £43.15 million.
Capital for enterprise fund	Almost £36 million offered to 24 businesses.
RDA transition loan funds	Loans totalling over £50.3 million have been agreed.
Prompt payment code -business to business	427 signatories to the Prompt Payment Code.
	75 West Midlands companies have signed up to the code.
Prompt payment code -government to business	In July, central Government departments paid 9 out of 10 invoices within 10 days; median performance across 22 departments was 92.96 per cent.
Top-up trade credit insurance	52 accepted applications to a value of £7.045 million made up of 39 suppliers in 7 sectors.
Help for business helpline	A total of 226 companies were considered urgent enough to require Government intervention by MPs and Peers who referred cases to the Help for Business helpline. 155 of the total cases were identified as SMEs; 29 from the West Midlands.
Business link health checks	Over 74,000 businesses have benefited from a health check.
	West Midlands: 9,706.
Temporary vehicle scrappage scheme	Almost 160,000 orders for new vehicles have been taken since the scheme was announced in the Budget, 9 per cent. of these were placed in the West Midlands.
	41 manufacturers signed up.
Automotive assistance programme	BIS officials have been in direct contact with over 90 companies, which is around 25[illegible] of all companies who qualify for the support package. To date, officials have worked with over 20 companies on their formal expressions of interest.

Regional measures to assist businesses over the last two years

5. Key initiatives are set out in the following table along with details of the level of support provided to businesses in the Coventry and Warwickshire area during 2007-08 and 2008-09 (Coventry data are in italics where they are available).

Key business initiatives	
Advantage West Midlands (AWM) businesses assisted	3, 267 businesses assisted.
AWM business start ups	669 businesses supported.
AWM inward investment activity	Assisted 11 new foreign owned companies to set up and in the expansion of 2 new foreign owned companies.
AWM grant for business investment (includes SFIE)	26 businesses received grants totalling £2 million.
AWM regional venture capital funds	*14 businesses in Coventry received funds totalling £0.3 million.*
Business link West Midlands	Within Coventry:
	Market engagement/penetration (unique businesses) with 6,444 businesses.
	Assisted 272 businesses.
	Assisted 465 start ups.
	1,500 intensively assisted incorporating diagnostic review and follow up support.
	1,901 individuals given advice on business start up in 2008-09.
Manufacturing advisory service	Within Coventry:
	Market engagement/penetration with 268 businesses.
	Intensively assisted 100.
UK trade and investment (funded by BIS)	*58 companies, (mainly small businesses) were assisted through its Passport to Export Programme.*
	Additionally, outside of the Passport to Export Programme, significantly assisted a further 195 (mainly medium sized) companies to increase their exports.
Local enterprise growth initiative (LEGI) aimed at increasing levels of entrepreneurial activity and supporting SMEs. LEGI was jointly sponsored by ODPM (now DCLG), DTI (now BIS) and HM Treasury	Between *April 2006 and March 2010, Coventry* received just over £12 million, through the LEGI initiative, outcomes include:
	support and advice to 626 businesses.
	403 individuals being supported in developing business propositions leading to 311 new business start ups.
Advantage transition bridge fund	The Advantage Transition Bridge Fund reopened in November 2008. To date, it has made offers of loans totalling £9.3 million to 55 businesses. Of these, 9 businesses were located in Coventry and Warwickshire, who received loan offers totalling £1,405,000.
Business link business doctor service	The business doctor service (which operated during February and March 2009) sought to address the immediate needs of businesses affected by the economic conditions. The service was targeted at providing face to face support on key issues, including strategy development, marketing, financial management etc. A small element of grant funded specialist support to help businesses access advice on financial restructuring and recovery measures was also provided. This initiative delivered specialist support to 140 businesses across the region (sub regional breakdown not available), awarding £340,000 in grant funding.

Key business initiatives	
Community development finance institutions (CDFIs)	12 loans were made to Coventry based businesses, totalling £401,734.

Innovation support

6. The Coventry and Warwickshire sub-region has significant strengths in innovation being home to Coventry University and the University of Warwick, as well as clusters of high growth industries including ICT, digital media and medical technologies. The area benefits from region wide innovation activity, supported by AWM, such as Innovation Networks, Grant for Research and Development, the Index Voucher Scheme and Knowledge Transfer Partnerships. Also, going forward Business Link West Midlands is developing the Innovation Advisory Service to work with partners (including MAS) to offer a range of innovation support to business.

7. Examples of innovation support provided by AWM to businesses in the Coventry and Warwickshire area during 2007-08 and 2008-09 include:

20 Research and Development Grants, totalling £0.7 million.

Development of a world-class research and development park at Ansty, which has already attracted Ericsson's international R and D department. Ansty has also been identified as the location for the National Manufacturing Technology Centre.

Part funding the University of Warwick's flagship scheme—The Digital Lab ,This centre includes visualisation and simulation technologies and brings together some of the world's top academics in digital technologies working on digital manufacturing and digital healthcare and space for companies to work with researchers.

The launch of the Serious Games Institute and Health Design Technologies Institutes at Coventry Universities. Both of these centres have strong business links and are in key areas of regional industry strength/growth.

Development of Centres of Excellence in lightweight vehicles at Warwick University; this builds on AWM's funded Premium Auto Research and Development Programme (PARD) at the University.

Under the AWM led Science City Programme of activity, Warwick University are leading three projects: Energy Efficiency (around £9 million for sustainable building and transport technologies—heat pumps, power electronics and automotive and rail applications); Translational Medicine (clinical trialling leading to improvements—particularly in obesity, diabetes, heart disease etc.) and Advanced Materials two (innovative uses of new materials including sensors in harsh environments, composites in transport applications and smart bio-materials).

Coventry University was involved in a Science City demonstrator project on Intelligent Vehicles—using wireless technologies to position vehicles for trialling/testing. This led to a joint venture between two of the region's companies (one Coventry based).

The universities of Coventry and Warwick are also involved in a number of other AWM innovation support interventions including Innovation Vouchers, Innovation Networks (led by Coventry University) and Knowledge Transfer Partnerships.

8. Additionally, UKTI through its Passport to Export Scheme has targeted and assisted seven research and development intensive companies. More generally, working with Coventry University Enterprise, UKTI also provides a range of training and support programmes to help businesses in Coventry and across the region.

Developing the skills base

9. The following table provides an overview of support provided in the Coventry and Warwickshire area over 2007-08 and 2008-09, unless otherwise stated. Coventry specific data are provided where available.

Regional initiatives	
Train to gain	Over the last four years £4.5 million funding has been invested, with over 4,500 employers benefiting from training. During 2008-09 an additional £7 million was invested in the area in Train to Gain delivery, enabling over 6,000 employers to benefit from training.
Coventry LEGI initiative	Between 2006-09 LEGI provided mentoring support, training and/or advice to over 1,300 individuals to enable them to overcome barriers to employment or enterprise start up.
AWM's advantage graduate scheme	Over the last two years it has: Completed around 40 placements in the Coventry area. Assisted around 160 students from Coventry to improve their employability skills.

10. Under the Advantage Graduate Scheme, AWM also collaborates with partners to produce a brochure detailing regional job opportunities which is available to all final year students in the West Midlands. The 2009 edition contains a list of 1,000 business in the West Midlands who are interested in employing graduates, over 100 of which are in Coventry.

11. In terms of Leadership and Management skills, AWM supports a brokerage service delivered by Business Link that targets leadership and management support at middle tier aspirational businesses. The service works with management teams to improve business performance. So far six teams have been supported in Coventry—approximately 10 per cent. of the total number.

12. AWM has also provided funding for TUC Learning Centres in the Coventry area to enable work based learning.

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps his Department has taken to assist small and medium-sized businesses in Leeds. [282010]

Kevin Brennan *[holding answer 24 June 2009]*: Through Business Link Yorkshire, small and medium sized businesses (SMEs) in Leeds can access the wide range of mainstream Government business support products and services. In 2008-09 Business Link Yorkshire dealt with 14,727 requests for advice and support from SMEs in the Leeds local authority area.

The Government have delivered on their commitment to simplify support with the roll out of the Solutions for Business portfolio of services. Solutions for Business offers a comprehensive and streamlined package of 30 publicly funded support products for SMEs.

Additional support has been made available to help SMEs during these tough economic times through Real Help Now for Businesses. This includes business financial health checks and a rapid response service to help SMEs hit hardest by the recession. The rapid response service provides support to people recently made redundant or facing redundancy to help them find new jobs or consider starting a business.

The full suite of business support services is routinely delivered in Leeds, including advice, guidance and practical financial support with business start-ups, support for entrepreneurs and innovators with information on how to develop and explore their ideas, from inspiration to planning, to research, marketing, launch, business growth and exporting. Jobcentre Plus assists local businesses with recruitment and training and the LSC provides Train to Gain and apprenticeship funding.

Leeds secured £20.6 million from the Government's Local Enterprise Growth Initiative (LEGI) in 2006. The Leeds LEGI programme—known locally as "Sharing the Success"—aims to develop enterprise, create new jobs and boost prosperity in some of the most disadvantaged communities and runs until March 2011. "Sharing the Success" is funding a wide range of community based initiatives including a network of local enterprise centres, business start up advice and a business growth fund for existing businesses.

Leeds Chamber of Commerce and Leeds City Council have formed a partnership—Enterprise Leeds—which brings together a range of business support organisations. They include Leeds Media, China Britain Business Council, Business Link Yorkshire and the West Yorkshire Employer Coalition Through Enterprise Leeds, businesses and entrepreneurs in the city can access a wide range of services including:

finding business premises in Leeds

information and advice to business advice and support organisations

business support for start ups, existing businesses and inward investors

business development and support for minority ethnic businesses

Mr. Jenkins: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in Tamworth constituency have *(a)* applied for and *(b)* received funding from (i) the Enterprise Finance Guarantee and (ii) the Working Capital Scheme to date. [288166]

Kevin Brennan: The Department records information on the Enterprise Finance Guarantee on a regional basis, including the West Midlands. It does not hold the information at the requested level and it could be provided only at disproportionate cost.

Set out in the table is the information for West Midlands since the launch of the Enterprise Finance Guarantee on 14 January:

	Number	Value (£ million)
Eligible applications	469	44.9
Loans offered	427	41.4
Loans drawn	335	30.5

No companies have received funding under the Working Capital Scheme. The Working Capital Scheme provides guarantees to banks on portfolios of short-term loans: businesses cannot apply for guarantees under this scheme.

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills how much has been *(a)* offered to businesses, *(b)* accepted by businesses and *(c)* received by businesses under the Capital for Enterprise Fund. [287612]

Kevin Brennan: The appointed fund managers of the Capital for Enterprise Fund have so far made offers totalling almost £36 million to 24 businesses. Four businesses have accepted the terms of the funding offered with a total value of £5 million. The fund managers are continuing due diligence on the further proposals that have been put forward. Two businesses have received investment totalling £3 million.

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 13 July 2009, *Official Report*, columns 189-90W, on business: Government assistance, by what criteria his Department will determine whether an industrial project is *(a)* advanced and *(b)* of strategic importance to the UK's economic renewal. [288218]

Mr. McFadden: "Building Britain's Future: New Industry, New Jobs" set out our analysis of the opportunities facing the economy and the foundations of UK competitiveness. Determining whether projects are advanced and strategic will depend on an assessment of how the proposal fits with opportunities for UK-based businesses and whether it represents an opportunity where Government can have a real and beneficial impact. The assessments take into account, among other factors, the potential for a project to develop systemic linkages to the rest of the economy and meet public needs, the importance of a project for the economic future of a given region, the technological novelty and spill-over potential and the extent to which a project leads to increased use and further development of workforce skills.

In addition, all proposals will be appraised to ensure that they have a clear rationale that Government intervention will make a difference and provide good value for money in delivering longer term benefits to the UK wide economy.

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 13 July 2009, *Official Report*, columns 189-90W, on business: Government assistance, by what mechanism businesses will be able to access the £250 million of the Strategic Investment Fund which has been ring-fenced specifically for low carbon initiatives. [288317]

Mr. McFadden: The aim of the Strategic Investment Fund is to support the UK being in a stronger position to take advantage of opportunities as the global economy returns to growth. Although the SIF is not a fund to which businesses can apply directly, BIS seeks and continues to welcome a broad engagement with business and other organisations to understand opportunities and challenges they face as well as the areas in which government action can have a bigger impact.

"The UK Low Carbon Industrial Strategy", published on 15 July 2009, set out the first investments from the £250 million of funding allocated for low carbon economic development. It will deliver targeted support for sectors with high growth potential such as offshore wind, wave and tidal energy, and remove barriers to low carbon investment in the UK.

Announcements on specific projects and sectors to be funded will be made over the coming months. Where it is possible to bid for elements of funding, the process for doing so will be made clear when funding is announced.

Business: Insurance

Mr. Osten: To ask the Minister of State, Department for Business, Innovation and Skills how many companies have made an application under the Trade

Credit Insurance Scheme to date; how many such applications have been *(a)* approved and *(b)* rejected in each month in which the scheme has been operational; and how much funding has been disbursed under the Scheme to date. [286382]

Kevin Brennan *[holding answer 13 July 2009]:* Take-up of the scheme is demand-led as it depends on the number of credit limit reductions in the private sector. All applications, payments, claims and queries under the scheme are dealt with by the trade credit insurer. Eligibility for the scheme is automatic for all those that qualify.

To date, we have had a total of 52 approved applications, broken down as follows:

	Number of approved applications
May	11
June	8
July	26
To 14 August	7

We have had one claim for a value of £81,000.

29 applications have been rejected by the Trade Credit Insurers for being ineligible under the scheme rules.

Business: Merseyside

Mrs. Curtis-Thomas: To ask the Minister of State, Department for Business, Innovation and Skills what support his Department has provided to *(a)* small and *(b)* medium-sized businesses in (i) Merseyside and (ii) Crosby constituency during the economic downturn. [283185]

Mr. McFadden: SMEs in Merseyside and Crosby are supported by the Northwest's Framework for Action which was launched in February 2009. The framework sets out a parallel process to stabilise a business in difficulties and to engage JobCentre Plus and LSC to support those made redundant or at risk. Businesses can access the full package of support by contacting Business Link Northwest. Business support includes Business Finance, Skills and Development and Innovation and Efficiency.

A copy of the Northwest's Framework for Action has been placed in the House of Commons Library.

Cheques

Mr. Breed: To ask the Minister of State, Department for Business, Innovation and Skills what steps he plans to take in response to the withdrawal of cheques as a method of payment; and if he will make a statement. [290823]

Sarah McCarthy-Fry: I have been asked to reply.

The National Payments Council are not considering phasing out cheques as a method of payment, but only whether it would be sensible to set a long-term date for closing the use of a cheque clearing system.

In the National Payments Plan, the Payments Council committed to conducting initial research and analysis into the future of cheques as a method of payment, with the aims of:

understanding the barriers to cheque substitution;

identifying the areas where work is needed on acceptable alternatives to cheques; and,

clarifying where more education is needed on existing alternatives.

The Payments Council is committed to being open and transparent in its review of the future of the cheque clearing and even if a timescale were to be set, various milestones would need to be agreed and delivered before any final decision would be taken to irrevocably close cheque operations.

Continental Shelf Receipts

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills how much the Government *(a)* paid to the Isle of Man Government and *(b)* transferred to Northern Ireland in relation to UK continental shelf receipts in each year since 2000. [289015]

Mr. Kidney: I have been asked to reply.

The following table shows how much the Government have paid to *(a)* the Isle of Man and *(b)* Northern Ireland in respect of a share of UK Continental Shelf receipts since 2000:

Payments to Isle of Man and Northern Ireland (£000)

Financial year	*Isle of Man*	*Northern Ireland*
2000/01	0	11,474
2001/02	0	16,108
2002/03	0	16,224
2003/04	0	13,175
2004/05	0	1,527
2005/06	0	1,317
2006/07	0	1,392
2007/08	0	1,340

Departmental Billing

John Mason: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288923]

Mr. McFadden: During June 2009, the Department paid 92.3 per cent. of supplier invoices within 10 working days of receipt.

Departmental Data Protection

James Brokenshire: To ask the Minister of State, Department for Business, Innovation and Skills how many officials in *(a)* his Department and *(b)* its agencies have been (i) disciplined and (ii) dismissed for (A) breaches of data protection requirements and (B) inappropriate use of personal or sensitive data in the last 12 months. [278742]

Kevin Brennan: I refer to the answer given by the then Minister for Trade, Investment and Consumer Affairs on 12 January 2009, *Official Report*, column 450W.

We are unable to answer the question as to do so would breach the confidentiality of individual/s concerned.

I have approached the chief executives of the Department's executive agencies and they will respond to you directly.

Jenny Willott: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* attempts and *(b)* successful attempts were made to gain unauthorised access to each (i) database and (ii) ICT system run by his Department in each of the last five years; and if he will make a statement. [286553]

Mr. McFadden: It is not in the interests of the UK's national security for departments to confirm information on the number of attempts, successful or otherwise, to gain unauthorised access to departmental systems or databases. Such disclosure could undermine the integrity and security of departmental systems and thereby expose them to potential threats.

The Department for Business, Innovation and Skills complies with the mandatory requirements of the Security Policy Framework in relation to information security including managing the risk of unauthorised access to ICT systems.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the answers of 26 November 2008, *Official Report*, columns 1699W and 1934W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since November 2008. [289168]

Mr. McFadden: Since November 2008, this Department and its predecessor's Estates Section has spent £8,000 (exc.VAT) on the purchase and installation of flat screen televisions. We cannot separate purchase from installation costs without incurring disproportionate cost. No DVD players or stereo equipment have been purchased during this period. Information is not held centrally for any purchases of equipment made by individual directorates within the Department.

I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond directly to the hon. Member.

Departmental Equal Opportunities

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what his Department's definition is of equality of opportunity in relation to its policies; and if he will make an assessment of the impact on equality of opportunity of his Department's policies. [285305]

Mr. McFadden: The Department's definition of equality of opportunity is set out in the equality schemes of the former Departments of Business, Enterprise and Regulatory Reform (BERR) and Universities, Innovation and Skills (DIUS). We are currently reviewing these schemes with the aim of producing a single equality scheme for BIS.

Equality impact assessments (EQIAs) produced by BIS (and formerly by BERR and DIUS) measure the impact on equality of opportunity of departmental policies. EQIAs are either published as stand-alone documents on the BIS website which can be accessed at

http://bisintranet/Pages/BIShomepage.aspx,

or as part of a standard impact assessment, final versions of which are published on the Better Regulation Executive's impact assessment library at

http://www.ialibrary.berr.gov.uk/.

Departmental Pay

John McDonnell: To ask the Minister of State, Department for Business, Innovation and Skills how many staff employed in London on work contracted to their employers by his Department earn less than £7.45 per hour. [273116]

Mr. McFadden *[holding answer 7 May 2009]:* The Department of Business, Innovation and Skills was created in June this year and made up of the former Departments of BERR and DIUS. That part of the Department which is ex- BERR does not have any directly employed staff earning less than £7.45 per hour in London. The pay and remuneration of staff employed by contractors used by ex- BERR is determined by their direct employers.

DIUS had already responded to this question before BIS was created 14 May 2009, *Official Report*, column 994W.

Departmental Press Releases

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills where Department for Innovation, Universities and Skills press releases are archived on the internet. [286991]

Mr. McFadden: The then Department for Innovation, Universities and Skills press releases are archived at:

http://www.dius.gov.uk/news_and_speeches/press_releases.aspx

Departmental Public Expenditure

Dr. Cable: To ask the Minister of State, Department for Business, Innovation and Skills if he will estimate his Department's expenditure on enterprise funds in each financial year from 2009-10 to 2014-15. [257649]

Kevin Brennan: The Enterprise Funds support the Enterprise Finance Guarantee and legacy Small Firms Loan Guarantee, along with the Department's equity fund portfolio including Enterprise Capital Funds, the Capital for Enterprise Fund and the Aspire fund.

BIS is fully committed to supporting the enterprise and growth agenda. The Department's 2008-09 Annual Report and Accounts gives details of spend on enterprise funds and planned expenditure up to 2010-11. Expenditure after that date will be agreed at the next spending review.

In addition, the Government announced the creation of the UK Innovation Investment Fund (UKIIF) in June 2009. The UKIIF backed by £150 million of Government funding aims to attract significant private sector investment to help invest in growing small businesses, start ups and spin outs in the digital, life science, clean technology and advanced manufacturing sectors.

Departmental Publications

Grant Shapps: To ask the Minister of State, Department for Business, Innovation and Skills what expenditure his Department incurred in *(a)* producing and *(b)* publishing its document, Better Deal for Consumers; and how many copies were printed. [286914]

Mr. McFadden: The total cost of designing, printing and translating (where necessary) the White Paper were £23,022.15. 1,000 copies of the White Paper were printed.

Departmental Responsibilities

Mr. Graham Stuart: To ask the Minister of State, Department for Business, Innovation and Skills on how many occasions the Secretary of State for Business, Innovation and Skills has met Lord Paul of Marylebone on matters relating to his departmental responsibilities since October 2008; and if he will make a statement. [281958]

Mr. McFadden: My noble Friend the Secretary of State has had no meetings with Lord Paul of Marylebone.

Departmental Secondment

Sarah Teather: To ask the Minister of State, Department for Business, Innovation and Skills how many employees of his Department and its predecessors have been posted to work in offices of hon. Members of each political party in each of the last five years. [284977]

Mr. McFadden: Civil servants are required to act in accordance with the requirements of the Civil Service Code.

Civil servants may shadow MPs as part of a programme run by the industry and Parliament Trust. Details on numbers of civil servants from this Department (and its predecessors) that have had such an attachment are not held centrally.

Departmental Trade Unions

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 10 March 2009, *Official Report*, column 394W, on trade unions, what office facilities are provided for the exclusive use of each trade unions recognised by the Department; and what the notional yearly value of such provision is in each case. [288721]

Mr. McFadden: This Department provides office facilities for the exclusive use of the trade union side at its building at 1 Victoria street, London and at Moorfoot in Sheffield. The current cost per annum of providing this space is £22,000 in London and £3,950 in Sheffield.

Departmental Work Experience

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many work placements his Department and its predecessor offered to *(a)* school pupils, *(b)* university students and *(c)* graduates in each of the last five years. [274693]

Mr. McFadden: The Department for Business Innovation and Skills was created on 5 June 2009 with the merger of the Department for Business, Enterprise and Regulatory Reform (BERR) and Department for Innovation Universities and Skills (DIUS).

(a) DIUS offered 12 work experience places which were taken up by school pupils in 2008.

BERR and its predecessor DTI did not keep central records of the number of work placements offered to school pupils. Any such opportunities are arranged by individual business groups.

(b) and *(c)* Work placements in both DIUS and BERR for university students and graduates were arranged by the individual business groups. No central records were kept of the placements that were offered or the numbers that took up these positions.

BERR participated annually in the Cabinet Office Diversity Internship Programme for undergraduates and graduates from ethnic minority backgrounds which are under represented in the civil service. The scheme provides six to eight week paid placement scheme for students who are considering the civil service as a future career.

Based on the information available from 2003 to 2009, a total of 32 students have been placed in the Department as part of the scheme.

Derek Draper and Charlie Whelan

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills when the Secretary of State last *(a)* met and *(b)* communicated with (i) Mr Derek Draper and (ii) Mr Charlie Whelan in the course of his official duties. [287358]

Mr. McFadden: My noble Friend the Secretary of State met Mr. Charlie Whelan on 15 January in the course of his official duties.

Economic Situation

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what initiatives announced by his Department since November 2008 to assist *(a)* small and medium-sized enterprises and *(b)* individuals (i) have been implementend and (ii) remain to be implemented; on what date each was implemented; and if he will make a statement. [268508]

Kevin Brennan: The Government acted swiftly at the beginning of the year to help small businesses survive the current economic downturn. The package of support to address the cash flow, credit and capital needs of businesses announced by my right hon. and noble Friend the Secretary of Sate on 14 January under the Real Help campaign provided:

£1 billion of guarantees supporting £1.3 billion of lending to smaller businesses through the Enterprise Finance Guarantee Scheme;

Up to £10 billion of guarantees through the Working Capital Scheme that will secure new and existing credit lines worth up to £20 billion—and free up new capital for lending; and

A £75 million capital (£50 million from HMG and £25 million from banks) fund to invest in businesses that need equity or quasi equity.

Enterprise Finance Guarantee became operational on 14 January and as of 12 August lenders have logged over £680 million of eligible applications from over 6,000 businesses which have been granted, being processed or assessed.

Capital for Enterprise Fund was open to registration from 14 January, the two fund managers have since been appointed to appraise propositions for potential investment. Funds managers have made offers totalling almost £36 million to 24 businesses, of which four businesses have accepted the terms of the offer issued with a value of £5 million. Two businesses have received investment totalling £3 million.

The Working Capital Scheme was announced on 14 January and formally launched on 2 March.

The Government have also recently launched the UK Innovation Fund as part of Government's strategy for Building Britain's Future.

Employment Agencies: Conditions of Employment

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 3 July 2009, *Official Report*, columns 438-39W, on employment agencies: conditions of employment, on what charges employment agencies were convicted in January and June 2009 as a result of complaints made to the Employment Agency Standards helpline. [285530]

Mr. McFadden: In January 2009, a recruitment agent in the entertainment sector was prosecuted for failing to pay workers £3,500 for their performances.

In June 2009, a recruitment agency consultant supplying rail workers was prosecuted for failing to pay workers £11,000.

Higher Education

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many additional student places have been provided by the Higher Education Funding Council for England in each year since 1992. [288583]

Mr. Lammy: Table 1 shows full-time equivalent (FTE) student numbers allocated through HEFCE's main Additional Student Number (ASN) exercises for the years 1998 to 2009. Figures prior to 1998 are not included because places were allocated under a different system.

Table 1: Additional student numbers (ASNs) allocated by HEFCE from 1998-1999 to 2009-10

	Fully-funded	Co-funded	Total
2009-10	10,000	7,100	17,100
2008-09	13,900	5,000	18,900
2007-08	26,500	1,600	28,100
2006-07	21,300	200	21,500
2005-06	16,500	0	16,500
2004-05	18,500	0	18,500
2003-04	18,300	0	18,300
2002-03	17,600	0	17,600
2001-02	22,200	0	22,200
2000-01	19,600	0	19,600
1999-2000	31,300	0	31,300
1998-1999	9,600	0	9,600

Notes:
Figures are rounded to the nearest 100 FTE.
The table includes fully-funded ASNs as well as those co-funded by employers fully-funded ASNs include: increases in intakes to undergraduate medicine and dentistry courses; FTEs to support diversification out of Initial Teacher Training; Prototype Foundation Degrees (awarded 2001-02 to 2004-05).
Where ASNs are co-funded, the FTEs to be delivered have been included rather than the fully-funded figures.

Higher Education: Admissions

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 19 May 2009, *Official Report*, columns 1330-31W, on higher education: admissions, how many applications for full-time undergraduate courses in England were *(a)* submitted and *(b)* accepted in each year since 1979; and how many such applicants were domiciled (i) outside the EU, (ii) in the EU but not in the UK and (iii) in the UK. [278875]

Mr. Lammy: The information is in the tables. Comparable information, which separately identifies non-UK students applying to institutions in England, is not held centrally for years prior to 1994. Prior to the formation of UCAS in 1994, figures were published separately for the two admission systems, the Universities Central Council on Admissions (UCCA) and the Polytechnic and College Admission Service (PCAS), but they did not separately identify non-UK students applying to institutions in England.

Applicants to full-time undergraduate courses in England via UCAS 1994-2008

Domicile	UK	EU	Non-EU	Grand total
1994	326,412	15,514	20,070	361,996
1995	316,917	19,891	21,479	358,287
1996	308,769	21,342	22,906	353,017
1997	334,691	24,356	25,915	384,962
1998	327,000	22,080	25,462	374,542
1999	323,025	21,010	23,440	367,475
2000	321,696	18,628	24,949	365,273
2001	327,564	15,927	28,362	371,853
2002	326,894	14,610	34,000	375,504
2003	334,355	15,276	38,722	388,353
2004	339,434	16,298	43,897	399,629
2005	369,719	17,826	47,144	434,689
2006	355,567	23,729	37,434	416,730
2007	376,177	26,872	39,435	442,484

2002	273,257	9,149	22,069	304,475
2003	274,983	9,400	24,788	309,171

Accepted applicants to full-time undergraduate courses in England via UCAS 1994-2008

Domicile	UK	EU	Non-EU	Grand total
2004	274,507	9,561	27,105	311,173
2005	299,288	9,904	28,298	337,490
2006	287,409	14,288	23,557	325,254
2007	304,796	16,008	24,377	345,181
2008	340,879	16,195	25,472	382,546

Note:
UCAS applicant data. The applicant figures cover applicants submitting one or more applications to an English institution (in 1994/95 each applicant could submit up to eight applications; this was reduced to six from 1995/96, and to five from 2008/09). Students in this table applying to English institutions may also have applied to institutions in one or more of the other home countries, and some may have been accepted to institutions in those countries. In 2008 the Nursing and Midwifery Admissions System (NMAS) was subsumed in to the UCAS application system and part of the increase from 2007 to 2008 can be attributed this factor. There were 14,184 applicants who were accepted to former NMAS courses, the majority of whom were English domiciled (and NMAS was only for English institutions).

UCAS

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of residents in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire, *(d)* the South East and *(e)* England entered university in each of the last 10-years. [284316]

Mr. McFadden: The Government does not collect data on the number of people resident in a particular area who are not in higher education. Therefore, it is not possible to calculate what proportion of residents in Hemel Hempstead constituency, Dacorum, Hertfordshire and the South East entered university in each of the last ten years.

The Higher Education Funding Council for England (HEFCE) published "Young participation in higher education" in January 2005, which is available from the HEFCE website at:

http://www.hefce.ac.uk/pubs/hefce/2005/05/03/

The HEFCE report shows participation rates for young people who enter higher education aged 18 or 19 disaggregated by local education authority (LEA) for the years 1997 to 2000.

At national level, the higher education initial participation rate (HEIPR) covers English-domiciled 17-30 year old first-time entrants to higher education courses, at UK higher education institutions and English, Scottish and Welsh further education colleges, who remain on their course for at least six months. The latest available figure is 43 per cent. in 2007/08.

The numbers of all-aged entrants to higher education from Hemel Hempstead constituency, Dacorum, Hertfordshire, the South East and England, in each of the last ten years, are shown as an alternative in the tables. Figures for the 2008/09 academic year will be available in January 2010.

Entrants[1] from Hemel Hempstead constituency[2], Dacorum census district[2] Hertfordshire local authority[2], the South East Government Office Region[2] and England UK higher education institutions[3] : Academic years 1998/99 to 2007/08

Academic year	Hemel Hempstead	Dacorum	Hertfordshire	South East	England
1998/99	735	1,220	10,215	79,235	516,930
1999/2000	740	1,225	10,615	80,220	515,565
2000/01	845	1,340	11,045	80,705	516,750
2001/02	900	1,420	11,395	85,095	548,000
2002/03	865	1,385	11,620	86,875	570,695
2003/04	935	1,420	13,315	87,645	578,790
2004/05	880	1,410	11,940	90,500	579,200
2005/06	970	1,545	12,215	92,340	598,745
2006/07	855	1,365	11,585	87,305	575,085
2007/08	910	1,495	12,015	88,705	589,055

[1] Covers postgraduate and undergraduate entrants to both full-time and part-time courses.
[2] The table does not include entrants where the parliamentary constituency, local authority area, census district and Government Office Region of the student cannot be established due to missing or invalid home postcodes.
[3] Excludes the Open University due to inconsistencies in their coding of entrants over the time series.
Notes:
Figures are based on a snapshot as at 1 December and are rounded to the nearest five.

Higher Education Statistics Agency (HESA)

Higher Education: Finance

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how much and what proportion of the funding awarded to higher education institutions as a result of the changes to the funding for students studying for equivalent and lower qualifications has been designated as core teaching funding for 2009-10. [287029]

Mr. McFadden: This policy redistributes funding for the teaching of students studying for equivalent or lower qualifications (ELQs) to the teaching of students who have not previously benefitted from higher education. For 2009-10 we have asked the Higher Education Funding Council for England to redistribute £60 million from a total support for ELQ students of £325 million.

Innovation

Gregory Barker: To ask the Minister of State, Department for Business, Innovation and Skills what progress has been made on establishing a new national proof of concept fund. [280369]

Mr. Lammy: There is no dedicated proof of concept fund. To ensure businesses receive the most cost effective and comprehensive range of support a new national framework for proof of concept support was adopted by the RDAs in March. The framework comprises funding of up to £500,000; access to facilities, including business incubators, laboratories and science parks; and tailored help including help with business and financial planning and coaching on how to pitch for investment.

This new national framework ensures help is targeted to the specific needs of businesses. It avoids the overlap and duplication that would be created by a dedicated proof of concept scheme. All RDA support for proof of concept will be fully aligned with the national framework by 31 March 2010.

Insolvency

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills how many British businesses which *(a)* export and *(b)* do not export have entered into administration in each of the last 36 months. [277786]

Mr. McFadden: It is not possible to identify whether insolvent companies had exported or not. Further, insolvency statistics are not produced on a monthly basis.

Insolvency Service: Official Hospitality

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much the Insolvency Service spent on *(a)* promotional items and *(b)* gifts in each of the last five years. [285440]

Mr. McFadden: The Insolvency Service has spent the following amounts on *(a)* promotional items:

	Amount (£)
2004-05	Nil
2005-06	2,036.28
2006-07	3,654.25
2007-08	23,489.94
2008-09	4,142

and *(b)* on gifts:

	Amount (£)
2004-05	Nil
2005-06	663.89
2006-07	596.90
2007-08	Nil
2008-09	Nil

Lockerbie: Bombings

Mr. Hague: To ask the Minister of State, Department for Business, Innovation and Skills how many times the Secretary of State has met Saif al-Uslam Gaddafi in an official capacity; whether the subject of *(a)* commercial contracts for oil and gas and *(b)* Abdelbaset Ali al-Megrahi have been discussed at any such meeting; and if he will place in the Library records of each meeting. [290637]

Mr. McFadden: My noble Friend the Secretary of State has had one official meeting with Saif al-Uslam Gaddafi. There was no discussion of commercial contracts for oil and gas. Saif al-Uslam Gaddafi raised the case of Abdelbaset Ali al-Megrahi. My noble Friend the Secretary of State made clear that this was a matter for the Scottish Executive.

Parker Pen Company: Newhaven

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills if he will take steps to limit the likely negative effects of the proposed closure of the Parker Pen factory in Newhaven on the local businesses. [288871]

Mr. Lammy *[holding answer 21 July 2009]:* Support to local businesses and work force to help them manage the impact of the proposed closure of the Parker Pen factory in Newhaven is delivered through a number of regional and local agencies. The range of support mechanisms that is currently available includes all the following.

"South East England Development Agency (SEEDA)" is providing a range of support mechanisms. SEEDA's Investor Development Manager and a broker from the Continuing Employment Support Service (CESS) have been in contact with Parker Pens. An offer of support is being put together for the company to consider. If accepted, there could be a local taskforce involving SEEDA and key partners such as Jobcentre Plus, Business Link, the local council and local recruitment agencies. This would support the work force and possibly also local businesses which form part of the supply chain for Parker Pens, and for whom the closure may have a significant impact.

"East Sussex County Council (ESCC)" has set up a 'Recession Task Force'. This group shares key information and co-ordinates work between different organisations, and provides practical support for ideas from a wide range of sources, including drawing on the Government's 'Real Help Now' programme. The Task Force includes representatives from the district and borough councils, Jobcentre Plus, major employers such as the NHS, local business support bodies such as Business Link and Trading Standards, and representatives from the voluntary and community sector, such as the Citizens Advice Bureau. ESCC has set up a £1 million Recession Fund to help the county through the recession. The funding will be spent on a wide range of initiatives and partnerships aimed at helping firms, families and individuals to fight the credit crunch. Projects include supporting small businesses by offering more support and speeding up the payment of invoices. In November 2008, the Council provided £100,000 to enable Business Link Sussex to offer specialist help to local businesses and grants to the local Credit Unions—community-based savings and loans organisations—to make it easier for people to access loans and protect residents from the loan sharks. Through the Fund a grant of £75,000 has been allocated towards the Newhaven community-based NewCEP Extra project—which will be used, with a focus on Parker Pens, to assist 125 clients with job search, action planning and skills development.

"Business Link (enterprise gateway service)" helps people facing barriers in starting up their own businesses. They offer a four-step programme called Building Business Confidence and a one-to-one mentoring service. They work locally with partner organisations such as Jobcentre Plus, NewCEP and Sussex Downs College, as well as social enterprises in the region, to identify individuals who are interested in self-employment.

"Newhaven's Enterprise Centre" funded by SEEDA at a cost of £4.75 million provides 2,000 sq m of new space. The Centre has been developed by Lewes District

Council in conjunction with specialist managed business centre operators Basepoint plc. It provides 44 units offering a wide range of high quality office space and workshops designed for all sectors of small to medium businesses and to encourage new and micro enterprises.

SEEDA has started a relevant new service in the "South East Women's Business Service". There will be two women's business advisers in Sussex, and they will provide intensive women-friendly business adviser support to women considering enterprise (pre-start) from the Business Link enterprise gateway service's priority groups and areas. For example it will support those who are disadvantaged, from groups under-represented in business or facing barriers to enterprise. They will be offering assistance to vulnerable early-stage, women-owned businesses, assisting self-employed women or women-owned businesses to stabilise and improve their performance.

Contact has been made by "Sussex Downs College (SDC)" with Parker Pens, and employees will be offered support through its 'Response to Redundancy'-funded 'Navigate' programme. SDC is the main further education provider covering the Newhaven area, with a campus in Newhaven at Denton Island Training Centre, and has wide experience of working in the town.

As the Skills Secretary announced on 21 October 2008, in a package of measures responding to the economic downturn, the LSC has £100 million to support workers affected by redundancy. It is making available £50 million from the European Social Fund (ESF) and £50 million through Train to Gain to boost skills interventions for individuals: those under notice of redundancy; those recently made redundant; and those that are unemployed and further from the labour market but could be made ready for work with a skills development support package. The aim of the Redundancy Support Programme is to ensure adults aged 18 and over in these groups are provided with the high-quality training and education support that they need to enable them to continue in, or enter or re-enter employment and contribute positively to the local labour market.

Regeneration: Expenditure

Mrs. Spelman: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 25 March 2009, *Official Report*, column 530W, on regional development agencies: finance, how much each agency spent on regeneration programmes as a percentage of its total expenditure in *(a)* 2007-08 and *(b)* 2008-09. [278614]

Mr. McFadden: The following table shows RDA expenditure on regeneration programmes as a percentage of its total expenditure in 2007-08 and 2008-09.

RDA expenditure on regeneration programmes as a percentage of its total expenditure

RDA	*2007-08*	*Percentage 2008-09*
AWM	38	46
EEDA	36	41
EMDA	48	47
LDA[1]	31	53
NWDA	41	39
ONE	29	29
SEEDA	40	38
SWERDA	33	38
YF	31	41

[1] The LDA have revised their definition of "regeneration programmes" from the previous answer 25 March 2009, *Official Report*, column 530W, on Regional Development Agencies.

Regional Development Agencies

Julia Goldsworthy: To ask the Minister of State, Department for Business, Innovation and Skills what his most recent estimate is of the monetary value of unused land owned by regional development agencies. [277882]

Mr. McFadden *[holding answer 3 June 2009]:* At 31 March, the monetary value of unused land owned by the regional developments agencies was £268,021,001.

The figure above gives the monetary value of land holdings recorded on each RDA's asset register at 31 March on which there is no activity or other development taking place although in virtually all cases the RDAs are actively negotiating the development or plans for development of these assets. While assets are revalued at least annually by RDAs, the book value may not reflect the actual value of a particular holding therefore these figures should only be considered an estimate.

Regional Development Agencies: Airports

Robert Neill: To ask the Minister of State, Department for Business, Innovation and Skills what payments each regional development agency has made to airports in the last 12 months; and for what purposes such payments were made in each case. [286679]

Mr. McFadden: The following table shows RDA payments to airports in the last 12 months.

RDA	*Payments to airports (£000)*	*Purpose*
AWM	170	This relates to preliminary costs in respect of the project to extend the main runway at Birmingham International airport.
LDA	1,050	This was a payment made as part of a £1.6 million Regional Selective Assistance (RSA) grant to London City airport. The grant was a contribution to a wider £39.8 million project to construct additional apron over the north-west corner of the George V Dock, increasing stand space and providing an extra runway link.
ONE	416	This is comprised of: (a) four payments to Newcastle International airport to finance route development support to Copenhagen, Bergen and Krakow, as well as the cost of hiring a meeting room. (b) three payments to Durham Tees Valley airport for route development support to Warsaw as well as gap funding for economic development at the adjacent business park.

EEDA, EMDA, NWDA, SEEDA, SWRDA, and YF have recorded no payments to airports in the last 12 months.

Mr. Dai Davies: To ask the Minister of State, Department for Business, Innovation and Skills how much each regional development agency has spent on *(a)* airport infrastructure and *(b)* subsidies designed to increase levels of use of airports in each region in each year since 1997. [286717]

Mr. McFadden: The following tables show expenditure by each RDA on airport infrastructure and subsidies designed to increase levels of use of airports in each region since 2003-04. The RDAs retain records of the last seven years. To provide records before this period will incur disproportionate costs.

RDA Expenditure on airport infrastructure (£000)[1]

RDA	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
AWM	0	0	0	0	0	142	28
EEDA	0	0	0	0	0	0	0
EMDA	0	0	0	0	0	0	0
LDA	54	0	0	0	0	0	0
NWDA	0	0	0	850	1,600	2,000	0
ONE	622	895	12	1,589	498	224	1,280
SEEDA	0	150	0	0	0	0	0
SWRDA	1,200	1,500	75	1,159	0	0	0
YF	0	0	150	1,094	3,239	1,135	4,700

[1] Expenditure on airport infrastructure relates to any direct expenditure on airport buildings and equipment and has been invested within the airport's boundaries.

Subsidies designed to increase levels of use of airports (£000)[1]

RDA	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10

SWRDA	75	15	940	0	8,010	0	0
YF	0	0	50	0	0	0	0

[1] Subsidies designed to increase levels of use of airports relates to any expenditure aimed at increasing the use of or uptake of the airport and its facilities.

Regional Development Agencies: Expenditure

Mr. Ellwood: To ask the Minister of State, Department for Business, Innovation and Skills how much funding allocated by his Department to each regional development agency was spent on tourism in each of the last five years. [287907]

Mr. McFadden: The following table shows RDA expenditure on tourism in the last five years.

Expenditure on tourism includes marketing and tourism promotion, capital spending related to tourism, product development related to tourism, and research related to tourism.

Expenditure on Tourism (£ million)

RDAs	2004-05	2005-06	2006-07	2007-08	2008-09
AWM	2	3.8	8	12.5	9.5
EEDA	0.6	0.8	1.5	1.7	1.1
EMDA	2.5	4.1	5	4.6	4.2
LDA	23.7	23.8	23.9	29.4	25.9
NWDA[1]	4.1	5.5	3.4	9.5	11.8
ONE[2]	3.3	7.1	10.8	10.6	11.9
SEEDA	1.8	2.4	2.2	2.2	2.3
SWRDA[3]	9.2	7.5	6.4	5.5	4.7
YF	4	4.1	7.5	6.5	10.5

[1] NWDA have not included: (a) core cost for funding Destination Management Organisations or Regional Tourist Boards and (b) specific funding to organisations in Liverpool for Capital of Culture activity.
[2] ONE took over the delivery of tourism in 2004-05.
[3] Figures for 2006-07, 2007-08 and 2008-09 include expenditure related to SWRDA's role as the national RDA lead for tourism policy.

Regional Development Agencies: Finance

Dan Rogerson: To ask the Minister of State, Department for Business, Innovation and Skills whether further budget changes are planned for each regional development agency before its current corporate plan expires. [285337]

Mr. McFadden *[holding answer 9 July 2009]:* The regional development agencies (RDAs) have budget allocations for 2009-10 and indicative budgets for 2010-11. There are no plans to change RDA budgets.

Julia Goldsworthy: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the effect of the recession on the flow of funds from regional development agencies. [285510]

Mr. McFadden *[holding answer 9 July 2009]:* The Department has asked the RDAs to review their spending plans on how they will use their resources to deliver their priorities in the light of changes to their budgets and the changed economic conditions. This information will be available in the RDAs (refreshed) Corporate Plans, which will be published in the summer.

On an ongoing basis, the Department monitors the agencies use of funds including actual expenditure against annual budgets.

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what funding his Department has channelled through regional development agencies for *(a)* skills training and *(b)* careers advice in the last five years. [288232]

Mr. McFadden: The information requested is as follows:

(a) The following table shows funding spent on RDA programmes where 'skills training' was the specific primary objective are as follows:

RDA Expenditure on Skills Training (£ million)

RDA	2004-05	2005-06	2006-07	2007-08	2008-09
AWM	12.9	6.0	3.6	2.1	2.2
EEDA	2.1	3.0	2.8	2.5	1.3
EMDA	3.5	3.8	7.5	7.5	4.1
LDA[1]	[2]	13.4	31.1	19.0	93.2
NWDA	9.3	7.3	16.6	23.2	16.8
ONE	2.7	5.2	5.7	7.9	5.0
SEEDA	3.1	2.3	2.4	2.2	1.8
SWRDA	0.4	1.0	1.1	1.1	1.5
YF	23.4	17.9	18.5	19.5	11.0

[1] Figures used are aggregate figures for the directorate of Business and Skills.
[2] To separate out the data would incur disproportionate cost.

(b) RDAs have no specific remit to provide careers advice, and as such, there is no direct funding of any careers advice programmes. However, there are a number of RDA programmes such as employment brokerage to

place graduates with SMEs, which may be considered to contain elements of 'careers advice' as a by-product of the programme.

Regional Development Agencies: Mass Media

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills (1) how much each of the regional development agencies and the London Development Agency *(a)* spent on media monitoring in each of the last three years and *(b)* has allocated to expenditure on media monitoring in each of the next three years; [280507]

(2) how much money each regional development agency has *(a)* spent on media monitoring in each of the last three years and *(b)* allocated to media monitoring in each of the next three years. [282034]

Mr. McFadden *[holding answer 17 and 24 June 2009]:* The following table shows RDA expenditure on media monitoring services in the last three years.

RDA actual expenditure on media monitoring

£

RDA	2006-07	2007-08	2008-09
AWM	15,807	20,467	27,952
EEDA	19,000	20,000	9,000
EMDA	41,472	19,999	29,004
LDA [1]	5,437	9,210	18,000
NWDA	21,864	14,441	21,824
ONE	18,864	32,154	35,291
SEEDA	24,819	26,811	19,884
SWRDA	27,152	36,544	33,036
YF	30,014	21,385	24,876

Note:
During the period 2006-07 to 2008-09 the LDA also made an annual contribution towards the GLA Group In-House cuttings service.

The following table shows RDA allocations to media monitoring in the next three years. These figures are nominal, not yet part of formal budgets and therefore subject to change.

RDA allocated expenditure on media monitoring

£000

RDA	2009-10	2010-11	2011-12
AWM	29	[1]—	[1]—
EEDA	9	9	9
EMDA	19	19	19
LDA	10	[2]—	[2]—
NWDA	25	25	25
ONE	18	18	18
SEEDA	28	28	28
SWRDA	32	31	30
YF	30	30	30

[1] AWM are currently reviewing their future spend in all areas.
[2] LDA has made no provisional allocation, as the contracts with media monitoring companies are due for renewal at the end of the 2009-10 financial year.

Regional Planning and Development

Robert Neill: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer to the hon. Member for Meriden of 28 April 2009, *Official Report*, column 1276W, on regional planning and development, on what date the regional industrial development boards were established; how much funding his Department has allocated to each such brand for 2009-10; and what the remit and function of each such board is. [279992]

Mr. McFadden: The seven Regional Industrial Development Boards are non-statutory non-departmental public bodies. The first four Boards were established following the passage of the Industry Act 1972 and were the Northern Industrial Development Board, the North West Industrial Development Board, the Yorkshire and Humberside Industrial Development Board and the South West Industrial Development Board. The West Midlands Board was established in 1984 following that year's Regional Policy Review. The London and South East and East of England Boards were established following the 1993 Review of the Assisted Areas.

When Corby became a development area in 1979, the Yorkshire and Humberside Development Board became a joint board with the East Midlands. The Northern Industrial Development Board became the North East Industrial Development Board in 1982 when Cumbria ceased to be part of the Department of Trade and Industry's northern region.

None of the boards are allocated budgets as none entail public expenditure apart from the remuneration of travel and subsistence costs of members.

The role of the boards is to advise the regional development agencies on individual company applications for regional assistance between £250,000 and £1.99 million, except the East of England Board, which advises on applications between £100,000 and £1.99 million.

During 2008-09 we conducted a review of the boards in consultation with the Cabinet Office to ensure that their governance arrangements remained relevant in view of the significant changes to the way in which support for business in the regions is handled since they were established, particularly the creation of regional development agencies and the delegation to them of responsibility of operating business support schemes previously undertaken by the Government office network. This review concluded that the appropriate way forward would be to replace the boards with advisory investment panels, to be appointed and supported entirely by the regional development agencies. It is expected that the agencies will appoint new advisory panels to replace the boards over the course of 2009-10.

Research: Finance

Mr. Paice: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the level of expenditure by his Department and its predecessors on grants for research and development in each region in each of the last three years; and what his Department's budget for such expenditure is for (i) 2009-10 and (ii) 2010-11. [282816]

Kevin Brennan: Responsibility for delivering Grant for Research and Development is devolved to the Regional Development Agencies. RDA expenditure on Grant for Research and Development in years 2006-07 to 2008-09 is shown in the following table, together with the budgets for 2009-10 to 2010-11. LDA is reviewing its budget for the period 2009-10 and 20101-11. SWRDA has not yet set its budget for 2010-11.

	Expenditure (£)			Budget (£)	
RDA	2006-07	2007-08	2008-09	2009-10	2010-11
AWM	1,408,002	1,457,311	1,567,079	2,000,000	2,000,000
EEDA	3,685,000	3,856,961	3,481,523	3,500,000	4,500,000

	Expenditure (£)			Budget (£)	
RDA	*2006-07*	*2007-08*	*2008-09*	*2009-10*	*2010-11*
EMDA	2,685,507	3,346,115	3,435,912	3,446,200	2,400,000
LDA	2,154,962	2,461,348	1,750,660	359,586	100,663
ONE	1,794,977	2,189,200	2,482,321	2,500,000	2,500,000
NWDA	1,978,022	4,379,295	7,004,995	5,968,000	6,213,000
SEEDA	4,135,453	3,094,255	2,624,547	3,500,000	3,500,000
SWRDA	1,236,246	886,422	1,177,647	1,500,000	n/a
YF	2,808,454	1,091,559	2,573,119	3,200,000	3,750,000

Royal Mail: Stoke-on-Trent

Joan Walley: To ask the Minister of State, Department for Business, Innovation and Skills if the Secretary of State will have discussions with regeneration partners in Stoke-on-Trent on *(a)* the job losses and *(b)* undertakings given to retain Royal Mail jobs in Stoke-on-Trent arising from the transfer of sorting operations to Wolverhampton; and if he will make a statement. [290816]

Mr. McFadden: Under reforms put in place by the Postal Services Act 2000, Royal Mail management was given greater commercial freedom to run the company without interference from Government. Both management and the unions wanted the Government to introduce these changes. Decisions about the movement of sorting operations and retention of such operations in specific areas are, therefore, a matter for Royal Mail management. Royal Mail is seeking to rationalise its mail centre network to improve its efficiency in a market where volumes of mail have been falling at unprecedented levels.

Skilled Workers: Construction

Mr. Sheerman: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department takes to monitor the extent to which the standards needed to obtain a construction skills register card are met by glassworkers working on building sites. [289154]

Kevin Brennan: The Department does not monitor the operation of the Construction Skills Certificate Scheme (CSCS), or the extent to which the standards needed to obtain scheme cards are met by glassworkers, or other workers. CSCS is not a Government scheme, although its role in driving improvement in health and safety performance, and competence in the construction industry, is welcome. It is owned and managed by the construction industry and unions.

Small Businesses: Government Assistance

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what steps the Government are taking to assist small businesses to overcome short-term cashflow problems. [266659]

Kevin Brennan *[holding answer 30 March 2009]:* The Government have and continues to take steps to assist small businesses to access the finance they need to overcome short-term cash-flow problems by:

securing £27 billion lending commitments from Lloyds and RBS for additional lending to businesses this year;

HMRC Time to Pay—since last November businesses experiencing cash flow difficulties can get help from the HM Revenue and Customs (HMRC) Business Support Service. So far more there have been more than 184,000 agreements with businesses to spread more than £3.2 billion in businesses taxes

Introducing the Enterprise Finance Guarantee (EFG) to enable banks to lend to businesses that would otherwise not secure a loan. The EFG to date has received over £680 million of eligible applications from 6,027 businesses which have either been granted, being processed or assessed.

Central Government Departments committing to paying all invoices to small businesses within 10-days.

Identifying and promoting business payment exemplars through the prompt payment code.

Mr. Hepburn: To ask the Minister of State, Department for Business, Innovation and Skills what support his Department has offered to small businesses in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* nationwide during the economic downturn. [268377]

Kevin Brennan: The new package of support to address the cash flow, credit and capital needs of businesses across the UK, announced by my noble Friend the Secretary of Sate on 14 January under the Real Help campaign, provides:

£1 billion of guarantees supporting £1.3 billion of lending to smaller businesses through the Enterprise Finance Guarantee scheme;

Up to £10 billion of guarantees through the Working Capital scheme that will secure new and existing credit lines worth up to £20 billion—and free up new capital for lending; and

A £75 million capital (£50 million from HMG and £25 million from banks) fund to invest in businesses that need equity or quasi equity.

As of 12 August the number and value of EFG loans was as follows:

Area	*Number of loans offered*	*Value of loans offered (£ million)*
Jarrow	3	0.13
South Tyneside	9	0.27
North East	163	15.90

The Department records information on the Capital for Enterprise Fund on a regional basis. As of 12 August in the North East there was one enquiry under consideration.

Through One North East, the GBI scheme provided £17 million of funding to businesses, including SMEs, in the financial year ending 31 March. The Regional Enterprise Loan Fund has provided over £860,000 to SMEs in the last year, and the Transitional Loan Fund provided £9.9 million of funding to otherwise viable SMEs facing cash flow issues in the financial year ending 31 March.

South West Regional Development Agency: Finance

Dan Rogerson: To ask the Minister of State, Department for Business, Innovation and Skills how much funding for each local authority in the South West region his Department has channelled through the South West Regional Development Agency in the latest period for which figures are available. [284416]

Mr. McFadden *[holding answer 6 July 2009]:* The RDAs are financed through a single budget, a fund which pools money from all the contributing Government Departments (BIS, CLG, DECC, DEFRA, DCMS and UKTI). Funds are allocated to individual RDAs from this single budget and spent according to priorities established by each agency. None of the funds in the single budget is hypothecated—therefore funds are not 'channelled' through the RDAs towards any spending programme.

However, the table sets out a spatial breakdown of anticipated South West RDA single budget capital and revenue project expenditure directly on and in South West areas and sub-regions for 2009-11.

Area/sub-region	*Total 2009/11 (£ million)*
West of England (Bristol, South Gloucestershire, North Somerset, and Bath and North East Somerset)	35.5
Devon, Plymouth, Torbay and Exeter	35.2
Cornwall and Isles of Scilly	56.2
Dorset, Bournemouth and Poole	7.8
Gloucestershire	15.9
Somerset	5.9
Wiltshire and Swindon	6.7
Region-wide programmes	98.5

Students: Fees and Charges

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many learners at further education colleges paid *(a)* no fees, *(b)* partial fees and *(c)* full fees in the latest period for which figures are available; [287030]

(2) how many people studying at further education level are entitled to partial or complete remission of fees in respect of *(a)* age, *(b)* previous skills levels, *(c)* status as a benefit or tax credit claimant and *(d)* employment status. [287031]

Mr. McFadden: Full funding is provided in respect of certain categories of learning and learners in line with the Learning and Skills Council (LSC) funding guidance at:

www.lsc.gov.uk

This includes: learners aged 16-18, adults undertaking Skills for Life literacy or numeracy qualifications, first full level 2, and first full level 3 (where the learner is aged 19-25) qualifications. Learners in receipt of income-related benefits are also eligible for full fee remission. For adult learners, where full fee remission does not apply, the amount of public funding provided assumes a contribution towards the cost of the course from the learner or employer. In 2009-10, the assumed fee contribution will be 47.5 per cent., with the Government contributing the remaining 52.5 per cent.

The post-16 Education and Skills Statistical First Release (SFR) (June 2009) shows that 2,464,100 learners participated in LSC funded further education provision in the 2007-08 academic year (this excludes Train to Gain and Apprenticeships). It is not possible to distinguish between learners who received full and partial LSC funding in all cases, for example where an FE college or provider waives fees and they do not record whether this is the full or partial amount of fee owed. It is therefore not possible to provide a full breakdown in this way.

It is possible to identify the number of learning aims studied in 2007-08 where full fee remission has been provided in line with Government fee policy. This is shown in the following table.

Fee remission in respect of:	*Number of aims*
Previous skill level (skills for life, level 2 and level 3 entitlement)	526,500
As a benefit or tax credit claimant	337,200
Of which in receipt of Job Seeker's allowance	79,500
Total	863,700

Notes:
Information is based on further education, adult and community learning and university for industry data—information is not available for work-based learning (WBL) data.
Learners with aims in more than one category will be counted once for every category in which they appear. However, where learners are eligible for more than one reason for a single aim, they will be recorded against only one category. Therefore, the total provided may not represent all of the people who are eligible for a particular category.
Source:
Individualised Learner Record, 2007-08.

Information on learners who pay the full fee amount themselves is not available.

Students: Finance

Mr. Marsden: To ask the Minister of State, Department for Business, Innovation and Skills what discussions his Department has had with the Higher Education Funding Council for England on the implications for its policy on levels of assistance for part-time students in 2009-10 and 2010-11 of an increase in the number of Universities and Colleges Admissions Service applications. [285743]

Mr. McFadden *[holding answer 13 July 2009]:* The Department has had no discussions with the Funding Council on this subject. It is for higher education institutions to decide the mix of provision they want to provide within the teaching grant allocated.

Students: Grants

Sandra Gidley: To ask the Minister of State, Department for Business, Innovation and Skills how many students were receiving maintenance grants in *(a)* the City of Southampton and *(b)* Hampshire County Council local education authority area in the latest period for which figures are available; and what the average grant received by such students was in that period. [288391]

Mr. McFadden: The information is found in the table.

Students awarded grant[1] academic year 2008/09 (provisional)[2]

Local authority	*Number of students awarded grant*	*Average (£)*
Southampton	1,560	2,380
Hampshire	8,660	2,060

[1] Figures cover the Higher Education Grant, the Maintenance Grant and grants and allowances for children and dependants. Each of these grant types has a different maximum entitlement amount.
[2] Data at mid-November 2008. Figures may change as later applications are processed.
Source:
Student Loans Company

Students: Loans

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of people with student loans have paid back the full amount within the first two years of leaving higher education since loans were introduced. [287685]

Mr. Lammy: Income Contingent Loan borrowers become liable to repay their student loan in the April after leaving their course. This is known as the statutory repayment due date (SRDD). Borrowers will normally only start making repayment once their income is above the £15,000 threshold and they repay 9 per cent. of their income over the threshold level.

It is not possible to calculate precisely how many borrowers have paid back the full amount within the first two years of leaving higher education. However, as at 31 March 2009, Student Loan Company (SLC) figures show that 2.4 per cent. of ICR borrowers had repaid in full before their SRDD. A further 2.5 per cent. had repaid their loan within two years of their SRDD which may be almost three years after students have left their courses.

Providing the information for those with mortgage-style loans (MS) is not possible. In 1998, when the SLC migrated these data, only the number of borrowers who had fully repaid was recorded, not the number of financial transactions which would enable us to accurately calculate the percentage who had repaid within two years.

Sandra Gidley: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many people in each age group had not repaid their student loans in the *(a)* City of Southampton and *(b)* non-metropolitan County of Hampshire area on the latest date for which figures are available; [288392]

(2) how many people in each age group had begun repayments of student loans in the *(a)* City of Southampton and *(b)* non-metropolitan County of Hampshire area on the latest date for which figures are available. [288393]

Mr. McFadden: The information requested is shown in the following table:

Income-Contingent loan borrowers, March 2009[1]

	Numbers who have not yet made a repayment	*Numbers who have made a repayment*	*Total*
Southampton[2]			
Age[3]			
Less than 20	0	0	0
20 to 24	340	500	840
25 to 29	360	1,470	1,830
30 to 39	180	440	620
40 to 49	70	130	200
50 and over	30	30	70
Total	980	2,570	3,560
Hampshire[2]			
Age[3]			
Less than 20	30	20	40
20 to 24	2,570	5,290	7,870
25 to 29	2,220	13,830	16,050
30 to 39	680	1,490	2,090
40 to 49	370	770	1,140
50 and over	180	240	420
Total	5,980	21,640	27,610

[1] Table covers income-contingent loan borrowers liable to repay with known repayment or non-repayment status.
[2] Local authority where the borrower was resident at the time of application for student finance. This does not indicate current residence.
[3] Age at the end of the last tax year for which repayment/non-repayment information has been posted, mainly end of tax year 2007-08.
Source:
Student Loans Company

Borrowers become liable to repay their loans in the April after they leave their course. Repayments are at the rate of 9 per cent. of earnings above the £15,000 threshold. Those earning less than the threshold are not liable to repay. Those not yet repaying may include borrowers who have gone on to further study or are doing voluntary work.

Sandra Gidley: To ask the Minister of State, Department for Business, Innovation and Skills how much has been deducted from the salaries of individuals in each income group for student loan repayments in the *(a)* City of Southampton and *(b)* non-metropolitan County of Hampshire area in the last 12 months. [288394]

Mr. McFadden: The information is available in the following table.

Student Loans PAYE Deductions Tax Year 2007-08[1]

	Numbers who have had a deduction from earnings under PAYE	*Amount deducted from earnings under PAYE*	*Average amount deducted*
Southampton[2]			
Less than £15,000	550	60,000	110

Student Loans PAYE Deductions Tax Year 2007-08[1, 3]

	Numbers who have had a deduction from earnings under PAYE	*Amount deducted from earnings under PAYE*	*Average amount deducted*
£15-20,000	560	150,000	270
£20-25,000	470	320,000	670
£25-30,000	300	310,000	1,030
£30-35,000	140	200,000	1,490
£35-40,000	80	140,000	1,880
Over £40,000	90	230,000	2,690
Total	2,190	1,420,000	650
Hampshire[2]			
Less than £15,000	4,040	470,000	120
£15-20,000	4,160	1,190,000	290
£20-25,000	4,330	2,930,000	680
£25-30,000	2,880	3,060,000	1,060
£30-35,000	1,350	1,990,000	1,480
£35-40,000	710	1,330,000	1,870
Over £40,000	1,040	3,100,000	2,990
Total	18,500	14,070,000	760

[1] Tables cover deductions by PA YE from income-contingent loans. Excludes Self Assessment deductions. Tables cover deductions which HMRC has notified to SLC by 31 March 2009. There will be further deductions notified for tax year 2007-08.
[2] Local authority where the borrower was resident at the time of application for student finance. This does not indicate current residence.
[3] Note that earnings in the tax year is not the same as annual salary. A borrower who starts work late in the tax year on an annual salary above £15,000 will have deductions made but may have earnings during the tax year of less than £15,000.
Source:
Student Loans Company

Borrowers become liable to repay their loans in the April after they leave their course. Repayments are at the rate of 9 per cent. of earnings above the £15,000 threshold.

Take It To The World

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills what the budget for marketing, public relations, communications and advertising is of UK Trade and Investment's Take It To The World publicity campaign in 2009-10. [288845]

Mr. McFadden: UK Trade and Investment's June 2009 'Take it to the World' programme was aimed at both new and existing exporters, promoting the benefits of international trade and reaffirming the role of UK Trade and Investment as the organisation that can help make it happen. This is in line with the recommendation in the National Audit Office's recent value for money report.

The budget for the programme in 2009-10 was £430,000 (0.13 per cent. of UK Trade and Investment's total budget).

For the month of June alone this has helped achieve an additional 25,000 more visits to UK Trade and Investment's website when compared with the same month in the previous year.

Trade Unions: Consumers

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 30 March 2009, *Official Report*, column 914W, on trade unions: legal opinion, if he will bring forward proposals to ensure that consumer protection rights apply to the sale and supply of goods and services by trade unions to their members. [288720]

Mr. McFadden: Consumer protection legislation usually applies in the area of the supply of goods and services by businesses to consumers. Where the supply of goods and service by trade unions falls within this area consumer protection provisions will apply.

UK High Technology Fund

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills how much *(a)* public and *(b)* private sector funding has been provided for the UK High Technology Fund; what the cost of management fees related to the fund has been; and how many companies have received funding from the fund in each year since its formation. [284880]

Mr. McFadden *[holding answer 16 July 2009]:* £20 million of public and £106.1 million of private funding has been provided for the UK High Technology Fund (UKHTF).

Fund manager fees of £2,992,017 to 31 December 2008 were made against the total size of the fund of £126.1 million and relate to the fees of the fund of funds manager and the nine underlying funds where the UKHTF was committed.

245 companies have received investment through the UKHTF between 2001 and 2008 as follows:

	Companies
2001	81
2002	29
2003	48
2004	38
2005	30
2006	15
2007	2
2008	2

UK Human Tissue Bank

Jo Swinson: To ask the Minister of State, Department for Business, Innovation and Skills if he will provide support for the creation of a replacement for De Montfort University's UK Human Tissue Bank after its closure in September 2009. [288297]

Mr. McFadden *[holding answer 20 July 2009]:* The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research.

The MRC always welcomes high quality applications for support into any aspect of human health, including the establishment of tissue banks, and these are judged in open competition with other demands on funding. However, it should be noted that the MRC provides funding for research applications submitted by the scientific community in 'response mode', and does not normally commission research to address specific questions.

The MRC currently supports a number of tissue banks where there is a demonstrable need to provide an infrastructure to supply high quality and ethically-sourced material to support scientific investigation.

UK Innovation Fund

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills whether the £100 million funding his Department plans for the UK Innovation Fund is part of the £750 million Strategic Investment Fund allocated in Budget 2009. [284878]

Mr. McFadden *[holding answer 9 July 2009]:* The Department is investing £75 million from the Strategic Investment Fund into the UK Innovation Investment Fund. The remaining £25 million will be found from other budgets within the Department.

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills how many companies he expects to receive funding from the UK Innovation Fund in its first year of operation; and how much in private sector contributions he expects the fund to receive in that year. [284879]

Mr. McFadden *[holding answer 9 July 2009]:* The UK Innovation Investment Fund will operate on a Fund of Funds basis which means that it will not invest directly into companies, but will invest in a number of specialist technology funds. At this stage, it is not possible to make any predictions about the number of companies UKIIF will invest in during its first year of operation.

The Government expects that its investment of £150 million will be at least matched by private sector investors during the first year.

United Kingdom Atomic Energy Authority

Charles Hendry: To ask the Minister of State, Department for Business, Innovation and Skills if he will set a reserve price for the sale of a majority stake in the UK Atomic Energy Authority Ltd. [285841]

Mr. McFadden: This information is commercially sensitive during a live sale process.

Video Games: Finance

Philip Davies: To ask the Minister of State, Department for Business, Innovation and Skills (1) how much financial support was given by regional development agencies to the video games industry in 2007-08; [270805]

(2) how much funding was provided by regional development agencies to the video games industry in 2007-08. [276658]

Mr. McFadden: The following table shows RDA funding to the video games industry in 2007-08.

RDA	*RDA funding to the video games sector in 2007-08 (£000)*
AWM	[1]0
EEDA	62
EMDA	164
LDA	121
NWDA	166
ONE	471
SEEDA	[2]0
SWERDA	[2]0
YF	99

[1] AWM does not directly support the 'video games' industry but has provided £800,000 in support to the development of the 'Serious Games' sector in the region. 'Serious Games' is the use of games technology for serious commercial purposes, allowing users to learn a new skill, rehearse a potentially dangerous/costly procedure, or explore a new process or design.

[2] SEEDA and SWERDA have no programmes that specifically fund the video games sector. To identify the funding that has been provided from broader programmes would incur disproportionate cost.

Wage Compensation Scheme

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions the Secretary of State has had with trade unions on introducing a wage compensation scheme for those on short-time working. [290631]

Mr. McFadden: Earlier this year, my noble Friend the Secretary of State responded to the joint letter from the Trade Union Congress and the Federation of Small Businesses which called for the introduction of short-time working subsidies. In his response to Brendan Barber (TUC, General Secretary) my noble Friend the Secretary of State set out the Government's position on why wage subsidies are not a feasible, cost effective or sustainable option for the UK.

Work Experience

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what provision is made to enable students to undertake work experience in his Department; by what means members of the public may obtain information about work experience in his Department; and if he will make a statement. [288732]

Mr. McFadden: Prior to the creation of BIS on 5 June 2009, the former Department for Innovation, Universities and Skills had commenced a pilot work experience programme. Included in the pilot were students from a

school local to one of the former DIUS London buildings. This programme continued following the merger of DIUS with the Department for Business, Enterprise and Regulatory Reform (BERR). The new Department (BIS) had eight work experience students over a period of two weeks in July 2009, of whom six took part in the pilot programme of activities.

The availability of work experience opportunities was not advertised. The evaluation of the pilot will determine the approach to work experience taken by the Department in 2010.

Former BERR has participated for a number of years in the Summer Development Programme and the Summer Placement Scheme. Both come under the auspices of the Cabinet Office's Diversity Programme Internships. The two internships are for students from ethnic minority backgrounds and the registered disabled. Both schemes provide a paid six to nine week full-time placement to gain a more thorough understanding of the work of the civil service. The work experience opportunities for each of the schemes are not advertised and are evaluated by the Cabinet Office.

Working Hours: Ministers

Mr. Redwood: To ask the Minister of State, Department for Business, Innovation and Skills whether Ministers who sit in the House are required to reckon the hours worked in pursuit of their Ministerial duties together with hours worked as an hon. Member for the purposes of keeping records to comply with the requirements of the EU Working Time Directive. [287589]

Mr. McFadden: The regulations implementing the Working Time Directive in the UK apply to "workers". A "worker" is someone who works under a contract of employment or a contract to perform personally any work or services for another party whose status is not that of a client or customer. Holders of political and elected office are not regarded as "workers" and are therefore not covered by the regulations.

Written Questions: Government Responses

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 7 May 2009, *Official Report*, columns 353-54W on business: Government assistance, what estimate his Department made of the cost of providing an answer to the remainder of the Question; and if he will make a statement. [276867]

Mr. McFadden: In considering whether it might be possible to answer the other parts of the hon. Member's question, account was taken of the ministerial written statement on 8 December 2008, *Official Report*, column 24WS, made by the Exchequer Secretary to the Treasury, my hon. Friend the Member for Wallasey (Angela Eagle), in which she informed the House that the disproportionate cost threshold increased to £750 with effect from 3 December 2008.

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question 261386, tabled on 3 March 2009, on the Working Capital scheme. [281286]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave on 23 June 2009, *Official Report*, column reference 880W.

Mr. Jenkins: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question 270234, on support for small businesses, tabled on 21 April 2009. [286012]

Ms Rosie Winterton: I refer my hon. Friend to the reply I gave on 21 July 2009, *Official Report*, columns 1744-45W.

Mr. Hancock: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to answer question 260532, tabled on 24 February 2009, on learning disabilities; and what the reasons are for the time taken to reply. [285953]

Mr. McFadden: I refer the hon. Member to the answer given on 21 July 2009, *Official Report*, column 1751W. The delay in publishing this response was as a result of an administrative error.

Written Answers to Questions

The following answers were received between Thursday 10 September and Monday 14 September 2009

CULTURE, MEDIA AND SPORT

Cricket

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many registered amateur cricket clubs there were in each region in *(a)* 2000, *(b)* 2002, *(c)* 2004, *(d)* 2006 and *(e)* 2008. [288780]

Mr. Bradshaw: Sport England has advised that the England and Wales Cricket Board (ECB) does not hold details of how many registered community amateur cricket clubs there were in each region in each of the last 10 years.

However, the ECB holds details of the number of community amateur cricket clubs registered as Community Amateur Sports Clubs (CASCs) since CASC status was established in 2002.[1]

[1] From 2004 publication of collated data changed from November to May of each year.

Date	*Number of registered cricket clubs*
November 2002	25
November 2003	103
May 2004	314
May 2005	587
May 2006	758
May 2007	842
May 2008	953
May 2009	1,032

Departmental Public Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 2 April 2009, *Official Report*, column 1376W, on public expenditure, how much his Department *(a)* allocated and *(b)* spent on (i) sport, (ii) the arts and (iii) heritage in 2008-09. [290903]

Mr. Simon *[holding answer 9 September 2009]:* It is my Department's policy to publish details of funding spent, as opposed to funding allocated, to avoid confusion or potential double-counting where end-year flexibility has been applied or where funds have been transferred in year. The amount of Exchequer funding spent by DCMS and its NDPBs on sport, the arts and heritage in 2008-09 is set out in the following table.

2008-09

	£000
Sport (including central DCMS spend)	215,813
Arts (including central DCMS spend)	435,465
Heritage (including Royal Parks and Listed Places of Worship Scheme plus central DCMS spend)	224,833

English Heritage: Fees and Charges

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what the average price of entry to an English Heritage property was in *(a)* 1996-97, *(b)* 2008-09 and *(c)* 2009-10. [290896]

Mr. Simon *[holding answer 9 September 2009]:* Information from English Heritage is that the average price of entry to an English Heritage property, based on one full price adult ticket, in 1996-97, 2008-09 and 2009-10 is as set out in the following table.

	Average charge (£)	*Constant sample of sites*
1996-97	2.16	104
2008-09	4.33	104
2009-10	4.52	104

Heritage Lottery Fund: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much has been distributed by the Heritage Lottery Fund *(a)* in cash terms and *(b)* expressed in current prices in each year since its foundation. [290768]

Mr. Simon *[holding answer 9 September 2009]:* Information from the Heritage Lottery Fund is that the amount paid to recipients of HLF grants in each financial year is as set out in the following table.

	Actual cash terms	*£ million Current prices*
1994-95	0	0
1995-96	35.9	49.5
1996-97	79.0	105.0
1997-98	129.7	168.1
1998-99	186.2	236.3
1999-2000	264.9	329.7
2000-01	374.4	459.9
2001-02	241.6	290.3
2002-03	245.1	285.3
2003-04	303.9	344.1
2004-05	284.8	313.7
2005-06	356.6	385.6
2006-07	339.1	356.1
2007-08	299.4	306.0
2008-09	297.1	297.1

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Culture, Media and Sport when a reply will be sent to the right hon. Member for Manchester, Gorton's letter dated 27 July 2009 to him with regard to Ms Gina Hine, referred to the Department of Culture, Media and Sport. [290991]

Mr. Simon: A response was sent from my right hon. Friend the Member for Exeter (Mr. Bradshaw) on 8 September 2009.

Music

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of music venues and rehearsal spaces which have closed in *(a)* London and *(b)* each region in each of the last five years. [290911]

Mr. Simon *[holding answer 9 September 2009]:* The information required to make these assessments is not held centrally.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport when he expects the 12 pilot community music rehearsal spaces announced in December 2007 to be operational. [290912]

Mr. Simon *[holding answer 9 September 2009]:* The first spaces were opened in Liverpool and Bristol in May and July 2009, respectively. It is difficult to be precise about the opening dates of further spaces—each has different requirements for instruments and these have to be sourced and costed before we can make a grant offer for the local authority concerned to consider. However, we are hopeful of making such offers in respect of five further spaces in the next few months—in St. Austell, Nottingham, Washington (near Sunderland), Hastings, and rural Norfolk. Discussions are also under way about setting up spaces in Manchester, Coventry and Birmingham.

Swimming

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what criteria will be applied to the assessment of local authority bids for Phase 2 funding from his Department's free swimming initiative. [288273]

Mr. Bradshaw *[holding answer 20 July 2009]:* The overall aim of the Government's free swimming programme is to encourage more people to swim by assisting in modernising and enhancing publicly accessible swimming pools including pools at maintained schools of any category in England.

Applications to the second round of the Free Swimming Capital Modernisation Programme will be assessed against the criteria laid out in the programme prospectus, which was agreed by the Free Swimming Capital Project Board (comprising DCMS, Department for Children, Schools and Families, Sport England, the Amateur Swimming Association and Local Government Association representatives) for both rounds of funding (2009-10 and 2010-11). I have arranged for copies of the prospectus to be placed in the House Library.

TRANSPORT

A1(M): Hertfordshire

Mr. Greg Knight: To ask the Minister of State, Department for Transport when he expects the roadworks on the A1(M) in the vicinity of junction 4 to be completed; and if he will make a statement. [291144]

Chris Mole: The roadworks in the vicinity of A1(M) junction 4 are to carry out a major refurbishment of the Hatfield tunnel. Works are programmed to be completed in April 2010.

A1: Nottinghamshire

John Mann: To ask the Minister of State, Department for Transport when the *(a)* Blyth fly-over and *(b)* associated A1 improvements in Nottinghamshire will be open. [291009]

Chris Mole: The new two-level junction on the A1 at Blyth was fully opened to traffic in October 2008.

The associated A1 improvements in Nottinghamshire at Apleyhead and Markham Moor junctions were fully opened to traffic in October 2008 and March 2009 respectively.

The scheme replaces the roundabouts at Blyth, Apleyhead, Markham Moor and Gonerby Moor with two-level full grade separated junctions, and provides two-level compact junctions at Colsterworth and Carpenters Lodge. The scheme separates A1 traffic and local journeys thereby reducing congestion and delays, improving safety and journey time reliability. The project which has improved and upgraded six junctions between Blyth and Peterborough will be substantially completed on 7 October 2009.

A14: Kettering

Mr. Hollobone: To ask the Minister of State, Department for Transport when physical construction work on widening the A14 between junctions 7 and 9 around Kettering is scheduled to *(a)* start and *(b)* finish. [291066]

Chris Mole: The construction work on widening the A14 between Junctions 7 and 9 is currently scheduled to start in autumn 2011 with completion expected by spring 2013.

Mr. Hollobone: To ask the Minister of State, Department for Transport what the *(a)* average and *(b)* peak daily traffic volumes for the A14 between junctions 7 and 10 around Kettering were in the latest period for which figures are available; and what they are forecast to be in (i) 2010, (ii) 2015 and (iii) 2020. [291070]

Chris Mole: A table providing information on the average and peak daily traffic volumes for the A14 between Junctions 7 and 10 around Kettering for the latest period and for 2010, 2015 and 2020, has been placed in the Libraries of the House.

Bus Services: Concessions

Simon Hughes: To ask the Minister of State, Department for Transport what steps his Department plans to take to assist local authorities to meet the cost of freedom passes for pensioners and the disabled. [291158]

Chris Mole: Local authorities receive the bulk of their funding for concessionary travel via the formula grant system, which is administered by the Department for Communities and Local Government. Since April 2008, local authorities have also received funding from the Department for Transport in the form of a special

grant to meet the additional cost of the extended England national bus concession. The special grant was £212 million in 2008-09, has risen to £217 million this year and will increase to £223 million in 2010-11. The Government are confident that there are sufficient funding, in total, for statutory concessionary travel.

In addition, the Government paid a grant of around £31 million in 2007 to local authorities outside London to replace existing bus passes with new ITSO smartcard passes. Over eight million of these have now been issued. London has received a grant of £4.8 million in 2009 to facilitate the replacement of existing freedom passes with new smartcard passes from April 2010.

Corby Station

Mr. Hollobone: To ask the Minister of State, Department for Transport further to his letter to the chair of the Transport Select Committee dated 6 July 2009, how many passengers *(a)* boarded and *(b)* alighted from trains at Corby railway station on each day since 14 June 2009. [291065]

Chris Mole: A table of the number of passengers originating and terminating their journey at Corby each day since 14 June 2009 has been placed in the Library of the House.

Kettering Station

Mr. Hollobone: To ask the Minister of State, Department for Transport how many passengers travelling *(a)* north and *(b)* south on the Midland Mainline (i) boarded and (ii) alighted from trains at Kettering station on each day since 27 April 2009. [291064]

Chris Mole: The Department for Transport does not hold this information. Although there is no readily available breakdown of north/south journeys, a table of the number of passengers originating and terminating their journey at Kettering each day since 27 April 2009 has been placed in the Library of the House.

London Midland: Standards

Mr. Lancaster: To ask the Minister of State, Department for Transport what the minimum level of service required to be delivered on any particular day of the week is for London Midland to fulfil its rail franchise agreement. [291078]

Chris Mole: London Midland is required to provide levels of services which are consistent with the minimum specification which is detailed in the Service Level Commitment which forms part of the Franchise Agreement. A copy of the Service Level Commitment for London Midland can be found on the Department for Transport's website at:

http://www.dft.gov.uk/pgr/rail/passenger/publicregister/current/londonmidland/lmcommitment2.pdf

Mr. Lancaster: To ask the Minister of State, Department for Transport what assessment has been made of whether the level of service provided by London Midland on 6 September 2009 was in compliance with the terms of its franchise. [291083]

Chris Mole: London Midland is required to report to the Department for Transport their performance after the end of each railway reporting period. The current rail industry period ends on Saturday 19 September. London Midland will then submit their performance reports to the Department for review. This will include data for Sunday 6 September and this will enable an assessment to be made of London Midland's performance.

Motor Vehicles: Fuels

Mr. Greg Knight: To ask the Minister of State, Department for Transport what information his Department holds on the effects of the ethanol and bio content of some modern fuels on fibreglass fuel tanks and bonding glue; if he will issue guidance to motorists on the matter; and if he will make a statement. [291147]

Chris Mole: Fibreglass fuel tanks and aftermarket sealing agents are not used on modern road vehicles. Consequently, potential impacts of bioethanol on these materials do not pose a problem for motorists in general.

There is evidence from other countries that petrol with 10 per cent. ethanol content can have a deleterious effect upon some older fibreglass fuel tanks, depending upon the type of resin that was used in their construction. This issue has primarily affected fuel tanks on leisure marine vessels, although some older road vehicles may also have been affected. However, ethanol content of UK petrol is not expected to exceed 5 per cent. in the next few years. We do not at present have robust evidence of whether or not these issues could occur at the 5 per cent. ethanol content level.

We are currently discussing these issues with stakeholders, in the context of plans to implement the EU fuel quality directive 2009/30/EC. The Federation of British Historic Vehicle Clubs in particular has raised concerns about the potential impacts of petrol containing ethanol on fibreglass fuel tanks and products used to reseal fuel tanks on older vehicles. We plan to let research to assess this issue over the next few months.

The only detailed information we hold on specific materials incompatible with ethanol is fuel industry guidance on materials used in storing petrol containing up to 10 per cent. ethanol content at filling stations and fuel terminals etc. This indicates that fibreglass using polyester and epoxy resins are not compatible with this fuel.

Railways: Construction

Mr. Lidington: To ask the Minister of State, Department for Transport what the estimated cost to the public purse is of the work *(a)* undertaken and *(b)* commissioned by Network Rail into possible new high-speed rail routes from London to other major cities. [291167]

Chris Mole: The Department for Transport does not hold the information requested. This is an operational matter for Network Rail as the owner and operator of the national rail network. The hon. Member should contact Network Rail's chief executive at the following address for a response to his questions:

Iain Coucher
Chief Executive
Network Rail

Kings Place
90 York Way
London, N1 9AG.

Railways: West Midlands

Mr. Lidington: To ask the Minister of State, Department for Transport what the estimated cost to the public purse is of High Speed Two's work to produce a report on a possible new rail link between London and the West Midlands. [291168]

Chris Mole: The estimated cost of High Speed Two's work is £8.5 million.

Rescue Services: Hope Cove

Mr. Steen: To ask the Minister of State, Department for Transport pursuant to the answer of 2 March 2009, *Official Report*, column 1272W, on rescue services: Hope Cove, what the basis is of the operational restrictions upon the Hope Cove lifeboat prior to the consultation process taking place. [291082]

Chris Mole: The operational restrictions placed on the MCA boat at Hope Cove are for the safety of its volunteer crew and the public.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Waste Disposal

Dr. Starkey: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the potential effects on human health of odours from agricultural muck-spreading. [290985]

Huw Irranca-Davies: DEFRA, or MAFF as it was previously, has not undertaken any research specifically into the effects on human health of odours from agricultural muck spreading.

MAFF carried out a programme of research in the late 1980s/early 1990s to assess what factors affected the emissions of odours from the application (spreading) of agricultural manures to land to identify means of minimising emissions. As a result of this research, guidance on good practice was produced for the agricultural industry in the MAFF/DEFRA Code of Good Agricultural Practice. A copy of the code is available at:

www.defra.gov.uk/farm/environment/cogap/

The code has provided the agricultural industry with guidance on the best equipment and techniques to use to minimise emissions while applying manures. It has also provided advice about the timing of manure applications, with respect to weather, days of the week and holidays etc., to minimise the impact on surrounding residents.

Local authority environmental health departments are responsible for investigating and abating statutory nuisances under the provisions of the Environmental Protection Act 1990. One of the statutory nuisances in the Act is '[...] smell [...] arising from industrial, trade or business premises and being prejudicial to health or a nuisance'. Agricultural manure spreading activities have the potential to give rise to odours which may cause a statutory nuisance if not properly managed. There is no UK research at present which would conclusively demonstrate any adverse effects from agricultural odours on health. Therefore, in statutory nuisance investigations, proceeding under the nuisance limb of statutory nuisance is the more likely path.

There is also no evidence, as far as DEFRA is aware, of workers in the agricultural industry suffering adverse health effects from manure odours, despite the fact that they are inevitably exposed to higher concentrations of odours during the loading, transporting and spreading of agricultural manures than off-site receptors or residents.

Some odour emissions are inevitable from the application of agricultural manures, but with good management the impact and duration of these odours can be minimised. The use of agricultural manures is an important means of recycling plant nutrients into food production in a sustainable manner, and thereby reducing fossil fuel inputs and greenhouse gas emissions. These benefits have to be balanced against the potential for some short-term localised impact during seasonal peaks of manure application activities.

Animal Welfare Act 2006

Mr. Cawsey: To ask the Secretary of State for Environment, Food and Rural Affairs what recent progress has been made on the implementation of codes of practice for animal welfare under the Animal Welfare Act 2006. [291116]

Huw Irranca-Davies: During the last 12 months, we completed public consultation exercise on four draft codes—for the keeping of cats, dogs, equines and regulations and a code for meat chicken welfare. We are also consulting on the welfare of non-human primates in private ownership. We have been considering the many responses we had to the consultation on each draft code and have held discussions with key stakeholders. Once the draft codes have been finalised we will then ask Parliament to approve them.

Countryside: Access

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he had on his recent visit to Ilam Hall Youth Hostel on the role of the Youth Hostels Association in providing access to the countryside for young people from towns and cities. [291002]

Huw Irranca-Davies: When speaking at the formal opening of the Ilam Youth Hostel, Hilary Benn stated the important role which institutions such as the Youth Hostels Association play in not only enabling visitors to enjoy the benefits of our National Parks, but also in helping the next generation appreciate the invaluable role the National Parks play in combating climate change.

European Fisheries Fund

Mr. McGrady: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to seek funding from the European Fisheries Fund to assist the fishing industry following the agreement of the days-at-sea limit in December 2008. [291041]

Huw Irranca-Davies: The European Fisheries Fund (EFF) can provide assistance to UK fisheries to adapt to conservation measures by improving their sustainability, for example in marketing and technology fields. Regulatory and regional selection criteria apply and applicants should first make contact with the Fisheries Department within their operational area for direct advice on application procedures.

Fisheries

Mr. McGrady: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Northern Ireland Executive Minister for Agriculture and Rural Development on UK fisheries. [291042]

Huw Irranca-Davies: Constructive discussions with ministerial colleagues in the devolved administrations, including Northern Ireland, has culminated in the establishment of a Joint Ministerial Working Group to deliver proposals for quota management and licensing reforms. That work is now ongoing.

I was also pleased to be able visit Northern Ireland recently, to discuss with Michelle Gildernew and industry representatives the economic situation, the future of effort control/days at sea, the prospects for the autumn negotiations and other issues of importance to the local fleet.

Floods: Finance

Mr. Cawsey: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's plans are for expenditure on flood defences in 2010-11; and how much it spent in 2009-10. [291117]

Huw Irranca-Davies: The Government are committed to effective management of flood and coastal erosion risk. It stands by its previous forecast of spending a record £2.15 billion on flood and coastal erosion risk management over three years and its commitment to spend £780 million in the 2010-11 financial year, with £20 million of the original £800 million moved forward into 2009-10 budgets to provide early protection for 27,000 homes.

Within the Government's previously announced figures for 2010-11, £659 million is going to the Environment Agency, local authorities' own expenditure will be an estimated £87 million and the remainder retained by DEFRA to implement the Pitt Review findings and help communities to adapt to climate change.

In August, the Secretary of State announced which local authorities will benefit from funding set aside to implement the findings of the Pitt Review.

Food Supply

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to increase the UK's self-sufficiency in food. [291017]

Huw Irranca-Davies: One of DEFRA's departmental strategic objectives is to ensure a sustainable, secure and healthy food supply. We want to see a British farming sector that is competitive, and producing food that consumers want in a way that is sustainable, so as not to jeopardise the ability of future generations to exploit and enjoy our natural resources and landscapes.

The UK is currently 60 per cent. self-sufficient in all food, a higher proportion than in the 1950s. However, this figure tells us very little about UK food security. We need to maintain a range of supply sources for our food to spread the risk that might entail from over-reliance on one or a few supply sources, and to lower the impacts of any unforeseen disruptions involving any particular trading partner or from within our domestic food sector.

The Department does not have targets for self-sufficiency in food. Government's role is to support the industry to improve its performance through better self-assessment of the relative economic performance of individual businesses, more effective take-up of new technology and better management skills. We are also working with stakeholders to identify measures by which the agricultural sector can sustainably increase its resilience and productivity, strengthening food security within the UK.

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what his estimate is of the percentage of food consumed in the UK which was grown in the UK in the latest period for which figures are available; and if he will make a statement. [291018]

Huw Irranca-Davies: In 2008, 53 per cent. of food consumed in the UK was produced in the UK. This figure is a provisional estimate.

Please note that this percentage should not be confused with the measure of UK self-sufficiency in all food, which in 2008 was 60 per cent. (provisional figure), since self-sufficiency shows the percentage of all UK food production, including UK exports, as a percentage of consumption. Both measures are based on the value of unprocessed food.

Incinerators

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many waste incinerators were operational in England at the latest date for which figures are available. [291090]

Dan Norris: There are 18 municipal waste incinerators operating in England, generating over 200 MW of electricity.

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the percentage of waste arisings incinerated in each year since 1997. [291091]

Dan Norris: The table shows the percentage of municipal waste sent for incineration in England from 1997-98 to 2007-08. This includes both waste incinerated with, and without, energy recovery. The majority is incinerated with energy recovery.

	Percentage of municipal waste sent for incineration in England
1997-98	6.36
1998-99	8.19

	Percentage of municipal waste sent for incineration in England
1999-2000	8.41
2000-01	8.59
2001-02	8.47
2002-03	8.87
2003-04	8.95
2004-05	9.51
2005-06	9.95
2006-07	11.09
2007-08	11.12

Source:
WasteDataFlow and DEFRA's Municipal Waste Management Survey

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions there have been for offences related to poor air quality arising from incinerator use in each year since 1997. [291092]

Huw Irranca-Davies: A search of the Environment Agency's National Enforcement Database (NED) has uncovered no prosecutions for offences related to poor air quality arising from incinerator use.

All large plants are subject to the requirements of the Waste Incineration Directive which are embodied in their Environmental Permits. Conditions set in the permits require emissions of pollutants to be kept to very low levels and oblige the operators to carry out detailed emissions monitoring.

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the weight of waste incinerated in each year since 1997. [291093]

Dan Norris: The table shows the tonnage of municipal waste sent for incineration in England from 1997-98 to 2007-08. This includes both waste incinerated with, and without, energy recovery. The majority is incinerated with energy recovery.

Municipal waste sent for incineration in England

	Thousand tonnes
1997-98	1,634
1998-99	2,156
1999-2000	2,310
2000-01	2,411
2001-02	2,447
2002-03	2,607
2003-04	2,604
2004-05	2,818
2005-06	2,859
2006-07	3,237
2007-08	3,169

WasteDataFlow and DEFRA's Municipal Waste Management Survey

Office of Water Services: Operating Costs

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the change in *(a)* staff costs and *(b)* other costs was between the Ofwat Business Plan for (i) 2007-08 and (ii) 2008-09. [290622]

Huw Irranca-Davies *[holding answer 9 September 2009]:* The changes in staff and other costs between Ofwat's Business Plans for 2007-8 and 2008-9 are detailed in the following table:

Business Plan Budget (£)

	Staff costs	Other costs	Total
2007-08	8,326,645	4,673,355	13,000,000
2008-09	10,203,867	7,696,133	17,900,000
Increase	1,877,222	3,022,778	4,900,000

Ofwat set out in its 2008 strategy document Taking a forward look' that it needed to increase its budget for 2008-09 to take account of additional resources to deliver key projects including:

delivering the 2009 price review;

reviewing how it sets price limits in 2014;

promoting competition in consumers' interests;

enforcement; and

litigation and casework.

Ofwat's actual expenditure for the years 2007-08 and 2008-09 are available in its Resource Accounts, which are available on the website.

Water: EC Law

Mrs. Maria Miller: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department has issued on the implementation of the EU Water Directive. [291163]

Huw Irranca-Davies: DEFRA has issued two volumes of guidance to the Environment Agency on the implementation of the Water Framework Directive, both titled River Basin Planning Guidance.

The first was published in August 2006 and sets out principles and key steps for the river basin planning process. The second was published in August 2008 and gives further consideration to the approach the Environment Agency should take in carrying out its river basin planning functions and the development of river basin management plans.

DEFRA has also published River Basin Management Planning in the Solway Tweed River Basin District, which sets out the expectations for the joint delivery of the Water Framework Directive in Solway Tweed, a cross border river basin district shared between England and Scotland.

All these guidance documents are published on the DEFRA website.

We expect guidance on the proposed Groundwater Regulations, implementing the Water Framework Directive groundwater daughter directive, to be published for consultation shortly.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Holloway: To ask the Secretary of State for International Development how many staff from his Department are based in the provincial reconstruction team base in Lashkar Gar; what proportion of such staff *(a)* have left the perimeter of the base by road

during their tour and *(b)* are performing roles which could be undertaken at Camp Bastion; and if he will make a statement. [291096]

Mr. Douglas Alexander: There are over 140 UK, Danish and Estonian civilian and military staff working for the Helmand Provincial Reconstruction Team (PRT). Over 50 staff from the FCO, DFID, MOD and Stabilisation Unit work in the Lashkar Gah Main Operating Base.

Statistics on individual moves are not kept. However, based on staff functions, over 90 per cent. of the PRT staff will leave the Lashkar Gah base by road during their tour.

The PRT works primarily with the Afghan Government, which is based in Lashkar Gah and the district centres. PRT staff could not carry out their work from Camp Bastion, which is in the desert. Furthermore, staff are co-located with Task Force Helmand HQ in Lashkar Gah and with battlegroups in the district centres, in order to co-ordinate effectively with the military.

Afghanistan: Agriculture

Bob Russell: To ask the Secretary of State for International Development what estimate he has made of the value to farmers in Afghanistan of growing *(a)* pomegranates and *(b)* poppies in the latest period for which figures are available. [291015]

Mr. Michael Foster: There are few data on returns to pomegranate farmers in Afghanistan. Estimates suggest that gross income could range from US $3,380 per hectare per year (Altai Consulting/UNDP, 2004) to $14,525 per hectare per year (Roots for Peace, 2009) after five to seven years maturation. The variation in gross income estimates depends on product quality, access to markets (including storage), price, yield and the proportion exported. However, set up costs can exceed $1,000 per hectare with the possibility of no return for the first four years following planting.

The United Nations Office of Drugs and Crime (UNODC) released a report on poppy cultivation and prices in early September 2009. It contained the following assessment:

"This year, opium farmers saw their (gross) earnings per hectare shrink by one quarter, to $3,562/ha down from $4,662/ha in 2008. Falling prices and lower cultivation this year caused a 40 per cent. collapse in the total farm-gate value of opium production in Afghanistan, which is valued at $438 million."

Eritrea: International Broadcasting

Mr. Moore: To ask the Secretary of State for International Development what support his Department has provided to Radio Erena to broadcast to Eritrea in the last three years; and if he will make a statement. [291140]

Mr. Thomas: The Department for International Development (DFID) has not provided any support in the last three years to Radio Erena.

Sudan: Overseas Aid

Mr. Moore: To ask the Secretary of State for International Development what estimate he has made of the monetary value of his Department's aid seized by the government of Sudan; what steps he is taking to ensure the return of that aid to the organisations to which it was directed; and if he will make a statement. [291139]

Mr. Douglas Alexander: No aid was seized directly from the Department for International Development (DFID) by the Government of Sudan. It is estimated, however, that around £500,000 of British-funded goods were included in the seizures of assets from non government organisations (NGOs). The UK condemned the expulsion and closures of the 13 international NGOs and three local NGOs in unequivocal terms. We have consistently said that the best way to repair the damage was to revoke that action.

In partnership with the European Commission for Humanitarian Aid (ECHO), USAID, and the Canadian International Development Agency (CIDA), we have made it clear to the Sudan Government that the seizure of assets in this way was completely unacceptable. We expect it to make every effort to have the assets reassigned to other humanitarian programmes, as is common practice under closure or completion of DFID-funded humanitarian programmes.

COMMUNITIES AND LOCAL GOVERNMENT

Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 28 October 2008, *Official Report*, column 956W, on housing, for what reasons the Housing Reform Green Paper will not be proceeded with; and which Minister took the decision not to proceed. [291149]

John Healey: The Government have taken decisive action to ensure this country's housing needs are met. We have committed to investing £7.5 billion over two years to deliver up to 112,000 affordable homes and around 15,000 private homes, including £340 million to support local authorities in delivering new council housing. We have taken early action to provide people facing the threat of repossession with help at every stage of the process. I am also introducing a range of major reforms to the social and private rented sector. This includes the consultations I have recently published on a devolved system of responsibility and funding for council housing, a major review of the private rented sector and changes to social housing allocations to give councils more leeway on decisions to allocate housing in their area, and the initiative I have launched to clamp-down on fraud in the social sector. In addition, I will be setting out further details of the Government's plans to support housing recovery and ensure people have access to decent homes later this year. I therefore currently have no plans to pursue an additional housing reform green paper.

CHILDREN, SCHOOLS AND FAMILIES

Children: Human Trafficking

Mr. Bone: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of suspected trafficked children who have gone missing from local authority care in each of the last five years. [291032]

Dawn Primarolo: The information requested is not collected centrally by the Department.

Mr. Bone: To ask the Secretary of State for Children, Schools and Families; what arrangements have been made for the full implementation within the National Referral Mechanism of the provision of Article 10.3 of the Council of Europe Convention against Trafficking in Human Beings giving children the benefit of the doubt where the age of the trafficked child is uncertain; and if he will make a statement. [291033]

Dawn Primarolo: Under the National Referral Mechanism for child victims of trafficking, where there are reasons to believe that a child is a victim of trafficking but there is uncertainty about their age, local age dispute or assessment procedures should be followed if necessary. Pending verification of their age, they will be presumed to be a child and will be referred to local authority Children's Social Care for support and a detailed assessment of their protection or welfare needs.

Children's Centres: Expenditure

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) how much was spent on the Sure Start Children's Centres block of the Sure Start, Early Years and Childcare Grant in each financial year between 2003-04 and 2007-08; [291160]

(2) how much was spent on the Childcare Sufficiency and Access Grant of the Sure Start, Early Years and Childcare Grant in each financial year between 2003-04 and 2007-08; [291161]

(3) how much was spent on the Outcomes, Quality and Inclusion block of the Sure Start, Early Years and Childcare Grant in each financial year between 2003-04 and 2007-08. [291162]

Dawn Primarolo: Details of expenditure on the Children's Centres revenue and capital blocks in each financial year between 2003-04 and 2007-08 are shown in the table.

The Childcare, Sufficiency and Access and Outcomes, Quality and Inclusion blocks were only created in 2008-09.

Therefore it is not possible to report expenditure on these specific blocks for the same period.

For information the table does show some details of expenditure on the inclusion and childcare assessment blocks that formed part of the grant in earlier years.

Audited expenditure on individual blocks of the sure start, early years and childcare grant (formerly the general sure start grant)

	Financial year					
	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*Total*
PQ 291160						
Children's centre revenue	2,197,884	11,010,927	90,008,079	188,134,163	251,848,710	543,199,763
Children's centre capital	2,053,422	12,294,561	184,354,187	202,957,222	286,352,714	688,012,106
Children's centre combined	4,251,306	23,305,488	274,362,266	391,091,385	538,201,424	1,231,211,869
PQ 291161						
Childcare assessment	n/a	n/a	n/a	n/a	75,115,698	75,115,698

Inclusion	n/a	n/a	n/a	20,667,031	31,830,834	52,497,865

Children's Centres: Hendon

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what Sure Start children's centres are open in Hendon; what services each provides; what *(a)* capital and *(b)* revenue funding for them has been provided by (i) the Government and (ii) the London Borough of Barnet; and what steps he plans to take to ensure their future security of funding. [291057]

Dawn Primarolo: London borough of Barnet currently has 14 Sure Start Children's Centres up and running, of these three are in Hendon offering access to services to around 3,100 children under five and their families. There are no additional children's centres planned for Hendon.

The Department allocates funding to local authorities for the capital start up and revenue costs of Sure Start Children's Centres through the Sure Start, Early Years and Childcare Grant. It is for local authorities to determine how to allocate the funding between individual centres.

The Department does not collect information on how much is allocated and spent at centre level. Information on the services provided by individual centres is available from the local Family Information Service. London borough of Barnet's capital and revenue allocations for the delivery of Sure Start Children's Centres for 2008-11 can be found in the following table. We are committed to delivering 3,500 Sure Start Children's Centres by 2010, a children's centre for every community so every family has easy access to high quality integrated services in their community and the benefits of Sure Start can be felt nationwide. Funding allocations beyond 2010-11 will be subject to future spending decisions.

Barnet—children's centres funding allocations for CSR period 2008-11

	Revenue	*Capital*
2008-09	3,651,335	781,046
2009-10	4,912,063	1,638,600
2010-11	5,983,537	959,513

Education Maintenance Allowance: Hendon

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many and what percentage of students aged 16 to 18 years in each secondary school in Hendon were in receipt of education maintenance allowance in academic year 2008-09; what the expected equivalent figures are for 2009-10; and what assessment has been made of the effect of the allowance on numbers of pupils staying on in education in Hendon. [291038]

Mr. Iain Wright: The number of students in receipt of education maintenance allowance (EMA) in Hendon is a matter for the Learning and Skills Council (LSC) who operate the EMA for the Department for Children, Schools and Families (DCSF). Geoffrey Russell, the LSC's acting chief executive, will write to the hon. Member for Hendon with the information requested and a copy of his reply will be placed in the House Libraries.

We do not have evidence to show the impact of EMA at a local level. However evaluation of the EMA pilots showed that EMA led to increases in participation nationally by 3.8 ppts for 16-year-olds and 4.1 ppts for 17-year-olds.

GCSE

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils achieved *(a)* five or more GCSEs at grades A* to C and *(b)* five or more GCSEs at grades A* to C including English and mathematics in 2009. [291129]

Mr. Iain Wright: The information requested is not yet available. The requested figures will form a central part of a Statistical First Release (SFR) planned for 15 October 2009. Those figures will also be broken down by gender, school type and local authority.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families in which five non-core curriculum subjects the number of GCSE entries was highest in *(a)* maintained comprehensive, *(b)* maintained selective, *(c)* maintained secondary modern and *(d)* independent schools in 2009. [291135]

Mr. Iain Wright: The information requested forms part of the Department's data on GCSE achievement and attainment. Data for 2009 are not yet available. Any statistics based on these data will only be available for release after the publication of a Statistical First Release planned for 15 October 2009.

Schools

John Mann: To ask the Secretary of State for Children, Schools and Families which state schools in England serve a school population aged from three to 18 years old. [290860]

Mr. Coaker: The following state schools in England serve a school population aged from three through to 18-years old.

Establishment name	*Local authority*	*Town*	*Establishment status*	*Type of establishment*
William Hulme's Grammar School	Manchester	Manchester	Open	Academy
Serlby Park A 3-18 Business and Enterprise Learning Community	Nottinghamshire	Doncaster	Open	Community School
Priory Witham Academy	Lincolnshire	Lincoln	Open	Academy
Oxfordshire Hospital School	Oxfordshire	Oxford	Open	Community Special School
Marjorie McClure School	Bromley	Chislehurst	Open	Community Special School
Manchester Hospital Schools and Home Teaching Service	Manchester	Manchester	Open	Community Special School
Lonsdale School	Hertfordshire	Stevenage	Open	Community Special School
King Solomon Academy	Westminster	London	Open	Academy
Haberdashers Askes Crayford Academy	Bexley	Bexley	Open	Academy
Globe Academy	Southwark	London	Open	Academy
Evelina Hospital School	Southwark	London	Open	Community Special School
The Business Academy Bexley	Bexley	Erith	Open	Academy
Blanche Nevile School	Haringey	London	Open	Community Special School
Billing Brook Special School	Northamptonshire	Northampton	Open	Community Special School
Bede Academy	Northumberland	Blyth	Proposed to open (please see note 4)	Academy
Ark Academy	Brent	Wembley	Open	Academy

EduBase

Schools: Barnet

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what the allocation for Barnet for *(a)* dedicated schools grant and *(b)* guaranteed funding per pupil is for (i) 2009, (ii) 2010 and (iii) 2011; what the change in per pupil funding was in (A) cash and (B) percentage terms between 1997 and 2009; and what (1) total and (2) per pupil funding allocation for Barnet for 2009-10 is for (aa) school development grant, (bb) school standards grant, (cc) school standards grant (personalisation), (dd) ethnic

minority achievement grant, (ee) extended schools, (ff) primary strategy, (gg) school lunch grant, (hh) music services, (ii) harnessing technology (ICT) and (jj) devolved formula capital. [291059]

Mr. Coaker: The Dedicated Schools Grant (DSG) for 2008-09 to 2010-11 (indicative) for Barnet local authority is shown in table 1 as follows. This covers pupils aged three to 15.

Table 1: DSG Allocation for Barnet local authority

	£ million
2008-09 (Final)	195.074
2009-10 (Final)	202.138
2010-11 (Indicative)	213.958

The guaranteed unit of funding for 2008-09 to 2010-11 for Barnet local authority is shown in table 2 as follows:

Table 2: Guaranteed unit of funding for Barnet local authority

	£
2008-09 (Final)	4,559
2009-10 (Final)	4,723
2010-11 (Final)	4,917

Per pupil revenue funding figures for pupils aged three to 19 for Barnet local authority for years 1997-98 and 2005-06 are shown in table 3. These figures are in cash terms.

Table 3

	Barnet local authority revenue funding per pupil
1997-98 (£)	2,740
2005-06 (£)	4,680
Percentage increase between 1997-98 and 2005-06 (%)	71

Notes:
1. Price Base: Cash.
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/ Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.
3. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged three to 19 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC three-year-old maintained pupils and estimated three to four-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Rounding: Figures are rounded to the nearest £10.

The revenue per pupil figures shown in table 4 is taken from the Dedicated Schools Grant (DSG). They are not comparable with those for the years 1997-98 to 2005-06 (in table 3 above) because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 1997-98 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. The DSG is based largely on an authority's previous spending.

In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2008-09 DSG, the Department have isolated the schools block equivalent funding in 2005-06 (the baseline); as described above this does not represent the totality of 'education' funding in that year.

The total and per pupil revenue funding figures for 2005-06 and 2008-09 for Barnet local authority are provided in table 4 as follows. The figures are for all funded pupils aged three to 19 and are in cash terms:

Table 4

	Barnet local authority revenue funding per pupil
2005-06 (Baseline) (£)	4,430
2008-09 (£)	5,200
Percentage increase between 2005-06 and 2008-009 (%)	17

Notes:
1. This covers funding through the Dedicated Schools Grant, School Standards Grant, School Standards Grant (Personalisation) and Standards Fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LA level.
2. Price Base: Cash.
3. These figures are for all funded pupils aged three to 19.
4. Figures have been rounded to the nearest £10.
5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The figures for Standards Funds are recorded according to allocation per authority not per pupil; the following table shows the total allocations that Barnet has been awarded in 2009-10 for grants that the hon. Member for Hendon requested.

Grant name	*2009-10 allocation*
School Development Grant	11,819,753
School Standards Grant	7,215,008
School Standards Grant (personalisation)	2,061,955
Ethnic Minority Achievement Grant	2,887,337
Extended Schools—Sustainability	747,190
Extended Schools—Subsidy	170,721
Extended Schools—Capital	345,093
Primary Strategy: Targeted Support	1,044,874
School Lunch Grant	488,946
Music	333,851
Harnessing Technology	903,101
Devolved Formula Capital	5,128,895

Schools: Hendon

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families which schools in Hendon have received central government capital funds other than devolved formula capital since 1997; how much each received in each year; for what purpose the grant was allocated in each year; and what the percentage difference was between capital expenditure on such schools in 1996-97 and 2009-10. [291060]

Mr. Cooke: The Department allocates much of its capital resources on a local authority area basis. It then relies on the local authority to prioritise resources between schools, including any further resource available locally. Accordingly, records on the schools in Hendon which have received funding since 1997, and their purposes, are not held centrally and would be held locally by Barnet local authority. Allocations to Barnet between 1996-97 and 2009-10 are set out in the following table.

	£ million
1996	3.1
1997	1.8
1998	5.6
1999	3.9
2000	12.0
2001	8.9
2002	48.7
2003	15.1
2004	22.0
2005	18.6
2006	69.7
2007	15.5
2008	26.3
2009	40.4

The allocation figures show the year the financial commitment was made by the Department. The £69.7 million in 2006-07 includes a Building Schools for the Future pathfinder allocation and an Academy, and the £40.3 million in 2009-10 includes an advance of funding brought forward from 2010-11 as part of the Government's fiscal stimulus.

Special Educational Needs

Mr. Pelling: To ask the Secretary of State for Children, Schools and Families when Ofsted plan to report on their review of special educational needs. [291020]

Ms Diana R. Johnson: Ofsted's review of special educational needs and disabilities is planned to report in summer 2010. Further details about the review can be found at:

http://www.ofsted.gov.uk/Ofsted-home/News/Ofsted-s-2009-10-review-of-the-framework-for-children-and-young-people-with-special-educational-needs-and-or-disabilities

Mr. Pelling: To ask the Secretary of State for Children, Schools and Families if he will commission research into educational provision for children in each category of special educational needs. [291021]

Ms Diana R. Johnson: The Department for Children Schools and Families currently has an active programme of research across the special educational needs code of practice.

Research currently under way includes a project which is exploring the apparent variation in the prevalence of children with SEN, how they are classified in terms of both condition and Code of Practice stage of support, and the provision of services to support them, with a view to understanding how a more equitable service offer can be supported. We also have a programme of research under way which aims to improve the evidence base relating to developing services for children and young people with speech, language and communication needs.

We are currently commissioning a formative and summative evaluation of the Achievement for All project and the approaches strategies, approaches and tools used within it, as well as an evaluation of a current programme to raise awareness of British Sign Language (BSL) and for increasing specialist work force able to provide courses in BSL being implemented in two pilot areas.

We also recently published a qualitative research study looking at parental confidence in the special educational needs assessment, statement and tribunal system.

Research projects funded by the Department for Children, Schools and Families are published at:

www.dcsf.gov.uk/research

Teachers: Recruitment

David Howarth: To ask the Secretary of State for Children, Schools and Families how many teaching appointments were made in England in the most recent year for which figures are available; and what percentage of these appointments were newly qualified teachers. [291125]

Mr. Cooke: The information is not available in the format requested.

HOME DEPARTMENT

Police Training College: Cwmbran

Mr. Paul Murphy: To ask the Secretary of State for the Home Department what plans he has for the former site of the Police Training College in Cwmbran. [288898]

Mr. Straw: I have been asked to reply.

Consideration is being given to disposal of the former Police Training College at Cwmbran, which is currently owned by the National Offender Management Service.

ENERGY AND CLIMATE CHANGE

Departmental Manpower

Jo Swinson: To ask the Secretary of State for Energy and Climate Change what percentage of employees in his Department are *(a)* women and *(b)* men; and what the average hourly pay of (i) male and (ii) female employees is. [288304]

Joan Ruddock *[holding answer 20 July 2009]:* The percentage split is:

	Percentage
Women	43
Men	57

The average hourly rate of pay for male and female employees is not available.

The relatively new Department of Energy and Climate Change (DECC) has been in existence since October 2008, and consists of posts taken from the former Department for Business, Enterprise and Regulatory Reform (BERR) and from the Department for the Environment, Food and Rural Affairs (DEFRA).

Since its creation, DECC has continued to use the pay provisions of its parent Departments. As a consequence, no separate DECC information on hourly pay rates is available, and could only be obtained by an exercise involving a review of the total HR systems and payrolls for both BERR and DEFRA. Therefore the information could be obtained only at disproportionate cost to the Department. The effort required to administer your request would exceed the financial limit prescribed of £700, which represents the estimated cost of determining whether the Department holds the information, locating, retrieving and extracting the information.

For information on former BERR and DEFRA staffing issues, please see the Annual Civil Service Employment Survey statistics published by the Office for National Statistics. These can be found at the following website:

http://www.statistics.gov.uk/pdfdir/cs0109.pdf

These statistics are collected from the Annual Civil Service Employment Survey, but please note that the ONS collects the annual gross salary of civil servants and does not produce hourly rates of pay. The latest published statistics are for 31 March 2008, and consequently do not feature stats for DECC.

Electricity

Mr. Evennett: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the level of vulnerability of the electricity supply network to malicious damage. [290927]

Joan Ruddock *[holding answer 9 September 2009]:* Electricity companies have a legal obligation to ensure their network is designed and maintained to protect the public and consumers from the dangers of electricity and provide quality and continuity of supply. These obligations are contained in the Electricity Safety, Quality and Continuity Regulations 2002 and enforced by DECC.

It is the responsibility of distribution companies to assess and manage the risks associated with the security of their network, including the prevention of unauthorised access to their network assets, and to put forward expenditure forecasts to Ofgem for an appropriate level of expenditure to meet their obligations. This is done on a five yearly basis as part of the price control review process. Ofgem has a role in evaluating this expenditure to ensure that the costs are efficient and is currently conducting this cost assessment process for the fifth price control review process which is due to take effect from 1 April 2010.

Mr. Evennett: To ask the Secretary of State for Energy and Climate Change how many incidents of malicious damage to the electricity network in the UK have been recorded in the last five years. [290930]

Joan Ruddock *[holding answer 9 September 2009]:* Since 1 April 2004 there have been nine supply interruptions reportable under the Electricity Safety, Quality and Continuity Regulations 2002 which were classified as an act of vandalism or unauthorised operation of equipment.

Energy: Prices

Mr. Charles Kennedy: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the effects of the conditions imposed by domestic energy suppliers on customers on social tariffs on their ability to change supplier; and if he will make a statement. [290884]

Joan Ruddock *[holding answer 9 September 2009]:* All customers are free to switch at any time provided that there is no outstanding debt on their account. There are no additional conditions for customers who are on their supplier's social tariff.

Fuel Poverty

Mr. Charles Kennedy: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the number of households designated as being in fuel poverty which use *(a)* heating oil, *(b)* liquefied petroleum gas, *(c)* mains gas and *(d)* other systems of heating; and if he will make a statement. [290883]

Joan Ruddock *[holding answer 9 September 2009]:* The most recently available fuel poverty statistics relate to 2006. Figures for the number of households in fuel poverty in England are produced from analysis of the English House Condition Survey.

Number of households in fuel poverty

	Thousand
Heating oil	202
Bulk LPG	36
Gas (mains)	1,669
Other	525
Total	2,432

Gas and Electricity Markets Authority

Mr. Carmichael: To ask the Secretary of State for Energy and Climate Change what assessment his Department has made of the merits of extending the remit of Ofgem to include responsibility for regulation of the bottled gas market. [290656]

Joan Ruddock *[holding answer 9 September 2009]:* The Gas Act 1986 (as amended), which among other things set up the gas regulatory bodies, exempted liquefied petroleum gas (LPG) from its provisions. The Gas Act principally addressed the issues of setting up a regulatory regime to ensure that the national transmission system for gas users was not exploited. In contrast, there is no natural monopoly in the transport of LPG by road. The LPG market operates with a number of distributors competing for supply using alternative supply sources. In that sense, it is broadly similar to other products such as diesel and petrol.

The Department has not therefore made an assessment of the merits of extending the remit of Ofgem to include responsibility for regulation of the market for LPG. My officials however have had meetings with

Consumer Focus to contribute to its assessment of the market in Great Britain for the supply of LPG and heating oil for domestic use.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence whether the reported *(a)* 84 per cent. increase in helicopter hours and *(b)* 60 per cent. increase in the number of helicopters available to British forces in Afghanistan includes helicopters provided by coalition forces transporting UK armed forces. [289114]

Mr. Bob Ainsworth: The 60 per cent. increase in the number of helicopters and the 84 per cent. increase in helicopter hours available to UK forces in Afghanistan relate to the period from November 2006 to April 2009; these increases do not include helicopters or helicopter hours provided by other coalition forces.

Ann Winterton: To ask the Secretary of State for Defence for what reasons the journalist Michael Yon is no longer embedded with British armed forces in Afghanistan. [290966]

Mr. Bob Ainsworth: Opportunities to embed with Task Force Helmand are in high demand from across the media—national, regional, print, broadcast, specialist and new media. It is not possible to meet all requests and slots must be time-limited to ensure that the opportunities are shared as widely as possible. A normal embed for a national news organisation will last on average around two to three weeks, including time for travel.

Michael Yon had been embedded with British forces on a number of occasions before his recent visit—twice in Iraq in 2007, and once in Afghanistan in 2008. His latest embed had been scheduled to last for two weeks but it was extended to take account of delays to his arrival.

In all, his stay was extended twice and he was embedded for five weeks—much longer than is normally the case, and longer than had been agreed with him before he went. He was facilitated by British forces in a number of locations and given a high level of access both to the operations and to our personnel. At the end of this five-week period Task Force Helmand ended his embed as they were no longer able to support it given their other commitments, including other media visits.

Ann Winterton: To ask the Secretary of State for Defence what percentage of *(a)* Jackal, *(b)* Panther and *(c)* Viking vehicles in Afghanistan are fully operational. [290967]

Mr. Quentin Davies: I am withholding this information as its disclosure would, or would be likely to, prejudice the capability, effectiveness and security of our armed forces in Afghanistan.

Bob Russell: To ask the Secretary of State for Defence what proportion of food consumed by members of the armed forces in Helmand province consisted of locally-grown agricultural products in the latest period for which figures are available. [291016]

Mr. Quentin Davies: No locally produced food has been procured for British troops in Helmand Province by the MOD Food Supply Contractor.

Mr. Lancaster: To ask the Secretary of State for Defence how many Tornado airframes deployed to Afghanistan have been unserviceable for more than 30 days since the date of deployment since 2001. [291075]

Mr. Quentin Davies: One Tornado aircraft deployed to Afghanistan has been unserviceable for more than 30 days; this has had no operational impact.

Mr. Holloway: To ask the Secretary of State for Defence how many helicopter journeys have been made to transfer civilian staff to and from the provincial reconstruction team base in Lashkar Gar in the last 12 months; how many of these were for the transport of civilian staff *(a)* stationed at and *(b)* visiting the base; and if he will make a statement. [291097]

Mr. Quentin Davies: This information is not held centrally and can be provided only at disproportionate cost.

Armed Forces

John Mason: To ask the Secretary of State for Defence how much of the budget of the Defence Academy of the United Kingdom was spent in *(a)* Scotland, *(b)* England, *(c)* Northern Ireland and *(d)* Wales in each of the last 12 months. [290782]

Mr. Quentin Davies *[holding answer 9 September 2009]:* The information requested is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Afghanistan

Harry Cohen: To ask the Secretary of State for Defence whether he has received requests for UK troops to be deployed to Afghanistan from *(a)* NATO and *(b)* individual NATO member states in the last six months. [290836]

Bill Rammell *[holding answer 9 September 2009]:* As announced by the Prime Minister at the NATO summit on 3-4 April, the UK deployed an additional 700 troops to Afghanistan following a request from NATO earlier in the year for forces to support the Afghan presidential elections.

Mr. Hollobone: To ask the Secretary of State for Defence how many armed forces personnel have served in Afghanistan since 2001. [290887]

Bill Rammell *[holding answer 9 September 2009]:* As at 1 August 2009, 71,560 members of the UK armed forces have been identified as having deployed to Afghanistan. This includes UK regular forces, Gurkhas, Full Time Reserve Service (FTRS) personnel and mobilised reservists.

Armed Forces: Bullying

Willie Rennie: To ask the Secretary of State for Defence how many cases of bullying in each of the armed forces have been reported in each year since 1997. [291046]

Mr. Quentin Davies: The following table reflects the number of bullying complaints reported since October 2006 for each service. Some tri-service defence organisations do not record the service to which the complainant belongs. Statistical data prior to October 2006 are not held centrally.

	Royal Navy	*Army*	*RAF*	*Tri-service organisations with placed military*
Formal complaints				
October 2008 to March 2009	6	25	18	5
October 2007 to September 2008	14	18	40	1
October 2006 to September 2007	16	40	28	0
Informal complaints				
October 2008 to March 2009	29	38	23	6
October 2007 to September 2008	65	37	52	3
October 2006 to September 2007	67	51	50	0

Armed Forces: Health Services

John Mason: To ask the Secretary of State for Defence how much of the budget of the Defence Medical Services was spent in Scotland in each of the last five years. [290780]

Mr. Kevan Jones *[holding answer 9 September 2009]:* Medical policy for the Defence Medical Services (DMS) is overseen by the Surgeon General's Department (SGD). However, the organisational structure of the DMS means that comprehensive costs by location can be provided only at disproportionate cost.

In Scotland, as in the rest of the UK, the majority of secondary health care is provided in NHS hospitals. The single service medical services are responsible for delivering primary health care to their respective service commanders-in-chief. This includes local medical centres (including GP surgeries), Regional Rehabilitation Units (including one in Edinburgh) and military Departments of Community Mental Health (including three in Edinburgh, Glasgow and Inverness). Owing to the number of different internal budgets to which costs would be attributable, any detailed analysis of the budget spent in Scotland would incur disproportionate cost.

Armed Forces: Higher Education

Angus Robertson: To ask the Secretary of State for Defence what expenditure his Department incurred on postgraduate education for serving members of the armed forces normally based in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Ireland in each year since 1997. [291179]

Mr. Kevan Jones: The information requested is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence how much was charged to occupants of Modern Housing Solutions housing for damage to that housing in each financial year since 1997. [291045]

Mr. Kevan Jones: Details of the total amounts charged are only available from November 2007 and represent the charges for all service family accommodation (SFA) in Great Britain (up to 31 March 2008) and the UK thereafter. The charges were as follows:

Period	*Total amount charged (£)*
1 November 2007 to 31 March 2008	[1]200,070
1 April 2008 to 31 March 2009	[2]1,080,394
1 April 2009 to 31 August 2009	[2]473,759

[1] GB SFA only.
[2] UK SFA only

These charges also cover SFA properties in Scotland, which are not maintained by Modern Housing Solutions.

Armed Forces: Indonesia

Mr. Don Foster: To ask the Secretary of State for Defence what plans he has for the future training for members of the Indonesian Kopassus Special Forces by the UK Joint Counter-Terrorist Training and Advisory Team; and if he will make a statement. [290913]

Bill Rammell: *[holding answer 9 September 2009]:* The MOD provides military advice and assistance to Indonesia as part of normal security cooperation and wider UK Government relations, as the Government do with many countries worldwide.

Armed Forces: Mental Health Services

Mr. Cawsey: To ask the Secretary of State for Defence what steps he plans to take to improve the provision of mental health services to serving and former members of the armed forces. [291119]

Mr. Kevan Jones: MOD takes very seriously its responsibility to provide high-quality mental healthcare to its personnel, and Defence Medical Services' mental health practitioners remain in touch with the latest advances and developments in treatment in order to ensure that patients receive the most effective and efficient management, subject to proper scientific evaluation and comparison with current effective treatments. We sponsor research and epidemiological studies that address aspects of the mental health of both the in-service and veteran populations. We also maintain a close dialogue with the military medical services of our principal allies, to share understanding and best practice. Additionally,

our Academic Centre for Defence Mental Health, based at King's College London, is constantly reviewing the development of new treatments across the national and international spectrum and producing advice accordingly.

Diagnosis and treatment of mental health disorders in members of the armed forces are performed by trained and accredited mental health personnel. In Afghanistan, we deploy uniformed mental health nurses to provide in-theatre care and treatment for our personnel. If personnel need to leave the operational environment, then their care continues either on an out- or in-patient basis in the UK or their permanent base overseas.

In the UK, our mental health services for military personnel are configured to provide community-based mental health care, primarily through our 15 military Departments of Community Mental Health (DCMH) across the UK (plus centres overseas), which provide out-patient mental healthcare. The DCMH mental health teams, comprising psychiatrists, mental health nurses, clinical psychologists and mental health social workers, have particular expertise in treatments for psychological injury.

For the relatively small number of military patients who need it, in-patient care is currently provided by a group of seven NHS trusts located throughout England and Scotland, led by South Staffordshire and Shropshire NHS Foundation Trust (SSSFT) through a central MOD contract.

When personnel leave military service their healthcare becomes the responsibility of the NHS. Ex-Service personnel receive good treatment from their GPs but we recognise that many health professionals have limited experience of dealing with veterans who have mental health symptoms arising from their Service experience. The MOD, the four health departments and the Combat Stress charity have been working together with clinical experts and the Health and Social Care Advisory Service (HASCAS) to develop a new model of community based mental healthcare that will address assessment and treatment of veterans' mental health problems in the long term.

The community mental health model is NHS-led and reflects NHS best practice. Two-year pilots, tailored to local circumstances, are operating at Staffordshire and Shropshire Foundation Healthcare Trust, Camden and Islington Mental Health and Social Care Trust, Cardiff and Vale NHS Trust, Tees Esk and Wear NHS Trust, Cornwall NHS Partnership, and NHS Lothian (led by the Scottish Executive). Evaluation of the pilot areas is now underway; early results from all six are encouraging, with evidence that veterans feel able to access and use the service with confidence. Informed by the results of the evaluation the service will be rolled out across the UK. In the interim, for areas not yet involved in the pilots, veterans with operational service after 1982 who are concerned about their mental health can attend our Medical Assessment Programme based at St. Thomas' hospital, for specialist mental health assessment by a consultant psychiatrist with extensive military experience.

Angus Robertson: To ask the Secretary of State for Defence how many service personnel normally based in Scotland were referred to the Priory Clinic as *(a)* inpatients and *(b)* outpatients in each year since 2003. [291175]

Mr. Kevan Jones: An interim arrangement for the contracting of service mental health provision was signed with the Priory Group commencing in December 2003. The full contract, whereby the Priory Group became the primary provider of in-patient mental health provision, commenced on 1 April 2004.

The available data are anonymised for reasons of patient confidentiality. Therefore, it is not possible to identify which patients from all those treated would be categorised as service personnel normally based in Scotland.

From the available information the following numbers of in-patients were treated at the Glasgow Priory Clinic since 2003 but referrals could have included patients from locations outside Scotland:

	Number of patients treated
1 December 2003-31 March 2004	[1]—
1 April 2004-31 March 2005	30
1 April 2005-31 March 2006	37
1 April 2006-31 March 2007	23
1 April 2007-31 March 2008	28
1 April 2008-7 February 2009	25

Out-patient care is usually provided by the MOD's military departments of Community Mental Health, of which there are three in Scotland located at Leuchars (Edinburgh), Faslane (Glasgow) and Kinloss (Inverness). The only specific out-patient only referrals that we contract for is the provision of psychology treatment. This element of the Priory contract commenced in 2006 and the total number of patients referred can be found in the table:

	Number of patients treated
1 April 2006-31 March 2007	[1]0
1 April 2007-31 March 2008	[1]—
1 April 2008-7 February 2009	7

[1] Indicates a number less than 5, and is used to protect patient confidentiality, in line with our standard practice for very low numbers of patients.

The contract with the Priory Group has been replaced by a new one, awarded in November 2008 following open competition, with a partnership of seven NHS trusts led by South Staffordshire and Shropshire NHS Foundation Trust.

Armed Forces: Recruitment

Willie Rennie: To ask the Secretary of State for Defence on what grounds applications to join the armed forces may be rejected. [291044]

Bill Rammell: The armed forces' aim is to recruit the required numbers of high calibre personnel, irrespective of their race, ethnic origin, religion or gender and without reference to social background or sexual orientation, into the Naval Service, Army and Royal Air Force, in order to meet operational requirements. However, applications may be rejected for the following reasons:

Age

Medical

Security vetting e.g. nationality and residency rules

Education/qualifications

Suitability at interview

Criminal convictions including drugs
Debt
Incompatible religious belief e.g. Satanists
Offensive or obscene tattoos.

Depleted Uranium: Scotland

Stewart Hosie: To ask the Secretary of State for Defence (1) how many times and at what locations depleted uranium shells have been test-fired in Scotland in each of the last five years; [291180]

(2) how much is Department has spent on test-firing depleted uranium shells in the last five years; [291181]

(3) how many depleted uranium shells were test-fired in Scotland in each of the last five years; [291182]

Mr. Quentin Davies: Depleted uranium shells were test-fired at the MOD-owned Kirkcudbright Range in Scotland on 11 and 12 March 2008. This is the only occasion on which depleted uranium shells have been test-fired in the last five years; 20 shells were fired in total. The estimated cost of the test-firing is £60,000.

Guided Weapons

Mr. MacNeil: To ask the Secretary of State for Defence what assessment his Department has made of the effectiveness of *(a)* the Global Positioning System and *(b)* NIDAR radar for missile tracking. [291022]

Mr. Quentin Davies: There is no proposal to use the Global Positioning System (GPS) for missile tracking, although under QinetiQ's proposed changes to the operation of the MOD Hebrides Range, aerial targets would be tracked via GPS.

QinetiQ's proposals also include tracking missiles via the existing G Band Radars on South Uist, which have increasingly taken over from the I Band NIDIR Radars on St. Kilda. The primary capability of NIDIR Radars is tracking missiles at long range and low level.

Mr. MacNeil: To ask the Secretary of State for Defence how many missile practice camps there were at each UK missile range in *(a)* 2008 and *(b)* 2009 to date; what missiles were tested at each; how many camps there will be in (i) the remainder of 2009 and (ii) 2010; and what missiles will be tested at each. [291023]

Mr. Quentin Davies: Details of Missile Practice Camps[1] (MPCs) at UK Ranges since 2008, including those that are currently planned for 2009 and 2010, are set out as follows. Additional MPCs are likely to be added to the schedule in due course.

MOD Aberporth

Date	*Missile details*	*Number of MPC*
2008	Sidewinder	18
	ASRAAM[2]	(inc. above)
2009 (to date)	ASRAAM[2]	3
	Sidewinder	2
2009 (scheduled)	Sidewinder	2
2010 (scheduled)	—	0

MOD Hebrides

Date	*Missile details*	*Number of MPC*
2008	Rapier	2
	AMRAAM[3]	1
2009 (to date)	Rapier	2
	HVM	1
2009 (scheduled)	Rapier	1
2010 (scheduled)	ASRAAM[2] and AMRAAM[3]	1
	Rapier	(tbc) 2

MOD Manorbier

Date	*Missile details*	*Number of MPC*
2008	HVM[4]	6
2009 (to date)	HVM[4]	9
2009 (scheduled)	HVM[4]	2
2010 (scheduled)	HVM[4]	1

South West Approaches

Date	*Missile details*	*Number of MPC*
2009 (scheduled)	Sea Dart	1

[1] Defined as a training exercise involving air-to-air or surface-to-air missiles for UK forces.
[2] Advanced Short Range Air-to-Air Missile.
[3] Advanced Medium Range Air-to-Air Missile.
[4] High Velocity Missile.

Helicopters: Afghanistan

Ms Gisela Stuart: To ask the Secretary of State for Defence what discussions he has had with the Secretary of State for Foreign and Commonwealth Affairs on the adequacy of the provision of helicopters for use by British armed forces on operations in Afghanistan. [290663]

Bill Rammell *[holding answer 9 September 2009]*: I have regular discussions with my right hon. Friend the Foreign Secretary about all aspects of the campaign in Afghanistan. We continually monitor the level of helicopter provision and make adjustments based on the requirements of our military commanders. For example, between November 2006 and April 2009 we increased the number of airframes by 60 per cent. and the number of flying hours by 84 per cent. As well as sharing coalition helicopters, we lease hundreds of hours each month from commercial operators for routine supplies.

Met Office: Pay

Mr. Greg Knight: To ask the Secretary of State for Defence what criteria determine the awarding of bonuses to staff at the Met Office; and if he will make a statement. [291148]

Mr. Kevan Jones: Met Office staff are eligible to receive bonuses based on performance against specific targets agreed and monitored by the Met Office Board, which are linked to the success of the Met Office at either individual, team or organisational level. Bonus payments are non-consolidated and represent part of Met Office staff remuneration which is at risk and needs to be re-earned each year.

Military Bases

Mrs. Maria Miller: To ask the Secretary of State for Defence what the level of use of each British military training site was in each of the last 10 years. [291164]

Mr. Kevan Jones: The information requested is not held centrally and could be provided only at disproportionate cost.

Oil: Scotland

Mr. Weir: To ask the Secretary of State for Defence what assessment has been made of the *(a)* environmental and *(b)* safety impact of the oil spill at Faslane on 29 July 2009; and what steps he plans to take to reduce the incidence of oil spillage from naval fuel depots in Scotland. [290796]

Bill Rammell *[holding answer 9 September 2009]:* All Royal Navy fuel depots are subject to stringent safety regulations and are inspected and licensed on an annual basis. MOD is working closely with the Scottish Environment Protection Agency to investigate the oil spillage that occurred at Her Majesty's Naval Base Clyde on 29 July 2009 and the findings are due to be published in the next few months. As part of this work, an independent marine biologist is assessing the environmental impact of the incident and qualified departmental staff are also carrying out daily inspections of the affected area. The initial findings are that appropriate control measures were in place to contain the spillage resulting in minimal pollution to the local environment.

The initial assessments have similarly found that the oil spillage resulted in minimal impact to safety, including to the personnel employed at the naval base. Results to date also indicate that the incident was dealt with in accordance with the naval base's Oil Spill Contingency Plan by qualified departmental personnel who had access to industry standard personal protective equipment.

The Department operates stringent safety operating procedures to ensure that the risk of oil spills is kept as low as reasonably practicable. The circumstances of the spillage are unique to the fuels infrastructure at Faslane and are not replicated across the wider naval fuel depot estate in Scotland. Any lessons learned, however, regarding both the cause of the spillage and our response will be incorporated into working practices and plans as appropriate. Associated risk assessments will also be reviewed to take into account any necessary changes.

Territorial Army: Higher Education

Angus Robertson: To ask the Secretary of State for Defence how much his Department spent on each university corps in the University Officer Training Corps in each year since 1997. [291178]

Mr. Kevan Jones: There are 19 University Officer Training Corps (UOTCs) in the United Kingdom. Their costs are calculated at regional brigade level not by individual unit.

The table shows the expenditure by each brigade for the last three financial years where information is available. The figures have been rounded to two decimal places and the sum of the component parts may not equal the total which is also a rounded figure.

Million

Regional brigades	*UOTCs within the brigade*	*2006-07*	*2007-08*	*2008-09*
51 Scottish Brigade	Aberdeen, Edinburgh, Glasgow and Strathclyde, Tayforth	6.44	5.05	5.28
15 North East Brigade	Leeds, Northumbrian, Sheffield	4.57	4.04	4.11
42 North West Brigade	Liverpool, Manchester	2.48	2.46	2.62
160 Wales Brigade	Wales	1.45	1.42	1.82
143 West Midlands Brigade	Birmingham	1.42	1.31	1.66
49 East Brigade	Cambridge, East Midlands	2.78	2.84	3.10
43 Wessex Brigade	Bristol, Exeter	2.82	2.53	2.97
145 Home Counties Brigade	Oxford, Southampton	2.68	2.56	2.73
HQ London District	London	2.00	2.03	2.32
38 Irish Brigade	Belfast	—	1.49	1.52
Total		26.64	25.72	28.13

Information on costs prior to 2006-07 is not held centrally and could be provided only at disproportionate cost.

Type 42 Destroyers

Mr. Weir: To ask the Secretary of State for Defence how much his Department has spent on recycling decommissioned Type 42 destroyers to date. [291173]

Mr. Quentin Davies: MOD is committed to disposing of its ships in the most environmentally sound and cost effective manner.

Four Type 42 destroyers have been recycled to date (Birmingham, Cardiff, Glasgow and Newcastle). The cost of recycling HMS Cardiff, Glasgow and Newcastle was approximately £1.09 million per platform. These costs included the preparation necessary to meet environmental requirements, equipment removals, overhaul, repair, transport and storage.

Records are no longer held of the costs associated with the preparation of HMS Birmingham for disposal.

Mr. Weir: To ask the Secretary of State for Defence where each of the Type 42 destroyers which remain to be decommissioned will be recycled. [291174]

Mr. Quentin Davies: No decisions have yet been made on the recycling of the Type 42 destroyers which remain to be decommissioned, but all commercial options will be considered for their disposal in the most environmentally sound and cost effective manner.

TREASURY

Air Passenger Duty

Mr. Brady: To ask the Chancellor of the Exchequer what account his Department took of levels of taxation of air travel in *(a)* the Netherlands and *(b)*

Belgium in assessing the likely effect of changes in air passenger duty on the global competitiveness of the UK aviation industry. [291136]

Ian Pearson: Rates are set after careful deliberation by Ministers, taking into account the full range of relevant factors. The most recent impact assessment can be found here:

http://www.hmrc.gov.uk/ria/apd-reform-ia.pdf

Financial Services: Pay

Mr. Brady: To ask the Chancellor of the Exchequer what recent discussions he has had with representatives of the UK financial services sector on the likely effects on competitiveness in the sector of an imposition of a cap on bonuses in other EU member states. [291137]

Ian Pearson: Treasury Ministers and officials have discussions with a wide range of organisations and individuals in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such discussions.

Housing: Valuation

Mr. Dunne: To ask the Chancellor of the Exchequer how many properties are recorded with each *(a)* individual dwelling house code and *(b)* value significant code in the local authority areas of Shropshire, according to electronic records held by the Valuation Office Agency. [290971]

Mr. Timms: The number of domestic properties with the codes requested, as at 2 September 2009, in the Billing Authorities Bridgnorth, North Shropshire, Oswestry, Shrewsbury and Atcham and South Shropshire, is as follows:

(a) Dwelling house codes (group type)

Codes	*Number of properties*

ZN	854

Notes:

1. For both, *(a)* and *(b)* above, where a value of '<5 is displayed', this is to prevent individual properties being identified.
2. Of the dwelling house codes, only group type has been provided. Information about the number of domestic properties recorded against other dwelling house codes is commercially confidential.

Non-domestic Rates: Ports

Robert Neill: To ask the Chancellor of the Exchequer what external legal costs the Valuation Office Agency has incurred on cases relating to the new retrospective business rates being levied on firms in ports; and which legal firms and chambers have been instructed in such cases. [291024]

Mr. Timms: There are no new retrospective business rates being levied on firms in ports. The statutory provisions under which the occupiers of land and buildings in ports are being assessed to non-domestic rates was enacted by Parliament in 1988; and the principle that assessments may be back-dated to the first day of the current list in appropriate circumstances has been a feature of that legislation since its first enactment. The Valuation Office Agency has so far incurred £18,943.71 in external legal costs in cases arising out of the Valuation Office Agency's review of port hereditaments.

These costs are all Counsel's fees, and the Valuation Office Agency has instructed Counsel practising from Landmark Chambers, Wilberforce Chambers and 1 Crown Office Row.

Robert Neill: To ask the Chancellor of the Exchequer which QCs have been hired by the Valuation Office Agency in relation to valuation hearings and tribunals relating to the new retrospective business rates being levied on firms in ports. [291025]

Mr. Timms: There are no new retrospective business rates being levied on firms in ports. The statutory provisions under which the occupiers of land and buildings in ports are being assessed to non-domestic rates was enacted by Parliament in 1988; and the principle that assessments may be back-dated to the first day of the current list in appropriate circumstances has been a feature of that legislation since its first enactment. The only Queen's Counsel who has so far been instructed on behalf of the Valuation Office Agency in relation to Valuation Tribunal hearings arising out of the Valuation Office Agency's review of port hereditaments is Jonathan Karas QC.

Valuation Office: Data Protection

Mr. Dunne: To ask the Chancellor of the Exchequer what the Valuation Office Agency's policy is on whether property attribute data on individual dwellings are treated as personal data under the Data Protection Act 1998. [290969]

Mr. Timms: The Valuation Office Agency treats all domestic property attribute data as personal data.

In doing so it follows the guidance issued by the Information Commissioner which is available at:

http://www.ico.gov.uk/upload/documents/library/data_protection/detailed_specialist_guides/personal_data_flowchart_v1_with_preface001.pdf.

Valuation Office: Disclosure of Information

Mr. Dunne: To ask the Chancellor of the Exchequer with reference to the Valuation Office Agency's freedom of information disclosure log for December 2006, what the Agency's policy is on using information from informers. [290970]

Mr. Timms: The Valuation Office Agency's policy on using information from informers is set out in Section 10 of their Customer Services Manual which is available at:

www.voa.gov.uk/instructions/chapters/customer-service-manual/frame.htm.

Valuation Office: ICT

Mr. Dunne: To ask the Chancellor of the Exchequer how much *(a)* the Valuation Office Agency and *(b)* contractors on its behalf have spent (i) in total and (ii) since September 2005 on the automated valuation model. [290968]

Mr. Timms: Expenditure by *(a)* the Valuation Office Agency (VOA) to secure the investment in its automated valuation model (AVM) technology, to support a range of its activities, has amounted to approximately

(i) £13.7 million in total; which includes

(ii) £6.7 million since September 2005.

These figures include payments made to the VOA's IT supplier, Capgemini, a proportion of which covers their expenditure with third party IT suppliers (under separate contracts). As the VOA is not party to these separate contracts, it is not possible to provide the amount spent by *(b)* contractors working on their behalf.

Valuation Office: Pay

Robert Neill: To ask the Chancellor of the Exchequer with reference to page 30 of the Valuation Office Agency's Annual Report and Accounts 2008-09, HC 521, what the reasons were for the level of the increase in the salary including performance pay of the Chief Executive; and what that increase was in percentage terms. [291010]

Mr. Timms: The pay and remuneration for the chief executive is set in the context and the parameters of the overall senior civil service (SCS) pay award for each year and is determined by the pay committee of HM Revenue and Customs (HMRC) acting in accordance with pay award and HMRC pay policy. The SCS pay award is determined annually by the independent Senior Salaries Review Board. Comparatives of pay and remuneration for all directors of the agency to the previous year are shown in the Financial Statements, available at:

www.voa.gov.uk/publications/index.htm

VAT: Lighting

David Taylor: To ask the Chancellor of the Exchequer what recent discussions he has had with his EU counterparts on the European VAT agreement relating to light emitting diode lightbulbs; and if he will make a statement. [291108]

Mr. Timms: No further discussions have taken place at EU level regarding reduced rates of VAT since the March 2009 ECOFIN.

WORK AND PENSIONS

Attendance Allowance

Joan Walley: To ask the Secretary of State for Work and Pensions pursuant to the answer of 20 April 2009, *Official Report*, column 115W, on disability living allowance, how many applications for disability living allowance in respect of those aged 65 years or more were reprocessed as a claim for attendance allowance in the last 12 months. [291071]

Jonathan Shaw: The information is not collected centrally and could be provided only at disproportionate cost.

Crisis Loans

Mr. Vara: To ask the Secretary of State for Work and Pensions how many people resident in *(a)* England and Wales, *(b)* each region in England and *(c)* each parliamentary constituency in England and Wales (i) applied for and (ii) received a crisis loan in each quarter of 2008-09. [290849]

Helen Goodman *[holding answer 9 September 2009]:* The available information is in the following tables.

Information is not available for parliamentary constituencies.

Crisis loan applications received in (a) England and Wales and (b) each region in England in 2008-09 by quarter

Thousand

Area	*Quarter 1 (April 2008 to June 2008)*	*Quarter 2 (July 2008 to September 2008)*	*Quarter 3 (October 2008 to December 2008)*	*Quarter 4 (January 2009 to March 2009)*
England and Wales	534.7	586.9	615.7	744.4
East of England	45.2	48.1	51.2	68.7
East Midlands	28.1	28.4	32.9	47.1
London	57.1	61.5	67.5	84.2
North East	48.0	55.4	55.6	56.0
North West	117.2	137.5	144.6	172.6
South East	75.4	73.5	76.0	92.2
South West	29.3	33.7	31.1	37.2
West Midlands	52.6	64.4	67.1	77.4
Yorkshire and the Humber	44.4	45.6	48.5	62.2

Crisis loan initial awards made in (a) England and Wales and (b) each region in England in 2008-09 by quarter

Thousand

Area	*Quarter 1 (April 2008 to June 2008)*	*Quarter 2 (July 2008 to September 2008)*	*Quarter 3 (October 2008 to December 2008)*	*Quarter 4 (January 2009 to March 2009)*
England and Wales	356.3	392.9	420.8	524.2
East of England	28.5	30.2	34.7	49.1
East Midlands	17.1	17.5	22.2	34.1
London	38.7	39.9	41.9	54.6

Crisis loan initial awards made in (a) England and Wales and (b) each region in England in 2008-09 by quarter

Thousand

Area	Quarter 1 (April 2008 to June 2008)	Quarter 2 (July 2008 to September 2008)	Quarter 3 (October 2008 to December 2008)	Quarter 4 (January 2009 to March 2009)
North East	33.8	38.8	38.5	38.4
North West	80.7	98.9	102.6	125.3
South East	53.2	50.7	52.6	63.5
South West	19.7	23.1	22.0	25.7
West Midlands	33.3	41.7	45.9	57.4
Yorkshire and the Humber	26.2	26.2	32.1	42.5

Notes:
1. The information provided is Management Information. Our preference is to answer all parliamentary questions using Official/National Statistics, but in this case, we only have Management Information available. It is not quality assured to the same extent as Official/National statistics and there are some issues with the data, for example, it does not include applications which were processed clerically and have not yet been entered on to the social fund computer system.
2. Awards are initial awards only and do not include awards made on review.
3. Figures are for applications received, not for the number of people who made an application, and for initial awards made, not the number of people who received an initial award. (Some people made more than one application or received more than one initial award.)

Source:
DWP Social Fund Policy, Budget and Management Information System.

Employment Schemes: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions what employment programmes are available for disabled people who are out of work but are *(a)* not eligible for and *(b)* not in receipt of (i) jobseeker's allowance and (ii) employment and support allowance. [290933]

Jonathan Shaw *[holding answer 9 September 2009]:* Under some circumstances, some disabled people not in work and not in receipt of incapacity benefits, jobseeker's allowance or employment and support allowance, are eligible to access specialist disability provision, which includes Disability Employment Advisers, WORKSTEP, Work Preparation, the Job Introduction Scheme and Residential Training Colleges.

Access to Work is also available to disabled people out of work, regardless of their benefit status, to meet the needs that may arise when attending a job interview. If they are successful in securing this or any job then they become eligible for the full breadth of support the programme can offer, depending on their support needs in relation to their job.

Employment: Learning Disability

John Mason: To ask the Secretary of State for Work and Pensions what proportion of the 400 employment opportunities to be created for people with learning disabilities by her Department as identified in the report, Valuing Employment Now, will be in *(a)* each region of England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland. [291184]

Jonathan Shaw: The 400 employment opportunities for people with learning disabilities will be offered in departmental offices, including Jobcentres, Pension, Disability and Carers Centres and Corporate and Shared Services offices across Great Britain. We do not have expected distributions of opportunities by region or country.

The Department for Work and Pensions does not have any offices in Northern Ireland, so none of the 400 employment opportunities will be offered there.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate her Department has made of the total monetary value of payments to recipients of incapacity benefit in each year since 1997. [290723]

Jonathan Shaw *[holding answer 9 September 2009]:* The available information is shown in the table.

Incapacity benefit—Expenditure for Great Britain

£ million

	Cash	2009-10 prices
1997-98	7,412	9,726
1998-99	7,251	9,316
1999-2000	6,790	8,556
2000-01	6,766	8,415
2001-02	6,749	8,211
2002-03	6,758	7,965
2003-04	6,724	7,706
2004-05	6,662	7,432
2005-06	6,650	7,270
2006-07	6,566	6,987
2007-08	6,658	6,893
2008-09	6,535	6,601

Notes:
1. Figures to 1999-2000 include significant expenditure on people above pension age.
2. All figures are outturn expenditure, rounded to the nearest million pounds.
3. The DWP benefit expenditure tables can be viewed at http://research.dwp.gov.uk/asd/asd4/expenditure.asp

Source:
DWP accounting data, as published in the DWP benefit expenditure tables.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Work and Pensions when she plans to reply to the letter of 9 July 2009 from the hon. Member for Walsall North, transferred from the Cabinet Office, concerning a constituent. [291084]

Helen Goodman: A reply was sent to the hon. Member on 31 August 2009.

Social Security Benefits

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many *(a)* incapacity benefit/severe disablement allowance and *(b)* employment and support allowance claims have commenced in each quarter since 1 January 2007. [290725]

Jonathan Shaw: The available information is in the following tables.

Incapacity benefit and severe disablement allowance commencements in each quarter since 1 December 2006

	Number
1 December 2006 to 28 February 2007	149,500
1 March 2007 to 31 May 2007	150,800
1 June 2007 to 31 August 2007	158,000
1 September 2007 to 30 November 2007	160,400
1 December 2007 to 28 February 2008	145,300
1 March 2008 to 31 May 2008	147,500
1 June 2008 to 31 August 2008	154,100
1 September 2008 to 30 November 2008	102,400

Notes:
1. The best statistics on benefits are now derived from 100 per cent. data sources. However, the 5 per cent. sample data still provide some detail not yet available from the 100 per cent. data sources.
2. Severe disablement allowance has been closed to new claimants since April 2001.
3. Figures have been updated to include late notified commencements and are rounded to the nearest hundred.
4. All figures back to 1995 have been revised and may be subject to further change. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total commencements for November 2003 increased by 14 per cent. in the year following their initial release.
5. These figures do not include employment and support allowance, which replaced incapacity benefit and income support paid on the grounds of incapacity for new claims from 27 October 2008.
Source:
DWP Information Directorate: 5 per cent. sample data.

Employment and support allowance commencements: quarterly time series

Quarter ending	Number
November 2008	54,150
February 2009[1]	141,320

[1] Provisional.
Notes:
1. Case load figures are rounded to the nearest 10.
2. For on flows, the benefit type is defined as the pay status at the start of the claim.
3. The figures relating to employment support allowance have been thoroughly quality assured to National Statistics standard. However, it should be noted that this is a new benefit using a new data source which may not have reached steady state in terms of operational processing and retrospection. Hence most recent data shown is provisional.
4. Employment and support allowance data can be found on the DWP tabulation tool at: http://research.dwp.gov.uk/asd/tabtool.asp
Source:
DWP Information Directorate: 100 per cent. Work and Pensions Longitudinal Study.

JUSTICE

Conditional Cautions: Females

Mrs. May: To ask the Secretary of State for Justice following the pilots that commenced on 1 September 2008, what decision the Government have made regarding the use of conditional cautions for vulnerable women; and upon what criteria this decision was made. [291101]

Mr. Straw: Early indications from these pilots show that the conditional caution scheme is a positive way to divert women offenders from the criminal justice system and into supportive services in the community. No decision has yet been made on the further development of this condition as we are awaiting the results of the full evaluation of the pilots in early 2010.

Convictions: Fraud

Bob Spink: To ask the Secretary of State for Justice how many convictions for offences of fraud in relation to child adoption there were in *(a)* England and Wales, *(b)* the East of England, *(c)* Essex and *(d)* Castle Point in each of the last 10 years. [287496]

Claire Ward: "Adoption fraud" is not an offence covered by specific legislation, and defendants may be dealt with by different fraud offences. From information held on the Court Proceedings Database, the Ministry of Justice are not able to ascertain which individual cases within these fraud offences relate to adoption fraud.

Dangerous Dogs Act 1991: Hampshire

Sandra Gidley: To ask the Secretary of State for Justice how many *(a)* prosecutions were brought and *(b)* convictions were secured for offences under the Dangerous Dogs Act 1991 in each local authority area in the ceremonial county of Hampshire in each of the last five years. [288892]

Claire Ward: Information showing the number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the 1991 Dangerous Dogs Act in the Hampshire police force area, 2003 to 2007 (latest available) are shown in the following table. Data for 2008 will be available in the autumn of 2009.

Data have been provided for Hampshire police force area as information by local authority is not collected centrally by the Ministry of Justice.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the 1991 Dangerous Dogs Act, Hampshire police force area, 2003 to 2007[1,2]

	2003	2004	2005	2006	2007
Proceeded against	34	47	42	41	44
Found guilty	16	23	16	21	32

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
Source:
Evidence and Analysis Unit—Office for Criminal Justice Reform

Departmental Drinking Water

Andrew Rosindell: To ask the Secretary of State for Justice how much his Department spent on water coolers in each of the last six months. [287964]

Mr. Wills: Expenditure on water coolers can only be separately identified within two areas of the Department—headquarters and the Office of the Public Guardian.

Expenditure in the period April to September 2009 amounted to £3,420. Invoices are received quarterly and cannot be broken down by month.

Identification of expenditure on water coolers in the rest of the Ministry of Justice would involve the examination of a large number of invoices, many held locally within the courts, prison and probation systems, and would incur disproportionate cost.

The Ministry's policy is to move away from water coolers to mains-fed water filtration systems on cost and environmental grounds. Such a system is in operation in the Ministry's main headquarters building.

Andrew Rosindell: To ask the Secretary of State for Justice how much his Department has spent on bottled water in each of the last six months. [287965]

Mr. Wills: The Ministry's accounting records do not specifically record expenditure on bottled water. To identify relevant expenditure would require examination of thousands of individual invoices, many held locally within the courts, prison and probation systems, and would incur disproportionate cost. It has, however, been possible to identify expenditure on bottled water within the Ministry's headquarters function as stated:

April 2009-September 2009:

Ministry of Justice HQ—£1,315

Billing is on a quarterly basis so cannot be provided for each month. The expenditure relates to bottled water used for water coolers and dispensers. The cost includes sanitisation and maintenance of these devices. Water dispensers are gradually being replaced by mains-fed water filtration systems across the Ministry's estate. The Ministry no longer provides bottled water when catering for meetings or events within its headquarters buildings.

Departmental Internet

Andrew Rosindell: To ask the Secretary of State for Justice how much has been spent on the maintenance of his departmental website in each of the last two years. [287962]

Mr. Wills: The Ministry of Justice does not separately identify expenditure on website maintenance in its accounting records. However, the Ministry's Information, Communications and Technology division holds offline records on this expenditure for the following business areas for the last two financial years:

	£	
	2008-09	*2007-08*
Ministry of Justice HQ	1,410,000	1,625,160
Tribunals Service	146,256	0
Office of the Public Guardian	0	18,000
Total	1,556,256	1,643,160

It is not possible to reliably distinguish website maintenance costs from other IT expenditure for HM Courts Service and the National Offender Management Service except at disproportionate cost.

House of Lords: Reform

Bob Spink: To ask the Secretary of State for Justice when he plans to publish draft legislation on reform of the House of Lords; if he will take steps to promote the Government's proposals for a wholly or substantially elected second chamber; and if he will make a statement. [290757]

Mr. Straw: Following cross party talks, the Government published a White Paper last year building on the outcome of the free votes in the Commons in March 2007 in favour of an 80 per cent. or 100 per cent. elected second chamber. The statement on 20 July on the Constitutional Reform and Governance Bill reiterated our commitment to comprehensive reform of the Lords. We are, therefore, working up final proposals which we hope to publish later this year.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Justice when he plans to reply to the letter of 12 August 2009 from the hon. Member for Walsall North concerning a constituent; and what the reasons are for the time taken to acknowledge receipt of the letter. [291085]

Mr. Wills: The Ministry of Justice (MoJ) target to reply to ministerial correspondence is 20 working days from the date of receipt and the MoJ endeavours to respond to letters as promptly as possible within this deadline.

The hon. Member's letter of 12 August was not received in the MoJ Ministerial Correspondence Unit until 21 August; taking into account the bank holiday on 31 August this case was assigned a target date of 21 September.

As Duty Minister for the Department during the summer recess, I replied to the hon. Member's letter on 10 September.

National Archives

Patrick Mercer: To ask the Secretary of State for Justice (1) how much the annual budget for the National Archives *(a)* has been in each year since 1997 and *(b)* is for 2009-10; [288584]

(2) which organisations were consulted before the decision was taken to reduce the budget of the National Archives by £4.2 million. [288585]

Mr. Wills: The National Archives was created in April 2003. Since then it has featured in a series of machinery of government changes. The first occurred in 2006 with the transfer of the Office of Public Sector Information (OPSI) from the Cabinet Office, and the second in 2008 when the Statutory Publications Office (SPO) moved from the Ministry of Justice both adding to the scope of the National Archives' policy and service delivery responsibilities.

The table shows the resource and capital budget out-turn for the National Archives for the period 2003-04 to 2008-09 and the current budget plans for 2009-10. In order to ensure proper comparability all the figures shown above assume that both OPSI and the SPO are part of the National Archives throughout.

			Out-turn				£ million Plan
Year	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*	*2009*
Financial year	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*
Department	*TNA*	*TNA*	*TNA*	*TNA*	*TNA*	*TNA*	*TNA*
MOG (year and body merged)				*OPSI*		*SPO*	
Budgeting spending							
Resource	39.1	39.0	42.4	39.3	43.2	45.4	48.7
Capital	3.4	2.0	1.9	2.7	5.8	3.3	2.1
Total department spending (the adjusted total of resource plus capital minus depreciation)	38.2	36.3	39.7	37.2	44.3	44.3	44.2

There have been no cuts to the National Archives' budget. They have recently announced some proposals for restructuring their public services to ensure they can operate sustainably for the next few years. The Lord Chancellor and I have been fully briefed on both the rationale and details of the proposals. We are both supportive of them recognising that these were operational decisions made by the management team.

Political Parties

Lynne Featherstone: To ask the Secretary of State for Justice whether he intends to use his powers under section 143(6) of the Political Parties, Elections and Referendums Act 2000 to produce rules for the inclusion of imprints on election materials that take the form of websites, emails or other similar electronic means; and if he will make a statement. [291153]

Mr. Wills: The legal requirements relating to imprints on election material are set out in Section 143 of the Political Parties, Elections and Referendums Act 2000 for printed election material issued centrally by political parties, and Section 110 of the Representation of the People Act 1983 for printed election material which is intended to promote or procure the election of a candidate.

These requirements do not apply in the case of non-printed election material, although Electoral Commission guidance for parties and candidates is clear that it is considered good practice to include an imprint that complies with the legal requirements on any website that contains information about an election or candidate(s).

The Government recognise the importance of ensuring proper transparency as to the source of election material, in any form. Where practical, the Government agree that it is a matter of good practice for an imprint to be placed on non-printed material. However, the Government believe that any regulations introducing legal imprint requirements for non-printed material would need to be workable and long-lasting, in particular taking account of the fast-evolving nature of online campaigning. The Government do not propose to introduce regulations requiring imprints for non-printed material at this time but will keep the issue under review. If evidence suggests that further statutory provision is required we will consider that carefully.

Prisoners

Mr. Burns: To ask the Secretary of State for Justice what the average daily allocation of funding is for food for a prisoner in England. [290764]

Mr. Straw: For the current financial year the National Offender Management Service introduced a maximum benchmark of £2.10 per prisoner per day. Many establishments already operate below this level and provide good quality food. Those operating above the benchmark are working towards reducing their costs with appropriate central support.

Evidence and experience has proven that acceptable healthy meals can be provided in prisons within this level of funding by carefully managing menu content and utilising key messages from the Department of Health in regard to promoting a healthy diet.

Prisoners: Transfers

Angus Robertson: To ask the Secretary of State for Justice (1) how many prisoner transfer applications have been received from foreign governments since 2005; and how many such applications have been *(a)* granted and *(b)* refused; [290794]

(2) how many prisoner transfer applications have been made by the Government to foreign governments since 2005; and how many such applications have been *(a)* granted and *(b)* refused. [290795]

Mr. Straw: Prisoner transfers are initiated by prisoners who may express an interest to either of the Governments concerned or by a Government. Formal requests for transfer are made by Governments. Between 1 January 2005 and 31 December 2008 677 prisoners expressed an interest in being transferred from England and Wales under prisoner transfer arrangements. Of these 376 applications were approved and 102 were refused. 199 either remain under consideration or have been withdrawn. During the same period, 367 prisoners expressed an interest in being transferred to England and Wales, of which 212 were approved and 46 were refused. 109 either remain under consideration or have been withdrawn.

The transfer of prisoners to and from Scotland and to and from Northern Ireland is a matter for Scottish Ministers and the Secretary of State for Northern Ireland respectively.

Angus Robertson: To ask the Secretary of State for Justice how many prisoner transfer agreements the Government has signed with foreign governments since 1979; and on what date each such agreement was signed. [290916]

Mr. Straw: The United Kingdom is a signatory to two multiparty prisoner transfer agreements: the Council of Europe Convention on the Transfer of Sentenced Persons (1983) and the Commonwealth Scheme for the Transfer of Convicted Offenders (1990). The UK signed the Council of Europe Convention on 25 August 1983 and the Commonwealth Scheme on 27 June 1991.

On 9 February 2009 the United Kingdom signed the Additional Protocol to the Council of Europe Convention on the Transfer of Sentenced Persons. It was ratified on 17 July 2009 and it will enter into force on 1 November 2009.

On 27 November 2008 the European Union adopted Council Framework Decision 2008/909/JHA on the application of the principle of mutual recognition to judgments in criminal matters imposing custodial sentences or measures involving deprivation of liberty for the purpose of their enforcement in the European Union. It will enter into force on 5 December 2011.

In addition to the multiparty arrangements to which the United Kingdom is a signatory, the following bilateral prisoner transfer agreements have been concluded:

Country	*Date of signature*
Antigua and Barbuda	23 June 2003
Barbados	3 April 2002
Brazil	20 August 1998
Cuba	13 June 2002
Dominica	2 May 2006 (not yet in force)
Dominican Republic	18 February 2003 (not yet in force)
Egypt	29 November 1993
Ghana	17 July 2008
Guyana	5 April 2002 (not yet in force)
Hong Kong	5 November 1997

Mr. Lidington: To ask the Secretary of State for Justice what overwhelming United Kingdom interests he took into account in agreeing to a prisoner transfer agreement with Libya which did not exclude Mr. Abdelbaset ali Megrahi; and if he will make a statement. [290917]

Mr. Straw: The discussions over the prisoner transfer agreement between the United Kingdom and Libya were part of the wider negotiations for the normalisation of relations with Libya following its renunciation of international terrorism and its voluntary dismantling of weapons of mass destruction. I concluded that the normalisation of relations with Libya, including the fight against terrorism, cooperation in stemming the flow of illegal migration, and wider UK/Libya trade relations, were in the United Kingdom's national interest.

Under the terms of the prisoner transfer agreement prisoners could only be transferred with the consent of both Governments. It was therefore not necessary to exclude Mr. Al Megrahi from its terms. As Mr. Al Megrahi was a Scottish prisoner decisions relating to his transfer were a matter for Scottish Ministers. Scottish Ministers refused Mr. Al Megrahi's application for transfer under the prisoner transfer agreement.

Prisoners: Employment

Mrs. May: To ask the Secretary of State for Justice what proportion of *(a)* male and *(b)* female prisoners are in paid employment within prison. [291100]

Mr. Straw: The information is not available in the form requested. However, over the period April to July 2009 male prisoners were engaged in 11.9 hours of work (paid and unpaid) per week on average. For female prisoners the average was 12.7 hours per week. The data are taken from the Regimes Monitoring (Regmon) database by means of a query which only picks out the types of purposeful activity which fall under the activity group of "Works". This does not tell us whether or not this is paid work.

Mrs. May: To ask the Secretary of State for Justice what proportion of *(a)* male and *(b)* female offenders released from prison were in sustained employment (i) three months, (ii) six months and (iii) one year after their release in each of the last 10 years. [291102]

Mr. Straw: Information is not available on the proportion of prisoners in sustained employment three months, six months or one year following release.

However, data are collected on the proportion of offenders entering employment on discharge. Figures since 2007-08 are set out in the following table.

Prior to 2007-08, the number entering employment were not recorded separately from those entering education or training.

	Male/ female	*Total number of prisoner discharges*	*Number on discharges with an employment outcome*	*Percentage of offenders entering employment on release*
2007-08	Female	6,033	748	12
	Male	84,281	23,592	28

	Male/female	Total number of prisoner discharges	Number on discharges with an employment outcome	Percentage of offenders entering employment on release
	Total	90,314	24,340	27
2008-09	Female	6,800	900	13
	Male	91,193	24,565	27
	Total	97,993	25,465	26
2009-10 (April to July 2009)	Female	2,246	266	12
	Male	30,064	7,878	26
	Total	32,310	8,144	25

Prisoners: Females

Mrs. May: To ask the Secretary of State for Justice what the *(a)* certified normal accommodation and *(b)* total capacity to house female prisoners is. [291104]

Mr. Straw: On 31 July 2009, the total in use certified normal accommodation (CNA) of the female estate was 4,632 and the total operational capacity was 4,822.

Prisoners: Libya

Mr. Hague: To ask the Secretary of State for Justice how many Libyan prisoners have been requested to be transferred to Libya since the ratification of the prisoner transfer agreement with the Libyan government signed in November 2008; and what transfers have taken place under the agreement. [290636]

Mr. Straw: One prisoner serving a sentence of imprisonment in England and Wales has sought transfer to a prison in Libya under the provisions of the UK/Libya prisoner transfer agreement. His request is currently under consideration. No prisoners have yet been transferred to Libya.

The transfer of prisoners to Libya from Scotland is a matter for Scottish Ministers. The transfer of prisoners from Northern Ireland to Libya is a matter for the Secretary of State for Northern Ireland.

Prisoners: Parole

Mr. Moss: To ask the Secretary of State for Justice how many prisoners on parole from Whitemoor Prison *(a)* breached their parole terms and *(b)* his Department has lost touch with in each of the last 15 years; and if he will make a statement. [290670]

Mr. Straw: Centrally held information on those prisoners released on licence and who are subsequently recalled cannot be broken down by the prisons from which the offenders were initially released. To provide the information requested would require a manual check of individual records and this would incur disproportionate costs.

Prisoners: Suicide

Andrew Stunell: To ask the Secretary of State for Justice (1) how many prisoners have been placed on suicide watch while serving a custodial sentence of each type in each of the last five years; [291111]

(2) how many prisoners have attempted suicide while serving a custodial sentence of each type in each of the last five years; [291112]

(3) how many and what proportion of prisoners have committed suicide while serving a custodial sentence of each type in each of the last five years. [291113]

Claire Ward: Information on 'suicide watches' is not collated or held by the National Offender Management Service (NOMS). NOMS has a broad, integrated and evidence-based prisoner suicide prevention and self harm management strategy that seeks to reduce the distress of all those in prison. This encompasses proactively identifying prisoners at risk of suicide and self-harm. At-risk prisoners are cared for using Assessment, Care in Custody and Teamwork (ACCT) procedures. Detailed data are not readily available however some 31,000 ACCT plans are opened each year. These can be opened repeatedly for the same prisoner. There are no easy answers to managing self harming behaviour but NOMS remains committed to finding ways to manage it.

Without exploring the intent behind a self-harm incident, it is difficult to establish such an incident as an attempted suicide. NOMS does not record intent, and does not hold information on attempted suicides. Table 1 shows annual totals of self-harm incidents by type of custody. Although intent is not recorded and the majority of incidents are not life threatening, analyses show that approximately 1.7 per cent. of all self-harm in prison involves hanging as a method or require resuscitation or hospitalisation on life support.

Table 1: Self harm incidents by type of custody: England and Wales

	Number of incidents[1, 2]				
	2004	2005	2006	2007	2008
All	19,579	23,806	23,423	22,897	24,944
Convicted un-sentenced	2,556	3,242	3,222	2,893	3,146
Immigration Detainee	126	129	280	198	198
Remand	3,232	4,048	4326	4351	4297
Sentenced	10,267	12,710	11,509	10,033	11,040
Sentenced - Indeterminate[3]	—	41	765	1,872	2,809
Sentenced-License recall	1,353	1,754	1,925	1,978	2,014
Not recorded[4]	2,045	1,882	1,396	1,572	1,432

[1] These figures have been drawn from the NOMS incident reporting system and exclude a small proportion on incidents using the new NOMIS system. Care is taken when processing and analysing the returns but the data collected is subject to the inaccuracies inherent in any large scale recording system. Although the figures are shown to the last individual the figures may not be accurate to that level.

[2] In prisons, as in the community, it is not possible to count self harm incidents with absolute accuracy. In prison custody, however, such incidents are more likely to be detected and counted.

[3] A new indeterminate sentence "Imprisonment for Public Protection was introduced in 2005 and numbers of prisoners held on such sentences have been increasing. They are considered to be an existing high risk group and so the increase in this category if offset elsewhere.

[4] The apparent high number of unrecorded custody status arises from the fact that many self harm incidents occur in the early stages of custody at which time IT systems may not have had been fully updated.

Every death in prison is a tragedy, and affects families, staff and other prisoners deeply. Ministers, the Ministry of Justice and NOMS are completely committed to learning from each death and to reducing the number of such incidents. Good care and support from staff save many lives, but such instances go largely unreported. Prisons successfully keep safe in any given month approximately 1,500 prisoners assessed to be at particular risk of suicide or self harm. Deaths in prisons are among the most scrutinised of all incidents and each case is subject to a police investigation and independent investigation by the Prisons Probation Ombudsman. Robust systems are in place for monitoring deaths and learning from them.

The numbers and proportions of self-inflicted deaths by type of custodial sentence, for each of the last five years, are detailed in table 2.

Table 2: Self-inflicted deaths in prison custody[1] by type of custody: England and Wale

		2004	2005	2006	2007	2008
All		95	78	67	92	60
Convicted unsentenced	Number of deaths	15	9	4	7	3
	Percentage of all deaths	16	12	6	8	5
Detainee	Number of deaths					1
	Percentage of all deaths	—	—	—	—	2
Judgment respited	Number of deaths	—	3	1	5	2
	Percentage of all deaths	—	4	1	5	3
Remand	Number of deaths	33	28	17	29	20
	Percentage of all deaths	35	36	25	32	33
Sentenced	Number of deaths	47	38	43	51	34
	Percentage of all deaths	49	49	67	55	57
Sentenced—Indeterminate	Number of deaths	—	—	2	4	4
	Percentage of all deaths	0	0	3	4	7
Sentenced—Licence recall	Number of deaths	9	6	10	9	6
	Percentage of all deaths	9	8	15	10	10

[1] Deaths in prison custody figures include all deaths of prisoners arising from incidents during prison custody They include deaths of prisoners while released on temporary license (ROTL) for medical reasons but exclude other types of ROTL where the state as less direct responsibility. Approximately one third of the deaths in prison custody shown here actually occur in hospitals or hospices.

Prisons

Mr. Garnier: To ask the Secretary of State for Justice what *(a)* ships, *(b)* hospitals and *(c)* other sites in public ownership other than sites owned by the Ministry of Defence representatives of his Department have (i) visited to assess and (ii) considered for use as prison sites since 1 June 2005; and on what date each such visit took place. [286760]

Mr. Straw: Site searches are conducted both by National Offender Management Service (NOMS) and external agents on their behalf. NOMS do not hold full and complete records of those searches conducted by agents as this information is retained by them and could be obtained only at disproportionate cost. Some information is held centrally by NOMS, but this does not include dates of visits.

The following shows the ships and berths that have been visited and/or assessed and considered for prison use between 2006 and 2008. Information for 2005 is not held centrally and can be obtained only at disproportionate cost.

Ship

Bibby Altona
MV Scotia Prince
Bibby Renaissance

Berth

Southampton
Portland
Harwich
Barrow-in-Furness
Birkenhead
Garston, Liverpool.

In addition, NOMS officials visited the following hospitals and other sites owned by public bodies between 2005 and 2008:

Hospitals

Bryn Y Neuadd, Llanfairfechran
Dobshill, Flint
Goodmayes, Essex
Harold Wood, Essex
Lea Castle, Kidderminster
Runwell, Essex

Sites in public ownership

Barking College Campus, Essex
Cardiff Airport, Wales
Celtic Springs Business Park, Newport
Cwmbran, Wales
Dagenham (Beam Park West)
Dynamex/Ferodo, Caernarfon
East Quay, Barry
HMP Featherstone, Wolverhampton
Felindre, Swansea
HMP Feltham, Heathrow
Firestone, Wrexham
Garth Isaf, Rhondda
Glynneath Business Park, Port Talbot
Goat Mill Road, Merthyr
Greengates Farm, St. Asaph
Gwent Europark, Magor

Hirwaun Industrial Park, Rhondda
"154", Wolverhampton
HMP Kirkham, Lancashire
Llanwern Steel Works, Llanwern
Oakdale Business Park, Caerphilly
Pyle, Bridgend
Queensway Meadows, Llanwern
Rassau, Ebbw Vale
Rhyd-Y-Car, Rhondda
Severn Crossing Distribution Park, Chepstow
South Quay, Barry
Tredegar, Gwent.

There have been several site search exercises for the London/Essex and South East carried out by NOMS since June 2005. These searches identified over 300 sites, the majority of which were dismissed from consideration at an early stage and not visited. Information relating to those sites that were visited is not held centrally and can be obtained only at disproportionate cost.

Mr. Wallace: To ask the Secretary of State for Justice whether Lancaster is under consideration as a potential site for a new 1,500 place prison. [288380]

Mr. Straw: No. Apart from the two sites at Beam Park West (Dagenham) and Runwell (Essex) that I announced to Parliament on 27 April 2009, *Official Report*, columns 569-80, there are currently no plans to build a 1,500 place prison at any other location. We plan to start a fresh search for potential sites for the remaining new prisons in due course.

Prisons: Females

Mrs. May: To ask the Secretary of State for Justice how many abstinence-based therapeutic programmes there are for drug and alcohol addiction in women's prisons; and how many prisoners *(a)* entered and *(b)* completed such programmes in each year for which records are available. [291103]

Mr. Straw: A comprehensive drug treatment framework is available for women in prison. Interventions fall into three groups: clinical treatment (detoxification and maintenance), counselling, assessment, referral, advice and throughcare services (CARATs) and (abstinence-based) accredited drug treatment programmes.

Currently four different accredited drug treatment programmes are available to women in various establishments: 12-Step, P-ASRO (Prison—Addressing Substance-Related Offending), the Short Duration Programme (SDP) and Therapeutic Communities (TCs). The following table shows the number of prisoners starting and completing these programmes in each of the last five years.

	2004-05[1]		2005-06		2006-07		2007-08		2008-09	
	Starts	Completions	Starts	Completions	Starts	Completions	Starts	Completions	Starts	Completions
12 STEP	60	36	61	38	57	37	60	31	56	39
PASRO	152	112	89	99	100	73	74	59	60	52
SDP	152	98	394	264	572	437	571	390	594	412
TC	64	37	33	19	38	23	40	25	16	11
Total	428	283	577	420	767	570	745	505	726	514

[1] 2004-05 is the first full year for which accurate starts and completions data are available.

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Where alcohol is part of poly-drug misuse, CARAT services are available to all women prisoners in England and Wales. Alcoholics Anonymous (AA) is available in 11 women's prisons, although no participation data are collected centrally.

Racially Aggravated Offences

Chris Huhne: To ask the Secretary of State for Justice how many people in each ethnic group were convicted of racially aggravated offences in 2007; and for what offences they were convicted. [291185]

Claire Ward: Data on the ethnicity of persons convicted, in England and Wales, are not available for racially aggravated offences due to incomplete returns.

The Office for Criminal Justice Reform is currently working with Her Majesty's Court Service (HMCS), and representatives from National Police Improvement Agency (NPIA) and the Association of Chief Police Officers (ACPO) to improve the level of recording in both the police and the courts.

Reoffenders: Foreigners

Damian Green: To ask the Secretary of State for Justice how many of the 954 offenders who had their licence recalled in 2008-09 and have not been returned to custody are foreign nationals. [291203]

Mr. Straw: In my written ministerial statement of 6 July 2009, *Official Report*, columns 34-38WS, on Audit of Licence Revocation, I announced that, as at 26 June 2009, 954 offenders who had their licences revoked between 1984 and 31 March 2009 were not recorded as having been returned to custody. Of the 954, there were 192 foreign nationals. Of the 192, 64 were assessed as meeting the criteria for deportation.

Over the last 10 years, more than 99 per cent. of offenders who have been recalled to prison have been successfully apprehended. We are determined to build on this creditable performance.

All agencies are working together to review and revise the end-to-end recall process, to ensure that we have the strongest grip on these individuals and can return them to custody as quickly as possible. The police have an action plan in place to deal with outstanding cases.

The Probation Service has significantly improved its enforcement of breaches. In 1997 only a third of breaches were being appropriately enforced, compared to over 95 per cent. by 2008. Before 1999 recall was rarely used because such cases had to go through the courts.

Michael Shields

Chris Huhne: To ask the Secretary of State for Justice when he expects to make a final decision on a pardon in the case of Michael Shields. [291011]

Mr. Straw: Mr. Shields has been granted a free pardon. He was released from custody on 9 September.

Chris Huhne: To ask the Secretary of State for Justice what the cost to the public purse was of legal advice and representation in the concluded judicial review in the case concerning Michael Shields. [291012]

Mr. Straw: The judicial review on Michael Shields' application for a free pardon was concluded on 17 December 2008 in the Administrative Court. The total cost of legal advice and representation associated with the judicial review was £64,577 including disbursements and VAT.

Third Sector

Mr. Hurd: To ask the Secretary of State for Justice what the cost was of *(a)* the Office of Public Sector Information logo and *(b)* other rebranding of Her Majesty's Stationery Office as the Office of Public Sector Information. [291055]

Mr. Wills: The renaming of Her Majesty's Stationery Office (HMSO) as the Office of Public Sector Information (OPSI), which took effect from 1 July 2005, was an internal management unit change at the Cabinet Office to reflect its expanded responsibilities to be the principal focal point within Government for advising on and regulating the operation of public sector information re-use.

All work on renaming (updating the HMSO webpage, creating a new logo and issuing new business cards) was resourced and completed in house by HMSO staff as part of their day-to-day tasks. No additional costs were incurred and none of the work was contracted out to external suppliers.

CABINET OFFICE

Central Office of Information

Mr. Hurd: To ask the Minister for the Cabinet Office pursuant to the answer of 20 April 2009, *Official Report*, column 351W, on central government: public relations, which public relations firms were on the Central Office of Information's list of accredited public relations companies in each year since 1997. [291054]

Angela E. Smith: I have asked the chief executive of the Central Office of Information to write to the hon. Member.

Letter from Mark Lund, dated 11 September 2009:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your recent Parliamentary Question on Public Relations Companies (251054).

A list of Public Relations companies on the Central Office of Information Framework can be found on the COI website:

http://www.coi.gov.uk

A copy of has also been placed in the Library of the House.

Information on companies from previous frameworks is not held centrally.

Civil Servants: Resignations

David Taylor: To ask the Minister for the Cabinet Office how many senior civil servants resigned from office to take up positions in the private sector in each of the last 10 years. [291123]

Angela E. Smith: All civil servants are subject to the "Rules on the Acceptance of Outside Appointments by Crown Servants" which require them to seek approval for employment they wish to take up within two years of leaving the civil service.

The independent Advisory Committee on Business Appointments advises on applications under the rules from the most senior civil servants. The Committee publishes on its website and in its annual reports, information about its recommendations on appointments that have been taken up or announced. Copies of the Committee's annual reports are available in the Libraries of the House and at:

www.acoba.gov.uk

Information about other senior civil servants is not held centrally, and could be obtained only at disproportionate cost.

Jobseeker's Allowance: Chelmsford

Mr. Burns: To ask the Minister for the Cabinet Office how many and what proportion of young people aged between 18 and 24 years resident in the Chelmsford local authority area claimed jobseeker's allowance in *(a)* each of the last five years and *(b)* 2009 to date. [290995]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated September 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many and what proportion of young people aged between 18 and 24 years resident in the Chelmsford local authority area claimed jobseeker's allowance in *(a)* each of the last five years and *(b)* 2009 to date. (290995)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number and percentage of persons aged 18-24 claiming Jobseeker's Allowance in each month since January 2004.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Table 1 Number of persons aged 18-24 resident in Chelmsford claiming Jobseeker's Allowance

	Number[1]	Percentage[2]

HEALTH

Ambulance Services: Greater Manchester

Paul Rowen: To ask the Secretary of State for Health what discussions his Department's Performance Delivery Team has had with strategic health authorities on the response times of the Greater Manchester Ambulance Service. [291035]

Mr. Mike O'Brien: It is the responsibility of strategic health authorities and primary care trusts to support ambulance trusts to ensure national response time standards are delivered and sustained locally.

The Department, via its Performance Delivery Team, continues to discuss ambulance performance with the NHS North West strategic health authority to receive assurance that that they are working with local organisations to address issues for the North West Ambulance Service to achieve and sustain the response time targets.

Antibiotics

Paul Rowen: To ask the Secretary of State for Health how many manufacturers of generic antibiotics had operating manufacturing units at which generic antibiotics were manufactured in the UK *(a)* in 1997 and *(b)* at the latest date for which figures are available. [291037]

Mr. Mike O'Brien: Accurate information is not readily available to give an actual number for 1997. There are four known companies manufacturing generic antibiotics in the United Kingdom in 2009.

Asthma

Greg Mulholland: To ask the Secretary of State for Health how many *(a)* people and *(b)* children underwent an emergency hospital admission following an asthma attack in 2008. [290976]

Ann Keen: The Department uses information from Hospital Episode Statistics (HES) for data of this kind. HES is the national statistical data warehouse for England of the care provided by national health service hospitals and for NHS hospital patients treated elsewhere. The data are freely available from:

www.hesonline.nhs.uk

The latest data for the number of emergency asthma attack admissions to hospital are for April 2007 to April 2008, and are given in the following table. The April

2008 to April 2009 data are not yet available. Note that a patient may have more than one finished episode of asthma for each hospital admission, which explains why episode data exceed admission data in the table.

	Total patient admissions	*Total episodes*
Children (0-15 years)	19,228	24,077
Adults (16+ years)	30,427	36,219
All (total)	49,655	60,296

Carers

Sir John Stanley: To ask the Secretary of State for Health (1) how much funding was allocated to each primary care trust from the £50 million provided for funding breaks for carers in 2009-10; [291048]

(2) how much was allocated to each local authority from the £240 million provided for carer's grant in 2009-10; [291049]

(3) how much funding was allocated to each primary care trust from the £100 million provided for funding breaks for carers in 2010-11. [291050]

Mr. Mike O'Brien: The additional £150 million provided for funding breaks for carers was given to primary care trusts (PCTs) as part of their overall baseline allocations. The Department does not break down PCT revenue allocations by policies at either a national or local level and there is no weighted capitation formula specific to carers that would allow needs to be accurately identified at the local level. So it is therefore for PCTs to decide their priorities for investment locally, taking into account their local circumstances and local priorities.

The allocations made to each local authority from the £240 million provided for the carers grant are detailed in the local authority social services letter LASSL(DH)(2007)2 which has already been placed in the Library.

Cervical Cancer: Screening

Mr. Burns: To ask the Secretary of State for Health (1) what recent representations he has received on the age at which cervical cancer screening starts; and if he will make a statement; [290993]

(2) if he will place in the Library copies of the evidence his Department used in making its recent decision on the age at which cervical screening should begin. [291040]

Mr. Mike O'Brien: Since the beginning of the 2008-09 parliamentary year, the Department has received 209 items of correspondence, and 43 parliamentary questions on a variety of subjects relating to cervical cancer, including the age at which cervical cancer screening starts.

There was an adjournment debate on 17 December 2008, and two Early Day Motions in December 2008 and April 2009 regarding the age at which cervical screening starts.

There were also two ministerial meetings in March 2009 and one in June 2009.

The evidence presented to the Advisory Committee on Cervical Screening at its review meeting on 19 May 2009 was published by the British Medical Journal (BMJ) on 28 July 2009. The study titled "Effectiveness of cervical screening with age: population based case-control study of prospectively recorded data" by Sasieni et al, can be viewed at:

www.bmj.com/cgi/content/full/339/jul28_2/b2968

A copy of the summary document published in August 2009 has now been placed in the Library.

Clinical Physiologists: Regulation

Anne Milton: To ask the Secretary of State for Health when his Department plans to publish a summary of the responses received in the consultation on The Future of the Healthcare Science Workforce: Modernising Scientific Careers: The Next Steps; and if he will make a statement. [290979]

Mr. Mike O'Brien: A summary of the consultation results will be published alongside our policy response in the autumn.

Doctors: Milton Keynes Primary Care Trust

Mr. Lancaster: To ask the Secretary of State for Health what steps Milton Keynes Primary Care Trust takes to establish the qualifications of doctors contracted to MK Doc. [291076]

Mr. Mike O'Brien: National health service organisations should carry out the necessary checks in accordance with the relevant regulations to ensure doctors are appropriately qualified. Strategic health authorities are responsible for the performance management of primary care trusts (PCT) in their region.

PCT have a legal obligation to provide a high quality, sustainable out-of-hours service for their local population. All out-of-hours services must be delivered to the National Quality Requirements, ensuring patients have access to consistently high quality and responsive care, regardless of where they live. In order to provide primary medical services a doctor, including a locum, must be on a PCT's performers list. To get on a list, doctors must provide information about their medical qualifications and where they were obtained. The PCT must check, as far as reasonably practicable, the information provided.

Doctors: Working Hours

Mr. Lancaster: To ask the Secretary of State for Health how many doctors *(a)* of each nationality and *(b)* qualified in each country (i) are and (ii) have been contracted by MK Doc out-of-hours service since the service was established. [291077]

Mr. Mike O'Brien: The Department does not collect this information centrally.

Health Professions: Working Hours

Mr. Rooney: To ask the Secretary of State for Health how many hours of *(a)* general practitioners', *(b)* nursing, *(c)* dentists' and *(d)* surgeons' time was available in the NHS per head of population in (i) Bradford and (ii) England in (A) 1982, (B) 1997 and (C) 2009. [291074]

Ann Keen: This information is not collected centrally.

Information on the total number of staff and full-time equivalent staff within the national health service, dating back to 1995 is available on the Information Centre for health and social care website:

www.ic.nhs.uk/statistics-and-data-collections/workforce/nhs-staff-numbers

2009 figures will not be available until March 2010.

Hospitals: Parking

Mr. Burns: To ask the Secretary of State for Health how much revenue was generated by charges on *(a)* staff, *(b)* patients and *(c)* others for the use of car parks at (i) Broomfield and (ii) St John's Hospital in Chelmsford in each of the last five years. [291039]

Mr. Mike O'Brien: The revenue generated by car parking charges for staff, patients and other users at Mid Essex hospitals NHS trust Broomfield and St. John's for the last five years are shown in the following table.

Mid Essex hospital services NHS trust—car parking charges by staff and visitors

£

	Broomfield hospital		St. John's hospital	
	Income from staff	Income from visitors	Income from staff	Income from visitors
2003-04	31,851	295,075	13,650	126,461
2004-05	51,366	503,418	12,916	120,645

£

	Broomfield hospital		St. John's hospital	
	Income from staff	Income from visitors	Income from staff	Income from visitors
2005-06	62,383	598,525	12,569	128,913
2006-07	89,000	689,740	2,247	162,214
2007-08	235,443	496,745	4,315	203,449

Learning Disability: Housing

Jenny Willott: To ask the Secretary of State for Health how many and what proportion of adults with learning disabilities were in settled accommodation *(a)* in total and *(b)* in each of the smallest geographical areas for which figures are available in each year since 2000; and if he will make a statement. [291187]

Mr. Mike O'Brien: Recent figures show that around 65 per cent. of adults (18 to 64) with learning disabilities known to services were in settled accommodation at the time of their latest assessment or review in England from April 2008 to March 2009.

The information presented in the following table is provisional data published by the NHS Information Centre and shows both England and council level information relating geographical areas from April 2008 to March 2009. This information was collected for the first time in 2008-09 and is therefore not available for previous years.

Number and percentage of working age (18-64) learning disabled clients known to Councils with Adult Social Services Responsibilities (CASSRs) who are in settled accommodation at the time of their assessment or latest review, England. Based on data for NI 145 from the National Indicator Set

[1] Constituent values less than 5 are suppressed, where elements of an indicator are suppressed the indicator itself is also suppressed.
Note:
Values are rounded to the nearest 5.

Mental Health: Employment

Jenny Willott: To ask the Secretary of State for Health how many and what proportion of adults receiving secondary mental health services were in employment *(a)* in total and *(b)* in each of the smallest geographical areas for which figures are available in each year since 2000; and if he will make a statement. [291188]

Mr. Mike O'Brien: The data requested for previous years were not collected, however information for 2008-09 is due to be published later this year.

Motor Neurone Disease: Wheelchairs

Mr. Todd: To ask the Secretary of State for Health when officials from his Department last met representatives of the Motor Neurone Disease Association to discuss wheelchair services; and if he will make a statement. [290965]

Mr. Mike O'Brien: Departmental officials last met representatives of the Motor Neurone Disease Association to discuss wheelchair services on 23 April 2009.

The provision of wheelchair services is the responsibility of primary care trusts. However, we recognise the importance of people—including those with Motor Neurone Disease and other rapidly progressing conditions—receiving the services and support they need, which is why we commissioned the Care Services Efficiency Programme in June 2006 to develop a new model for the delivery of community equipment and wheelchair services.

NHS: Manpower

David Taylor: To ask the Secretary of State for Health when the recent report on NHS staffing by McKinsey and Company was commissioned by his Department; and at what cost. [291121]

Mr. Mike O'Brien: The report on achieving world class productivity was commissioned in February 2009. Publishing the cost would raise issues of commercial confidentiality.

Olympic Games 2012: Manpower

Mr. Don Foster: To ask the Secretary of State for Health how many full-time equivalent members of staff of *(a)* his Department and *(b)* its associated public bodies are working on projects relating to legacy planning for the London 2012 Olympic and Paralympic Games; and what plans he has for such staffing levels in 2010-11 and 2011-12. [291154]

Mr. Mike O'Brien: The London 2012 Olympic and Paralympic Games are a key priority across Government. An Olympic and Paralympic Health Programme has been established in the Department to support delivery of all health related bid commitments. In particular, the Department recognises the unique potential of the Games to inspire individuals to make a commitment to be more physically active and leave a lasting health legacy for the nation. The Department will contribute to the cross-Government delivery of the Legacy Action Plan (LAP), "Before, During and After: Making the most of the 2012 Games", target to make two million more adults active by 2012 and ensure a health legacy for the Games.

There are nine full-time equivalents working on the programme within the Department.

It is not possible to provide a breakdown of staff who are exclusively working on legacy planning roles as every project in the programme in the Department has been asked to consider legacy issues to ensure that there is a lasting benefit to the nation. Information on staff working on legacy planning in associated public bodies is not held centrally.

Prescriptions: Fees and Charges

Mr. Dhanda: To ask the Secretary of State for Health if he will exempt from the payment of prescription charges those with coeliac disease. [290992]

Mr. Mike O'Brien: We have asked the President of the Royal College of Physicians (Professor Ian Gilmore) to carry out a review of prescription charges that will consider how to implement the commitment to exempt patients with long-term conditions from prescription charges. Professor Gilmore is due to report on his review of prescription charges to departmental Ministers in the autumn.

Smoking: Motor Vehicles

Bob Spink: To ask the Secretary of State for Health what steps his Department takes to enforce legislation on smoking in vehicles used for business purposes; and if he will make a statement. [291130]

Mr. Mike O'Brien: The enforcement of these regulations is the responsibility of local authorities. Prior to the law coming into effect in July 2007 the Department and local authorities went to great lengths to inform all those responsible that vehicles used for business purposes by more than one person should be smokefree at all times. These efforts have successfully resulted in very high compliance rates. Across England in the first two years since July 2007, the overall compliance rates for vehicles were 93.3 per cent. (signage) and 98.2 per cent. (vehicles smokefree).

The Department has supported the Local Authorities Coordinators of Regulatory Services (LACORS) in their work to provide enforcement advice and support to local authorities.

A copy of the latest data, "Smokefree Legislation Compliance Data January to June 2009" will be placed in the Library. These data are also available on the Smokefree England website:

www.smokefreeengland.co.uk/thefacts/national-compliance-data.html

Smoking: Public Places

Bob Spink: To ask the Secretary of State for Health how many *(a)* fines, *(b)* prosecutions and *(c)* convictions there have been against managers or occupants of smoke-free premises for (i) failure to display no-smoking signs and (ii) failure to prevent smoking in a smoke-free place; and if he will make a statement. [291063]

Mr. Mike O'Brien: These data are not collected in the form requested. The Department does however publish regular summaries of Smokefree Legislation Compliance Data. These are available on the website:

http://www.smokefreeengland.co.uk/thefacts/national-compliance-data.html

A copy of the last data," Smokefree Legislation Compliance Data January to June 2009" has been placed in the Library.

The Smokefree Law in England has been a success since it began on 1 July 2007 requiring only a relatively small number of fines or court cases. The law has had very widespread support from the public and has greatly improved the working conditions of those who were formerly exposed to the dangers of secondhand smoke.

In the first two years across the whole of England overall compliance rates have been very high, with the numbers of premises recorded as being no-smoking above 98 per cent.

In the first two years across the whole of England only 73 court hearings have been necessary.

Swimming

Mr. Cawsey: To ask the Secretary of State for Health what discussions he has had with the Secretary of State for Culture, Media and Sport on the health benefits of the free swimming initiative for children and pensioners. [291120]

Mr. Mike O'Brien: Swimming exercises most of the main muscle groups, strengthens the lungs and is suitable for those requiring low impact exercise, for example, women during pregnancy, people who have mobility problems or those who need to protect their joints.

These considerations informed several bi-lateral conversations between the then Secretary of State for Culture and the former Secretary of State for Health on the scope of the overall free swimming programme, and ongoing discussions between policy officials at the quarterly free swimming programme board.

Swine Flu: Cambridgeshire

Mr. Moss: To ask the Secretary of State for Health what steps his Department has taken to assist Cambridgeshire Primary Care Trust to cope with increases in cases of swine flu; and if he will make a statement. [291026]

Mr. Mike O'Brien: The national health service has been preparing for a pandemic for several years. In 2007 we published "Pandemic flu: a national framework for responding to an influenza pandemic", which set out the Government's strategic approach for responding to an influenza pandemic and gave guidance to public and private organisations developing response plans. A copy has already been placed in the Library. The national framework was supported by a range of guidance for healthcare and social care organisations.

The NHS operating framework for 2008 required all NHS organisations to have robust plans in place to respond to a pandemic by the end of 2008. Ian Dalton, National Director of NHS Flu Resilience wrote to NHS Chief Executives on 2 July 2009 setting out resilience actions for NHS Boards to test their plans.

During 2009, the Department of Health has continued to support NHS organisations. In July the National Pandemic Flu Service was launched which has been successful in reducing the pressure on general practitioners and primary care services and enabling patients to access anti-virals rapidly according to local needs.

Mr. Moss: To ask the Secretary of State for Health how many doses of *(a)* Tamiflu and *(b)* Relenza (i) have been and (ii) are planned to be made available to Cambridgeshire Primary Care Trust; how many doses of swine flu vaccine are planned to be made available to the Trust; and if he will make a statement. [291027]

Mr. Mike O'Brien: As of 9 September 2009 just over 100,000 packs of Tamiflu capsules, around 800 bottles of solution/suspension for use by children under one and nearly 3,500 courses of Relenza have been issued to Cambridgeshire Primary Care Trust (PCT). The PCTs future requirements will depend on the take up of the antiviral stocks as the pandemic progresses.

Once the swine flu vaccine has been licensed, the intention is that initial supplies will be sent out to all PCTs. They will then be able to place regular orders for the amount of vaccine they need to vaccinate their clinical at risk groups, taking account of local storage capacity and implementation arrangements.

Mr. Moss: To ask the Secretary of State for Health (1) how many cases of swine flu were registered by Cambridgeshire Primary Care Trust in each week of the last six months; and if he will make a statement; [291028]

(2) how many people in the Cambridgeshire Primary Care Trust area contacted their GP with symptoms of swine flu in each week of the last six months; and if he will make a statement. [291029]

Mr. Mike O'Brien: Information on the number of people who contact their general practitioner (GP) each week is not collected. At the start of the outbreak, cases of swine flu were confirmed by laboratory testing and recorded by region not primary care trust (PCT). This information is available until 2 July 2009 and is given in the following table.

On 2 July we moved to the treatment phase of the response to swine flu and we are now using clinical diagnosis instead of laboratory confirmation to identify cases of swine flu. This means we can no longer give detailed data about the precise number of cases. However, we have well-established seasonal influenza surveillance systems to monitor the spread, activity and impact of swine flu.

3,300 GP surgeries provide reports on symptoms of flu in patients as part of the Q-Surveillance scheme and a further 100 surgeries across the country collect information on flu symptoms as part of the Royal College of General Practitioners surveillance scheme. This information is used to calculate the levels of influenza-like illness in England. This information is published on a weekly basis by PCT on the Health Protection Agency website at:

www.hpa.org.uk/hpr/infections/primarycare.htm

East of England Strategic Health Authority Pandemic H1N1 Influenza A cases, by week to 2 July 2009

Date	*Number of cases*
Up to 3 May 2009	0
Week ending 10 May 2009	5
Week ending 17 May 2009	6
Week ending 24 May 2009	1
Week ending 31 May 2009	8
Week ending 7 June 2009	23
Week ending 14 June 2009	7
Week ending 21 June 2009	43
Week ending 28 June 2009	219
Week up to 2 July 2009	152

Tobacco: Regulation

David Taylor: To ask the Secretary of State for Health what recent research he has *(a)* commissioned and *(b)* evaluated on the effect of the prohibition of tobacco point of sale displays on public health. [291143]

Mr. Mike O'Brien: The Department has not commissioned specific academic research on the removal of tobacco displays, but has considered a wide range of published evidence and information from stakeholders received through the 2008 "Consultation on the future of tobacco control".

The impact assesment that accompanies the Health Bill 2009, a copy of which has already been placed in the Library, and the report on the 2008 "Consultation on the future of tobacco control", a copy of which has already been placed in the Library, provides an overview of the range of evidence that has been considered by the Department. Both documents are available on the Department's website at:

www.dh.gov.uk/en/Consultations/Responsestoconsultations/DH_091382

West Sussex Primary Care Trust: Management Consultants

Mr. Tyrie: To ask the Secretary of State for Health how much West Sussex Primary Care Trust estimates it will spend on management consultancy in 2009-10. [291972]

Mr. Mike O'Brien: This information is not collected centrally. Primary care trusts are responsible for using their resources to plan, commission and develop services to meet the health needs of their local community.

FOREIGN AND COMMONWEALTH OFFICE

Arctic Sea

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he received on the seizure through piracy of the vessel Arctic Sea and its passage through the English Channel; what recent discussions he has had with the Secretary of State for Defence on piracy in UK waters; and if he will make a statement. [290837]

Mr. Ivan Lewis: Following the disappearance of the Arctic Sea, the Foreign and Commonwealth Office, the Department for Transport (DFT) and other Government Departments kept a close watching brief, focusing on any issues that may affect the UK. The DFT ensured the police were also kept involved. Our embassy in Moscow reported after the ship was located and seized on the actions taken by the Russian authorities.

My right hon. Friend the Foreign Secretary has had no recent discussions with my right hon. Friend the Secretary of State for Defence on maritime security specifically in UK waters.

Eritrea: British Nationality

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens have been held for questioning in Eritrea by the Eritrean secret police in each of the last five years; what support his Department provides to such citizens; and if he will make a statement. [291142]

Chris Bryant: From our consular records we are aware of four British nationals who have been arrested or detained in Eritrea since 2004, but we do not have sufficient information as to which Eritrean Government agency detained or questioned these four individuals.

In one case we were informed of the detention only after the individual had been released. In the other three cases we contacted the authorities to clarify the situation and requested consular access.

Of those three cases, two were subsequently released. We have been unable to confirm the release of the other individual, as the Eritrean authorities do not acknowledge the UK's interest in the person concerned (a dual British-Eritrean national resident in Eritrea) as a British national, and will not discuss the case with consular staff, despite representations.

Holidays Abroad

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on each of its campaigns aimed at Britons travelling abroad in each year since 2001; what research his Department has commissioned into the effectiveness of each such campaign; and if he will make a statement. [290994]

Chris Bryant: I refer the hon. Member to the reply I gave on 16 July 2009, *Official Report*, column 612W.

The Foreign and Commonwealth Office's Know Before You Go campaign is evaluated on a six monthly basis to ensure targets are being met and that it effectively reaches the population. For example, in 2008-09 the campaign reached an estimated 64 per cent. of UK adults, in some cases up to 28.5 times. Our evaluation confirmed that the audience's response was highly favourable. The report also evaluates value for money, such as number of people reached per £1 spent, and the advertising value equivalent of the campaign. In addition, we commission qualitative and quantitative surveys to monitor changes in traveller's behaviour and attitudes as well as providing guidance for the future direction of the campaign.

Horn of Africa: United Nations

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to support the establishment of an EU Special Representative to the Horn of Africa region; when he expects an appointment to this post to be made; and if he will make a statement. [291141]

Mr. Ivan Lewis: The EU General Affairs and External Relations Council, which took place in Brussels on 27 July 2009, agreed conclusions on Somalia which stated that the Council:

"views positively the possibility of appointing an EU Special Representative for the Horn of Africa in order to further enhance the EU's ongoing strategic policy formulation and the coordination of EU activities."

The Government believe that a high-calibre candidate with a clear mandate could add value to the role of the international community in the Horn of Africa, provided any such appointment complemented the role of the UN Special Representative for Somalia. This issue is due for further EU discussion in September 2009.

Israel: Entry Clearances

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department submitted a further request for an explanation from the Israeli Ministry of Foreign Affairs (MFA) of the treatment of the hon. Member for Birmingham, Selly Oak and her travelling companions when they were refused entry into Israel at Ben Gurion Airport in 2006 following its receipt of the MFA letter of 15 January 2007; what steps were taken by his Department following receipt of a copy of relevant file papers from the hon. Member for Birmingham, Selly Oak in June 2008; and if he will make a statement. [291104]

Mr. Ivan Lewis: Entry into and exit from Israel is a matter for the Israeli Government. We have raised this case with the Israeli Government a number of times, most recently in October 2008. Their position then was that there was no possibility of investigating the incident further and that they considered the matter closed. We regret that we have not been able to elicit a response further to the Israeli Ministry of Foreign Affairs letter of 15 January 2007. The Israeli authorities are not obliged to provide us with a reason why the hon. Member and her constituents were denied entry.

Libya: Terrorism

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs how many officials in his Department are working full-time on assisting the victims of IRA terrorism to seek compensation from Libya; how many other officials will be employed full-time on this work as a consequence of the implementation of the proposals in the Prime Minister's announcement in Germany on 6 September 2009; and if he will make a statement. [291169]

Mr. Ivan Lewis: Three officials have been redeployed within the Foreign and Commonwealth Office (FCO) to provide support for the families and their representative—two in London full-time and one at our embassy in Tripoli part-time. The team will also be supported by FCO legal advisers.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects his Department's unit dedicated to helping those affected by Irish Republican Army terrorism and their families seeking compensation from Libya to be operational; and if he will make a statement. [291196]

David Miliband: The new Foreign and Commonwealth Office (FCO) Libya IRA Compensation Unit was set up on 7 September 2009. Representatives of the families met No. 10 and FCO officials at No. 10 in a 45 minute meeting on 8 September 2009. The new head of the unit attended. The unit is comprised of three officials—two in London full-time and one at our embassy in Tripoli part-time. The team will also be supported by FCO legal advisers.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the team being established in his Department to provide assistance to those affected by Irish Republican Army terrorism and their families will offer legal advice on seeking compensation from Libya; and if he will make a statement. [291197]

David Miliband: The Foreign and Commonwealth Office (FCO) will not be providing the families with legal advice. We understand that those affected by IRA terrorism and their families have access to their own legal advice.

The new FCO Libya IRA Compensation Unit will support the victims' families and their representatives by serving as a central point of contact within the FCO, arranging meetings with the Libyan authorities, providing logistical assistance and supporting the representatives of the victims in Libya.

Somalia: Piracy

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government has taken to prevent UK nationals being taken hostage off the coast of Somalia. [290980]

Mr. Ivan Lewis: The UK takes a leading role in the maritime operations of the coast of Somalia which seek to deter and disrupt pirate attacks and therefore help prevent hostage situations occurring. The UK provides the Operation Commander and the Operational Headquarters of the EU Operation Atalanta; the Deputy Commander of Combined Maritime Forces and the at sea commander of the North Atlantic Treaty Organisation Operation Ocean Shield. The Foreign and Commonwealth Office currently advises against all travel to Somalia and provides specific advice on sea travel in the region.

The Government endorse the advice, prepared by the Contact Group on Piracy off the Coast of Somalia (CGPCS) and the International Maritime Organization, on how to prevent, deter and delay acts of piracy off the Horn of Africa. The Maritime Security Centre Horn of Africa (MSCHOA) website contains general advice to shipping companies and ships are encouraged to register with MSCHOA and transit through the Internationally Recommended Transit Corridor (IRTC). In addition, British registered ships receive advice from the Department for Transport, drawing attention to the latest Maritime Advisories in force throughout the piracy threat region. The UK's Maritime Trade Operation based in Dubai advises mariners on planning their passage through the Gulf of Aden.

BUSINESS, INNOVATION AND SKILLS

Advantage West Midlands

Robert Neill: To ask the Minister of State, Department for Business, Innovation and Skills how many of its projects Advantage West Midlands has *(a)* reviewed and *(b)* cancelled in the last 12 months. [286678]

Mr. Lammy: The information is as follows:

(a) The agency reviewed its Corporate Plan in the first quarter of the 2009-10 financial year, to take account of the changing priorities resulting from the recession (in particular, the need to prioritise support for business) and the reduction in its budget. As part of this exercise the agency reviewed its investment plans and project portfolio. The aim was to ensure that investments were targeted on those activities that would deliver the greatest benefits for the region. From the outset, Advantage West Midlands undertook to continue to fund all legally committed projects that were being delivered in accordance with contractual conditions. This meant that 600 projects, to which it was legally-committed, were unaffected by the review process. The 306 project proposals to which the agency was not yet legally committed were systematically reviewed against the following criteria:

Impact

Spatial focus

Response to recession

Deliverability.

All agency-funded projects, once contracted and being delivered, are subject to continuing review through regular monitoring visits by agency project and contract managers. This is standard

procedure—the aim being to ensure that projects meet contractually-agreed objectives and fulfil the agreed terms and conditions. Where this has not been the case, the agency has reduced or clawed-back funding on a pro-rata basis.

(b) No legally-committed projects have been cancelled in the past 12 months. As a result of its project review, the agency announced at the end of June 2009 that, of the 306 non-legally committed project proposals reviewed, 184 had been allocated agency funding. The total investment in these projects and the 600 existing projects over their lifetimes will be c£1.1 billion. Since June the agency has continued to work with applicants to explore alternative funding and delivery arrangements for those projects that were not supported.

Business

Chris Ruane: To ask the Minister of State, Department for Business, Innovation and Skills if he will make an assessment of the merits of funding research on the effects on the economy of downsizing by companies. [285816]

Ian Lucas: Company downsizing is one of a number of industrial issues which my Department has an interest in the context of our work on globalisation and industrial restructuring.

It has produced research related to this issue in the past, but there were no plans to initiate further research into this topic this year. Decisions about the allocation of next year's research budget will begin in April 2010. There are no current plans to fund further research on the effects on the economy of downsizing.

Recent departmental publications relevant to the issue of company downsizing are:

BERR (2009) "The Globalisation of Value Chains and Industrial Transformation in the UK", at:

http://www.berr.gov.uk/files/file50584.pdf

Business Links

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many complaints have been received by his Department in the last 12 months in relation to the health check offered to businesses by Business Link. [291191]

Mr. Lammy: The Department's Ministerial Correspondence Unit handles all complaints about the Health Check delivered by Business Link. Unfortunately, because of the large volume of departmental correspondence, we are unable to provide details of how many complaints have been received in relation to the Health Check without incurring disproportionate costs.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps his Department has taken to increase the take-up rate among businesses of Business Link's health check service. [291192]

Mr. Lammy: The Department for Business, Innovation and Skills has devolved responsibility for marketing Business Link services to the Regional Development Agencies (RDAs) to enable them to co-ordinate campaigns in their area.

Officials in the Department's Enterprise Directorate work with the RDAs to ensure consistent messages are used in campaigns and, wherever possible, support regional activities with national marketing campaigns. The recent "Real Help" campaign, which ran in February this year, featured Health Checks as one of the measures to help business through the current economic downturn.

In addition to press and media advertising, the Government have actively promoted Health Checks (both on-line and face-to-face) through the national Business Link website

www.businesslink.gov.uk/healthcheck

Activities to increase take up of Business Link Health Checks are ongoing.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of complaints received by Business Link were answered in *(a)* 10, *(b)* 11 to 15, *(c)* 16 to 20 and *(d)* more than 21 days in each of the last four years. [291193]

Mr. Lammy: The Business Link service is delivered by fifteen different providers operating under contract to the Regional Development Agencies (RDAs) in England. Complaints are either handled directly by the provider or, if unresolved at that level, are dealt with through the RDAs own complaints handling process.

There is no central monitoring of complaints received by Business Link. Therefore, to gather information about the response times for handling these complaints over the last four years would incur disproportionate costs.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what targets exist for the time within which Business Link responds to complaints received; and what the equivalent targets were in each of the last three years. [291194]

Mr. Lammy: The Business Link service is delivered by 15 different providers operating under contract to the Regional Development Agencies (RDAs) in England. Complaints are either handled directly by the provider or, if unresolved at that level, are dealt with through the RDAs own complaints handling process.

The Regional Development Agencies impose targets on their service providers for responding to complaints. The targets for producing a response range between 10 and 15 working days from receipt.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many complaints were received by Business Link in each of the last four years. [291195]

Mr. Lammy: The Business Link service is delivered by 15 different providers operating under contract to the Regional Development Agencies (RDAs) in England. Complaints are either handled directly by the provider or, if unresolved at that level, are dealt with through the RDAs own complaints handling process.

There is no central monitoring of complaints received by Business. Therefore, to gather information about the total number of complaints received by Business Link over the last four years would incur disproportionate costs.

Business: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how much funding his Department and its predecessors allocated to the development of small businesses in *(a)* Essex and *(b)* Castle Point in each of the last five years. [282146]

Mr. Lammy: EEDA's business support services are funded and operate at a regional level. It is, therefore, not possible to break down funding to the requested level in every instance.

The following information identifies funding during the past five years for these services and, where possible, in Essex and Castle Point. Please note that not all of these schemes were in place five years ago, therefore details provided go back as far back as possible.

Business Link East (BLE)—Since 1 April 2007, EEDA has given £32 million of funding to the Business Link Provider in the region to deliver a wide range of business support. During this time, BLE has supported 41,790 businesses in Essex, including 1,612 in Castle Point.

MAS-East—EEDA has funded MAS-East to the value of £3.4 million for the period 2005-08 and has awarded a further £3.3 million for the period 2008-11. Since November 2005 MAS has supported 362 Essex businesses, carrying out in-depth projects with 38 businesses generating £2,553,100 of Gross Value Added. This has included six businesses supported in Castle Point, working intensively with one company.

Business finance schemes—Since April 2005, EEDA has awarded 16 Essex businesses £1,328,282 in funding through the Grant for Research and Development scheme, with a further six at approval stage with a value of £481,870.

Additionally, since April 2006 19 Essex businesses have been awarded £384,712 in Proof of Concept grants, with a further one approved with the value of £8,000. Since April 2004, 19 Essex businesses have received funding Grant for Business Investment (GBI) to the value of £1,242,035[1].

TakeItOn—49 grants to Essex businesses since December 2007 have totalled £135,596.

[1] Some of the above are grants to businesses under either the Grants for Business Investment (GBI) or Grant for Research and Development (GRaD) programmes. GBI, previously known as Selective Finance for Investment in England (SFIE), transferred to EEDA from the Small Business Service (SBS) in April 2002. GRaD transferred to EEDA from SBS in April 2005.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how much funding his Department and its predecessors allocated to the development of information technology businesses in *(a)* Essex and *(b)* Castle Point in each of the last five years. [282147]

Mr. Lammy: EEDA funds a range of regional services to support businesses from all sectors across the region. This includes the regional Business Link service, specialised support schemes and Business Finance grants for eligible businesses.

While all of these services are available to support IT businesses across the region, EEDA does not specifically allocate money by sector or area.

Where possible, direct grants to IT businesses in Essex and Castle Point have been identified:

EEDA business finance grants—Grants to help businesses prove their market or expand their business and a range of loans to support business growth. Since April 2007, EEDA has provided £151,483 to IT businesses in Essex[1].

TakeITon—Campaign to assist businesses to improve their use of IT, focused on helping SMEs save costs through IT. This EEDA programme started in November 2007. Since then, it has provided £750,678 to help businesses make better use of IT in the region. Within this, £76,561 was provided to IT businesses in the region. Of this, £4,572 was directly to IT businesses in Essex[2].

Business Link East—EEDA has funded the regional Business Link service since 1 April 2007 which supports businesses from all sectors. Since assuming management of the service, Business Link East has interacted with 41,790 businesses in Essex, of which 1,612 are in Castle Point.

[1] Some of the above are grants to businesses Grant for Research and Development (GRaD) programmes. GRaD transferred to EEDA from SBS in April 2005.

[2] This programme is aimed at increasing use of IT in businesses and therefore we would expect take-up from the IT sector to be low given their area of expertise.

Business: Insurance

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many applications have been *(a)* received and *(b)* approved under the trade credit insurance top-up scheme in each month since the scheme was introduced; [290841]

(2) how much cover has been *(a)* requested and *(b)* approved under the trade credit insurance top-up scheme in each month since the scheme was introduced. [290844]

Ian Lucas *[holding answer 9 September 2009]:* As of 28 August there have been 59 approved applications to a value of £8,429,865 broken down as follows:

	Number of policies accepted	*Value of policies (£)*
May	11	633,000
June	8	1,155,000
July	26	4,476,000
To 28 August	14	2,165,365

31 applications to a value of £1,915,210 have been rejected by the Trade Credit Insurers as being ineligible under the scheme rules. It is not possible to analyse these by month.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many applications made under the trade credit insurance top up scheme from businesses with an annual turnover of *(a)* less than £5 million, *(b)* between £5 and £10 million, *(c)* between £10 million and £25 million, *(d)* between £25 and £50 million, *(e)* between £50 and £100 million and *(f)* more than £100 million have been (i) accepted and (ii) rejected since the establishment of the scheme. [290842]

Ian Lucas *[holding answer 9 September 2009]:* The scheme is administered by four trade credit insurance companies, who collect a range of information on the Department's behalf. The information on acceptances and rejections does not disaggregate applicants by turnover.

As of 28 August, 59 applications have been accepted and 31 rejected.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many applications made under the trade credit insurance top up scheme have been rejected because applicants were seeking *(a)* cover in excess of the scheme's value criteria, *(b)* to replace withdrawn insurance rather than top up existing insurance arrangements, *(c)* to insure export business and *(d)* to replace cover reduced prior to October 2008. [290843]

Ian Lucas *[holding answer 9 September 2009]:* The scheme is administered by the four trade credit insurers, who determine whether applications meet the eligibility criteria in accordance with scheme rules. As of 28 August, 31 applications have been rejected. Of these: *(a)* none was seeking cover in excess of the scheme's value criteria, *(b)* four were seeking to replace withdrawn insurance rather than top up existing insurance arrangements, *(c)* none was seeking to cover export business and *(d)* none was seeking to replace cover reduced prior to October 2008.

Business: Kent

Mr. Howard: To ask the Minister of State, Department for Business, Innovation and Skills what the *(a)* rate and *(b)* percentage of business failure in Folkestone and Hythe constituency has been in each quarter since January 2005. [290871]

Ian Lucas *[holding answer 9 September 2009]:* When a failed incorporated business enters into an insolvency procedure it is counted in the official insolvency statistics. However, corporate insolvency figures are not currently available at a sub-national level.

Table 1 gives the numbers of corporate insolvencies, by type of procedure, in England and Wales as a whole for the period requested.

Bankruptcies among self-employed individuals are not routinely collated at constituency level, and the population figures from which a bankruptcy rate may be calculated are not readily available below local authority level.

Table 2 gives the number of bankruptcies among traders in England and Wales as a whole for the period requested.

Table 1

	Compulsory liquidations	*Creditors' voluntary liquidations*[1]	*Receivership appointments*[2]	*Administration*[3]	*Company voluntary arrangements*
2009					
Q1	1,555	3,555	316	1,311	156
Q2[4]	1,520	3,539	345	1,027	157

[1] Excludes creditors' voluntary liquidations which follow administration.
[2] Includes Law of Property Act receiverships. Receivership figures between Q1 2007 and Q1 2008 were previously revised to remove duplication, and are not consistent with those for the earlier period.
[3] Includes administrator appointments and administrations under the Enterprise Act 2002.
[4] Provisional.
Note:
It should be noted that it is possible for a company to enter into more than one procedure during the course of its insolvency. Apart from for the creditors' voluntary liquidation figures (following administration) shown, these procedures will be double counted. Therefore it is not valid to sum all insolvency procedures together and calculate a percentage of insolvent businesses, as to do this would count some companies more than once.

Q2	n/a

n/a = Not yet available.
[1] The Insolvency Trade Classification (ITC) was used to classify trading-related bankruptcies (and company liquidations) until end September 2006. From October 2006 the Standard Industry Classification 2003 has been in use and there have been associated changes to the method used to identify traders among bankrupts. The period covered should not, therefore, be treated as a consistent time series.

Conditions of Employment

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the answers of 17 October 2007, *Official Report*, column 1148W, and of 10 September 2007, *Official Report*, column 2011W, on conditions of employment, what provisions of the Warwick Agreement *(a)* have been implemented to date and *(b)* will be implemented over the course of this Parliament. [291105]

Mr. McFadden: I refer the right hon. Member to my response to his questions on the 10 September 2007 and 17 October 2007, whereby I explained that the final report of Labour's National Policy Forum in July 2004 formed part of the May 2005 general election manifesto. The Government remain committed to fulfilling their manifesto over the course of this Parliament.

Debts: Government Assistance

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to assist those with high levels of personal debt; what steps Ministers in his Department *(a)* have taken during the last two years and *(b)* plan to take during the next year to raise awareness of his Department's services in their region; what (i) primary and (ii) secondary legislation regulates the activities of debt advisers; what amendments have been made to each such enactment; what changes to such legislation are planned in the next 12 months; how much his Department (A) has spent on debt advice in each of the last three years and (B) plans to spend in the next two years; what recent representations he has received on the issue; and if he will make a statement. [290630]

Ian Lucas *[holding answer 9 September 2009]:* The Department provides a broad package of support to individuals with high levels of personal debt. As set out in the Government's White Paper "A Better Deal for Consumers: Delivering Real Help Now and Change for the Future" published on 2 July, the Government are focusing efforts to ensure that:

creditors across the board offer some relief to customers who find themselves in financial difficulty;

free, independent debt advice and support is available for those who need it;

industry and the advice community both follow best practice guidance in handling clients with problem debt;

the most appropriate debt remedies are in place to support the over-indebted; and

there is better legal protection for debtors' property.

In particular, the Department is funding a new self-help debt advice toolkit being developed by the Money Advice Trust, which will enable debtors to negotiate debt repayments with creditors themselves with more targeted advice agency support. This assisted self-help approach should allow over-indebted consumers to reach agreement more speedily and start making regular payments to reduce their debt. Use of the toolkit will

also reduce pressure on the debt advice agencies and allow many more debtors in need of advice to be assisted.

Debt advisers are regulated by the Consumer Credit Act, last revised in 2006, and are required to have a consumer credit licence. There are no plans to amend the legislation in this latter area.

From 2006-07 to 2008-09 the Department provided:

£1 million each year to National Debtline; and

approximately £15 million in the first year, and £28 million in the next two, to the Face-to-Face Debt Advice Project.

In 2009-10 and 2010-11 the Department intend to provide:

£3.5 million each year to National Debtline; and

approximately £28 million in the first year, and £29 million in the second, to the Face-to-Face Debt Advice Project.

The Department receives frequent representations from stakeholders on our assistance programmes.

Departmental Recruitment

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of applications for jobs relating to contracts let by his Department from those *(a)* with and *(b)* without security clearance were rejected prior to interview in (i) April, (ii) May and (iii) June 2009. [285673]

Mr. McFadden: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Vetting

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many advertisements for contracts with his Department have included reference to the need for security clearance as a pre-requisite for award of a contract in the last 12 months. [285670]

Mr. McFadden: This information is not held centrally and is available only at disproportionate cost.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many applicants for contracts with his Department who were previously security cleared but whose clearance had expired have had their applications rejected on the basis that their clearance has expired in the latest period for which figures are available. [285674]

Mr. McFadden: This information is not held centrally and could be provided only at disproportionate cost.

Dorneywood

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills on what occasions the Secretary of State has visited Dorneywood since his appointment. [291107]

Mr. McFadden: None.

Electoral Commission: Codes of Practice

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the Answer of 2 April 2009, *Official Report*, column 1443W, on Electoral Commission: codes of practice, for what reasons the Code of Practice on Guidance is not intended to apply to guidance issued to political parties by the Electoral Commission. [288854]

Ian Lucas: The Code of Practice is intended to help businesses and third sector organisations comply with their regulatory obligations. The Cabinet Office is of the view that any formal (or informal) definition would not include political parties. The Ministry of Justice is of the view that Electoral Commission guidance to political parties is not within the scope of the Code.

Employment Schemes: Coventry

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps the Government has taken to assist young people in Coventry to secure employment. [290981]

Mr. Lammy: The global recession has hit the west midlands hard and young people are feeling the impact of this. Government are clear that Britain cannot afford a wasted generation of young people, lost to unemployment and although, under this Government opportunities for young people have improved (at the end of 2008 we had the highest ever rate of 16 to 18-year-olds in education and training in England), a number of measures are already in place that will provide further help to school leavers, graduates and young unemployed people, including those in Coventry.

For example this year across England we expect there to be 250,000 young people starting an apprenticeship and we have recently announced an extra 47,000 youth jobs supported by the Future Jobs Fund for young people who are unable to find work or training within a year. Through this fund Coventry city council will provide 50 job starts during October 2009 and a further 100 job starts in January 2010.

We recently launched a national campaign Backing Young Britain to ensure we do everything possible to give every young person help to find a job or training or work skills and experience. This will provide £40 million to fund over 20,000 additional internships so that graduates and non graduates can get higher quality work experience; a new mentoring network to help young people find their feet in a tough jobs market; more help for young people from day one of unemployment through job clubs and one to one support in jobcentres for those leaving education this summer.

In the west midlands regional partners have responded with their own initiatives to help unemployed young people. For example, the West Midlands Graduate Internship Programme will create 250 graduate internships and, uniquely, graduates who are unemployed may be eligible for job seekers allowance through Job Centre Plus. Also there is a new £2.5 million programme funded by Advantage West Midlands called Grad Central online service,

www.grad-central.co.uk,

which will place at least 2,000 more people into jobs over the next four years. In addition, Graduate Advantage, led by Aston University, has funding from Advantage West Midlands to provide a further 400 placements by 2011. Partners are also providing specific help for redundant apprentices.

Jobcentre Plus in Coventry has a range of measures to help young people in the city secure employment. It is supporting Backing Young Britain by encouraging key local employers, partners and stakeholders to give their personal commitment to offering jobs, apprenticeships, work trials, work experience, internships and mentoring advice. This has been met with a positive response from both the public and private sector, including BUPA Home Care, TUI UK and west midlands police—Coventry division. In addition, Jobcentre Plus advisers have referred 114 18 to 24-year-olds to the extensive job search and confidence building support that is available on the first day of unemployment. Further job search support for groups of 18 to 24-year-old customers is due to start in the near future in partnership with Coventry Connexions.

Coventry city council and its Local Strategic Partnership has prioritised support to assist young people into employment via its Local Area Agreement. The Local Public Service Board has recently approved the use of £550,000 Area Based Grant funding to support a six-month employment placement scheme, which will provide 100 placements for new unemployed graduates, redundant managers and those in the NEET category that fall outside the Future Jobs Fund and other provision provided by ESF and Connexions programmes.

Further Education: Manpower

Mr. Letwin: To ask the Minister of State, Department for Business, Innovation and Skills what the net change in the number of teaching staff in further education colleges was over the academic year 2008-09. [291073]

Mr. Lammy: The number of teaching staff in further education colleges for 2008/09 is not available.

The latest available information is for 2007/08 when there were some 75,755 full-time equivalent teaching staff in post. This is an increase of 2,988 (4.1 per cent.) on the 2006/07 figures when there were 72,767 full-time equivalent teaching staff in post.

Graduates: Employment

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps the Government has taken to assist graduates to secure employment. [290982]

Mr. Lammy: While these are tough times for graduates we should not forget that a degree remains a strong investment. Businesses are continuing to recruit through the downturn and are Backing Young Britain by offering internships.

For those who cannot find work immediately, the government is offering graduates real help to build the skills needed for successful careers longer term:

The Graduate Talent Pool went live for graduates on 29 July and graduates can now match themselves to internships from a range of employers. Over 12,000 graduate internships are available, most of which will be advertised via the Graduate Talent Pool.

A low carbon future leaders scheme offering 1,500 places will be created across six Low Carbon Economic areas.

There are more postgraduate study options (around 24,000 additional places expected) with support available through Professional and Career Development Loans;

There are around 3,000 extra opportunities to develop enterprise and entrepreneurship skills through the Higher Education Funding Council for England's Economic Challenge Investment Fund;

Up to 4,000 full-time, and in excess of 50,000 part-time and short-term volunteering places which are available to graduates.

Graduates: Work Experience

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills how many graduates have obtained a place on the National Internship Scheme *(a)* in England and *(b)* in Coventry. [290983]

Mr. Lammy: This information is not yet available. Monitoring information on the numbers of graduates in England obtaining places through Graduate Talent Pool will be available later this year.

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills for how long the National Internship Scheme is planned to operate. [290984]

Mr. Lammy: Current contracts for the administration of the Graduate Talent Pool website run to July 2010. We will review the impact and performance of the Graduate Talent Pool later this year and take a decision on how long the service should be offered.

Higher Education: Admissions

Mr. Gale: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of funded, full-time university places that will be available for students seeking to commence studies in *(a)* autumn 2009 and *(b)* autumn 2010 in each region. [283098]

Mr. Lammy *[holding answer 2 July 2009]:* Our grant letter to HEFCE this year confirmed additional teaching grant funding for the equivalent of an extra 10,000 full-time-equivalent places in 2009-10. We did not specify whether these additional student numbers should be full or part time, undergraduate or postgraduate, but HEFCE estimate that this will result in around 3,000 additional full-time first year entrants. Further to this, we announced on 20 July that we would be providing financial support for an additional 10,000 students in science, technology, engineering and maths over the duration of their course in higher education. We will not receive outturn data on the 2009-10 student population until early 2011.

Innovation Fund

Tony Baldry: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the Building Britain's Future document, what mechanisms will be used to ensure that the new Innovation Fund levers in up to £1 billion of private sector funding. [284955]

Mr. Lammy: The Government are committing £150 million of tax payer's investment to build a fund of up to £1 billion over its 10-year life. The Government expects that its investment of £150 million will leverage significant investment from the private sector.

Prior to the launch of the UK Innovation Investment Fund a number of institutional investors expressed an interest in investing in the fund and we would anticipate that the Fund of Funds manager will be able to secure additional private investment from within the UK and overseas.

On 3 August the Government and Capital for Enterprise Limited issued a Request for Proposals (RFP) from prospective Fund of Funds manager(s) for the UK Innovation Investment Fund. Prospective managers are asked to set out their investment strategies and to demonstrate how they will raise money from private sector investors. We aim to make an appointment in December.

London Metropolitan University

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions he has had with London Metropolitan University on *(a)* job losses and *(b)* reductions in student numbers there; and if he will make a statement. [281472]

Mr. Lammy *[holding answer 22 June 2009]:* An important principle set out in legislation (sections 65(1) and 68(2b) of the Further and Higher Education Act 1992) is that Ministers cannot intervene in the funding decisions of the Higher Education Funding Council for England (HEFCE). As is the case with other universities, London Metropolitan University receives grant from HEFCE under a Financial Memorandum which sets out how it should properly account for its public funding. It is for the Funding Council to keep the financial health of the institutions it funds under review to protect the public interest, including ensuring that public funds are properly spent. This month I have met with the UCU representative and a number of staff from the institution.

I know that the process of restructuring can be very difficult and unsettling for both staff and students, but am pleased that the Council's chief executive has met with the new interim vice-chancellor to further discuss the way forward. The final decision must though rest with the university and I remain confident that higher education provision in general across London will be sufficient to meet the diversity of demand. No Government though can give a commitment to protect every course or department at any particular institution.

Motor Vehicles: Manufacturing Industries

Mr. Brady: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of payments made under the Vehicle Scrappage Scheme to date relate to vehicles written off for insurance purposes. [290745]

Ian Lucas *[holding answer 9 September 2009]:* The Department does not hold this information.

Mr. Todd: To ask the Minister of State, Department for Business, Innovation and Skills how much has been spent on the vehicle scrappage scheme; and if he will make a statement. [290964]

Mr. Lammy: £79,540,000 has been claimed and paid under the vehicle scrappage scheme. This information was correct as at 8 September.

Mr. Greg Knight: To ask the Minister of State, Department for Business, Innovation and Skills how many cars have been scrapped under his Department's scheme for vehicles over 10 years old; and how many of those were registered as historic vehicles for vehicle excise duty purposes. [291145]

Mr. Lammy: 195,009 orders for new vehicles have been taken since the scrappage scheme was announced in the Budget. This figure covers the period from 23 April up to 30 August 2009.

We do not hold information on how many of those were registered as historic vehicles for Vehicle Excise Duty Purposes.

Mr. Greg Knight: To ask the Minister of State, Department for Business, Innovation and Skills how many individuals have claimed the £2,000 allowance for scrapped vehicles over 10 years old in respect of more than one vehicle. [291146]

Mr. Lammy: There have been 112 occurrences of more than one vehicle being scrapped by the same individual or business entity.

Overseas Trade: Afghanistan

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills what steps he has taken with the government of Afghanistan to encourage the export from Afghanistan to Britain of *(a)* food products and *(b)* other products; and if he will make a statement. [291014]

Ian Lucas: The role of UK Trade and Investment (UKTI) is to assist UK companies seeking to do business overseas and overseas companies seeking to invest in the UK. Assisting overseas companies to export to the UK does not fall within its remit. No steps have therefore been taken by UK Trade and Investment to encourage the export of goods from Afghanistan.

The Department for International Development (DFID) is working to improve the business environment in Afghanistan and to help Afghanistan economic development.

Regional Development Agencies: Trade Unions

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills what funding each regional development agency has granted to trade union bodies since each such agency was established. [284173]

Ms Rosie Winterton: RDAs fund initiatives through a variety of third party organisations to deliver projects to increase economic growth, such as on workforce development and economic inclusion. The specific focus

and priorities of such activities are set out in each region's Regional Economic Strategy and will differ according to the needs, opportunities and priorities for economic growth in each region.

The following table shows RDA funding to trade unions for 2003 to 2009. The RDAs retain records of the last six years. To provide records before this period will incur disproportionate costs.

RDA	*Total amount of RDA funding to trade unions 2003 to 2009 (£)*
Advantage West Midlands	1,151,116
East of England Development Agency	189,000
East Midlands Development Agency	744,000
London Development Agency	911,000
North West Development Agency	801,957
One North East	472,569
South East Development Agency	97,303
South West Development Agency	2,112,592
Yorkshire Forward	446,816

Response With Responsibility

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills when he expects to respond to the recommendations contained in the Risk and Regulation Advisory Council's May 2009 report, Response with responsibility: policy making for public risk in the 21st century. [278055]

Ian Lucas: The Government expect to publish in autumn 2009 its response to the recommendations contained in the Risk and Regulation Advisory Council's May 2009 report, response with responsibility: policy making for public risk in the 21st century.

Risk and Regulation Advisory Council: Finance

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills what the budget of the Risk and Regulation Advisory Council is for 2009-10; and how much the Council spent on *(a)* secretarial and administrative support, *(b)* advertising and marketing, *(c)* forum events and *(d)* publications in the last 12 months for which figures are available. [278056]

Ian Lucas: For 2009-10, the budget of the unit responsible for raising awareness of the Risk and Regulation Advisory Council work and tools, covers both work connected to the Risk and Regulation Advisory Council and work unrelated to the Council. It is not possible to give a figure just for the work relating to the Risk and Regulation Advisory Council. However a provisional sum of £70,000 from a separate budget has been made available to this unit to use to raise awareness of the work of the RRAC and encourage the use of the tools it developed.

The following expenditure figures are in respect of the 2008-09 financial years:

(a) secretarial and administrative support: £251,000 (includes staff salaries and associated costs. This figure is different to that given in a previous answer as it represents expenditure rather than budget)

(b) and *(c)* advertising and marketing (including Public Relations) and forum events: £114,000

(d) publications:£28,000.

Safety: Window Blinds

Gordon Banks: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 1 July 2009, *Official Report*, column 324W, on domestic appliances: safety, what assessment he has made of the recommendations of Sheriff Mackie on looped cords for blinds and curtains. [290891]

Ian Lucas *[holding answer 9 September 2009]:* Officials have now met with representatives from the British Blind and Shutter Association (BBSA) to discuss what actions the industry can take to alert those who already have internal blinds with looped cords installed in their homes. The industry-has produced a leaflet and poster called "Make it safe" which offers practical advice on how to deal with looped cords installed in the home. This advice can be viewed at:

www.bbsa.org.uk

My officials are now considering with the BBSA and others how this message can be used and if necessary further developed to reach the widest possible audience.

As a result of the discussions with the BBSA, we are also looking at possible revisions to the relevant technical product standard.

Students: Radicalism

Mr. Holloway: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer to the hon. Member for Lancaster and Wyre of 15 July 2009, *Official Report*, column 507W, on students: radicalism, which institutions will receive further targeted support in academic year 2009-10. [290879]

Ian Lucas *[holding answer 9 September 2009]:* In academic year 2009-10 the Department for Business, Innovation and Skills will be giving targeted advice and support to institutions in priority Prevent-funded local authority areas.

A full list of these priority areas can be found on the Communities and Local Government website:

http://www.communities.gov.uk/communities/preventingextremism/lafunding/

Written Answers to Questions

The following answers were received between Tuesday 15 September and Wednesday 16 September 2009

BUSINESS, INNOVATION AND SKILLS

Billing

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what steps the Government are taking to help small and medium-sized enterprises whose customers do not pay in accordance with agreed contractual terms. [285671]

Ms Rosie Winterton: The UK was one of the world's first countries to introduce late payment legislation in November 1998. It provides all businesses with the right to claim interest for the late payment of commercial debt, and where there are no pre-agreed payment terms, the legislation provides that the payment period is 30 days from the later of either delivery of goods or receipt of invoice.

Over half of UK business transactions are not covered by pre agreed payment terms so we are also equipping business to better manage customer relationships and cash flow management through a series of guides developed in partnership with the Institute of Credit Management, the CBI, IoD, FSB, FPB and BCC.

Further advice on this legislation and claiming interest for late payments can be found at:

http://www.berr.gov.uk/files/file37581.pdf.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what steps the Government have taken to encourage *(a)* private sector companies and *(b)* public sector organisations to sign up to the prompt payment code. [285672]

Ms Rosie Winterton: My noble Friend the Secretary of State and for Business, Innovation and Skills has written to over 1,500 UK businesses and the Minister for Economic Competitiveness, Small Business has hosted prompt payment events with businesses, supported by the Confederation of British Industry, Institute of Directors, Federation of Small Businesses, Forum of Private Business and the British Chamber of Commerce.

All central Government departments have signed the prompt payment code and my officials are working with the regions to promote the code to the wider public sector and to businesses.

Regional Ministers are taking a strong lead in driving prompt payment. For example, the Minister for the West Midlands acted in March 2009 to encourage public sector organisations in the region to sign up to a 10 day payment pledge; 44 have done so thus far and further action is now being taken to encourage more to do so.

Building Colleges for the Future Programme

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions he has had with representatives of further education colleges on the Building Colleges for the Future programme. [288229]

Kevin Brennan: With regards to the Building Colleges for the Future programme, I have met and discussed the current issues with the sector body—the Association of Colleges and the 157 Group. In terms of the programme's implementation, this is the responsibility of the Learning and Skills Council (LSC). The LSC, in its work to resolve the current funding pressures with the programme, has consulted widely. This consultation has been in-line with the recommendations of Sir Andrew Foster, and has included the Association of College's capital reference panel. I have subsequently been kept informed of progress.

My predecessor and I have held meetings to discuss the positions of individual colleges. Importantly, such meetings must be without prejudice to the statutory responsibility of the LSC for determining capital approvals.

Business: Government Assistance

Mr. Hoban: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 2 March 2009, *Official Report*, column 1341W, on business: Government assistance, what assessment he has made of the likely effects on levels of borrowing by small businesses in the next 12 months of the operation of the Working Capital scheme. [261653]

Ms Rosie Winterton: We have taken steps to help improve cash flow, to increase the availability of the credit businesses need, and to encourage investment so that businesses come through the recession ready to grow.

In particular, we obtained bank lending commitments from RBS and Lloyds to lend £27 billion additional lending to businesses this year. This includes lending guaranteed under the Working Capital scheme.

In addition, we introduced a Trade Credit Insurance top-up scheme which provides protections for firms suffering a reduction in cover.

We have also taken steps to assist small businesses to overcome short-term cash-flow problems—for example the Enterprise Finance Guarantee and also measures to ensure prompt payment by both public and private sectors.

Mr. Lancaster: To ask the Minister of State, Department for Business, Innovation and Skills what support his Department is providing to small and medium-sized businesses in Milton Keynes. [280879]

Ms Rosie Winterton: Department for Business, Innovation and Skills support to small and medium-sized businesses in Milton Keynes is provided through South East England Development Agency (SEEDA).

SEEDA provides a full range of support mechanisms to small and medium-sized businesses operating in Milton Keynes. The support falls into two broad categories:

1. Strategic Business Development and Engagement—comprising the Sub Regional Partnership and Employment and Skills Board (MKELP) and Milton Keynes Science and Innovation, for example.

2. Business support—primarily through Business Link, Manufacturing Advisory Service, Continuous Employment Support Service, and Financial Assistance.

More detailed information can be found in the attached SEEDA-produced background information.

1. SEEDA Specific Milton Keynes Strategic Business Development and Engagement

Sub Regional Partnership and Employment and Skills Board (MKELP)

SEEDA funds the Milton Keynes Economic and Learning Partnership (MKELP) with the purpose of bringing together business and the public sector in Milton Keynes to agree and align priorities and investment at local and sub regional level. MKELP is also financially supported by Milton Keynes Council and the Homes and Communities Agency.

MKELP specifically:

Works to align regional and local economic strategy to benefit businesses and local stakeholders in Milton Keynes.

Understands employer issues in Milton Keynes and makes regional partners aware of these issues and challenges.

Identifies key growth/economically important sectors and works closely with Sector Skills Councils (SSCs) to help them raise employer demand and investment in skills and encourage employers to engage with and drive the work of their SSC.

Development of the Partnership's approach to the knowledge economy and the Science and Innovation agenda, encompassing, for example, the Innovation Growth Team, Electric Vehicle infrastructure for the city and inward investment, as well as supporting the bid for Milton Keynes to be a host city in the 2018 Football World Cup and developing a strong higher education offer for local businesses.

Milton Keynes Science and Innovation (MKSI)

Local partners in Milton Keynes are developing a vision to "create the most exciting habitat in the UK for knowledge intensive business" in Milton Keynes. SEEDA is a key stakeholder in this steering group, drawing on its 'know how' and expertise in developing and implementing science and innovation activity elsewhere in the region. SEEDA is also funding a full time project manager to drive the initiative forward.

Milton Keynes South Midlands (mksm) Growth Area

SEEDA (with East of England Development Agency and East Midland Development Agency) has been working with Local Authorities and stakeholders to support the mksm growth area. An Economic Development Plan is being produced focusing on supporting key growth business sectors across mksm with an underpinning skills strategy. The aim is to ensure the jobs target for mksm and Milton Keynes is achieved and includes high quality jobs in the knowledge economy and growth sectors.

Progress has been presented to the mksm local authority Leaders group and mksm is aiming to have a final Economic Development Plan by October 2009. This plan will feed into a developing Multi Area Agreement which will include Transport objectives and actions.

2. Direct Support to Businesses in Milton Keynes which is also available to all businesses in South East

Business Link and Enterprise Gateway

MK Businesses support interventions[1]

	Number

2007-08	530
2008-09	611

[1] Action plan agreed

MK Business healthchecks since October 2008: 384

MK, Oxfordshire and Buckinghamshire businesses helped in 2008/09 through Enterprise Gateway scheme: 163

Business Link provides business support and advice for all individuals and businesses already trading or thinking of starting. Benefits include:

Free Business Health Checks, including maximising cash flow, marketing and business planning, debt management, new market and product development.

Access to finance advice, credit crunch presentations and finance clinics.

Guidance and events on how to survive and thrive in difficult times, including advice on reducing energy consumption and costs.

Access to the SEEDA funded Resource Efficiency programme.

Access to advice and signposting to skills and training opportunities through the 'Train to Gain' service.

Analysis and information on new business opportunities and markets.

In addition the Enterprise Gateway service (delivered through Business Link) offers impartial, professional advice to individuals from under-represented communities facing barriers to enterprise. Business Link also delivers sustainable business advice.

Investor Development Manager (IDM)

The SEEDA IDM is currently working with seven companies who are making redundancies, five companies linking to train to gain and a further 10 companies on a variety of other support needs.

SEEDA funds an Investor Development Manager (IDM), Guy Hawking, who works with strategically important companies in Milton Keynes.

Innovation and Growth Teams

Operational from summer 2009

On 1 June 2009 a new support service started in Milton Keynes aimed at providing tailored, specialist and technical business expertise to high growth businesses. This sendee will be delivered by an Innovation and Growth Team directed by a consortium of local partners and managed by the Open University. The aim of this service is to create communities of innovation and growth ultimately generating substantial local and regional economic benefits that improve the global competitiveness of the South East.

Continuous Employment Support Service

In the last nine months 12 companies were supported in Milton Keynes, 761 people were helped.

Companies thinking about making staff redundant or undertaking a redundancy programme can access the free 'Continuing Employment Support Service' run by Jobcentre Plus in partnership with SEEDA. CESS offers a free in-house package of support to all affected workers before they leave their employment, offering tailored advice on future options.

Inward Investment

In 2008/09 SEEDA referred 34 inquiries to Invest MK.

SEEDA has an inward investment team who aim to attract business from other countries to locate in the South East.

Manufacturing Advisory Service (MAS)

Between 2006/09 40 companies were assisted through MAS

MAS South East aims to improve the efficiency and effectiveness of manufacturers in the region to create sustainable improvements. Businesses can access hands-on advice and tailored support from experts to suit the individual requirements of their business to produce real results.

Grants for Business Investment (GBI)

There has been one grant offered

The GBI scheme has recently been extended to be available to all South East eligible SMEs with long-term viability whose investment plans are being held up by current economic conditions. The scheme aims to assist businesses to increase productivity by funding capital investment in equipment and technology. It is for businesses looking to expand, modernise, rationalise, diversify and increase productivity in order to maintain or establish sustainable growth and provide skilled jobs.

Grant for Research and Development

There have been and grants for R&D in MK between 2006-09 (totalling £951,000)

The SEEDA managed grants for R&D are focused on encouraging businesses to carry out projects that they would not necessarily undertake without the grant and lever in to these projects finance from reluctant private investment sources.

Finance South East (FSE) Accelerator Fund

One company in Milton Keynes has been offered the accelerator fund

The accelerator fund is a loan fund which supports small and medium sized companies in the South East with the potential for significant growth (early stage or established companies). It is a response to the needs of entrepreneurial businesses who require the level of growth investment provided by risk capital, but which are reluctant to relinquish an equity stake in the company at an early stage.

Commercialisation Fund

One company has been offered the commercialisation fund (worth £29,000)

This new fund of up to £3 million supports businesses with high growth potential to bring new products and services to market.

Transition Loan Fund

The fund has not yet been allocated to any MK businesses

SEEDA is providing up to £3 million in a new Regional Transition Fund known as the Bridging Mezzanine Debt Fund to be directed at fully established, viable and growing businesses that are currently facing difficulties in obtaining credit through banks and other traditional routes.

Funding is provided at commercial rates for these unsecured loans, and interest is rolled up and paid at maturity, thereby making the Fund attractive to some businesses urgently needing to address liquidity problems.

Milton Keynes Area Programme

There were 87 businesses supported between 2006-09

The overall emphasis of interventions within Milton Keynes was capacity building, particularly in line with skills, learning and employability with a focus on NEET young people (not in employment, education or training). The largest project was 'Routes to Success' which was based on the development of transparent progression routes for residents, including outreach links, IAG in local communities, then leading to open days, short skills sessions and courses, finally moving to specialist training.

Rural

There were two Farm Diversification Grants between 2006-09

There were three businesses supported within the European Rural Development programme (ERDP) between 2006-08

£2.4 million has been allocated to the Leader area, however, projects are not yet operational

SEEDA funds rural programmes in Milton Keynes including Farm Diversification and Rural Redundant Building schemes. In addition SEEDA manages £60 million Rural Development Programme for England (RDPE) EU Programme (previously termed ERDP).

The rural Leader programme for Milton Keynes is within the North Buckinghamshire and Milton Keynes area. This wholly EU funded programme is aimed at farmers and forestry diversification with a strong element of community projects.

"Immerse" Initiative

Businesses not yet supported as a new programme

SEEDA is introducing and funding a new programme, Immerse, which provides intensive, extended design support to selected larger businesses. Immerse is part of the 'Designing Demand' programmes.

UKTI International Trade Sector Specialists

These are senior executives seconded to UK Trade and Investment from industry spearheading the Government's export drive, helping small and medium-sized enterprises and larger companies to win business around the world. They are available for free consultations and can offer practical exporting advice, information on specific opportunities in markets and sectors.

Pete Wishart: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in Perth and North Perthshire constituency *(a)* have sought access to funds under and *(b)* are receiving assistance from the Working Capital Scheme. [284202]

Ms Rosie Winterton: None. The working capital scheme provides guarantees to banks on portfolios of short-term loans: businesses cannot apply for guarantees under this scheme.

Pete Wishart: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in Perth and North Perthshire constituency *(a)* have sought access to funds under and *(b)* are receiving assistance from the Enterprise Finance Guarantee scheme. [284203]

Ms Rosie Winterton: The Enterprise Finance Guarantee was launched on 14 January. Set out in the following table is the information for the constituency of Perth and North Perthshire as of 19 August.

Perth and North Perthshire

Number of loans offered	5
Number of loans drawn	4
Value of loans offered (£ million)	0.85
Value of loans drawn (£ million)	0.42

Mike Penning: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in *(a)* Hemel Hempstead and *(b)* Hertfordshire (i) have sought access to funding under and (ii) are receiving assistance from the Working Capital Scheme. [284562]

Ms Rosie Winterton: None. The Working Capital Scheme provides guarantees to banks on portfolios of short-term loans: businesses cannot apply for guarantees under this scheme.

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps the Government have taken to assist small businesses to pay their business rates. [291299]

Ms Rosie Winterton: I have been asked to reply.

On 31 July 2009 the Non-Domestic Rating (Deferred Payments) (England) Regulations 2009 came into force to enable businesses to defer until 2010-11 and 2011-12 payment of 3 per cent. their total 2009-10 business rate bills and, additionally, 60 per cent. of the increase in bills caused by the ending of the transitional relief scheme for the 2005 revaluation period.

Billing authorities sent all ratepayers a flyer about these regulations. This also contained information about the Small Business Rate Relief scheme which allows eligible businesses to claim up to 50 per cent. relief on their rates bills.

Corporate Hospitality

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills how many times the Secretary of State has received hospitality from representatives of the *(a)* automotive, *(b)* aerospace, *(c)* financial services, *(d)* fast moving consumer goods, *(e)* digital media, *(f)* mail service, *(g)* cleantech and *(h)* the music industries since his appointment to post; on what dates such hospitality was received; and who attended each such event. [291358]

Mr. McFadden: My noble Friend the Secretary of State notifies his permanent secretary of any hospitality he receives and as necessary declares it in the Register of Peers' Interests, in accordance with the provisions of the ministerial code.

Departmental Pay

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills how much *(a)* his Department and *(b)* its agencies paid in end-of-year performance bonuses to (i) all staff and (ii) senior Civil Service staff in 2008-09; and how many such payments were made. [275263]

Mr. McFadden: Performance-related pay is designed to help drive high performance and support better public service delivery. Performance awards reward high performance sustained throughout the year, and are non-pensionable and non-consolidated.

Based on the information available, the number of staff receiving these awards is shown in the following table.

	Performance awards SCS[1]		*Performance awards below SCS*[1]	
Financial year[2]	*Number of staff receiving*	*Total value (£)*	*Number of staff receiving*	*Total value (£)*
2008-09	141	1,210,000	2,930	[3]1,114,592

[1] The annual performance awards are paid on a non-consolidated, non-pensionable basis and do not increase the Department's pay-bill costs each year. For the SCS, the Senior Salaries Review Body determines the level of expenditure to cover bonuses.
[2] Financial year running from 1 April to 31 March.
[3] Includes staff who were transferred from BERR to DECC as part of the October 2008 machinery of government changes as these staff received a BERR pay award in 2008.

Performance awards make up 1.8 per cent. of the Department's pay bill of £127,434,847

I have approached the chief executives of the Department's Executive agencies and they will respond to you directly.

Employment Agencies: EU Law

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills what plans the Government has to implement the provisions of the EU Agency Workers Directive in the UK; and what timetable has been set for implementation of those provisions. [290707]

Mr. McFadden *[holding answer 9 September 2009]:* The recent Consultation, which closed on 31 July, invited views on proposals for implementing the Agency Workers Directive in a way which meets the Government's twin objective of ensuring appropriate protection for agency workers while maintaining a flexible labour market. The Consultation also invited views on when the implementing legislation should come into effect, and why. Following the Consultation, we will publish the Government's response setting out how we intend to proceed, and invite views as appropriate, as well as consult on the draft regulations.

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills what discussions he has had with trade union representatives on the EU Agency Workers Directive since October 2008; which trade unions were represented in each such discussion; and on what date each such discussion took place. [290708]

Mr. McFadden *[holding answer 9 September 2009]:* I have had no meetings with trade unions on the specific topic of the EU Agency Workers Directive since October 2008, however, officials have spoken to both the TUC and business organisations in the development of our consultation document on this issue.

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills when the Government plans to announce its decisions following its consultation on the EU Agency Workers Directive. [291236]

Mr. McFadden: Following the consultation which closed on 31 July, we are evaluating all the responses before any key decisions are taken. We will shortly publish the Government's response to the consultation and seek views on draft implementing legislation.

Enterprise Finance Guarantee Scheme

Stewart Hosie: To ask the Minister of State, Department for Business, Innovation and Skills how many applications have been made to the Enterprise Finance Guarantee scheme; and how many of these have met the eligibility criteria. [290804]

Kevin Brennan: As of 12 August, of the over 6,600 cases which have been logged on the Enterprise Finance Guarantee web portal, more than 6,000 firms have been granted, being processed, or assessed, over £680 million. So far, over 4,500 businesses have been offered loans totalling over £450 million.

Businesses may apply for a loan from one of the participating lenders who will assess which form of lending, including the Enterprise Finance Guarantee (EFG), is most appropriate. EFG is open to small and medium enterprises with a turnover of less than £25 million and is designed to operate at the margins of banks' normal lending activity to SMEs, allowing lenders to provide additional loans to viable companies that are at the margins of commercial lending, because they have insufficient security or their proposal involves a higher risk of loss at default.

We do not hold figures for those businesses which are instead offered a normal commercial loan, or are rejected for failing to meet the lender's commercial criteria.

Meetings

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills how many discussions the Secretary of State has had with representatives of the *(a)* automotive, *(b)* aerospace, *(c)* engineering, *(d)* fast moving consumer goods, *(e)* cleantech, *(f)* mail service and *(g)* music industries since his appointment to post; on what dates such discussions took place; and who the industry representatives were on each such occasion. [291356]

Mr. McFadden: My noble Friend the Secretary of State has frequent discussions with representatives of all kinds of business sectors.

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills what the Secretary of State's engagements are for the period 14 to 20 September 2009. [291357]

Mr. McFadden: My noble Friend the Secretary of State has various internal and external engagements in this period.

Overseas Trade: Libya

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills what estimate UK Trade and Investment has made of the number of occasions on which representatives or agents of UK business have had discussions with *(a)* the government of Libya and *(b)* Libyan businesses and their representatives in the last two years. [290820]

Ian Lucas *[holding answer 9 September 2009]:* The information requested is as follows:

(a) UKTI estimates such contacts with the Government of Libya would be in the region of 500 to 1,000.

(b) UKTI's estimate is that such contacts in the last two years would be in the thousands. The British Business Group in Libya now numbers some 100 members, about half of which are resident in Libya. There have been a series of trade missions by UK business associations over the past two years.

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills on how many occasions employees or representatives of UK Trade and Investment have had discussions with representatives or agents of *(a)* the Libyan Government and *(b)* Libyan businesses in the last two years. [290821]

Ian Lucas *[holding answer 9 September 2009]:* The information requested is as follows:

(a) There were UKTI organised visits to Libya by the Duke of York as Special Representative for International Trade and Investment in November 2007, the then Lord Mayor of the City of London in March 2008 and the then Minister of State for Trade and Investment in May 2008, all involved various contacts with the Libyan Government. Mr Shokri Ghanem, Chairman of the Libyan NOC was hosted by UKTI during his visit to the UK in November 2008. UKTI arranged an event in London on 20 July 2009 where Dr Bashir Saleh Bashir, Chairman of the Libyan Africa Investment Portfolio and delegation addressed and met a range of British companies.

There have been regular UKTI visits to Libya, as well as meetings with representatives of the Libyan Government visiting the UK. There have been very regular contacts with the Libyan Government by the UKTI team in Tripoli. It is not possible to place a figure on the number of times there have been such contacts without a very detailed analysis, the costs of which would exceed the limit for answering parliamentary questions.

(b) The UKTI team in Tripoli have several contacts daily with Libyan businesses in the course of their work to support British companies seeking business in Libya. Contacts by other members of UKTI would number around 50 to 100.

Mr. Clifton-Brown: To ask the Minister of State, Department for Business, Innovation and Skills what contribution UK Trade and Investment has made to each ministerial visit to Libya in the last two years. [290822]

Ian Lucas *[holding answer 9 September 2009]:* The then Minister of State for Trade and Investment visited Libya in May 2008. UKTI arranged his programme,

briefing and the follow up. For other ministerial visits the UKTI team in Tripoli assisted with arrangements for relevant parts of the programme and UKTI HQ in London provided standard written background briefing on trade and investment.

Polly Toynbee

Mr. Pickles: To ask the Minister of State, Department for Business, Innovation and Skills what payments his Department and its predecessors have made to Ms Polly Toynbee in the last five years; and for what purposes. [290997]

Mr. McFadden *[holding answer 14 September 2009]:* A payment was made to Polly Toynbee in July 2007 in the sum of £587.50 for chairing the women's Entrepreneur Ambassadors Event at Lancaster House in London.

There are no other recorded payments to her in the last five years.

Mr. Pickles: To ask the Minister of State, Department for Business, Innovation and Skills what payments regional development agencies have made to Ms Polly Toynbee in the last five years; and for what purposes. [290999]

Ms Rosie Winterton *[holding answer 14 September 2009]:* Ms Toynbee chaired the EEDA annual meeting in September 2006. The meeting is an open annual public meeting to report on the activities of the agency. The focus of the event was growth through successful partnerships. A payment of £2,500 was made to an agency.

She was a speaker at the 2007 Prowess Conference at Brighton Racecourse 7-8 February 2007, which was part sponsored by SEEDA. No direct payment was made to her by SEEDA.

Public Sector: Procurement

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what progress his Department has made in implementing the recommendations of the Glover Report on Accelerating the SME economic engine in its procurement processes. [287132]

Ms Rosie Winterton: The Department is working closely with the Office of Government Commerce, who are leading on implementation of the Glover recommendations, to ensure that all 12 are delivered on time and in a way that is effective for SMEs. We expect to deliver the majority of the measures later this year. The recommendation of a free, single, easy-to-search portal is on course to be delivered by 2010.

Regeneration: Finance

Grant Shapps: To ask the Minister of State, Department for Business, Innovation and Skills how much each regional development agency spent on land reclamation projects in each year since 2000; and if he will make a statement. [265242]

Ms Rosie Winterton: The following table shows RDAs expenditure on land reclamation projects in each year since 2000. Figures are not yet available for 2008-09.

The figures provided include funds allocated to the 'Land Reclamation Programmes' inherited by RDAs from English Partnerships and, following their conclusion, any new environmental improvement programmes which have succeeded them.

£ million

RDA	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*

Notes:
1. A new programme management recording system was introduced. To separate out this data would incur disproportionate cost.
2. To separate out this data would incur disproportionate cost.

Support for Business: Finance

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills what the proposed budget is for each programme within the Support for Business portfolio in each year up to 2011. [291365]

Ms Rosie Winterton: Solutions for Business is the Government's portfolio of support to business. 2009/10 is the transitional year during which all Government funded business support schemes must migrate to the Solutions for Business portfolio or be under notice of closure by 31 March 2010.

The amount of money spent on Solutions for Business products varies according to local and regional need for particular forms of business support and the wider economic context. The total spend on business support within the Solutions for Business portfolio in 2008/09 is estimated to be £2.3 billion.

Train to Gain Programme

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills how much has been spent on the Train to Gain advertising campaign in 2009-10. [288844]

Kevin Brennan: Figures for Train to Gain advertising spend are shown in the following table. These comprise national and regional spend, and include VAT. Figures for the current financial year are not yet available.

	Media spend £ million
2006-07	2.24
2007-08	5.02
2008-09	5.01

CABINET OFFICE

Central Office of Information: Expenditure

Mr. Don Foster: To ask the Minister for the Cabinet Office how much the Central Office of Information spent on *(a)* office parties and *(b)* staff bonuses in the last 12 months. [291385]

Angela E. Smith: I have asked the chief executive of the Central Office of Information to reply to the hon. Member.

Letter from Mark Lund, dated 14 September 2009:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your recent Parliamentary Question on how much the COI has spent on (a) office parties and (b) staff bonuses in the last 12 months (291385).

(a) The Central Office of Information (COI) does not hold office parties funded by the organisation, other than those listed below.

An event in the summer is held to coincide with the publication of the Annual Report and Accounts to review the year's activity and to acknowledge any outstanding contributions from staff during the year.

An all staff event is also held at Christmas. This event is seen as an efficient way for the organisation to acknowledge the festive season.

The cost of these events is in line with guidance issued by the HMRC. This guidance states that no more than £150 per person, per year should be spent on such events. In the last 12 months COI spent £42.82 per person.

(b) The COI do not pay a corporate bonus to its employees.

COI paid eligible staff a non-consolidated performance pay award for the 2008/9. This amounted to 5.36% of the regular monthly salary.

This recognised that COI achieved its Ministerial targets for 2008/9 and COI also secured record savings for our government and public sector clients.

Its payment, together with the achievement against the targets, is audited by the National Audit Office.

Charities Act 2006

Jo Swinson: To ask the Minister for the Cabinet Office whether the Charity Commission plans to undertake a review of the implementation of the provisions of the Charities Act 2006. [291332]

Angela E. Smith: Section 73 of the Charities Act 2006 requires the Minister for the Cabinet Office to appoint a person to review the operation of the Act within five years of Royal Assent, and for a report of the review to be laid before Parliament. The review will take place in 2011.

Charities: Fraud

Jo Swinson: To ask the Minister for the Cabinet Office what assessment the Charity Commission has made of the effectiveness of the distribution of the Give With Care leaflet in reducing donations to bogus charities. [291333]

Angela E. Smith: The "Give with Care" campaign was an initiative of the Office of the Third Sector which the Charity Commission supported, along with other key stakeholders. 500,000 leaflets were printed for distribution to households. Neither the Office of the Third Sector nor the Charity Commission plans to formally assess the effectiveness of the distribution of the leaflet.

Death: Hypothermia

Simon Hughes: To ask the Minister for the Cabinet Office what estimate her Department has made of the number of people over 65 years who have died of hypothermia in their homes in each of the last 10 years for which figures are available. [291372]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated September 2009:

As National Statistician, I have been asked to reply to your recent question asking what estimate has been made of the number of people over 65 years who have died of hypothermia in their homes in each of the last 10 years for which figures are available. (291372)

Although hypothermia may be mentioned on a death certificate as contributing to the death, according to International Classification of Diseases rules it cannot be recorded as the underlying cause. An event that led to the death such as 'Exposure to excessive cold', or 'Accidental fall' may be recorded as the underlying cause, with hypothermia recorded as a contributory factor. If hypothermia were considered to be the main contributory factor, it would be reported as the 'secondary cause'.

The table attached provides the number of deaths where (a) hypothermia was the secondary cause of death, and (b) hypothermia was mentioned anywhere on the death certificate, for persons aged over 65 years dying at home, in England and Wales, from 1999 to 2008 (the latest year available).

Table 1: Number of deaths of persons aged over 65 years who died at home, where (a) hypothermia was the secondary cause of death, and (b) where hypothermia was mentioned anywhere on the death certificate[1, 2], England and Wales, 1999 to 2008[3]

		Deaths (Persons)
	(a) Secondary cause	*(b) Any mention*
1999	26	36
2000	15	21
2001	16	27
2002	17	21
2003	18	22
2004	18	26
2005	17	27
2006	15	20
2007	14	21
2008	21	23

[1] Hypothermia was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 991.6 for the years 1999 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code T68, for the years 2001 to 2008.
[2] Deaths reported as (a) secondary cause are included in those reported as (b) any mention.
[3] Figures are for deaths registered in each calendar year.

Employment: West Sussex

Tim Loughton: To ask the Minister for the Cabinet Office how many and what proportion of *(a)* people and *(b)* young people were unemployed in (i) East Worthing and Shoreham and (ii) West Worthing constituency in (A) 2007 and (B) at the latest date for which information is available; and what estimate has been made of the number of employees in each of those constituencies who have moved from full-time to short-time working in the last 12 months. [291340]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated September 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many and what proportion of (a) people and (b) young people were unemployed in (i) East Worthing and Shoreham and (ii) West Worthing constituency in (A) 2007 and (B) at the latest date for which information is available; and what estimate has been made of the number of employees in each of those constituencies who have moved from full-time to short-time working in the last 12 months. (291340)

The Office for National Statistics (ONS) compiles unemployment statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions.

However, estimates of unemployment for the requested geographies are not available. As an alternative, in Table 1 we have provided the number and percentage of persons claiming Jobseeker's Allowance in July 2007 and July 2009. Table 2 contains the number and percentage of persons aged 18-24 claiming Jobseeker's Allowance in the requested geographies.

Estimates of the number of employees who have moved from full-time to short-time working are not available for parliamentary constituencies.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Number of persons resident in East Worthing and Shoreham and Worthing West claiming Jobseeker's Allowance

Government Departments: Consultants

Mrs. Spelman: To ask the Minister for the Cabinet Office what guidance her Department provides to government departments on the appointment of non-party political policy advisers to Ministers who are not special advisers. [291334]

Angela E. Smith: Recruitment into the civil service is based on the principle of selection on merit on the basis of fair and open competition, as outlined in the civil service recruitment principles (known previously as the civil service recruitment code).

Government Departments: Standards

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 27 January 2009, *Official Report*, column 475W, on Government departments: standards, if she will place in the Library a copy of the handouts and presentations produced for the participants in the avoidable contact workshops. [258670]

Mr. Byrne: I have been asked to reply.

The workshop meetings in question were part of a process of dialogue between Cabinet Office officials, representatives of central Government. It is judged that publication of these materials would be prejudicial to the effective conduct of public affairs. It is the intention of the Cabinet Office to publish baseline figures for the four Departments present at this meeting before the end of summer 2009 along with a statement relating to progress in meeting the Service Transformation Agreement commitment of a 50 per cent. reduction in avoidable contact.

Government Departments: Telephone Services

Tom Brake: To ask the Minister for the Cabinet Office if she will meet representatives of mobile telephone companies to discuss reducing the cost of calling Government services from a mobile telephone. [283824]

Mr. Byrne: I have been asked to reply.

The Government recognise that the issue of fair and easy access to public services is a very important one, and the Cabinet Office has already worked with Ofcom to establish the 0300 telephone number range which offers a fairer tariff regardless of the line from which citizens call (including mobiles).

The Cabinet Office, through the Contact Council, is currently conducting a comprehensive survey of the different number types, such as 0845, 0870 or 0800, used by central Government Departments and agencies, including consideration of their mobile telephone access. The Council intends to use the results of its survey to steer a future cross-Government approach to the use of phone numbers that ensures fair and easy access to public services for all, especially the most vulnerable and disadvantaged. Officials leading this work are already engaging with mobile telephone providers. A meeting with Ministers may be appropriate once the Council's research is complete.

Ministers: Visits Abroad

Mr. Hurd: To ask the Minister for the Cabinet Office for what reasons *(a)* paragraph 10.7 and *(b)* paragraph 10.8 of the 2005 Ministerial Code, on overseas visits, were removed when the Ministerial Code was revised in 2007. [291056]

Tessa Jowell: The Ministerial Code published in July 2007 focuses on the key principles that should govern Ministerial conduct so that Ministers and others can be clear about the standards required.

Polly Toynbee

Mr. Pickles: To ask the Minister for the Cabinet Office what payments Ms Polly Toynbee has received from her Department in the last five years; and for what purposes. [291215]

Angela E. Smith: There is no record in the Department's accounting system of any payments made to Ms Toynbee over the last five years.

Origin Marking: Israel

Martin Linton: To ask the Minister for the Cabinet Office if her Department will publish the voluntary guidance issued by her Department on the labelling of goods produced in Israeli settlements in the Occupied Palestinian Territories. [291395]

Huw Irranca-Davies: I have been asked to reply.

The Government have been exploring the possibility of improving the clarity of labelling of produce from the West Bank. Earlier this year, the Cabinet Office held a meeting with a group of interested parties to discuss the possibility of introducing some voluntary guidance, so that consumers could better understand which products came from occupied Palestinian territories. The Government are carefully considering the next steps following that discussion.

COMMUNITIES AND LOCAL GOVERNMENT

Conservatories

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many dwellings in England have a conservatory. [291274]

John Healey: The latest data available is from the 2006 English House Condition Survey, which estimates there are 3.4 million dwellings (16 per cent. of the total stock) in England with a conservatory.

To count as a conservatory in the survey, the roof must be at least 75 per cent. glass or plastic and the walls must be at least 50 per cent. glass or plastic.

Council Housing: Fire Prevention

Simon Hughes: To ask the Secretary of State for Communities and Local Government what assistance has been provided to local authorities for expenditure on fire safety measures in council housing following the Lakanal House fire in Camberwell. [291159]

John Healey: The resources local authorities receive for management and maintenance and major repairs should enable them to implement necessary fire safety measures in council housing.

Council Housing: Waiting Lists

Mr. Soames: To ask the Secretary of State for Communities and Local Government how many and what proportion of people on local authority housing waiting lists had been born outside the UK in each year since 1994. [291207]

John Healey: This information is not collected centrally.

Council Tax: Valuation

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government under what circumstances the Valuation Office Agency classifies a garden shed as an outbuilding for the purposes of its value significant and dwellinghouse coding system for council tax valuations. [291052]

Ms Rosie Winterton *[holding answer 14 September 2009]:* The Valuation Office Agency does not classify a garden shed as an outbuilding for the purposes of its value significant and dwellinghouse coding system.

Energy Performance Certificates

Alan Simpson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 1 September 2009, *Official Report*, columns 1837-8W, on housing: energy, how many energy performance certificates in respect of properties *(a)* of each tenure type and *(b)* in each region have been issued to date. [291114]

John Healey: The number of energy performance certificates (EPCs) registered for all homes in England and Wales up to and including 9 September 2009 (the latest date for which figures are available) and broken down by tenure type and region is as set out in the following table.

Transaction type	*Eastern region*	*East midlands*	*London*	*North-east*	*North-west*	*South-east*	*South-west*	*West midlands*	*Yorkshire and Humber*	*Wales*
Marketed sale	88,562	65,951	86,443	37,573	99,442	130,358	90,312	73,427	73,155	44,606
New dwelling	5,514	4,901	4,521	1,782	5,168	7,711	6,054	3,856	3,703	2,945
Not recorded	2,156	1,868	2,460	1,009	3,064	4,841	1,946	1,206	1,598	610
Non-marketed sale	2,851	2,736	3,697	3,125	7,313	4,384	2,960	2,953	3,508	1,108
Not recorded	116,707	85,393	137,289	56,746	149,493	179,032	124,020	90,837	102,404	47,043
Not sale or rental	346	355	1,407	136	653	1,103	254	269	384	144
Rental (private)	75,217	57,340	142,702	27,946	75,997	123,075	72,038	53,772	62,049	26,092
Rental (social)	30,604	26,471	45,213	26,669	54,783	37,023	22,296	38,475	34,746	15,037

Note:
These figures exclude a small number of homes for which no postcode information was included at the time that the EPC was lodged on the register.

Grant Shapps: To ask the Secretary of State for Communities and Local Government with reference to page 41 of his Department's proposed recast of the Energy Performance of Buildings Directive, how many individual energy performance certificates have been checked and verified for accuracy to date; and how many and what proportion of such checks identified an inaccuracy in the certificate. [291152]

John Healey: Accreditation schemes are responsible for conducting quality audits of the energy performance certificates (EPCs) produced by the energy assessors (EAs) they accredit in accordance with CLG requirements—we recommend that a minimum sample of 2 per cent. of all EPCs should be assessed. Accreditation schemes are required to report on the outcome of their quality audit procedures in the annual reports they submit to CLG and which can be viewed online at the following address:

https://www.ndepcregister.com/schemeAnnualReports.html

Grant Shapps: To ask the Secretary of State for Communities and Local Government with reference to paragraph 64 on page 41 of his Department's publication on Recast of the Energy Performance of Buildings Directive, what procedures are used to verify the accuracy of energy performance certificates. [291266]

John Healey: Accreditation Schemes are responsible for conducting quality audits of the energy performance certificates (EPCs) produced by the energy assessors (EAs) they accredit in accordance with CLG requirements as set out in the guidance document which can be viewed online at:

http://www.communities.gov.uk/documents/planningandbuilding/doc/newlyconstructeddwellings.doc

Grant Shapps: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the response sent by the Energy Saving Trust to his Department's consultation The Next Steps: EPCs and the establishment of the Green Homes Service. [291273]

John Healey: A copy of the Energy Savings Trust's response to the Consultation Paper "The Next Steps: EPCs and the establishment of the Green Homes Service" has been placed in the Library of the House.

Energy Performance Certificates: East Midlands

Alan Simpson: To ask the Secretary of State for Communities and Local Government how many energy performance certificates have been issued in relation to buildings in the East Midlands; how many accredited energy assessors there are in the East Midlands; and how many properties in the East Midlands do not meet required energy performance standards. [291051]

John Healey: Up to and including 9 September, the latest date for which figures are available, the number of:

Energy performance certificates (EPCs) lodged in relation to buildings in the east midlands region is 250,707; and

Accredited energy assessors whose primary postcode information is listed on the EPC Register as being in the east midlands region is 1,214.

The Government have not set minimum energy performance standards other than for new buildings, all of which are required to meet the requirements of Part L of the Building Regulations.

Housing: Disabled People

Simon Hughes: To ask the Secretary of State for Communities and Local Government what steps the Government is taking to increase the number of newly-built, disability-adapted properties; and if he will make a statement. [291373]

John Healey: The National Strategy for Housing in an Ageing Society last year stated that all new publicly funded homes will be built to Lifetime Homes Standards from 2011. We will be reviewing the take-up of accessible housing standards, such as Lifetime Homes Standards, across all sectors in 2010. We will decide at that time whether further measures may be required to increase the supply of accessible and adaptable properties in new build housing. In the meantime, we continue to promote the Lifetime Homes Standards as a part of the Code for Sustainable Homes where they are currently mandatory at Code level 6.

Housing: Low Incomes

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many homebuyers have received assistance under the HomeBuy Direct Scheme. [291235]

John Healey: Provisional estimates put completed sales under the HomeBuy direct scheme at over 600 sales.

Housing: Public Participation

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the hon. Member for Meriden of 21 July 2009, *Official Report*, column 1662W, on LLM Communications, in which *(a)* regions and *(b)* localities the regional housing debates were held. [291272]

John Healey: The regional housing debates were held in the following regions and locations:

An East of England debate took place in Cambridge on 26 October 2006;

A South East of England debate took place in Reading on 22 February 2007;

A South West of England debate took place in Bristol on 29 March 2007;

And the final debate took place in London on 24 July 2007.

Housing: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many properties with each *(a)* dwellinghouse and *(b)* value significant code in the local authority area of Solihull are recorded on the Valuation Office Agency's electronic records. [291087]

Ms Rosie Winterton *[holding answer 14 September 2009]:* The number of domestic properties with the codes requested, as at 2 September 2009, in the local authority area of Solihull is as follows:

(a) Dwellinghouse codes (group type)

Dwellinghouse code	*Number of properties*
01	291

London City Airport: Public Consultation

Harry Cohen: To ask the Secretary of State for Communities and Local Government if he will undertake an investigation into whether Newham Council followed appropriate procedures for consulting residents affected by proposals to increase the number of flights using London City Airport. [291367]

John Healey: It is for Newham council, as local planning authority, to decide the extent to which local residents are consulted about planning applications. This is set out in their Statement of Community Involvement.

Mortgages: Government Assistance

Mr. George Osborne: To ask the Secretary of State for Communities and Local Government how many households are participating in the Homeowners Mortgage Support Scheme; and how many households have used the scheme since 3 December 2008. [291224]

John Healey: Homeowners Mortgage Support was launched in April 2009 as part of the range of support available at every stage for households struggling with their mortgage. We aim to publish information on households who have been helped through Homeowners Mortgage Support later this year.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many households have received assistance under the Mortgage Rescue Scheme. [291234]

John Healey: The Mortgage Rescue Scheme has been operational across England since January 2009. As part of the monitoring arrangements for the scheme, headline data provided by local authorities operating the scheme and broken down by Government Office Region, are available on the Department's website. The figures can be assessed using the following link:

http://www.communities.gov.uk/publications/corporate/statistics/mortgagerescuestatistics

Non-Domestic Rates: Empty Property

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will undertake a cumulative impact assessment on business rates in 2010-11 of the 2010 rates revaluation in empty property rates threshold changes supplementary rates in respect of Crossrail with post-revaluation rateable values and deferred increases from 2009-10. [291086]

Ms Rosie Winterton *[holding answer 14 September 2009]:* There are no plans to undertake a cumulative impact assessment. Impact assessments relating to individual policy changes to the business rates system will be published alongside the implementing regulations.

Non-Domestic Rates: Ports

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government if he will publish instructions given by Ministers to the Valuation Office Agency since 1999 on the separate business rating of port businesses; and in cases where separate rating was introduced, on what date *(a)* that separate rating took effect and *(b)* the existing system of paying business rates for those businesses was stopped. [291226]

Ms Rosie Winterton: I refer my hon. Friend to the answer I gave him on 20 July 2009, *Official Report*, column 824W. Ministers at Communities and Local Government or its predecessor departments have not given any instructions to the Valuation Office Agency on the separate rating of properties within or outside of Ports.

The principles concerning separate rateability of properties where there is "exclusive occupation" and "paramount control" are long established and have not been recently introduced by the Government. The leading case on the subject is a House of Lords decision from 1936—Westminster Council v. Southern Railway Company and W.H. Smith and Son.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government what recent representations he has received on retrospective payments of business rates by port businesses from *(a)* foreign governments, *(b)* ferry operators, *(c)* car importers, *(d)* port businesses, *(e)* hon. Members with ports in their constituencies and *(f)* local authorities with ports in their areas. [291227]

Ms Rosie Winterton: The Department for Communities and Local Government has received correspondence from:

(a) no foreign governments;

(b) no ferry operators;

(c) one car importer;

(d) four port businesses;

(e) 12 hon. Members; and

(f) no local authorities with ports in their areas,

concerning the issues arising from the rating review of ports since 1 July 2009.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government how many applications have been made by port businesses for a fast-track review of their new business rating assessments; how many reviews have *(a)* been begun and *(b)* completed; and what changes have been made as a result of each completed review. [291228]

Ms Rosie Winterton: As at 9 September 2009, the Valuation Office Agency has applied the fast track arrangements to 703 appeals made by port businesses, 355 of which relate to new business rating assessments with an effective date of 1 April 2005.

Of the 355 appeals, 154 have now been settled, 48 by agreement and 106 withdrawn. Where agreement has been reached this has resulted in a reduction in the rateable value. The outstanding appeals are in various stages of discussion depending on the facts of each case.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government how many port businesses have *(a)* made and *(b)* not made payments towards (i) their new rating assessments and (ii) their retrospective payments back to 2005; and how many in each case have applied to use the scheme for staging retrospective payments. [291229]

Ms Rosie Winterton: The Government do not hold information on individual payments of ongoing business rates liabilities. With regard to the backdated business rates liabilities for the port properties affected by the Valuation Office Agency review of rating, local authorities have reported that businesses occupying 209 properties within ports have fully paid their backdated liabilities and that businesses occupying a further 201 properties have been granted a schedule of payments.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government when he expects to complete his review of retrospective payments of business rates from port businesses newly assessed for business rates. [291230]

Ms Rosie Winterton: No time frame has been set for completion of a review.

Public Expenditure

Grant Shapps: To ask the Secretary of State for Communities and Local Government what analysis of his Department's expenditure by parliamentary constituency has been commissioned in the last 12 months. [291151]

Ms Rosie Winterton *[holding answer 14 September 2009]:* No analysis of the Department's expenditure by parliamentary constituency has been commissioned in the last 12 months.

CULTURE, MEDIA AND SPORT

Betting: Internet

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what steps his Department takes to inform consumers of the jurisdiction in which individual betting websites are licensed. [291341]

Mr. Bradshaw: Remote gambling operators licensed by the Gambling Commission are subject to strict operating conditions, including the requirement to display on their website their licensed status, licence number and a link to the Gambling Commission's website. Operators are also required to clearly distinguish which parts of their website or link from their website are regulated by the Commission from those which are not.

The Secretary of State currently has limited power to require websites run by operators licensed overseas to state the jurisdiction in which they are licensed.

My Department is currently conducting a review of the existing system of remote gambling regulation in Great Britain, and the review's findings will be announced to Parliament before the end of the year.

English Folk Dance and Song Society

Bob Russell: To ask the Secretary of State for Culture, Media and Sport whether he has had discussions with the English Folk Dance and Song Society on inclusion of England's traditional folk dances as an option within the dance programme to be promoted by the recently-appointed Dance Tsar; and if he will make a statement. [291287]

Mr. Mike O'Brien: I have been asked to reply.

We have recently announced the establishment of the Dance Champions Group as set out in Physical Activity Plan, "Be active, be healthy" published earlier in the year. We are also planning to launch the group in the autumn.

The English Folk Dance and Song Society is represented by the Central Council for Physical and Recreational on the Dance Champions Group.

Horse Racing: Betting

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what assessment has been made of the effects on the Horserace Betting Levy Board 49th Levy scheme of the location by betting operators of parts of their operations overseas. [291240]

Mr. Bradshaw: No formal assessment has been made by my Department. The Levy Board's own assessment of the impact is in the region of a potential loss of £4.2 million to the 49th Levy scheme.

We support the Levy Board's aim of securing contributions from gambling operators to ensure the continued health of racing. The Department's Review of remote gaming, which is examining this issue along with many others, will report to Ministers by the end of the year who will report the findings to Parliament.

Swimming

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport (1) how many local authorities are providing free swimming for over 60 year-olds; [291390]

(2) how many local authorities in England are seeking to introduce free swimming for under 16 year-olds. [291391]

Mr. Simon: 259 local authorities in England have opted into the Free Swimming programme for those aged 60 and over; 190 local authorities have agreed to take part in both the aged 60 and over and 16 and under elements of the Free Swimming programme.

DEFENCE

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 23 June 2009, *Official Report*, column 743W, on armed forces: training, what the percentage shortfall of each type of armoured vehicle used for pre-deployment training was in the latest period for which figures are available. [289097]

Bill Rammell: Our priority is to get new equipment to the front line as quickly as possible for use by personnel facing the greatest danger. However, we look to ensure that whenever possible new equipment is also provided for troops during pre-deployment training so that they can use it safely and effectively on arrival in theatre. In practice, where shortfalls occur due to prioritising equipment to the front line, sufficient equipment is still made available for training to ensure personnel meet the minimum safety and operating standards. We have recently introduced measures to reinforce this, and all Urgent Operational Business cases now include a clear requirement that sufficient numbers of pre-deployment vehicles are procured and delivered for training before they are deployed operationally.

The last period for which figures are available was the Mission Rehearsal Exercise for 11 (Light) Brigade in July 2009. The availability of armoured vehicles for this period was as follows:

Snatch-Vixen: 100 per cent.
Ridgback: 34 per cent.
Mastiff: 54 per cent.
Vector: 53 per cent.
Warrior: 100 per cent.
Viking: 18 per cent.
CVR(T): 100 per cent.
Panther: 100 per cent.

Armed Forces: Uniforms

Mr. Holloway: To ask the Secretary of State for Defence what procedures were used to establish the requirement for the future army dress; what the estimated cost of its introduction and procurement is; whether he has received any representations about the quality of tailoring of the dress; and if he will make a statement. [291412]

Bill Rammell: In 2003, the Army Board directed that the Army's orders of dress were to be reviewed with a view to updating the current suite of uniforms which had been designed in the 1960s. In 2005, the Army Board accepted the recommendations of the review and directed that the uniforms were to be produced.

Future Army Dress is funded from within the existing clothing budget and will cost approximately £9.7 million.

The uniform is produced in the UK, using modern manufacturing processes, and we have received no defect reports to date.

Guided Weapons: Testing

Mr. MacNeil: To ask the Secretary of State for Defence how many times UK forces undertook missile firing tests in the Falkland Islands in each of the last 10 years; and what missiles were fired on each occasion. [291292]

Bill Rammell: The MOD does not test missiles in the Falkland Islands. However, training exercises are conducted which include firing live missiles against aerial targets.

Mr. MacNeil: To ask the Secretary of State for Defence who is responsible for deciding where missile testing is carried out. [291293]

Bill Rammell: Missile testing is conducted on behalf of individual project teams who have the opportunity to select the trial venue based on criteria such as suitability for the trial in questions, availability, and cost.

However, in order to secure value-for-money, projects are expected to use one of the facilities provided under the Long Term Partnering Agreement between MOD and QinetiQ and look elsewhere only if these are unable to meet their requirements.

NIDAR Radar System

Mr. MacNeil: To ask the Secretary of State for Defence on how many occasions the NIDAR radar system on St. Kilda has been used in each of the last seven years. [290694]

Mr. Quentin Davies *[holding answer 9 September 2009]:* Details for NIDIR Radar usage on the island of St. Kilda during the past seven years are as follows:

Date	*NIDIR radar runs*
2003	69
2004	13
2005	32
2006	67
2007	50
2008	17
2009	[1]14

[1] To date

Nuclear Submarines

Mr. Weir: To ask the Secretary of State for Defence pursuant to the answer of 2 April 2009, *Official Report*, column 1400W, to the hon. Member for Moray, on nuclear submarines, on what nuclear submarines the 21 medium scale fires were reported; what the location was of each such submarine at the time of the fire; and when each fire occurred. [290794]

Bill Rammell: Royal Navy submarines are operated to the highest possible safety standards. Personnel are rigorously trained to deal efficiently and effectively with all safety incidents.

Three fires requiring both ship and external resources are recorded as occurring on Royal Navy submarines since 1 January 1987. Details of these are provided in the following table:

Vessel	*Location where fire took place*	*Date of fire*
HMS Renown	Clyde	17 February 1992
HMS Turbulent	Devonport	30 April 1992
HMS Trafalgar	Devonport	24 October 2003

In the same time period, there were 20 medium scale fires and details of these are provided in the following table.

Vessel	*Location where fire took place, if known*	*Date of fire*
HMS Courageous	Alongside	10 December 1984
HMS Sceptre	Not recorded	29 July 1987
HMS Conqueror	Alongside	26 August 1987
HMS Renown	Not recorded	15 November 1987
HMS Renown	Clyde	10 October 1988
HMS Valiant	Clyde	5 August 1989
HMS Valiant	Alongside	22 December 1989
HMS Trenchant	At sea	21 November 1991
HMS Spartan	At sea	3 November 1992
HMS Tireless	At sea	11 January 1993
HMS Revenge	At sea	29 July 1993
HMS Tireless	Alongside	22 October 1993
HMS Sovereign	Rosyth	7 April 1994
HMS Sovereign	Rosyth	22 August 1995
HMS Victorious	Alongside	16 October 1995
HMS Talent	Devonport	18 January 1999
HMS Sovereign	Clyde	17 June 2001
HMS Victorious	At sea	22 April 2002
HMS Vigilant	Clyde	11 October 2006
HMS Tireless	At sea	21 March 2007

For those incidents where the vessel was either 'alongside' or 'at sea', the exact location of the vessel is not recorded centrally.

On behalf of the Secretary of State for Defence, I have written to the hon. Member for Moray (Angus Robertson) to correct the previous statement made on this subject—2 April 2009, *Official Report*, column 1400W.

Angus Robertson: To ask the Secretary of State for Defence what reactor design has been selected by the Strategic Deterrent Programme Board for the successor submarine; what other decisions have been made by the Board in 2009; and what further decisions are scheduled to be made by the Board prior to May 2010. [291178]

Bill Rammell *[holding answer 14 September 2009]:* A decision on reactor design for the future deterrent has not yet been taken. Like other key decisions on the future deterrent, this decision will ultimately be taken by Ministers. The Defence Board will consider the work required during the Concept Phase later this year.

Angus Robertson: To ask the Secretary of State for Defence whether the programme to build the successor to the Vanguard class submarine is on schedule; and when the initial gateway decision for the programme will be made. [291177]

Bill Rammell *[holding answer 14 September 2009]:* The In Service Date is planned for 2024, as set out in the 2006 White Paper. The Defence Board will consider the work required during the Concept Phase later this year.

Unmanned Air Vehicles

Stewart Hosie: To ask the Secretary of State for Defence what additional unmanned air systems his Department plans to purchase with funds from the Urgent Operational Requirement budget for 2009-10. [290786]

Mr. Quentin Davies *[holding answer 9 September 2009]:* We have no current plans to purchase further unmanned air systems under the Urgent Operational Requirement mechanism in the current financial year.

ENERGY AND CLIMATE CHANGE

Carbon Trust: Stoke-on-Trent

Joan Walley: To ask the Secretary of State for Energy and Climate Change what funding the Carbon Trust has provided to *(a)* local authorities, *(b)* NHS organisations and *(c)* higher and further education institutions in Stoke-on-Trent North constituency since its establishment. [290817]

Joan Ruddock *[holding answer 9 September 2009]:* The Carbon Trust has worked with a range of public sector organisations in Stoke-on-Trent including schools, local authorities and NHS organisations to provide carbon management and energy efficiency advice.

The Carbon Trust has advised me that it is not possible to provide a funding breakdown at a constituency level.

Energy: Housing

Robert Neill: To ask the Secretary of State for Energy and Climate Change what representations the Energy Saving Trust made for *(a)* an increase in council tax in respect of and *(b)* a prohibition upon the sale or rent of homes with an F to G energy efficiency rating. [291210]

Joan Ruddock: The Energy Saving Trust have made no representations for an increase in council tax in respect of, or a prohibition upon, the sale or rent of homes with an F to G energy efficiency rating.

From autumn, the Energy Saving Trust will be able to contact people moving into homes rated F and G on the Energy Performance Certificate to give free, impartial energy efficiency advice. EST's research shows home owners can move EPC grade by doing non-major energy saving improvements starting for less than £1,000. There are schemes such as council tax discounts already available to encourage householders to undertake energy efficiency

improvements to their homes, a number of which are motivated by energy suppliers in support of their Government obligated carbon emissions reduction target.

Fuel Oil: Prices

Harry Cohen: To ask the Secretary of State for Energy and Climate Change what assessment has been made of the potential effects of a petrol embargo on Iran on the UK economy, with particular reference to oil prices. [291269]

Mr. Kidney: As part of DECC's responsibility for the security of energy supplies, we assess a range of supply disruption scenarios, including disruptions to Iranian petroleum exports. However, the content of this analysis is market sensitive and cannot therefore be made public.

Fuel Poverty: Pensioners

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what recent estimate his Department has made of the *(a)* number and *(b)* percentage of pensioners living in fuel poverty; and if he will make a statement. [291374]

Mr. Kidney: The Department's latest estimates for fuel poverty are for 2006, available online at:

http://www.decc.gov.uk/en/content/cms/what_we_do/consumers/fuel_poverty/strategy/annual_report/annual_report.aspx

These show that in 2006, there were around 2.4 million households in fuel poverty in England. Of those, around 1.3 million contained somebody over the age of 60, around 17 per cent. of all households containing somebody over 60.

Fuel poverty statistics are published at the household level and are not calculated at an individual person level. Figures on the number and percentage of individual pensioners in fuel poverty are therefore unavailable.

Nuclear Power

Tim Farron: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the efficiency of high burn-up fuel used in nuclear power plants. [291346]

Mr. Kidney: The Department has not assessed the efficiency of different burn-up[1] levels for nuclear fuels.

The fuel and its burn-up efficiency is a matter for the commercial operators to address, whilst ensuring that regulatory requirements are met.

[1] Burn-up is measured by the amount of energy extracted for a given mass of uranium-units GWd/tU.

Warm Front Scheme

Bob Spink: To ask the Secretary of State for Energy and Climate Change what criteria are used under the Warm Front scheme to determine whether households are in fuel poverty; and if he will make a statement. [291264]

Mr. Kidney: To be eligible for Warm Front the applicant or their spouse must be a homeowner or tenant in the private sector and in receipt of a qualifying disability or income related benefit.

These qualification criteria were selected because they were considered to provide an effective proxy for assessing the likelihood of an applicant being at risk of fuel poverty.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Calor Gas: Canvey Island

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions his Department has had with Calor Gas on the designation and provision of a receiving tank as an overfill receiver for its Canvey Island liquefied natural gas terminals; and if he will make a statement. [290857]

Huw Irranca-Davies *[holding answer 9 September 2009]:* DEFRA has not had any discussions with Calor Gas on the designation and provision of a receiving tank as an overfill receiver for its Canvey Island LNG terminals.

The Environment Agency and the Health and Safety Executive (HSE) are the joint competent authorities for regulation of the Canvey Island Calor Gas site under the Control of Major Accident Hazards Regulations (COMAH). I understand the hon. Member has had a number of recent discussions with the HSE about the safe operation of this site.

Cattle: Animal Welfare

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the percentage of dairy cows which are kept in zero-grazing conditions. [291386]

Huw Irranca-Davies: No official estimates are available, though previous industry estimates indicate about 5 per cent. of herds have some cattle that are housed all year round.

Departmental Public Expenditure

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to his Department of the *(a)* Committee of Investigation for Great Britain, *(b)* Expert Group on Cryptosporidium in Water Supplies, *(c)* Family Food Committee, *(d)* Financial Management and Policy Review of the Commons Commissioners, *(e)* Hill Farming Advisory Committee, *(f)* National Expert Group on Transboundary Air Pollution, *(g)* National Rural Development Forum, *(h)* National Statistics Quality Review on Sustainable Farming and Food Regulation Task Force, *(i)* Review of Fishing Vessel Licensing, *(j)* Review of Funding Mechanisms for Food and Coastal Defence, *(k)* Review of Marine Nature Conservation Working Group Science Advisory Group, *(l)* Sustainable Consumption and Production Business

Taskforce, *(m)* Sustainable Development Taskforce, *(n)* Sustainable Farming and Food Implementation Group and *(o)* Sustainable Farming and Food Research Priorities Group in each of the last five years. [291099]

Huw Irranca-Davies *[holding answer 14 September 2009]*: The following table sets out the costs of a number of the bodies listed. Officials are currently preparing figures covering the remaining bodies and I will write to the hon. Member with this information when it is available.

£000

Body	2004-05	2005-06	Actual 2006-07	2007-08	2008-09
(a) Committee of Investigation for Great Britain[1]	0	0	0	0	0
(d) Financial Management and Policy Review of the Commons Commissioners[2]	0	0	0	0	0
(e) Hill Farming Advisory Committee[3]	0	0	0	0	0
(f) National Expert Group on Transboundary Air Pollution[4]	0	0	0	0	0
(k) National Statistics Quality Review on Sustainable Farming and Food Regulation Task Force[5]	0	0	0	0	0
(l) Review of Fishing Vessel Licensing[6]	0	0	0	0	0
(j) Review of Funding Mechanisms for Flood and Coastal Defence[7]	0	0	0	0	0
(k) Review of Marine Nature Conservation Working Group Science Advisory Group[8]	0	0	0	0	0
(l) Sustainable Consumption and Production Business Taskforce[9]	0	0	275	339	0

[1] The committee was dormant before the start of the period covered by this table and was disbanded in 2006.
[2] All costs were incurred prior to the period covered by this table.
[3] The committee was dormant before the start of the period covered by this table and was disbanded in 2006.
[4] The Group published its final report in 2001 and disbanded.
[5] All costs were incurred prior to the period covered by this table.
[6] The Fishing Vessel Licence Review Working Group (LRWG) published one report in the period covered by the table, in 2006. Costs to the Department were minimal.
[7] All costs were incurred prior to the period covered by this table.
[8] The final report of this Group was published in July 2004. Costs were minimal.
[9] The Taskforce was established in February 2006. It completed its work and was disbanded in March 2008.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer to the hon. Member for Bromley and Chislehurst of 17 November 2008, *Official Report*, column 98W, on domestic waste, if he will place in the Library a copy of each document provided by Chelgate for the Waste and Resources Action Programme as part of its contract. [291306]

Dan Norris: I refer the hon. Member to the answer my right hon. Friend the Member for Liverpool, Wavertree (Jane Kennedy) gave to the hon. Member for Bromley and Chislehurst (Robert Neill) on 6 March 2009, *Official Report*, column 1880W.

The requested data concerns the detailed operational activities of the Waste and Resources Action Programme (WRAP), and is not therefore held by DEFRA.

Flood Control: Sheerness

Derek Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs when the effectiveness of the sea defences at Sheerness was last assessed. [291239]

Huw Irranca-Davies: The Environment Agency carried out its annual inspection of the sea defences at Sheerness in late February. The rock groyne and rock face of the sea wall were found to be in good repair. The defences are designed to provide those living and working in the area with a 1 in 200 year standard of protection, a 0.5 per cent. chance of flooding in a year. This is the standard level of protection to which new sea defences are constructed.

Non-Departmental Public Bodies

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to his Department in *(a)* 2009, *(b)* 2010 and *(c)* 2011 of each non-departmental body it sponsors. [291098]

Huw Irranca-Davies *[holding answer 14 September 2009]*: The following table sets out the budgets—comprising administration, programme and capital spend—of the Executive and Tribunal Non-Departmental Public Bodies (NDPBs), Public Corporations and other bodies sponsored by the Department in the years *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11.

Officials are currently preparing a set of figures covering the remaining NDPBs sponsored by the Department, including Advisory NDPBs. I will write to the hon. Member with this information when it is available.

£ million

Body	2008-09 Actual	2009-10 Budget	2010-11 Budget
Executive Non-Departmental Public Bodies			
Agricultural Wages Board for England and Wales	0.16	0.20	0.20
Agricultural Wages Committee	0.01	0.01	0.01
Agriculture and Horticulture Development Board[1]	0.00	0.00	0.00

Body	2008-09 Actual	2009-10 Budget	£ million 2010-11 Budget
Commission for Rural Communities	6.30	6.40	6.08
Consumer Council for Water[2]	0.00	0.00	0.00
Environment Agency[3]	715.70	762.60	799.90
Food From Britain[4]	10.70	0.00	0.00
Gangmasters Licensing Authority	3.12	4.29	4.02
Joint Nature Conservation Committee[5]	1.90	1.90	1.87
National Forest Company	3.60	3.60	3.51
Natural England[6]	223.74	213.46	168.23
Royal Botanic Gardens, Kew	26.60	28.50	25.50
Sea Fish Industry Authority	0.30	0.28	0.27
Sustainable Development Commission	2.88	3.06	2.00
Tribunal Non-Departmental Public Bodies			
Agricultural Land Tribunal (England)	0.04	0.28	0.28
Plant Varieties and Seeds Tribunal[7]	0.00	0.00	0.00
Public Corporations			
British Waterways[8]	62.65	58.34	48.55
Covent Garden Market Authority[9]	0.00	0.00	0.00
Other Bodies			
British Wool Marketing Board[10]	0.00	0.00	0.00
National Park Authorities and the Broads Authority	46.72	47.58	48.89

[1] The Agriculture and Horticulture Development Board is industry-funded.
[2] The Consumer Council for Water (CCW) is funded by water consumers through a charge to water and sewerage companies in England and Wales by Ofwat. The amount is then passed to DEFRA and the Welsh Assembly Government (joint sponsor) to fund CCW's operations.
[3] Excludes Closed Pension Fund. £20 million of capital grant was brought forward from 2010-11 to 2009-10 for flood risk management work as part of the Government's fiscal stimulus initiative.
[4] The body was closed on 31 March 2009.
[5] Represents costs only of DEFRA-funded JNCC work on reserved matters such as marine work beyond territorial waters, overseas territories and international conventions. Further funding is received from the Devolved Administrations.
[6] Represents DEFRA core funding including (other than for 2010-11 where these are not yet due to be addressed) annually agreed elements for cost neutral recharges for common services such as IT and HR support.
[7] The Plant Varieties and Seeds Tribunal is not currently active.
[8] £5 million of capital grant was brought forward from 2010-11 to 2009-10 for infrastructure projects under the Government's fiscal stimulus initiative.
[9] The Covent Garden Market Authority is industry-funded.
[10] The British Wool Marketing Board is self-funded through the sale of graded wool.

Origin Marking: Israel

Martin Linton: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable he has set for consultation on the labelling of goods originating in Israeli settlements. [291396]

Huw Irranca-Davies: The Government have been exploring the possibility of improving the clarity of labelling of produce from the West Bank. Earlier this year, the Cabinet Office held a meeting with a group of interested parties to discuss the possibility of introducing some voluntary guidance, so that consumers could better understand which products came from occupied Palestinian territories. The Government are carefully considering the next steps following that discussion.

Water Charges

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the proposed charge allowed by Ofwat for water companies in the 2009 Price Review is for *(a)* staff costs and *(b)* other costs. [291352]

Huw Irranca-Davies: The table sets out what Ofwat has assumed in its draft determinations for water companies' employment costs and other operating expenditure for all water companies in England and Wales for the period 2010 to 2015.

	Costs (£ million)
Employment costs	2,194.9
Other operating expenditure	16,268.3
Total	18,463.2

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Elections

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether the recent elections in Afghanistan were free and fair. [291267]

Mr. Ivan Lewis: The 20 August 2009 Presidential and Provincial Council elections in Afghanistan were the first Afghan-run elections for over 30 years. That the insurgents were unable to disrupt this important day is a tribute to the Afghan National Security Forces and the North Atlantic Treaty Organisation's International Security Assistance Force. The Afghan people want and deserve the right to decide the future of their country and we and the international community are committed to helping them achieve this. Credible elections, that represent the will of the people, demonstrate that the Afghan Government have the authority to rule.

We and the rest of the international community are following the elections result process closely. There have been allegations of fraud but it is important that we wait for the Election Complaints Commission to complete their investigation processes into allegations of fraud, and for the election observation missions to report their conclusive findings. In this intervening period, we call on all parties to exercise patience and respect the process for which so many Afghans made their support clear on polling day.

The UN, the relevant Afghan authorities and international observation missions have taken every possible measure to prevent fraud. The Afghan Independent Election Commission, the UN and the international community worked hard to ensure that there was a level playing field for candidates, and that these elections could be as credible and inclusive as possible. Multiple safeguards such as photographs and fingerprints were in place to minimise fraudulent registration and voting.

There were over 400 international observers on the ground, including 100 from the EU. 7,000 independent monitors were also registered with the Independent Electoral Commission by the Afghan Free and Fair Elections Association. The UK has helped fund election observation missions and 23 of our staff participated in the EU observation mission.

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions on the subject of Mr. Al-Megrahi he has had with the Scottish Executive Justice Minister in 2009. [291327]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not had any discussions with the Scottish Executive Justice Minister on the subject of Mr. Al-Megrahi.

Africa: Armed Conflict

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of the activities of the Lords Resistance Army in *(a)* Sudan, *(b)* the Democratic Republic of Congo and *(c)* the Central African Republic; and if he will make a statement [291403]

Mr. Ivan Lewis: On 28 August, the UN reported that an estimated 125,000 people had been displaced by the Lords Resistance Army (LRA) in the Haut Uele district of the Democratic Republic of Congo (DRC) in the last three weeks. The LRA has also forced an estimated 8,000 Congolese to flee to neighbouring Southern Sudan and the Central African Republic (CAR).

There has also been a recent increase in LRA attacks in Southern Sudan, close to the DRC border, which have displaced thousands of Sudanese, adding to the severe humanitarian situation in the region. Since March 2008, mere have been reports of periodic LRA incursions into the South East of CAR.

UN teams are monitoring the situation and assisting the refugees and internally displaced people. The UN peacekeeping mission in DRC, MONUC, has increased its presence in the DRC region where the LRA is active and is helping the Congolese army with logistics. Regional cooperation on this issue is ongoing.

British Nationality: Torture

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance his Department follows in response to reports of British nationals having been tortured abroad. [291421]

David Miliband: Consular staff are specifically trained on what action to take in response to any allegation of mistreatment, and there is clear guidance for such cases.

This guidance includes the identification of possible signs of torture and mistreatment, as well as the procedures to be adopted in such circumstances. The first step when a British national is detained overseas is to seek and secure access by our consular staff. Our staff are instructed to ask our nationals whether they have suffered abuse or mistreatment, and to look out for signs of mistreatment even where an individual does not raise it. They are required to follow up all reports of mistreatment whether they come from the individual themselves, from their friends, family or representatives, or from other sources. What form this follow up action will take will depend on the individual circumstances of the case. Most obviously, we can raise our concerns with the relevant authorities. Whatever action we take the objective remains the same: to end the mistreatment, and have the incident investigated and the perpetrators of any abuse brought to justice.

In many countries we also raise more general concerns around the mistreatment and abuse of detainees as part of our wider human rights dialogue.

Consular Posts

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to monitor the response of consular posts to reports of British nationals abroad since 2004. [291419]

David Miliband: There are a number of ways in which cases of British nationals alleging mistreatment are monitored. Since the rollout of an effective electronic case management system between 2002 and 2005, Consular Directorate in London has been able to monitor cases in real-time.

Posts have been required since 1 April 2005 to collate statistics on the number of cases where we have raised concerns with the detaining authorities over allegations of torture or abuse.

Finally, we are currently in the process of deploying Consular Regional Directors around the world, whose responsibilities include monitoring the performance of posts in their regions, including on the response of these posts to allegations of mistreatment.

G20: Public Relations

Mr. Hurd: To ask the Secretary of State for Foreign and Commonwealth Affairs what external *(a)* public relations and *(b)* public affairs firm were contracted to provide support for the London G20 Summit; and at what cost to the public purse. [289084]

Mr. Ivan Lewis: No external public relations or public affairs firms were contracted to provide support for the London G20 Summit.

However, a temporary unit was created within the Foreign and Commonwealth Office (FCO) to support posts in their engagement with overseas media, help organise local events during the run up to the summit, as well as providing information for the London summit website.

This was staffed by FCO and externally contracted staff who acted as project co-ordinators and content developers, rather than in a public affairs capacity.

Indonesia

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with the Indonesian Government taking steps against former members of the Indonesian Kopassus Special Forces named in 2007 by the Coroner of New South Wales in her findings in relation to the deaths of British citizens Malcolm Rennie and Brian Peters in 1975 in East Timor; and if he will make a statement. [291435]

Mr. Ivan Lewis: The Australian Federal Police have announced their intention to launch an investigation on the basis of the findings of the 2007 inquiry by the Coroner of New South Wales. We shall consider our position carefully in the light of the results of the Australian Federal Police investigation. The British Government hopes that the investigation may succeed

in shedding light on the circumstances in which Malcolm Rennie and Brian Peters died, thereby bringing some comfort and greater certainty to their families. We do not intend at this stage to raise the issue with the Indonesian authorities.

Israel

Martin Linton: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Prime Minister on issuing building permits for new housing in Gush Etzion, Ma'aleh Adumim, Givat Ze'ev and other Israeli settlements in the Occupied Palestinian Territories in advance of a settlement freeze. [291194]

Mr. Ivan Lewis: We are extremely concerned by the recent approval by the Israeli Government of new illegal settlement construction permits. My right hon. Friend the Foreign Secretary made this clear in a recent telephone conversation with Ehud Barak.

The Government's position on Israeli settlements has been consistent and robust: they are illegal, a clear violation of international law, and an obstacle to peace. My right hon. Friend the Prime Minister made this clear during his 25 August 2009 meeting with the Israeli Prime Minister.

Libya

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many official visits to Libya were made by officials from his Department in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009; and what the purpose of each such visit was. [291199]

David Miliband: There is no central record of the number of official overseas visits made by Foreign and Commonwealth Office (FCO) officials to Libya. However officials from various parts of the FCO, both in the UK and overseas, visit Libya regularly in the course of their official duties.

Senior officials hold an annual meeting with Libyan government officials which alternates between Tripoli and London. No senior officials meeting has taken place in 2009.

During the course of their visits officials work to deliver Government objectives in the fields of security, trade, co-operation in the UN and African Union, visas, consular matters and the safety, security and wellbeing of FCO officials and their families living and working in Tripoli.

Lockerbie: Bombings

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times he has discussed the case of Mr. Al-Megrahi with his US counterpart since Mr. Al-Megrahi's conviction. [291198]

David Miliband: I hold regular discussions with my US counterpart, Secretary of State Hillary Clinton, on a range of issues, such as the case of Mr. Al-Megrahi. The content of these discussions remains confidential as is normal practice.

UK and US officials worked closely together following the Lockerbie bombing to bring Mr. Al-Megrahi to justice. My officials have remained in close contact with US colleagues both before and since Mr. Al-Megrahi's conviction.

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions Ministers and officials from his Department have had with their Libyan counterparts since March 2004. [291251]

Mr. Ivan Lewis: Since 2004 there have been a number of ministerial visits to Libya made by Foreign and Commonwealth Office (FCO) Ministers: two in 2004, one in 2005, two in 2006, one in 2007, one in 2008 and two in 2009. During the same period, Ministers from Libya's Ministry of Foreign Affairs have visited the UK for meetings with their UK counterparts on a number of occasions: one in 2004, three in 2008 and six in 2009.

Ministerial discussions since 2004 have covered the full range of UK-Libyan bilateral relations, including co-operation in the fields of security, trade, at UN and with the African Union: as well as, visas, consular matters and the safety, security and wellbeing of FCO officials and their families living and working in Tripoli.

There is no central record of the number of official overseas visits made by FCO officials to Libya. However officials from various parts of the FCO, both in the UK and overseas, visit Libya regularly in the course of their official duties. Senior officials hold an annual meeting with Libyan Government officials which alternates between Tripoli and London. No senior officials meeting has taken place in 2009. Issues discussed since 2004 covered the full range of UK-Libyan bilateral relations.

Naheem Hussain: Rehan Zaman

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the reasons were for the time taken for his Department to respond to reports of Naheem Hussain and Rehan Zaman being tortured in Pakistan; and if he will make a statement. [291418]

David Miliband: When consular staff from our High Commission in Islamabad first visited them in prison on 29 July 2004, Mr Naheem Hussain and Mr Rehan Zaman raised allegations that they had been mistreated while in initial police custody. This was reported back to London. We failed to seek an explicit view at the time from them as to whether they wanted us to raise their concerns with the local authorities.

Staff in the Foreign and Commonwealth Office in London subsequently advised the High Commission in Islamabad to seek such a view on their next visit to Mr Hussain and Mr Zaman. However, once it was realised that this would not be until October 2004—prison visits to British nationals in Pakistan are usually done on a three monthly cycle—a decision was taken to seek their view via their lawyer which we did in early September 2004. As the right hon. Member will be aware, their lawyer subsequently confirmed that they did not want the matter raised with the local authorities.

It should not have taken five weeks from our first visit to Mr Hussain and Mr Zaman to obtain their view. Our consular guidance has developed since 2004 and we have taken steps to ensure such a delay would not happen now. This has included giving clear guidance to our consular staff both overseas and in London that where we have reason to believe a British national has been mistreated in detention overseas, this should be raised urgently with the relevant authorities. Our immediate objective in these cases is to have the allegations investigated and, if there is a possibility that mistreatment is continuing, to ensure that it is stopped. By reacting promptly in this way we also hope to deter abuse in future cases.

Pakistan

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether guidelines were in place in British posts in Pakistan in July 2004 which set out procedures to respond to allegations of the torture of British nationals. [291420]

David Miliband: In 2004, guidance for consular staff made clear the importance of responding to such allegations, including the need to report such cases to the Consular Directorate in London, and to ask the individuals concerned whether they wished us to raise them with the relevant authorities.

Sudan: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* progress in relation to the Comprehensive Peace Agreement in Sudan and *(b)* the long-term outlook for Sudan, with particular reference to recent reports of resources from sharing oil revenues. [291402]

Mr. Ivan Lewis: The UK welcomes progress that has been made in recent months towards implementation of the Comprehensive Peace Agreement (CPA). This includes acceptance by both the Sudanese People's Liberation Movement (SPLM) and the National Congress Party (NCP) of the ruling of the Permanent Court of Arbitration in relation to the Abyei area and both parties' commitment to implement the decision.

The UK also welcomes the signing by the SPLM and NCP, under the facilitation of US Envoy General Gration, of the "Points of Agreement" document on the outstanding CPA milestones. We are concerned however that further progress is required on several critical issues, including agreement of the census results, preparations for the elections in April 2010 and for the referendum on self-determination for South Sudan in 2011. The UK is working closely with both parties and with international partners to press for implementation of the outstanding issues.

HEALTH

Alcoholic Drinks: Prices

John Mason: To ask the Secretary of State for Health what recent discussions he has had with representatives of the alcohol industry on reducing the availability of cheap alcohol. [291375]

Mr. Mike O'Brien: No such recent discussions have taken place.

However, Government have just finished a consultation on a mandatory code for alcohol retailers. This proposed restrictions on very cheap alcohol sold below cost, and on irresponsible promotions such as "all you can drink" type offers.

The Government announced in May its decision not to proceed with any measures concerning a minimum unit price at a national or local level.

While there is good evidence that cheap alcohol is linked to people drinking more and the subsequent harm to their health, it is important that any Government interventions reduce harm without impacting unduly on the majority of adults who do drink responsibly.

Government will look to develop further the evidence base in this area with a view to identifying concrete proposals for action, which reduce irresponsible, harmful and/or binge drinking without impacting unduly on the majority of responsible drinkers.

Allergies

Jo Swinson: To ask the Secretary of State for Health pursuant to the answer of 20 July 2009, *Official Report*, column 965W, on allergies: consultants, what steps he plans to take to inform primary care staff of the National Occupational Standards on Allergy developed by Skills for Health. [291337]

Mr. Mike O'Brien: The National Occupational Standards on Allergy developed by Skills for Health are available on the Skills for Health website at:

www.skillsforhealth.org.uk

Guidance setting out their use is also freely available to employers organisations and staff across the sector.

Jo Swinson: To ask the Secretary of State for Health pursuant to the answer of 7 July 2009, *Official Report*, column 685W, on allergies, whether his Department has taken steps to increase the number of posts advertised in open recruitment for entry into allergy. [291338]

Mr. Mike O'Brien: Pursuant to the answer given on 7 July 2009, no additional posts have been established by the Department for open recruitment into allergy. The Department created an additional five centrally funded allergy training posts and five immunology posts in 2007. The national health service and deaneries are responsible for establishing whether there is a local need to commission more local training posts.

Cancer: Prescriptions

David Taylor: To ask the Secretary of State for Health what proportion of cancer patients in *(a)* Leicestershire, *(b)* the East Midlands and *(c)* England have obtained the exemption from prescription charges since April 2009. [291344]

Mr. Mike O'Brien: Cancer patients were able to apply for Medical Exemption (MEDEX) certificates (which entitle them to exemption from prescription charges) from 25 January 2009, although these certificates were not valid until 1 April 2009. From this date until

9 September 2009, the total number of valid prescription charge certificate applications processed by NHS Help with Health Costs in England, for cancer patients resident in England, where cancer was the only medical condition ticked on the FP92A application form, was 59,900. The Department is unable to provide the proportionate analysis requested in the question because data on the total number of cancer patients in England who could benefit from the exemption are not available. Nor is it possible to provide a sub-national breakdown of the number of MEDEX issued for cancer, as these data are not held.

Embryos: Storage

Jim Dobbin: To ask the Secretary of State for Health what discussions his Department has had with the Human Fertilisation and Embryology Authority on cases where parents wish to store embryos for their infertile offspring under the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009; and what guidance his Department has provided on this matter. [291431]

Mr. Mike O'Brien: The Department has not issued guidance on cases where parents wish to store embryos for their infertile offspring. The individual factors of each case would be taken into account by a registered medical practitioner when deciding if the criteria for extending storage periods for embryos or gametes on the grounds of premature infertility are met.

The Human Fertilisation and Embryology Authority has produced guidance, including through workshops, on the various changes that the Human Fertilisation and Embryology Act 2008 and its related regulations introduce.

Jim Dobbin: To ask the Secretary of State for Health (1) what guidance his Department has provided on whether a couple whose gametes were used to bring about the creation of an embryo may extend storage of the embryo for 10 years as referred to in the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009, where one of the couple is eligible for the extension on the basis of premature infertility, but the other person whose gametes were used to bring about the creation of the embryo is beyond natural childbearing age; [291432]

(2) what discussions his Department has had with the Human Fertilisation and Embryology Authority on the age at which infertility would no longer been deemed premature in *(a)* men and *(b)* women for the purposes of the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009; [291433]

(3) with reference to Parts 2 and 3 of the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009, what guidance his Department has provided on whether a person who was prematurely infertile on the day of examination, but whose infertility would no longer be premature for the whole of the subsequent 10 years would be eligible for a full 10 year extension of storage of embryos and gametes, with the exception of the final extension to 55 years. [291434]

Mr. Mike O'Brien: As far as guidance issued by the Department and discussion it has had with the Human Fertilisation and Embryology Authority are concerned, I refer the hon. Member to the written answer I gave the hon. Member for Enfield, Southgate (Mr. Burrowes) on 9 September 2009, *Official Report*, column 1984W.

The purpose of the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009 is to provide more scope for people who are prematurely infertile to have children. Decisions to provide treatment using any such stored gametes or embryos will be subject to the normal welfare of the child considerations.

Gender Identity Disorder

Lynne Jones: To ask the Secretary of State for Health what steps he is taking to ensure that all primary care trusts provide accessible, timely and high quality gender identity services. [291225]

Mr. Mike O'Brien: The Department is committed to the delivery of high quality national health service gender identity services. Primary care trust commissioning of gender identity services remains a matter for local prioritisation, with access to services determined by clinical need and local decision-making.

The Department is in the process of writing out to all NHS chief executives and their teams, via the weekly NHS leadership team bulletin the week, to reiterate this commitment to high quality gender identity services and the importance of considering such cases individually, according to clinical need.

Health Services: Travelling People

Mr. Stewart Jackson: To ask the Secretary of State for Health what funding is being provided to friends, families and Travellers for its work on access to healthcare for Travellers. [291305]

Mr. Mike O'Brien: £55,355 funding was provided to Friends, Families and Travellers to support access to healthcare for Travellers. The grant has been made through the Third Sector Investment programme and supports our wider aim of reducing health inequalities and paying particular attention to groups or sections of society where improvements in health and life expectancy are not keeping pace with the rest of the population.

Hospitals

Mr. Bone: To ask the Secretary of State for Health how many days on average an in-patient in a hospital in England received treatment in each year since 1997; and how many such patients waited 183 days or more to receive treatment in each such year. [291315]

Mr. Mike O'Brien: Data on the average (mean) in-patient length of stay is shown in the following table.

Average length of stay[1] in days for in-patients in England, 1997-98 to 2007-08

	Average length of stay (Days)
1997-98	8.8
1998-99	8.4
1999-2000	7.8
2000-01	8.2
2001-02	8.1
2002-03	7.9

Average length of stay[1] in days for in-patients in England, 1997-98 to 2007-08

	Average length of stay (Days)
2003-04	7.4
2004-05	7.1
2005-06	6.6
2006-07	6.3
2007-08	5.7

[1] Length of stay (LOS) is calculated as the difference in days between the admission date and the episode end date (duration of episode) or discharge date (duration of spell), where both dates are given. LOS is based on hospital stays and only applies to ordinary admissions, i.e. day cases are excluded (unless otherwise stated). Information relating to LOS figures, including discharge method/destination, diagnoses and any operative procedures, is based only on the final episode of the spell.

Notes:

1. Hospital Episode Statistics (HES) are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and Social Care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
2. Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period, whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
3. This is the total number of eligible admissions from which the mean and median time waited are derived. Admissions contributing towards this total are waiting list and booked admissions, with planned admissions being excluded. A waiting list admission is one in which a patient has been admitted electively into hospital from a waiting list, having been given no date of admission at the time a decision to admit was made. Alternatively, booked admissions are those in which the patient was admitted electively having been given a date at the time it was decided to admit, determined on the grounds of resource availability. Planned admissions are excluded as they are usually part of a planned sequence of clinical care determined mainly on clinical criteria, which, for example, could require a series of events, perhaps taking place every three months, six months or annually.

Source:

Hospital Episodes Statistics (HES), the NHS Information Centre for Health and Social Care.

Data on the number of in-patient admissions where time waited was 183 days or longer is shown in the following table.

Total admissions with eligible time waited information[1] with a time waited of 183 days or longer in England, 1997-98 to 2007-08

	Total admissions with a time waited of 183 days or more
1997-98	603,777
1998-99	727,812
1999-2000	596,906
2000-01	591,287
2001-02	606,601
2002-03	673,649
2003-04	681,753
2004-05	512,758
2005-06	381,912
2006-07	261,534
2007-08	147,522

[1] A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Notes:

1. Hospital Episode Statistics (HES) are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and Social Care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
2. Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period, whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
3. This is the total number of eligible admissions from which the mean and median time waited are derived. Admissions contributing towards this total are waiting list and booked admissions, with planned admissions being excluded. A waiting list admission is one in which a patient has been admitted electively into hospital from a waiting list, having been given no date of admission at the time a decision to admit was made. Alternatively, booked admissions are those in which the patient was admitted electively having been given a date at the time it was decided to admit, determined on the grounds of resource availability. Planned admissions are excluded as they are usually part of a planned sequence of clinical care determined mainly on clinical criteria, which, for example, could require a series of events, perhaps taking place every three months, six months or annually.

Human-Animal Hybrid Embryos

Jim Dobbin: To ask the Secretary of State for Health what the statutory authority is for the granting of a licence to examine human admixed embryos which have been stored in licensed premises for the purposes of investigating a suspected offence under the Human Fertilisation and Embryology Act 1990; and whether regulations will be required to be made. [291430]

Mr. Mike O'Brien: Human admixed embryos must be held at a centre licensed by the Human Fertilisation and Embryology Authority if they are being kept or used in connection with the investigation of, or proceedings for, an offence under the Human Fertilisation and Embryology Act 1990 (as amended by the Human Fertilisation and Embryology Act 2008). This requirement is provided for in section 4A(2)(c) of the Human Fertilisation and Embryology Act 1990 (as amended). Using human admixed embryos includes examination of embryos.

There is no intention to make regulations concerning the keeping, examination or storage of human admixed embryos in connection with the investigation of, or proceedings for an offence under the Human Fertilisation and Embryology Act 1990 (as amended).

IVF

Greg Mulholland: To ask the Secretary of State for Health what steps he is taking to increase the number of in vitro fertilisation treatment cycles available on the NHS in *(a)* England and *(b)* Leeds. [291265]

Mr. Mike O'Brien: We are working with the national health service and the patient support group Infertility Network UK to encourage primary care trusts (PCTs) in the provision of three full cycles of in vitro fertilisation (IVF) treatment, as recommended by the National Institute for Health and Clinical Excellence guidelines.

In 2008, we set up an expert group on commissioning NHS infertility provision. Their interim report identified barriers to the commissioning of IVF by PCTs and the final report of the expert group will be published in the autumn.

In June this year, the expert group produced a commissioning aid to help commissioners understand the particular sensitivities and complexities of infertility and its treatment. Alongside the commissioning aid, we

also published access criteria, which were developed by Infertility Network UK in discussion with the expert group. To launch both the commissioning aid and the access criteria we ran a conference for commissioners, to help raise awareness.

We are monitoring IVF treatment provision across the country to help identify where further work is required to assist PCTs in assessing the needs of fertility patients and helping them to deliver those services in an equitable way.

The Yorkshire and the Humber strategic health authority (SHA) has advised that the Yorkshire and the Humber Specialised Commissioning Group is currently consulting on a region wide policy for fertility treatment. Further information is on their website:

www.yhscg.nhs.uk/consultation/fertility.htm

The SHA has advised that one of the issues being considered is the number of cycles of in vitro fertilisation treatment and it is expected that the policy will be in place by April 2010.

Learning Disability: Supported Housing

Simon Hughes: To ask the Secretary of State for Health what arrangements his Department has put in place for monitoring and inspection of the quality of care in supported living accommodation for adults with learning difficulties; and if he will make a statement. [291371]

Mr. Mike O'Brien: Everyone living in supported living has a community care plan and increasingly a person-centred plan. The resources allocated to support them are based on these plans and are monitored through the care management assessment, and review process. These reviews take place at least once a year and ensure that arrangements set out in the plans are in place and that the person is receiving high quality support as agreed.

The Care Quality Commission (CQC) regulates health and adult social care services, whether provided by the national health service, local authorities, private companies or voluntary organisations. CQC ensures that essential common quality standards are being met where care is provided and work towards the improvement of care services.

Domiciliary Care Agencies, who provide care support for people in supported living, must be registered with the CQC and they inspect them. Local authority commissioners of these care services will have contract management arrangements in place to monitor individual Agencies.

NHS: Finance

Mr. Bone: To ask the Secretary of State for Health what estimate his Department made of expenditure from the public purse on the NHS in England in respect of each of the last 10 years expressed *(a)* in cash terms, *(b)* as a percentage of gross domestic production and *(c)* as a percentage of all public expenditure. [291316]

Mr. Mike O'Brien: Table 1 shows total net national health service expenditure in England in cash terms in each year since 1998.

Table 2 shows United Kingdom health expenditure as a proportion of (i) gross domestic product (GDP) and (ii) total managed expenditure.

Table 1: NHS total expenditure: England—1998-99 to 2010-11

		Net NHS expenditure nominal[1] (£ billion)
Cash[2]		
1998-99	Outturn	36.6
1999-2000	Outturn	39.9
Resource Budgeting Stage 1[3]		
1999-2000	Outturn	40.2
2000-01	Outturn	43.9
2001-02	Outturn	49.0
2002-03	Outturn	54.0
Resource Budgeting Stage 2[4,5]		
2003-04	Outturn	64.2
2004-05	Outturn	69.1
2005-06	Outturn	75.8
2006-07	Outturn	80.6
2007-08	Outturn	89.3
2008-09	Estimated outturn	94.5
2009-10	Plan	102.7
2010-11	Plan	105.8

[1] Figures are not consistent over the period (1998-99 to 2010-11), therefore it is difficult to make comparisons across different periods.
[2] Expenditure pre 1999-2000 is on a cash basis.
[3] Expenditure figures from 1999-2000 to 2002-03 are on a Stage 1 Resource Budgeting basis.
[4] Expenditure figures from 2003-04 to 2010-11 are on a Stage 2 Resource Budgeting basis.
[5] Figures from 2003-04 include a technical adjustment for trust depreciation.
Notes:
1. Expenditure excludes NHS (AME).
2. GDP deflator 30 June 2009.
3. Total Expenditure is calculated as the sum of revenue and capital expenditure net of non-Trust Depreciation and impairments. This is in line with HMT Guidance.

Table 2: UK health expenditure as a proportion of (i) gross domestic product, and (ii) total managed expenditure

		UK public spending on health as a percentage of GDP	*UK public spending on health as a percentage of total managed expenditure*
1998-99	Outturn	5.3	14.2
1999-2000	Outturn	5.2	14.4
2000-01	Outturn	5.5	14.9
2001-02	Outturn	5.8	15.4
2002-03	Outturn	6.1	15.7
2003-04	Outturn	6.5	16.5
2004-05	Outturn	6.8	16.8
2005-06	Outturn	7.1	17.1
2006-07	Outturn	7.0	17.2
2007-08	Outturn	7.2	17.5
2008-09	Estimated outturn	7.7	17.8

Sources:
Calculated percentages use information on:
1. Health Public Spending—Table 4.2/Table 4.4 HM Treasury PESA 2009
2. ONS data for money GDP (not seasonally adjusted, BKTL)
3. Total Managed Expenditure: Budget 2009 Table C17

GDP and Public Expenditure are reported on a UK basis by HM Treasury. In order to avoid a misleading calculation, UK based figures for health expenditure have been used in the calculation and not England figures as shown in Table 1. This method is use in response to similar questions posed as part of the Health Select Committee's Public Expenditure Inquiry.

Mr. Bone: To ask the Secretary of State for Health how much has been *(a)* agreed to be spent and *(b)* spent in each primary care trust under the national capitation formula in each year since its inception. [291317]

Mr. Mike O'Brien: Revenue allocations under the national capitation formula were first made to primary care trusts (PCTs) in 2003-04. Tables showing the Revenue Resource Limit (RRL) and Net Operating Costs for PCTs for each year between 2003-04 and 2008-09 have been placed in the Library.

The Revenue Resource Limit sets the level of agreed revenue expenditure a PCT can incur in a financial year. The Net Operating Costs represent the net revenue expenditure actually incurred in a financial year.

Revenue allocations made under the national capitation formula constitute the majority of the Revenue Resource Limit, with the balance of that limit comprising central programme allocations and agreed inter-authority transfers.

Osteoporosis

John Austin: To ask the Secretary of State for Health what assessment has been made of the merits of piloting osteoporosis indicators for inclusion in the 2011-12 Quality and Outcomes Framework. [291212]

Mr. Mike O'Brien: Under the new independent process for reviewing proposed changes to the clinical indicators within the current Quality and Outcomes Framework, the National Institute for Health and Clinical Excellence (NICE) are responsible for making any assessment and recommendations for prioritisation. Details of indicators that NICE are currently considering for development were published on 8 September, a copy has been placed in the Library.

NICE will also make a facility available on their website for any organisation or stakeholder to submit proposals for new indicators or changes to existing indicators later this month (September).

Prescriptions: Fees and Charges

Mr. Drew: To ask the Secretary of State for Health how many cases there have been of individuals claiming exemptions from prescription charges to which they are not entitled in the latest year for which figures are available; what procedures are used by the NHS to reclaim monies owed when such individuals are *(a)* on benefit and *(b)* have a low income; and if he will make a statement. [291351]

Mr. Mike O'Brien: Information on the number of individuals claiming prescription exemptions to which they are not entitled is not available and could be obtained only at disproportionate cost.

The NHS Counter Fraud Service undertakes exercises to measure losses due to false claims for prescription charge evasion. The last such exercise examined claims made in 2007-08. This showed that 2 per cent. of claims for exemption were fraudulent.

Since August 2001, a penalty charge system has been in place in respect of those wrongly claiming exemption to NHS prescription charges. This involves recovering the original charge plus a penalty charge. Recoveries and collection of penalty charges are made by primary care trusts, in the first instance through a civil legal process.

Trusts have discretion to waive the penalty charge if the patient is in a vulnerable group or if there are other relevant circumstances in individual cases. In cases where payment of a penalty charge is pursued, patients on a low income may seek an agreement to pay in instalments.

Patients in receipt of benefits that do not qualify them for exemption to prescription charges and patients on low incomes may be eligible to apply for exemption from prescription charges under the NHS Low Income Scheme.

HOME DEPARTMENT

Alcoholic Drinks: Crime

Mr. Spring: To ask the Secretary of State for the Home Department how many cautions were issued for public drinking offences in Suffolk in each of the last five years. [286270]

Mr. Alan Campbell: Information showing the number of offenders cautioned for public drinking offences in the Suffolk police force area from 2003-07 (latest available) can be viewed in the following table. Data for 2008 are planned for publication in the autumn of 2009.

The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time, the principal offence is the more serious offence.

The Penalty Notice for Disorder (PND) Scheme was implemented in all 43 police forces in England and Wales in 2004 under the provisions of the Criminal Justice and Police Act 2001. Offences relating to public drinking were included in the scheme.

Number of offenders cautioned[1] for public drinking offences[2], in Suffolk police force area, 2003-07[3, 4]

	Number
2003	240
2004	188
2005	81
2006	70
2007	48

[1] From 1 June 2000, the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.

[2] Includes the following offences:

14001: (a) Being found drunk in a highway or other public place whether a building or not, or a licensed premises. (Licensing Act 1872 Sec 12.)

14011: (b) Contravene a community support officers' requirement not to consume liquor. Penalty offence under S.1 Criminal Justice and Police Act 2001—alcohol consumption in designated public places. (Police Reform Act 2002 Sch.4 Para.5 (Criminal Justice and Police Act 2001 S.12). Criminal Justice and Police Act 2001 S12.)

14101: (c) Any person who in any public place is guilty, while drunk, of disorderly behaviour. (Criminal Justice Act 1967 Sec.91.)

[3] The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time, the principal offence is the more serious offence.

[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

Evidence and Analysis Unit: Office for Criminal Justice Reform.

Alcoholic Drinks: Unpaid Fines

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* penalty notices for disorder and *(b)* other fines for being drunk and disorderly remained unpaid (i) six and (ii) 12 months after issue in each of the last five years. [288427]

Alan Johnson *[holding answer 21 July 2009]:* Information on paid, part paid and unpaid fines for offences of drunk and disorderly are not collected centrally. Information on the enforcement rate of financial penalties imposed by courts is held but cannot identify the originating offence.

It is therefore not possible to establish how many fines remain unpaid over the last five years for drunk and disorderly offences.

Departmental Billing

John Mason: To ask the Secretary of State for the Home Department what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288913]

Mr. Woolas: The Home Department has invested significantly in its people, with the creation of a professional Shared Service Centre and Procurement Centre of Excellence complemented by the creation of new processes and upgraded Procure to Pay systems.

The Department has been putting a firm focus on paying its suppliers on time when it is in receipt of a compliant invoice. It has been working closely with colleagues in the Department for Business Innovation and Skills reporting on both our legislative obligations of 30 days as well as the 10 day PM's commitment for Small and Medium Enterprises (SMEs) for correctly presented compliant invoices.

The Home Office Headquarters and UKBA's performance of paying SME compliant invoices within 10 days for June 2009 following the PM's announcement is shown in the following table:

Home Office HQ and UKBA

		Month: June 2009
	Number	Percentage
Total number of all invoices paid	4,112	—
Percentage of total number of all invoices paid within 10 days	—	22
Number of SMEs' compliant invoices, paid within 10 days	880	—
SMEs, percentage of compliant invoices paid within 10 days	—	99

Both the Criminal Records Bureau and Identity and Passport Service are working to identify SMEs and change their systems to pay compliant invoices within 10 days of receipt.

Entry Clearances

Margaret Moran: To ask the Secretary of State for the Home Department pursuant to the answer of 12 May 2009, *Official Report*, column 666W, how many representations he has received from *(a)* hon. Members and *(b)* other agencies alleging the use of duress in obliging a spouse to sign an application for leave to remain. [288984]

Mr. Woolas: The information requested on representations relating to this issue is not collated and could be obtained only by the detailed examination of individual correspondence and case records at disproportionate cost.

However, the United Kingdom Border Agency is appraised of the seriousness of this issue and staff have been issued with policy guidance on this.

Offensive Weapons: Crime

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what his most recent assessment is of the effectiveness of the Tackling Knives Action programme in reducing the number of offences related to the possession of a knife. [287550]

Mr. Hanson *[holding answer 20 July 2009]:* I believe the scheme has been of benefit in supporting 16 forces to tackle knife crime.

Management information has been collected from a range of sources both before and during the TKAP period, defined as July 2008 to March 2009. This management information was published on 22 July; Tackling Knives Action programme (TKAP) Phase 1: Overview of key trends from a monitoring programme is available on the Home Office Crime Reduction website:

http://www.crimereduction.homeoffice.gov.uk/violentstreet/violentstreet014.htm

Offensive Weapons: Schools

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent assessment he has made of the effectiveness of the engagement of police officers in education programmes in schools in reducing the number of offences related to the possession of a knife. [287552]

Mr. Hanson *[holding answer 20 July 2009]:* We are working with local partners in expanding the coverage of Safer School Partnerships (SSPs) to become the norm rather than the exception.

Through the Tackling Knives Action Programme we have invested more than £3 million on initiatives to keep children safe in and around schools, including Safer Schools Partnerships (SSP). There are now more than 5,000 Safer Schools Partnerships in operation.

In 2005, York university carried out an evaluation of Safer Schools Partnerships. The partnership is a formal agreement between schools and police to work together in order to keep people safe, reduce crime and the fear of crime and improve behaviour in schools and their communities. Key findings from the evaluation showed that SSP schools:

Have sought ways of identifying and working with children and young people at risk of becoming victims or offenders.

Have reduced truancy rates and helped total absence rates in relation to comparison schools.

Have an environment in which pupils feel significantly safer than their counterparts in comparison schools.

On 11 May 2009 the Home Secretary and Ed Balls, Secretary of State for the Department for Children Schools and Families, launched the new SSP Guidance

and DVD to provide advice on what constitutes a Safer School Partnership, the benefits, how to set up and how to maintain an SSP.

Police

Mr. Gerrard: To ask the Secretary of State for the Home Department what targets his Department has set for police forces for 2009-10. [290878]

Mr. Hanson *[holding answer 9 September 2009]:* As part of the Policing Green Paper, "From the Neighbourhood to the National: Policing our Communities Together", the Home Office stated that it would neither set nor maintain top-down numerical targets for individual police forces with the exception of one—to increase public confidence that the police and local councils are dealing with antisocial behaviour and crime issues that matter locally. Each police force will be expected to increase public confidence levels (to be measured by questions in the British Crime Survey) to achieve a 60 per cent. national average by 2012.

Police Act 1997/Data Protection Act 1998

David Howarth: To ask the Secretary of State for the Home Department (1) when he plans to bring into force *(a)* section 112 of the Police Act 1997 and *(b)* section 56 of the Data Protection Act 1998; [291127]

(2) what recent representations he has received regarding the unavailability of a basic disclosure service from the Criminal Records Bureau. [291128]

Mr. Hanson *[holding answer 14 September 2009]:* Section 56 of the Data Protection Act 1998 will not fully come into force until Section 112 of Part V of the Police Act 1997, which relates to Basic Disclosures, is commenced for England and Wales. In its 2009-10 Business Plan, the CRB have committed to research how it can implement a Basic Disclosure service.

There are no records held of any recent representations made to the Home Office regarding the unavailability of Basic Disclosures.

Police Custody: Death

Mr. Meacher: To ask the Secretary of State for the Home Department how many persons have died in police custody in each year since 1990; and in respect of how many such deaths the coroner's court returned a verdict of *(a)* accidental death, *(b)* death by misadventure, *(c)* unlawful killing, *(d)* open verdict and *(e)* another verdict in each such year. [290620]

Mr. Hanson *[holding answer 9 September 2009]:* The Home Office was responsible for publishing statistics relating to death following police contact which included the verdict from any coroner's inquest until 31 March 2004. Since 1 April 2004 the Independent Police Complaints Commission has been responsible for the collation and publication of such data.

The statistics between 1990-2000 are contained within Police Complaints and Discipline Bulletins and separately from 1997 on the Home Office and IPCC websites.

Police: Essex

Mr. Amess: To ask the Secretary of State for the Home Department what qualifications relevant to his appointment the Chief Constable of Essex Police holds; what his career in the Police Service has been to date; what process was followed in his appointment; and if he will make a statement. [290642]

Mr. Hanson *[holding answer 9 September 2009]:* Jim Barker-McCardle, brings extensive policing experience and a strong track record to the role of chief constable of Essex.

He joined the police in 1981 serving in a number of uniform and detective roles in Kent. He rose to the rank of assistant chief constable in 1999 and was subsequently the deputy chief constable of Kent Police. He was most recently Deputy Chief Executive and Chief Operating Officer of the National Policing Improvement Agency.

Chief Constables are appointed by police authorities subject to the approval of the Home Secretary and to police regulations.

An open competition is held by the Police Authority, who consider the suitability of candidates supported by reports from the applicant's chief constable (where they are not already at this rank), and Her Majesty's Inspectorate of Constabulary.

Mr. Amess: To ask the Secretary of State for the Home Department what payments to *(a)* the current and *(b)* each previous Chief Constable of Essex Police (i) have been made during each of the last three years and (ii) are planned for each of the next two years. [290643]

Mr. Hanson *[holding answer 9 September 2009]:* I refer the hon. Member to the answer given on 24 February 2009, *Official Report*, column 687W which referred to Home Office circulars on chief constable pay. The salary for the chief constable of Essex is currently £144,510

It is for police authorities to determine other payments to chief officers in accordance with legislative requirements.

Territorial Waters

Chris Grayling: To ask the Secretary of State for the Home Department how many vessels of *(a)* the UK Border Agency and *(b)* the Royal Navy were on patrol in UK territorial waters on average at any one time for the purposes of the interception of (i) illegal immigration and (ii) drug smuggling in the latest period for which information is available. [288542]

Alan Johnson: The UK Border Agency operates five offshore patrol ships in UK territorial waters and adjacent seas. These ships provide operational coverage for 365 days a year. Smaller craft (Rigid Hull inflatable boats) can also be deployed from the patrol ships and are capable of operating independently.

UK Border Agency vessels work regularly in support of operations by other agencies including the Royal Navy.

INTERNATIONAL DEVELOPMENT

Afghanistan: Overseas Aid

Harry Cohen: To ask the Secretary of State for International Development what funding for aid for Afghanistan has been *(a)* committed and *(b)* spent by his Department since 2001. [291369]

Mr. Michael Foster: The Department for International Development (DFID) publishes future programme allocations and out-turn expenditure figures each year in its annual report which is available in the Library of the House and on the DFID website at:

www.dfid.gov.uk

Overseas Aid: Education

Andrew Stunell: To ask the Secretary of State for International Development how much and what percentage of its budget his Department spent on overseas education projects in each year since 1997. [291312]

Mr. Michael Foster: Details of the Department for International Development's (DFID) expenditure in the education sector is published annually in "Statistics on International Development", which is available online at:

www.dfid.gov.uk

The relevant figures are reproduced as follows:

DFID bilateral expenditure and imputed multilateral expenditure on the education sector and as a proportion of totals, 1997-98 to 2008-09 (£000)

	DFID bilateral expenditure	*Percentage of total DFID bilateral expenditure*	*DFID imputed multilateral share*	*Percentage of total imputed multilateral share*
1997-98	139,550	13	51,151	9
1998-99	144,592	12	69,152	7
1999-2000	121,975	9	31,406	4
2000-01	162,678	10	64,831	6
2001-02	128,603	10	39,346	4
2002-03	179,963	10	93,594	5
2003-04	232,281	11	72,078	6
2004-05	286,269	13	67,329	5
2005-06	314,691	12	65,724	3
2006-07	372,775	13	104,194	6
2007-08	350,603	12	117,441	6
2008-09	450,973	14	—	—

Details are not yet available for DFID imputed multilateral share 2008-09.

Scotland

Stewart Hosie: To ask the Secretary of State for International Development whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288939]

Mr. Douglas Alexander: The Department for International Development (DFID) has not submitted evidence to the Scottish Government's National Conversation. The Department did, however, submit evidence to the Commission on Scottish Devolution during its first phase of evidence gathering.

JUSTICE

Children: Remand in Custody

Mr. Burrowes: To ask the Secretary of State for Justice how many children were detained in custody with adults in each of the last five years. [287686]

Maria Eagle: Information on the number of young people under 18 years old who have been required to share accommodation with adults is not collected centrally.

Young people are not routinely required to share accommodation with adults. They will only do so in a small number of cases where there are exceptional circumstances, such as the need to manage disruptive and violent behaviour, and where this is considered to be the preferred course of action.

Community Orders: Publicity

Andrew Rosindell: To ask the Secretary of State for Justice how many people have been placed on the high visibility payback scheme in each of the last 12 months. [287944]

Mr. Straw: Distinctive high visibility jackets have been worn by offenders sentenced to Community Payback since December 2008. The number of work projects on which distinctive clothing is used and the number of hours worked by offenders wearing distinctive clothing is monitored by the National Management of Offender Service. The number of offenders allocated to high visibility Community Payback work projects is not recorded. This is because the existing data provides a clear indication of the proportion of work undertaken in probation areas using distinctive clothing. The number of Community Payback work projects on which distinctive high visibility clothing was worn by offenders and the number of hours worked on these sites since December 2008 is shown in the following table.

Month	*Number of projects operated*	*Number of hours worked*
December	2,560	210,974
January	2,538	321,853
February	2,422	326,618
March	2,938	401,680
April to June	6,822	1,177,176

In the year April 2008 to March 2009 over 62,000 offenders successfully completed Community Payback sentences and approximately 8.4 million hours were worked.

Andrew Rosindell: To ask the Secretary of State for Justice how many people who have been placed on the high visibility payback scheme have not completed the scheme. [287971]

Mr. Straw: In the period April to June 2009 75.3 per cent. of offenders sentenced to Community Payback successfully completed their sentences. All community sentences are rigorously enforced and following more than one absence without good reason, National Standards require that offenders are returned to court. If there is wilful refusal to comply with the sentence, the court may impose a prison sentence. Offenders may fail to

complete their sentences for a number of reasons, including revocation of the Community Payback sentence and the imposition of an alternative sentence following failure to comply, revocation as a result of illness, or revocation following the imposition of a custodial sentence for other offences.

Information relating to successful completion of sentences by offenders allocated to high visibility work sites is not available separately from the overall successful completion rate for offenders sentenced to Community Payback, not all of whom will have been allocated exclusively to high visibility work sites.

Criminal Injuries Compensation

Mr. Steen: To ask the Secretary of State for Justice what percentage of the funds made available by the Criminal Injuries Board has been paid to *(a)* UK, *(b)* EU and *(c)* other citizens in each of the last three years; and if he will take steps to ensure that the country of origin and residence of those individuals who have received Criminal Injuries Compensation are (i) recorded and (ii) made available to the public. [291329]

Claire Ward: Eligibility to apply for compensation under the criminal injuries compensation scheme (CICS) is open to blameless victims of violent crime occurring in Great Britain, regardless of their nationality. Accordingly, as an applicant's nationality has no bearing on the assessment of his/her application for compensation, the Criminal Injuries Compensation Authority (CICA), which administers the CICS, does not maintain statistics on the citizenship of compensation applicants. The information sought is not therefore available and for the same reason CICA has no plans to record this information.

Dangerous Dogs Act 1991: Convictions

Andrew Stunell: To ask the Secretary of State for Justice how many *(a)* prosecutions were brought and *(b)* convictions were secured for offences under the Dangerous Dogs Act 1991 in each local authority area in the North West in each of the last five years. [291311]

Claire Ward: Information showing the number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the 1991 Dangerous Dogs Act in the north-west region by police force area from 2003 to 2007 (latest available) is shown in the following table. The Ministry of Justice do not centrally collect data by local authority area.

Data for 2008 will be available towards the end of 2009.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the 1991 Dangerous Dogs Act in the north-west region, by force, 2003 to 2007[1,2]

	Proceeded against					Found guilty				
Force	2003	2004	2005	2006	2007	2003	2004	2005	2006	2007
Cheshire	25	15	7	14	20	16	11	3	8	16
Cumbria	16	18	17	24	24	11	13	12	18	13
Greater Manchester	45	53	56	60	60	48	33	40	45	44
Lancashire	20	27	31	41	40	16	11	14	28	25
Merseyside	17	25	18	18	40	5	14	12	8	37
North-west region	131	138	129	157	184	96	92	94	107	134

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. Where a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Statistics and Analysis Unit, Ministry of Justice

Departmental Information and Communications Technology

Mr. Gerrard: To ask the Secretary of State for Justice how much the Probation Service has spent on information technology since May 1997. [290977]

Maria Eagle: It is not possible to answer the question without incurring disproportionate cost as it would be necessary to request information from each of the 34 local area probation boards and eight probation trusts that make up the current National Probation Service (NPS). Furthermore, the NPS was established on 1 April 2001 as a central government service and prior to this it was a local authority service that was organised on a different basis.

Elections: Costs

Mr. Maude: To ask the Secretary of State for Justice what guidance has been produced on whether the office and staffing costs of hon. Members, as Members of Parliament are included in the new pre-candidacy election spending limit. [291211]

Mr. Wills: Section 21 of the Political Parties and Elections Act 2009 introduces pre-candidacy limits on individuals' election expenses where a general election is held after 55 months of a Parliament have elapsed. The pre-candidacy spending limit will operate in the same way as the limit on post-dissolution candidate expenses. In order to be regulated by either limit, spending must be: (i) used during the relevant regulated period; (ii) on one of the matters listed in part 1 of Schedule 4A of the Representation of the People Act 1983; and (iii) used for the purposes of the individual's election.

The Electoral Commission has produced initial guidance on candidate expenses should the next UK parliamentary election be held in 2010, when the pre-candidacy spending limit would operate. The Commission is seeking

feedback on that initial guidance and intends to publish final guidance in December 2009.

Staff and office costs incurred by hon. Members' in respect of their parliamentary duties are not for the purposes of election and therefore would not be counted against the spending limit.

Electronic Communications

Jenny Willott: To ask the Secretary of State for Justice how many people were *(a)* prosecuted for and *(b)* convicted of each offence relating to the illegal use of electronic communications media in each of the last five years; and if he will make a statement. [280180]

Claire Ward: Information showing the number of persons proceeded against at magistrates courts and found guilty at all courts for offences under the 1990 Computer Misuse Act in England and Wales from 2003 to 2007 (latest available) is shown in the following table. Data for 2008 will be available towards the end of 2009.

Number of persons proceeded against at magistrates courts and found guilty at all courts for offences under the Computer Misuse Act 1990, England and Wales, 2003–07[1, 2]

		2003		2004		2005		2006		2007	
Offence	*Section*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*
Unauthorised access to computer material.	Section 1	7	1	3	3	5	4	7	4	8	3
Unauthorised access with intent to commit or facilitate commission of further offences.	Section 2	9	1	6	2	11	7	5	4	2	—
Unauthorised acts with intent to impair, or with recklessness as to impairing, operation of computer etc	Section 3 and 3A	3	1	10	7	8	5	13	10	9	7
Total		19	3	21	12	24	16	25	18	19	10

Fines: Surcharges

Mr. Djanogly: To ask the Secretary of State for Justice which organisations in each county have received grants made from the Victims' Fund containing the surcharge on fines pursuant to the Criminal Justice Act 2003 (Surcharge) (No. 2) Order 2007. [291428]

Claire Ward: The following organisations have received funding from the Victims Fund for third sector organisations supporting victims of sexual violence and childhood sexual abuse; homicide and hate crime.

	Rape and Sexual Abuse Centre (North Wales)	—	—

Mr. Djanogly: To ask the Secretary of State for Justice how much has been raised by the surcharge on fines, pursuant to the Criminal Justice Act 2003 (Surcharge) (No. 2) Order 2007 in *(a)* 2007, *(b)* 2008 and *(c)* 2009. [291429]

Claire Ward: The following table shows the total annual receipts from the Victim Surcharge from 1 April 2007. Receipts for 2009 are not yet available.

Date	£ million Receipts
2007-08	3.8
2008-09	8

Magistrates: Diversity

Andrew Rosindell: To ask the Secretary of State for Justice how much his Department has spent to increase diversity among magistrates in each of the last three years. [287961]

Mr. Straw: 101 local advisory committees recruit and select magistrates in England and Wales. Recruitment funding is provided on the basis of local need and the committees are encouraged to target recruitment at under-represented groups in their areas. The Ministry of Justice also funds the Magistrates' Shadowing Scheme, run by Operation Black Vote, which aims to promote ethnic diversity among Magistrates. The following amounts have been spent on recruitment funding and the Shadowing Scheme in each of the last three financial years:

2006-07 Recruitment: £89,945 Shadowing Scheme £90,000

2007-08 Recruitment: £214,738 Shadowing Scheme £70,000

2008-09 Recruitment: £187,677 Shadowing Scheme £70,000

National Offender Management Service

Mr. Gerrard: To ask the Secretary of State for Justice what timetable he has now set for the appointment of directors of offender management in *(a)* the regions of England and *(b)* in Wales. [288803]

Maria Eagle: HM Prison Service has had 13 area managers who have been responsible for the prisons within those areas and then regional offender managers were appointed in 11 areas who dealt with both prisons and probation areas. In 2008, two areas, London and Wales, piloted the new approach of a director of offender management.

It was decided to extend this to the other areas and an advert for the remaining nine director level posts was launched in November 2008. Appointments were made in eight of the nine regions in England and the one in Wales. The successful candidates took up post in late March and during April 2009.

There is currently an interim appointment in place in the North East. This post is due to be advertised in September with a view to filling it substantively by the end of the calendar year.

Prison Sentences

Andrew Stunell: To ask the Secretary of State for Justice how many indeterminate sentences for public protection have been handed down in each *(a)* region and *(b)* police force area in each year since their inception. [291308]

Claire Ward: The requested information is shown in the following tables.

Persons sentenced to IPP's by region and year, 2005-07, England and Wales

Number of persons

Region	*2005*	*2006*	*2007*

Prisoner Escapes

Mr. Wallace: To ask the Secretary of State for Justice how many *(a)* successful and *(b)* unsuccessful attempts were made to escape from HM Prison Lancaster since June 2007. [288562]

Maria Eagle: There have been no successful escapes or unsuccessful escape attempts from HMP Lancaster since June 2007. Escapes from prison have been falling for over a decade and 2008-09 saw the lowest level of prison escapes since records began.

Figures on escapes and a range of other prison performance statistics are available at:

http://www.hmprisonservice.gov.uk/abouttheservice/prisonperformance/performancestatistics

Prisoners

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners held on their own in cells designed for more than one prisoner have been assessed as *(a)* high risk and *(b)* very high risk. [287873]

Claire Ward: The Cell Sharing Risk Assessment process provides a risk category of low, medium or high risk to prisoners when they enter custody. The category 'very high risk' is not used. Data is not held centrally on the number of prisoners allocated to each category.

Prisoners: Pay

Mr. Garnier: To ask the Secretary of State for Justice (1) what the average weekly rate of unemployment pay paid in each prison in England and Wales was in 2008; [288192]

(2) what the standard rate of weekly prisoner pay for each job or other purposeful activity was in each prison in England and Wales in 2008. [288193]

Maria Eagle: The information requested is not centrally available and could be collated only by manual checking with individual establishments, which would incur disproportionate cost. However, Prison Service Order 4460 (Prisoners' Pay), a copy of which has been placed in the House Library, sets out minimum rates of prisoner pay which includes allowance levels for unemployment and for work (enabling prisoners to obtain life skills), education and other duties or activities. The PSO sets a minimum unemployed rate of £2.50 per week and an employed rate of pay of £4.00 per week. However Governors have devolved authority to set rates of pay for their particular establishment and these will reflect the particular regime priorities of their establishment.

Prisoners: Wales

Mrs. Gillan: To ask the Secretary of State for Justice how many *(a)* women and *(b)* men with a home address in Wales were serving custodial sentences in each prison outside Wales at the latest date for which figures are available; and what lengths of sentence such prisoners were serving. [291171]

Maria Eagle: The following tables show the total number of sentenced females (table A) and sentenced males (table B) with a home address in Wales who are held in a prison in England as of May 2009. The tables include the sentences these prisoners are serving and in which prisons in England they are held.

The figures in both tables include sentenced juveniles and young offenders.

Home area is taken as a prisoner's home address. If no home address is recorded the court of first committal is used as a proxy address for recording purposes.

Prisons: Manpower

Mr. Garnier: To ask the Secretary of State for Justice how many prison officers at each *(a)* prison and *(b)* young offender institution have been suspended in each of the last five years for which figures are available; and how many of those suspended were subsequently (i) convicted of an offence, (ii) disciplined and (iii) dismissed. [290754]

Maria Eagle: The disciplinary process in the National Offender Management Service (NOMS), including authority for suspending staff from duty, is devolved to a local level.

While historical information concerning the outcome of formal disciplinary cases is held centrally within NOMS, these records do not indicate whether or not the member of staff concerned was suspended from duty during the course of the disciplinary proceedings. A summary of the numbers of centrally recorded dismissals and other disciplinary penalties for each of the last five years is provided in the following table:

	2004-05[1]	2005-06[1]	2006-07[1]	2007-08[1]	2008-09[1]	Total
Dismissal	73	80	88	44	32	317
Other penalty	223	311	360	254	222	1,370
Total	296	391	448	298	254	1,687

[1] Covers the period 1 September through 31 August 2009.

Information about staff suspensions has only been recorded centrally since October 2007. In order to provide the detailed information requested, we would need to contact all public sector Prison Service establishments and ask them to check their paper records. This would incur disproportionate cost.

Prisons: Violence

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* prisoner-on-prisoner and *(b)* prisoner-on-staff assaults involving weapons of each type there were in 2008. [291410]

Claire Ward: The administrative IT system holding this data is currently being reconfigured and I therefore will write with the information as soon as possible.

Probation

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of offenders under probation supervision were *(a)* in employment and *(b)* living in settled and suitable accommodation at the end of their order or licence (i) in total and (ii) in each of the smallest geographical areas for which figures are available in each year since 2000; and if he will make a statement. [291189]

Maria Eagle: The figures requested are available for 2008-09 and 2009-10 only and are shown in tables.

Employment is known to be a key factor in helping to reduce re-offending. The Government's aim therefore is to improve the quantity and quality of offender learning to provide more offenders with the skills and motivation to turn away from crime, improve their employability, and become productive members of society.

NOMS is actively engaging with employers to create employment opportunities for offenders both in prison and on release. The Government are committed to expanding this programme significantly.

The Government recognise the contribution that having a stable home makes to the rehabilitation of offenders and the reduction of re-offending. The National Offender Management Service is working in partnership with other Government Departments, local authorities and housing providers to deliver public service agreement (PSA) 16, which includes a commitment to raising the proportion of offenders under the supervision of the probation service that are in suitable and stable accommodation at the end of their supervision.

Performance against employment targets in 2009-10 has shown a decline compared to 2008-09, but this must be seen in the context of the economic downturn. The current economic climate has exacerbated the disadvantages already faced by offenders in the jobs market. However, we remain committed to maximising employment opportunities for offenders and we are working with probation areas to ensure they retain their focus on performance.

Table 1: Offenders in employment at termination of order/licence 2008-09

Probation : West Yorkshire

Jon Trickett: To ask the Secretary of State for Justice how many *(a)* probation officers and *(b)* probation service officers were employed by West Yorkshire Probation Area on 31 March of each of the last five years. [288667]

Maria Eagle: The following table shows the numbers of Probation Officers and Probation Service Officers in post in the West Yorkshire Probation Area on 31 March in each of the last five financial years:

	Probation officers[1]	Probation service officers[2]
2003-04	314	307
2004-05	332	302
2005-06	363	276
2006-07	375	294
2007-08[3]	371	272

[1] Probation officer figures include Senior Probation Officers, Senior Practitioners, Practice Development Assessors and Probation Officers.
[2] Probation services officers figures include Probation Services Officers and Treatment Managers.
[3] The information provided has yet to be made public and may therefore be subject to minor amendment upon publication.
Note:
Figures are shown as full time equivalents.

Figures for the year 2008-09 are not yet available.

Prosecutions

David Howarth: To ask the Secretary of State for Justice how many prosecutions were commenced under section 123(2) of the Police Act 1997 in the most recent year for which figures are available; and how many such prosecutions resulted in a conviction. [291126]

Claire Ward: The number of defendants proceeded against at magistrates courts and found guilty at all courts for an offence under section 123 of the 1997 Police Act are shown in the table below. Section 123(2) of the 1997 Police Act states that it is an offence to "Make a false statement to obtain a criminal record or conviction certificate". Centrally held data do not separately identify under which part of section 123 court proceedings took place.

Data for 2008 will be available towards the end of 2009.

The number of persons proceeded against at magistrates courts and found guilty at all courts under section 123 of the Police Act 1997, England and Wales, 2007[1,2]

	Number
Proceeded against	1
Found guilty	1

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Office for Criminal Justice Reform—Evidence and Analysis Unit

Sex Offenders

Margaret Moran: To ask the Secretary of State for Justice what advice, training and support is given to staff in the National Offender Management Service in ensuring that sex offenders operating *(a)* in online forums and *(b)* in other areas do not pose a danger to children. [288878]

Maria Eagle: Probation Officers in the National Offender Management Service are trained to undertake a comprehensive assessment of all sexual offenders prior to sentence, using evidence based assessment tools, including Risk Matrix 2000 which has been designed specifically to assess the likelihood of reconviction for a sexual offence. The assessments are used to create a risk management plan for the offender, and, if online offending was assessed to be likely, this would be addressed in the risk management plan. For the most serious sexual offenders, the risk assessment and risk management will be undertaken within the context of the Multi-Agency Public Protection Arrangements (MAPPA). Within MAPPA, the Police Probation and Prison Services work together to assess and manage the risks presented by the most serious sexual offenders.

For sexual offenders subject to licensed release from custody, licence conditions may prohibit them from, for example, using the internet or may exclude them from places where they might pose a risk of harm to children. If they breach their licence conditions, they are liable to

be recalled to custody. In addition, the most high risk offenders will be required to reside in approved premises on release from custody. In approved premises, offenders are subject to strict conditions of residence and additional monitoring.

The National Offender Management Service provides guidance, in the form of prison service orders, instructions and manuals, to prison and probation staff to ensure sex offenders do not pose a danger to children while in custody. In addition, specific training and support is given to staff who deliver sex offender treatment programmes.

Young Offender Institutions

Mr. Wallace: To ask the Secretary of State for Justice what disturbances have been reported at *(a)* HM Prison Lancaster and *(b)* HM Young Offender Institution Lancaster Farms since June 2008. [288563]

Maria Eagle: The data in the following table shows the number of disturbance-related incidents recorded on the Prison Service Incident Reporting System from HMP Lancaster and HMPYOI Lancaster Farms between June 2008 and May 2009.

Breakdown of disturbance-related incidents at HMP Lancaster and HMPYOI Lancaster Farms June 2008 to end May 2009

Establishment	Barricade	Concerted indiscipline active	Concerted indiscipline passive	Hostage	Incidents at height
HMP Lancaster	1	0	0	0	0
HMPYOI Lancaster Farms	7	1	2	0	6

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Young Offenders: Sentencing

Chris Huhne: To ask the Secretary of State for Justice what percentage of *(a)* 10 to 12, *(b)* 13 to 15, *(c)* 16 and 17 and *(d)* 18 to 20 year olds convicted of a non-violent offence were given a custodial sentence in each year since 1997. [291255]

Claire Ward: The requested information is shown in the following table.

Data for 2008 will become available once 'Sentencing Statistics 2008' is published.

This data are presented on the principal offence basis, where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed, where the same sentence has been imposed for more than one offence the principal offence is the one for which the statutory maximum is most severe.

Percentage of offenders sentenced to immediate custodial sentences for non-violent indictable offences[1] 1997-2007

Age group	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
10-12 years old	1.00	0.80	1.00	2.50	3.30	1.70	1.30	2.00	1.40	0.90	0.80
13-15 years old	6.90	6.30	6.70	8.20	9.00	9.20	7.90	7.30	6.50	7.10	6.00
16-17 years old	16.90	15.70	15.60	14.60	14.20	14.80	12.90	13.10	12.50	13.00	11.40
18-20 years old	21.60	21.50	21.60	23.20	23.30	23.10	20.90	22.20	22.40	22.50	22.50

[1] Non-violent indictable offences includes all indictable offences not included in the violence against the person offence group. Summary offences have not been included as they are not categorised into violent and non-violent offences.

PRIME MINISTER

Diamond Jubilee 2012

Bob Russell: To ask the Prime Minister whether *(a)* special (i) coins and (ii) postage stamps will be produced and *(b)* the status of city will be awarded to one or more towns to mark in 2012 the 60th anniversary of the accession of Her Majesty The Queen; and what other proposals the Government has to mark the anniversary. [291289]

The Prime Minister: I refer the hon. Member to the answer I gave him on 24 April 2009, *Official Report*, column 977W.

Iraq Committee of Inquiry

Mr. Dai Davies: To ask the Prime Minister what criteria he used to select the experts appointed to the Iraq inquiry; and what discussions he has had with Sir John Chilcot on the merits of inquiry witnesses giving evidence on oath. [291252]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for Kingston and Surbiton (Mr. Davey) and my hon. Friend the Member for Thurrock (Andrew Mackinlay) on 13 July 2009, *Official Report*, column 106W.

Israel: Prime Ministerial Discussions

Harry Cohen: To ask the Prime Minister what sanctions against Iran the Israeli Prime Minister proposed at his recent meeting with him; and what response he made to those proposals. [291268]

Mr. Dai Davies: To ask the Prime Minister whether he discussed the matter of Israel's possession of nuclear weapons and nuclear disarmament in his meeting with his Israeli counterpart in London on 25 August 2009. [291250]

The Prime Minister: I discussed a wide range of issues with Prime Minister Netanyahu. I refer my hon. Friend and the hon. Member to the press conference I held with the Prime Minister on Tuesday 25 August 2009, a transcript is available on the No. 10 website:

http://www.number10.gov.uk/Page20427

A copy has been placed in the Libraries of the House.

SOLICITOR-GENERAL

Information Commissioner's Operation Motorman

Harry Cohen: To ask the Solicitor-General whether there are plans for further prosecutions arising from the Information Commissioner's Operation Motorman. [291368]

Mr. Wills: I have been asked to reply as the Minister responsible for the Information Commissioner's Office.

In 2004, the Crown Prosecution Service (CPS) brought four prosecutions on behalf of the Metropolitan Police Service for offences related to the unlawful obtaining of personal data using information from the Information Commissioner's Operation Motorman. It has no plans at present to bring further prosecutions.

The Information Commissioner's Office (ICO) also has no plans to pursue further prosecutions as a result of Operation Motorman. This information has been provided by the ICO.

The Government take matters of data protection very seriously. We keep data protection legislation under constant review to ensure that the framework is adequate and work with the ICO closely to ensure that the Act is working well.

TRANSPORT

Dartford-Thurrock Crossing: Tolls

Mr. Holloway: To ask the Minister of State, Department for Transport whether he has made an assessment of the effect on journey times, congestion and pollution at the Dartford River Crossing of the suspension of the tolls in July 2009; and if he will make a statement. [291353]

Paul Clark: The charges were suspended on 21 July 2009 for about six hours between the busy rush hour periods due to the failure of the crossing's standby generator during the power cut. As the traffic counting systems also failed we have no measure of the traffic flows but staff on site reported light flows below normal expected levels. The operator considered that flows in the area were lighter because a significant part of the local network including shopping centres and businesses did not have power to operate.

There was some congestion around 10.30am as the systems failed and the operator switched to manual charge collection.

The crossing was operated manually with staff placed in each lane to control traffic and the additional staffing helped to ensure that there were no significant incidents that would have disrupted traffic in the toll plazas.

The effect on journey times, congestion and pollution cannot be measured but the light traffic levels combined with additional staffing levels operating the crossing appears to have avoided significant delays and stationary traffic.

London Midland: Standards

Mr. Lancaster: To ask the Minister of State, Department for Transport what assessment he has made of the effects of the West Coast Main Line infrastructure on London Midland's recent performance. [291231]

Paul Clark: London Midland's performance has been affected in recent months by various failures of Network Rail's infrastructure. Joint action plans are in place between Network Rail and London Midland to address these issues, with Network Rail committing additional engineers and trouble shooters during the busiest times of the day at around 20 locations. Network Rail is also accelerating the replacement of less reliable equipment, including points, power and signalling cables. Overall recent performance has improved.

Mr. Lancaster: To ask the Minister of State, Department for Transport whether he plans to review the level of subsidy provided to London Midland in light of its recent performance. [291232]

Paul Clark: There are no plans to review the level of subsidy provided to London Midland in light of its recent performance.

Mr. Lancaster: To ask the Minister of State, Department for Transport what recent assessment he has made of London Midland's ability to meet the terms of its franchise commitments. [291233]

Paul Clark: The Department for Transport continues to assess London Midland's ability to meet the terms of its franchise commitments. Where an operator does not meet its contractual commitments, the Department follows the processes which are set out in the enforcement policy. A copy of the enforcement policy can be located on the Department's website at

http://www.dft.gov.uk/consultations/archive/2008/rfaandcomain/results.pdf

London-Peterborough Railway Line

Mr. Moss: To ask the Minister of State, Department for Transport how many services on the Peterborough to London rail line were *(a)* cancelled, *(b)* late and *(c)* overcrowded in each of the last 10 years; and if he will make a statement. [291284]

Paul Clark: The Department for Transport does not hold the specific information requested. The principal train operating company operating on the East Coast is NXEC (previously GNER). The Department does not hold information on trains cancelled by NXEC/GNER, between Peterborough to London.

The operator's total cancellations are listed for the last 10 years in the following table:

GNER/NXEC total cancellations

	Annual totals
2000	306
2001	1,087
2002	615
2003	736
2004	661
2005	559
2006	546
2007	805
2008	997
2009	625

GNER/NXEC total cancellations

	Annual totals
2009	625

Motor Vehicles: Registration

Bob Russell: To ask the Minister of State, Department for Transport how many vehicles in each category were registered with a statutory off road notification classification in each of the last three years. [291288]

Paul Clark: The following table shows the number of vehicles by category which were registered as SORN during the last three years.

	Cars	*Motor cycles*	*Light goods*	*Heavy goods*	*Buses and coaches*	*All other vehicles*	*Total*
2006	1,055,256	389,659	188,702	35,264	11,394	39,196	1,691,471
2007	1,040,936	392,270	181,817	35,179	11,690	43,008	1,704,900
2008	1,072,025	426,992	197,564	40,795	12,173	47,807	1,797,336

All other vehicles includes vehicles like tractor excavators, forklift trucks, rollers, ambulances, taxis, three wheelers and agricultural vehicles.

Motorway Service Areas

Mrs. Villiers: To ask the Minister of State, Department for Transport if he will publish the valuation his Department made of motorway service areas owned or partly owned by the Government. [291415]

Paul Clark: A detailed valuation study of the Government's freehold interest in motorway service areas was commissioned by the Highways Agency in April this year. This is being undertaken by property consultants with specialist sector knowledge and their report is expected in October.

Mrs. Villiers: To ask the Minister of State, Department for Transport which motorway service areas are *(a)* wholly and *(b)* partially owned by his Department. [291416]

Paul Clark: There are 67 Motorway Service Areas (MSA) across the Strategic Road Network in England. The Secretary of State wholly owns the freehold of 20 sites as listed. The Secretary of State has no partial ownership in any MSA.

Public Transport: Internet

Pete Wishart: To ask the Minister of State, Department for Transport what assessment he has made of the merits of providing free wifi access on all buses and trains in England. [291393]

Paul Clark: No such assessment has been made. The Department for Transport is supportive of the objective of the recent Digital Britain report to provide ubiquitous mobile coverage throughout the transport networks. This is a commercial matter for rail franchisees and bus operators a number of whom have chosen to provide Wifi services to their customers.

Speed Limits: Cameras

James Duddridge: To ask the Minister of State, Department for Transport how long on average elapses between the installation of an average speed camera and it becoming operational; and what percentage of such cameras installed in the last 12 months have not become fully operational within this period. [291387]

Paul Clark: This information is not held by the Department for Transport. Since 1 April 2007 the deployment of safety cameras has been the responsibility of individual local road safety partnerships. The partnerships are entirely responsible for the installation and operation of all cameras within their area.

James Duddridge: To ask the Minister of State, Department for Transport what assessment has been made of the effectiveness of *(a)* average and *(b)* fixed speed cameras installed in England and Wales on (i) motorways, (ii) A roads and (iii) B roads in the last 12 months. [291388]

Paul Clark: The Department for Transport does not routinely assess the effectiveness of speed cameras, although the Department's guidance does recommend that speed and collision data are collected by road safety partnerships and the contribution cameras make to casualty reduction monitored and reviewed, at least annually. Cameras that operated under the National Safety Camera programme, which ended on 31 March 2007 proved to be very effective. Fatal casualties reduced by an average of 43 per cent. at fixed camera sites and killed or seriously injured casualties reduced by an average of 51 per cent. At mobile camera sites fatal casualties reduced by 42 per cent. and killed or seriously injured casualties reduced by an average of 22 per cent.

Traffic Management Act 2004

Mrs. Villiers: To ask the Minister of State, Department for Transport on what occasions highways authorities have been found in breach of the duty to ensure the expeditious movement of traffic under the Traffic Management Act 2004 since the legislation came into force. [291413]

Paul Clark: Section 20 of the Traffic Management Act 2004 enables the Department for Transport to issue an intervention notice to a local traffic authority in England, giving an opinion that the authority is failing to perform its Network Management Duty under Sections 16 and 17 of the same Act. No such intervention notices have been issued.

Mrs. Villiers: To ask the Minister of State, Department for Transport how many resurfacing notices have been issued under the Traffic Management Act 2004 since the legislation came into force. [291414]

Paul Clark: Currently there is no provision in secondary legislation for street authorities to issue resurfacing notices, consequently none have been issued.

TREASURY

Bankruptcy

Willie Rennie: To ask the Chancellor of the Exchequer (1) what recent estimate his Department has made of the number of bankruptcy claims arising from the application of the provisions of section 58 of the Finance Act 2008; [289115]

(2) what recent estimate his Department has made of the effect on small businesses of the application of the provisions of section 58 of the Finance Act 2008. [289116]

Sarah McCarthy-Fry: Section 58 of the Finance Act 2008 will apply to a small number of individuals who have used a highly artificial tax avoidance scheme seeking to avoid paying UK tax on their UK income.

Section 58 clarifies understanding of the law to give taxpayers certainty in completing their tax returns. It puts beyond doubt that the scheme users are chargeable to UK tax on their share of the partnership income. The Government believes its action was entirely justified and fair to the majority of taxpayers.

Banks: Government Assistance

Mr. Hands: To ask the Chancellor of the Exchequer (1) which banks have made use of the Guarantee scheme for Asset Backed Securities announced on 19 January 2009 to date; [291405]

(2) what the monetary value is of the agreements with banks signed under the Guarantee scheme for Asset Backed Securities announced on 19 January 2009. [291406]

Sarah McCarthy-Fry: The ABS guarantee scheme was made available at Budget 2009, extending funding options open to banks and building societies alongside other Government support schemes, including the existing Credit Guarantee scheme. Demand for the guarantees will depend on eligible institutions' access to alternative sources of funding and demand for mortgage credit in the economy.

A list of eligible instruments guaranteed under the scheme will be made available by the DMO at:

http://www.dmo.gov.uk

Mr. Hands: To ask the Chancellor of the Exchequer which banks have signed up to final contracts under the Asset Protection scheme announced on 19 January 2009. [291407]

Sarah McCarthy-Fry: The announcements made in February and March set out an in-principle agreement with the Royal Bank of Scotland and the Lloyds Banking Group with regard to their participation in the Asset Protection scheme. These agreements were subject to further due diligence, negotiation on the details of the scheme terms, and state aid and shareholder approval. The final agreements remain under negotiation.

Banks: Loans

Mr. Drew: To ask the Chancellor of the Exchequer if he will take steps to prevent banks targeting loans and remortgaging packages to people approaching state retirement age. [291349]

Sarah McCarthy-Fry: For some people approaching state retirement age, mortgages can be an appropriate way of helping to manage their finances. The Government are determined, however, that lenders treat all customers fairly.

In 2004, the Government extended the scope of Financial Services Authority (FSA) regulation to include mortgages. The FSA's regime requires lenders to treat customers fairly, and offers consumers protection by requiring that, for example, firms satisfy themselves that a mortgage commitment is affordable.

The FSA publishes guidance for lenders on how they should deal with mortgages that will run into retirement. This guidance is available on the FSA's website at:

http://www.fsa.gov.uk/pubs/other/mortgage_lender.pdf

Contracts: Goldman Sachs

Mr. Dai Davies: To ask the Chancellor of the Exchequer how many contracts the Government holds with Goldman Sachs Bank; and what the monetary value of such contracts is in 2009-10. [288567]

Sarah McCarthy-Fry: Goldman Sachs were engaged in autumn 2007 to work for HMT on issues surrounding Northern Rock. To date, Goldman Sachs have been paid £3.8 million in respect of this contract. There are no other contracts in place with Goldman Sachs.

Under the agreement with Northern Rock, certain fees are recoverable and this sum does not therefore represent a net cost to the Treasury.

Council Tax: Scotland

Robert Neill: To ask the Chancellor of the Exchequer what discussions *(a)* Ministers in his Department, *(b)* officials in his Department and *(c)* representatives of HM Revenue and Customs have had with (i) Members of the Scottish Parliament and (ii) the Scottish Executive on options for the replacement of council tax in Scotland with a local property tax following the publication of the Burt Review of local Government finance; and if he will make a statement [291404]

Ian Pearson: The Burt Review of local government finance in Scotland was commissioned by the Scottish Executive and was a devolved matter.

Departmental Billing

John Mason: To ask the Chancellor of the Exchequer what percentage of invoices from suppliers his Department paid within 10-days of receipt in June 2009. [288921]

Sarah McCarthy-Fry: The Treasury paid 99.84 per cent. of invoices not in dispute within 10-days of receipt in June 2009.

Holiday Homes

Miss McIntosh: To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of holiday lets in *(a)* North Yorkshire and *(b)* England which will be affected by the decision to reclassify income from holiday lets as unearned income; [288114]

(2) what the revenue to the Exchequer from taxation on holiday lets was in *(a)* North Yorkshire and *(b)* England in (i) 2005, (ii) 2006, (iii) 2007 and (iv) 2008. [288115]

Mr. Timms: The estimated taxable profit for those who made a net profit on furnished holiday lettings was £90 million, which would be subject to taxation at the marginal rate of the taxpayer. This estimate relates to 2006-07 which is the latest year for which full data is available; estimates for the preceding year are thought to be similar. An impact assessment for the withdrawal of the furnished holiday lets concession will be published at the pre-Budget report, alongside the draft regulations. HM Revenue and Customs do not have information on the number or location of furnished holiday lettings.

Members: Correspondence

Mr. McLoughlin: To ask the Chancellor of the Exchequer when he plans to respond to the letter from the right hon. Member for West Derbyshire of 21 April 2009 on Kaupthing Bank and its effect on his constituent, Mr. Stephen Nix. [288793]

Sarah McCarthy-Fry: A reply has been sent to the right hon. Member.

Mobile Phones

Harry Cohen: To ask the Chancellor of the Exchequer what HM Revenue and Customs' policy is on finalisation of historic unused credit received by mobile telephone companies from consumers. [291370]

Ian Pearson: HM Revenue and Customs' policy is to follow the commercial accounts as prepared under generally accepted accounting practice (GAAP). It is normal accountancy practice as part of GAAP to draw up accounts on the accruals basis. Under this practice, credit purchased by consumers that remains unused and is not repaid is a taxable trade receipt.

Private Finance Initiative

David Taylor: To ask the Chancellor of the Exchequer how many private finance initiative contracts have been re-negotiated since September 2008; and whether the public sector liability has increased as a result of such re-negotiations. [291417]

Ian Pearson: We are not aware of any PFI contracts which have been re-negotiated since September 2008, this would be a matter for the relevant procuring authority in the first instance.

Public Expenditure: Armed Forces

Mr. Wallace: To ask the Chancellor of the Exchequer what payments to the Ministry of Defence have been made out of Treasury reserves to pay for equipment for military operations in *(a)* Iraq and *(b)* Afghanistan. [288561]

Mr. Byrne: Treasury expenditure on the net additional cost of military operations, including equipment, are broken down by theatre in the Ministry of Defence's annual report and accounts. For the most recent 2007-08 accounts the relevant table is listed under Operations and Peacekeeping (RfR2), sub-para 2.3 on page 292.

Public Expenditure: Banks

Dr. Pugh: To ask the Chancellor of the Exchequer what estimate he has made of the proportion of expenditure from the public purse in 2010-11 expected to be spent on Government *(a)* loans to and *(b)* purchase of equity or shares in banks. [288183]

Sarah McCarthy-Fry: As set out in Budget 2009, the Government projects that the net effect of financial sector interventions on the central Government net cash requirement (CGNCR) will be zero in 2010-11.

Royal Mail

Mr. Weir: To ask the Chancellor of the Exchequer how much his Department spent on services provided by Royal Mail in each of the last two years. [288738]

Sarah McCarthy-Fry: The Treasury's spending with the Royal Mail in 2007-08 and 2008-09 was £57,058 and £61,310 respectively.

Scotland

Stewart Hosie: To ask the Chancellor of the Exchequer whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288954]

Mr. Byrne: The Treasury has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its final report, which can be found here:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009fbookmarked.pdf

A Steering Group has been established under the Chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

Social Security Benefit: Fraud

Mr. Steen: To ask the Chancellor of the Exchequer if HM Revenue and Customs will take steps to investigate instances of suspected benefit fraud perpetrated by EU nationals from former Soviet bloc countries. [291237]

Ian Pearson: HM Revenue and Customs (HMRC) takes all instances of suspected fraud seriously and is stepping up its work in this area. The Department is increasing its use of data matching using information from a wide variety of sources to identify those who attempt to abuse the system. HMRC also shares intelligence and investigates cases jointly with other Government agencies.

Those who are caught may face prosecution or in less serious cases, being charged a penalty and interest in addition to repaying the amount they defrauded.

To help prevent fraud from occurring in the first place, child benefit customers must provide HMRC with documentary evidence of the child being claimed for, such as a birth certificate, adoption certificate or passport.

All claims for child benefit are then subject to a wide range of checks throughout the life of each claim. It would be inappropriate to disclose a complete list as to do so may provide assistance to those attempting to defraud the system.

Details of suspected benefit fraud can be reported to the National Benefit Fraud Hotline (0800 854 440), the Child Benefit Helpline (0845 302 1444) or the tax credits Helpline (0845 300 3900).

Tax Credit

Mr. Drew: To ask the Chancellor of the Exchequer in how many tax credit cases payments have been affected by technical difficulties in the last year for which figures are available; and what the average length of time taken to resolve such cases was. [291358]

Mr. Timms: The information is not available. HM Revenue and Customs (HMRC) works with its IT provider to identify and resolve tax credits claims affected by technical difficulties.

Where necessary, HMRC maintains affected tax credits claims by sending manual cash cheque payments to its customers. At the end of August 2009, less than 9,500 households' tax credit claims were being processed clerically.

Taxation: Developing Countries

Mr. Moore: To ask the Chancellor of the Exchequer what steps he plans to take to implement the G20 London Summit commitment to develop proposals by the end of 2009 to make it easier for developing countries to secure the benefits of a new co-operative tax environment; and whether discussion of such proposals will be on the agenda for the forthcoming G20 Summit in Pittsburgh. [291399]

Ian Pearson: The UK is working with its international partners to drive forward the G20 agenda to ensure that developing countries benefit from the new co-operative tax environment.

Earlier this month, G20 Finance Ministers lent further support to the proposal that developing countries should benefit from the new tax transparency, possibly through a multilateral instrument for information exchange, which would allow a wider group of countries—including developing countries—to access relevant tax information.

The Global Forum on Transparency and Exchange of Information for Tax Purposes has agreed to report to the next meeting of G20 Finance Ministers in November on how multilateral tax information exchange agreements (TIEAs) work and what steps are necessary to accelerate full implementation of the international standard on tax information exchange. The UK will be pressing for early implementation of such an instrument. We expect this issue to be discussed at the meeting of G20 Finance Ministers in November.

UK Financial Institutions

Mr. Bone: To ask the Chancellor of the Exchequer what stakes the Government holds in UK financial institutions; how much each cost to purchase; what the present value of each is; what the earliest date is on which each could be repaid; and on what date it is anticipated each will be repaid. [291318]

Sarah McCarthy-Fry: Details of the Government's market investments in RBS and Lloyds Banking Group, including valuations and the Government's strategy for managing the investments over time, are set out in UK Financial Investments' Annual Report, available at:

www.ukfi.gov.uk

Bradford and Bingley and Northern Rock were transferred into public ownership under the Banking (Special Provisions) Act 2008 and independent valuers have been appointed to decide what, if any, compensation is payable to former shareholders.

Further financial information about the banks in which the Government have a stake is available in the Resource Accounts in the Treasury's Annual Report and Accounts 2008-09, available at:

http://www.hm-treasury.gov.uk/d/annual_report_2009_full.pdf

UK Financial Investments: Training

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what training courses have been provided to staff of UK Financial Investments since its inception; and at what cost to the public purse. [289082]

Sarah McCarthy-Fry: UK Financial Investment (UKFI) is a limited company wholly owned by HM Treasury. UKFI's costs are set out in their annual report and accounts, in line with Company's Act reporting requirements and FReM accounting standards. The annual report and accounts can be found on their website at:

www.ukfi.gov.uk

UKFI staff have undertaken various training to ensure that staff are well trained to deliver UKFI's remit to manage the Government's shareholdings commercially and create and protect value for the taxpayer as shareholder.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer whether the Valuation Office Agency treats bedsits *(a)* with and *(b)* without self-contained toilet and washroom facilities separately for the purposes of council tax valuations. [291335]

Ian Pearson: In deciding whether a property should have a single assessment or several, the Valuation Office Agency (VOA) will consider whether the property contains self-contained units "constructed or adapted for use as separate living accommodation".

Individual flats or bedsits may be allocated their own council tax band, even though some of the facilities and accommodation may be shared with other residents of the same building. The VOA's judgment will depend on the specifics of the property in question and the nature of the occupation.

Further guidance on the treatment of bedsits for council tax is available at:

http://www.voa.gov.uk/council_tax/multiple_property.htm

and

http://www.voa.gov.uk/publications/public_fact_sheets/self-contained-units.html

Mrs. Spelman: To ask the Chancellor of the Exchequer with reference to the answer of 6 February 2006, *Official Report*, column 1036W, on Valuation Office Agency, how many reports of convictions and related offences the Valuation Office Agency has received from the Cabinet Office in respect of its staff each of the last three years. [291339]

Mr. Timms: The Valuation Office Agency has received fewer than five reports of convictions and related offences from the Cabinet Office. All reports have been received within the period April to September 2009.

Valuation Office Agency: Publications

Mr. Dunne: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the referencing guidance and manuals produced by the Valuation Office Agency for the inspection and valuation of *(a)* advertising rights and stations and *(b)* licensed property. [291243]

Mr. Timms: The manuals used by the Valuation Office Agency (VOA) are routinely updated to reflect changes and new information. They are published online at:

http://www.voa.gov.uk/instructions/Index.htm

The section of the VOA's Rating Manual relevant to advertising rights and stations can be found at:

http://www.voa.gov.uk/instructions/chapters/rating_manual/vol5/sect20/frame.htm

Licensed property is covered in the following section of the VOA's Rating Manual:

http://www.voa.gov.uk/instructions/chapters/rating manual/vol5/sect825/frame.htm

Mr. Dunne: To ask the Chancellor of the Exchequer with reference to page 33 of the Valuation Office Agency's Annual Report and Accounts 2008-09, HC 521, in which six process areas the Agency fell below minimum target standards in its information security high level assessment. [291244]

Ian Pearson: The six process areas are those related to the HMG information Assurance Maturity Model and Assessment Framework, specifically:

Leadership and Governance
Training, Education and awareness
Information Risk Management
Through-Life Information Assurance Measures
Assured Information Sharing
Compliance

Mr. Dunne: To ask the Chancellor of the Exchequer with reference to page 33 of the Valuation Office Agency's (VOA) Annual Report and Accounts 2008-09, HC 521, if he will place in the Library a copy of Deloitte's report on its high level assessment of the maturity and effectiveness of VOA information security, redacted for security reasons as necessary. [291245]

Ian Pearson: The Deloitte report assesses the Valuation Office Agency's (VOA) security maturity and identifies the areas for improvement to enable full compliance with the Poynter review, with the HMG Security Policy Framework and Minimum Mandatory Measures and ISO 27001—the industry standard measure for information security compliance.

The report has therefore been classified as restricted, and cannot be published. Redaction of material, which may aggravate security risks if published, would render the report meaningless.

Working Capital Scheme

Mr. Hands: To ask the Chancellor of the Exchequer what the monetary value of the agreements with banks signed under the Working Capital scheme is. [291408]

Ms Rosie Winterton: I have been asked to reply.

£2 billion of guarantees have been provided to banks under the Working Capital scheme to free up regulatory capital for new lending to UK companies. As a result of action by the Government and the regulatory authorities, leading to improvements in the capital position of the UK banking system since the introduction of the WCS, the Government have been able to allocate resource provision for the WCS to other measures to support businesses, including as announced at the Budget 2009 a trade credit insurance top up scheme and a possible new letters of credit scheme in the Export Credit Guarantee Department.

Mr. Hands: To ask the Chancellor of the Exchequer which banks have signed up to the Working Capital scheme to date. [291409]

Ms Rosie Winterton: I have been asked to reply.

Guarantees have been provided to Royal Bank of Scotland PLC (RBS), National Westminster Bank PLC (NatWest), and Lloyds TSB Bank PLC and Lloyds TSB Scotland PLC (Lloyds Banking Group) under the Working Capital scheme to free up regulatory capital for new lending to UK companies. As a result of action by the Government and the regulatory authorities, leading to improvements in the capital position of the UK banking system since the introduction of the WCS, the Government have been able to allocate resource provision for the WCS to other measures to support businesses, including as announced at the Budget 2009 a trade credit insurance top up scheme and a possible new letters of credit scheme in the Export Credit Guarantee Department.

WALES

M4: Newport Gwent

Mrs. Gillan: To ask the Secretary of State for Wales what discussions he has had with Welsh Assembly Government Ministers on the M4 relief road. [291213]

Mr. Hain: I have regular meetings with the First Minister to discuss a range of issues relating to Wales, including transport matters.

WOMEN AND EQUALITY

Polly Toynbee

Mr. Pickles: To ask the Minister for Women and Equality what payments *(a)* the Government Equalities Office and *(b)* the Equality and Human Rights Commission have made to Ms Polly Toynbee; and for what purposes. [291000]

Maria Eagle: The Government Equalities Office and the Equality and Human Rights Commission have made no payments to Polly Toynbee.

WORK AND PENSIONS

Children: Maintenance

Mr. Sanders: To ask the Secretary of State for Work and Pensions in respect of how many child maintenance cases her Department has overridden payment schedules agreed in court in each of the last five years. [282543]

Helen Goodman: I have consulted with the Child Maintenance and Enforcement Commission who are now responsible for child maintenance. They have confirmed that the information requested is not available.

David Taylor: To ask the Secretary of State for Work and Pensions how long on average the Child Maintenance and Enforcement Commission takes to recalculate from the point of notification child maintenance liabilities for non-resident parents who return to work after a period of unemployment under the *(a)* old and *(b)* new scheme. [291132]

Helen Goodman *[holding answer 14 September 2009]:* I refer the hon. Member to the reply given to the hon. Member for South-West Bedfordshire (Andrew Selous) on 14 July 2009, *Official Report*, column 282W.

Housing Benefit

Mr. Soames: To ask the Secretary of State for Work and Pensions how much housing benefit has been paid to people born outside the UK in each year since 1994. [291208]

Helen Goodman: The information is not available.

Industrial Injuries Disablement Benefit: Hemsworth

Jon Trickett: To ask the Secretary of State for Work and Pensions how many people in Hemsworth constituency have benefited from changes to industrial injuries disablement benefit since 1997. [288788]

Jonathan Shaw: The information is not available at a constituency level.

Jobcentre Plus: Chelmsford

Mr. Burns: To ask the Secretary of State for Work and Pensions how many job vacancies were notified to Chelmsford Jobcentre Plus in each of the last six months for which figures are available. [290994]

Jim Knight *[holding answer 14 September 2009]:* The information requested is in the following table.

Notified and live unfilled vacancies in West Chelmsford in the last six months

Date	*West Chelmsford parliamentary constituency*	*Chelmsford local authority*	*Chelmsford Jobcentre Plus*
Live unfilled vacancies			
February 2009	629	707	768
March 2009	442	531	649
April 2009	484	540	629
May 2009	565	640	667

Notified and live unfilled vacancies in West Chelmsford in the last six months

Date	West Chelmsford parliamentary constituency	Chelmsford local authority	Chelmsford Jobcentre Plus
June 2009	655	715	757
July 2009	711	816	861
Notified vacancies			
February 2009	1,019	1,132	1,208
March 2009	548	643	740
April 2009	652	724	772
May 2009	738	854	891
June 2009	762	868	951
July 2009	735	903	967

Notes:
1. Data are unrounded and will include overlaps between the areas provided for this answer.
2. Changes to Jobcentre Plus vacancy handling procedures have led to a major discontinuity in the vacancy statistics pre and post May 2006. Consequently, care should be taken in interpreting time-series data.
3. These are not whole economy figures. Coverage relates just to vacancies notified to Jobcentre Plus and as such represent a market share of vacancies throughout the whole economy. This proportion varies overtime, according to the occupation of the vacancy and industry of the employer, and by local area. Comprehensive estimates of all job vacancies (not just those notified to Jobcentre Plus) are available from the monthly ONS Vacancy Survey since April 2001, based on a sample of some 6,000 enterprises. However, the ONS survey is currently designed to provide national estimates only.
4. Notified vacancies. Monthly data on the inflow of newly notified vacancies to Jobcentre Plus.
5. The stocks of live unfilled vacancies reflect more accurately job opportunities available via Jobcentre Plus. In the case of unfilled vacancies, use of the figures on live vacancies is recommended (i.e. excluding suspended vacancies), and this is the default option. Live vacancies may still include some vacancies which have already been filled or are otherwise no longer open.
6. To provide a geographic breakdown, in most cases the postcode of the vacancy is used to allocate the vacancy to a local area. Where this is missing or invalid, the employers' postcode or the postcode of the local Jobcentre Plus office is used.
7. These figures are published at:
www.nomisweb.co.uk
Source:
Jobcentre Plus Labour Market System

Jobseeker's Allowance: Young People

Mr. Vara: To ask the Secretary of State for Work and Pensions how many people aged *(a)* 16 and *(b)* 17 years were in receipt of jobseeker's allowance in each of the last 10 years. [291003]

Jim Knight *[holding answer 14 September 2009]:* The information requested is shown in the following table.

Number of jobseeker's allowance claimants aged 16 and 17 in Great Britain in each of the last 10 years

As at July each year:	Aged 16	Aged 17
1999	2,465	11,720
2000	2,195	11,230
2001	2,035	10,060
2002	2,030	10,040
2003	2,100	10,575
2004	1,975	9,460
2005	1,725	10,260
2006	1,740	10,195
2007	1,020	7,695
2008	770	6,030
2009	825	7,030

Notes:
1. Data is rounded to the nearest five.
2. Data is published at:
https://www.nomisweb.co.uk
Source:
100 per cent. count of claimants of unemployment-related benefits, Jobcentre Plus computer systems.

Minimum Wage: Young People

Dr. Starkey: To ask the Secretary of State for Work and Pensions what assessment she has made of the merits of providing the adult national minimum wage rate to 18 year olds. [290987]

Mr. McFadden *[holding answer 14 September 2009]:* I have been asked to reply.

The effects of the NMW on younger workers need to be considered carefully to avoid damaging incentives between education and work and ensure the employment prospects of younger workers are not adversely affected.

We know that young workers experience substantially worse unemployment and employment rates than adults. Both are more sensitive to the economic cycle. That is why the Low Pay Commission recommended a separate youth rate from the outset in 1999 and continues to believe there is a case for retaining them. Government and the LPC are concerned that removing the youth rates could adversely affect employment levels for this group. Earlier this year, the LPC recommended that 21-year-olds be entitled to the adult minimum wage. We have accepted this recommendation but, given the current economic conditions, stated that this change will be implemented from October 2010.

Pension Credit: Morecambe

Geraldine Smith: To ask the Secretary of State for Work and Pensions how many people in Morecambe and Lunesdale constituency were in receipt of pensions credit on the latest date for which figures are available. [287996]

Angela Eagle: As at November 2008, there were 5,240 households in receipt of pension credit in Morecambe and Lunesdale parliamentary constituency.

Notes:
1. The number of households in receipt are rounded to the nearest 10.
2. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.

Written Answers to Questions

The following answers were received between Thursday 17 September and Monday 5 October 2009

INTERNATIONAL DEVELOPMENT

G20: USA

Mr. Moore: To ask the Secretary of State for International Development what recent discussions he has had with the *(a)* Prime Minister and *(b)* Chancellor of the Exchequer on the agenda for the forthcoming G20 conference in Pittsburgh; which international development issues he expects to be discussed at the conference; whether (i) he and (ii) his senior Departmental staff will form part of the UK delegation to the conference; and if he will make a statement [291401]

Mr. Douglas Alexander: I have regular discussions with the Prime Minister, the Chancellor of the Exchequer and other members of the Cabinet as part of our ongoing preparations for the G20 summit in Pittsburgh on 24 to 25 September. These discussions include a range of international development issues.

The United States has said that they will make sure that the summit gives attention to the poorest countries. An important UK objective is to ensure the summit demonstrates concrete action to mitigate the impact of the crisis on the poorest and shows significant progress with implementation of development commitments secured at the London summit in April 2009.

The Pittsburgh summit will be held at heads of state or government level and as such there are no plans for Department for International Development (DFID) Ministers or staff to attend.

COMMUNITIES AND LOCAL GOVERNMENT

Fire Engines: Armed Forces

Robert Neill: To ask the Secretary of State for Communities and Local Government to which organisations operating at what locations have green goddess fire engines previously used to provide emergency fire cover been *(a)* sold and *(b)* donated in each of the last five years. [291209]

Mr. Malik *[holding answer 16 September 2009]:* Donations of green goddesses have been made to the following organisations:

Operation Florian, based in Lincoln, for humanitarian purposes in Zambia, Paraguay, Uruguay, Bosnia, Peru, Bolivia, Albania, Kosovo, Montenegro, Argentina and Pakistan; (2006 and 2007)

Liverpool city council for onwards transmission by the Hands Across the Sea Appeal Fund for humanitarian purposes in Sri Lanka; (2006)

Freetown Special Projects Trust, based at Hull city council, for humanitarian purposes in Sierra Leone; (2006)

Rapid UK, based in Devon for humanitarian purposes in Peru; (2005) and Gambia and Avon Fire Services Partnership, based in Bristol, for humanitarian purposes in Gambia (2007).

Donations of Green Goddesses for heritage purposes have been made to:

The Military Vehicle Trust (Kettering) (2006)

The RAF Museum (Hendon) (2006)

The Dambusters Museum (RAF Scampton) (2006)

Manston Fire Museum (Manston) (2006)

The Civil Defence and Emergency Service Preservation Trust (Airdrie) (2006)

The British Fire Services Association (Sleaford) (2007)

South East Midlands Military Vehicle Trust (Burton Latimer) (2007)

Mid and West Wales Fire Engine Preservation Group (Neath) (2006)

The AFS Vehicle Restoration Group (Midlands) (Corby) (2006)

The Fire Police Museum (Sheffield) (2006)

The National Historic Vehicle Society (Basingstoke) (2006)

The Welsh Area Fire Engine Restoration Society (Neath) (2006)

The Whitewebbs Museum of Fire (Enfield) (2006)

Devon Military Vehicle Trust (Princetown) (2006)

The Coalhouse Fort Project (East Tilbury) (2006).

With regard to sales, I will place a list of the organisations which have purchased green goddesses over the past five years in the Library of the House. This list does not contain the names of individuals who have purchased green goddesses as this information is covered by data protection legislation. In addition we are unable to provide locations for the purchasers as the information requested could be provided only at disproportionate cost.

WORK AND PENSIONS

Armed Forces: Pensions

Mr. Cawsey: To ask the Secretary of State for Work and Pensions what plans she has to review the operation of the War Pensions Scheme. [291118]

Bill Rammell *[holding answer 14 September 2009]:* I have been asked to reply.

Responsibility for the War Pensions Scheme was passed from the Department of Work and Pensions to the Ministry of Defence in 2000.

The scheme is kept under constant review and in June 2007, a Stewardship review, which includes the management and administration of the scheme, was announced to the Central Advisory Committee on Pensions and Compensation (CAC), the statutory body for matters relating to war pensions, made up of representatives of ex-service organisations. A package of amendments was made to the scheme in April 2009, mainly to ease administration or correct anomalies in certain areas.

The CAC will be fully consulted if any further changes to the scheme are proposed.

WOMEN AND EQUALITY

Equality and Human Rights Commission: Resignations

Mr. Stewart Jackson: To ask the Minister for Women and Equality which *(a)* senior officials, *(b)* commissioners and *(c)* members of the Audit Committee of the Equality and Human Rights Commission have resigned in the last 12 months; and on what date each resigned. [291307]

Michael Jabez Foster: EHRC resignation information provided in the following table:

Name	*Date of resignation*
(a) Senior officials	
Nicola Brewer	28 January 2009
Patrick Diamond	31 March 2009
Bradley Brady	1 July 2009
Kamal Ahmed	24 July 2009
Mags Patten	19 August 2009
(b) Commissioners	
Kay Hampton	25 March 2009
Jane Campbell	16 July 2009
Francesca Klug	17 July 2009
Bert Massie	18 July 2009
(c) Members of the EHRC Audit and Risk Committee[1]	
Jane Earl	12 August 2009
Angie Jezard	13 August 2009

[1] Both co-optees have indicated a willingness to continue to serve on the committee until its November 2009 meeting.

Equality: Applications

Mr. Dunne: To ask the Minister for Women and Equality whether the new public duty in the Equality Bill to address socio-economic disadvantage will be a material consideration in the assessment of *(a)* planning applications and *(b)* licensing applications by local authorities. [291242]

Michael Jabez Foster: The new socio-economic duty will be a consideration for local authorities when they are making decisions of a strategic nature, such as when preparing their sustainable community strategies, and setting key objectives and spending priorities. The sustainable community strategy is in turn reflected in the local development framework, which is one of the documents that shapes how those objectives are delivered. The duty will therefore influence the overall strategic plans and policies in the light of which individual planning and licensing applications are considered. It may also, in particular cases, be material to individual decisions, where the local authority considers these to be of a strategic nature.

Travelling People: Equality

Mr. Dunne: To ask the Minister for Women and Equality what assessment has been made of the likely effects of the introduction of the new public duty in the Equality Bill to address socio-economic disadvantage on the provision of services to Travellers. [291241]

Michael Jabez Foster: The new duty will reduce the effects of socio-economic disadvantage. When local authorities and other key public bodies are making decisions of a strategic nature, such as deciding priorities and setting objectives, they will need to consider how their decisions could help to reduce the inequalities associated with socio-economic disadvantage.

The most recent report on the Government's strategy for race equality and community cohesion "Improving Opportunity, Strengthening Society—A third progress report—February 2009", highlighted the many socio-economic disadvantages suffered by Gypsies and Travellers, so they are likely to benefit from the new duty. Copies are available in the Libraries of the House.

HOME DEPARTMENT

Family Intervention Projects

Bob Spink: To ask the Secretary of State for the Home Department how many family intervention projects at each level of intervention have been set up in *(a)* England, *(b)* Essex and *(c)* Castle Point; and if he will make a statement. [291061]

Mr. Coaker *[holding answer 14 September 2009]:* I have been asked to reply.

There are currently 164 Family Intervention Projects (FIPs). The majority of these provide support on an outreach basis, supporting families in their own home. There are currently six projects that run core, residential units. Essex has two FIPs based in Harlow and Tendering, both of which provide an outreach service.

FIPs are a key part of Government policy to support families at risk. The projects use a twin-track approach of support alongside sanctions to provide families with the incentives to change. An assertive key worker plays a pivotal, challenging and coordinating role in the projects 'gripping' the whole family, and the agencies involved with them. Early evaluation of Family Intervention Projects has shown that they are helping to reduce anti-social behaviour, prevent homelessness and improve the health and education of families.

BUSINESS, INNOVATION AND SKILLS

Millennium Compliance

Mr. Lilley: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent from the public purse on steps to *(a)* encourage UK businesses to prepare for the millennium date change and *(b)* prevent problems attributable to the millennium bug in the public sector. [290686]

Tessa Jowell: I have been asked to reply.

I refer the right hon. Member to the answer given by the then Minister for the Cabinet Office (Mr. Alexander) on 7 January 2003, *Official Report*, column 71W. The detailed information requested is not held centrally and could be obtained only at disproportionate cost.

CHILDREN, SCHOOLS AND FAMILIES

Class Sizes: North East

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families how many children were taught in classes of more than 30 pupils in *(a)* the North East, *(b)* Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency in each of the last 10 years. [285330]

Mr. Coaker: The requested information is shown in the table:

Maintained primary[1] and state-funded secondary[1,2] schools: number of pupils in classes[3] of more than 30 pupils—As at January each year in North East Government Office Region, Tees Valley and Middlesbrough South and East Parliamentary Constituency

	North East			Tees Valley[4]			Middlesbrough South and East Cleveland		
	Number of pupils in classes of over 30	Number of pupils in all classes	% of pupils in classes of over 30	Number of pupils in classes of over 30	Number of pupils in all classes	% of pupils in classes of over 30	Number of pupils in classes of over 30	Number of pupils in all classes	% of pupils in classes of over 30
1999	75,720	389,610	19.4	21,300	109,210	19.5	2,040	14,170	14.4
2000	66,050	389,990	16.9	18,110	109,000	16.6	2,030	14,060	14.4
2001	57,500	387,080	14.9	16,710	106,820	15.6	1,870	13,590	13.7
2002	48,470	378,170	12.8	13,410	105,950	12.7	950	13,360	7.1
2003	47,770	378,370	12.6	13,440	103,830	12.9	1,660	12,810	13.0
2004	46,090	372,350	12.4	12,140	101,370	12.0	1,400	12,430	11.3
2005	44,240	366,680	12.1	11,180	100,440	11.1	1,150	12,230	9.4
2006	43,170	359,540	12.0	11,070	98,520	11.2	1,250	12,190	10.2
2007	39,010	351,140	11.1	9,610	95,800	10.0	730	11,560	6.3
2008	39,240	345,100	11.4	11,010	93,580	11.8	1,070	11,480	9.3

[1] Includes middle schools as deemed.
[2] Includes CTCs and academies.
[3] One teacher classes as taught during a single selected period in each school on the day of the census in January.
[4] Tees Valley is Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton-on-Tees and Darlington local authorities.
Note:
Pupil numbers have been rounded to the nearest 10.
Source:
School Census

The table covers classes in primary and secondary schools. There is a legal limit of 30 pupils for infant classes.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on services from Royal Mail in each year since it was established. [288789]

Mr. Coaker: Since the Department for Children, Schools and Families was established the amount spent on Royal Mail services has been:

	£
2007-08	180,864.05
2008-09	177,705.47
2009-10 (to end June)	42,221.26

Further Education

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government have taken to encourage young people to enter further education. [291298]

Mr. Iain Wright *[holding answer 16 September 2009]:* We are determined to ensure that as many young people as possible continue their learning beyond the age of 16 to get the qualifications and experience they need to succeed in an increasingly competitive labour market.

Through the September Guarantee, we are providing every young person aged 16-17 with a suitable offer of a place in learning. This has helped us to make excellent progress on participation, with a record level of 88 per cent. of 16-17 year olds in education and training at the end of 2008. Additional investment of £655 million allocated in Budget 2009 has enabled the number of post-16 learning places available this academic year to increase to all time high of 1.55 million. Young people also have access to a range of financial support such as the education maintenance allowance to help them engage in learning.

GCE A-level

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 December 2008, *Official Report*, columns 747-51W, on geography: GCE A level, how many and what percentage of the maintained mainstream schools that did not enter any pupils for an A level examination in geography entered at least one pupil for an A level examination in *(a)* media studies, *(b)* communication and culture and *(c)* sociology. [286772]

Mr. Coaker: Of the maintained mainstream schools that did not enter any pupils for an A level in geography in 2006-07:

(a) 116 (49 per cent.) entered at least one pupil for an A level in media, film and TV studies.

(b) 8 (3 per cent.) entered at least one pupil for an A level in communication studies.

(c) 141 (59 per cent.) entered at least one pupil for an A level in sociology.

Note:

The figures relate to 16-18 year olds in maintained mainstream schools that were published in the School and College Achievement and Attainment Tables in 2006-07 and had A-level candidates.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of students in comprehensive schools achieved

GCSE English, English literature and mathematics at grade C or higher in *(a)* 1997, *(b)* 2002 and *(c)* the last year for which figures are available. [283466]

Mr. Coaker: Of those pupils at the end of Key Stage 4 in comprehensive schools in England in 2008, 227,380 (42.4 per cent.) achieved a GCSE in all of English, English Literature and Mathematics at grade C or above.

Prior to 2005 statistics are available only for those pupils aged 15 (age at start of academic year, i.e. 31 August), rather than at the end of Key Stage 4.

Of those pupils aged 15 in comprehensive schools in England in 2002, 184,966 (36.7 per cent.) achieved a GCSE in all of English, English Literature and Mathematics at grade C or above.

Of those pupils aged 15 in comprehensive schools in England in 1997, 114,678 (29.8 per cent.) achieved a GCSE in all of English, English Literature and Mathematics at grade C or above.

The source for this answer is the Achievement and Attainment Tables database.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils who achieved a GCSE in core science and one of *(a)* geology, *(b)* psychology, *(c)* electronics, *(d)* astronomy, *(e)* environmental science, *(f)* environmental and land-based science and *(g)* human physiology and health at each grade were educated in the (i) maintained mainstream and (ii) independent sector in each year since 2007. [286853]

Mr. Coaker: In this answer all of the given subjects have been interpreted to mean their scientific GCSE syllabuses only. For example, electronics does not include D&T and Electronics or any vocational electronics qualifications. Human physiology and health has been interpreted to mean human biology.

In 2007, there were only 17 pupils at the end of Key Stage 4 achieving a GCSE in core science and at least one GCSE in geology, environmental science or human biology, both at grade A*-G. All of these pupils were educated in the maintained sector.

In 2008, pupils at the end of Key Stage 4 achieving a GCSE in core science and at least one of the requested subjects, both at grade A*-G, are counted in the following table:

	A-G*	*A*-G*
Maintained sector		
Geology	294	93.0
Electronics	353	96.7
Astronomy	590	97.4
Environmental Science	1,790	98.1
Human Biology	1,785	100.0
Independent sector		
Geology	22	7.0
Electronics	12	3.3
Astronomy	16	2.6
Environmental Science	34	1.9
Human Biology	0	0.0

As can be seen from the table, only very small numbers of pupils in the independent sector are counted. Because of those small numbers, it is not possible to give figures for a breakdown into separate grades.

No pupils at the end of Key Stage 4 achieved passes in both core science and either psychology as a science or environmental and land-based science.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many students achieved Grade B or above in both GCSE English and mathematics in 2008. [287384]

Mr. Coaker: 154,276 pupils at the end of key stage 4 achieved a grade B or above in both GCSE English and mathematics in 2007/08.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families in which five non-core curriculum subjects the number of GCSE entries was highest in each *(a)* comprehensive, *(b)* selective and *(c)* partially selective local education authority area in 2009. [291134]

Mr. Coaker *[holding answer 14 September 2009]:* For this answer, a comprehensive local authority has been defined as one where all pupils in the maintained sector are attending comprehensive schools, whereas a partially selective local authority has been defined as having between 0 per cent. and 25 per cent. of 13-year-old pupils on roll attending one or more selective schools. Finally, a selective local authority has been defined as having 25 per cent. or more 13-year-old pupils on roll attending one or more selective schools.

Excluding English, maths and science GCSEs, the five subjects with the most entries by pupils at the end of Key Stage 4 in 2008 (the latest year for which figures are available) are given in the following table, for local authorities that are comprehensive, selective and partially selective.

Rank in descending order of entries	*1. English Literature*	*2. History*	*3. Art and Design*	*4. Geography*	*5. Religious Studies*
Comprehensive local authorities					
Number of entries	327,900	122,500	112,600	104,300	101,600
Proportion of all entries (percentage)	20.7	7.8	7.1	6.6	6.4

Rank in descending order of entries	1. English Literature	2. History	3. Art and Design	4. Geography	5. Religious Studies
Partially selective local authorities					
Number of entries	100,800	40,200	36,000	35,700	35,400
Proportion of all entries (percentage)	19.7	7.9	7.0	7.0	6.9

Rank in descending order of entries	1. English Literature	2. History	3. French	4. Art and Design	5. Geography
Selective local authorities					
Number of entries	43,300	17,400	15,200	15,200	15,000
Proportion of all entries (percentage)	20.3	8.1	7.1	7.1	7.0

Only full GCSEs are included in this analysis. English Literature has been included as a non-core curriculum subject because it extends beyond the literature content in core National Curriculum English programme of study. English GCSE covers both the literature and language content of National Curriculum English.

GCSE: History

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils eligible to receive free school meals have been entered for GCSE history in each year since 1997. [284579]

Mr. Coaker: The information available can be found in the following table:

Number and proportion of pupils eligible to receive free school meals who have been entered for GCSE history in each year since 2002

	Number	Percentage
2003	15,755	19.4
2004	16,324	19.7
2005	15,348	19.3
2006	14,726	18.9
2007	14,057	18.4
2008	13,338	17.9

Source:
National Pupil Database (NPD).

Figures prior to 2003 are not available on a comparable basis.

The figures for 2003 and 2004 are for pupils aged 15. The figures for 2005-08 are based on pupils at the end of KS4.

GCSE: Truancy

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* persistent truants and *(b)* all pupils gained fewer than five A* to C grades at GCSE in 2008. [287224]

Mr. Coaker: In 2008, 226,351 pupils at the end of Key Stage 4 did not achieve five A*-C grades at GCSE or equivalent qualifications. This represents 34.7 per cent. of pupils at the end of Key Stage 4.

Work is ongoing to link pupil-level absence data to achievements. The GCSE achievements of persistent absentees are therefore not yet available.

Head Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many head teachers left the profession for reasons other than retirement in each of the last 10 years. [287223]

Mr. Coaker: Due to data quality issues figures are not available for head teachers only.

History: GCSE/A-level

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils in *(a)* independent and *(b)* maintained comprehensive schools achieved a grade A history A level in 2008; [286701]

(2) how many pupils in *(a)* independent and *(b)* maintained comprehensive schools achieved a grade A* history GCSE in 2008. [286702]

Mr. Coaker: The information requested is given as follows:

3,425 pupils aged 16-18 in independent schools achieved a grade A in A-level history in 2008. This represents 46.4 per cent. of A-level history candidates in independent schools.

3,573 pupils aged 16-18 in comprehensive schools achieved a grade A in A-level history in 2008. This represents 17.8 per cent. of A-level history candidates in comprehensive schools.

7,376 pupils at the end of Key Stage 4 in independent schools achieved a grade A* in GCSE history in 2008. This represents 31.1 per cent. of GCSE history candidates in independent schools.

11,048 pupils at the end of Key Stage 4 in comprehensive schools achieved a grade A* in GCSE history in 2008. This represents 6.9 per cent. of GCSE history candidates in comprehensive schools.

International Baccalaureate

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils are studying for the International Baccalaureate at each school which provides the course; [287252]

(2) in which local authorities one or more schools offers an International Baccalaureate course. [287253]

Mr. Coaker: Information on the qualifications that are offered or the numbers studying for qualifications in schools is not available.

Languages: GCE A-level

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what proportion of maintained mainstream schools offering A level tuition in *(a)* German, *(b)* French and *(c)* Spanish did not enter any pupils for an A level examination in each of those subjects in the latest period for which figures are available. [286801]

Mr. Coaker: The Department only holds information on entries and attainment, not on which schools offer particular A-level subjects.

National Curriculum Tests: Disadvantaged

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many pupils in each index of multiple deprivation decile achieved a Level 4 or above in reading, writing and mathematics in Key Stage 2 tests in the latest period for which figures are available. [286800]

Mr. Coaker: The requested information is shown in the following table.

Results of pupils' eligible for KS2 assessment achieving Level 4 or above in reading, writing and mathematics by IDACI deprivation decile[1] in England[2], 2007-08

	Reading, Writing and Mathematics		Reading		Writing		Mathematics	
	Number of pupils achieving level 4 or above	Proportion of pupils achieving level 4 or above	Number of pupils achieving level 4 or above	Proportion of pupils achieving level 4 or above	Number of pupils achieving level 4 or above	Proportion of pupils achieving level 4 or above	Number of pupils achieving level 4 or above	Proportion of pupils achieving level 4 or above
0-10%	36,381	49	57,683	78	41,848	57	51,278	70
10-20%	33,537	52	52,197	80	38,179	59	46,356	71
20 - 30%	32,613	54	49,725	83	36,827	61	43,946	73
30 - 40%	32,388	58	47,476	85	35,981	65	42,424	76
40 - 50%	33,540	62	47,558	87	36,851	67	42,949	79
50-60%	34,835	65	48,018	89	37,938	71	43,466	81
60 - 70%	35,828	68	47,833	91	38,717	73	43,799	83
70 - 80%	37,799	71	49,663	92	40,457	76	45,241	85
80 - 90%	38,846	73	49,430	93	41,225	78	46,156	87
90-100%	40,499	77	49,624	94	42,569	81	46,808	89

1. Pupils attending maintained schools only.
2. Income Deprivation Affecting Children Index. 0-10% is most deprived, 90-100% is least deprived.
3. Includes pupils with valid postcodes only.

Source:
National Pupil Database (final data)

Pupils: Per Capita Costs

Andrew Stunell: To ask the Secretary of State for Children, Schools and Families what the average expenditure per school pupil in *(a)* primary and *(b)* secondary schools in each local education authority area in England was in each year since 1997; and what the per pupil funding from his Department was in each area in each such year. [291110]

Mr. Coaker *[holding answer 14 September 2009]:* The Department collects figures of public expenditure from local authorities via the Section 52 Outturn statements. The Department does not hold figures by constituency. The Department has placed the relevant information which shows the per school pupil expenditure for primary and secondary schools in each local authority in England from 1997-98 to 2007-08 in the House libraries.

Further information on the public expenditure figures can be found in the Section 52 Outturn statements which the Department publishes on our website at:

http://www.dcsf.gov.uk/localauthorities/section52/subPage.cfm?action=section52.default&ID=64

Per pupil revenue funding figures for pupils aged 3-19 for all local authorities for years 1997-98 to 2005-06 have been placed in the House Libraries.

Please note that these figures are in cash terms and that have not provided figures for City of London or Isles of Scilly.

The revenue per pupil figures shown in the following table is taken from the new Dedicated Schools Grant (DSG). They are not comparable with those for the years 1997-98 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 1997-98 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. The DSG is based largely on an authority's previous spending. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable. An alternative time series is currently under development.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year.

The per pupil revenue funding figures for years 2005-06 to 2008-09 for all local authorities are provided in the following table. The figures for all funded pupils aged 3-19 have been placed in the House Libraries and are in cash terms.

Schools: Closures

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools have been closed for each reason for closure since 1997. [287221]

Mr. Coaker: The following table sets out the numbers of school closures, and their reason for closure in each year since 1999. We do not have reliable information about decisions made prior to 1999.

	Reason for closure						
	Cease to maintain	*Change of religious character*	*Due to amalgamation*	*For academy*	*For fresh start*	*To allow for a new establishment*	*Total*
1999	1	—	1	—	—	—	2
2000	12	—	96	—	8	—	116
2001	26	4	193	—	3	3	229
2002	31	9	180	4	1	1	226
2003	36	10	177	8	5	—	236
2004	54	6	191	6	7	1	265
2005	39	8	211	7	7	—	272
2006	41	4	224	17	3	1	290
2007	45	5	270	34	3	1	358
2008	49	3	193	56	1	—	301
2009[1]	27	1	104	47	—	—	179
Total	361	49	1840	179	38	7	2,474

[1] 2009 shows schools approved for closure up to 31 August 2009.

The data on the table is recorded on our Statutory Proposals Information (SPI) database. SPI provides information from 1999 but is only accurate from 2001, when local decision making came into force and we started recording decisions on SPI.

There are various reasons for school closures. We categorise these under six different proposal 'types':

"Cease to maintain" indicates cases where a school is not proposed to be established on the site of the closing school;

"Change of religious character" is where a school must close and re-open in order to add, change or remove a religious character;

"Due to amalgamation" indicates cases where schools are being closed and a new school established—usually on the site(s) of the closing school(s)—or where one or more closes and an existing school makes prescribed alterations e.g. enlarge, change age range etc;

"For academy" indicates schools that are closing and are being replaced by Academies;

"For fresh start" is where an existing school closes to be replaced by a new school under fresh start policy; and

"To allow for a new establishment" are 'miscellaneous' closure proposals. No school has been closed under this category since 2006. (Miscellaneous closure included changing the category of a school—regulations now allow for this.)

Schools: Finance

Harry Cohen: To ask the Secretary of State for Children, Schools and Families what the allocation for *(a)* Redbridge and *(b)* Waltham Forest for (i) dedicated school grant and (ii) guaranteed funding per pupil is for (A) 2009, (B) 2010 and (C) 2011; what the change in per pupil funding was in (1) cash and (2) percentage terms between 1997 and 2009; and what (x) total and (y) per pupil funding allocation for (X) Redbridge and (Y) Waltham Forest for 2009-10 is for (aa) school development grant, (bb) school standards grant, (cc) school standards grant (personalisation), (dd) ethnic minority achievement grant, (ee) extended schools, (ff) primary strategy, (gg) school lunch grant, (hh) music services, (ii) harnessing technology (ICT) and (jj) devolved formula capital. [291366]

Mr. Coaker *[holding answer 16 September 2009]:* The Dedicated Schools Grant (DSG) for 2008-09 to 2010-11 (indicative) for Redbridge and Waltham Forest local authorities is shown in table 1. This covers pupils aged three-15.

Table 1

£ million

	DSG allocation		
	2008-09 (final)	*2009-10 (final)*	*2010-11 (indicative)*
Redbridge	173.785	184.212	195.516
Waltham Forest	160.125	167.109	180.326

The guaranteed unit of funding for 2008-09 to 2010-11 for Redbridge and Waltham Forest local authority is shown in table 2.

Table 2

£

	Guaranteed unit of funding		
	2008-09 (final)	*2009-10 (final)*	*2010-11 (final)*
Redbridge	4,214	4,380	4,575
Waltham Forest	4,584	4,747	4,940

Per pupil revenue funding figures for pupils aged three-19 for Redbridge and Waltham Forest local authorities for years 1997-98 and 2005-06 are shown in table 3. These figures are in cash terms.

Table 3

Local authority revenue funding per pupil (£)

	1997-98	*2005-06*	*Percentage change*
Redbridge	2,810	4,420	57
Waltham Forest	3,080	5,060	64

Notes:
1. Price Base: Cash
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/ Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.
3. Total funding also includes all revenue grants in DFES departmental expenditure limits relevant to pupils aged 3-19 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC three-year-old maintained pupils and estimated three to four-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in table 4 are taken from the Dedicated Schools Grant (DSG). They are not comparable with those for the years 1997-98 to 2005-06 (in table 3 above) because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 1997-98 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent.

The DSG is based largely on an authority's previous spending.

In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block.

LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2008-09 DSG, the Department have isolated the schools block equivalent funding in 2005-06 (the baseline); as described above this does not represent the totality of 'education' funding in that year.

The per pupil revenue funding figures for 2005-06 and 2008-09 for Redbridge and Waltham Forest local authorities are provided in table 4. The figures are for all funded pupils aged three-19 and are in cash terms.

Table 4

Local authority revenue funding per pupil (£)

	2005-06	*2008-09*	*Percentage change*
Redbridge	4,050	4,820	19
Waltham Forest	4,580	5,330	16

Notes:
1. This covers funding through the Dedicated Schools Grant, School Standards Grant, School Standards Grant (Personalisation) and Standards Fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LA level.
2. Price Base: Cash
3. These figures are for all funded pupils aged three-19
4. Figures have been rounded to the nearest £10
5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The figures for Standards Funds are recorded according to allocation per authority not per pupil, the following table shows the total allocations that Redbridge and Waltham Forest have been awarded in 2009-10 for grants that the honourable member for Leyton and Wanstead requested.

Grant name	*2009-10 allocation Redbridge*	£ *2009-10 allocation Waltham Forest*
School Development Grant	9,176,344	12,427,886
School Standards Grant	7,007,793	5,505,573
School Standards Grant (personalisation)	2,212,183	2,498,922
Ethnic Minority Achievement Grant	3,431,578	3,539,416
Extended Schools—Sustainability	724,493	674,446
Extended Schools—Subsidy	179,626	175,360
Extended Schools—Capital	499,804	480,031
Primary Strategy: Targeted Support	810,251	1,171,770
School Lunch Grant	473,777	394,829
Music	342,011	386,625
Harnessing Technology	873,212	766,178
Devolved Formula Capital	5,551,120	4,636,216

Science: GCE A-level

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 26 February 2009, *Official Report*, column 1073W, on GCE A level, how many and what percentage of schools did not enter any pupils for a science A level in 2006-07. [286773]

Mr. Coaker: The information requested is given as follows:

66 maintained schools did not enter any pupils aged 16-18 for any science A-level in 2006/07. This represents 4 per cent. of maintained schools that had A-level entries in 2006/07 and were published in the School and College Achievement and Attainment Tables.

Note:

A-level subjects included as science are: applied science (single and double awards), biological sciences, chemistry, physics, electronics, environmental science, geology and 'psychology as a science'.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 26 February 2009, *Official Report*, column 1073W, on GCE A level, (1) how many and what percentage of the 115 schools that did not enter any pupils for an A level examination in biology entered at least one pupil for an A level examination in applied science in 2006-07; [286774]

(2) how many and what percentage of the 96 schools that did not enter any pupils for an A Level in mathematics in 2006-07 entered at least one pupil for an A Level in applied science in that year. [286775]

Mr. Coaker: The information requested is as follows:

18 (16 per cent.) of the 115 schools that did not enter any pupils for an A level in biology entered at least one pupil for an A level in single or double award applied science in 2006-07.

8 (8 per cent.) of the 96 schools that did not enter any pupils for an A level in mathematics entered at least one pupil for an A level in single or double award applied science in 2006-07.

Note:

The figures relate to 16-18 year olds in maintained schools that were published in the School and College Achievement and Attainment Tables.

Science: GCSE

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils who achieved a GCSE in double award science at each grade were educated in the *(a)* maintained mainstream and *(b)* independent sector in each year since 2005. [286802]

Mr. Coaker: The double award in science was no longer available to pupils in 2006 and therefore the only pupils counted in the 2008 figures are those who began their studies before 2006 and have been held back.

The following figures are based on the school at which the pupil was registered at the time they sat their exams. It is possible, by moving schools, that some pupils were educated in both sectors.

The requested information is given in the following tables:

Number of pupils at the end of key stage 4 attaining specific grades in Double Award Science, 2005-08

	Maintained sector				Independent sector			
	2005	2006	2007	2008	2005	2006	2007	2008
**	13,821	15,022	17,532	208	4,758	5,288	5,322	4

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils who achieved a GCSE in double award applied science at each grade in 2007 were educated in the *(a)* maintained mainstream and *(b)* the independent sector. [286807]

Mr. Coaker: All pupils at the end of key stage 4 that achieved grades in double award applied science are counted in the following table which is broken down by grade and the education sector attended by the pupil.

Double award applied science

	2007				2008			
	Maintained		Independent		Maintained		Independent	
Grade	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
A*A*	54	100.0	0	0.0	22	100.0	0	0.0
A*A	—	—	—	—	62	100.0	0	0.0

GG	1,283	100.0	0	0.0	319	99.7	1	0.3

Note:

The grading structure of the double award applied science changed between 2007 and 2008.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils who achieved a GCSE in core science and one of *(a)* biology, *(b)* chemistry and *(c)* physics at each grade were educated in the (i) maintained mainstream and (ii) independent sector in each year since 2007. [286852]

Mr. Coaker: The following figures are based on the school at which the pupil was registered at the time they sat their exams. It is possible, by moving schools, that some pupils were educated in both sectors.

In 2007, there were only seven pupils at the end of Key Stage 4 achieving a GCSE in core science and at least one GCSE in biology, chemistry or physics both at grade A*-G. All of these pupils were educated in the maintained sector.

In 2008, pupils at the end of Key Stage 4 achieving a GCSE in core science at grade A*-G and one or more of the separate sciences are counted in the following tables.[1]

[1] Pupils that have passed core science will appear in each row for which they have passed a separate science. Pupils are counted once in the final row by their highest grade in the separate sciences.

Number

Maintained	*A**	*A*	*B*	*C*	*D*	*E*	*F*	*G*
Biology	671	1,661	2,294	2,296	1,415	788	385	206
Chemistry	712	1,408	1,542	1,131	484	173	86	24
Physics	624	1,278	1,474	1,133	414	106	59	26
Best separate grade	1,120	2,045	2,433	2416	1,553	893	462	239

Number

Independent	*A**	*A*	*B*	*C*	*D*	*E*	*F*	*G*
Biology	82	139	116	80	12	5	3	0
Chemistry	103	111	82	63	8	1	4	0
Physics	98	99	69	57	13	1	1	0
Best separate grade	155	156	137	73	9	5	7	0

The following tables give the percentages of the pupils achieving particular grades in the maintained and independent sector.

Percentage

Maintained	*A**	*A*	*B*	*C*	*D*	*E*	*F*	*G*
Biology	89.1	92.3	95.2	96.6	99.2	99.4	99.2	100.0
Chemistry	87.4	92.7	95.0	94.7	98.4	99.4	95.6	100.0

Science: Specialist Schools

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 10 November 2008, *Official Report*, column 900W, on specialist schools: science, how many of the 433 specialist schools that have chosen science as one of their specialisms entered one or more pupils for *(a)* a GCSE and *(b)* an A level in applied science in 2008. [286895]

Mr. Coaker: Of the 433 schools identified as having a specialism in sciences, 77 entered at least one pupil for a vocational GCSE in applied science in 2008.

Of the 433 schools identified as having a specialism in sciences, 269 teach pupils to Key Stage 5 and, of these, 47 entered at least one pupil for an A-level in applied science in 2008.

The source for this answer is the Achievement and Attainment Tables' database.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 10 November 2008, *Official Report*, column 900W, on specialist schools: science, how many of the 433 specialist schools that have chosen science as one of their specialisms entered one or more pupils for GCSE biology in 2008. [286896]

Mr. Coaker: Of the 433 schools identified as having a specialism in sciences, 317 (73.2 per cent.) entered at least one pupil for GCSE biology in 2008.

Source:

The source for this answer is the Achievement and Attainment Tables' database.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 10 November 2008, *Official Report*, column 900W, on specialist schools: science, how many of the 433 specialist schools that have chosen science as one of their specialisms entered no pupils for a science A level in 2008. [286897]

Mr. Coaker: Of the 433 schools identified as having a specialism in sciences, 269 teach pupils to Key Stage 5 and, of these, three did not enter any pupils for an A-level in the science subjects in 2008.

Note:

A-level subjects included as science are: applied science (single and double awards), biological sciences, chemistry, physics, electronics, environmental science, geology and "psychology as a science".

Source:

The source for this answer is the Achievement and Attainment Tables' database.

Scotland

Stewart Hosie: To ask the Secretary of State for Children, Schools and Families whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288961]

Mr. Coaker: The Department for Children, Schools and Families has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its First phase of evidence gathering.

The Commission recently published its Final Report, which can be found at the following website:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009fbookmarked.pdf

A Steering Group has been established under the Chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

Sixth Form Education

Mr. Brady: To ask the Secretary of State for Children, Schools and Families what estimate his Department has made of the number of students educated to GCSE level in the independent sector taking up places in maintained school sixth forms or colleges for 16-19 education in each of the last five years for which figures are available. [291133]

Mr. Coaker *[holding answer 14 September 2009]*: The table shows estimates of the numbers and percentages of young people who attended independent schools in the academic year when they reached 16 and who then went to study at a maintained school or college the following year.

The source of the data is matched administrative data which is used to track progress in the early years of post-compulsory education. The estimates have been rounded to the nearest thousand.

Attended independent school in academic year[1] reached 16 then attended maintained school or college[2] the next academic year[3]

	Numbers	*Percentage[4]*
2002/03-2003/04	10,000	25
2003/04-2004/05	11,000	25
2004/05-2005/06	11,000	25
2005/06-2006/07	12,000	26
2006/07-2007/08	12,000	27

[1] First academic year shown in row headings.
[2] Includes Academies, City Technology Colleges and other mainstream maintained schools, 6th form colleges and other FE colleges.
[3] Second academic year shown in row headings.
[4] The denominator for the percentage is all those in the dataset who attended independent schools in the academic year they reached 16.

Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many qualified teachers have left the maintained sector since 1997. [287228]

Mr. Coaker: Provisional estimates show that by March 2008 297,300 full and part-time teachers who had been in full or part-time regular service in local authority maintained schools in England in any March between 1997 and 2007 had left. The figure includes teachers who have left temporarily, for example on unpaid maternity leave. Teachers who have retired are also included and those who have gone on to teach outside the English maintained sector.

The source of the information is the Database of Teacher Records. The figure provided may be a slight underestimate because it is known that service details for around 10 to 20 per cent. of part-time teachers are not recorded in the data.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many qualified *(a)* teachers and *(b)* male teachers under the age of 60 years are not teaching. [287229]

Mr. Coaker: Provisional information for March 2008 shows that there were 404,600 teachers under the age of 60 with qualified teacher status in England or Wales who were not recorded in service of whom 123,000 were men. This information is from the Database of Teacher Records.

There will be some teachers in the totals provided who will be in service outside of England and Wales or teaching in sectors that are not recorded in the data source. These will include some of the higher education sector and independent schools who are not part of the Teachers Pensions Scheme.

Teachers: Pensions

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families with reference to paragraph C. 76, page 242 of Budget 2009, if he will

place in the Library a copy of the actuarial advice he received on the teachers' pension scheme; and if he will make a statement. [289104]

Mr. Coaker: The net expenditure projections for the teachers' pension scheme, used to build up the financial statement and Budget report, reflect assumptions set by the Department, after taking into account comments from their actuarial advisers. The actuarial assumptions for the scheme can be found in the latest valuation report published in November 2006 and available in the House Libraries.

CABINET OFFICE

Departmental Internet

Mr. Maude: To ask the Minister for the Cabinet Office what the meaning is of each *(a)* acronym and *(b)* abbreviation used on the editorial policy section of her Department's CabWeb intranet site. [287261]

Tessa Jowell: I have placed in the Library a document expanding each acronym and abbreviation in the editorial policy section of CabWeb.

Derek Draper and Charlie Whelan

Mr. Maude: To ask the Minister for the Cabinet Office how many times *(a)* Mr Derek Draper and *(b)* Mr Charlie Whelan has visited the Cabinet Office/Downing Street complex in the last six months. [287211]

Tessa Jowell: I am not aware of any meetings involving Derek Draper or Charlie Whelan.

Unemployment

Justine Greening: To ask the Minister for the Cabinet Office how many people aged more than 50 years old were claiming jobseeker's allowance in each *(a)* region and *(b)* Jobcentre Plus district in each month of the last five years. [289151]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated September 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people aged more than 50 years were claiming Jobseeker's Allowance in each (a) region and (b) Jobcentre Plus district in each month of the last five years. (289151)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number of people aged 50 and over resident in each region who has claimed JSA in each of the last 5 years. Table 2 shows the number of persons aged 50 and over resident in each Jobcentre Plus district who has claimed JSA in each of the last 5 years. A copy of the tables are available in the Library of the House.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk.

Voluntary Work: Vetting

Mr. Maude: To ask the Minister for the Cabinet Office if she will place in the Library a copy of the Office of the Third Sector guidelines on Criminal Records Bureau checks for volunteers issued to local authorities. [287285]

Angela E. Smith: The Office of the Third Sector's guidance on Criminal Records Bureau checks was published in June 2008 and is available on the following websites.

The Office of the Third Sector

www.cabinetoffice.gov.uk/third_sector.

The Criminal Records Bureau

www.crb.gov.uk.

Volunteering England

www.volunteering.org.uk.

Following comments from Third Sector stakeholders a copy of the guidance was distributed to local authorities by the Local Government Association in May 2009.

The guidance document has been placed in the Libraries in the House.

DEFENCE

Afghanistan

Mr. Holloway: To ask the Secretary of State for Defence how many staff from his Department are based in the provincial reconstruction team base in Lashkar Gar; what proportion of such staff *(a)* have left the perimeter of the base by road during their tour and *(b)* are performing roles which could be undertaken at Camp Bastion; and if he will make a statement. [291094]

Mr. Bob Ainsworth *[holding answer 14 September 2009]:* I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for International Development (Mr. Alexander) on 14 September 2009, *Official Report*, column 2109W.

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many contacts there were between British forces and anti-coalition militia in Afghanistan in each month since June 2006. [251650]

Mr. Hutton: The Ministry of Defence is currently collating and validating the data needed to answer this question. I will write to the hon. Member when his work is complete, and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Liam Fox:

I am writing to provide you with the information promised in my predecessor's holding replies to your Parliamentary Questions regarding contacts between British forces and anti-coalition militia in Afghanistan on 24 February 2009, (Official Report, column 520W).

The Ministry of Defence has recently completed a review of the data required to answer this question, and has revised the manner in which we classify and present data to ensure consistency.

The numbers of troops in contact events (regardless of the instigator) involving the International Security Assistance Force (ISAF) and insurgents in Helmand province as part of Task Force Helmand for each complete month from June 2006 to February 2009 for which verified data is available are shown below.

	2006[1]	2007[1]	2008[1]	2009[1]
January	—	60	70	180
February	—	100	70	180
March	—	140	80	—
April	—	70	50	—
May	—	120	60	—
June	10	110	80	—
July	120	130	110	—
August	100	130	200	—
September	100	130	180	—
October	40	90	170	—
November	40	110	200	—
December	50	130	220	—

[1] Rounded to the nearest 10.

ISAF forces operating in Helmand come from a number of different nations, which often operate closely alongside each other and alongside Afghan Army and Police units. Without undertaking a detailed assessment of each engagement, it is not possible precisely to define in every case whether an attack was aimed at UK forces, at our ISAF partners, or against Afghan units. Data is therefore collected on the number of incidents involving ISAF forces in Helmand without attempting to identify the nationality of the forces actually being attacked. The environment in which forces are operating makes it extremely difficult precisely to distinguish between incidents initiated by insurgent forces and those initiated by ISAF.

This data is based on information derived from a number of sources and can only be an estimate, not least because of the difficulties in ensuring a consistent interpretation of the basis for collating statistics in a complex fast-moving multinational operational environment.

I hope that the above information addresses your concerns on this matter.

I will place a copy of this letter in the Library of the House.

Dr. Fox: To ask the Secretary of State for Defence (1) between what dates the reported 84 per cent. increase in helicopter hours available to UK forces in Afghanistan was achieved; [289130]

(2) between what dates the reported 60 per cent. increase in the number of helicopters available to UK forces in Afghanistan was achieved. [289131]

Mr. Bob Ainsworth: The 60 per cent. increase in the number of helicopters and the 84 per cent. increase in helicopter hours available to UK forces in Afghanistan relate to the period from November 2006 to April 2009. These increases do not include helicopters or helicopter hours provided by other coalition forces.

Armed Forces: Health Services

John Mason: To ask the Secretary of State for Defence how many Defence Medical Service personnel were based in *(a)* Scotland, *(b)* Wales, *(c)* England, *(d)* Northern Ireland, *(e)* Cyprus and *(f)* Germany in each of the last five years. [290781]

Mr. Kevan Jones: The number of Defence Medical Service personnel[1] based in each location as at 1 April each year is provided in the following table. The data before 2007 can be provided only at disproportionate cost.

	2007	2008	2009
Scotland	260	260	280
Wales	60	50	50
England	6,830	6,900	6,850
Northern Ireland	150	120	120
Cyprus	150	160	160
Germany	610	610	640

Due to ongoing validation of data from the Joint Personnel Administration System all strength statistics are provisional and subject to review.

[1] Some Army Medical Service personnel are excluded from these figures as some will work outside of the Army Corps that were used to identify Army Medical Service personnel.

Figures are rounded to the nearest 10.

Armed Forces: Medical Services

Mr. Weir: To ask the Secretary of State for Defence how many personnel from the Royal Naval Medical Services were based in *(a)* Scotland, *(b)* Wales, *(c)* England, *(d)* Northern Ireland and *(e)* other countries in each of the last five years. [291378]

Mr. Kevan Jones: The number of Royal Naval Medical Service personnel based in each location as at 1 April each year is provided in the following table. The data before 2007 can be provided only at disproportionate cost.

	2007	2008	2009
Scotland	120	110	130
Wales	0	0	0
England	1,450	1,480	1,430
Northern Ireland	[1]—	[1]—	[1]—
Other countries[2]	110	70	70

[1] Fewer than five.

[2] Other countries also includes Cyprus and Germany.

Notes:

1. Due to ongoing validation of data from the Joint Personnel Administration System all strength statistics are provisional and subject to review.
2. Figures are rounded to the nearest 10.

Mr. Weir: To ask the Secretary of State for Defence how many personnel from the Army Medical Services were based in *(a)* Scotland, *(b)* Wales, *(c)* England, *(d)* Northern Ireland and *(e)* other countries in each of the last five years. [291379]

Mr. Kevan Jones: The number of Army Medical Service personnel[1] based in each location as at 1 April each year is provided in the following table. The data before 2007 can be provided only at disproportionate cost.

	2007	2008	2009
Scotland	70	80	70
Wales	30	30	30
England	3,710	3,750	3,750
Northern Ireland	130	100	110
Other countries[1]	760	800	810

[1] Other countries also includes Cyprus and Germany. *Notes:* 1. Due to ongoing validation of data from the Joint Personnel Administration System all strength statistics are provisional and subject to review.
2. Some Army Medical Service personnel are excluded from these figures as some will work outside of the Army Corps that were used to identify Army Medical Service personnel.
3. Figures are rounded to the nearest 10.

Angus Robertson: To ask the Secretary of State for Defence how many personnel from the Royal Air Force Medical Service were based in *(a)* Scotland, *(b)* Wales, *(c)* England, *(d)* Northern Ireland and *(e)* other countries in each of the last five years. [291382]

Mr. Kevan Jones: The number of personnel posted to the Royal Air Force Medical Services based in each location as at 1 April each year is provided in the following table. The data before 2006 can be provided only at disproportionate cost.

	2006	*2007*	*2008*	*2009*
Scotland	70	70	70	80
Wales	40	30	30	30
England	1,660	1,660	1,670	1,670
Northern Ireland	20	20	20	20
Other countries[1]	110	110	110	120

[1] Including Cyprus and Germany.

Notes:

1. Due to ongoing validation of data from the Joint Personnel Administration System, all strength statistics are provisional and subject to review.
2. Figures are rounded to the nearest 10.

Angus Robertson: To ask the Secretary of State for Defence (1) how many *(a)* psychologists, *(b)* psychiatrists, *(c)* mental health nurses and *(d)* occupational therapists in Defence Medical Services have been employed in (i) Scotland, (ii) England, (iii) Wales, (iv) Northern Ireland and (v) other countries in each year since 1997; [291383]

(2) how much has been spent on *(a)* psychologists, *(b)* psychiatrists, *(c)* mental health nurses and *(d)* occupational therapists by the Defence Medical Services in (i) Scotland, (ii) England, (iii) Wales, (iv) Northern Ireland and (v) other countries in each year since 1997. [291384]

Mr. Kevan Jones *[holding answer 16 September 2009]:* The majority of mental health personnel are employed in MOD's 15 Departments of Community Mental Health (DCMHs) in the UK, (with additional centres in Germany, Cyprus and Gibraltar), with a small number at other MOD locations. The DCMHs are located in areas of major military population, and include 11 in England, three in Scotland and one in Northern Ireland.

The number of personnel employed in the specified regions as at July 2009 are provided in the table. These include both military and civilian personnel.

Location	*Psychologists*	*Psychiatrists*[1]	*Mental Health Nurses*	*Occupational Therapists (Mental Health)*[2]
England	10	22	85	—
Scotland	1	1.5	5	—
Wales	—	—	—	—
Northern Ireland	—	0.5	3	—
Other	1	4	24	3
Total	12	28	117	3

[1] One individual works part-time at two separate DCMHs. These are shown as "0.5" at each location.

[2] Specialised Occupational Therapists (Mental Health) are only employed in DCMHs in Germany. Elsewhere, this function is undertaken by mental health nurses.

Historical figures back to 1997 are not held centrally and could be provided only at disproportionate cost.

Funding provision is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Pensions

Mr. Philip Hammond: To ask the Secretary of State for Defence with reference to paragraph C.76, Page 242 of the Financial Statement and Budget Report 2009, if he will place in the Library a copy of the actuarial advice he received on the armed forces' pension scheme; and if he will make a statement. [289105]

Mr. Kevan Jones: The armed forces pension scheme is advised by the Government's Actuary's Department. The last formal valuation was carried out as at 31 March 2005 and the results of which form the basis for the actuarial statement in the resource accounts for 2005-06 and for subsequent years to date. The resource accounts, which include these actuarial statements for 2005-06 to 2008-09 have been placed in the Library of the House.

BVT Surface Fleet

Angus Robertson: To ask the Secretary of State for Defence for which shipbuilding projects BVT has exclusivity under the terms of its business agreement. [291381]

Bill Rammell: The Terms of Business Agreement (ToBA) is a complex commercial arrangement that provides BVT Surface Fleet Limited (BVT) with a right of exclusivity in design, build and integration for future destroyers, frigates and minor warships.

Concept design will normally be carried out by the Naval Design Partnership in which BVT plays a part.

BVT Surface Fleet: Scotland

Angus Robertson: To ask the Secretary of State for Defence if he will estimate how much of the planned annual expenditure under the terms of business agreement with BVT will be spent in Scotland in each of the next five years. [291380]

Bill Rammell *[holding answer 16 September 2009]:* This information is not held in the format requested.

This BVT Surface Fleet Limited (BVT) Terms of Business Agreement (ToBA) is a long-term partnering arrangement that provides a framework for how BVT and the Ministry of Defence (MOD) will work together over the next 15 years in the area of warship design and build and elements of warship support.

Other than the commitment from MOD to support a range of key industrial capabilities, the ToBA does not contain nor commit MOD to a particular level of annual expenditure in any geographical location or constrain BVT in relation to how or where BVT conducts its business.

Defence Medical Services: Scotland

Stewart Hosie: To ask the Secretary of State for Defence how many people in the Defence Medical Services are based in Scotland. [291183]

Mr. Kevan Jones: As at 1 April 2009, 280 Defence Medical Service personnel were based in Scotland. Some

Army Medical Service personnel are excluded from this figure as some will work outside of the Army Corps that were used to identify Army Medical Service personnel.

Due to ongoing validation of data from the Joint Personnel Administration System all strength statistics are provisional and subject to review.

Defence Science and Technology Laboratory: Scotland

Mr. Weir: To ask the Secretary of State for Defence how many staff of the Defence Science and Technology Laboratory have been employed in Scotland in each year since 1997. [290793]

Mr. Quentin Davies *[holding answer 9 September 2009]:* The Defence Science and Technology Laboratory (DSTL) was formed in July 2001 following the division of Defence Evaluation and Research Agency (DERA) into DSTL and QinetiQ. DSTL does not have records specifically detailing staff numbers in Scotland, prior to 2003.

However, as part of an ongoing DSTL site rationalisation plan, all DSTL jobs in Scotland were relocated from Glasgow and Dunfermline to DSTL Porton Down. Therefore, it is recorded that the DSTL staff numbers in Scotland on 1 April 2003 were 48 and on 1 April 2004 were six. The last employee in Scotland left DSTL on 31 October 2004, and since this date, DSTL has not had any employees in Scotland.

Defence: Procurement

Mr. Dai Davies: To ask the Secretary of State for Defence on what date Bernard Gray was commissioned by his Department to review military equipment procurement; on what date Mr. Gray delivered a draft report to his Department; what access Mr. Gray was given to documentation and personnel in his Department and agencies responsible to his Department in researching and preparing his report; and when he expects to publish the final report. [290926]

Mr. Quentin Davies *[holding answer 9 September 2009]:* The then Secretary of State (Mr. Hutton) announced on 11 December 2008 that Bernard Gray had been commissioned to undertake a review of military acquisition. The initial draft was received by the Department on 29 May 2009. Mr. Gray was given full access to military and civilian personnel, and acquisition-related documentation, throughout the Department.

Departmental Budgets

Angus Robertson: To ask the Secretary of State for Defence how much and what proportion of his Department's science, innovation and technology budget was spent in Scotland in each year since 1997. [290802]

Mr. Kevan Jones *[holding answer 9 September 2009]:* Direct contract payments made from the Science Innovation Technology (SIT) budget on equipment and non-equipment contracts and those where the primary work was identified as being undertaken in Scotland are shown in the following table.

VAT Exclusive: £ million

	Total Expenditure in Year - Scotland	*Total Expenditure in Year -SIT*	*Proportion of SIT Expenditure in Year in Scotland (%)*
2003-04	4	392	1.0
2004-05	9	471	1.9
2005-06	10	500	2.0
2006-07	11	488	2.3
2007-08	12	531	2.3
2008-09	10	509	2.0

Note:
Rounded to the nearest £ million

Requested information prior to 2003-04 is not available and can only be provided at disproportionate cost. Staff costs are not included. There may also be further work that was carried out in Scotland, but location data is not available on central records. However, this element is likely to be very small.

Departmental Manpower

Mr. Bone: To ask the Secretary of State for Defence how many *(a)* armed service personnel and *(b)* administrative staff were employed by his Department in each year since 1997. [291314]

Mr. Kevan Jones: The number of Armed Forces and Civilian personnel employed in each year since 1997 is provided in the table.

This information can also be found in the UK Defence Statistics table 2.1, "Recent trends in Service and civilian personnel strengths at 1 April each year", at the following DASA website

http://www.dasa.mod.uk.

Guided Weapons: Testing

Mr. MacNeil: To ask the Secretary of State for Defence what the average cost of a missile testing camp at Hebrides Range was in the five years *(a)* before and *(b)* after the implementation of his Department's long-term partnering agreement with Qinetiq. [291290]

Mr. Kevan Jones *[holding answer 16 September 2009]:* Information on the cost of missile trials at the Hebrides Range during the five years before the Long Term Partnering Agreement with QinetiQ was implemented in 2003, is no longer held centrally. Therefore, the average cost of a missile trial over that period could be provided only at disproportionate cost.

Information on the cost of missile trials since 2003 is not held in the format requested and could be provided only at disproportionate cost.

Mr. MacNeil: To ask the Secretary of State for Defence what the average cost of a missile firing test taking place *(a)* in the Falklands Islands and *(b)* at the Hebrides Range was in the latest period for which figures are available. [291291]

Mr. Kevan Jones *[holding answer 16 September 2009]:* The MOD does not test missiles in the Falkland Islands.

Information on the cost of missile trials is not held in the format requested and could be provided only at disproportionate cost.

Mr. MacNeil: To ask the Secretary of State for Defence how many missile tests took place at Hebrides Range in *(a)* 2008, *(b)* 2009 and *(c)* 2010; and what missiles were tested in each test. [291294]

Mr. Kevan Jones *[holding answer 16 September 2009]:* Details of missile testing at the Hebrides Range during 2008 and 2009 to date are as follows:

	Missile details	Number of missile tests
2008	Rapier	5
	Sea Sparrow—conducted on behalf of Denmark	1
	Sea Dart	1
	HVM—High Velocity Missile	1
	AMRAAM—Advanced Medium Range Air-Air Missile	1
2009	Rapier	3
	Sea Dart	1
	BVRAAM—Beyond Visual Range Air-Air Missile	1
	Brimstone	1

In addition, a further trial was conducted at the Hebrides Range during 2009, but I am withholding the details as disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces.

Details of missile tests currently planned for the remainder of 2009 and 2010 are as follows:

	Missile Details	Number of Missile Tests
2009	Rapier	1
	BVRAAM—Beyond Visual Range Air-Air Missile	2
2010	AMRAAM—Advanced Medium Range Air-Air Missile	2
	ASRAAM—Advanced Short-Range Air-Air Missile	1
	Rapier	2
	Sea Viper	2
	Sea Dart	1
	BVRAAM—Beyond Visual Range Air-Air Missile	1

Met Office: Pay

Mr. Greg Knight: To ask the Secretary of State for Defence if he will ban the payment of bonuses to staff at the Met Office when the office makes incorrect long-term forecasts. [291276]

Mr. Kevan Jones *[holding answer 16 September 2009]:* I refer the hon. Member to the answer I gave on 14 September 2009, *Official Report*, column 2128W.

Nuclear Submarines

Mr. Weir: To ask the Secretary of State for Defence pursuant to the answer of 2 April 2009, *Official Report*, column 1400W, to the hon. Member for Moray, on nuclear submarines, which nuclear submarines were involved in the three medium scale fires which occurred at a naval base; in which naval bases each such fire occurred; and when each such fire occurred. [290795]

Bill Rammell *[holding answer 9 September 2009]:* I refer the hon. Member to the answer I gave him on 16 September 2009, *Official Report*, columns 2222-23W.

DEFENCE

Defence Support Group

The Parliamentary Under-Secretary of State for Defence (Mr. Quentin Davies): The following key targets have been agreed with the chief executive of the Defence Support Group for the FY2009-10.

DSG

KT1—Quality

Deliver an improved quality performance by achieving fewer than four attributable major customer concerns within DSG's air business and reducing upheld customer complaints within the land business by 5 per cent. against the 2007-08 out-turn.

[Official Report, 10 June 2009, Vol. 493, c. 37WS.]

Letter of correction from Quentin Davies:

An error has been identified in the written ministerial statement released to the House on 10 June 2009. In the Defence Support Group Key Target 1 (Quality) the words 'per annum' were omitted from the land business performance measurement metric.

The correct wording of Key Target 1 should have been:

DSG

KT1—Quality

Deliver an improved quality performance by achieving fewer than four attributable major customer concerns within DSG's air business and reducing upheld customer complaints within the land business by 5 per cent. per annum against the 2007-08 out-turn.

COMMUNITIES AND LOCAL GOVERNMENT

Leaseholders' Rights Bill

Ms Winterton:...Under the Social Landlords Discretionary Reduction of Service Charges (England) Directions 1997, landlords can also cap service charges if certain conditions are met, including if a leaseholder will suffer exceptional hardship. In 2002, we undertook a review of issues relating to major works service charges paid by local authority leaseholders. That was done because of concerns raised over high service charges that were being levied on local authority leaseholders, principally arising out of work being carried out to bring homes up to an acceptable standard under the decent homes programme. We learned that many local authorities, particularly in London, already offer a range of forms of assistance to their leaseholders. They offer a range of payment by instalment options; some agree to delay payment until the property is sold; others even offer a discount if the bill is paid in full promptly.

[Official Report, 26 June 2009, Vol. 494, c. 1093-1094.]

Letter of correction from Rosie Winterton:

An error has been identified in the second reading debate on the Leaseholders Rights Bill introduced by the hon. Member for Beckenham (Mrs. Lait) on 26 June 2009. The error consists of reference to an incorrect date (2002) for a particular review that was carried out. The correct date should be 2006.

The full statement made by me was as follows:

"Under the Social Landlords Discretionary Reduction of Service Charges (England) Directions 1997, landlords can also cap service charges if certain conditions are met, including if a leaseholder will suffer exceptional hardship. In 2002, we undertook a review of issues relating to major works service charges paid by local authority leaseholders. That was done because of concerns raised over high service charges that were being levied on local authority leaseholders, principally arising out of work being carried out to bring homes up to an acceptable standard under the decent homes programme. COMMUNITIES AND LOCAL GOVERNMENT

Non-domestic Rates

Justine Greening: To ask the Secretary of State for Communities and Local Government which were the groups described as representing ratepayers who expect significant rises in their rate bills and who are pressing for a five-year scheme on page 15 of the document NNDR Transitional Arrangements: Consultation, published by the Office of the Deputy Prime Minister in August 2004; and if he will make a statement. [278453]

[Official Report, 11 June 2009, Vol. 493, c. 996-97W.]

Letter of correction from Rosie Winterton:

A number of errors have been identified in the written answer given to the hon. Member for Putney (Justine Greening) on 11 June 2009 relating to the number of responses received.

The correct answer should have been:

Ms Rosie Winterton: A full list of those consulted is at Annex B to the Consultation document published in August 2004. A total of 77 responses were received. 44 responded in favour of a four-year transitional scheme. Eight respondents favoured a five-year transitional scheme. These are as follows:

(The) Energy Network
North Norfolk District Council
B and Q
British Retail Consortium
Onyx and SITA
e-on UK
Association of Electricity Producers
International Power.

HOME DEPARTMENT

Association of Chief Police Officers

Mr. Amess: To ask the Secretary of State for the Home Department how much her Department has paid to the Association of Chief Police Officers (ACPO) in each year since 2000; for what purpose; what restrictions apply to the use of the money; what discussions she has had since January 2008 with the President of ACPO; and if she will make a statement. [259061

[Official Report, 20 April 2009, Vol. 491, c. 146-48W.]

Letter of correction from David Hanson:

An error has been identified in the table that was presented by my predecessor in the written answer given to the hon. Member for Southend, West (Mr. Amess) on 20 April 2009.

In my predecessor's response to your question he referred to a list of projects as an annex to the answer. In the annex Operation Sycamore was listed as being an investigation into prostitution project, this was in fact incorrect. Operation Sycamore is a project to fund clearance of the backlog of 27,000 European Conviction notifications. £700,000 was given for this in 2006-07, with a further £31,339 given in 2008-09.

The correct answer should have been:

Mr. Coaker: The Home Office has provided funding for the Association of Chief Police Officers (ACPO) since 1997.

In addition to an annual grant in aid payment, the Home Office has made regular payments to ACPO to fund a number of specific projects or in support of initiatives that are best delivered by those with professional police experience. All the grants are prescribed only for the project or use specified. From the information currently held by the Department, the payments made to ACPO since 2006/07 have been listed as an annex to this response.

The Home Secretary and I meet with the President of ACPO, regularly to discuss a range of issues, including the projects in which ACPO are involved. This is in addition to frequent telephone conversations and joint attendance at conferences and events. Formal notes of these meetings are not available to place in the House Library.

Home Office payments to ACPO

Project	*Financial year* 2006-07 (£)	2007-08 (£)	2008-09 (£)	*Detail*

Ministerial Corrections

The following Ministerial Corrections were received between Tuesday 1 September and Wednesday 9 September 2009

JUSTICE

Young Offenders: Injuries

Dr. Vis: To ask the Secretary of State for Justice what injuries were incurred by boys held in *(a)* Ashford, *(b)* Bradford and *(c)* Castington Young Offenders Institution following use of control and restraint in each month in (i) 2006 and (ii) 2007. [167802]

[Official Report, 5 December 2007, Vol. 468, c. 1262-66W.]

Letter of correction from Maria Eagle:

An error has been identified in the table provided in the written answer given to the hon. Member for Finchley and Golders Green (Dr. Vis) on 5 December 2007.

The prisoner at Castington described in the table as having sustained a fractured wrist in March 2007 actually sustained this injury on 12 April 2007. This has come to light following the recent publication of HMCIP's inspection report of Castington, in which Anne Owers commented on the number of wrist injuries sustained at Castington.

I apologise for the error.

Young Offender Institutions: Per Capita Costs

Mr. Malins: To ask the Secretary of State for Justice what the average cost of providing a place in *(a)* a young offender institution for 18 to 21 year olds, *(b)* a young offender institution for 15 to 17 year olds and (c) a secure training centre for under 15 year olds was in the latest year for which figures are available. [236050]

[Official Report, 17 November 2008, Vol. 483, c. 24W.]

Letter of correction from Maria Eagle:

An error has been identified in the written answer given to the hon. Member for Woking (Mr. Malins) on 17 November 2008 regarding the average annual cost of a place in a Secure Training Centre in 2007-08. I regret that our written answer gave an incorrect figure.

Our answer showed the cost of a place in a Secure Training Centre for 2007-08 as £191,618. However, this was mistakenly derived from data relating to a later period, and also contained a calculation error which further inflated the figure. The correct figure for the average annual cost of a Secure Training Centre place as at 1 April 2007 was £178,013. I apologise for this error.

Departmental Public Opinion

Mr. Jeremy Browne: To ask the Secretary of State for Justice how much his Department has spent on *(a)* focus groups and *(b)* opinion polls in each year since its inception; how much he estimates will be spent on each category in 2008-09; and if he will make a statement. [239037]

[Official Report, 26 November 2008, Vol. 483, c. 1665-70W.]

Letter of correction from Jack Straw:

Errors have been identified in the parliamentary question tabled by the hon. Member for Taunton (Mr. Browne) in November 2008 requesting information about expenditure on focus groups and opinion polls.

Unfortunately, the answer supplied included projects required which do not fall within the Ministry's definition of opinion polls. Opinion polls are surveys of a representative sample of the public where the primary focus is to gather information about their opinions on matters of public interest including the efficacy of government policies. It does not include other types of social research or consultation where the primary focus is gathering of information on individual's experiences including those of government policies, even if they are quantitative.

When checking the data provided in the response in our reply against similar information requested in a more recent PQ this point was noted. Revised figures are now contained in the reply and tables.

The correct answer should have been:

Mr. Wills: Between May 2007 and November 2008 the Ministry of Justice spent around £524,000 on focus groups, and £158,000 on opinion polls. The following table provides details of focus groups and opinion polls carried out by the Ministry of Justice since inception in 2007, and the estimates for such in 2008-09 as at November 2008.

[1] April to November 2007 spend.

Notes:

1. Current projects planned but not commissioned are all commercial in confidence; as disclosing budget may impact or tendering process.
2. Costs refer to total spend within year for complete project which often includes more than just focus groups or opinion polls (or other deliberative research).

Prisons: Explosives

Mr. Garnier: To ask the Secretary of State for Justice how many *(a)* suspected and *(b)* viable explosive devices or components have been found in each prison in England and Wales in each of the last 12 years for which figures are available. [275142]

[Official Report, 1 June 2009, Vol. 493, c. 83-89W.]

Letter of correction from Maria Eagle:

Errors have been identified in the tables provided in the written answer given to the hon. and learned Member for Harborough (Mr. Garnier) on 1 June 2009 regarding suspected and viable explosive devices or components in prisons. It has come to my attention that the information given for one prison, HMP Parc, in two of the 12 years was incorrect due to a problem in the way the prison had recorded these incidents.

The Prison Service have confirmed that the correct figure for a viable explosive device or components in HMP Parc in the years 2004-05 and 2008-09 should have been recorded as a nil return instead of one viable device in each of the two years. These two reported viable incidents should have been placed in the "suspected" column of the two tables. This means that for 2004-05 there were four suspect and no viable devices at HMP Parc instead of three and one respectively. In 2008-09 there was one suspected device and no viable device at HMP Parc instead of one viable device and no suspect device.

The answer has been amended to reflect the changes and is as follows. All the other figures given in the answer have been re-checked and are accurate. A copy of this letter will be placed in the Library of the House.

I apologise for this error.

The correct entries are as follows:

2004-05

Establishment	*Suspected*	*Viable explosive devices or components*
Parc	4	0

2008-09

Establishment	*Suspected*	*Viable explosive devices or components*
Parc	1	0

Young Offenders: Restraint Techniques

David Howarth: To ask the Secretary of State for Justice how many incidents of *(a)* restrictive physical intervention (RPI) and *(b)* removal from association were recorded in respect of those held in each institution in the juvenile secure estate in each month between January 2007 and the latest month for which figures are available; and what the ratio was of (i) RPIs and (ii) removals from association to the number of children and young people in each such institution in each such month. [278239]

[Official Report, 16 June 2009, Vol. 494, c. 271-72W.]

Letter of correction from Maria Eagle:

Errors have been identified in the tables provided in the written answer given to the hon. Member for Cambridge (David Howarth) on 16 June 2009.

Two parliamentary questions tabled earlier this month requested the following information:

how many incidents of (a) restrictive physical intervention (RPI) and (b) removal from association were recorded in respect of those held in each institution in the juvenile secure estate in each month between January 2007 and the latest month for which figures are available; and what the ratio was of (i) RPIs and (ii) removals from association to the number of children and young people in each such institution in each such month; [278239]

on how many occasions (a) nose, rib and thumb distraction and (b) pain compliant techniques were used on those of each (i) sex, (ii) age group and (iii) ethnic group (A) with and (B) without a disability in each institution in the juvenile secure estate in each month between January 2007 and the most recent month for which figures are available. [278240]

Both of these answers contained data which was provided by the Youth Justice Board. When checking the data provided in the response to PQ 278239 against similar information requested under the Freedom of Information Act, it was found that the tables referred to in the response published on 16 June 2009 contained a number of errors. I asked officials at the Youth Justice Board to recheck the statistical information which had been provided for the answers to the other questions that you tabled this month, and it was found that the tables provided in the response to PQ 278240 published on 16 June 2009 also contained a number of errors. Revised figures are now contained in the tables published with the ministerial correction to PQ 278240.

I apologise for these errors and would like to assure you that I am taking action to address the issue. I will place a copy of this letter and the tables in the House Libraries. I will also ask Table Office to allow a copy of the letter to be published in the correction section of the *Official Report*.

The correct answer should have been:

Maria Eagle: Restraint is only ever to be used by staff as a last resort, when all other approaches have either not succeeded or would not be appropriate.

Because of unruly and sometimes dangerous behaviour, there are occasions on which use of physical restraint is unavoidable. The interests and safety of everyone in the establishment must be considered. Other young people, staff and visitors' safety, as well as that of the young person whose behaviour is causing problems have to be taken into account.

The data contained in the tables have been supplied by the Youth Justice Board. Table A contains data on the number of restrictive physical interventions (RPIs) from April 2007 to March 2009. It is not possible to provide earlier details as comparable statistics across the under-18 secure estate have only been available since April 2007.

Table B contains data for the same period on the number of single separation incidents at secure training centres (STCs) and secure children's homes (SCHs). It is not possible to provide comparable data for young offender institutions (YOIs) as it is not collected centrally and could not be provided without disproportionate cost.

Table C contains data on the ratio of RPIs to the number of young persons in YOIs, STCs, and SCHs. Table D contains data on the ratio of single separation incidents to the number of young persons in STCs and SCHs.

Tables A to D have been placed in the Library.

David Howarth: To ask the Secretary of State for Justice on how many occasions *(a)* nose, rib and thumb distraction and *(b)* pain compliant techniques were used on those of each (i) sex, (ii) age group and (iii) ethnic group (A) with and (B) without a disability in each institution in the juvenile secure estate in each month between January 2007 and the most recent month for which figures are available. [278240]

[Official Report, 16 June 2009, Vol. 494, c. 272-78W.]

Letter of correction from Maria Eagle:

Errors have been identified in the tables provided in the written answer given to the hon. Member for Cambridge (David Howarth) on 16 June 2009.

Two parliamentary questions tabled earlier this month requested the following information:

how many incidents of (a) restrictive physical intervention (RPI) and (b) removal from association were recorded in respect of those held in each institution in the juvenile secure estate in each month between January 2007 and the latest month for which figures are available; and what the ratio was of (i) RPIs and (ii) removals from association to the number of children and young people in each such institution in each such month; [278239]

on how many occasions (a) nose, rib and thumb distraction and (b) pain compliant techniques were used on those of each (i) sex, (ii) age group and (iii) ethnic group (A) with and (B) without a disability in each institution in the juvenile secure estate in each month between January 2007 and the most recent month for which figures are available. [278240]

Both of these answers contained data which was provided by the Youth Justice Board. When checking the data provided in the response to PQ 278239 against similar information requested under the Freedom of Information Act, it was found that the tables referred to in the response published on 16 June 2009 contained a number of errors. I asked officials at the Youth Justice Board to recheck the statistical information which had been provided for the answers to the other questions that you tabled this month, and it was found that the tables provided in the response to PQ 278240 published on 16 June 2009 also contained a number of errors. Revised figures are now contained in the following tables.

I apologise for these errors and would like to assure you that I am taking action to address the issue. I will place a copy of this letter and the tables in the House Libraries. I will also ask Table Office to allow a copy of the letter to be published in the correction section of the *Official Report*.

The correct answer should have been:

Maria Eagle: The following tables provide data supplied by the Youth Justice Board (YJB) which relate to secure training centres. Data for young offender institutions and secure children's homes are not collected centrally and cannot be provided without disproportionate cost.

YJB's code of practice makes it very clear that restraint is not to be used except as a last resort, when other approaches have not succeeded or would not be appropriate.

The independent Review of Restraint in Juvenile Secure Settings, which was published together with the Government's response on 15 December 2008, made important recommendations about improving practice and making sure restraint is used as sparingly as possible.

The Government and the Youth Justice Board are working together to implement those recommendations.

Secure training centres currently use an approved system of restraint known as Physical Control in Care (PCC), which includes the rib and thumb distraction techniques. It formerly also included the nose distraction technique: use of this was discontinued in November 2007 in the light of some concerns about its suitability voiced by a panel of medical experts commissioned to review the PCC techniques.

The data provided show the use of nose, rib and thumb distraction techniques in secure training centres during the period January 2007 to March 2009. Information on the age, sex and ethnic origin of the young person restrained has been collected centrally by the YJB since April 2008. Data relating to disability are not collected centrally and could be provided only at disproportionate cost.

Table A analyses the data by type of distraction technique; Table B by sex; Table C by age; and Table D by ethnic group.

Table A: Use of distraction techniques in secure training centres by technique used, January 2007 to March 2009

WORK AND PENSIONS

Departmental Public Relations

Mr. Hurd: To ask the Secretary of State for Work and Pensions with reference to the answer to the hon. Member for Angus of 27 March 2006, *Official Report*, column 741W, on public relations companies, (1) if he will list the public relations companies that have had contracts with *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department and other such organisations since March 2006; and what the cost to the public purse was of each such contract; [250313]

(2) how much was spent on each of the firms listed in the answer since June 2001. [250314]

[Official Report, 31 March 2009, Vol. 490, c. 1144-46W.]

Letter of correction from Jonathan Shaw:

An error has been identified in the written answer given to the hon. Member for Ruislip-Northwood (Mr. Hurd) on 31 March 2009. Two PR agencies were omitted from the original list and the expenditure figures for COI for the years 2006-07 to 2007-08 were incorrect.

The correct answer should have been:

Jonathan Shaw: The information requested in the two questions above is provided in the following table:

£000

n/a = Information is not available for 2001-02 as records were not held centrally and the Central Office of Information service was not being used.

The following NDPBs and other bodies have reported that they have incurred no expenditure with public relations agencies in the period in question:

Disability Employment Advisory Committee
Disability Living Allowance Advisory Board
Equality 2025
Industrial Injuries Advisory Council
Personal Accounts Delivery Authority
Pensions Ombudsman
Social Security Advisory Committee
Pensions Protection Fund Ombudsman
The Pensions Advisory Service
Working Ventures UK
Motability
Independent Review Service for the Social Fund

The Disability Rights Commission, which was referred to in the March 2006 question, was dissolved from September 2007 and its paper and electronic records have been archived. The Department would incur disproportionate cost in accessing these records to obtain the required information.

HEALTH

Drugs: Rehabilitation

Mr. Lancaster: To ask the Secretary of State for Health (1) what the reasons are for the nine per cent. reduction in the pooled treatment budget for Milton Keynes from the National Treatment Agency in 2009-10; [280678]

(2) what funding has been given to Milton Keynes from the National Treatment Agency in each of the last five years; and how much has been so allocated in the next two years; [280679]

(3) how many problematic drug users *(a)* there were in Milton Keynes and *(b)* received treatment in Milton Keynes in each of the last five years. [280680]

[Official Report, 30 June 2009, Vol. 495, c. 212-13W.]

Letter of correction from Gillian Merron:

An error has been identified in the written answer given to the hon. Member for North-East Milton Keynes (Mr. Lancaster) on 30 June 2009. I am sorry that the figures given in the second table were incorrect.

The correct answer should have been:

Gillian Merron: Until 2008-09 the pooled treatment budget (PTB) was allocated against a basket of indicators of social and economic deprivation known to reflect drug use as the best available proxy of treatment need. As a result of differences in performance between drug partnerships in getting people into treatment this funding formula was resulting in unjustifiable variations in the amount of central subvention for each person's treatment.

2009-10 is the second year of a process which seeks to produce a fairer allocation system which more accurately matches need, activity and resources.

The new process is based on three elements:

25 per cent. of the allocation is based on the indicators underpinning the previous formula to reflect the differential cost of responding to different levels of complex need such as homelessness, mental heath, family breakdown and unemployment;

75 per cent. is based on activity in the treatment system with areas being allocated a set amount per person treated effectively; and

The final element is an area cost adjustment figure to reflect the varying costs of delivering services in different part of the country.

To promote an orderly alteration to service planning, the change is being introduced over three years with the annual maximum reduction set at 5 per cent. in 2008-09, 15 per cent. in 2009-10 and 30 per cent. in 2010-11.

Funding allocated to Milton Keynes in each of the last five years is as follows:

	£
2005-06	1,066,714
2006-07	1,221,155
2007-08	1,221,155
2008-09	1,165,052
2009-10	1,084,242

For the next two years, the indicative amount for 2010-11 is £925,000 (announced January 2008). This however was based on performance at the time predicted to grow at 1 per cent. a year. Growth in Milton Keynes is currently anticipated to be in excess of this so the final allocation may increase. The exact allocation will not be known until January 2010.

Based on data collected by the University of Glasgow covering the period 2004-05 to 2006-07, the National Treatment Agency for Substance Misuse have advised Milton Keynes that an estimated 930 problematic drug users (PDUs) should be used for planning purposes. However, there are insufficient data on the number of PDUs to determine how the PDU population has changed over time.

The number of problematic drug users in treatment in Milton Keynes is only available for the last four years and is as follows:

	Number
2004-05	337
2005-06	385
2006-07	413
2007-08	378

NORTHERN IRELAND

Departmental Public Consultation

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland what consultations have been carried out by his Department since July 2007; and at what cost. [279345]

[Official Report, 20 July 2009, Vol. 496, c. 784W.]

Letter of correction from Shaun Woodward:

An error has been identified in the answer given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 20 July 2009. It has come to my attention that two further consultations (both with a nil cost) were not included in the original table.

The correct answer should have been:

Mr. Woodward: Since July 2007 my Department, excluding agencies and non-departmental public bodies, conducted the consultations set out in the following table. The table includes the cost where applicable.

Name of consultation	*Cost (£)*
Anonymous Registration—Protecting voters at risk in Northern Ireland—February 2008	Nil
Improving the Administration of Elections to the Northern Ireland Assembly—July 2008	Nil
Consultation on proposed draft Criminal Damage (Compensation) (Amendment) (Northern Ireland) Order 2008—June 2008	2,235.83
Proposed Northern Ireland Criminal Injuries Compensation Scheme 2009	2,681.22
Proposed draft of Sexual Offences (NI) Order—November 2007	2,171.26
Draft Guidance on Public Protection Arrangements Northern Ireland—May 2008	240.00
Proposed draft Criminal Justice Order 2007	5,984.39
Investigation Code of Practice issued under POCA 2002	Nil
Search Code of Practice issued under POCA 2002	Nil
Mentally Disorder Offenders Victim Information Scheme	Nil
Fine default in NI	2,088.09
Proposals for the reform of the law on murder, manslaughter and infanticide	2,126.77
Equality Impact Assessment and Guideline Principles for the Test Purchase of Alcohol	Nil
Pre Policy Consultation Special Measures: an evaluation and review 2009	70
Alternatives to Prosecution: A Discussion Paper	109.30
Draft Strategy for the Management of Women Offenders (inc consultation workshop)	1,545
Government's Proposals for the Safety of Older People took place between 14 June and 30 November 2007	8,094.78
Consultation on Community Safety in Northern Ireland took place between 27 October 2008 and 9 February 2009	28,771.62
The Explosive Amendment Regulations (NI) 2008	356.54
Manufacture and Storage of Explosives (Amendment) Regulations (NI) 2009	92.52
Modernising Police Powers. Your PACE, Your Say. (July 2007)	Nil
Police and Criminal Evidence (NI) Order 1989—Government Proposals in response to a Review of Police and Criminal Evidence (PACE) in Northern Ireland (January 2009)	Nil

FOREIGN AND COMMONWEALTH OFFICE

Sri Lanka: International Assistance

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the International Monetary Fund on the proposed emergency loan package to the Sri Lankan government; and if he will make a statement. [288634]

[Official Report, 21 July 2009, Vol. 496, c. 1259-60W.]

Letter of correction from Stephen Timms:

An error has been identified in the written answer given to the hon. Member for Sutton and Cheam (Mr. Burstow) on 21 July 2009. The full answer given was as follows:

Mr. Timms: I have been asked to reply.

The Government are deeply concerned about the humanitarian situation in Sri Lanka and are also committed to helping Sri Lanka avoid an economic crisis that would impact most on Sri Lanka's poor.

The Chancellor is in close contact with the IMF and with ministerial colleagues, especially the Foreign Secretary and the Secretary of State for International Development.

The International Monetary Fund has not yet presented a programme for Sri Lanka. Once a programme is presented, it will be assessed on its merits and the situation on the ground in Sri Lanka at the time.

The correct answer should have been:

Mr. Timms: I have been asked to reply.

The Government are deeply concerned about the humanitarian situation in Sri Lanka and are also committed to helping Sri Lanka avoid an economic crisis that would impact most on Sri Lanka's poor.

The Chancellor is in close contact with the IMF and with ministerial colleagues, especially the Foreign Secretary and the Secretary of State for International Development.

The IMF has presented a programme for Sri Lanka to be considered by the IMF board. The Chancellor is assessing the programme

Ministerial Correction

The following Ministerial Correction was received between Thursday 10 September and Monday 14 September 2009

CULTURE, MEDIA AND SPORT

Astley Park

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport on what date the application by Chorley borough council for a grant for modernisation work at Astley Park in Chorley was received by the Heritage Lottery Fund; how much funding was *(a)* applied for and *(b)* awarded; and on what date the grant was awarded. [284556]

[Official Report, 9 July 2009, Vol. 495, c. 931W.]

Letter of correction from Mr. Simon:

An error has been identified in the written answer given to the hon. Member for Chorley (Mr. Hoyle) on 9 July 2009. The correct answer should have been:

Mr. Simon: Advice from the Heritage Lottery Fund is that it received the application by Chorley borough council for a grant for modernisation work at Astley Park in December 2004. The monetary value of grant applied for was £2,004,000, and the monetary value of grant awarded was £2,004,000. The Heritage Lottery Fund awarded the grant to Chorley borough council on 1 April 2005. Chorley borough council received a grant increase of £373,000 from the Heritage Lottery Fund on 27 September 2007, and was also awarded £102,000 by the Fund in November 2003 as development funding, bringing the total grant award to £2,479,000.

Ministerial Corrections

The following Ministerial Corrections were received between Tuesday 15 September and Wednesday 16 September 2009

DEFENCE

Absent Without Leave

Mr. Gray: To ask the Secretary of State for Defence how many and what percentage of service personnel *(a)* went absent without leave and *(b)* deserted in each of the last 10 years. [254034]

[Official Report, 9 February 2009, Vol. 487, c. 1525-26W.]

Letter of correction from Mr. Kevan Jones:

Errors have been identified in the written answer given to the hon. Member for North Wiltshire (Mr. Gray) on 9 February 2009. In the second table recording the number of service personnel convicted of desertion the figures cited for the years 2007 and 2008 were incorrect. The correct full answer should have been:

Mr. Quentin Davies: Records held centrally on service personnel who have gone absent without leave (AWOL) relate to the number of incidents reported, not to the number of personnel. Therefore, individuals with multiple periods of absence are recorded more than once. For this reason the percentage of service personnel who went absent without leave in each of the last 10 years cannot be provided. The following table shows absence without leave statistics for each service by calendar year for each of the last 10 years:

	Incidents of reported AWOL		
	Royal Navy[1]	*Army*	*Royal Air Force*
1999	35	2,055	15
2000	55	2,710	25
2001	90	2,645	25
2002	110	2,950	25
2003	120	2,820	35
2004	185	3,030	55
2005	195	2,715	35
2006	155	2,330	10
2007	115	2,290	25
2008	125	2,105	5

[1] Over this period there have been a number of changes to the criteria for reporting absentees in the RN.

Notes:

1. Figures are rounded to the nearest 5.
2. While the figures reflect the number of reports of AWOL, it may come to light later that there are extenuating circumstances and therefore does not reflect the number of personnel who went on to be formally charged with AWOL.

The following table shows the number of service personnel convicted of desertion in each of the last 10 years:

	Convictions of desertion
1999	18
2000	8
2001	3
2002	7
2003	3
2004	3
2005	6
2006	8
2007	7
2008	[1]8

[1] This figure does not include the last quarter of 2008 for the RN.

Nuclear Submarines

Angus Robertson: To ask the Secretary of State for Defence what fires have taken place on UK nuclear powered submarines since 1979. [265176]

[Official Report, 2 April 2009, Vol. 490, c. 1396W.]

Letter of correction from Bill Rammell:

An error has been identified in the written answer given to the hon. Member for Moray (Angus Robertson) on 2 April 2009. The figure cited for the number of medium-scale fires was incorrect. The correct full answer should have been:

Mr. Bob Ainsworth: The records of fire incidents onboard UK nuclear submarines are not held centrally prior to 1 January 1987. Since this date the Royal Navy records provide the following information:

213 small-scale fires, that are categorised as a localised fire such as a minor electrical fault creating smoke dealt with quickly and effectively using minimal onboard resources.

20 medium-scale fires that were generally categorised as a localised fire such as a failure of mechanical equipment creating smoke and flame requiring use of significant onboard resources.

Three fires occurred while the submarines involved were in naval bases, requiring both ship and external resources.
